Remember the date of closing is June 1, 1912.

C. ALLISON TELFER, Manager, Sacramento, Cal.

FRESNO COUNTY AGRICULTURAL ASS'N

DISTRICT COLT STAKE FOR

Two and Three-Year-Old Trot AND Two and Three-Year-Old Pace

To be raced at the

FRESNO COUNTY FAIR, from Sept. 30th to Oct. 5, 1912

—AT—

FRESNO, CALIFORNIA. Entries Close June 1, 1912

CONDITIONS:

Rules of the National Trotting Association to govern except as otherwise provided.

Six to enter and four to start. Money divided 50, 25, 15 and 10 per cent. Two-year-old, best two out of three. Three-year-old, best three out of five.

All nominations close on June 1st.

Entrance and payments to be as follows: June 1st, \$5; July 1st, \$5; August 1st, \$5; September 1st, \$10; September 25th, \$25.

Colts to be named September 1st, 1912.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in.

All entrance money with \$200 additional in each stake guaranteed by the Fresno County Agricultural Association.

District comprises Merced, Madera, Fresno, Tulare, Kern and Kings counties. Colts to be owned by persons residing in the district on date nomination closes.

J. E. DICKINSON, President.

C. I. PULLIAM, Secretary, Fresno, Cal.

Peters

"Steel Where Steel Belongs" Factory Loads

Keep up their great record of winnings. At Laurel, Miss., April 23-25, Mr. H. D. Freeman made the **HIGHEST SCORE ON ALL TARGETS,**

712 out of 750

And won second general average for registered events, 429 out of 450. Mr. Freeman's recent work, summarized, includes:

| | | | | | | | |
|-----------------------------|---|---|---|-----|----|-----|-------------------------|
| Birmingham, Ala., April 2-3 | - | - | - | 385 | ex | 400 | } HIGH SCORE AT EACH |
| New Orleans, La., " 16-17 | - | - | - | 295 | ex | 300 | |
| Laurel, Miss., " 23-25 | - | - | - | 712 | ex | 750 | |

Users of "steel where steel belongs" shells have a big "hunch" over those shooting ordinary kinds. Why don't YOU take this advantage?

\$10,000 Guaranteed.

\$10,000 Guaranteed.

The Los Angeles Futurity Stake No. 1

FOR FOALS OF 1912

To Trot and Pace at Two and Three Years Old.

ONLY \$2 TO NOMINATE MARES. Entries close May 15, '12

TO BE GIVEN BY THE

Los Angeles Harness Horse Association

\$6,000 for Trotting Foals.

\$3,000 for Pacing Foals.

\$600 to Nominators of Dams of Winners.

\$400 to Owners of Stallions

MONEY DIVIDED AS FOLLOWS:

\$4000 for Three-Year-Old Trotters.

200 to the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Trot.

\$2000 for Two-Year-Old Trotters.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Trot.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

\$2000 for Three-Year-Old Pacers.

200 to the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Pace.

\$1000 for Two-Year-Old Pacers.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Pace.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace when mare was bred.

Four Special Cash Prizes for Stallion Owners.

Given to Owners of Stallions standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize, \$80.

2nd Prize, \$60.

3rd Prize, \$40.

4th Prize, \$20.

The Above Prizes Will Be Paid on June 15, 1912.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare on May 15, 1912, when name, color and description of mare and stallion bred to must be given; \$5 September 1, 1912 (with this payment color and sex of foal must be given); \$10 January 1, 1913; \$10 May 1, 1913; \$15 January 1, 1914; \$15 January 1, 1915.

STARTING PAYMENTS.—\$25 to start in the two-year-old pacing division; \$50 to start in the two-year-old trotting division; \$35 to start in the three-year-old pacing division; \$75 to start in the three-year-old trotting division. All starting payments to be made ten days before the date of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a trotter or pacer. Colts that start at two years old are not barred from starting again in the three-year-old divisions.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The race for three-year-olds will consist of three heats one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for only amounts paid in. Failure to make any payments forfeits all previous payments.

This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions.

Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in this entry, rules of National Trotting Association to govern.

A 1 additional fee of 5 per cent will be deducted from money winners on the above classes.

All races mile heats, 3 in 5, except in classes Nos. 3, 7, 8, 9 and 13, which races will be for three heats. One-third of the purse being divided at the end of

Members of any recognized driving association may participate.

each heat, 50, 25, 15 and 10 per cent, and class No. 4, mile heats, 2 in 3. A distanced horse in these races shall be entitled to money already won. Right reserved to declare off any race that does not fill satisfactorily, or to change order of program, to call two starters a walkover, who may contest for the entrance money paid in, payable 70 per cent to the first horse and 30 per cent to the second horse.

Owners may enter two or more horses from one stable for the same race by the payment of 1 per cent additional for that privilege, due when entry is made, but only one horse of the two can be started, except when proper transfer is made, according to rule and full entry fee on each entry.

In case class in which horse is entered does not fill, entry will be transferred to another class to which horse is eligible, subject to the approval of the owner.

Horses entered prior to September 1st can be declared out on that date, by written notice to the Secretary and an actual payment of 2½ per cent.

Any race not finished on the last day of the meeting may be declared ended and the money divided according to the summary. Entries close May 15th, 1912, except in class Nos. 7, 10, 11 and 13, the entries in which purses will close September 1st, 1912.

For entry blanks and conditions, address

SHIRLEY CHRISTY, Circuit Secretary, Phoenix, Arizona, or
C. A. CANFIELD, President. E. J. DELOREY, Secretary,
305½ South Spring Street, Los Angeles, California.

HANDLING UNRULY EWES.

In almost every flock will be found some ewes which will refuse to own their lambs, although the number is far less in well-bred flocks than in poorly fed ones, as has been stated before. Oftentimes these ewes can be made to own their lambs by backing them into a corner and holding them there while the lambs nurse them a few times.

Usually a ewe will own her lamb as soon as she smells the feaces which passes through it. Some of the more experienced sheep growers have crates which they have made for putting the ewe into while the lamb nurses.

After getting pure water into your cistern the next thing is to keep it pure. One good way to do it is to allow air to circulate in the cistern. Another is to put three to six inches of freshly burned charcoal in the cistern. If the charcoal will not stay at the bottom or is sucked up by the pump, but some gravel on top of the charcoal. When the cistern is cleaned all that need be done is to remove the charcoal and gravel, either placing it in the sun to dry and then returning it, or putting in new charcoal and gravel.

SAVE-THE-HORSE

TRADE MARK REG'D.

These letters sound remarkable, but they are not. For over 16 years Save-the-Horse has been doing just such splendid and incredible work.

Troy Chemical Co., Binghamton, N. Y.

Woodstown, Nev. Jersey, 4, 4, '12.

I thank you for the advice you gave me and I want to say your Save-the-Horse has done more for me than anything I ever spent \$5.00 for. Last December I bought from you one bottle of Save-the-Horse to use for Bowed Tendons. After using for five days the horse has been doing her own work ever since, or driving fourteen miles three times every week.

This same horse stepped in a hole two weeks ago and sprained her shoulder. I bought another bottle and used it on her shoulder and she never missed her work. A man came in to see me. He knows all that you did for me. I let him use mine three days and he went and bought a bottle right away. He could see in that time what it was doing for him.

Please send me two boxes of ointment, \$1.00 size, for which I enclose check. Advise me about mud fever. Respectfully,
SAMUEL P. VAN PELT.

INCREASES VALUE OF TEAM FROM \$140 TO \$400.

Manhasset, Nassau Co., N. Y., March 12, 1912.

Dear Sirs: In view of all the cures I have made I have so much faith in its powers that I don't think you ever need sign a guarantee. It has cured every case I have ever used it on. I cured a polo pony that had been hit with a mallet and threw out a ring bone; was terribly lame; went sound in two weeks. A roan hunter with bowed tendon went sound and removed the enlargement. I use it for everything and use it all the time. I have a big work team of farm horses 5 or 7 years that cost \$140. They were both very lame when I bought them, which is less than two months ago. To-day they are sound and would bring at auction \$400 or \$500. Save-the-Horse did it. Enclosed please find check, for which please send me two bottles of Save-the-Horse.
Yours truly,
BURTON C. MITCHELL

WHETHER ON SPAVIN, PUFF OR TENDON, results are the same, and every bottle sold with an iron-clad contract to cure or refund money. This contract has \$60,000 paid-up capital back of it to secure and make its promise good. Send for copy.

SAVE-THE-HORSE is sold by Druggists and Dealers Everywhere.
\$5.00 with binding contract to refund money or cure any case of BONE AND BOG SPAVIN, THOROUGHPIN, RINGBONE (except low), CURB, SPLINT, CAPPED HOCK, WINDPUFF, SHOE BONE, INJURED TENDONS AND ALL LAMENESS. No scar or loss of hair. Horse works as usual.
TROY CHEMICAL CO., BINGHAMTON, N. Y.
D. E. NEWELL, 80 Bayo Vista Avenue, Oakland, Cal.

The Jay Bird-Baron Wilkes Stallion

M. Patchen Jr. 2:27. Nearest McKinney is one of the handsomest McKinneys standing for public service. Color beautiful brown, 16 hands high and weighs 1250 pounds. When a three-year-old he was a natural trotter, had two-minute speed, trotted a mile on a half-mile track in 2:15, last half in 1:04, but owing to an accident was put to pacing in 1910 and in 44 days he got a record of 2:14 1/4 and in 1911 got a record of 2:13 1/4, fastest trotting record made by a stallion in California during the breeding season. Will make the season of 1912 at the

SAN JOSE RACE TRACK.

Fee, \$50 the Season, with usual return privilege. Free green pasture up to July 1st to all who pay stallion fee July 1, 1912. Best of care and attention given mares, but no responsibility assumed for accidents. No barb wire fencing; plenty of water and feed.

Address T. W. BARSTOW, 1042 Alameda Ave., San Jose, Cal. Phone S. J. 3000.

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 is by Bon Voyage 2:08; dam Loma B. by Stam B. 2:11 1/4; second dam Italia (great broodmare) by Sidney 2:19 1/4; third dam Dot 2:29 by Prompter, sire of dam of Gratt 2:02 1/2. Nobage's first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free. Will make the season of 1912 at EASTERBY RANCH, 3 miles east of FRESNO, CAL. TERMS: \$50 to insure. Address A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.

Athasham

Race Rec. 2:09 1/4
Reg. No. 45026.

A Game Race
Horse in the Stud

Bay stallion; stands 15.3 bands; weighs 1150. Sired by Athadon (1) 2:27 (sire of The Donna 2:07 1/4, Athasham 2:09 1/4, Donasham 2:09 1/4, Sue 2:12, Listerine 2:13 1/2, Mattawan (3) 2:17 1/2, and 8 others in 2:30); dam the great broodmare Cora Wick-ersham (also dam of Nogi (3) 2:17 1/2, (4) 2:10 1/2, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and Donasham 2:09 1/4 and Kinneysham (2) 2:18 1/2), by Juno 2:22 1/2 (sire of dams of Geo. G. 2:05 1/2, etc.). Athasham has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06 1/4 in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at Orchard Farm and Race Track, Fresno, Cal., for a fee of \$25. Approved mares. Good pasturage at \$3.00 per month. For further particulars, address this place.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24 1/4. 3-y.-o. Trial-half, 1:05; mile, 2:15.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California); dam, Daphne McKinney (also dam of Frank N. 2:07 1/4, the only other one of her get ever trained) by McKinney 2:11 1/4; second dam, La Moscovina (dam of Bon Guy, 3-y.-o., 2:11 1/2, Yolande 2:14 1/2, and Tina 2:20 1/4) by Guy Wilkes 2:15 1/4; third dam, Moscov 2:28 1/2 (dam of Mamie R., 3-y.-o., 2:15 1/2, and Oro Belmont 2:15 1/4) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambriño. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is

Season of 1912 at the RACE TRACK, SAN JOSE, CAL.

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address JOS. T'VOHIG, Manager, Race Track, San Jose, Cal.

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 337—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/2.

By MCKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:08 1/2, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:08 1/2, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Bred to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fastest stallion of 1910.

Grace Bond (3) 2:09¹/₄, winner both divisions of Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05¹/₄, Susie Jay 2:06¹/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12¹/₄.

Half brother to Sorrento Todd (4) 2:14¹/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18.. Sire of 12 in 2:10, including Bumps 2:03¹/₄, Rubenstein 2:05, Baron May 2:07¹/₄; sired dams of 4 in 2:10.

BELLE PATCHEN 2:30³/₄ In great brood mare list.

SORRENTO..... Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14¹/₄, Belle Sentinel 2:15, Eola 2:19¹/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:23¹/₄, The Tramp (sire), etc.

GRAND SENTINEL 2:29³/₄ Sire of 23, including Nettle 2:16¹/₄, Tosca 2:18³/₄.

EMPRESS..... Dam of 2 and granddam of 9.

HAMBLETONIAN 10 Sire of 40.

DOLLY SPANKER Dam of 1.

MAMBRINO PATCHEN 5S. Sire of 25, dams of 162.

SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc.

SENTINEL 250 Sire of 8 in list.

MAID OF LEXINGTON By Mamb. Pilot 29.

ABDALLAH MAMBRINO Sire of 15, dams of 42.

BIG ELLEN By Clark Chief.

4th dam Virge—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Borama. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. **\$100**

the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race.

Sired by the Great WILKES BDY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

| | | |
|--|---|---|
| Francis J. 2:08 | Legal Patchen ... 2:15 ¹ / ₄ | Dorothy C. 2:19 ¹ / ₄ |
| Evelyn Patchen... 2:10 ³ / ₄ | Lucile Patchen ... 2:16 | Louise Patchen ... 2:19 ¹ / ₄ |
| Scott Patchen ... 2:12 ¹ / ₄ | Jerry Patchen ... 2:16 ¹ / ₄ | Dr. Warren ... 2:19 ¹ / ₄ |
| Dessie Patchen ... 2:13 | Knightstown Belle 2:16 ¹ / ₄ | Roscoe Binning ... 2:20 |
| Frank Patchen ... 2:13 ¹ / ₄ | Alec Williams ... 2:18 ¹ / ₄ | Mary Patchen ... 2:20 ¹ / ₄ |
| Ruby Patchen ... 2:13 ¹ / ₄ | Lols Patchen ... 2:19 ¹ / ₄ | Black Patchen ... 2:20 ¹ / ₄ |
| J. C. Patchen ... 2:14 ¹ / ₄ | Auduous the Miller 2:19 ¹ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24¹/₄ (trotted to high wheels), Anglin Wilkes 2:16¹/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: **\$50** Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

PALITE 45062

A Sire of Early Speed.

License Certificate 181—"Pure Bred."

Sire, Nutwood Wilkes 2:16¹/₂, sire of Copa de Oro 1:59, John A. McKerron 2:04¹/₂, etc., and dams of San Francisco 2:07¹/₄, Mona Wilkes 2:03¹/₄, etc.

Dam, Palita (2) 2:16, dam of 3 in list; second dam Elsie, dam of 5; third dam Elaine 2:20, dam of 4, fourth dam Green Mountain Maid, dam of 9.

PALITE is the sire of the 2-year-old stake-winner Pal 2:17¹/₄ and the 3-year-old filly, Complete second to the Occident Stake winner El Volante in 2:13¹/₄, and timed separately in 2:14¹/₂, and sire of Nat Higgins (3) 2:20 trotting, Cornelia Scott (3) 2:24¹/₄ pacing. Palite is one of the best-bred stallions of the Wilkes-Electioneer cross living. His colts are all trotters, good-gaited and determined. He will make the season of 1912 at the ranch of the undersigned at

DIXON, CAL. Terms: \$40 for the Season with return privilege, or money refunded at my option if mare proves not in foal.

Good pasturage at \$2.50 per month and best of care taken of mares, but no responsibility assumed for accidents or escapes.

For further particulars address E. D. DUDLEY (Owner), Dixon, Cal.

LOGAN POINTER 52167

One of the best bred sons of the pacing king Star Pointer 1:59³/₄.

Dam Effie Logan (dam of Sir Albert S. 2:03¹/₄; Jim Logan 2:05¹/₄, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 11256 (sire of Shecam 2:12¹/₄ and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08¹/₄, etc.); 3rd dam Grace (dam of Daedalion 2:08¹/₄, etc.) by Buccaneer, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15³/₄ hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at DAVIS, CAL.

TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address

J. E. MONTGOMERY, Owner. CAREY MONTGOMERY, Davis, Cal.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11¹/₄, out of Helena 2:11¹/₄ (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16¹/₂ (sire of Copa de Oro 1:59, John A. McKerron 2:04¹/₂, Happy Dentist 2:05¹/₂, etc.); second dam Novelist 2:27 by Norval 2:14¹/₂; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address

J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

Resident Agent: A. W. du Bray, P. O. Box 102, San Francisco

STATE AGRICULTURAL SOCIETY.

Stanford Stake for 1914.

TROTTING STAKE FOR FOALS OF 1911.
Entries close June 1, 1912.

To be trotted at the California State Fair of 1914. \$50 entrance, of which \$5 must accompany nomination, June 1, 1912; \$5 November 1, 1912; \$10 June 1, 1913; \$10 June 1, 1914, and \$20 on the tenth day before the first day of the State Fair of 1914. The Stanford Cup of the value of not less than \$250.00 to be added by the Society. Mile heats, three in five, to harness. The stakes and added money to be divided 50, 25, 15 and 10 per cent. Right reserved to declare two starters a walkover. When only two start they may contest for the entrance money paid in, to be divided 66 2/3 per cent to the winner and 33 1/3 per cent to the second horse. A horse distancing the field will be entitled to first money only. In no case will a horse be entitled to more than one money. A horse not winning a heat in the first three shall not start in the fourth heat, unless said horse shall have made a dead heat; but horses so ruled out shall have a right to share in the prize according to their rank in the summary at the close of their last heat. Nominators are not held for full amount of entrance in case colt goes wrong; only forfeit the payments made, which relieves you from further responsibility and declares entry out. The stake is growing in value each year; every breeder should enter in it; it will enhance the value of his colt in case he desires to sell. Your colt entered in the Occident Stake for 1914 is eligible for entry in this stake. Remember the date of closing is June 1, 1912. C. ALLISON TELFER, Manager, Sacramento, Cal.

Montbaine

Reg. No. 48667

SON OF

MOKO 24457 (futurity sire) and **Krem Marie** (dam of 4 in 2:30) by **Krenlin** 2:07 3/4; second dam **Maymont** by **Blackmont**; third dam **Maywood** by **Blackwood**, etc.

Montbaine is a rich, mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

P. W. HODGES,

ONE WEEK from Saturday (June 1st) entries for the twenty-third annual race meeting of the Pacific Coast Trotting Horse Breeders' Association, which is to take place at Stockton, September 25th to 28th, inclusive, will close. This meeting follows the one to be held during the State Fair at Sacramento, and promises to be one of the most successful and best attended ever given by this sterling organization. Four futurity stakes will be raced for, besides seven other races for purses worth \$1000 each and two races for driving clubs, for which \$400 has been set aside in each event. The terms of payment and conditions of entry in all the races at this big meeting are very liberal and should draw a large entry list. The races are conducted strictly to rule, and every one participating knows that for a "square deal" the "Breeders" has a nation-wide reputation.

The people of Stockton are taking a deep interest in this meeting. The 120 stalls at the track have been put in excellent shape; the fencing has been repaired where it was needed and the course has been watered, harrowed and rolled until it is in perfect condition. The surface of this track is peculiarly adapted for racing purposes and many a horse has made a faster record on it than over any other. The climate of Stockton is warm and pleasant, and there is no lack of fine hotel accommodations; in this respect this city stands far ahead of most of the California cities. The means of transportation are many, two lines of steamers leave San Francisco for this place every day, two railway lines also stop there and several trains are scheduled for each day. Horsemen should not overlook this meeting; besides, there will be a big livestock show and agricultural exhibition that week and these attractions are always pleasing and instructive. With all these advantages and inducements added to the all-important fact that there will be an opportunity to win a goodly share of the \$17,050 offered, horsemen should not overlook that most important preliminary: "sending in the entries for their horses in time"; the date, as stated above for doing so, is Saturday, June 1st.

ANOTHER guaranteed Futurity stake for 1915, value \$7,500, is announced in this issue. Mr. R. J. MacKenzie, who recently purchased the Pleasanton racetrack and grounds, has set forth the conditions of this stake in our business columns, entries to which will close July 1, 1912. Owners of foals are to be congratulated in having so many opportunities offered them by which the money-earning capacity of these foals are enhanced through the number of valuable Futurity stakes which have been offered this year. Never in the history of the light harness horse on the Pacific Coast has there been anything like it, and the owner who does not take advantage of these great advantages to add a value to every

foal he has, at a trifling cost, will live to regret it. A colt or filly whose claim to start in one of these events is undeniable, is worth more than one that is not so fortunate. The terms of these guaranteed stakes are made so liberal and the payments so easy that there should not be a well-bred colt or filly on the Pacific Coast or elsewhere omitted. These stakes are open to the world, and as 1915 will be the year of the "greatest exposition on earth," many notable race meetings will also take place on this Coast that year. The proposition to hold one of the most attractive seven days' meeting ever seen in the world at the Stadium, Golden Gate Park, is being considered by the management of the Panama-Pacific Exposition, and when it is arranged to suit the horsemen, all the particulars will be published. These three-year-olds will also have races arranged for them on the programmes at this meeting and at San Diego, Los Angeles and Fresno, Stockton and Sacramento.

Mr. MacKenzie, by falling in line with the Pacific Coast Trotting Horse Breeders' Association, the Los Angeles, the California State Fair and other associations, has shown that by his giving this Futurity stake he wants Pleasanton to be one of the pivotal racing centers of the Pacific Coast recognized. He knows that long before this event is called Pleasanton will be reached by three of the finest and most picturesque highways in California. Nestling as it does at the foot of the mountain range which shelters it from the cold westerly winds and fogs, improved as this track and grounds will be by lawns, trees, shrubbery, buildings, and stables to accommodate 400 horses, Pleasanton will become more and more famous every year as the magnet which will draw hundreds to its racetrack when the race meetings are not being held, and thousands when they are. It should therefore be the aim of every colt owner from Vancouver to San Diego, and from Maine to California, to have an entry in this Futurity stake. It may cost Mr. MacKenzie quite a sum of money, but he has signified his willingness to stand this loss; hence it remains with the horsemen whether they appreciate his efforts to help him or not. Will they reciprocate by sending in the largest entry list ever obtained for a Futurity stake in California? It is earnestly hoped they will. It will only cost the insignificant sum of two dollars, payable July 1, to make an entry in it.

THE following circular has been issued to many of the leading men interested throughout California, and nearly every recipient has agreed to attend the meeting. There are many questions of vital importance to be presented at this convention. One is the adoption of the Kentucky racing law, which gives those in attendance at race meetings an opportunity to patronize pari-mutuel machines. This method has met with the greatest success in the Blue Grass region, and the heavy fines and penalties imposed upon those caught conducting pool rooms of renting premises for this purpose has effectually checked them. The result is noticeable in an increased interest being taken in the racing situation there. California needs just such a law, and needs it badly. This circular is signed by some of the most prominent and influential farmers, breeders, merchants and bankers in this State:

The undersigned, interested in the fostering of the heretofore great industry in the State of California of breeding blooded stock, and maintaining large breeding stock, farming, agricultural and driving parks, believing that the present laws of the State of California will operate to completely annihilate these industries, and will deprive many wage-earners of the means of livelihood, and will cause great financial loss to many individuals, and to the State at large, and after due consideration being of opinion that they have formulated a plan to relieve the situation to the satisfaction of practically all of the people of the State, you are therefore invited to attend a meeting to be held in the Palace Hotel, San Francisco, on Saturday, the 25th day of May, 1912, at 10 a. m., for the purpose of considering the above matters in convention assembled, and to devise ways and means to ameliorate the condition.

SINCE IT IS KNOWN that there will be a race meeting at Pleasanton commencing July 24th, several trainers have decided to take their horses to this celebrated track to give them their final preparation. The departure of Mr. R. J. MacKenzie's horses for the East last Wednesday leaves plenty of vacant stalls which will, it is believed, soon be occupied. Mr. DeRyder, the superintendent of the track, is not sparing of water or labor in keeping the course in perfect condition, and no better proof of its "safety" is needed than the fact that every horse that came

there lame last fall has gone away sound. The surface is soft and velvety and beneath it the soil is always damp and firm, insuring a good "foothold" without "cupping." There is plenty of green feed, grain, alfalfa and fillers in the infield; hay is cheaper here than anywhere else in California and the many demands of the horsemen at the track are promptly complied with. To those trainers who are compelled to work horses over hard and unyielding race tracks, the many benefits derived from training at Pleasanton should appeal to them. After the meeting in July the train to Vancouver can be made up at this place and be sent right through. Nearly all the horses that start from California will appear at this Pleasanton meeting, and, by having plenty of time to complete all arrangements for shipping from this central point, much confusion and annoyance will be saved.

BUTCHER DAY is the greatest day in the year for all who are interested in steer racing, vaquero racing and racing of all kinds. Wednesday, June 12th, is set apart for this purpose. The wholesale and retail butchers of San Francisco and Oakland have secured the Emeryville race track and Shell Mound Park for their celebration, and a royally good time is anticipated.

ENTRIES for the Santa Clara County Fair race meeting will close Saturday, June 1st. This meeting precedes the State Fair at Sacramento. Read the advertisement and do not forget to send your entries in on time.

MATINEE AT PLEASANTON TODAY.

The third matinee under the auspices of the Chamber of Commerce is planned for today. Entries give promise of being the best of those seen yet and the public is assured of another afternoon of enjoyment through the efforts of the committee and the horsemen interested.

Cups for the four events made up will be presented this time by Peter Rock, proprietor of the Rock Pharmacy; James Gill, dealer in Studebaker automobiles and motorcycles; T. D. Sexton, a horseman, and Crawford Letham, proprietor of Letham's bakery.

Events are to start at 1:30 p. m. Probably Mr. J. J. McCarthy will be the starter.

These affairs are given through the efforts of the Chamber of Commerce, which is endeavoring to aid in all ways possible the light harness horse industry there, assisted by Mr. R. J. MacKenzie, who has kindly loaned the track for this purpose. No admission is charged and everyone is welcome to the grounds and the free use of the commodious grandstand. All events are under regular trotting association rules applying to matinees, and the starter, judges, timers and officials are persons who are recognized as authorities in the places they occupy.

Early visitors from San Francisco should take the S. P. train at the Ferry building at 7:20 a. m. and their attention is called to the fact that this is twenty minutes earlier than the time this connection has been leaving for some months past. The next S. P. train leaves the Ferry at 9 a. m., while on the Western Pacific a train can be had from the San Francisco side at 9:10 a. m., reaching Pleasanton at 10:50.

GOOD FOR THE PACIFIC COAST.

Our esteemed contemporary, the Western Horseman, publishes the following in its last issue:

"Pacific Coast horsemen are to be congratulated on the fact that the Canadian sportsman, R. J. MacKenzie, has purchased the Pleasanton, Cal., track. This means that the boom in trotting affairs, which commenced early last winter, will receive a strong stimulus, for Mr. MacKenzie will place his nationally famous track in first-class condition, erect new buildings and make other improvements. The citizens in the county where the track is located have already formed organizations to support and encourage this well-known horseman in his new enterprise. These associations will see to it that new roads and boulevards connecting Pleasanton with the surrounding country will be immediately constructed, and plans are under way for holding a big fair and race meeting. Mr. MacKenzie has for a number of years made Pleasanton his winter home, finding relaxation from the heavy burdens of business by assisting in the training and developing of his large racing stable, and now that he has acquired property interests there, there is no question but that Pleasanton will become one of the great centers of the trotting world. All along the Pacific Coast—California, Washington and Oregon—there is a renewed interest in the light harness horse. Race meetings will be conducted on a more ambitious scale than heretofore, and the breeders are conducting their operations on a liberal and progressive plan. With Mr. MacKenzie's energy and great wealth, coming as a climax to the movement already started, there is no question but what there will be a veritable boom in trotting fairs along the Pacific Coast."

NOTES AND NEWS

Send in your list of foals.

Entries in the Pleasanton race meeting will close June 17, 1912.

There will be a racing matinee at Stockton tomorrow, May 19th.

The track at Pleasanton never was in better shape than it is at present.

The pacer Dr. B. P. 2:06½ will be raced on the Pacific Coast Circuit this year.

Birdie (dam of Bodaker 2:13), by Jay Bird, has been bred to Tom Smith 2:13¼.

T. D. W., the fast pacer that "Farmer" Bunch had at Pleasanton, is now at the Stockton track.

Great preparations are being made for the race meeting at Woodland, July 4th, 5th and 6th.

Gracie Pointer (3) 2:07¾ is going sound again, and will be seen on the Pacific Coast circuit this fall.

Over 400 box stalls are to be built at the Pleasanton race track. The plans will soon be ready for publication.

The second payment in the Canfield-Clark stake, No. 4, is due and payable at Los Angeles not later than June 1.

Chas. De Ryder will be seen at a few of the race meetings in California this year with some good trotters and pacers.

Kinlight, by McKinney 2:11¼, out of Lightning 2:11, by Alcantara 2:23, is regarded as the making of a very fast pacer.

John Quinn's horses are doing well at Sacramento; there is not a lame nor a sick one in his big stable of trotters and pacers.

A big matinee race meeting will be held at the Los Angeles race track May 25. The one held there May 11 was a splendid success.

The A. T. A. objects to the word "stake" as applied to early-closing purses, and very properly has notified its members to refrain from using the word in that connection.

Ella Mac, the Futurity winner that got a record of 2:14½ at Sacramento last year, as a three-year-old, has been turned out, but will be taken up next year and worked.

Judge E. A. Colburn, Denver, Colo., has abandoned his plans for a Grand Circuit campaign with Mary Louise 2:21½ and Lillian Axworthy (3) 2:19. They will be raced on the Pacific Coast.

Up to date there appears to be no decided favoring for the M. & M. at Detroit. It is to be hoped that the money in the rich events this season will be more widely distributed than it was last year.

A two-year-old trotting filly by San Francisco 2:07¾, owned by Geo. Nichols, Mt. Clemens, Mich., and in the stable of W. L. Snow is said to be a promising youngster.

Young Miss, dam of Bingen 2:06¾, is said to be surely in foal to Colorado E. (3) 2:04¾. She is now owned by Smyser Bros., proprietors of Hillbrook Farm, Lyndon, Ky.

J. W. Zibbell, the well-known horseman, has purchased Colonel Dailey, a standard bred stallion by McKinney, dam by Charles Derby. Fresno horsemen believe Colonel Dailey will become a great performer.

Have you noticed what a splendid series of races are to be given by the North Pacific Fair Association. Every owner and trainer who intends to race from June 28 through that circuit will be royally treated.

The famous matron Santos (dam of Peter The Great 2:07¼, etc.), is being bred to a son of Allerton, owned not far from Kalamazoo, Mich. She has been barren for a number of years, and as a last resort the young horse is being tried.

Bob Fitzsimmons 2:07½, a famous pacing stallion, dropped dead at New Meadows, Idaho, the other day while some prospective purchasers were looking him over. He is the sire of a number of the most promising youngsters on the turf, several of which are now being trained on the Boise track. Bob was owned by Irwin & Fleming of Boise.

John Ashton, Paris, France, writes: "Edmond Blanc, the well-known French turfman, has just presented to the Equine Museum at the Saumur Cavalry School the mounted skeleton of the famous racehorse Flying Fox. This great thoroughbred was bought by M. Blanc at the enormous price of \$200,000."

Score another splendid chance for foals of 1912. Mr. R. J. Mackenzie is offering a Futurity stake of \$7,500 for foals of this year, to be decided on the same basis in 1915 as the Futurity stake offered by the P. C. T. H. B. Association.

Mrs. F. H. Burke has just had erected on the La Siesta farm adjoining the San Jose Driving Park a very neat building containing eight large box stalls. No doubt Wanda 2:14¾, the "stand-by" of this farm, will occupy one of these.

The attention of horse owners is called to the date of closing of entries for the Pacific Coast Trotting Horse Breeders' Association meeting; it is Saturday, June 1st. This race meeting will take place at Stockton, September 25th to 28th, inclusive.

Governor Dix, of New York, before leaving for a trip to Europe, a week or two ago, vetoed the bill appropriating \$200,000 for improvements in the racing plant of the State fair at Syracuse, which included rebuilding the track and stables.

Letter B. (dam of Cresto 2:12½), the handsome mare belonging to Jas. Dunne, recently foaled a well formed filly by Dictatus Medium at San Jose. This youngster is a full sister to Dicto, a promising pacer in Chas. James' string.

Chas. Durfee has gone to Los Angeles. Rumor has it he is going to get some of the Futurity candidates that were in his son William's care. He may stop over at Hemet and see his old time friend Budd Dohle before he returns.

The Western Circuit in Canada sends forth the tidings of 31 days' racing this season, with a total of \$120,000 given in purses. The first meet is in Calgary, seven weeks from Monday. This is the maiden year of the circuit and good luck to them is the wish of all horsemen.

W. P. McNair, Phoenix, Arizona, has been engaged to do the starting on the Pacific Coast—and the first end of the North Pacific Fair Circuit. Mr. McNair was formerly well known as a starter but with the exception of performing at the Phoenix meeting has been out of the game for a number of years.

When Chas. James starts out on the circuit this year he will have a good string of trotters. At present he has Cresto, the black gelding to which he gave a record of 2:12½; St. Thomas 2:17½. Brutus, Reina Directum and Dicto; these have no records, but will have ere the circuit ends.

Will Guthrie, the coal black stallion by Educator, that paced in 2:07¼ alone on the Pleasanton track, caught a slight cold, and his owner and trainer, Mr. M. Henry, did not attempt to work him until he had fully recovered from its effects. The horse is all right now, and jogging every day.

If you want to get the very latest and most authentic news of all that transpires in the light harness horse industry on the Pacific Coast, subscribe for the "Breeder and Sportsman." It has been established since 1882 and has subscribers on its list that have never missed an issue in thirty years.

Holly Brand is the name of a good looking pacer Mr. S. S. Bailey has at Pleasanton. He recently paced a mile in 2:08¾, and as he is one of the rugged, strongly-built sort, looks as though he might keep his competitors pretty busy hustling to heat him this fall; especially if there are any split heats.

Ten of the progeny of Peter the Great (4) 2:07¼ sold at the Chicago sale for \$7855, an average of \$785.50. There was one colt, however, a yearling called Peter Volo out of Nervolo Bele, by Nervolo 2:04¾, that brought \$2500. Ed. Willis, of Lexington, Ky., was the purchaser.

Gene Bowerman has in a bay yearling filly by Moko-Zephyr 2:07¼, one of the very fastest and best gaited youngsters ever seen at the Lexington track so early in the season. Gene only allows the little lady to brush a short distance, but she can fairly fly and does it "just right."

Fifty head of horses are in training at Regina Exhibition track, Regina, Sask., Can., the largest string being handled by Curt Brown and Charles Wilson. Curt Brown is the former Waterloo, Iowa, trainer who raced Western Girl and Johnny G. so well a few years ago.

C. W. Hoffman, Bozeman, Mont., has sold his entire herd of sixty-five horses to Dan Bryan, of Miles City, Mont. Bozeman 2:17, now 24 years old, sire of Doctor Red (p), 2:09¼ and 19 others, was presented to Mr. Bryan, he signing an agreement not to sell the old horse, but to keep him until death.

The Two Thousand Guineas stakes, one of the classic events of the English turf, was won on May 1st by an American. A length in front of the second horse, H. B. Duryea's Sweeper 2d finished first, in a field of fourteen, carrying the noted jockey Danny Maher, who is also an American. The time was 1:38.25. It is probable that this victory will make Sweeper 2d the favorite contestant for the Derby. Jaeger was second, Hall Cross third and the favorite White Star fourth. Hall Cross is owned by C. Bower Ismay, a brother of J. Bruce Ismay.

Everybody should try and attend the matinee races this (Saturday) afternoon at Pleasanton. The S. P. trains leave the ferry building, foot of Market street, San Francisco, at 7:20 and 9 a. m.; Western Pacific train leaves at 9:10 a. m.

There are many fine foals by The Bondsman to be seen, but the one Lottie Lynwood (sister to Sonoma Girl 2:04¾, etc.) has at foot is one of the strongest and lustiest looking that has come to Pleasanton. Mr. Chas. Butters, of Oakland, was so well pleased with his appearance he decided to abandon all efforts to race its promising dam this year, and has bred her back to the son of Baron Wilkes 2:18, and Sorrento.

Nine stakes, seven of which are \$1,000 each, and two are \$500, have been opened by the Fort Garry Turf Club for its meeting at Winnipeg, Manitoba, June 28th to July 1st. The classes are well arranged and the conditions are liberal, and in all pacing races, trotters are allowed five seconds. Entries for the stake races close on May 20th, with E. J. Rochon, secretary, from whom entry blanks may be secured.

J. L. Washburn, Lucas County, Iowa, reports to the Breeders' Gazette the case of a mare of Morgan blood giving birth to a colt when 32 years old. M. T. Grattan once reported the case of Sally Feagles by Neave's Cassius M. Clay, producing to the cover of her own son at 33 at Rushford, Minn. Jessie by Gates' Emperor also reported by Mr. Grattan had a foal, Deer Lodge, at 33.

According to a cable dispatch, the Billings trotters, including the champions, The Harvester and Uhlán, arrived at Hamburg in fine condition and all doing well. According to a pre-arranged schedule, they were shipped to the Imperial trotting track at Moscow, Russia, a few days after arriving at Hamburg, and will receive their preparatory work for starts against time over the famous Russian track.

Some men who were working in a well about fifteen feet from the race track at San Jose frightened the trotting filly Hazel Smith last Thursday. She made a sharp turn on the track and threw her driver, Patsy Davey, out. When assistance reached him he was insensible and for a while it was thought he was badly injured, but he is able to be around again. The mare never moved out of her tracks after she made the plunge.

Edward Patchell (3), by Dan Patch 1:55¼, dam Lizzie O'Connell (p) 2:24¼, a very promising pacer in Arlie Frost's stable, died at Albuquerque, N. M., en route to Libertyville, Ill., where the Frost stable was to finish its preparation for the racing season. Arlie says he was a very fast pacer, always on the pace and wore very few fixings in the way of boots and so on. Dan Patch 1:55¼ surely lost a 2:10 three-year-old, and, as his trainer says, "the best pacer I ever had."

At the sale of the Ceideburg horses at Anthony, Kan., on April 17, the three-year-old pacing filly, Minnie L, by Walter Direct 2:05½, out of Little Squaw 2:04¾, was purchased by H. W. Buckhee of Rockford, Ill., for \$2050. Charles Mack, a three-year-old trotter by Harry Axtell, was purchased by Fred Edman for \$450. Sir Frisco, a two-year-old of San Francisco 2:07¾, dam Little Squaw 2:04¾, was purchased by J. B. Hunter of Sikeston, Mo., for \$1400.

In an express car which started last Monday from Los Angeles to Calgary, the following horses were in care of Mr. Al. Russell and James Stewart: Judge Dillon, by Sidney Dillon; Bessie T. 2:24, by Zombro 2:11; Helena Jr., Otto Zombro, Maud P., Monica McKinney, Petigreu Jr., Hal Mack, Lady Mack, Lady Halford, The Monk and Hal McKinney. A telegram from Portland, Or., says all these horses are shipping fine. They will be raced in Calgary, and will then follow on down the Pacific Coast circuit.

"Farmer" Bunch has Strathdon (trial 2:18); a two-year-old pacing bred trotter by Star Pointer 1:59¼, out of a pacing mare by Searchlight 2:03¼ that gives every indication of being a fast one, and Jim Rea III, a two-year-old by Nearest McKinney 2:13¼, out of Much Better 2:07¼, that has already paced a mile in 2:25½. This trainer recently received another Nearest McKinney, a four-year-old pacer, belonging to a Mr. Maynard, that shows it will be no trouble for him to pace in 2:20 this fall.

One of the largest stakes in the early English races of the season is the Queen's Prize of \$5,000, which was won at Kempton Park by the American thoroughbred Duke of Sparta. This race is at a mile and a half. The five-year-old son of Dieudonne and Jovita carried 95 pounds. When Duke of Sparta was sold by J. B. Haggin in England as a yearling, he brought \$325. Among the horses he beat in this race is L. H. Winans' Dalmatian, said to have cost him \$40,000.

One of the landmarks of Ukiah is soon to disappear when the Ukiah race track is subdivided into two, three and five-acre tracts, as has been recently arranged. This property was purchased about thirty years ago by the Ukiah Park Association, and has been the scene of many district fairs and race meetings, having what is considered the best half-mile track in the State. A few years ago the property came into possession of Thomas L. Charlton, F. C. Albertson, Henry Marks, L. G. Simmons and H. B. Smith.

Don't overlook the North Pacific Fair Association's meetings; \$120,000 are to be distributed over them. The Calgary meeting commences June 28 and ends July 5. Entries to some of the purses will close June 20.

June Pointer (no record) paced a mile at Pleasanton Tuesday in 2:08½; last quarter in 30 seconds. Chas. DeRyder says he is one of the gamest Star Pointers he ever saw, and seems to improve in speed every time he works him.

The two road mares advertised in this issue should find a quick sale, for they are fine individuals, pure gaited, need no boots, thoroughly broken and give every promise of being fast trotters. They must be sold.

Daniel E. Hoffman of this city is so well pleased with the speed shown by his trotting gelding No Account, by Tom Smith 2:13¼, that he believes he will be some account when the races are called. Hence he will have him trained this summer.

Frank H. Turner, of Santa Rosa, writes: "I have sold the four-year-old filly I advertised in the 'Breeder and Sportsman.' I believe she is the very best trotter I ever owned. I have decided to take the balance of my horses to Pleasanton and prepare them for sale."

Lexington, Ky., May 14.—Because he liked her singing and considered her the one best attraction at the big October meeting of the Kentucky Horse Breeders' Association, Horace A. Wilson, who, until his death, was secretary of the association, in his will named Blanche B. McHaffey, of Cincinnati, sole heir to his estate, and also named her administratrix without bonds. The estate is said to be large.

C. M. Buck, of Fairhault, Minn., recently purchased from C. F. White, of Seattle, Wash., the handsome bay mare Sophia Dillon 2:11¼, by Sidney Dillon, out of By Guy, by Guy Wilkes 2:15¼. This mare was considered the purest gaited trotter sired by Sidney Dillon. She was only beaten a head by Kid Wilkes 2:09¼. Many claimed this record should have been recorded over a second and a half faster. Sophia Dillon should have had a mark of 2:07½. Mr. Buck is to be congratulated upon getting one of the finest looking as well as the fastest of the family.

Dr. I. M. Proctor, of Petaluma, has a very fine looking two-year-old filly (standing almost 16 hands high) on pasture at the J. H. White farm, Lakeville. This filly is about as well bred as any in the country. She was sired by McMyrtle (he by McKinney 2:11¼, out of Myrtlewood, by Iran Alto 2:12¼; second dam Nettie Nutwood) dam of Hilldale 2:17¼, and granddam of Sterling McKinney 2:06¼, by Nutwood 2:18¼, dam Belle (full sister to Thomas R. 2:09¼), by Gossiper 2:14¼; second dam The Bells by Eclectic (brother to Arion 2:07¼); third dam Gypsy, by Dawn 2:18¼; fourth dam Nameless, by Williamson's Belmont. Dr. Proctor says he will have her taken up this fall and worked a little. She is a very pure gaited trotter.

The Woodland Driving Club met last Monday night for a double purpose, first to elect a new board of directors, and second, to discuss the proposition of taking the lead in giving a three days' Fourth of July celebration in that city. The latter was discussed from every angle and it was determined to canvass the matter among the business men and see whether they would back up a celebration of the magnitude designed. The celebration is designed to occur on the 4th, 5th and 6th of July, with several distinct attractions. On the Fourth it is proposed to have a good old time celebration with harbecue, dancing and fireworks, and all the et cetera usual to celebrations of that sort and racing in the afternoon at the track.

Fred Chadbourne has quite a good string of "eligibles," and on Tuesday he worked out a handsome big three-year-old trotting filly by Palite, a mile in 2:23¼. She is out of a mare by Capt. Jones, son of McKinney, 2:11¼, and belongs to Mr. Ed Service. The four-year-old Bon Voyage filly out of Ruth C (dam of Red Light 2:14¼ and O'Kane Pride 2:19¼) by Guide 2:16¼, belonging to Mr. D. C. McNally, of Livermore, worked a mile in 2:22, and is as well-made a filly of her age as there is at Pleasanton; in fact, there are few better shaped ones anywhere. In an adjoining stall was Leonid, a three-year-old pacing colt by Aerolite 2:07½, out of Lorna Doon (dam of Pal 2:17¼, etc.) by Bayswater Wilkes. He has been a mile in 2:23, a half in 1:08, and last quarter in 32½ seconds. This pacing "prospect" belongs to Mr. E. D. Dudley, of Dixon.

Fred H. Chase Co. will hold a fine sale of trotters and pacers Monday evening, June 10. Ted Hayes is consigning the handsome, well-bred stallion Bon Volonte (3) 2:19¼, by Bon Voyage 2:08, out of Missie Medium (great hood mare) by Rampart; granddam Belle Medium 2:20, by Happy Medium; Voyageur (3) 2:22½, and some others. Besides these, Charles Johnson, of Woodland, has listed fifteen head by such sires as Tilton Almont, Tube Rose, Falrose, Cubit, Bayswater Wilkes, Alcantara Jr., Airlie Demonic, Mamhrino Chief Jr., Dan Logan, etc. These are all well broken, and have been selected with the greatest care. There are several that are also broke to ride. Owners of horses who wish to get good prices for them should send in their names, pedigrees and descriptions of these horses at once to this well-known firm of auctioneers.

Baron Wilkes 2:18 has sired about twenty colts in the last three years. The percentage of colts and fillies has been about the same. He is now in his 30th year, hale and hearty, never misses a feed and is playful as a gentleman could be with as many years as his behind him. He is living a life of ease at the Baron Wilkes Farm, Emporia, Kan., in actual retirement at the Ralston's. Father and son are giving the old futurity hero the best attention possible.

Kate Lumry 2:20½ (dam of Ella Mac 3, 2:14¼. Katalina 2:11¼, and Eddie G. 2:30) by Shadeland Onward 6010, out of C. C. L., by Combat 1038, has an Expressive Mac colt at foot, and has been bred to The Bondsman. J. W. Zibbell, her owner, also sent Evangie (full sister to Online 2:04), by Shadeland Onward 6010, out of Angeline (dam of Ontonian 2:07¼, and four others in 2:30), by Chester Chief 2172; second dam Lady Pine, by Mapes Horse 2063, to The Bondsman. Evangie also has a filly at foot by Expressive Mac 2:25¼. There are few better looking mares in California than these, and they should cross well with this great son of Baron Wilkes 2:18.

\$120,000 will be distributed among horsemen on the North Pacific Fair Association, which includes Calgary, Vancouver, B. C., Portland, Salem, Walla Walla, North Yakima, Vancouver, Wash., Spokane and Boise, Idaho. Write John W. Pace, Seattle, Washington, for stake books at once.

BOARD OF REVIEW LIFTS BAN ON PACER.

At the final session May 8th of the Board of Review of the National Trotting Association, held in Murray Hill Hotel, one of the most important phases of the early deliberations was the reconsideration of the case of W. J. Whitton of Peterborough, Ont., which came up for the third time within two days, after having been held over from the December meeting.

As the result of Tuesday's session, at which Whitton asked for relief from the suspension hanging over his pacing mare, Lady of the Lake, which, prior to his purchase of her had been expelled unknown to him through having been raced under the name of Susie Hal, the request was denied.

On May 8th, however, Whitton had the case reopened, and, with his wife as a witness, managed to have the board take such a favorable review of his application that the mare was reinstated. This case is said to be the first in twenty years when the iron-clad rule of the association to the effect that a "ringer" shall be banished forever has been rescinded even for the time being.

An echo of the Chateaugay Agricultural Society \$20,000 handicap last fall, at which no money was paid to the winners after the race was run, was heard when the application of James Farley, of Plattsburg, N. Y., was reached. Because of the serious illness of Mr. Farley the case was postponed. Another case in which the Plattsburg man was interested resulted in the removal of the suspension hanging over Eugene Snow, a driver, for non-payment of \$300 entrance fees which Mr. Farley admitted should have been charged up to him.

The Board wrestled with many cases of minor importance throughout the afternoon, and adjourned at 6 o'clock. Those who were present included P. P. Johnston, President, of Lexington, Ky.; De Forest Settle, Syracuse, Atlantic District; John Early, Nashville, Tenn., Southern District; A. P. Sandles, Ottawa, Ohio, Western District; J. H. Johnson, Boston, Mass., Eastern District, and William H. Gocher of Hartford, Conn.

DEATH OF LOCKHEART 2:08½.

At the age of 26 years, Lockheart 2:08½, the fastest trotter by Nutwood 2:18¼, died April 27th, at Sherwood Stock Farm, St. Paul, Minn., from colic. Despite his advanced age, Lockheart remained sturdy and vigorous to the end of his career, and his death was not expected. Foaled in 1886, and bred by the late J. C. McFerran, Louisville, Ky., he was purchased by Mr. G. W. Sherwood when a youngster, and taken to Minnesota, where his opportunities as a sire were limited, yet he is credited with 26 trotters and 26 pacers in the list, the fastest of which are the pacers Governor Searles 2:07¼, a notable winner for several years, and who has paced several heats better than 2:05; La Belle (3) 2:09, the champion three-year-old pacing filly; George W. Newton 2:11¼, a good winner last year, and slated for a Grand Circuit campaign in 1912; Ashland Lockheart 2:12¼, Lockstep 2:13¼, Miss Marigold 2:13¼, Irene Lockheart 2:14¼, Max Lockheart 2:14¼, Laverna 2:15 and Teddy Lockheart 2:15, and the trotters Stephen L. 2:25¼, Cecil Heart 2:16¼, Oslund L. 2:16¼, a winner in Russia; Lockheart Lad 2:16¼, Checkheart 2:17¼ and Jimmy King 2:17¼. Thirteen of his sons have sired 12 trotters and 8 pacers in the list, while 16 daughters have produced 14 trotters and 11 pacers in the list, including the trotters King Woodford 2:14¼, Reuben W. 2:14¼, Elva Mc. 2:17¼, Heartwood 2:17½, and Alice Woodford 2:18¼, and the pacers Obid 2:11¼ and Pearl Lester (p) 2:13¼. Lockheart, as before stated, was by Nutwood 2:18¼, while his dam was the great broodmare Rapidan (dam of the famous \$10,000 broodmare By By, purchased by H. & I. Pierce for the Santa Rosa Stock Farm many years ago), by Director; grandam Madam Headley, another great broodmare, by Edwin Forrest 49.

R. J. MacKENZIE'S HORSES LEAVE CALIFORNIA.

To the express train which left for the East last Wednesday afternoon at 2:15 three cars were attached at Pleasanton and everybody of note in that pretty city was there to see them leave. Early in the morning Mr. MacKenzie was on hand to see that the horses, their feed, sulkies, harness, blankets, etc., were all in order for shipment. Wm. Fleming was in charge, as Havis James had left for Los Angeles Monday evening to see his mother who was visiting there. He will be at Libertyville, Illinois, when the horses arrive. Mr. McDonald and the balance of the careful assistants who have made so many friends since their arrival had everything in readiness, and at eleven o'clock the procession of horses started from the track and were placed in their stalls in the two large express cars. The feed, vehicles, trunks, etc., filled another car. Mr. MacKenzie is sending nine men with his sixteen horses, Elmo Montgomery is sending one with his pacer Jim Logan 2:05¼, and Messrs. Hazard & Silva are sending one with their remarkably fast four-year-old Del Ray (trial as a three-year-old 2:05).

It reminded one of the days when the late Monroe Salishury shipped his string of trotters and pacers from this depot; everything was conducted so quietly and systematically. The floors of the stalls were covered with straw, water tanks filled, ventilators placed in working order, thermometers all in place, feed racks filled with feed, and the new water buckets hung where they can be reached handily. The stalls were placed at the end of each car. These cars, by the way, were each made to carry twelve horses comfortably, but Mr. MacKenzie decided that he would only put nine in, and as nearly every horse and mare has done considerable traveling by rail there were no fears expressed as to any having "car fright."

Because many people have an idea that all these horses have been "worked to their limit" it is in order perhaps to give some facts and figures to controvert this. The great object, in fact, the principal one, in having these horses fitted for the long campaign has been to gradually harden their muscles by careful and systematic training in California, and this has been an advantage to them. In the East where the winter this year "has sat a long time in the lap of spring," the trainers are compelled to force their horses to get them in readiness for the races in July. In doing so, many a "great prospect" has necessarily been lamed and thrown out of training. They became muscle bound or have stomach trouble, if their feet and legs have not become affected. There are thousands of horses in training during May and June in the East, Middle West, Northwest and South, which are undergoing this nerve-racking, forcing process.

All the horses in these two fine cars, with the exception of Jim Logan, May Mack, The Earnest and a few others arrived here very late last Fall suffering more or less from "ailments"; they are returning fully restored to health and soundness and will undoubtedly make a good showing. If they have as much "gameness" as their gentlemanly owner has displayed, there will be no question as to their success in winning every hard fought battle they engage in.

Following is a list of the trotters and pacers and their fastest "workouts." They will be at least five weeks at the Libertyville, Illinois, track, where Messrs. James & Spencer will give them their final preparation:

Vernon McKinney 2:02 (trial 2:12).
Merry Widow (pacer) 2:03¼, trial 2:06. This little mare has been the fastest of any in the string.
Bert Kelley (trotter), no record (trial 2:12¼).
The Earnest 2:21¼ (trial 2:16) a good three-year-old trotter, by Exponent.
Bessie L., (trotter) no record, trial 2:16, by Zombro 2:11.
Billy Smith (pacer) 2:15½, trial 2:10¼.
Harry Direct 2:19¼, fastest mile, 2:10.
Star Brino (pacer) 2:10¼, trial 2:08¼.
Peter Preston (pacer) 2:08½, trial 2:08¼.
Maymack (trotter) no record, trial 2:13, by Arthur Wilkes 2:28.
Pan Boy (pacer) 2:12½, trial 2:09.
J. C. Simpson (trotter) 2:17¼, trial 2:14.
Greenhaum (trotter) 2:22¼, trial 2:15.
El Vivillo (trotter), trial 2:14¼.
Joe Patchen II (pacer) 2:17¼, trial 2:11.
Jim Logan (pacer) 2:05¼, trial 2:13¼.
Zomblack 2:24½, El Zombro (no record), One Better 2:24½ and St. Thomas 2:17½ will remain here until next year.

Ben Walker has all his horses at Sacramento in fine shape, but pins his faith on Teddy Bear 2:05. It was a well-known fact that this little pacer wore shoes constantly from the time he was ten months old, and when he started on the campaign last year his feet were in a terrible state. Nature had not had a chance with them, consequently they were "rasped to the quick." After the campaign ended Ben took off Teddy's shoes and paid particular attention to the care and growth of his hoofs. The other day he had him shod and astonished the horseshoer by the apparently incredible growth. Since then Teddy acts like a different horse, and it will take a two-minute horse to beat him this fall. Ben Walker has always been a "crank" at getting horses' feet right, even to the point as a boy he first sat behind a horse on Alden Goldsmith's farm in Orange county, New York.

Drink Jackson's Napa Soda.

RACING MATINEE AT LOS ANGELES.

Don Pronto, Berry & Burnette's black stallion with a track record of 2:05 1/2, stepped two heats of the free-for-all pace at the matinee of the Los Angeles Driving Club yesterday afternoon at Exposition Park in 2:10 1/2 and 2:09, easily winning the event from three starters. The Don led all the way in both heats and showed no signs of tiring after the last heat had been run. He could probably have gone a third mile faster than the first two if necessary.

While the time in that race was the fastest made on the course yesterday, the 2:20 pace, the sixth event of the day, furnished the most thrills for the crowd of more than 1000 people who viewed the races. It required four heats before the result of the event was finally known. David St. Clair, Joe Nickerson's little black gelding, who was placed third in the first heat and second in the second, succeeded in winning the two last heats and the race.

In the first heat Zomstine, George T. Beckers' bay horse, nosed out the field after a close race, but was content with a third and two fourths in the other miles. In every heat the horses were bunched to the stretch and it was any one's race until they had crossed the line. It was not until the third heat that David made himself known. In that mile he succeeded in nosing Altitude and Zomstine out of first in the last fifty yards. Both Watkins and Beckers were getting the utmost out of their horses in an effort to win the event.

While the other horses were tiring, David was getting stronger all the time, and in the final heat, while Altitude gave him a hard race, he was never headed and crossed the line half a length to the good. The fastest heat was the first one, which was won by Zomstine in 2:17 1/2.

In the free-for-all trot Lady Alice, Sam Watkins' mare, with Durfee driving, and Escobado, Fred Ward's bay horse, were the only entries, but they furnished one of the best races of the day. Durfee, by superb driving, brought the mare over the line in the lead for the first heat, but she was not equal to the fast pace of 2:10 1/2 in the second and fell by the wayside. The third heat went to Ward after one of the best finishes of the day. The mare broke at the stretch and the break cost her the only chance she had for the heat.

Durfee and Maben rivaled each other in the number of heats driven and Durfee came off a little the better of the argument, winning two of four races driven, while Maben won one of three. In both races in which Durfee drove against Maben, Durfee was the winner.

The first race of the day, the 2:35 trot, was won by Canfield's Dulzura, with Maben driving, in straight heats. The time was 2:31 and 2:29. Christopher's Princess Redlac was second and Zolo third.

In the second race, the 2:29 trot, four started. They were Dr. Wayo, owned and driven by Fred Ward; Lecona, John O'Keefe's black horse, with Nickerson at the reins; Goldnut, owned by George W. Ford of Santa Ana, and driven by Jack Brady; and Alarich, Charles Winter's colt, with Durfee driving. In both heats, Dr. Wayo crossed the line in the lead, but only after a hard fight. In the first mile Lecona led into the stretch, but Dr. Wayo, in a great finish, passed him when about fifty yards from the wire and won by a neck. In the second heat Lecona and Goldnut were neck and neck until they reached the three-quarter post, with Dr. Wayo third. Goldnut passed Lecona there and Dr. Wayo passed him on the turn into the home stretch. It was any one's race until the last hundred yards, when Ward's horse managed to nose out the Santa Ana trotter, crossing the line half a length to the good. Alarich showed any amount of speed, but insisted on breaking, and Durfee had his hands full with the colt all the way.

The fifth race, the 2:30 trot, went to Durfee, driving Nellie Mc in straight heats. The pace was too fast for Carsto, Tiffany's colt, who finished fourth in both miles. The time of the first heat was 2:25 and of the second 2:21. Carbon was second and Cope third.

It required three heats to decide the 2:25 trot, the last race of the day. Joe, driven by Dr. Dodge, was the easy winner of the first heat, leading by three lengths. He got away to the best start, however, and trotted perfectly around the mile. In the second and third heats, he broke several times, losing the race through his bad behavior.

The card was the best which the Los Angeles Driving Club has staged here this winter. The horses were in prime condition for the races and showed better time than they have at any other time this season. The work of Don Pronto, who will be raced on the Grand Circuit this season, was especially pleasing. Both Berry and Burnette were highly complimented on the work of the horse.

The driving club will stage another matinee May 25th, when all the horses which are to be shipped to the Grand Circuit and the Pacific Coast Circuit will be entered. This will probably take the form of an all-professional matinee.

The results:

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Dulzura, Princess Redlac, Zolo, and Major.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Dr. Wayo, Lecona, Goldnut, and Alarich.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Don Pronto, Chiquita, and Zomwoolsey.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Escobado, Lady Alice, and Nellie.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Nellie, Carbon, Cope, and Carsto.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like David St. Clair, Mabel H., and Zomstine.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Altitude, Etta McKenna, and Joe.

Table with 2 columns: Race name and time, and Winner/Driver/Owner. Includes entries like Starter, John W. Snowden, and Captain E. P. Barnette.

PACIFIC BREEDERS' FUTURITY STAKE NO. 11.

Following is a list of 182 fourth payments made on May 1st for foals of 1911:

- List of 182 entries for the Pacific Breeders' Futurity Stake No. 11, including names of horses, owners, and drivers.

Madison by Jas. Madison; br. f. Blanche by Director Penn, dam Carolyn C. by Axtell; b. f. Esperanza by Carlokín, dam My Irene S. by Petigru; b. f. De Oro by Copa de Oro, dam Ola by McKinney; b. c. by Copa de Oro, dam Lady H. by Del Coronado.

F. E. Emlay's bl. f. Beauty McKinney by Washington McKinney Jr., dam Bird W. by Eugeneer. R. L. Eberhart's f. Cousin Hattie by Owynex, dam Tallace by The Night Hawk. Geo. W. Ford's ch. c. by Goldenut, dam Bess by Nutford.

L. C. Gates' s. c. Guylokín by Guy McKinney, dam Carlokín Queen by Carlokín; b. c. Robert S. by Bon Voyage, dam Dew Drop by Richard's Elector. Gravatt & Co.'s b. c. Remnoy by Ingomar, dam Sierra Maid by Robert Direct; b. f. Moire by Ingoma, dam Lady Honiton by Robt. Direct.

L. E. Grinn's f. Cleo Verne by Jules Verne, dam Cleo G. by Yosemite; f. Clara Dudley by Palite, dam Clara C. by Bayswater Wilkes. J. W. Haile & Co.'s foal by Gen. J. B. Frisbie, dam Kitty Bellairs by Demonio. C. A. Harrison's br. f. Tosora by The Patchen Boy, dam Niquee by Joe Patchen.

Ted Hayes' b. f. Bertha E. Brown by Carlokín, dam Belle Pointer by Sky Pointer; bl. c. Bon Hour by Bon Voyage, dam Cecille M. by Robin. Geo. F. Helman's br. f. Maid of Honor by Mohammed, dam Pittless by Searchlight. H. H. Helman's br. f. Alconda Jay, dam Lady Mowry by McKinney; b. c. by Alconda Jay, dam Ada McKinney by McKinney.

Hemet Stock Farm's ch. s. Geo. W. Carter by Geo. W. McKinney, dam Louise Carter by Chestnut Tom; b. or br. f. Alice T. by Geo. W. McKinney, dam Mamie Redmond by Nutwood Wilkes; ch. s. Frank H. by Geo. W. McKinney, dam Lady Zombro by Zombro; b. s. Senator Felton by Geo. W. McKinney, dam Stambia by Stam. B.; b. s. Nealon by Worth While, dam Nealy W. by Geo. W. McKinney, b. s. Geo. McKinney by Geo. W. McKinney, dam Kinney Rosebud by Kinney Lou; b. f. Lottie W. by Geo. W. McKinney, dam Hemet Light by Searchlight.

Geo. L. Herndon's br. f. Caroline by Lijero, dam Nightingale by Knight. J. H. Hodapp's br. c. Isleton Boy by Demonio, dam Belle D. by Chestnut Tom. John Hogan's br. f. by Kinney Lou, dam Babe by Count Ljone; br. f. by Kinney De Lopez, dam Sally M. by Rinaldo. H. S. Hogeboom's ch. f. by Iran Alto, dam Beautiful Bird by Nutwood Wilkes; b. c. by Alto Express, dam Diawaldia by Diablo; b. c. Honest Boy by Palo King, dam Miss Ione by Iran Alto.

R. S. Irvine's b. f. Ida Policy by Best Policy, dam Ida Stoneway by Stoneway; b. f. Alta Crest by Best Policy, dam Daisy Basler by Robt. Basler. J. B. Iverson's b. f. Princess Alcon by Alconda Jay, dam Princess by Eugeneer; b. c. Jim Riley by Eugeneer, dam Mamie Riley by McKinney. Chas. Johnson's b. c. Silver Logan by Jim Logan, dam Skate by Silver Bow. Chas. Johnson's br. f. Dimie Airlie by Airlie Demonio, dam Dimetis by Diablo.

M. C. Keefer's b. c. Prince Vosta by Prince Ansel, dam Advosta by Advertiser; s. f. Dezura by Adansel, dam Nellie Keefer by Nutwood Wilkes. Ernest Kemp's b. f. Bertha Kemp by Athasham, dam Babe Kemp by Guy McKinney. C. D. King's bl. c. by Robert Direct, dam Mamie W. by Sidney Arnett; f. Susie Direct by Robert Direct, dam Vera S. by Stoneway. Col. J. C. Kirkpatrick's bl. c. by Bon Voyage, dam Flewly Flewly by Memo.

John Kitchen Jr.'s bl. c. Dr. Hogarty by Bonny McKinney, dam Dolly by Colling. La Siesta Ranch's s. c. Yoncalla by Bon Voyage, dam Birdie by Jay Bird. Mrs. Mabel Lipson's ch. f. Policia by Best Policy, dam Alta Almont by Prince Almont. J. W. Marshall's f. by Demonio, dam Trix by Nutwood Wilkes; ch. f. by Palite, dam Berenice by Owyhee; foal by Palo King, dam Leta by Diablo; foal by Moko Hall, dam Ramona by Demonio.

W. T. McBride's b. f. Laveta by Alconda Jay, dam La Moscovia by Guy Wilkes. M. B. McGowan's br. c. by Zolock, dam Queen Derby by Chas. Derby. A. H. Meigs' ch. f. by Stamboulet, dam Baby Mine by Strathway. F. H. Metz's b. c. Bon Fire by Bon Voyage, dam Queen Abdallah by Grant's Abdallah.

W. J. Miller's f. f. Lulu Logan by Dan Logan, dam Lulu Mc by Arthur Wilkes; br. f. John Malcolm by Dan Logan, dam Susie Miller by Prince Ansel. J. E. Montgomery's b. f. by Jim Logan, dam Trilby Maid by Black Ralph Jr. W. Parsons' bl. f. Berta Bon by Bon Voyage, dam Alberta by Altona. J. H. Peck's bl. c. Kinney Lou Jr. by Kinney Lou, dam Miss Delle by Bay Bird.

J. W. Penderton's br. c. Derbertha Bells by Derbertha Derby, dam Beautiful Bertha by Moorcroft. Dana Perkins' b. f. My Dearie by Stam. B., dam Zaya by Bay Bird; b. f. Grace B. by Amorist, dam Princess Eulalie by Tom Benton. Henry Peters' bl. f. Sweet Verne by Jules Verne, dam Little Babe by Bradmore. P. S. Pfeiffer's bl. c. by Nearest McKinney, dam Lady Direct by Direct.

W. J. Porter's b. f. Bonnie Porter by Bon McKinney, dam Golden Bliss by Zolock. J. D. Rice's b. c. Little Dick by Diablo, dam Midget by Dagon. R. D. Robinson's c. Boulet by Stamboulet, dam Estrella B. by Athaneer. W. E. Rushing's b. c. Baron Pointer by Sky Pointer Jr., dam Queen B. by Oakland Baron. A. L. Scott's b. f. Bonnie Rosie by Le Voyage, dam Rosie Woodburn by Easter W.

Ed. Sewells' br. f. Jessie Cook by Joe Locke, dam Ida Mae by Bob Mason. C. F. Silva's bl. c. by Teddy Bear, dam Directshine by Direct; b. c. by Teddy Bear, dam Knight Moore Mare by Knight Moore; ch. f. by Teddy Bear, dam Swift Bird by Waldstein. Wm. Smalley's b. f. Fluffy Mac by Expressive Mac, dam Fluffy Ruffles by Hamb. Wilkes. H. B. Smith's b. f. Princess Ayeress by Prince Ansel, dam Ayeress by Lynwood W.

P. H. Smith's br. f. by Zombro, dam Katherine S. by Diablo; br. f. by El Volante, dam Rosemary by Ramon; br. c. by El Volante, dam Seville S. by Strathway. Thos. Smith's b. c. by Gen. J. B. Frisbie, dam Elmira by Demonio. C. A. Spencer's b. f. by Adansel, dam Laura Smith by Tom Smith; br. f. by El Zombro, dam Trueheart by Nearest. Jas. S. Stewart's b. c. by Copa de Oro, dam Easter D. by Diablo; foal dam Miss Williams by Williams. John Suglian's br. c. Just Right by Tom Smith, dam Hazel Mac by Director. H. E. Thompson's b. f. Guinavier by Baffin, dam Daisy Sprite by Electric. W. N. Tiffany's br. f. Carmiss by Carlokín, dam Lady Vasto by Vasto. Tip Top Ranch, ch. f. Lady Alation by Alation, dam Lady Patchen by The Patchen Boy. S. C. Tryon's b. c. Stitt Wilson by Moko Hall, dam Arazee by Azmoor.

J. Twohig's b. f. Columbia by Bon Guy, dam May T. by Monterey.
 Valencia Stock Farm's bl. f. by Zombro Heir, dam Isabel by Titus; b. c. by Zombro Heir, dam La Belle H. by Sidney.
 E. D. Waffle's s. c. Geo. Mc by Hal McKinney, dam Jule by Oddwood; s. c. Director McKinney by Hal McKinney, dam Luar by Secretary.
 J. G. Wannop's br. f. Gladys Stile by All Style, dam Gladys Moore by Moormont.
 Geo. L. Warlow's bl. f. by Black Hall, dam Soisette by Guy McKinney; br. c. by Black Hall, dam Narcola by Athadon; br. c. by Black Hall, dam Cora Wickersham by Junio; bl. f. by Black Hall, dam Strathale by Strathway; b. c. by Nogi, dam Donnagenne by Athadon.
 Geo. Warren's br. f. Love Light by Ray o' Light, dam Angie Malone by Alex. Malone.
 Jay Wheeler's b. c. Carrell by Gerald G., dam Leona Wilkes by Marvin Wilkes.
 O. H. Whitehouse's b. c. Dan Swift by Dan Logan, dam Cashier G. by Greco E.
 Jas. Wilson's gr. c. John Warwick by Carlokina, dam Maud Alameda by Eros.
 T. D. Witherly's br. c. Jim Logan Jr. by Jim Logan, dam Jetta Richmond by Soudan.
 H. W. Witman's br. c. by Zombrosia, dam Emma C. by Silver Coin.
 R. E. Witman's bl. f. by Joe Locke, dam Mary M. by H. M. Stanley.
 F. E. Wright's b. c. Dr. John by Palite, dam Toots W. by Stam E.
 J. W. Zibbell's foal by Tom Smith, dam Kate Lumry by Shadeland Onward; foal by Tom Smith, dam Evangie by Shadeland Onward; f. by Tom Smith, dam Nona Washington by Geo. Washington; f. by Eddie G., dam Lady Owyhee by Owyhee.

PACIFIC BREEDERS' FUTURITY STAKE NO. 12.

Following is a list of 268 second payments made in the above stake for foals of 1912:

Frank E. Alley's foal by Hal B., dam Altacora by Altamont; foal by Bonaoy, dam ruscina Mack by McKinney; foal by Bonaday, dam Angelina Boswell by Hart Boswell; foal by Bonaday, dam Addoria Mack by McKinney; foal by Bonaoy, dam Bettie G. by Greco E.; foal by Bonaday, dam Quiska by Nutwood Wilkes; foal by Count Bonor Evergetts, dam Lady Lemo by memo; foal by Count Boni, dam Maud Stambouret by Stambour; foal by Count Boni, dam Fortuna G. W. by Guy Wilkes.
 J. N. Anderson's foal by Peter the Great, dam Della Derby by Chas. Deroy.
 H. G. Angevine's foal by Prince McKinney, dam Berta Logan by Bert Logan.
 D. L. Bachant's b. c. by Athasham, dam Skinweed by Lynwood W.; b. f. by Athasham, dam Alema by Nutwood Wilkes; b. l. by Athasham, dam Maryouch by Strathway; foal by Athasham, dam Dividend by Athadon; br. l. by Athasham, dam Jean Mc by Guy McKinney.
 D. A. Baker's foal by Expressive Mac, dam Evangie by Shadeland Onward.
 John Baker's foal by Beirne Holt, dam Frecklebird by Red Freckles.
 J. R. Balkwill's foal by Black Hall, dam Estrella B. by Athaneer.
 L. A. Baner's c. by Chestnut Tom, dam Dolly B. by Welcome.
 E. M. Barber's foal by The Bondsman, dam Dacon by Athaneer.
 L. E. Barber's foal by The Bondsman, dam Madge by Silver Bow, Jr.
 Mrs. S. V. Barstow's foal by Tom Smith, dam Maud Jay C. by Nearest; foal by Nearest McKinney, dam Mrs. Weller by McKinney; foal by Nearest McKinney, dam Aunt Joe by Iran Alto.
 Mrs. A. Benson's foal by The Bondsman, dam Ileen Islandee by McKinney.
 C. J. Berry's foal by Carlokina, dam Subito by Steinway.
 Geo. H. Bixby's foal by Baronteer Todd, dam Alice Conifer by Conifer.
 I. L. Borden's b. f. by Aerolite, dam Directola by Direct; foal by Tom Smith, dam Wanda II by McKinney; foal by Barney Barnato, dam Hester McKinney by McKinney; foal by Barney Barnato, dam Kate Lomax by Son of Nutwood.
 Bowman & Maurer's foal by Prince Axworthy, dam Rapidan Dillon by Sidney Dillon.
 Mrs. L. J. Boyd's foal by Carlokina, dam Bonnie Ailse by Faustino.
 T. W. Brodnax's foal by Kenneth C., dam Mary Chimes by Chimes.
 Alex. Brown's foal by Prince Ansel, dam Lottie by San Diego; foal by Prince Ansel, dam Serpolo by Mendocino; foal by Prince Ansel, dam Laurens by Mendocino; foal by Prince Ansel, dam Nutflower by Nutwood Wilkes; foal by Prince Ansel, dam Majella B. by Nushagak; foal by El Zombro, dam Gay Princess by Prince Ansel; foal by El Zombro, dam Evelyn B. by Prince Ansel.
 E. Brown's foal by Alto Express, dam Maymonia by Demonio.
 Harry D. Brown's foal by Nearest McKinney, dam Grace D. Cole by Nutwood Wilkes; foal by Cole Pointer, dam Stambolita by Stambolite.
 W. C. Brown's foal by Peter Wilton, dam Lady Eleonore by Wallepta.
 Chas. Butters' eb. c. by The Bondsman, dam Lottie Lynwood by Lynwood W.
 J. J. Campbell's foal by the Bondsman, dam Kate Kopie by Cresceus; ch. c. by Peter Wilton, dam Silver Fir by Silver Bow.
 C. A. Canfield's foal by Donasbam, dam Belle Raymond by Raymond; foal by Donasbam, dam Bay Leaf by Telephone; foal by Zombro, dam Mamie Elizabeth by Red Regent.
 C. H. Chandler's foal by The Bondsman, dam Lady Search by Searchlight.
 J. E. Clark's foal by King, dam Mattie J. by Arthur W.; foal by Eldinero, dam Diabline by Diablo; foal by Don Rosine, dam Alveta by Arthur W.
 W. A. Clark Jr.'s foal by Bon McKinney, dam Belle Pointer by Sky Pointer.
 Andrew J. Clunie's foal by Guy Carlton, dam Banker's Daughter by Wayland W.
 Chas. Colbourne's foal by Montbaine, dam Lady by Nutwood Wilkes; foal by Montbaine, dam Dolly M. by Jas. Madison.
 J. E. Connell's foal by Kenneth C., dam Belle C. by Atto Rex.
 F. W. Cooper's foal by Sir John S., dam Jennie L. by Moses S.
 M. L. Costa's foal by Best Policy, dam Belle Azalea by Hamb. Wilkes.
 James Daeres' foal by Prince Axworthy, dam Lida Carter by Stam B.
 C. L. De Ryder's b. c. by Joe Patchen II, dam by Sidney Dillon.
 Wm. E. Detels' foal by Bon Guy, dam Melba T. by Nutwood Wilkes; foal by Palite, dam Daphne McKinney by McKinney.
 Wm. Dodge's foal by Bon Voyage, dam Johanna R. by Limonero.
 E. Dolan's foal by Expressive Mac, dam Red Bird by Athadon.

W. C. Dooly's foal by Prince Axworthy, dam Lady Snowflake by Caution.
 R. L. Draper's foal by Kinney Lou, dam Lady Hackett by Gerome.
 E. D. Dudley's foal by Lijero; dam Paprika by Oro Belmont; c. by The Bondsman, dam Ruby Crellin by C. The Limit; foal by McFadyen, dam Louella by Nushagak.
 Mrs. W. G. Durfee's foal by Carlokina, dam Atherine by Patron.
 W. G. Durfee's foal by Tom Moko, dam Reta H., by McKinney; foal by Copa de Oro, dam Leonor McKinney by McKinney; foal by Carlokina, dam Carolyn C. by Axtell; foal by Carlokina, dam My Irene S. by Petigru; foal by Copa de Oro, dam Lady H. by Del Coronado.
 A. M. Elston's foal by Palo King, dam Belle Pointer by Star Pointer.
 F. E. Emley's foal by Washington McKinney Jr., dam Hermia by Soudan; foal by Washington McKinney Jr., dam Faunette by Louis Mac; foal by Washington McKinney Jr., dam Bird W. by Eugeneer.
 Fred Fanning's foal by Vassar, dam Lady by Billy Hayward.
 E. L. Fissel's foal by Palo King, dam Babe by Diablo; foal by Diomax, dam Mabel by Alex Euton.
 L. W. Folsom's foal by Baronteer Todd, dam Grace T. by Zombro.
 A. M. Fosdick's foal by Kenneth C., dam Athena D. P. by Dexter Prince.
 Neil Friel's foal by Irving Pointer, dam Betsy Waldstein by Waldstein.
 E. A. Gammon's f. by The Bondsman, dam Linet by Seymour Wilkes.
 Robt. Garside's foal by Alconda Jay, dam Dora McKinney by McKinney.
 F. Gomme's foal by Prince McKinney, dam Arawana B. by Sidney Dillon.
 Chas. A. Graves' foal by Chas. Elwood, dam Nellie.
 L. E. Grimm's br. f. by The Bondsman, dam Cleo G. by Yosemite.
 Ray C. Griswold's foal by Carlokina, dam Debutante by Kinney Lou.
 Ted Hayes' foal by Bon McKinney, dam Cecille M. by Robin; foal by Bon McKinney, dam Jessie Tilden by Roy Wilkes.
 Geo. F. Helman's foal by Mohammed, dam Pitless by Searchlight.
 H. H. Helman's foal by Alconda Jay, dam Maggie M. by McKinney; bl. c. by Alconda Jay, dam Ada McKinney by McKinney.
 Hemet Stock Farm's foal by Kinney Lou, dam Lady Zombro by Zombro; foal by Kinney Lou, dam Neary W. by Geo. W. McKinney; foal by Geo. W. McKinney, dam Kinney Rosebud by Kinney Lou; foal by Kinney Lou, dam Muriel C. by Nutwood Wilkes; foal by Kinney Lou, dam Stambia by Stam E.; foal by Kinney Lou, dam Louise Carter by Chestnut Tom; foal by Kinney Lou, dam Mamie Redmond by Nutwood Wilkes; foal by Kinney Lou, dam Zeta W. by Nutwood Wilkes; foal by Kinney Lou, dam Hemet Light by Searchlight; foal by Kinney Lou, dam Lady Lowe by Geo. W. McKinney; foal by Armond Lou, dam Hemet Girl by Geo. W. McKinney; foal by Kinney Lou, dam Louise R. by Sterling McKinney.
 J. W. Hitch's foal by The Bondsman, dam Ruinda by Kibir.
 John Hogan's foal by Guy Carlton, dam Babe by Count Lionel or Sunrise.
 H. S. Hogboom's foal by Palo Alto; dam Beautiful Bird by Nutwood Wilkes; foal by Palo King, dam Miss Ione by Iran Alto; foal by Palo King, dam Vada by Prince Ansel.
 R. S. Irvine's foal by The Patchen Boy, dam Beretta by Searchlight; c. by Zorankin, dam The Bloom by Nushagak; foal by Best Policy, dam Elizabeth Direct by Robt. Direct; foal by Guy McKinney, dam Ida Stoneway by Stoneway; foal by Highland Pointer, dam Daisy Easter by Robert Easter.
 J. E. Iverson's foal by The Bondsman, dam Salinas Princess by Eugeneer; foal by The Bondsman, dam Dictatus Belle by Dictatus; foal by Clear Voyage, dam The Break by Nutwood Wilkes; foal by Clear Voyage, dam Mamie Riley by McKinney.
 Anton Jacobs' foal by Stanford McKinney, dam Topsy G. by Dexterwood.
 F. Jasper's foal by Prince Ansel; dam Elizabeth W. by Wayland W.
 Chas. Johnson's foal by Bon Guy, dam Skate by Silver Bow.
 M. C. Keeter's foal by The Bondsman, dam Nellie Keefer by Nutwood Wilkes; foal by Prince Ansel, dam Advosta by Advertiser.
 A. S. Kellogg's foal by Black Hall, dam Lilith by Secretary; foal by Black Hall, dam Diabless by Diablo.
 Mrs. Emily D. Knott's foal by Guy Carlton, dam Tribly's Beauty by McKena.
 W. F. Knox's foal by Lijero, dam Bridal Rose.
 La Brea Rancho's foal by Alconda Jay, dam Sweetheart by Chalais.
 B. F. Lavin's foal by Lavender, dam Onyx by Longworth.
 Frank Meegeringer's foal by McAdrian, dam Lady Bess by Major P.; foal by McAdrian, dam Ida May by Major P.
 Mrs. Mabel Lipson's foal by Best Policy, dam Alta Almont by Prince Almont.
 Sam Loewenstein's c. William Ervis by Copa de Oro, dam California Girl by Zombro.
 Leo Lynch's foal by Wonder Light, dam Lena Thorup by Prince Charles.
 D. Lynn's foal by The Bondsman, dam Belle Lynn by Diablo.
 J. S. Maben's foal by Best Policy, dam Zomzara by Zombro; foal by Best Policy, dam Zombret'a by Zombro.
 Frank Malcolm's foal by Expressive Mac, dam Fresno Girl by Seymour Wilkes; foal by Expressive Mac, dam Nike by Antinous.
 Chas. B. Marley's f. Made Bond by The Bondsman, dam Nusta by Nushagak.
 J. W. Marshall's foal by The Bondsman, dam Madeline Marshall by Demonio; c. by Sirius Pointer, dam Ramona by Demonio; foal by The Patchen Boy, dam Leota by Diablo.
 W. T. McBride's b. f. Winnie Bond by The Bondsman, dam La Moscovita by Guy Wilkes.
 J. B. McFarland's foal by Copa de Oro, dam Diablo Belle by Diablo.
 M. E. McGowan's foal by The Bondsman, dam Queen Derby by Chas. Derby.
 J. E. McGregor's foal by The Bondsman, dam Juana Marie by Geo. W. McKinney.
 John McLeod's foal by Belmar, dam Dolly McKinney by McKinney.
 Mrs. Naomi Mead's foal by Tom Smith, dam Carrie E. by Alex. Euton.
 F. H. Metts' c. Patrick by Son of Zombro, dam Queen Abdallah by Grant's Abdallah.
 W. J. Miller's c. by The Bondsman, dam Katalina by Tom Smith.
 J. E. Montgomery's ch. c. by Palo King, dam Margaret M. by Chestnut Tom; foal by Zombro, dam Zynara by Highland C.
 Frank Murphy's foal by Palo King, dam Lady Careta by Nutwood Wilkes.
 S. J. Nellis' foal by Irving Pointer, dam Flaxie by Jay D.

J. H. Nelson's foal by Expressive Mac, dam Selma's Rose by Major Dillon; foal by Expressive Mac, dam Nellie by Knouf; foal by Expressive Mac, dam Lou Mildred by Major Dillon.
 Nichols & Holaday's foal by The Bondsman, dam Alma Dexter by Dexter Prince.
 C. A. Nickerson's foal by Copa de Oro, dam Thelma by Wilkie Knox.
 R. L. Ogden's foal by Palo King, dam Irish Rose by Lynwood W.
 J. E. Olcese's foal by California Hal, dam Alsica by Altivo.
 K. O. Grady's foal by Aerolite, dam Helen Boswell by Hart Boswell.
 J. W. Pendleton's foal by Peter Wilton, dam Abbie Dukutwairal by Guy McKinney; foal by Lord Atwin, dam Beautiful Bertha by Moormont.
 Dana Pearkings' foal by Zomora, dam Princess Eulalie by Tom Benton.
 F. W. Perkins' b. c. by The Bondsman, dam Rose Trux by Rose Corbit.
 Henry Peters' foal by Palite, dam Little Babe by Bradmore.
 Henry Rohner's foal by Nearest McKinney, dam Little Light by Nutwood Wilkes.
 Thos. Ronan's b. f. by Tom Smith, dam Lily Dale by Birdman; b. f. by Tom Smith, dam Burnside by Antrim; foal by Birdman, dam Joyful by Alexis, F. J. Ruhstaller's f. by Moko Hall, dam Tinnie by Temescal.
 Rush & Halle's foal by Demonio, dam Laura H. by Nutwood Wilkes; foal by Demonio, dam May Norris by Norris; foal by Demonio, dam Olita by Bradmore; foal by Demonio, dam Sister by Nutwood Wilkes; foal by Demonio, dam Maud Washington by Washington; foal by The Bondsman, dam Potrero Girl by Prince Airie; foal by Gen. J. B. Frisbie, dam Mollie by Demonio; foal by Gen. J. B. Frisbie, dam Miss Winn by Demonio; foal by Gen. J. B. Frisbie, dam Elmira by Demonio; foal by Palite, dam Kitty Bellairs by Montbells.
 Homer Rutherford's foal by On Voyage, dam Yu Tu by R. Ambush.
 A. L. Scott's foal by Le Voyage, dam Rosie Woodburn by Easter W.; foal by Le Voyage, dam Cora by Ira; foal by Le Voyage, dam Lady Inez by Nutwood Wilkes; foal by Le Voyage, dam Wilkesmarc by Guy Wilkes.
 W. L. Seiman's foal by Knight of Strathmore, dam Mollie by Mollie McKinney.
 Lee Sheppard's foal by Geo. W. McKinney, dam Olivetta by Longworth.
 E. E. Sherwood's foal by Copa de Oro, dam Zenobia by Zombro; foal by Copa de Oro, dam Daisy Z. by Zombro; foal by Carlokina, dam Queen Woolsey by Woolsey.
 D. Short's foal by Skido Wilkes, dam Honda Girl; foal by Skido Wilkes, dam Mabel by Waywood; foal by Skido Wilkes, dam Beek by Waywood; foal by Skido Wilkes, dam Keno by Prismo.
 Sierra Vista Stock Farm's foal by Cedric Mac, dam Lady by Zolock; foal by Cedric Mac, dam Molly Rex by Atto Rex; foal by Cedric Mac, dam Colleen by Petigru; foal by Cedric Mac, dam Romero by Thoroughbred.
 Chas. F. Silva's foal by Lijero, dam Queen S. by Sable Wilkes; foal by Teddy Bear, dam Polka Dot by Mendocino; foal by Teddy Bear, dam Directsine by Direct.
 P. H. Smith's foal by Zombro, dam Katherine S. by Diablo.
 Thos. Smith's foal by Vallejo King, dam Margaret Hunt by Nutwood Wilkes.
 C. A. Spencer's foal by Prince Ansel, dam My Trueheart by Nearest; foal by Prince Ansel, dam Noraine by Nushagak.
 Jas. S. Stewart's foal by Copa de Oro, dam Easter D. by Diablo; foal by Copa de Oro, dam Titus Maud by Cal. Dillon.
 F. E. Stockdale's foal by Black Hall, dam S. P. Pointer by Star Pointer.
 J. P. Struve's foal by The Bondsman, dam Winta Rose by Eugeneer.
 Wm. A. Stuart's foal by Irving Pointer, dam Phyllis B. by Greco E.
 John Suglian's foal by Expressive Mac, dam Hazel Mac by Director.
 Jas. T. Targard's foal by Palite, dam Helen Kelly by Bonnie McK.
 C. H. Thompson's foal by Beirne Holt, dam Prodigal Baroness by Prodigal; foal by Beirne Holt, dam Miss Bonnie Alertonian by Alertonian.
 Thompson & Shippee's foal by Bon Guy, dam Gussie by Temescal; foal by The Bondsman, dam Dowina by Bon Voyage; foal by Quintell, dam Lilly Young by McKinney.
 W. N. Tiffany's foal by Carlokina, dam Lady Vasto by Vasto.
 Tip Top Ranch's foal by The Bondsman, dam Lady Patchen by The Patchen Boy; foal by The Bondsman, dam Sirangar by Prince of India.
 L. H. Todhunter's foal by The Bondsman, dam Sweet Bow by Bon Voyage.
 S. C. Tryon's foal by Lijero, dam Nightingale by Knight; foal by Montbaine, dam Arazee by Azmoor; foal by Montbaine, dam Zella by Azmoor; foal by Montbaine, dam Zena by Azmoor; foal by Montbaine, dam Zeta by Azmoor.
 Dr. I. L. Tucker's foal by The Bondsman, dam Babe T. by Rajah.
 W. E. Tuttle's foal by Palite, dam Ethelind by Zomoro.
 Valencia Stock Farm's foal by Copper King, dam La Belle H. by Derby Heir; foal by Pegasus, dam Isabel by Cal. Titus; foal by Direct Heir, dam La Belle by Sidney; foal by R. Ambush, dam Rose Direct by Direct Heir.
 F. W. Wadham's foal by The Bondsman, dam Johannah Treat by Thos. Rysdyk.
 D. W. Wallis' foal by The Bondsman, dam Corinne Sidmore by Sidmore; foal by McKinney Jr., dam Hester by Diablo; foal by El Angelo; dam Simona Wilkes by Nutwood Wilkes; foal by El Angelo, dam Record Searcher by Searchlight; foal by McKinney Jr., dam Susie by Guy Wilkes; foal by El Angelo, dam Rose by Arthur Wilkes.
 F. E. Ward's foal by Zombro, dam Lady Madison by Jas. Madison; foal by Beirne Holt, dam Emily W. by Jas. Madison.
 Geo. L. Warlow's b. f. by E. G. Diablo, dam Cora Wickersham by Junio; bl. c. by Black Hall, dam Strathale by Strathway; bl. c. by Black Hall, dam Soisette by Guy McKinney; br. f. by Black Hall, dam Narcola by Athadon.
 Dr. E. J. Wagon's foal by Lijero, dam Mater Expedito by Knight.
 J. E. Wellington Jr.'s foal by The Bondsman, dam Coeek by Azmoor.
 O. H. Whitehouse's f. by Prince Ansel, dam Cashier G. by Greco E.
 R. E. Wilborn's ch. f. by Bonnie Steinway, dam Lindo by Strathway.
 T. H. Wicker's foal by Peter Wilton, dam Blanche Richmond by D. D. H.
 H. W. Witman's foal by Joe Locke, dam Emma C. by Silver Coin; foal by Joe Locke, dam Mary M. by H. M. Stanley.
 Fred Woodcock's foal by Falmont Jr., dam Besse L. by Montana Director.
 J. W. Zibbell's foal by Expressive Mac, dam Kate Lumry by Shadeland Onward; foal by Expressive Mac, dam Lady Owyhee by Owyhee; foal by Eddie G., dam Jess McKinney by McKinney.

SAN FRANCISCO DRIVING CLUB MATINEE.

The San Francisco Driving Club matinee card at the Stadium track last Sunday called for five trotting and pacing races, with a cup hung up for the winning horse in each event.

Alfred D. won the first race in two straight heats handily and without bringing up anything exciting from the other two horses. This makes the third successive year that Alfred D. has won the opening race.

Happy Dentist won two straight heats in the third event. He was off in the lead at the starter's word and held Little Dick safe each time for the three-quarter mile distance. Dentist stepped the two fastest heats of the meeting.

In the first heat of the 2:25 pace, Mission Kid took the lead, Light o' Day passed him at the half and was leading by half a length. Victor Pointer, ably driven by Vic Verrilliac, came like a whirlwind and in attempting to pass to the front hit the wheel of his sulky and was content to let Mission Kid win.

In the second heat Mission Kid, having the pole, could not shake that "Pointah hoss" of Vic's off, and with him at his wheel soon opened a gap in front of the three behind. It was a pretty race, but Mission Kid was declared the winner by half a length.

The best contest of the afternoon developed in the fourth race, a 2:30 trot. In the first heat Raymond M. set the pace for the half-mile, when he broke and dropped back to last position. Sunset Belle, trailing close, then went to the front. Harold C., an added entry, broke on the first turn, losing twenty lengths; he straightened out before reaching the back turn and kept on coming down the stretch a length in the lead, looking like a sure winner. Cohen got frisky and drove the horse off his feet. Sunset Belle came through a length to the good. Harold C. was set back to last place by the judges for changing position in taking the rail from Belle.

Raymond M. trailed Sunset Belle in the second heat until the last turn was reached. Matthes then forced the pace and won by a small margin.

Both Raymond M. and Belle were off together in the third heat in a team race for the entire journey and finished even—a dead heat.

When the hell rang for the fourth heat Mr. Matthes announced the withdrawal of Raymond M. He had gone three hard heats in this race and two equally strenuous ones the afternoon before. It was more desirable to save the horse than win a cup. Sunset Belle then negotiated this heat easily.

The club will hold another meeting next Sunday, and an open-to-all meeting Sunday, May 26th.

W. J. Kenney was starter, James J. Ryan, John Nowlan, George Giannini, Fred Clothese, judges. F. P. Lauterwasser Sr., James Lomhard, timers. Henry Monseese, marshal; F. P. Lauterwasser Jr., secretary.

Summary:

Three-quarter-mile heats, best two in three. First race, 2:18, mixed: Alfred D. (P. Kohn) 1 1 Patery (A. Benson) 2 2 Walter Wilkes (T. Burton) 3 3 Time—1:43 1/2, 1:41 1/2.

Second race, 2:25 pace: Mission Kid (J. Rawling) 1 1 Victor Pointer (V. Verilliac) 2 1 Light of Day (J. J. Donivan) 3 4 Baldy Mitchell (H. Campodonico) 4 3 Richard Derby (W. Sicotte) 5 5 Time—1:43, 1:40 1/2.

Third race, free-for-all pace: Happy Dentist (J. J. Ryan) 1 1 Little Dick (A. Hoffman) 2 2 Time—1:38 1/2, 1:39.

Fourth race, 2:20 trot: Sunset Belle (H. C. Ahlers) 1 2 1 Raymond M. (T. L. Matthes) 2 1 1 Direct Rome (W. Higginbottom) 3 4 3 Harold C. (H. Cohen) 4 3 2 Time—1:43 1/2, 1:41 1/2, 1:42, 1:44.

Fifth race, 2:30, mixed: Delta A. (E. T. Ayres) 1 1 Doctor B. (W. Higginbottom) 2 2 Black Pearl (C. L. Becker) 3 3 Time—1:50, 1:48.

MATINEE RACES AT LOCKEFORD.

Over 3,000 people attended the picnic at Lockeford on May 8th from Stockton, Lodi, and other cities and towns in northern San Joaquin. All enjoyed a fine day of fun. Sports of all kinds featured the afternoon program, while in the evening dancing furnished entertainment until an early hour in the morning. Several good basehall, basket ball and tennis games were played by amateur teams during the afternoon.

Eleven Southern Pacific coaches, crowded to their fullest capacity and carrying about 2,000 Stocktonians, left in the morning at 9 o'clock for the picnic. Another train left the same evening with another big crowd. The return trip was made at 3:30 o'clock the following morning.

About 500 Lodi people attended the picnic. They journeyed to the grounds either on train or in vehicles and the coming Fourth of July celebration was widely advertised. All of the stores of Lodi were closed at noon to give everyone a chance to enjoy the affair.

The horse races were the big feature of the afternoon. The fastest time made on the Lockeford track was recorded.

In the second heat of the trot, Stam B. just won by a nose from Prince Mac. The track record of 1:09 1/2 was broken in all three heats of the pace, Aldo Genoa winning the first heat in 1:08 3/4 and T. D. W. annexed the next two in 1:08 1/4 and 1:09. The track was in fine condition. Following is the summary:

Free-for-all, trotting, purse, \$75, half-mile heats: Stam Boy, b. s. (C. F. Nance) 1 1 Prince Mac, b. g. (Dan Lieginger) 2 2 Lloyd A., blk. g. (J. Acker) 4 4 Tropilinal, blk. m. (J. Pierano) 3 4 Time—1:21, 1:17.

Free-for-all, pacing, purse \$7500: T. D. W., b. g. (E. Kemp) 2 1 Ben Walker, c. g. (D. Lieginger) 3 4 Daisy, br. m. (C. F. Nance) 4 3 Alto Genoa, blk. s. (J. Pierano) 1 2 Time—1:08 3/4, 1:08 1/4, 1:09.

The saddle horse race was won by Murphy's Ted in 56 seconds. Gallagher's High Fly was second and Aldrich's Maud was third. The course was one-half mile long. The races were nearly all close and furnished much excitement.

The officials were as follows: Judges—A. G. Shippee and Charles Fagan, of Stockton, and John W. Doherty, of Lodi. Timers—W. H. Parker and Fred H. Johnson, of Stockton, and Bert Acker, of Lodi. Starter—Frank Lieginger, of Stockton.

NOTES FROM SEATTLE.

Editor Breeder and Sportsman: Mr. Considine is just back from Los Angeles, and his first sight of Lottie Ansel was a pleasing one, as she trotted a mile in 2:33 and just before he left she trotted a mile in 2:24 1/2 and a quarter in 34 seconds. Mahen says that she is the most phenomenal two-year-old trotter he ever handled. She has only had sixty days' training. Mr. Considine is most highly pleased over her.

Mr. Spencer reports that Laura Ansel is doing well and has been a quarter in 38 seconds and an eighth in 18 seconds and miles in 2:48, and that she suits him.

Fiesta Maid has been in 2:14 1/2 for Mahen; True McKinney in 2:20. The Empress is broken to harness and I saw her at the Alley Farm, and say, she is a sweet filly and has lots of lick.

Mr. Dowling is a very capable colt man and has all of Alley's colts in great shape. I saw several yearlings by Bonaday trot eighths in 20 seconds and all are most elegant colts. Bonaday is going fine and can trot a quarter in 30 seconds. Alley has the most perfect place in the West and is running it in a first-class, practical manner. Boniska, by Bonaday, dam Oniska, is a simon-pure trotter and his yearling sister is just the same. Oniska is due to foal any day to Bonaday. I believe Bonaday will be a great sire of early and extreme speed.

The Meadows track at Seattle is now ready for horses. George Davis has eight head, including Van Winkle 2:24, black stallion by Gamheta Wilkes, and a nice stallion by The King Entertainer, also some two-year-olds by Van Winkle.

J. B. Stetson has three; one by Expedition, a three-year-old and a nice one, and one by a son of Baron Wilkes, also a three-year-old. Two elegant young pacers, also a three-year-old pacer by Hal B.—a nice one.

Al McDonald has twenty stalls engaged at the Meadows. Doc Hartnagle has Henry Grey in great fix.

Chas. Guion has Harry T., by Zomhro, and a full sister, Marguerite, and say, these are two swell trotters. C. A. HARRISON.

DEATH OF JOHN E. TURNER.

John E. Turner could not rally from the paralytic stroke he suffered a week previous, and died last Friday at Ambler, Pa., where he had lived many years. John Turner was a native of Ireland, born in 1837, and came to this country when a child. In 1858 he started his career as a professional horseman, when he drove the stallion Hard Road in a winning race, over the old Point Breeze track. May Queen 2:20 was the first trotter he ever owned, selling her, after she made her record, for \$6,000. She became the property of the Palo Alto Stock Farm and was the dam of May King 2:21 1/2, sire of Bingen 2:06 1/4, etc. Nettie 2:18 was one of his best early trotters, followed by Hannis 2:17 3/4, Trinket 2:14, Edwin Thorne 2:16 1/4, Santa Claus 2:17 1/2 (sire of Sidney 2:19 1/2, etc.), Rosalind Wilkes 2:14 1/2, Spofford 2:18 3/4, Bellini 2:13 1/4, and a host of others. His greatest coup as a driver was with Spofford, in 1888, when he won the Charter Oak purse. Turner had "nursed" Spofford especially for the classic, and in the letting the horse was not seriously considered. It was Turner's masterpiece as a trainer and manipulator, one of many turf exploits that won for him the cognomen of "General."

As a trainer John Turner stood in the front rank. He was especially apt with crippled horses, patching them up for a few good races and making a "killing" when he got ready. An excellent race driver, not brilliant, but cool headed, and a consummate tactician. Among his survivors is Frank Turner, also a trainer and driver, also a daughter, the widow of James A. Dustin, an old-time trainer, to whom we extend our sympathies.

MEETING FOR NEXT SATURDAY.

Editor Breeder and Sportsman: The California Harness Horse and Stock Breeders' Association will hold their annual convention Saturday, May 25, 1912, at 7:30 p. m., at the Mission Promotion Association Hall, Sixteenth and Valencia streets, San Francisco, Cal.

The very important matter of district fairs will be taken up and acted upon. The first of the coming year the Legislature meets and we want to be well organized and prepared for same.

District and county fairs will be renewed only by an organized effort. We must keep up our organization till we have the law put on the statutes. We have every assurance that we will be successful at the next Legislature. There are no paid officers in our association and every dollar taken in is put to good use; our principal expense being for stationery and a stenographer.

We have arranged with all railroads to give a one and a third round trip rate. Ticket can be bought ten days before convention and good for five days after convention. A receipt from your local ticket agent when purchasing your ticket to San Francisco, signed by W. J. Kenney, will get the return trip for one-third price. On Sunday following there will be an open matinee race at the Park Stadium for valuable cups. This will be one of the finest affairs of its kind ever held in this country. Any horse in the State is eligible to enter. Don't forget to come to our convention, as we expect breeders from every county in the State and we want you to meet them. W. J. KENNEY, Secretary.

PARK DRIVING CLUB RACES.

The first matinee of the season by the Park Amateur Driving Club was held at the Stadium, Golden Gate Park, last Saturday. The weather was cool and windy, the track was in excellent condition and the attendance very fair considering the fact that this meeting was not extensively advertised.

The races were held with a view to get a line on them for classification purposes. Each event was for three-quarters of a mile, best two out of three heats.

The races were very well contested and the finishes close. A. L. Scott handled his mare Mamie Alwin skillfully and his stallion Le Voyage shows marked improvement. Mamie Alwin trotted the fastest heat of the day in the second heat of the race she won, 1:42. The finish between Le Voyage and Billy Burke in the last heat was won by a few inches by the latter, and this places Mr. Nolan, the owner, in the winning class.

H. C. Ahlers had the first try-out with his good four-year-old mare Sweet Princess, which he recently bought from F. Gomet. She had no trouble to win and will be among the best pacers here this year.

Another matinee will be held May 25th, when larger fields of horses will participate.

J. A. McKerron, G. E. Erlin and G. Wempe were in the judges' box. T. F. Bannan and H. Rosenbaum were the timers, and Dan E. Hoffman gave the word to good starts. H. M. Ladd acted as track marshal.

First race, class B, trotters: Billie Burke (R. Nolan) 2 1 Le Voyage (A. L. Scott) 1 2 Wireless (Captain W. Matson) 3 3 Time—1:49, 1:46, 1:47.

Second race, class A pace: Sweet Princess (H. C. Ahlers) 1 1 Ida M. (H. Boyle) 2 2 Time—1:52, 1:47.

Third race, class A, trotters: Mamie Alwin (A. L. Scott) 1 1 Raymond M. (F. L. Matthes) 2 2 Bird Eye (Captain W. Matson) 3 3 Time—1:43 1/2, 1:42.

THE RIVERSIDE MATINEE.

Hal McKinney, the promising pacer owned by A. E. Heller, of Riverside, fractured the local track record in a fine exhibition mile last Saturday afternoon, which the favorite animal covered in 2:13, thus clipping one and one-half seconds from the established record. The first quarter was made in :32 3/4, the half in 1:05 1/4 and three-quarters in 1:39 1/4. On the last quarter and when near the wire Hal went off his feet for the first time, and had it not been for this he would have made the mile in less than 2:11. This track is 46 feet 4 inches over a half-mile.

The matinee proved the best ever given by the Riverside Driving Club, every hour being hotly contested, while it required four heats to determine the winner of the free trot and pace and the 2:35 class mixed race, with three heats necessary to dispose of the 2:24 trot. The club members and all of the horsemen participating in the matinee were greatly pleased with the sport, the only regret being that there were so many counter attractions, chief among these being the Santa Monica road races, that many lovers of good horse racing were not in attendance to enjoy the program. The results of the five races were as follows:

2:45 Mixed: Larry K. (A. B. Miller) 1 1 George W. (S. R. Obrarr) 4 2 Edna Z. (L. Potter) 3 3 Kittie (H. E. Webster) 2 2 Time—2:36 1/2, 2:41.

Free trot and pace: Gold Nut (G. W. Ford) 2 1 3 1 Lady Halford (A. E. Heller) 3 2 1 2 On Conn (Charles June) 1 3 2 3 Time—2:20, 2:17 1/2, 2:18 1/4.

2:35 Class Mixed: Dash (F. Thomas) 2 1 2 1 Zombroso (E. F. Binder) 1 2 4 2 Dark Streak (H. E. Webster) 3 3 1 2 Maude Wilkes (M. I. Wheeler) 4 4 3 4 Time—2:34 1/2, 2:31 1/4, 2:31 1/2, 2:30.

2:20 Pace: Ren Hal (G. H. Parker) 1 1 On Bly (James Campbell) 4 2 Leap Year Wilkes (F. L. Cole) 2 5 3 3 Kid Downey (O. E. Holland) 3 3 Maudie (G. H. Judd) 5 4 Betty Raymond (A. B. Miller) 6 6 Cope (Peter Beatty) 1 2 3 3 Inyo Boy (G. H. Parker) 4 3 2 2 Time—2:20 1/2, 2:21 1/4.

2:25 Trot: Bonnie June (G. E. Bunnell) 2 1 1 1 Buster (B. Newman) 3 4 4 4 Time—2:27 1/4, 2:26 1/2, 2:27.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

FISH LINES.

A report from Reno states that dead trout were, a week ago, so thick below the dam at Derby that a person could walk across the river at that point and step on dead fish all the way. There were thousands of dead trout strewn along the river and the fish were continuing to die.

The fish ladder built at the dam is inadequate, the trout being unable to ascend and go up the river to the spawning places. In consequence, the trout crowded into the shallow pools, where they perished. The odor from decaying fish was strong enough to keep sportsmen away from a point that has been known as one of the best trout fishing places on the river.

A heavy rain last Sunday at the different fishing places along the Truckee river put a ban on the fishing enthusiasm of many anglers. Snow and rain all day did not raise the river to any great degree, but made the water very muddy. The day before was warm and sunny, insect life was over the water and the trout rose to flyhooks all day.

Mr. and Mrs. Charles Melrose, Mr. and Mrs. Oscar Boldeman were at Boca, and, despite the weather, managed to catch good baskets. Mrs. Boldeman had the pleasing distinction of getting a 5½-pound trout—the largest trout handled by a lady angler on the Truckee in many years.

Lake Tahoe fishing will open at Tahoe, on the California side in Placer county, June 1. Most of the lake fishing is done from rowboats and launches.

The regular lake rig is a very short, stout rod and heavy reel, or just the heavy reel alone made for this kind of fishing. The line is a copper cable from 100 to 150 feet long, which can be used on the reel or as a handline. A large Tahoe spoon, preferably of brass, is attached at the end of a swiveled double-gut leader. Back of the spoon one can use a baited hook, or, better still, a No. 3 Kewell-Stuart brass spinning spoon. Large hooks, No. 6 or No. 7, seem to be the favorite size, baited with minnows, tamarack grubs or big angleworms, whichever the fish prefer at the time, are the usual baits, which same can be readily secured from the lake boatmen.

Sometimes it is necessary to fish very deep; other times not. Light trolling rods and ordinary trolling tackle have been found available for good sport in the lake, even light flyrods, with ordinary gut leader, sinker and spinner attached to the line, is the frequent outfit of Lake Tahoe anglers.

"Nowhere in this country or abroad have I ever seen anything to equal Pelican bay," says William Goodrich Morse, son of the famous inventor of the telegraph, who is stopping in the Klamath region, in the extreme northern end of this state. "I have hunted and fished all over the United States, and this is the 'Hunters' Paradise.' Every kind of trout is to be found in the streams, and almost every kind of game in the forests. The duck and goose shooting is unexcelled, and I anticipate great sport on the lakes this fall.

"The most wonderful thing of all to me is the rainbow trout fishing. The streams are literally alive with fish—and such fish—it would be a shame to take one that weighed under three pounds. Most of them weigh from five to twenty pounds, and I understand a woman caught one last fall weighing twenty-two pounds."

Morse will this season be master of ceremonies at the Harriman lodge at Pelican bay, which has been taken over as a hunting and fishing resort for sportsmen by the Klamath Development Company.

Recently the Paper Mill creek tidewaters near Point Reyes have been stocked with innumerable young salmon. These samlets, from three to five inches long, have been caught readily on any flies with a bit of red color showing. They are supposed to be the progeny of a run of silverside salmon that same in last September and October and spawned in the creek waters. Anglers fishing the Paper Mill from Shafers down to Camp Taylor during the week report that small fish are plentiful; basketable sizes are scarce.

Over fifty boats were out in Monterey bay last Sunday, fishing for salmon off Santa Cruz during one of the most phenomenal runs of quinnat salmon in the annals of Santa Cruz fishing. The total catch counted up nearly 1,000 salmon, ranging in weight from three to twelve pounds, all caught on sardine baited hooks.

The launch which carried C. J. Sadlier, of Reno, and R. B. Murdoch and W. D. Burlingame, of this city, was high hook for the day, with a catch of fifty-eight fish. These salmon were caught on ten-ounce, split bamboo rods and nine-strand cuttyhunk lines, rigged with four-ounce torpedo sinkers, the light weight so arranged that when a fish was hooked the sinker dropped to the bottom, thus allowing a chance to play the fighting fish.

At eight different times there was a salmon fighting on each of the three rods. At other times double strikes happened, as fast as the tackle was put out, anywhere from thirty to fifty feet from the boat. Besides the fifty-eight fish taken by the three anglers above named fourteen other ones were hooked but 'broke away.

Possibly 90 per cent of the salmon fishermen out used handlines. The boats averaged about six people each and everybody caught fish, for anchovy baits were plentiful for the fishermen's sport.

The weather was ideal and the bay as smooth as glass. For two hours during the forenoon the bay was literally alive with salmon. Sadlier, who is an experienced salmon angler, states that such an enormous run of salmon as the present has never before come under his observation. Saturday and Friday big catches were made by those out in boats. Indications point to a continuance of the sport for a week or more.

About a score of striped bass anglers who were fishing off San Pablo Sunday were nearly blown out of their boats by the heavy northwest winds prevailing. At least 100 very small bass were caught by different anglers—fish too small for use—and we returned to the bay waters.

That part of San Pablo bay is a natural breeding ground for not only striped bass but numerous other food fishes. The depth of water is light, in some places the tide uncovering the mud flats for a half mile and more. During fair weather the sun's rays warm up the sandy and mud stretches; when the tide again floods, the temperature of the water is much warmer.

Sportsmen who are familiar with affairs on that side of the bay advocate the establishment of a breeding ground immune from the visits of the market net fishermen. A line drawn from Point San Pedro to Tormey would set apart a large section of natural fish breeding ground where the net men would not be allowed to operate.

Along those shores, the claim is made that net hauls of from 1,000 to 1,500 pounds of striped bass, principally undersized baby bass, are frequently made. Six fishing boats operate on that side, the nets are drawn from midnight to 2 o'clock a. m., on favorable tides, the seinemen along shore being secure from observation at that time.

The small bass are caught for the purpose of shipment out of this State, two violations here of the statute law. The little fish are put in sacks, the large bass in ordinary fish boxes.

The legal and illegal catches are placed on board of a fast launch, one that can outspeed either of the Fish and Game Commission boats. The fishing launch makes quick time to the water front, where at a designated wharf, the sacks of small bass are quickly tossed ashore, picked up and quickly driven away. The launch then proceeds regularly to Fishermen's wharf and disposes of the legitimate catch of legal sized bass.

CHICO DOG SHOW.

The Chico Kennel Club, N. D. B. A., three day bench show at Chico, May 3, 4 and 5, was the best yet held in that city. The number of dogs benched 135 (140 odd entries), exceeded the recent Del Monte show by about 20 dogs, so we are informed.

Special for best in show was awarded T. J. Cronin's greyhound, Fair Tralee. Best of opposite sex, Matthews & Manter's cocker spaniel Athens El Marito Nell.

A SUCCESSFUL BAIT FOR WOLVES.

The destruction of wolves and coyotes is a matter of great importance to stockmen and farmers in certain sections of the United States. A circular on this subject was issued in 1908 by the Biological Survey of the Department of Agriculture. Although the fetid scent described in that circular has proved very useful in trapping coyotes and wolves, a much more effective scent, used by some of the most successful wolf trappers in the West, and which has been tested with good results by field naturalists of the Survey, is prepared as follows:

Put into a bottle the urine from a wolf, the gall, and anal glands, which are situated under the skin on either side of the vent, and resemble small pieces of bluish fat; or, if these cannot be readily found, the whole anal parts may be used.

In preparing four ounces of the mixture use one quarter the amount of glycerine to give it body and prevent too rapid evaporation, and one grain of corrosive sublimate to keep it from spoiling.

Let the mixture stand several days, then shake well and scatter a few drops on weeds or ground 6 or 8 inches back of the place selected for the trap. Carefully conceal the trap, if possible near a trail which the wolves follow, so they will catch the scent as they pass. The farther from the trail the trap is set the greater will be the quantity of scent needed. A little of the scent should be rubbed on the trapepr's gloves and shoe soles to conceal the human odor.

This bait attracts wolves only, but a similar bait, made from the secretions of coyotes, is equally effective to attract these animals. It is highly probable also that wildcats, lynx and mountain lions will be attracted by bait in a similar manner from their secretions.

AT THE TRAPS.

The attendance of smokeless powder burners at the various Saturday afternoon and Sunday shoots, a week ago was a bit lighter than usual, a large delegation of the local shooters being in attendance at the three-day tournament held in Los Angeles. About one squad were at the Exposition City trap ground Saturday afternoon, and less than two squads participated in the Sunday forenoon shoot of the Eastern Gun Club.

The regular shoot for tomorrow is the Golden Gate Gun Club meeting in Alameda.

Bay View Gun Club.—The club's monthly shoot in Alameda last Sunday was attended by about half the usual number of shooters. Good scores were shot, however, in the different club events.

Straight scores were made by H. D. Swales in the opening club trophy match; W. A. Simonton, E. C. Ford and Percy R. Fox in the Peters trophy match.

The third event at ten bluerocks had two 9 men, J. H. Jones and J. W. Dorsey, as high scores. The Selby trophy shoot passed without a straight score, Fox being high with 14. In the Du Pont trophy event Fox again led with a straight, and was high gun for the day in the regular club events.

Swales made the best run of the day—28 straight in a miss-and-out shoot.

Prior to the regular program a number of impromptu matches were shot.

Traffic Gun Club.—The monthly shoot last Saturday afternoon at the trap ground in Alameda drew out a dozen shooters. W. Simonton was high gun in four 25-target events. The scores were:

W. A. Simonton, 20, 19, 21, 22, 22; G. W. Colby, 10, 17, 17, 17, —; Ed L. Hoag, —, 20, 16, 20, —; Putzger, —, 19, 11, 16, 18; Swinger, —, 8, 9, —, —; F. Simonton, —, 15, 10, 14, —; E. R. Cuthbert, —, 19, 15, 20, 21; Russ Henderson, —, 9, 4, 9, —; H. Brooks, —, —, 14, 15; Nelson, —, —, —, 3, —; Fewtrell, —, —, —, 3, 12.

Doubles, 12 pairs—Simonton, 6, 7; Hoag, 16, 16; Putzger, 11, 13; F. Simonton, —, 9; Cuthbert, 15, 12.

Franzen Gun Club.—The first shoot of the season took place at Larkspur last Sunday. A number of bluerock shoots were held in the morning. The afternoon was devoted to music, dancing and songs, interspersed with an appetizing clam chowder dinner, dispensed by Mrs. Franzen, on the commodious ark Illamook, anchored in Corte Madera creek.

Emil Hoelle, 21; Jack Karney and A. C. Stubbe, 20 each, were high guns in the main shoot of the day at 25 targets. The other scores were: E. Klevesahl, 17; George Franzen, 19; H. Brooks, 19; E. Grundell, 11; Dr. Charles Clark, 16; Pete Swanson, 14.

In four 20-target events the results were: Klevesahl, 15, 13, 15, —; Franzen, 17, 16, 18, —; L. Gilliam, 12, 11, 14, 8; G. Banks, 15, 17, —, 18; Hoelle, 16, 20, 14, 19; Brooks, 16, 18, 13, 19; Grundell, 9, 15, 12, 14; Dr. Clark, 16, 15, 12, —; L. Lacy, 14, 10, 13; Karney, —, 14, —, 15; Gus Pape, —, 2, —, —; Swanson, —, 13, —, 11; H. Donzell, —, —, 6, —; A. C. Stubbe, 14, 16, 14, 16.

Ten targets: Stubbe, 10, 10; J. D. Hanna, 5, 6, 5, 6; Franzen, 9, 6, 10, 7; Banks, 7, 5, 6, 5; Swanson, 8.

Among others present were: Mr. and Mrs. Billy Heennis, Miss T. Mayer, Miss A. Meyer, Mrs. Helen La Fortune, Mrs. Nettie Lochbaum, Mrs. Geo. Banks, Mrs. B. Gabriel, Ross Coward, Mrs. D. C. Clark, Mrs. E. Grundell, Mr. and Mrs. J. X. DeWitt.

Boulder Creek Gun Club.—The first shoot of this recently organized gun club was attended by 40 shooters. The Santa Cruz County Fish and Game Protective Association were guests of the club. About 500 people were present at the trap shoot and barbecue. The grounds are well fitted up, and in a beautifully picturesque location. A feature of the bluerock smashing was the shooting of Mrs. Kitty Mast, of Boulder Creek, who is a very clever shot.

Dr. W. J. Caesar and James W. Maddock are entitled to much credit for the smooth running of the opening shoot. Lester Prior made the only straight score shot during the day. The scores in four 25-bird matches were:

W. J. Higgins, 21, 19, 17, 21; George D. Morrs, 18, 19, 21, 19; Wm. Shreve, 16, 14, 12, 19; Lester Prior, 16, 25, 17, 17; "Howdydew" Rice, 11, 13, 12, 16; Turcot, 13; J. Harvey, 10, 8, 15; B. F. Crews, 12, 13, 16; J. O'Conner, 11, 11; Tanun, 16; E. F. Varroza, 15, 17; C. F. Pardes, 18, 13; F. A. Dickson, 17, 15; W. F. Silvey, 16; H. Turcott, 9; G. Van Dusen, 14; A. Sutherland, 15; C. Maddock, 18, 20; J. Maddock, 18, 14, 21; G. O. Harding, 13; W. S. Rogers, 16; Mrs. Mast, 16, 12; H. Taney, 13; B. Adams, 19; C. Hartman, 7; C. Gaffney, 20; N. Maddock, 16, 18; R. Winkleblick, 9; A. D. Bowden, 2; A. Van Dusen, 13; F. C. Trace, 8; M. A. Perkins, 15; C. Newman, 19, 13; C. Van Dusen, 13; D. O'Brien, 12, 11; Ed Langley, 3; J. Hayes, 1; D. Trout, 0; J. Hartman, 3; W. Risker, 14, 0; Blodgett, 8; H. Faneuf, 16; A. Sutherland, 11; H. Harding, 12; Dr. Caesar, 15, 13.

Drink Jackson's Napa Soda.

Los Angeles Gun Club Tournament.—The Los Angeles Gun Club can congratulate itself on having given one of the most successful inanimate target tournaments at the Venic trap grounds in the history of the game. The predictions of the average local shooter, gave the attendance as 100 or the entire program, but this mark was far short, the attendance averaging 135 shooters for the full three days. Never in the annals of the game on the Coast has such a large representation of crack marksmen met on any gun club's grounds as those who turned out for this shoot.

The grounds were open for practice during the week previous to the tournament, and during this time 25,000 targets were trapped. In the tournament proper 90,000 bluerocks were thrown. The weather for the three days was ideal for target shooting, and every visitor was highly pleased with the shoot in general.

Frank Newbert, State Fish and Game Commissioner, was high gun on the first day, with 194 breaks out of his 200 targets. He was closely followed by Boh Bungay, of Los Angeles, and Wm. R. Sears, of Los Banos, who had 191 breaks each of their credit.

The long run of the day was made by S. W. Trout, a local contestant, his run totaling 78 straight. There were several other good runs made by other shooters.

Two professional squads competed, and the high-water mark in this division was reached by Fred Willet, of San Francisco, who broke 188x200. Lee B. Barkley, of Seattle, was giving him a close race, and finished the first day's program just two birds behind. The scores for the opening day follow:

| Targets | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | Total |
|-----------------|----|----|----|----|----|----|----|----|----|----|-------|
| Events | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 200 |
| Barkley | 20 | 19 | 17 | 18 | 17 | 20 | 18 | 20 | 19 | 18 | 186 |

Shooting with consistency, Frank M. Newbert, of Sacramento, on Friday hung to his belt the scalps of 130-odd shooters by grinding out 194 of the 200 birds through the first day of the tournament.

With expert shots in attendance from as far east as Minneapolis and Kansas City, and virtually every state west of the Missouri river represented, the big program passed off without a bobble. Some idea of the unusual facility of the arrangements is gained by

knowing that in less than eight hours nearly twenty thousand targets were thrown—the exact number being 19,329. Forty cases of ammunition, worth approximately \$550, and an investment of \$579.87 in bluerocks, were represented; and as against these the shooters drew down the \$100 added to each of the ten 20-bird events—\$1,000 in all.

Honors of the day found the amateurs away on top of the crack "pros," such as Barkley, Holohan and Willet, for once, although Willet topped with "high pro" honors and fourth general high with 188. The amateurs finished the day with Newbert shooting a wonderful score, with never a string below 18, and only one that bad. Bungay and Sears were three birds behind.

There was no end of good shooting. Ninety per cent wasn't even good enough to be beaten by the real cracks; and as all who broke over 180 were beating 90 per cent, it will be seen several shooters were "stepping some."

One of the features of the day was the splendid shooting of Mrs. C. P. Thomas, wife of Dr. Thomas, who shot the program through, a remarkable achievement in itself, and accounted for 174 of her birds.

Charlie Julian, of San Diego, who has not visited local shoots much in several years, appeared, minus his right arm, from a deplorable accident while duck-hunting. It would appear a prohibitive handicap, but he applied himself to shooting from the left shoulder with the left hand alone to guide him, and the score of 139x200 is certainly remarkable under the physical conditions.

The visiting shooters were greatly pleased with the accommodations, and commented on the smooth way in which the tournament was handled by the officials. They were particularly struck by the fact that the targets in the five traps were uniform in every respect.

The sum of \$3,500 was distributed among the winning shooters. Ten 20-bird events each day, 60 cents entrance, optional pools, \$2.00 entrance, \$100 added money for each event, class shooting, equitable system, \$500 was divided among the twenty high amateurs.

Grinding up target after target at Venice with monotonous regularity, although letting them get three or four yards farther away than most of the cracks consider compatible with consistent accuracy, all heights and every admissible angle being the same to him, M. Skeen, of Ogden, Utah, featured the closing day of the big shoot with one of the finest exemplifications of scatter-gun efficiency ever beheld at a Los Angeles tournament, when, in the waning light of late afternoon, facing the handicap of short time and hurried by everybody in so far as a methodical man could be hurried, he pointed his auto-loading gun to the exact spot and center of 98 clays in his last century, winding up with a "straight" and tying for general high average honors with the redoubtable Selby Champion and the Los Angeles Gun Club jovial idol, R. H. ("Bob") Bungay, at 93½ per cent for the 600 birds programed.

The San Bernardino Gun Club followed with a two-day tournament, adding \$500, on Tuesday and Wednesday last. The San Diego Gun Club started a tournament for Friday, Saturday and Sunday, with \$600 in purses. Many visiting and local shots will attend.

Some Past Big Tourneys.—In the report of the Los Angeles Gun Club three-day tournament, Secretary Brunner states that the shoot was the largest ever held on the Coast.

We beg to differ with that assertion, in the light of the fact and history only, and not in criticism.

The second tournament of the California Inanimate Target Association, Stockton, May 30-31, 1896, was, according to our account in the Breeder and Sportsman June 6, 1896, "the largest tournament ever held in California. The largest previous entry (156) at the Hazard Powder tournament (Oakland track) was beaten by two. The biggest entry at Stockton was 153, and 165 shooters took part in the different events. Nearly 85,000 bluerocks were trapped during the two days from four sets of expert traps."

Frank M. Newbert, Charley Van Valkenburg, W. A. Robertson and C. A. Haight, who attended the Los Angeles tourney, took part in the Stockton shoot here referred to.

The third semi-annual tournament of the association took place at San Jose the following October. There was an attendance of 170 shooters. Billy Varien, who was at Los Angeles last week, broke 153 out of 220 in the two days' shooting. W. A. Robertson did a trifle better—165 out of 220. Dr. Barker broke 186.

Following this the fourth tournament of the association came off at the newly opened Pacific Tournament trap grounds, Alameda Junction, where 143 shooters lined up, May 30-31, 1897, Charley Van Valkenburg broke 135 out of 180 in two days' shooting. Dr. Barker broke 139 out of 180.

Just what the largest attendance at the Ingleside trap grounds has been during the ten or more years that famous shooting ground was in commission we cannot recall without going through our files. The impression strikes us that one or two shoots equalled if not exceeded the Los Angeles attendance.

And, as we first intimated, we recall these past gatherings with interest and pleasure, and not in depreciation of the great shoot the boys of the Orange Belt pulled off.

Drink Jackson's Napa Soda.

MARIN COUNTY GAME AND PROTECTIVE ASSOCIATION MEETING.

An interesting meeting of the Marin Game Protective Association was held Saturday afternoon, a week ago, with Robert Pearson presiding, states the San Rafael Independent.

A communication was read from Mr. John Mailliard, expressing the hearty co-operation of himself and his brother, Joseph Mailliard, in the purposes of the association, and enclosing a check for the membership of both; also one from W. S. Palmer, general manager of the Northwestern Pacific Railroad, stating that in instructions had been given to employes to use the greatest care in guarding against outflows of oil into Richardson Bay.

Under reports, the Conference Committee reported a favorable hearing from the Board of Supervisors on the county ordinance and the likelihood of the passage of such at the next meeting. The bay shore oyster bed mater had as yet received no attention from the State Fish and Game Commission, so far as the association knew. The encroachment on duck grounds in Richardson Bay by oyster enclosures was reported to the committee for inquiry.

The Mt. Tamalpais Reserve committee reported good clearing work along the trails by the Mt. Tamalpais Conservation Club and a grand annual reunion of the latter club at Rock Spring on the first Sunday in May, at which a large number of the thousand members of the Club would be present.

\$7,500 Guaranteed**ONLY \$2 TO ENTER.****Guaranteed \$7,500**

The Pleasanton Futurity Stakes of 1914 and 1915

For Foals of 1912, to Trot and Pace at Two and Three Years Old

—ON THE—

—Pleasanton Race Track, Pleasanton, California.—

(R. J. MacKENZIE, Proprietor.)

Entries to Close Monday, July 1, 1912.

MONEY DIVIDED AS FOLLOWS:

\$3,000 for Three - Year - Old Trotters.

\$2,000 for Three - Year - Old Pacers.

\$1,500 for Two - Year - Old Trotters.

\$1,000 for Two - Year - Old Pacers.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Pace; \$35 to start in the Two-Year-Old Trot; \$35 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All Starting Payments to be made ten days before the first day of the meeting at which the race is to take place.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Trot; \$35 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All starting payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two-Years-Old are not barred from starting again in the Three-Year-Old Divisions.

CONDITIONS.

The races for Two-Year-Olds will be mile heats, 2 in 3, and for Three-Year-Olds, 3 in 5. Distance for Two-Year-Olds, 150 yards; for Three-Year-Olds, 100 yards.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before June 1, 1913, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment, nor will any entry be liable for more than amount paid in or contracted for.

Entries must be accompanied by the entrance fee. Nominators liable only for amounts paid in. Failure to make any payment forfeits all previous payments.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these Stakes in case the number of entries received is not satisfactory to the management.

Money divided in each division of the Stake 50, 25, 15 and 10 per cent. There will be no more moneys in each division than there are starters.

Entries open to the world. Membership not required to enter; but no horse wherever owned, will be allowed to start until the owner has become a member. Write for Entry Blanks to

It Pays to Use Save-the-Horse For Serious Tendon Trouble

Read For Yourself

J. M. GEORGE GRAIN CO.,

Grain, Seeds, Choice Milling Wheat a Specialty.

Shattuck, Okla., April 1, 1912.

The Troy Chemical Company, Binghamton, N. Y.

Gentlemen—Please send me your book on "Use and Abuse of Bandages." I used Save-the-Horse on a Ruptured Tendon and cured it perfectly on one of my stallions after a lameness of two years and after trying several other remedies and veterinarians. Less than one bottle did the work perfectly, and he has never taken a lame step since, and that was one year ago.

I believe I had spent \$50 on this before I used Save-the-Horse. Now I keep a bottle on hand in case of emergency, that's all.

Yours truly,

J. M. GEORGE.

Woodstown, N. J., April 4, 1912.

Troy Chemical Co., Binghamton, N. Y.:

I thank you for the advice you gave me and I want to say your Save-the-Horse has done more for me than anything I ever spent \$5 for. Last December I bought from you one bottle of Save-the-Horse to use for Bowed Tendons. After using for five days the horse has been doing her own work ever since, or driving four-teen miles three times every week.

This same horse stepped in a hole two weeks ago and sprained her shoulder. I bought another bottle and used it on her shoulder and she never missed her work. A man came in to see me. He knows all that you did for me. I let him use mine three days, and he went and bought a bottle right away. He could see in that time what it was doing for him.

Please send me two boxes of ointment, \$1 size, for which I enclose check. Advise me about mud fever.

Respectfully,

SAMUEL P. VAN PELT.

But first write describing your case, and we will send you our BOOK, sample contract, letters from business men the world over on every kind of case, and advice---ALL FREE (to horse owners and managers only).

PUT YOUR HORSE TO WORK and CURE HIM NOW. WRITE! and STOP THE LOSS.

Increases Value of Team From \$140 to \$400.

Manhasset, N. Y., Nassau Co., March 12, 1912.

Dear Sirs: In view of all the cures I have made, I have so much faith in its powers that I don't think you ever need sign a guarantee. It has cured every case I have ever used it on. I cured a polo pony that had been hit with a mallet and threw out a ringbone; was terribly lame; went sound in two weeks. A roan hunter with bowed tendon went sound and removed the enlargement. I use it for everything, and use it all the time. I have a big work team of farm horses, 5 and 7 years, that cost \$140. They were both very lame when I bought them, which is less than two months ago. Today they are sound and would bring at auction \$400 or \$500. Save-the-Horse did it. Enclosed please find check, for which please send me two bottles of Save-the-Horse.

Yours truly,

BURTON C. MITCHELL.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

Mack's \$1000 Spavin Remedy

Backed with \$1000 Bond Guaranteed to Cure Any Lameness

Whatever the cause—spavin, ringbone, thoroughpin, curb, capped hock, shoe-boil, sprung knee, ruptured tendons, sweeny, or any other of the hundred or more causes of lameness—Mack's \$1000 Spavin Remedy is guaranteed to make your horse entirely sound. Not only are you guaranteed against loss, but the record of Mack's \$1000 Spavin Remedy is making thousands of marvelous cures in apparently hopeless cases, assures you that you can save your lame horse.

In a few days it puts horses to work that had been disabled for months or years. Leaves no scar, loss of hair, or any other blemish to show that the horse was ever lame. Painless and safe. Goes to the root of the trouble, eradicates disease, builds new tissues.

Get This Free Diagnosis by a Veterinary

It will cost you nothing to have our practicing Veterinary Specialist give you his expert opinion and advice about your lame horse. Just mark on the picture in this coupon where the cause of your horse's lameness is located and give us the other information the coupon asks for. Mail it to us—and our Veterinary Specialist will tell you the nature of the lameness and how you can cure it. This service is free to you. No obligation. Send the coupon today.

Your Druggist Can Supply You with Mack's \$1000 Spavin Remedy

If he does not have it on hand, ask him to get it for you. If he does not take your order, send direct to us with the price—only \$5—the same wherever you buy. Every bottle is accompanied by our \$1000 Bond guaranteeing you against loss as plainly stated in the Bond. Get Mack's \$1000 Spavin Remedy. The only one sold under a Thousand Dollar Bond—and cure that lame horse NOW.

McKALLOR DRUG COMPANY BINGHAMTON, N. Y.

Poyseppi, Wis., March 16, 1911. I wish to advise that the mare I treated with Mack's Thousand Dollar Spavin Remedy for capsular ligament lameness is entirely cured of her lameness. I do not want my money back; you have done wonders for my horse. She did not earn her grain for the last three years. I could hardly get her out of the barn for weeks, now we drive her every day and no lameness. I have ordered another bottle of the remedy from Milwaukee, as I now have a mule affected, etc. Yours, C. J. WALTER.

Free Diagnosis Coupon

On picture of horse mark with an X just where swelling or lameness occurs, then clip out coupon and mail to us with a letter, telling what caused the lameness, how long horse has been lame, how it affects the animal's gait, age of horse, etc. We will tell you just what the lameness is and how to relieve it quickly. Absolutely no charge. Write today.

Free Book "Horse Sense" Send us the Free Diagnosis Coupon, get, absolutely free, a copy of our book "Horse Sense." Describes and illustrates disease of horses' limbs, shows correct name for every part of horse and tells valuable facts every horse owner ought to know.

Flies! Flies! Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of Tanglefoot Fly Paper. There is fully one-third more compound per sheet on Tanglefoot than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for Tanglefoot.

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans, Will protect your trees from all climbing insects.

Sound Legs Pull Big Loads

No horse with a Spavin, Splint, Curb, Ringbone, etc.

Bony Growth or Sprain, can do himself justice. Often these ailments put a horse out of commission. Thousands of farmers and horsemen have been keeping their horses sound by using Kendall's Spavin Cure—the old reliable, safe remedy. We have many letters like these to prove it.

Otis A. Hopkins, East Greenwich, R. I., writes: "I have used Kendall's Spavin Cure for more than 25 years and find it the best on the market."

Louis Denger, Gildren, Wis., writes: "I have been using Kendall's Spavin Cure with the best of success. I cured a very bad case of Spavin on one of my horses and cannot say too much in praise of it."

KENDALL'S Spavin Cure

Keeps the horses working—making money in the field instead of "casting their heads off." It acts quickly, leaves no scars or blemishes and costs little. Don't risk experiments with unknown, untried brands when Kendall's costs no more (often less.)

Be ready for any emergency. Keep a bottle of Kendall's in the barn. Then if anything should happen to your horse you can apply it quickly and save big money as others have done and are doing. Tear this advertisement out to remind you to get Kendall's Spavin Cure next time you go to town.

Price \$1 per bottle—6 bottles \$5. Ask druggist for free book "Treatise on the Horse" or write direct to us.

| 4—2-YEAR-OLDS, PACING 400 | | | |

CONDITIONS.

Horses to be named with entry and eligible when entries close.

Nominators have the right of entering two horses in one ownership in any race by the payment of one per cent additional for that privilege, but only one horse of the two so entered can be started except when proper transfer is made according to rule and full entry fee paid on each entry.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts in both races.

All races mile heats, 3 in 5, except for two and three-year-olds, which are 2 in 3.

No race to be more than five heats. Any race not decided before the fifth heat, money will be divided according to the rank in the summary at the termination of the fifth heat.

In case class in which horse is entered does not fill, entry may be transferred to any stakes to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent and an additional five per cent of the amount of the stake will be deducted from money-winners.

Rules of the National Trotting Association, of which this track is a member, to govern except as otherwise stated.

For entry blanks and further information, address

CHAS. L. DE RYDER, Manager, Pleasanton, Cal.

New Edition of John Splan's Book

"Life With the Trotter"

Price, \$3.00, Postpaid.

"Life With the Trotter" gives us a clear insight into the ways and means to be adopted to increase pace, and preserve it when obtained. This work is replete with interest, and should be read by all sections of society, as it inculcates the doctrines of kindness to the horse from start to finish.

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 3, 5, 6, 9, 11, 12, 15, 16, 17 and 18, mile heats, 3 in 5, no race longer than 5 heats. Races Nos. 4, 10, 13 and 14, mile heats, 2 in 3. In the first three heats of Races Nos. 1 and 7, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race. 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 8, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moneys as there are heats. Moneys to be divided 50, 25, 15 and 10 per cent.

Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 30 yards, but if the field is more than eight, 100 yards. A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting. If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |
|-------------------|-----------|------------|------------|------------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$15 |
| 2:15 Trot | 35 | 35 | 35 | 20 |
| 2:12 Trot | 65 | 65 | 65 | 55 |
| 2:08 Trot | 15 | 15 | 10 | 10 |
| 2:20 Amateur Trot | 15 | 15 | 10 | 10 |
| 2:20 Pace | 20 | 20 | 20 | 15 |
| 2:15 Pace | 35 | 35 | 35 | 20 |
| 2:11 Pace | 65 | 65 | 65 | 55 |
| Free-for-All Pace | 15 | 15 | 10 | 10 |
| 2:15 Amateur Pace | 15 | 15 | 10 | 10 |

AMATEUR STAKES FOR CUP.

| | |
|-----------|-------------------|
| 2:20 Trot | Close August 15th |
| 2:15 Pace | Close August 15th |

For entry blanks and further particulars, address

A. L. SCOTT, President. C. ALLISON TELFER, Manager, Sacramento, Cal.

The Standard Stallion

NOBAGE 48390

Sire of

Zombowage, the sensational yearling-trotter, that stepped a full mile in 2:40 and a half in 1:18, with 30 days' work last year, and was purchased by Mr. Ted Hayes at the State Fair.

NOBAGE 48390 by Bon Voyage 2:08; dam Loma B. by Stam B. 2:11 1/4; second dam Italia (great broodmare) by Sidney 2:19 3/4; third dam Dot 2:29 by Prompter, sire of dam of Gratt 2:02 1/4. Nobage's first crop of colts, sired when he was two years old, are all high-class and show great inherited speed.

Pasture \$2.50 per month, and all mares from a distance will be first month free. Will make the season of 1912 at EASTERBY RANCH, 3 miles east of FRESNO, CAL. TERMS: \$50 to insure. Address A. S. KELLOGG (Owner), 120 Fourth Camp Avenue, Fresno, Cal.

Moneys divided 50, 25, 15 and 10 per cent. Right reserved to declare off any race that does not fill satisfactorily or to change order of program.

A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

Amateur races driven to sulky. District for Colt Stakes comprises Merced, Madera, Fresno, Tulare, Kern and Kings Counties.

J. E. DICKINSON, President. C. I. PULLIAM, Secretary, Fresno, Cal.

Athasham

Race Rec. 2:09 1/4. Reg. No. 45026. A Game Race Horse in the Stud

Bay stallion; stands 15.3 hands; weighs 1150. Sired by Athadon (1) 2:27 (sire of The Donna 2:07 1/4, Athasham 2:09 1/4, Donasham 2:09 3/4, Sue 2:12, Listerine 2:13 1/4, Mattawan (3) 2:17 1/4, and 3 others in 2:30); dam the great broodmare Cora Wickersham (also dam of Nogi (3) 2:17 1/4, (4) 2:10 1/4, winner of 3-year-old trotting division Breeders' Futurity 1907 and Occident and Stanford Stakes of same year, and Donasham 2:09 3/4 and Kinneysham (2) 2:18 3/4), by Junio 2:22 1/2 (sire of dams of Geo. G. 2:05 1/4, etc.). Athasham has a great future before him as a sire. He is bred right and made right, and has every qualification one can expect in a sire. He has been timed in 2:06 1/4 in a race, and his courage is unquestioned.

Season 1912, Feb. 15th to June 15th, at Orchard Farm and Race Track, Fresno, Cal., for a fee of \$25. Approved mares.

Good pasturage at \$3.00 per month. For further particulars, address this place.

D. L. BACHANT, R. R. 1, Fresno, Cal.

The Standard Trotting Stallion

Bon McKinney 51480

3-y.-o. Rec. 2:24 1/4. 3-y.-o. Trial—half, 1:05; mile, 2:15.

By BON VOYAGE 2:08

(fastest mile ever trotted in a race by a stallion in California); dam, Daphne McKinney (also dam of Frank N. 2:07 1/4, the only other one of her get ever trained) by McKinney 2:11 1/4; second dam, La Moscovia (dam of Bon Guy, 3-y.-o., 2:11 1/4, Yolande 2:14 1/4 and Tina 2:20 1/4) by Guy Wilkes 2:15 1/4; third dam, Moscova 2:28 1/2 (dam of Mamie R., 3-y.-o., 2:15 1/4, and Oro Belmont 2:15 1/4) by Belmont 64; fourth dam, Mosa (dam of 5 in the list) by Woodford Mambrino. Bon McKinney combines the best of the Electioneer-McKinney cross. His dams are all in the great brood mare list, every one being a producer of speed. He is

Season of 1912 at the **RACE TRACK, SAN JOSE, CAL.**

TERMS: \$40 for the Season. Usual return privilege.

Good pasturage and the best of care taken of mares in any manner that owners may desire at reasonable rates, but no responsibility assumed for accidents or escapes. Address **JOS. TWOHIG, Manager, Race Track, San Jose, Cal.**

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hai 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/2.

By McKinney 2:11 1/4; dam Expressive (3) 2:12 1/4 (dam of Atlantic Express 2:08 1/4, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:03 1/4, champion 5-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Bred to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

J. H. NELSON, Owner, SELMA, CAL.

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂ second fastest stallion of 1910.

Grace Bond (3) 2:09¹/₄ winner both divisions of Kentucky Futurity.

Creighton 2:08³/₄ record made in 1911.

and 31 others.
Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:05³/₄, etc.
Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.
Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:15... Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:05, Baron May 2:07³/₄, sire of dams of 4 in 2:10.
SORRENTO... Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Eola 2:19³/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.
4th dam Virgie—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

GEORGE WILKES 2:22 Sire of 83, dams of 204.
BELLE PATCHEN 2:30³/₄ In great brood mare list.
GRAND SENTINEL 2:29³/₄ Sire of 23, including Nettle 2:16³/₄, Tosca 2:18³/₄.
EMPRESS... Dam of 2 and grandam of 9.
HAMBLETONIAN 10 Sire of 40.
DOLLY SPANKER Dam of 1.
MAMBRINO PATCHEN 58. Sire of 25, dams of 162.
SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc.
SENTINEL 250 Sire of 8 in list.
MAID OF LEXINGTON By Mamb. Pilot 29.
ABDALLAH MAMBRINO Sire of 15, dams of 42.
BIG ELLEN By Clark Chief.

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralm. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family.
He will make the season of 1912 at

Pleasanton Training Park. \$100 THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race.
Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:
Francis J. 2:08
Evelyn Patchen... 2:10³/₄
Scott Patchen... 2:12³/₄
Dessie Patchen... 2:13
Frank Patchen... 2:13³/₄
Ruby Patchen... 2:13³/₄
J. C. Patchen... 2:14³/₄
Legal Patchen... 2:15³/₄
Lucille Patchen... 2:16
Jerry Patchen... 2:16³/₄
Knightstown Belle 2:16³/₄
Alec Williams... 2:18³/₄
Lois Patchen... 2:19³/₄
Auduous the Miller 2:19³/₄
Dorothy C. 2:19³/₄
Louise Patchen... 2:19³/₄
Dr. Warren... 2:19³/₄
Roscoe Binning... 2:20
Mary Patchen... 2:20³/₄
Black Patchen... 2:20³/₄
and 11 others in 2:30.

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.
A Choice Collection of Kentucky Saddle Horses for Sale.

LOGAN POINTER 52167

One of the best bred sons of the pacing king Star Pointer 1:59³/₄.

Dam Effie Logan (dam of Sir Albert S. 2:03³/₄; Jim Logan 2:05³/₄, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 1:25³/₄ (sire of Shecam 2:12³/₄ and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javein 2:08³/₄, etc.); 3rd dam Grace (dam of Daedalion 2:08³/₄, etc.) by Buccanear, etc.

LOGAN POINTER 52167 is a very handsome blood bay, is 3 years old, stands 15³/₄ hands high and weighs 1150 lbs. He is a horse of splendid conformation, has the best of feet and legs and is intelligent and of good disposition.

Will make the season of 1912 at DAVIS, CAL.
TERMS: \$30 to insure.

Good pasturage for \$3 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address J. E. MONTGOMERY, Owner. CAREY MONTGOMERY, Davis, Cal.

Breed to the Sire of Futurity Winners!

Demonio 28016 Record 2:11³/₄

Bay stallion; 15.2 hands. Sired by Chas. Derby 2:20; dam Bertha (dam of 12 in 2:30 list, five in 2:10) by Alcantara 2:23 (son of Geo. Wilkes and Alma Mater, dam of 8 in 2:30 list); second dam Barcana (dam of Bayard Wilkes 2:11³/₄, two producing sons and two speed-producing daughters) by Bayard 53 (son of Pilot Jr. 12, the famous sire); third dam Elandina (dam of six speed-producing sires) by Mambrino Chief 11; fourth dam Burch Mare (dam of two) by Parker's Brown Pilot.

Demonio with very limited opportunities sired Mona Wilkes 2:03³/₄, Denervo 2:06³/₄, Nordwell 2:08³/₄, Memonia 2:09³/₄, Demonio Wilkes 2:09³/₄, Ben Rush (3) 2:10³/₄, Grace R. 2:10³/₄, Miss Winn 2:12³/₄, Normono 2:14³/₄, and is a full brother to the sires, Diablo 2:09³/₄, sire of 50, Arner 2:17³/₄, sire of 2, and Don Derby 2:04³/₄, sire of 1.

Will make the season of 1912 at SUISUN STOCK FARM. FEE: \$50. Usual return privilege. Good pasturage, \$3.00 per month. Address RUSH & HAILLE, Suisun Stock Farm, Suisun, Cal.

The Imp. Shire Stallions RAMPTON PRESIDENT

Reg. No. 27692. Foaled 1908.

Sired by Royal President 11 20864; dam Rampton Gem by Somersham Hathorn 15359. Light bay, strong built, high-class individual.

SERVICE FEE: \$30, with return privilege.

ANWICK ARTHUR Foaled 1908

Reg. No. 29025.

Sired by Harbling Arthur 23368; dam Blossom 65974 by Sheffield Armour Plate 17616. A handsome, powerfully built, young horse.

SERVICE FEE: \$25, with return privilege.

Will make the Season at

Black Hawk Ranch, Burlingame, San Mateo Co., Cal.

Apply to or address A. W. WARD, Supt., Burlingame, Cal.

BEAUTY, BREEDING AND SPEED.

Prince Ansel 29220

2-y.-o. Race Record 2:20³/₄.

By Dexter Prince 11363 (sire of Lisonjero 2:08³/₄, Eleata 2:08³/₄, James L. 2:09³/₄, Edith 2:10, etc.); dam Woodflower (dam of 2, 1 sire of 10 and 1 dam of 1) by Ansel 2:20 (sire of 14, 4 sires of 11 and 14 dams of 17 in 2:30) by Electioneer; second dam Mayflower, a great broodmare by St. Clair 16675, etc.

Sire of Prince Lot (2) 2:29; 1911, 2:09³/₄; Wesos 2:12³/₄; Adansel (3) 2:14³/₄; Dorothy Ansel (2) 2:20, 1910; Larra Rodgers (2) 2:18³/₄; Frances C. (3) 2:24³/₄; Mat. 2:19; Anjella 2:27³/₄, tr. 2:15³/₄; Bonnie Princess 2:25³/₄; Princess Mamie 2:27³/₄, tr. 2:18³/₄; Prince Gay, tr. 2:12³/₄; Harold M., tr. 2:23; Josie Ansel, tr. 2:23; Ansevola, tr. 2:22; Ima Dudley (3), tr. 2:29; Joseph D. (2), tr. 2:18³/₄; Oddmark (2), tr. 2:23; Georgie K. (2), tr. 2:30.

PRINCE ANSEL is a handsome bay stallion, stands 15.3 hands and weighs 1200 pounds. During the season of 1910, 6 of his get took records, 4 of them being 3-year-olds and under. Prince Lot started 7 times, was once fourth, once third, three times second and twice first. In 1911 he lowered his record to 2:09³/₄. Adansel, his three-year-old son, lowered his record to 2:14³/₄ and Wesos started three times and won twice, lowering his record to 2:12³/₄.

Season of 1911 at the Race Track, WOODLAND, CAL.
Terms: \$50 to insure, \$40 by the season, with return privilege. Pasture for mares during season at \$3.00 per month; not responsible for accidents or escapes. For further information, address A. B. KENNEY, Manager Woodland Stock Farm, Woodland, Cal.

Aerolite 2:07¹/₂ 2-year-old Record 2:15³/₄ 3-year-old Record 2:11³/₄

Sire of Ruby Light (3) 2:11³/₄, Aeroletta (2) 2:21, and Leonid, second to her in 2:21.
By Searchlight 2:03³/₄; dam, Trix by Nutwood Wilkes 2:16³/₄, sire of John A. McKerron 2:04³/₄, Copa de Oro 1:59, Happy Dentist 2:05³/₄, Nutmoor 2:06³/₄, Prof. Heald 2:09³/₄, Tidal Wave 2:06³/₄, Miss Idaho 2:09³/₄, etc.

Dam Trix, dam of Mona Wilkes 2:03³/₄ and 3 others all by different sires that have beaten 2:15; second dam Trixy by Director 2:17; third dam Mischief (dam of Brilliant, sire of Brillantine 2:17³/₄) by Young Tuckahoe 2:28³/₄, son of Flax-tail; fourth dam Lide by Flax-tail; fifth dam by Peoria Blue Bull; sixth dam, Fanny Fern by Irwin's Tuckahoe, and seventh dam by Leffier's Consul (Thor.).

Will make a short Season at PLEASANTON, CAL.

FEE: \$50 for the Season. For further particulars apply to C. L. GIFFORD, Owner. Sutherland & Chadbourne, Pleasanton, Cal.

THE STANDARD TROTTING STALLION AIRLIE DEMONIO 51640

Stands about 16 hands, handsome, sound, without blemish, stylish, fine individual in every respect. Sired by Demonio 2:11³/₄ (sire of Mono Wilkes 2:03³/₄, Denervo 2:06³/₄, Nordwell 2:08³/₄, Memonio 2:09³/₄, Demonio Wilkes 2:09³/₄, Ben Rush (3) 2:10³/₄, etc., etc.), dam Potrero Girl by Prince Airlie 28045; second dam Moscova 2:28³/₄ (dam of Mamie R. (3) 2:15³/₄, Oro Belmont 2:15³/₄, La Moscovita, dam of Frank N. 2:07³/₄, Bon Guy (3) 2:11³/₄, etc.), by Belmont 64; next dam Mosa (dam of 5 in the list), by Woodford Mambrino 345; next dam Hermosa (great brood mare), by Edwin Forrest.

Will make the season of 1912 at CITY STABLES, WOODLAND, CAL.

FEE, \$30 TO INSURE. Usual return privilege. Good pasturage \$2.50 per month. Best of care taken of mares, but no responsibility assumed for accidents or escapes. Address CHARLES JOHNSON, Woodland, Cal. Phone 40.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39400, son of McKinney 2:11³/₄, out of Helena 2:11³/₄ (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:15³/₄ (sire of Copa de Oro 1:59, John A. McKerron 2:04³/₄, Happy Dentist 2:05³/₄, etc.); second dam Novellist 2:27 by Norval 2:14³/₄; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc. Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old 1 broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 38 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal. SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-bore Parkers have set the pace for small bores in America, and are proving in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

"Leader" and "Repeater" Smokeless Factory Loaded Shells

The Red **W** Brand

If you believe there is any merit in winning the Season's Trap Shooting Average ten out of twelve times and in establishing the World's Long Run Record of 565 Straight, you will believe in Winchester Factory Loaded Shells.

Winchester Factory Loaded Shells not only have this unequalled record, but also the unique achievement of holding at one time all the World's Target Championship Trophies. Factory Loaded "Leader" and "Repeater" smokeless powder shells can be obtained at any dealer's. Ask for the Red **W** Brand and look for the Red **W** on the box
THEY IMPROVE THE SHOOTING OF ANY GUN

LES MOK .22s

Accuracy. The greater the range, the greater the accuracy of Remington-UMC Lesmok .22's in comparison with competing makes. Remington-UMC Lesmok .22s hold the world's record—2484 x 2500.

Penetration. The complete and instantaneous ignition due to perfect priming insures greater penetration. Comparative tests prove this.

Cleanliness. Remington-UMC Lesmok powder is a moist burning powder, it burns clean. No damaging residue is left in the action or barrel. There can therefore be no erosion.

The new Remington-UMC hollow point Lesmok .22s are especially recommended for their shocking and killing power.

Furnished in short, long and long rifle sizes only.

Remington-UMC ---the perfect shooting combination.

23rd Annual Race Meeting

—OF THE—

\$ 17,050

In Guaranteed Stakes

Pacific Coast Trotting Horse Breeders Association

STOCKTON, CAL., SEPTEMBER 25, 26, 27, 28, 1912

Entries close June 1, 1912.

NOTE—Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races. Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starter is to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. Where a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

PROGRAMME FOR THE MEETING:

| WEDNESDAY. | THURSDAY. | FRIDAY. | SATURDAY. |
|---|--|--|--|
| 1—2-Year-Olds, Trotting Division Futurity Stakes No. 10 (Closed 1909) . . . \$1450 | 4—3-Year-Olds, Pacing Division Futurity Stakes No. 9 (Closed 1908) . . . \$1300 | 8—3-Year-Olds, Trotting Division Futurity Stakes No. 9 (Closed 1908) . . . \$3300 | 12—2-Year-Olds, Pacing Division Futurity Stakes No. 10 (Closed 1909) . . . \$ 950 |
| 2—2:20 Class Pacing . . . 1000 | 5—2:08 Class Pacing . . . 1000 | 9—2:08 Class Trotting . . . 1000 | 13—2:20 Class Trotting . . . 1000 |

STATE AGRICULTURAL SOCIETY.

Stanford Stake for 1914.

TROTTING STAKE FOR FOALS OF 1911.

Entries close June 1, 1912.

To be trotted at the California State Fair of 1914. \$50 entrance, of which \$5 must accompany nomination, June 1, 1912; \$5 November 1, 1912; \$10 June 1, 1913; \$10 June 1, 1914, and \$20 on the tenth day before the first day of the State Fair of 1914. The Stanford Cup of the value of not less than \$250.00 to be added by the Society. Mile heats, three in five, to harness.

The stakes and added money to be divided 50, 25, 15 and 10 per cent. Right reserved to declare two starters a walkover. When only two start they may contest for the entrance money paid in, to be divided 66 2/3 per cent to the winner and 33 1/3 per cent to the second horse. A horse distancing the field will be entitled to first money only. In no case will a horse be entitled to more than one money.

A horse not winning a heat in the first three shall not start in the fourth heat, unless said horse shall have made a dead heat; but horses so ruled out shall have a right to share in the prize according to their rank in the summary at the close of their last heat.

Nominators are not held for full amount of entrance in case colt goes wrong; only forfeit the payments made, which relieves you from further responsibility and declares entry out.

The stake is growing in value each year; every breeder should enter in it; it will enhance the value of his colt in case he desires to sell.

Your colt entered in the Occident Stake for 1914 is eligible for entry in this stake.

Remember the date of closing is June 1, 1912.

C. ALLISON TELFER, Manager, Sacramento, Cal.

THE COMMITTEE from the Pacific Coast Trotting Horse Breeders' Association and the Park Amateur Driving Club appointed to promote a big harness race meeting in connection with the Panama-Pacific Exposition in 1915 met with President C. C. Moore of the Exposition Commission last Wednesday afternoon, and preliminary plans were discussed. The original project of lengthening the Stadium track was abandoned in favor of building a mile track in the inside of the exposition grounds, there being room for that purpose, the infield making an excellent parade ground. As the live stock exhibit will take place after the race meeting, there will be ample stall accommodations. The committee has been asked to take the matter up and to go into details in regard to the track, its appointments, etc., with as little delay as possible, and it looks as though definite plans for the meeting can be announced in the near future.

Throughout the Eastern States, Europe, Canada and Australia there is now a great and growing interest taken in breeding and racing trotting and pacing horses and the United States army is taking a keen interest in promoting it, realizing that it is from this source it must look for horses to supply its cavalry.

The daily attendance at the big fairs and race meetings in the East frequently exceeds 100,000 spectators, many of them coming hundreds of miles to see the great stake events.

The Panama Exposition will draw people from all over the East where trotting and pacing horses are the great attractions at the State and county fairs.

The conditions at the time will be such that the meeting can be made the greatest ever held. The fastest horses in the world will be present to compete in races which will be historical. A plan has been suggested by which a number of purses of \$25,000 each can be given that will offer more liberal inducements to entrants than was ever presented before. Other purses can be given for various amounts ranging down to \$2000.

All of these purses will receive large lists of entries. The program is to be so arranged that the same horse can start in several races during the meeting. Such a meeting will not only be one of the big attractions of the exposition, but the receipts will more than pay all of the expense and it will be of great benefit to a very important interest on this Coast. In addition to the many prizes, valuable trophies will be offered and horses will be brought from foreign countries to race at this meeting. The big livestock show, together with a big horse show, will work in splendidly with the race meeting.

SO MUCH has been said in praise of the Alherta country that many horsemen have decided to make their first start on the North Pacific Fair Circuit there. The gates of the fair at Calgary will open

June 28th and close July 5th. The half-mile track there is one of the best. The people are enthusiastic patrons of the light harness horse game, so a large attendance is expected. The Vancouver Fair follows and at this point the California horses which have raced at the Pleasanton meeting will be unloaded from the cars and a great meeting will surely follow, for the classes are many and stakes and purses large.

Then follows the Seattle Fair, August 19th to the 24th, inclusive, and two days after its close the Portland meeting will be held over its beautifully situated track. The programme of these races and dates of closing, however, are in press, and will appear next week. The Oregon State Fair, which is second to no other on this Coast, commences September 2d and ends on the 7th. A glance at the programme of this fair in our business columns only conveys a slight idea of what all horsemen and trainers have in store for them at this celebrated mile track. Over \$26,000 will be distributed there in stakes and purses. The attractions alone are worth going hundreds of miles to see. Then the Vancouver, (Washington) Fair takes place, where many good races will be held, and the interest in them is increasing. Then Walla Walla follows over its mile track. After it comes the Washington State Fair at North Yakima. This fair is increasing in popularity every year, for its interest in light harness horses is making a marvelous growth. The Spokane Interstate Fair September 30th to October 6th offers twelve races over its splendid half-mile track, and after that the Idaho Intermountain Fair, which is annually held at Boise City, should attract a large number of owners and trainers of trotters and pacers. The secretary of this North Pacific Fair Association, Mr. John W. Pace, of Seattle, Washington, is a worker, if there ever was one, and he is noted for his kind and courteous treatment of all horsemen and their friends.

This year promises to be the best from an agricultural and live stock raising point of view ever known in the Northwest and thousands of new people have come there to remain. Most of them have a fondness for good horses and ere the circuit ends many a good performer will find a new home there. We strongly advise horse owners and trainers to not overlook the race meetings given by the North Pacific Fair Association this year. They should read the advertisement over carefully and make preparations to race there this year.

DELEGATES from all over California, consisting of men who are interested in the horsebreeding industry, will gather in San Francisco this (Saturday) forenoon for the purpose of discussing ways and means to bring about a new law which will permit pari-mutuel betting on racing under certain restrictions. It is believed that the convention will recommend an initiative bill prepared to submit to the people at the next general election in November looking to the appointment of a State Racing Commission and the right to bet under the pari-mutuel system, as in vogue in Kentucky.

The meeting will be held in the concert room of the Palace Hotel at 10 o'clock. The names of 136 prominent citizens of this State are attached to the printed list of this call and include among others:

A. B. Spreckels, Thomas H. Williams, Richard Tohin, Colonel J. C. Kirkpatrick, James Woods, William F. Humphrey, W. O'B. Macdonough, Clarence Waterhouse, T. Murphy, S. Christensen and George Giannini of San Francisco; Frank Ruhstaller, Chas. F. Silva, of Sacramento; Geo. L. Warlow and D. M. Bachant of Fresno; Charles A. Clark of San Mateo; Warren R. Porter of Berkeley; A. B. Sherwood of Stockton; Milo Potter of Santa Barbara; Colonel W. J. Hogan of Pasadena; Clarence Berry and Dr. Wm. Dodge of Los Angeles; Budd Doble of Hemet; Fred W. Swanton of Santa Cruz, and Bert Irwin of El Centro.

EXCUSES will be unavailing for all who neglect to make entries in the big race meeting to be held at Stockton (September 25th to 28th, inclusive) under the auspices of the Pacific Coast Trotting Horse Breeders' Association. These entries will close next Saturday, June 1st, and this is the last call for them. This meeting follows the State Fair at Sacramento and promises to surpass any held by this associa-

tion in years. Four futurity races are to be decided beside seven other races for purses worth \$1000 each, and there are two races also for members of amateur driving clubs for which \$400 has been set aside for each event.

The Stockton Driving Club and the leading commercial organizations of Stockton are working hand in hand to make this one of the most popular and best attended meetings ever seen in San Joaquin county. The track will be made soft and safe and all the stalls are in first-class condition. There are plenty of hotel accommodations for all who attend the races, and as this is the first meeting ever given by the Breeders' Association in Stockton considerable interest is being taken in it by those who live there and in all the adjacent cities and towns which are connected with it by rail. Remember, all entries will close next Saturday, June 1st, for this meeting, at which \$17,050 will be disbursed among horsemen and trainers.

WOODLAND is to have the greatest three days' meeting in its history, July 4th, 5th and 6th! It will celebrate the opening of the Woodland-Sacramento railroad and the largest and most enthusiastic gathering of people in this beautiful city will attend the three days of racing at the race track; full particulars of which will be noticed in our advertising columns. Horsemen should avail themselves of this opportunity to enter their horses in these races. There are to be six class events and three matinee races. There will also be speaking by gifted orators, a floral procession, an old-fashioned barbecue, racing during the afternoons, parade of "The Horribles" and fireworks in the evening, ending up with a grand ball. There will be a stock parade and stock judging on the fifth and sixth, and a royally good time for all is promised. Everybody will want to be there when the first train loaded with enthusiastic passengers arrives via the new electric line from Sacramento. Don't forget this Woodland meeting.

EVERYONE should try and attend the big matinee race meeting to be held at Pleasanton next Thursday. Mr. R. J. MacKenzie, the proprietor of the track there, has donated two beautiful silver cups and there will be several others awarded to the winners. The climate is beautiful and the track perfect, there is no charge for admission, and as it is a holiday, the attendance should be big. A number of new trotters and pacers are to make their appearance and much speculation has been indulged in as to which horses will win. Trains leave San Francisco at 7:20 and 9 a. m. and those who attend will be able to see all the races and leave at 5:45 p. m. The management extends a cordial welcome to all to come. The grandstand is free and a more delightful day to spend a holiday cannot be imagined.

EVERY owner of a good horse who wants to give him a chance to win some money next month should remember that entries to the races to be given on Butchers' Day, June 12th, will close next Saturday, June 1st. It is estimated that there will be over 25,000 people in attendance at this big race meeting. See the advertisement and send entries at once to M. M. Bates, 938 Valencia street. The track at Emeryville will be in excellent shape for this meeting.

REMEMBER, entries for the Santa Clara County Fair race meeting will close next Saturday, June 1st. This promises to be a splendid meeting. It follows the Salem, Oregon, meeting, and precedes the State Fair, so horsemen cannot afford to overlook it. They should read the advertisement and mail their entries on time.

Switches for bob-tailed horses is the innovation which Miss Pauline Jaques, who lives on the Tomb ranch, near Marysville has introduced to local horse-dom. Miss Jaques is not an active member of the Humane Society, but should be. Yesterday she was the cynosure of all eyes when she drove into town behind a hay horse that swung a gray tail at the pestiferous fly. Investigation proved that the animal was a bobtail and that his mistress had amputated from a deceased parent of the beast a comely tail of gray, which was adroitly attached to the stub and is being used as "natural-like" as the rats and switches that fashion has devised for the up-to-date woman.—Marysville Appeal.

NOTES AND NEWS

Chas. James will drive St. Thomas 2:17½ in all the meetings on the Pacific Coast Circuit meeting this year.

Dick Wilson expects to have that wonderful pacer Little Lucille (3) 2:09, by Palo King, in his string of good ones this year.

A heavy windstorm recently demolished the windmill at the Stockton race track, and in its stead a motor has been installed.

All the races filled for the Los Angeles meeting except the 2:05 pace, and a free-for-all pace has been substituted for it.

Have you noticed that entries for a number of races at Fresno will close next Saturday, June 1st? These are for the district trotters and pacers.

Remember, entries to the P. C. T. H. B. Association will close next Saturday, June 1st. This is the big Stockton meeting and must not be overlooked!

The two-year-old sister to Prince Lot 2:09½ has been a mile in 2:24 and is improving very rapidly. She is one of the best fillies ever seen in Los Angeles.

The green pacing stallion El Oro, by Demonio 2:11¼, that Jos. Villar was handling, has been sold and shipped to Honolulu. This is a very well bred colt and should develop into something good.

Fred Ward has Los Escatado in good shape now. He could have trotted in 2:10 in the last matinee. If he stays all right this season he will have some strong claims on first money in all his starts.

All horse owners should carefully read the advertisement of the various racing associations in this issue and take notice of the fact that entries in a number of them will close next Saturday, June 1st.

L. H. Todhunter, of Sacramento, has shipped his good broodmare The Silver Bell (dam of Hymettus 2:07¼, Zombowette 2:14¼, etc.) by Silver Bow 2:16, to Pleasanton, to be bred to The Bondsman.

Ben Walker drove A. V. Mendenhall's good little pacer Vela A. in masterly style at the Pleasanton matinee meeting last Saturday. She paced in 2:12½, the fastest mile she has ever gone.

Walter Maben worked Donasham 2:09¼ a mile in 2:17, last half in 1:02¼, at Los Angeles last Saturday. He has a fine two-year-old by Carlok in 2:07½ out of a mare by Zombro 2:11, that has been a half in 1:07, and a quarter in 33 seconds.

On no circuit in the United States, outside of the Grand Circuit, are purses and stakes to be given this year which will compare with the total amount to be paid by the Pacific Coast Fair and Racing Circuit: \$247,000, including the Pleasanton meeting!

H. D. Brown's Alta Vela mare Camilia trotted exceedingly well at Pleasanton under Chas DeRyder's guidance; her victory in 2:16¾ and 2:19 was well earned, and if nothing happens this "green" mare will get a mark close to 2:12 this season.

Andrew Robertson, superintendent of the Allendale Stock Farm, Mentone, Australia, arrived in this city on Saturday, en route to England. He has decided to remain here until after the next matinee at Pleasanton, May 30th.

There will be a big matinee held at the Pleasanton race track on Thursday, May 30th. Mr. R. J. MacKenzie has ordered two beautiful silver cups at Shreve's, these will be awarded the winners of two of the events.

Ruth Dillon 2:06¼, the trotting daughter of Sidney Dillon, raced a few years back by Millard Sanders when trainer for Maywood Stock Farm, Indianapolis, Ind., is now in the stable of A. B. Van Houten at Worcester, Mass., and will be tried this season at the pace.

W. H. Gocher, who for years has been secretary of the National Trotting Association, was re-elected to that position for another term of two years, when the Board of Review met at the Murray Hill Hotel last week. L. J. Powers, of Springfield, Mass., was re-elected treasurer.

R. J. MacKenzie, owner of the Pleasanton track, has just purchased the three-year-old Buckhorn in the East for a price that is supposed to be \$5000. Canada Jack Atkin, trainer for MacKenzie, negotiated the deal and the thoroughbred will continue to race in the East. Buckhorn, by Broomstick, out of Twenty-Third, has started fourteen times, won seven, been second six times and unplaced once. His sire is also sire of the favorite in the English Derby for this year.

Harry Brown's good mare Grace Cole by Nutwood Wilkes 2:16½, out of Lily Langtry, by Nephew, foaled a beautiful bay filly on the 12th, whose sire is Nearest McKinney 2:13¼, and Mr. Brown is so well pleased with this foal he has decided to breed the mare back to this handsome McKinney stallion.

Onomore and Oro De are full brothers, the first is a chestnut stallion and the latter a bay gelding, both pacers and quite promising. They were sired by Demonio 2:11¼, out of Hanora by Oro Wilkes 2:11, and were bred at the Suisun Stock Farm. Onomore is in Sacramento and Oro De is at Pleasanton.

Senator Ben F. Rush has decided to breed two mares to The Bondsman this season, one is a chestnut mare by Demonio 2:11¼, out of Eva Airlie, by Prince Airlie; second dam Eva, by La Grande, and the other is Potrero Girl, by Prince Airlie, one of the choicest bred mares he owns.

The pacing mare The Jewess that has been such a factor at the Sacramento racing matinees, was sired by Suomi (son of Zombro 2:11 and Belle Medium 2:20), dam Klickit Maid 2:19 (dam of Mary K. 2:08¼ and two others in 2:30), by Altamont 2:26¾; second dam by Capt. Sligart Jr. She belongs to Alex. Levison.

Mexican rebels have made many attempts to buy horses and mules from Texas dealers to equip their army, but have had no success because these things are contraband and the United States government will not permit exportation of horses or mules for war purposes.

A very fast green mare in training at Lexington, Ky., is a four-year-old by Gazcte 2:16¼, dam Buffalo Maiden (dam of The Rajah 2:14¼, and Fair Maiden 2:08½) by Jerome Eddy, the property of S. De Rider of Louisville, Ky. She has never been trained until this season, but a few days ago trotted a mile in 2:28, with the last quarter in 34 seconds.

With Carlok in 2:07½, Bon Voyage 2:08, Zombro 2:08¼, Prince Lot 2:09¼, Donasham 2:09¼, Nada 2:09¼, Berenice R. 2:11¼, and a few other good ones what a great race the 2:08 trot should be this year! If these horses meet and are all in good fix look out for the Coast race record.

Jean Val Jean who took a three-year-old pacing record of 2:10, has been put to trotting and bids fair to take a record equally as fast at that way of going. Last week Ted Hays worked him an easy mile in 2:12¾, last half in 1:04½, last quarter in 31 seconds. Those Bon Voyages are all good horses.

P. H. Smith's handsome Strathway mare Seville S. was found dead in a pasture field near Pleasanton last Saturday. It is believed she was kicked over the heart by some other horse in the field. Seville S. was the dam of El Volante S., the best yearling at Pleasanton, her dam was Simone, by Simmons 2:28; she was bred by S. Christenson, of this city.

W. G. Durfee's good stake candidate, Murico, is in fine fettle. The other day at Los Angeles he stepped the first eighth in fifteen seconds and the last quarter of the mile a shade better than 30 seconds. The three-year-old that beats him this year in all the stakes in which he is entered, will know he has been to the races.

J. H. McKowen, a well-known horseman of Portland, Oregon, who owned Zolotina, by Zolock, and a number of others, died after a very short illness in Los Angeles on April 19th. Deceased was a fine, upright gentleman. He had many friends in Oregon and California, who will deeply regret to hear of his death.

Commissioner-elect J. A. Filcher tendered his resignation to the board of directors of the State Board of Agriculture at a meeting of the Board at Sacramento, May 22d. Filcher held the position as exhibit manager for the State Fair Board. The directors voted unanimously to accept it, but insisted that it should not take effect until June 30th.

One of the familiar faces around the Geers stable which is missing this season is that of Lefe Shaffer, who left Memphis some time since to join forces with the Pennsylvania trainer, Fred Jamison. John Renyon is now chief assistant to Mr. Geers and Harry Bell of Winnipeg, who sticks to the horses for the pleasure he gets out of it, is the second assistant. The latter, however, intends to desert Memphis in the near future and after a short visit at his home will join the MacKenzie stable when it arrives at the Libertyville track from California.

Orin Carmen, for a number of years with Arlie Frost, is training at Flagstaff, Arizona. He has Blanche, p. 2:06¼, one of the heaviest money winners of last year; Dick, with a trotting trial of 2:14; Aegon Direct, a two-year-old, by Direct View 2:08¾, which is being prepared for the Arizona Futurity at Phoenix; Miss Shucks, by Oh So 2:25½, dam Aunt Shucks, which has a mile in 2:15 to her credit, and several others. They will race in the Santa Fe Circuit and finish up at Phoenix late in the fall. Arlie Frost says Carmen is doing real well, and that his horses are up to quite a bit. Mark the rise of another groomster to the training brigade.

It looks as if J. Elmo Montgomery has the honor of owning the last Zombro colt. The mare Cynera, by Highland C. 2:19¾, out of She 2:12½, by Abbottsford 2:19½, which he purchased from Geo. Beckers, dropped a coal black colt with small star in forehead on May 13th. This came later than Mr. P. H. Smith's filly. Mr. Montgomery has sent Cynera to be bred to The Bondsman.

W. O. White, owner of Golden Gear, a very handsome young stallion, has moved from Fresno to Newman. Golden Gear was sired by Milton Gear 2:12½, out of Minnehaha 2:25, by Strathway 2:19; second dam by Junio 2:22. Mr. White is also taking Donna P. (trial 2:14½), Little Chief, pacer, matinee record 2:23, a three-year-old unbroken pacer by Sky Pointer, and a two-year-old trotter by Athasham 2:09¼.

Hazel B. is the name of a very slick moving two-year-old trotting filly at Pleasanton that Fred Chadbourne is handling. Last Saturday she trotted a mile in 2:27½, last quarter in 35 seconds. She was sired by Palite out of that good pacing mare Bee Sterling (dam of four in 2:30 list), by Sterling 6233. Hazel B. is entered in all the stakes, and, as she is one of the improving kind, it is not too much to expect that she will get her share of them this year.

Old Alta Vela 2:11¼, by Electioneer, will have two fast ones to his credit this year if they are raced, one is the pacing mare Vela A., that won the matinee race at Pleasanton, Saturday, and the other is the trotting mare Camelia, that won her first race there also on that day. Alta Vela is owned by Mr. A. J. Molera, who keeps him in a fine paddock on his farm in Monterey county, and will breed him to about ten good mares this season.

In the horse and mule department of the Kansas City Stock Yards it begins to look like war, owing to the urgent demand of the United States army for horses and mules. Usually about 2500 head are purchased each year, but during April more than 1200 head were purchased, and the demand was not anywhere near supplied. Dealers who recall conditions prior to the Boer war, the Russo-Japan war, as well as the Spanish-American war, declare that the urgent demand for army horses and mules means war with Mexico.

At the Fred Chase sale on June 10th in this city, the following have consigned some very choice trotters and pacers: Geo. E. Grindell of Haywards, sends Romes by Prince Charles; Chas. Whitehead's entry is Main Guy by Oro Guy; Mr. Killingsworth consigns Colonel Kilmonio, by Demonio 2:11¼, and Louis Joseph has sent Miss Joseph by Derby Ash. Thos. Ronan is consigning three of the finest made, purest gaited trotters he ever bred. These are to be sold in addition to those mentioned last week. This sale promises to be a good one.

Mr. Chauncey Sear, of Fall River, Mass., who was a visitor at nearly all our leading race tracks this spring, is back in his home town and the Boston Globe recently published a lengthy account of his establishing the half-mile track record with his gelding Chase. In a race against time to beat 1:08 he drove this trotter in 1:08¾. After a rest he tried again, and this time set the mark at 1:07. Mr. Sear also won with his trotter Major Wellington in 1:09½ and 1:09. As an amateur reinsman Mr. Sear is the peer of anyone in Massachusetts.

Last year seven yearling trotters took records from 2:21¼ to 2:30, all but one (Lord Brussels 2:29¼), were originally nominated in a \$15,000 futurity. Second payment of \$5 was not made in either Belwin 2:21¼, or Worthy McKinney 2:30, while third payment of \$5 was not made on Magowan 2:27. The only three left out of the seven are Lord Allen 2:26¼, Peter the Gay 2:29½ and Ruby Watts 2:29¾. Dropping futurity payments is a serious thing. Of the three yearling pacers that took records last year only one, Frank Perry, was originally entered in the futurity and second payment of \$5 was not made on him, so he is not eligible.

John A. McKerron 2:04½, next to the fastest trotting stallion now in this country, is indeed well represented at the Cleveland track, as twenty-seven of his get, ranging in ages from yearlings up, are now being trained there. Jack McDonough has five in all, which are owned by W. P. Murray, and are Hazel Laing (3) 2:25¼, wagon record 2:16¾ at 4, Bifty Mc (3) 2:27¾, Mildred McK. (2) 2:25¼, Jack Marvel and Jack Murray. The latter are two and one, respectively, and out of Lea 2:18¼ (dam of three and full sister to Sidney Dillon), by Sidney 2:19¾. Charley Prue has seven, the most prominent being Benny Fasig and Johnny O'Brien. Myron King has Helen Mac (2) 2:26¼, Daisy Mac 2:22, Sleeping Mac (3) 2:29½, and a couple of youngsters; Dan Kane has several, including Uncle Biff 2:29½, wagon record 2:13½ in 1911, and Miss Trace 2:20¼; Bert Shank has several and Vance Nuckols two. Rip (3) 2:19¼, trial of 2:10¼ at the same age, will be raced this year lightly by Vance and at this writing looks the part of a winner. Last year, John A. McKerron 2:04½ gained credit with eight new performers, which is indeed a very creditable showing, yet in 1912 his list could easily be increased by a larger number if the owners of same would but give them an opportunity to trot in professional events.

Do not overlook that Futurity Stake at Pleasanton for foals of this year.

The State Fair programme of races has been changed and the attention of horsemen is called to it.

We want correspondents everywhere. Send in your items, even if it is only the notice that a well-bred foal has appeared in your neighborhood; that's news.

Have you seen the splendid programme of races to be given at the Pleasanton race track matinee next Thursday? Look it up and come if you wish to enjoy a day of race pleasure.

The big race meeting in 1915 which has been the principal topic discussed among the leading light harness horse enthusiasts is to be a reality. In a few weeks the full particulars regarding it will be published. It means the greatest revival of the trotter and pacer ever dreamed of by the most optimistic.

The grandly bred mare Beatrice Zombro by Zombro, out of Atherine 2:16 $\frac{3}{4}$ (dam of Copa de Oro 1:59, etc.), Mamie Belle by Ehliis (brother to Daedalion 2:08 $\frac{1}{2}$) out of Tessie W. by Silver Bow 2:16; Hazel M. by Ehliis, out of a mare by Stickle, and Jack, a fine son of Tom Smith 2:13 $\frac{1}{4}$, out of Evange by Shadeland Onward, will be sold at the Fred Chase sale June 10th, as well as some seven other horses and fine mules from Napa.

Here's a chance for some one to buy one of the finest yearling trotters in California. Mr. McGowan is offering his Zolock colt, out of Queen Derby 2:06 $\frac{3}{4}$, by Chas. Derby 2:20, at a very low figure. This is one of the finest of speed prospects, and he has a chance in over \$35,000 worth of stakes.

The directors of the Yuba and Sutter Driving Club, after much discussion, finally concluded at its last meeting that it would not be advisable to hold a regular race meeting at Marysville this season. Matinees, however, will be frequently given. There will be one tomorrow (May 26th), and only local horses will be the contenders. As much rivalry exists among the owners, good record time will be made.

Mr. R. J. MacKenzie left San Francisco for Libertyville, Ill., last Monday. He wants to see all the borses he has in Charley Dean's care, including the champion yearling pacer Frank Perry 2:15 and Graham Bellini 2:20 $\frac{1}{2}$. He will size up all these and those that have wintered at Pleasanton and apportion them to his drivers for racing purposes this season. He will be back in California June 1st.

Mr. Thos. Smith, of Vallejo, is handling a very promising trotter called Vallejo King, and will race him this year. Vallejo King was sired by Gen. J. B. Frishie, out of Requette, by Dexter Prince; second dam Clara B., by Nutwood 2:18 $\frac{3}{4}$; third dam Jennie, by Roodhouse St. Lawrence. He also has a very fine two-year-old Demonio filly out of Maud Washington, by Gen. Washington 2:16 $\frac{3}{4}$; second dam Maud, by McDonald Chief; third dam Puss, by General Taylor; fourth dam a noted running mare called The Calendar mare. He also owns a three-year-old filly by Lynwood W. 2:20 $\frac{1}{2}$, out of this mare Maud Washington, that is a very promising trotter.

The Transylvania is to run in a three in five race for \$50,000, but it is for the 2:10 class instead of the 2:12. It would seem now as if all the changes made by the Kentucky Association had been made for and would tend to the betterment of the whole racing game. The meeting comes almost at the close of the racing season. At least very few entries are made after the first week in October. Records made will not affect but little racing of 1912 after they are made and new conditions will be the order for 1913.

The Lexington cross has been conspicuous in many noted trotting bred animals, including Jay Eye See 2:10, Sunol 2:08 $\frac{1}{4}$, R. T. C. 2:06 $\frac{3}{4}$, the champion money winner of 1911, etc.; also the noted broodmares Cbestnut Belle, dam of twelve standard performers; Nell, dam of eleven standard performers, including Tom Axworthy 2:07, Belle Vara 2:08 $\frac{3}{4}$, Susie T. (p) 2:09 $\frac{3}{4}$, and the double-gaited Vassar (p) 2:07, trotting record 2:21 $\frac{1}{4}$; Orianna 2:19 $\frac{1}{4}$, dam of six standard record trotters, including Grace H. (4) 2:05 $\frac{1}{2}$ and Czarna 2:07 $\frac{1}{4}$. Grace H. (4) 2:05 $\frac{1}{2}$ is the fastest performer to the credit of Peter the Great 2:07 $\frac{1}{4}$.—Horse Breeder.

The Pajaronian says: A well attended meeting of the members of the Watsonville Driving Club and the Pajaro Valley Motorcycle Club was held in the offices of Attorney E. J. Kelley, president of the former organization, resulted in a unanimous decision to start work on the driving track on the beach road as soon as possible and it is likely that the first meeting will be held at the track in about two weeks. There was considerable enthusiasm manifested at the meeting last night and the prospects are bright for a successful season this year. Both the driving club and the motorcyclists will co-operate this season in giving races.

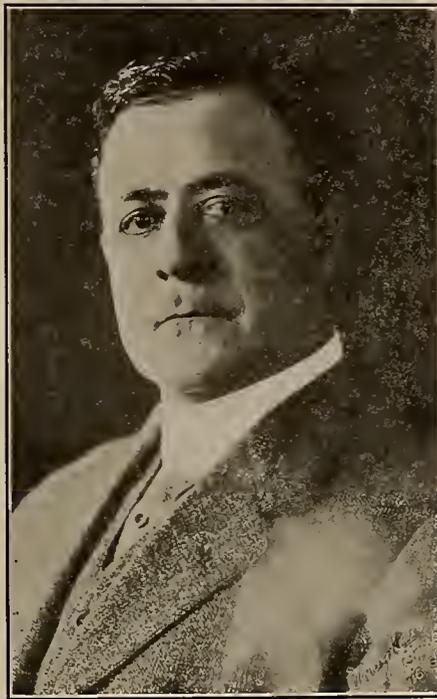

A SPLENDID SELECTION.

D. O. Lively of Portland, who has been selected Chief of the Department of Live Stock for the Panama-Pacific International Exposition is a native of Texas, and during his career has been cowboy, day laborer, reporter, foreign correspondent and editor.

In 1895 Mr. Lively was instrumental in founding the first of the modern live stock shows at Fort Worth, Texas. He was also one of the founders and Chief of the Department of Publicity and Promotion at the first National Exposition in Chicago. Mr. Lively came to Portland three years ago and since his arrival has been one of the greatest factors in bringing about an increased production of live stock in the Pacific Coast States.

He is a wonderful organizer. His success has been due to the splendid co-operation of the railroads, bankers, the press, civic and commercial bodies.

Mr. Lively is organizer and manager of the Pacific Northwest Live Stock Association; of which two of the vice-presidents are R. S. Lovett, executive chief of the Harriman Lines, and James J. Hill, the Empire builder, and is also organizer and general manager of the Pacific National Dairy Show Association, and is vice-president of the Peninsular Industrial Company, a director in the Portland Cattle Loan Company, director in the Portland Publishing Company, vice-president of the Pacific Coast Immigration Con-

D. O. LIVELY.

gress; and occupies many other prominent positions in such organizations as the Portland Commercial Club, Portland Chamber of Commerce, Ad Club, Rotary Club, Progressive Business Men's Club, Hunt Club, Press Club, Realty Board and others.

"There is a renewed interest in live stock production, not only in the United States, but all over the world," says Mr. Lively. "Even China and Japan are going in heavily for pure bred live stock. With the liberal treatment of the live stock department by the Panama-Pacific International Exposition Company and the co-operation of the leaders in live stock production everywhere, the live stock display at San Francisco in 1915 should be truly international in its character and an outstanding feature, one that will attract the attention of the world."

"The great improvement that has been made in types in all divisions of live stock will be shown in the display that will be made at San Francisco."

"In the live stock department there will be shown horses, asses, mules, dairy and beef cattle, sheep, goats, swine, poultry, pet stock, dogs and cats. We will strive for excellence in every department."

"We will be allotted all the space necessary and climatically San Francisco is the ideal location for animals and fowl of every character. I will expect the friendly aid of every lover of domestic animals and their feathered friends, which embraces every human being. This is an inherent trait in mankind and it can be safely expected that the animate section of the 1915 Exposition will be one of its leading features."

"The West is now and will be a heavy buyer of pure-bred live stock, and China, Japan, Hawaii, the Philippines and countries on the West Coast of Central and South America will buy extensively at San Francisco. I look for the sales to eclipse anything that has heretofore characterized the World Expositions."

The new rule books of the National Trotting Association are ready for distribution.

HOW WIDE IS THE WIRE?

An Old Sport sat on a bale of hay outside of a box stall at Pleasanton last Saturday after the crowd had left the historic track, and to a few who had gathered around, he asked:

"Say, kin any of you tell me just how wide that ar wire is that's supposed ter be in front of the jedges' stand?"

"There's none there," replied one who seemed to think the question was intended for him.

"Exactly. Now, whar in the world was that crowd of ten or fifteen that claimed they were direkly under the wire, and whar did that other gang of strickly honest fellers cum from who were willin' to hack thar eyesights ag'in a bar'l of coin that they war right over the wire, and saw that finish between Brutus and Borena D. and swore the jedges decided dead wrong, for they saw clar tbru the stand? I know they were not in flying machines, so it war well nigh imposserbile for them fellers to see anything of the kind."

"I've seen the same kind of butters-in at a hase-ball game. The umpire is the only man in a position to decide whar a ball is thrown, yit you'll hear a crowd of excited fans holler thar heads off if they think he has given a wrong decision; but I notice, like the decision of the jedges in a hoss race, his word goes. These fellers that do the loudest howling are always farthest from the judgment place and are sitting at different angles from it; even a foot on either side of it makes a big difference."

"I've heen to prize fights; the referee is the only one ter decide thar, still I've heerd him jeered at and called very nasty names for doing his duty as he saw it. I've been to Emeryville whar no man can get under the wire or stand over it and have heerd a certain gang that had no show in the world to be allowed even in a persition to jedge which hoss won a race, hiss like a passel of snakes, but the jedges' decision stood just the same and the loser took his medicine like a man, even though he lost thousands by it."

"This arternoon I felt disgusted, for I know that thar ain't in Califony three more honest men or more capable officers than those who decided agin Borena D. They gave that heat just as they saw it. I don't care which hoss was ahead at the next stride; these jedges sighted across that imaginary line and saw Brutus war ahead by a nose, and said so. The public and the drivers should abide by the decision of sech men, and it made me feel like gittin' right out and speakin' my mind when the driver of Borena D. brought his horse out ter attract attention so as he could abuse the jedges like a fishmonger's wife and call them rohbers and jobbers and other harsh names. Accordin' to the rules, as I understand it, that man should have been ruled off the track. He had no more right to use sech language than he would if thar war a regular race meetin', for this meetin' was conducted under National Association rules, and he could be fined, expelled, or ruled off for it. It wasn't gentlemanly on his part and showed mighty poor taste, and I'm glad the jedges had too much regard for the people present to pay any attention to him. He knew thar was not a cent up and that these jedges did not car who won. They war thar to decide which horse was in the lead at that point and thar isn't money enough in this State to huy one of them to make them give a wrong decision. No, siree! If jedges are to be abused the way they war, I'm afraid it'll be a hard matter to git honest men in the stand hereafter and that'll be the last of the racin' game. Ter my way of thinkin' the jedges were right, and when Mr. Rush explained his position, I was sorry that anythin' he heard compelled him to defend himself and bis fellow jedges. If a man loses, he should never whine. Abuse is no argyment; it's darn low and undignified. The best thing to be done in all sech cases is for losers to take thar medicine without makin' bad faces, and try to pass the other feller farther up the stretch the next time they race so thar'll be no arguments at the finish. Them's my sentiments and I've been attendin' races for over forty-five years, and no one can say I said I knew more than the jedges. I've driven in races and thought my horse won, but if the jedges said 'No,' I allers gave in without makin' a fuss, but I've watched other fellers raise a row and I never could see whar they gained anythin' by it, but allers got the worst of it in the end."

READY FOR BUSINESS.

The Fresno Fair Association has opened its office in the basement of the Chamber of Commerce building, Fresno, but will not occupy it continually until the 3rd of June, when the first active work on the 1912 fair will be started. C. I. Pulliam, secretary of the fair association, will be in charge. The directors of the association are planning a number of trips to neighboring towns, as soon as the active work starts, and a strong effort will be made to make this fair the largest in the history of Fresno county. It has outgrown the proportions of a county fair, and will be conducted this year as a district fair.

A meeting with the supervisors is planned in the early part of June to make estimates as to the money needed this year for improvements. Among other things, the fair directors expect to build the second half of the new grandstand. The first half was built last year, but lack of money prevented the completion of the entire grandstand.—Fresno Republican.

MATINEE AT PLEASANTON.

There could not have been a more beautiful day than the one on which the matinee races were held last Saturday at Pleasanton. The attendance was not so large as at the previous meetings, but the enthusiasm was just as keen. The judges selected were: T. J. Crowley, of San Francisco; E. D. Dudley, of Dixon, and Senator B. F. Rush, of Suisun. The timers were Jos. Twobig, of Irvington; H. E. Armstrong, of Pleasanton, and P. W. Bellingall, of Oakland. Starter, J. L. McCarthy.

The first race called was for the 2:15 class pacers. The entries were Jerry D., Vela A., Holly Brand and Dawn o' Light. Ben Walker was behind Vela A. and drove with all his old-time skill, taking the little mare to the front and never letting her slack up in her stride, he won the first heat by a length from Dawn o' Light, ably driven by Fred Chadbourne, in 2:13 1/2.

In the second heat Dawn o' Light in trying to pass Vela A., broke, and fell back; going down the hack stretch Holly Brand moved up to second place and the leaders left the balance as if they were tied to a fence. Coming toward the wire, Woodcock kept Holly Brand well in hand until about fifty yards from the goal, where he tapped his good level-headed pacer and in a second this gelding forged to the front and won the heat by a length and a half from Vela A., in 2:12 1/2.

In the next heat Vela A. passed Holly Brand at the half-mile pole as the latter broke, and came in a winner of the heat, race, and a beautiful cup presented by Rock's Pharmacy, Pleasanton. Time, 2:15. The winner is a small, well-formed mare by Alta Vela 2:11 1/2, son of Electioneer, out of a mare by Seymour Wilkes 2:08 1/2, and belongs to A. V. Mendenhall, of Oakland.

The second race was for the 2:25 class pacers, the trophy being an elegant cup presented by James Gill, the automobile agent, of Pleasanton. There were five entrants: Tilden Pointer, Oakwood, Searching, Dicto, and Diablo Mack, the latter being a converted trotter and his first appearance as a pacer.

Al Schwartz skillfully handled the big brown gelding Oakwood and never allowed his position as leader of this quintette to be endangered, hut kept him in the lead to the goal, Lee Wells driving Searching up to within a length of him as he jogged under the wire in 2:20, Diablo Mack being a length behind and half a length in front of Dicto.

In the next heat Oakwood faltered at the three-quarter pole when Dicto collared him, and to within sixty yards of the wire it was a pretty contest, but Dicto, in Charley James' hands, seemed to be full of pace today, for he won in 2:18 1/2, Ben Walker hustling Tilden Pointer along and being a good third.

Dicto had no trouble in winning the last heat, race and cup in 2:22, with Tilden Pointer a length and a half behind. The winner is by Dictatus Medium, out of Letter B. (dam of Cresto 2:12 1/2), and belongs to J. F. Dunne, of Gilroy.

In the free-for-all trot there were six original entries, hut Orlena and Hazel Patch were scratched, this left Brutus, Bodaker, Tell Tale, and Borena D. to start. There was some trouble in getting these horses away, as Bodaker was sore and did not care to jog too far back to score. Finally, Starter McCarthy sent them off, Brutus taking the lead, Tell Tale second, Borena D. third, and Bodaker bringing up the rear. At the half-mile pole, which was passed in 1:07 1/2, Borena D. left Tell Tale and challenged Brutus. It was a close and indecisive battle for the lead all the way into the stretch, hut Brutus, ably handled by Charley James, trotted well within himself and was never tapped with the whip as he won by a length in 2:14, the fastest mile he has trotted in a race. Tell Tale was third, and Bodaker a tired last.

In the next heat Bodaker was withdrawn, so Brutus and Borena D. set the pace, the latter at the former's wheel. Their positions remained unchanged until after the seven-eighths pole was passed, where Borena D. moved up and was at Brutus' saddle. Coming to the wire he gained inch by inch and the finish was seen to be a close one. The judges got in position to catch it as these good horses trotted head and head to the wire. The excitement became intense when the crowd in the grandstand recognized how hard these horses were striving for supremacy. First one horse would get ahead a few inches and in the next stride the other would. This is the way they came and the judges catching a glimpse of Brutus' nose first called out his number. In the next stride Borena D. was a head in front, Tell Tale third. The time made was 2:14 1/2. Some claimed Borena D. won and others claimed the decision was correct. No one, however, outside of the judges, was in a position to decide the winner, and there should not have been any unpleasantness over it. Therefore, it was deeply regretted that the driver of Borena D. did not use cooler judgment and not make his protestations so loud and spectacular in front of the judges; his bitter reflections on their judgment and reputation were uncalled for, and, according to Rule 46, of the National Trotting Association rules, he is liable to be punished by a fine not exceeding \$500 or by suspension or expulsion. It is hoped that a repetition of this will never be heard again on a race track. He should have abided by the decision of these judges, who were the only ones in a position to decide this heat or any other. That is what they were there for.

In the 2:25 trot for a cup donated by T. D. Sexton, Camelia, a very handsome, smooth-going trotter

owned by H. D. Brown, of San Jose, and driven by Chas. DeRyder, won in straight heats in 2:16 3/4 and 2:19. She was sired by Alta Vela 2:11 1/2.

Summary:
2:15 pace, cup donated by Rock's Pharmacy, Pleasanton:
Vela A. b. m. by Alta Vela (Walker) 1 2 1
Holly Brand, b. g. by Tidal Wave (Woodcock)..... 3 1 3
Dawn o' Light, b. m. (Chadbourne)..... 2 5 2
Jerry D. (Schwartz)..... 4 3 4
Time—2:13 1/2, 2:12 1/2, 2:15.

2:25 pace, cup donated by James Gill, Pleasanton:
Dicto, b. g. by Dictatus Medium (James)..... 1 1 1
Oakwood by Chas. Derby (Schwartz)..... 1 2 3
Tilden Pointer (Walker)..... 5 3 2
Searching (Wells)..... 2 5 5
Diablo Mack (Smith)..... 3 4 4
Time—2:20, 2:18 1/2, 2:22.

Free-for-all trot, cup donated by Lehman's Bakery:
Brutus, b. g. by Strathway (James)..... 1 1 1
Borena D. (Dunlap)..... 2 2 2
Tell Tale (Walker)..... 3 3 3
Bodaker (Ronan)..... 4 dr 4
Time—2:14, 2:14 1/2.

2:25 trot, cup donated by T. D. Sexton:
Camelia, br. m. by Alta Vela (De Ryder)..... 1 1 1
Roseline (Chadbourne)..... 2 2 2
Bonnie Derby (Webster)..... 3 3 3
Time—2:16 1/2, 2:19.

MATINEE AT THE STADIUM.

The San Francisco Driving Club matinee at the Stadium track last Sunday afternoon offered a programme of four races. The free-for-all pace developed the feature event of the day, Senator H. winning in the two final heats. Pilot started off to set the pace in the first half of the initial heat, with Victor Pointer alongside and out for a race. Senator H. broke on the first turn and never made up. Mission Kid paced from way hack on the home turn and stood a good drive, winning by two lengths.

Mission Kid was the pacemaker in the second heat, leading up to the half post. Victor Pointer won the heat by a safe margin.

Off in the third to a good start, Senator H. won easily. Pilot did not come out for the third heat hill.

Senator H. led the procession in the final heat by a small margin and won handily by two lengths. This pacer was the class of the bunch.

In the opening race Little Medium had no trouble in winning both heats. He had too much class for his field. Walter Wilkes showed the most speed in both heats of the free-for-all trot. Summary:

First race, 2:20 pace; mile heats; best two in three:
Little Medium (Frank Pereira)..... 1 1 1
Light o' Day (J. J. Donivan)..... 2 2 2
Baldy Mitchell (H. C. Ahlers)..... 3 4 4
Richard Derby (W. Scitote)..... 4 3 3
Time—2:23 1/2, 2:24.

Second race; free-for-all trot; mile heats; best two in three:
Walter Wilkes (F. Burton)..... 1 1 1
Raymond M. (F. L. Mathies)..... 2 3 3
Sunset Belle (H. C. Ahlers)..... 3 2 2
Direct Rome (W. Higginbottom)..... 4 4 4
Time—2:18, 2:20.

Third race; free-for-all pace; mile heats; best two in three:
Senator H. (W. Malough)..... 4 3 1 1
Victor Pointer (J. Verillhae)..... 2 1 2 2
Mission Kid (J. Rawling)..... 1 4 3 3
Pilot (Frank Pereira)..... 3 2 w
Tom Murphy (E. T. Ayres)..... 5 w
Time—2:17, 2:19, 2:20, 2:21.

Fourth race, 2:25 trot; mile heats; best two in three:
Darby Mc (J. W. McTigue)..... 2 1 1
Delta A. (E. T. Ayres)..... 1 2 2

MATINEE AT SACRAMENTO.

Mr. S. H. Cowell drove the winners of two of the races given under the auspices of the Sacramento Driving Club last Sunday at Agricultural Park. He won with Eleanor Sears, defeating Expedio and Blanche T., after a struggle in each heat. In the free-for-all he drove his latest purchase, Geo. Woodard, to victory after losing the first heat to the Jewess in 2:11. In the next heat he drove Geo. Woodard in 2:10 1/2, the fast of the day. Moko Hall, Frank Ruhstaller's handsome stallion, won his race in 2:14 1/2, and 2:22.

The weather was unfavorable, consequently the attendance was small. The races were well contested and no fault could be found with the starting or the decisions. The judges Vet Tryon, Jas. Thompson. — McCullom; Timers, Frank Liesinger, Frank Atkins and Andrew Rohertson.

Summary:
First race; class B mixed
Doc Frazer (G. R. Ditties)..... 4 1 1
Doc Frazor (G. R. Ditties)..... 4 1 1
Katie B. (G. W. Shane)..... 2 3 3
La Dona (W. E. Sprague)..... 3 4 4
Time—2:32, 2:26, 2:29 1/2.

Second race; class A mixed:
Moko Hall (F. J. Ruhstaller)..... 2 1 1
Chas. F. (C. F. Silva)..... 1 2 2
Time—2:17, 2:14 1/2, 2:22.

Third race; class A mixed:
Eleanor Sears (S. H. Cowell)..... 1 1 1
Expedio (F. J. Ruhstaller)..... 2 2 2
Blanche T. (C. F. Silva)..... 3 3 3
Time—2:17 1/2, 2:14 1/2.

Fourth race; free-for-all:
Geo. Woodard (S. H. Cowell)..... 2 1 1
The Jewess (Alex. Levison)..... 1 2 2
Deilah (J. F. Keenan)..... 3 3 3
Time—2:31, 2:10 1/2, 2:15.

Peter Bellini (3) 2:22, the fastest three-year-old of Austria so far this season, is by Bellini 2:13 1/4; dam Vanitza (3) 2:29 1/2, by Peter the Great 2:07 1/4; second dam Princess of Monaco (dam of 2) by Imported Meddler (thoroughbred); third dam Nancy Hanks 2:04. Score another descendant of the Nancy Hanks family.

Drink Jackson's Napa Soda.

OUR SAN JOSE LETTER.

Editor Breeder and Sportsman:

I am very glad to be able to report that the San Jose track is at the present time and has been for the past few weeks, the best track to train a trotter or pacer on that I have ever seen west of the Rocky Mountains. And the reason thereof is that for the first time since this track has been built it is having the benefit of an industrious and experienced man to take care of it, who is trying every day to make it as good as possible and not trying, like all his predecessors, to see how quickly he can get over it once with the harrow and off again. His name is Joe Heisel; he has had previous experience in caring of race tracks and takes interest enough in his work to try and do it well. He has made a study of the nature of the soil and has formed correct ideas as to how and when it should be worked to the best advantage and the result is that we have every day a perfect track to train on. No man without experience in a certain line of work (no matter how much nature has done for him) can do that work as well as another man who has had experience. Harrowing and caring for a race track is hardly the same proposition as harrowing and fitting a field for grain or potatoes. There is a slight difference. Of all the men previously employed to work this track in the two and a half years of its existence (and there has been about twenty-five of them), not one had the slightest conception of what the surface of a race track should be or what work was necessary to put the surface in condition. The majority of them did not even know the right way around the track, so that in the past whenever this track was good it has been more by good luck than good management. But such is not the case this spring, I am happy to relate; it is good all the time and every day,—Sundays and week days alike,—because it is being industriously and intelligently worked. Probably there was never two tracks made of the same soil, hence different tracks require different working to maintain the proper amount and quality of cushion. A lot of coarse loose dirt and clods on the surface of a race track is not "cushion." To have a first class training track, an evenly distributed cushion of fine quality is absolutely necessary to relieve the concussion of the swiftly falling footbeats of the flying trotters or pacers. It is also necessary for the protection of the soil beneath the cushion, or the foundation, as it keeps out the blazing sun and penetrating winds, thereby retaining the moisture in the soil below. I was the first man to bring a horse to train on this track and that was before it was completed. I watched its completion, and was so favorably impressed with the nature of the soil that I predicted it would be the best all year-round training track ever built in the Golden West, if not in the world. I was so enthusiastic over its superiority of soil and other advantages that I never lost an opportunity to sing its praises far and near. Some of those songs may be found in the files of the Breeder and Sportsman; but alas, there has been times since they went to print that I was not sure that I had the right tune; and because of them I have actually been accused of being a "hot-air merchant," and a "peddler of bad dope." If any one still doubts my sincerity in what I have said in the past about this race track let them come and take a look at it now. Let them look at the footprints of the horse that has just stepped a two-minute gait over it, never a break or a cup. Let them strain their ears to hear the muffled footbeats as some swiftly moving trotter or pacer goes gliding by and then tell me that I am a dispenser of "hot air." The man who cannot safely and surely get a winner ready over this track in its present condition has no winner at all.

The early spring found the home stretch uneven and wavy. Like all new tracks it had settled more or less in places during the winter, hence the waves. Waves like the gently undulating billows of a tranquil sea. Riding over them at a two-twenty gait did not produce seasickness, but a sort of a "rock me to sleep" sensation instead. But with plenty of cushion to work on, the daily or frequent use of the float, the billows are all obliterated and the surface is now level and true to grade.

One day not long ago I met upon the county road a Princess of the Royal House in the garb of a hegger. I have known this descendant of royalty all her life and recognized her at once in spite of her plehian disguise, hut the stranger who saw her that morning would not dream that the bluest and best of trotting race horse blood coursed in her veins. She is in my mind the most artistically bred daughter of her kingly sire, that as a progenitor of extremely fast and game trotters and pacers is the peer of any sire ever bred in the Golden State, and in maternal lines her inheritance is par excellence. Her first four dams have produced just one score of fast record trotters and among them are several that have been noted world's champions of their age and many stake winners. There are progressive and appreciative breeders of trotters in the country who, if they owned this richly bred young mare, money could not buy her, and I saw her hitched to a gravel wagon, her coat was long and rough, her mane and tail matted and unkempt. Standing at rest she presented a dejected and forlorn appearance but in motion she became alive and animated and showed her courage and gameness by her apparent

[Special Correspondence to the Breeder and Sportsman.]

TROTTING IN NEW ZEALAND.

[By Fred C. Thomas]

Christchurch, April 24, 1912.

The present month is always one of the busiest of the New Zealand Racing Calendar, more especially Easter week, during which many of the principal racing and trotting clubs get off their autumn meetings. This year the Easter carnival was attended with every factor of success, and the huge business done by the totalisators provided a reliable indication of the increasing popularity of racing as well as the prosperous condition of its votaries financially. Lovers of light harness racing were entertained with some excellent sport at Christchurch, Wanganui and Auckland, where meetings were conducted most successfully. In the first named city, which sets the lead in trotting affairs, the New Zealand Metropolitan Club, added yet another to its long list of delightful meetings. Though its extension was reduced from three days to two, no less than \$11,250 was distributed in stake money, while the public speculation on the sixteen events totalled \$192,500. This means that the totalisator per centage would amount to more than the value of the stakes, while as the receipts from nominations and acceptances were unusually high, the club must have made a very big profit over the fixture. An all-round curtailment of the time limits attached to the various races was instrumental in bringing together select fields, consequently, the racing was of a high standard. On the opening day (April 10) the track was fetlock deep in mud, and with dirt flying in all directions the back markers had their tasks made unusually severe. Fourteen harness horses, all capable of going two miles in 4:48 or better, contested the Easter Handicap of 250 sovs., for which the American reinsman, R. McMillan's representative, John M., had the strongest following. Once again the soft-hearted son of Viking let his supporters down badly, and there now can be no doubt but that John M. is an overrated proposition. Quickly getting to the front, Princess Louise, a handsome daughter of Prince Imperial, had the pick of the going, which advantage enabled her to score a long overdue win. As indicating the condition of the track it may be noted that though Princess Louise was handicapped to go 4:46 in the race itself it took her 5 minutes to cover the two miles. The only other performance of note on the first day was Emmeline's brilliant victory in the International Handicap. Though conceding her twelve opponents up to seven seconds in the mile and a quarter, she ploughed through the mud in great style, and had the field well beaten a long way from home. Under the adverse circumstances, her achievement of going the ten furlongs in 2:56, equal to 2:21 to the mile, was one of the best ever recorded on a muddy track in the Dominion. This remarkable daughter of Rothschild and the Prince Imperial mare Imperialism, gave further evidence of her extreme speed in the High Class Handicap on the second day of the meeting when the track was nearly at its best.

Six horses, all handicapped to do 2:18 or better, faced the starter. The result being as follows:

- High Class Handicap of 170 sovs., horses that can do 2:18 or better; one mile:
 - 4—K. H. Smith's br. g. Discoverer by Stanley, aged, 5 seconds (owner)
 - 1—R. McDonnell's br. m. Emmeline, 5 yrs., scr. (owner)
 - 2
 - 3—H. Wells b. g. Terra Nova, aged, 3 seconds (H. Messervy)
 - 3
 - 2—Dillon Bell, 2 seconds (M. Edwards); 2—Ned Corbett, 5 seconds (N. Price) and 5—Silver Black, 5 seconds (Warren) also started.

The number in front of each horse's name indicates the order of favoritism on the totalisator.

The competitors all got away at their appointed times, Discoverer taking the lead from Silver Black and Terra Nova. With half the distance gone Dillon Bell left his feet and interfered with Emmeline, who was going in great style. She soon settled down again and two furlongs from home worked her way into second place. Excitement ran high as she gradually drew on the leader, but the task was just beyond her capabilities, and Discoverer flashed past the judges' box with nearly a couple of lengths to spare. Only for the interference she was subjected to by Dillon Bell I quite believe Emmeline would have won. Evidently the public were of much the same opinion for the mare and her driver were given a tremendous reception on returning to scale, whereas Mr. Edwards and his charge, Dillon Bell, were hooted and abused. Subsequently the stewards met and decided to disqualify Mr. Edwards and Dillon Bell till December 31 for interfering with Emmeline, a sentence that should help to put down the unfair tactics adopted by quite a number of our prominent reinsmen. Discoverer paced the mile in 2:15 2/5, and Emmeline, despite the interference, was timed to do 2:11 4/5, which is a race record for New Zealand.

The most important item of the second day's card was the Metropolitan Handicap of 300 sovs., which drew a fine field of fifteen horses, all capable of going two miles in 4:45 or better. Soon after the start Glendalough and Ruby S. collided and both came down, while Bright and Lord Heathcote fell over them. This misadventure robbed the contest of much interest, but fortunately none of the horses or their drivers were much the worse for the accident. Vic-

willingness to not only do her share of the work, but also that of the mongrel beast that plodded by her side. To me it was pathetic to see this magnificently bred young mare so bravely doing work for which she is so entirely unfitted in size, strength and breeding. May a fairy Prince soon rescue her from the Ogre whose misused and dejected menial slave she now is.

Jack Villar recently sold to Dr. I. M. O'Rourke of San Francisco his good three-year-old pacing colt E: Oro and the colt has been shipped to Honolulu. El Oro is one of Demonio's best bred sons and is a fast and level-headed free-legged pacer that can not fail to please his new owner. After selling the above colt Mr. Villar began to look around for another prospect and finally decided to go to Santa Rosa and see the well-bred fillies Frank Turner had advertised in the Breeder and Sportsman. This he did last week and purchased the four-year-old filly by Guy Dillon, dam Russle Russell (dam of Ruth Dillon (4) 2:06 1/4, a champion three and four-year-old trotter) by Bay Rose 2:20 1/2, second dam Oakley Russell (dam of Bert Arrondale 2:19 1/4, one of the purest gaited and fastest trotters ever foaled, that had he not met with an injury would have been one of the sensations of recent years), by Happy Russell 4494. This filly is not only a grandly bred one but a rare individual, built on very rugged, compact lines with limbs that look like they were carved out of ivory. That she will trot fast is no speculation just as sure as she has no bad luck, and the price that Mr. Turner advertised to sell this filly for was only the price of the most common horse flesh; the value of her rich blood lines and her bright prospects for a great trotter he gave away. Within the last five years Mr. Turner has sold no less than twenty head of horses that have since been developed and obtained records or shown miles better than 2:15, and among the young things he has sold within the last year or two are as many more that will go as fast. They can not help it. They are bred that way. Ruth Dillon 2:06 1/2, Mary Dillon 2:06 1/4, Kate Dillon 2:10, Walter Dillon 2:10 1/2 (half mile track), Martha Dillon 2:10 1/4 (trial 2:07), Sophia Dillon 2:11 1/4 (timed in a race in 2:07 1/2), Rapi-dan Dillon 2:12 1/4 (timed in a race in 2:07 3/4) are among the fast ones that Mr. Turner has sold since he bought the entire stock of the famous Santa Rosa Stock Farm a few years ago. It may be a long time before there will again be an opportunity to secure such prospects at bargain counter prices, as there has been since Mr. Turner found it necessary to sell. One reason that there will be no such opportunity is that there is no other place in California stocked with the blood of the world's greatest sire of extreme trotting speed backed up with the blood of so many famous and wonderful brood mares; and the blood of great dams is the most potent factor in the uniform production of speed and speed producing ability. The sons and daughters of a great mother will breed on to a certainty.

Joe Twohig recently drove Charles McCarthy's three-year-old son of Nutwood Wilkes and Schoolgirl 2:16, by Prodigal 2:16, a mile in 2:18, and thinks a mile in 2:15 is not beyond his ability now. I am of the opinion that this good colt will give the three-year-old trotters a lively tussle before they take all the money away from him, because he's game. His mother was game. She raced for eight years over all kinds of tracks in Montana and Idaho and was always fighting for first money. Schoolgirl has another son, he is a nine-months-old colt by Bon McKinney, and if I ever saw a more perfect model of miniature horseflesh than this beautiful bay, I don't remember when or where it was; and this is how he is bred: By Bon McKinney (that I saw trot a quarter in the early days of March of his two-year-old form in 3 3/4 seconds); first dam Schoolgirl 2:16, by Prodigal 2:16, that sired more two-year-olds to enter the 2:30 list than any horse living or dead; second dam by Albert W. 2:20, son of Electioneer, the greatest sire of early and extreme speed of all time; third dam by Echo (sire of the dam of Direct 2:05 1/2, etc.); fourth dam, full sister to Beautiful Bells (the only mare that ever produced three world's champion trotting colts) by The Moor; fifth dam, the famous Minnehaba (dam of 3 in 2:30), the progenitress of more phenomenal colt trotters than any other mare that ever lived. How can this colt help it? C. C. C.

It is good economy to keep the harness soft and pliable. The following is one of the many dressings to be found to be satisfactory: First clean and wash them in warm water. When dry apply the following dressing: Neat's foot oil, 1 gallon; Bayberry tallow, 3 pounds; beeswax, 2 pounds. Put the above in a pan over a moderate fire. When thoroughly dissolved add castor oil, 2 quarts. While on the fire stir in 2 ounces lamp black Mix well. Strain through fine cloth. Keep in tin cans. Harness should be cleaned before oiling.

That Bon McKinney is a sire of speed has been proven without a doubt. The only one trained of his entire crop of seven yearlings is the one out of Helen Keyes that Ted Hayes is working in Los Angeles. This colt will not be a year old until May 29th. On May 18th he trotted a first quarter in 36 3/4 seconds and repeated in 37 1/2. He wears only four ounce shoes in front and three ounce shoes behind.

tory rested with Little Tib, a grandson of Rothschild, who just got up in time to defeat Gianella and Silver Princess by a head, in the smart time of 4:39.

The successful Christchurch reinsman, R. McMillan, intends making another flying visit to America in the course of a few days. On the second day of the Metropolitan meeting he turned out three winners—Moa Dillon and Lord Dillon, both sons of Harold Dillon by Sidney Dillon, and Seychelles by Mauritius by Bingen. On the occasion of his last trip to the States "Mac" brought back with him Harold Dillon, Wallace L. and several broodmares, and the success they have achieved at the stud has fully justified his judgment. It is quite on the cards that he will again be a buyer.

Another Christchurch enthusiast in Mr. Alf. Lawrence, is leaving shortly for England, and I understand he will pass through America on his return journey. His representative, Bonny Jenny by Bonny Direct-Jenny Mac, put up a fine performance in the President's Handicap at the Metropolitan meeting, but though she went the two miles in 4:49, had no chance with Lord Dillon who was receiving 3 seconds start from her.

By her performance of going 2:11 4/5 at the recent Metropolitan meeting, Emmeline takes rank as one of the speediest horses ever bred in the Dominion. I hear she will be raced next spring, and then be given an opportunity of lowering King Cole's mile record of 2:08 3/5. Judging by her latest essay, when she must have covered quite thirty yards more than Discoverer, I should not be surprised to see her go somewhere near 2:06 against the watch.

As the result of getting his term of disqualification reduced from three months to two, Freeman Holmes was enabled to follow his calling again at the last meeting of the Metropolitan Trotting Club.

In two of the races at last week's meeting there were no less than thirty-one competitors. Amongst their number was the American-bred stallion Bon Homme, who was imported with others by Mr. Porter last season. The son of Bon Voyage showed a nice level style of trotting in his preliminary, but in the race gave a very poor showing. When more accustomed to the race tracks, this young aristocrat should develop into a good stake winner.

At the recent meeting of the Auckland Trotting Club a promising two-year-old colt in Golconda by Galinda, by McKinney 2:11 1/4, figured in the list of winners. He gained quite a host of admirers by winning The Maiden Handicap in 3:50 1/6, equal to a 2:34 gait to the mile.

Falling in his appeal to the New Zealand Trotting Association to have his disqualification imposed by the Metropolitan Trotting Club removed, Mr. Edwards has decided to sever his connection with light harness racing and take his departure from New Zealand, where, for the past twenty-five years, he has held a foremost place as a trainer and driver. He has disposed of his property at Belfast, and in the course of a few days will submit all his horses to public auction. Another sportsman who announces his intention of giving the business up, and selling his racing stock is Mr. Jas. Pettie, who visited San Francisco in company with Dave Price some seven or eight years ago and purchased Notice by Chas. Derby and several other good ones that turned out very successful here.

Amongst the competitors at the Auckland Trotting Club's last meeting was the Childe Harold mare Rosebud who is reputed to be twenty-six years of age next foaling. She has been racing for fully nineteen years and is the dam of a high class performer in Le Rosier.

With the conclusion of the Forbury Park (Dunedin) and Canterbury Park (Christchurch) meetings, the present racing season will draw to a conclusion. Despite the enforced reduction in the number of days racing, it has been the most successful in the history of the Dominion.

Wellington H. Shay in the Springfield, Ill., Register writes of the value of futurity nominations as follows: "I remember once a friend and I were each trying to sell a trotting bred filly to an old farmer acquaintance. Each of us had shown his colt, and the old fellow was undecided, since the colts looked very much alike and were by the old fellow's own horse. The dam's breeding of my friend's colt was a little better than mine, but my greater familiarity with pedigrees more than overbalanced that, and on the strength of it I was asking \$50 more for my colt. It so happened that my colt was entered in a futurity and as a final argument I drew out a letter and post-office order, which I was that day mailing, which would give my colt another year of life as a futurity candidate, remarking, 'That is how highly I regard my colt,' and though the old fellow never had owned a race horse, had no idea of ever having one trained and wanted the filly for breeding purposes when old enough, the mere fact that she was entered in a futurity sold her at a handsome figure. The old gentleman enjoyed telling people of the money the filly had a chance to win all that year, though he never made any more payments on her. I have often smiled as I thought of the circumstances, but I have never lost sight of the object lesson. It always pays to have as many talking points in favor of your stock as possible, and an entry in a good futurity or two is the cheapest investment you can make. Besides, that colt might prove fast and that entry double its selling value, and in addition to all of these reasons it is a small contribution to a very worthy cause, for it helps keep the game alive."

DEATH OF WILLIAM HENDRICKSON.

There passed away very suddenly from heart disease at the Rose Hotel, Pleasanton, last Friday one of the most remarkable men in many ways that came to California, and that was Wm. Hendrickson. He was born in Monmouth county, New Jersey, Oct. 8, 1835, where he attended school and worked on a farm until he left for California in 1853; and, not being carried away by the tales of the gold seekers, he took full charge of the Los Pinos Stock Farm, at a salary of \$100 per month. He did not collect one dollar of this until he decided to leave, two years after. With the \$2400 received he purchased a saddle horse and started for the Sierra Nevadas where he met the long lines of emigrants who were coming with ox teams across the plains. Buying their thin and worn out cattle he pastured them in the rich valleys and sold them to Miller & Lux, a firm that at that time was beginning to branch out as stockmen and wholesale hutchers. After a few years he took his savings and purchased considerable real estate in San Francisco and in 1861 started back to New Jersey, where he met his betrothed and was married. It was on this honeymoon trip he purchased Geo. M. Patchen Jr. 2:27, and, in an interview the writer had with him in 1891, the following was the way he bought this horse and incidentally met Budd Doble, who is still hale and hearty on the Hemet Stock Farm. The friendship formed between these two noted horsemen has never waned:

In reply to a question as to how he came to purchase Geo. M. Patchen Jr. he said:

Well, it was a great many years ago—in Burlington, New Jersey. I remember it was fair time. In those days the fair was held in the court house square. The sun shone bright and clear, the weather was delightful, all the trees and fields were clothed in the golden sheen of autumn; in fact, that day I remember so well when Nature looked her prettiest and mankind had naught but the brightest side of life to look upon. I took a young team of horses I had and drove in under the shed alongside the principal hotel, and walked over to the race track. It was a half-mile course, rough and heavy, with its little judges' stand perched on high on one side. The races were to be held under the auspices of the little county society which has since grown to be one of the leading ones in New Jersey—the Mount Holly Association. The principal topic of the day was the race between a horse of great local reputation called Emperor that was to be driven by Mr. Quinton (father of Scott Quinton, the well-known trainer), and Joe Ragan's young bay stallion, Geo. M. Patchen Jr. Emperor was the favorite in the betting; the recognized ability of his driver being greatly in his favor, for Ragan was a large man, weighing about 220 pounds, and known to be a very self-willed, determined person who would not listen to advice. Each vehicle used being a heavy, cumbersome sulky, the seat being almost on a line with the back of the horse, and the wheels built as coarse and strong as those used in the business buggies of today.

The time of the race drew near, then Joe Ragan's friends and neighbors got around him and tried to persuade him to let them get another driver (for they believed that with a lighter weight George M. Patchen Jr. could out-trot the much-praised Emperor); he finally agreed, but I believe it was the first time in his life that he ever gave in to an argument. Then it was that I first saw Budd Doble who was living across the river and had achieved quite a local reputation as a "handy boy with horses," and the friends of Ragan had selected him on that account. Budd was a very neatly made, tidy young man, and he sat in that sulky as straight as he ever did when driving the great Goldsmith Maid years after. The bell rang and the horses came for the word. Budd saw that Emperor, the pole horse, could get away faster on that track than his big, bold striding trotter, so he asked the judges to have the other horse score by him; they consented and the word was given. Quinton drove very carefully, but he was not sharp enough for Budd, for on coming to the first turn Doble yelled at Geo. M. Patchen Jr. and came down on the shaft with his whip. Emperor not having heard such a noise before, jumped in the air and before he could gain his seat Budd got his horse four lengths ahead of him, and took the pole. Quinton made the mistake of jerking Emperor and trying to catch the young stallion by running and endeavoring to have his horse catch quickly, when he got up to his rival's wheel, but it proved useless, for Budd sat as cool as a cucumber and came in under the wire in a jog in 2:27. His horse never having made a skip during the mile, but trotted as even if he were a piece of machinery. Emperor was fully seven lengths behind at the finish.

I do not recollect of ever hearing a crowd of that size make more noise than the one assembled there, for they cheered Budd Doble and the horse until long after they came back to the wire.

The next heat was almost a repetition of the other. Budd drove the bay stallion easily and came home a winner by about five lengths in 2:39, winning the race and money. That night the whole town was excited over the wonderful performance and nothing else was talked of. I had no notion of buying the stallion at that time for I had a number of horses here in California, still I liked the way that horse trotted and thought he was the best horse I had seen.

At the hotel where I was eating dinner that night who should come in but Joe Ragan, highly elated over the success of his "colt," as he called him. Noticing I was very much interested, he asked me how I liked him. I replied, "He is a good one and will make a great stock horse some day." We talked awhile about his merits and blood lines and finally he asked me to buy him and take him back to California as he had no use for him. I was young, he said, and could afford to take better care of him than anyone else, and he would sooner I would buy him. Finally, he remarked: "I know, Bill, you have a hankering after him and if you say the word, he's yours." I hesitated for a minute and then said: "Well, Joe, I will take him." I never regretted that purchase; it was on October 1, 1861. The next year I brought him to California, across the isthmus. He fulfilled all my expectations and every horseman who remembers this horse will endorse this statement. I forgot to say that I think I am the only man in California that ever saw the dam of Geo. M. Patchen Jr. She was a very bloodlike, beautiful formed mare with fine skin, the hair lying on her as fine as that of a thoroughbred. She was by Top Bellfounder, a horse that imparted that peculiar richness to all his progeny that was even noticeable in Geo. M. Patchen Jr. Every

vein near the surface seemed to stand out prominently, the muscles were hard and sinewy-looking, while his knees, fetlocks and hocks were bony and strong, and he was a race horse if there ever was one.

When he achieved quite a local reputation in California Mr. Hendrickson decided to ship him East in 1866 and Jim Eoff drove him in several races. Geo. M. Patchen Jr. remained there until July 3, 1869, when he was shipped back to California. On his arrival here he at once determined to get a good trustworthy man to handle this horse and while talking about this to the late Pat Farrell, the latter said: "There's a fine big young man there who has never worked for any one in this country, he's just from the old country; you might give him a trial." The young man proved to be John Mackey, who afterwards became superintendent of J. B. Haggins' Rancho del Paso and one of the best known horsemen in the world. John took charge of Geo. M. Patchen Jr. and stood him for several years very successfully and earned the title of "Patchen John," which stuck to him for many years. The record this horse made as a sire comprises one of the largest chapters in the history of the trotting horse of America. His blood is and always has been prized as it courses through the veins of hundreds of famous trotters and pacers. To Mr. Wm. Hendrickson therefore are horsemen everywhere indebted for his knowledge of what constituted a good horse and his vast expenditure of money to place Geo. M. Patchen Jr. and his progeny to the front. The fame of this horse will live as long as trotters and pacers are known and with it will be linked the name of his enthusiastic owner.

Mr. Hendrickson in his trips east with Geo. M. Patchen Jr. purchased a number of good stallions and mares, brought them to California, namely, Washington, Shoo Fly, Don't Bother Me, Fanny D. 2:28½ by Mansfield Medium and several others, besides James Lick, a horse that sired Belle Briggs, the dam of the Australasian horses Osterley and Rothschild, the greatest sires of trotters and pacers for their opportunities in the world.

Mr. Hendrickson also bred Sam Purdy 2:20½. It seems that one day he was driving Whiskey Jane, down to the old Eight-mile house where Geo. M. Patchen Jr. was standing, and as the owner of the mare told him he could do as he liked with her, he bred her and drove her back to this city. She proved with foal and when it came it was named after one of the pioneer merchants here, Sam Purdy. The history of this great trotter and sire is known to all.

Mr. Hendrickson was always interested in good trotting horses, and no better judge of them was in California. He believed in their development, and also took a deep interest in thoroughbreds. He inaugurated that memorable series of four-mile and repeat races which were held at the Old Ocean House Road, in which Thad Stevens, True Blue, Rutherford, Huhhard and other famous thoroughbreds appeared. He was also the prime mover in organizing the old Bay District Track Association. And there has never been a trotting meeting of note in California for nearly fifty years which he did not attend. He was known to everybody for his strict integrity, and quiet, kindly ways. His fund of knowledge regarding horses and people he had met during his long and active career seemed inexhaustible. He made friends and kept them, and his advice regarding horses, business investments and other matters was eagerly sought after and willingly given. Many a man owes his success to the foresight of the deceased. He left quite a fortune but that does not fill the void his sudden death has made in the ranks of his numerous friends or in his household, where he is survived by a widow, one daughter, Mrs. Stacey W. Gihhs, and a son, Wm. Hendrickson Jr. He left an only brother, Judge Hendrickson, of Red Bank, New Jersey, to whom he was very devoted, and almost every two years journeyed east to be with him. As a loving husband, indulgent parent and kind friend his loss will be deeply felt and to those sorrowing ones the sympathies of all who know this kindly gentleman are extended in their hereavement.

AN IMPORTANT MEETING.

This Saturday, at Mission Promotion Association Hall, Sixteenth and Valencia streets, the California Harness Horse and Stock Breeders' Association will hold its annual convention.

The railroad companies have given for this meeting a fare and a third, round trip, the same to be signed in San Francisco by Secretary W. J. Kenney.

As a means of entertaining the visitors who will be in San Francisco on this occasion an open matinee race meet will be given at the Golden Gate Park Stadium Sunday afternoon. Any horse in the State is eligible to enter, and silver cups will be awarded the winners. A big time is promised.

Just to think that before racing has started in America the richest prize of the year in Europe is past history! On Sunday the \$12,000 Austro-Hungarian Derby was decided. Our Vienna correspondent cables that Herold won (as was predicted in our last Christmas number), with Vera Violeta second. The winner is by Caid 2:07¼, dam Canata by Constantine 2:12½; second dam Evelyneer by Ivaneer. The second horse is by Directum Kelly 2:08¼, dam Edna Simmons 2:12½, by Simmons 2:28, second dam Lela Sprague 2:36½, by Gov. Sprague.—Horse Review.

PLEASANTON'S BIG MATINEE PROGRAMME.

The following races will take place at the Pleasanton race track next Thursday, May 30th, commencing at 1:30 p. m. sharp. Visitors from San Francisco should take the S. P. trains at the ferry building at 7:20 and 9 a. m. The Western Pacific train leaves at 9:10 a. m. Admission to track and grandstand free. All these races to be two out of three heats. It will be noticed that some of the fastest horses in California will participate. They should attract a hanner attendance.

N. Z. TROTTING STUD BOOK.

No better evidence is needed of the growth of the trotting horse industry than the issuance of the third volume of the New Zealand Trotting Stud Book which has just been received. The compiler, Mr. Fred C. Thomas, deserves great credit for the valuable work he has done. He issued the preceding volumes but they do not compare in magnitude with this one, which includes all the salient features to be found in them. It contains the extended pedigrees of all stallions and mares imported from America and also the pedigrees of all colonial bred mares and their produce, the American standard trotting and pacing rules and the New Zealand trotting and pacing standards; the Colonial trotting and pacing champion records and a full list of all standard trotters and pacers compiled from August 1, 1909, to December 31st, 1911, on the following time basis adopted by the New Zealand Trotting Association: Trotters—1 mile, 2:30; 2 miles, 5:00. Pacers—1 mile, 2:28; 2 miles 4:50.

This new volume will prove a most valuable acquisition to every horseman's library. In fact, every trotting and pacing horse owner in the Dominion should have a copy, for in its ownership they can realize the importance of straightening out pedigrees, having them authentic and carrying them back as far as possible to their source. Mr. Thomas deserves the unstinted praise of every one interested for compiling such a work from the meager statistics he had, and in the future this standard work will be referred to with as much pride as Wallace's Register is in America. We congratulate the horse owners and breeders of that far away land upon having such a painstaking delver into the mysterious problems of light harness horse breeding as he, and also upon the fact that he has been able to publish his researches in such a complete form.

Mr. Andrew Robertson, of Australia, says that when he took Mike Kelly, the gray gelding that was so frequently seen at the Stadium, to the big paddock on the Allendale Stock Farm, near Melbourne, and turned him loose, he never saw a horse play harder than Mike did. He acted as if he had never had a day's holiday since he was weaned. When his hoofs grow out (they were in had shape), Mike will be taken up and prepared for the races. He has not had a strap on since last December, and when he turns for the word this good trotting gelding will undoubtedly prove what has always been claimed for him, that he is one of the purest gaited and gamest sons of Gossiper 2:13¼ ever foaled. He must have appeared in over forty matinee races during his career in California, and was either a close contender or a winner in nearly every one of them. Mike is a green horse, and never raced for money. He captured numerous blue ribbons, however.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

The Southern Handicap.—The Interstate Association's seventh Southern Handicap Tournament was given at Columbus, Ga., on May 14, 15 and 16, under the auspices of the Columbus Gun Club.

Two years ago, when this tournament was held in Columbus, all records for attendance were broken, and so fine were the local grounds, so perfect the arrangements for the sport, and so cordial and genuine the welcome extended to the visitors by the people at Columbus that it was not improbable that this year the city would break its record along that line.

The Columbus Gun Club is noted as one of the most progressive and hospitable organizations of sportsmen in the South, and its members did everything in their power to make this tournament, if possible, more successful than the one two years ago. Many members were on the shooting grounds each day, and the visitors were given a warm welcome to Columbus.

Mr. R. S. Grier, treasurer of the Columbus Gun Club, was in charge of placing the grounds in shape, and working with characteristic thoroughness had everything in apple-pie order. A large tent, 100 feet long, had been erected for the use of visitors and also ammunition representatives. Recalling the attendance two years ago, Mr. Grier had a tent this year considerably larger, and it was ample and commodious. Many chairs were in place for the use of visitors, giving a fine, unobstructed view of the shooting grounds from a point that was cool and comfortable. For the benefit of those who wished to get a little closer to the firing line, Mr. Grier had bleachers built. The clubhouse was utilized as an office building for the officials of the tournament. Near the large pavilion tent was another smaller tent devoted to the selling of refreshments and the serving of luncheon. Ladies of the several churches in Columbus were in charge of this feature, and it goes without saying that the luncheon served was first class in every respect. The ammunition companies had quarters in the large tent, there being ample accommodations for all.

Practice Day, May 13.—The program for practice day was simple enough, there being four events of 15 targets each, and two events of 20 targets each, a total of 100 targets.

F. G. Bills led in the preliminary shooting, breaking 98 out of the 100 targets. Four shooters were a close second to Mr. Bills, for Messrs. H. D. Freeman, W. Henderson, J. M. Hawkins and C. G. Spencer each lost only three targets out of the 100. Walter Huff was in the 96 class, as was W. R. Crosby, J. R. Taylor, J. S. Day, and, last, but not least, Geo. H. Waddell, of Columbus, whose score of 96 led all the amateurs.

First Day, Tuesday, May 14.—Ideal weather marked the opening of the great tournament, for it was a cool, clear morning, and developed into a perfect May day. Beginning at 9:45 o'clock the shooting continued until about 4:30. In the afternoon the sport was largely yattended, there being many visitors on the grounds. Nine o'clock was the time set for the opening, but it was deferred on account of a party of shooters being delayed, and as a matter of courtesy the formal opening of the shoot was deferred until they could reach the city.

There were 30 entries, this being somewhat less than the number at the opening of the tournament two years ago. The decreased attendance is explained by the extraordinary flood conditions throughout the South.

The feature of the opening day was the record made by George W. Maxwell, the one-armed shooter. Out of 150 targets he missed only one, his score being 149.

J. W. Hightower, of Americus, Ga., and H. B. Pottinger, of Charleston, Mo., made the highest record among the amateurs at single targets, each scoring 144.

H. D. Gibbs, W. R. Crosby, John R. Taylor, W. Henderson and Homer Clark, professionals, each scored 147.

In the double target event, L. S. German, Aberdeen, Md., made the highest score. Out of 25 pairs he broke all except one lone target. A record of 49 out of 25 pairs is remarkable shooting.

An amateur, H. W. Kahler, of Philadelphia, tied with W. H. Heer, professional, for second place in the double target event, breaking 47 out of 50 targets.

The youngest shooter present was Vassar Cate, of Brunswick, Ga., aged 18, a student of Stone Mountain, Ga. In the singles he broke 142 out of 150 targets, and in the double target event his score was 45 out of the 25 pairs. The program consisted of ten events of 15 targets each, and one event of 25 double rises.

Second Day, Wednesday, May 15.—The feature of the second day was the performance of Gentry Hillman, an amateur of Birmingham, Ala., in breaking 148 out of 150 single targets. Mr. Hillman was not

alone in making the high record of the day, for H. D. Freeman and W. Henderson, professionals, also broke 148 each. At the same time it was a wonderful record for an amateur to make, and was the one topic among those who witnessed this shooting. Gentry Hillman is a prominent business man of a coal and iron company of Birmingham.

The next highest record in the singles was 147, and was made by Fred Gilbert, John R. Taylor and W. R. Crosby, professionals, who thus tied for second place.

For second place among the amateurs, in the singles, J. W. Hightower, of Americus, Ga., and George M. Collins, of Due West, S. C., tied, each scoring 145.

The shooting at double targets determined the ownership of the Carpenter Cafe trophy, won by H. W. Kahler, of Philadelphia. This cup was to be awarded to the "amateur contestant who makes the highest general average, shooting in all events scheduled at double targets." Mr. Kahler broke 42 out of 25 double rises today, and on Tuesday he broke 47, thus his record for the two days was 89 out of 50 fairs.

Third Day, Thursday, May 16.—Vassar Cate, handicapped at 19 yards, who broke 93 out of 100 targets today, was the winner of the seventh Southern handicap. The young shooter not only outclassed all the other amateurs, but had a clear lead over the professionals. The highest professional score in the handicap was that of Geo. W. Maxwell, who, standing at the 21-yard mark, from 91 out of 100 targets. Cate received first money in the handicap (\$250), and also a handsome gold watch, presented by the Interstate Association.

There were 106 entries in the Southern handicap this year, against 100 at Charlotte last year, when W. T. Laslie, of Tuskegee, Ala., was the winner, breaking 96 targets from the 19-yard mark. Two years ago there were 128 entries, and the winner was J. S. Young, of Chicago, who, handicapped at 22 yards, scored 96. The high score this year was not up to normal, due to the fact that a stiff breeze was blowing, which made difficult shooting.

The only perfect score of the tournament was made today by Mr. H. D. Freeman, the Atlanta professional, when he broke the entire program of 100 targets in the five regular events. Considering the high wind, Mr. Freeman's work was most remarkable.

H. W. Kahler, of Philadelphia, won the beautiful Columbus, Ga., cup. Out of 600 targets the total number shot at during the entire tournament, he broke 557. The second highest amateur record was that of Vassar Cate, who brought down 552 targets. Six hundred targets, the basis of this contest, included all targets in singles, doubles, and in the handicap.

Among the professionals Fred Gilbert, of Spirit Lake, Ia., made the highest record for the entire tournament, breaking 565 out of 600 targets. It will be noted that he was eight targets ahead of the highest amateur.

The high professional record for the tournament was based on the single targets shot from the 16-yard mark. Four hundred targets were shot at under this condition. The highest professional record was that of H. D. Freeman, of Atlanta, who smashed 394, letting only 6 escape.

The high amateur record of the tournament, figured on the same basis, was that of H. B. Pottinger, of Charleston, Mo., who brought down 382x400.

The cashier's office was most ably conducted by Charles B. Woodruff, assisted by Thos K. Peahody. Mr. Woodruff, while not an active trap shooter, is a high-class expert when it comes to handling the office work of a tournament. Messrs. Garrett, Wadsworth and Morton were the clerks who handled the score sheets and compiled the records for the local daily press and sportsmen's journals.

At the close of the tournament the trophies were formally awarded, the ceremony taking place under the large tent on the grounds. The crowd quickly gathered when summoned by Secretary-Treasurer Shaner, and the officials of the association were the center of a large and interested group.

Mr. Shaner presented President J. T. Skelly, of the Interstate Association, who made quite a happy little speech. Mr. Skelly said that they were assembled to place the trophies in the hands of the winners, and that it gave him pleasure to do so. The tournament held here two years ago was a good one, and so was this meet. It was true that the attendance was slightly off, but this was due to the floods and other unusual conditions. The present shoot has been conducted even better than the first held in Columbus, he said, for all have profited by experience. The members of the local gun club shot better, the lunches were even more appetizing than they were two years ago, and, if possible, the Columbus ladies were even better looking than they were in 1911.

President Skelly then presented to Vassar Cate a handsome gold watch, awarded to him by the Interstate Association as a trophy that went with the winning of the Southern Handicap. Mr. Skelly remarked that he considered this feat second only to the Grand American Handicap. The young winner received the trophy gracefully and modestly.

In conclusion President Skelly thanked the Columbus Gun Club and the ladies and the citizens generally for their hearty co-operation in making the tournament a success. He was warmly applauded by the crowd.

Southern Handicap Purse.—48 regular entries at \$8, \$384; 1 penalty entry, \$13; 1 penalty entry for targets only, \$2; added by the Interstate Association, \$201; total, \$600.

Winners.—V. Cate, 93x100, \$250 (guaranteed); G. D. Wilson, 89, \$86; H. W. Kahler, 89, \$86; J. H. Dreher, 89, \$86; D. A. Edwards, 88, \$46; Frank Roberts, 88, \$46; Gentry Hillman, 88, \$46; G. H. Waddell, 87, \$27; C. D. Hunt, Jr., 87, \$27; W. W. Cooke, 86, \$3.60; Geo. M. Collins, 86, \$3.60; C. W. Dunlap, 86, \$3.60; J. P. Sousa, 86, \$3.60; N. Tucker, 86, \$3.60.

Squier Money-Back Purse.—Added by the Interstate Association, \$20; 50,000 targets at 1c, \$500; first day, extra entrance at \$1, \$50; second day, extra entrance at \$1, \$50; third day, extra entrance at \$1, \$52; total purse, \$852; total losses, \$336.45; surplus to 30 high guns, \$515.55.

Winners.—H. B. Pottinger, \$56.70; Geo. M. Collins, \$49; H. W. Kahler, \$49; V. Cate, \$39.50; A. J. Hill, \$39.50; Gentry Hillman, \$39.50; J. W. Hightower, \$30.95; W. T. Laslie, \$25.80; Pete Townsend, \$25.80; Geo. H. Waddell, \$20.60; W. H. Jones, \$15.45; E. R. Alexander, \$15.45; D. A. Edwards, \$12.85; H. A. Morrison, \$12.85; John H. Noel, \$5.15; C. D. Hunt, Jr., \$5.15; Turner Evans, \$5.15; J. A. Blunt, \$5.15; Frank Roberts, \$5.15; J. P. Sousa, \$5.15; G. D. Wilson, \$5.15; J. H. Hillman, \$5.15; R. H. Crichton, \$5.15; L. C. Grant, \$5.15; P. H. Luttrell, \$5.15; Chas. Green, \$5.15; C. G. Westcott, \$5.15; N. Tucker, \$5.15; Geo. Darms, \$5.15; C. W. Dunlap, \$5.15.

Golden Gate Gun Club.—Scatter-gun experts gathered at the Alameda trap grounds May 18 to take part in the monthly bluerock shoot of the club.

The four club events called for 75 birds per man. Lon Hawxhurst and Toney Prior were high guns for the string, losing but two birds each, and those at 21 yards distance. Straight scores were shot by Hawxhurst, Swales, Prior, C. Lancaster and Murdock in the different events.

Among the visiting shooters were Mr. and Mrs. Elliot Pierce, who shot as guests of the club. In practice shooting Schultz broke 49 out of 50 and 93 out of 100 birds.

In the team shoot Captain Hoelle's squad of eleven broke 126 out of 150 birds, winning over Captain Swales' team by a margin of four birds. The regular scores for the day follow:

| Events | 1 | 2 | 3 | 4 | |
|--------------|----|-----|------|----|----|
| Birds | 20 | 10 | yds. | 20 | 25 |
| Swales | 20 | 10 | 21 | 16 | 23 |
| Hoelle | 17 | 9* | 20 | 13 | 23 |
| Simont | 14 | 7 | 16 | 16 | 22 |
| C. Lancaster | 18 | 10* | 21 | 17 | 24 |
| Hawxhurst | 20 | 10 | 21 | 18 | 25 |
| Prior | 20 | 10* | 21 | 18 | 22 |
| Morss | 12 | 6 | 21 | 14 | 21 |
| Dorsey | 11 | 9 | 16 | 17 | — |
| Killaw | 12 | 3 | 16 | 7 | 13 |
| W. Lancaster | 16 | 8* | 18 | 18 | 18 |
| Ashcroft | 14 | 8* | 18 | 18 | — |
| Grigsby | 18 | 9 | 16 | 14 | 21 |

Event 1—Club match. Event 2—Gruh shoot. Event 3—Trophy handicap. Event 4—Extra.

Exposition City Gun Club.—The club's regular shoot for May will take place tomorrow at the Presidio trap grounds.

Robert Sheppard, an old-time trapper, returned recently from an extended trip through the Thompson river country, in western Montana, with a tale of depredations of coyotes upon the stock and fowl of settlers in that territory during the winter. Although deer are plentiful and easily preyed upon, the coyotes are unusually numerous and attack cattle, besides killing hogs, calves, sheep and chickens. Sheppard believes an adequate bounty would soon accomplish their extermination by trappers, who could afford to hunt them in summer, when they are easily caught.

R. Lee Pennell of Lewiston, deputy State game warden of Idaho, said in Spokane that the authorities will not permit fishing in lakes and streams with live carp minnows as bait. The State has begun the distribution of 1,000,000 trout fry from the State hatchery at Sandpoint, which will be released in the streams in the "panhandle."

FISH LINES.

Bulletins from different Feather river points recently convey a variety of trout fishing information, with the added good feature that doubtless the sport will improve with continued fair weather and sunshiny days.

At Big Bar two weeks ago the weather was cloudy and cool, with variable winds. Bait fishing with salmon flies and grasshoppers was in order for what few fish were caught. A quartette of Marysville fishermen caught but 30 fish; a Big Bar man landed 27, one of which was nearly 24 inches long.

At Oroville, fair weather and fair fishing were found. The Saturday and Sunday fishermen got good baskets. One party of four, who fished above the town, each caught limits.

In the vicinity of Belden, warm weather, light breezes and slight showers did not prevent the ordinary trout baits from being the medium for landing a number of good takes. Salmon flies were most in favor with the trout. There were numerous limit catches of 10 pounds and one fish taken daily.

Sportsmen from San Francisco were at that point, including John Wichman, E. P. Draeske and A. J. Siebert. The largest rainbow caught measured 22 inches long and weighed 3 1/2 pounds, a spent fish, probably.

Near Portola the weather has been improving. The trout were still in a bait mood and ignored flies, angle worms and salmon roe being the best baits. Grizzly Creek, east of Portola and Willow, near Clio, have given out some nice catches of 8 to 12 inch trout.

At Marston clear and cool weather and bait fishing good, was the tidings, yet a bit early for fly fishing. Limits were caught by E. M. Cameron, H. L. Cate and H. J. Hoffman. Other fishermen caught more or less trout, which ran in size from 6 to 12 inches. The water in the river was rather high, but the belief was that better fishing will be had this year than last.

Near Cresta, Ed Armstrong, a Sacramentan, caught a limit of trout, none under 12 inches in length, that were so good in appearance that the take was put on window display in the Capital City. This feat was accomplished with bait. Fly fishing, it is believed, should be rather good at that point now.

About Clio the weather had been unsettled. Here pieces of sucker were found the most attractive bait, with angle worms second choice. Fair only the fishing is reported to be. Charles King landed 25, all 8 to 10 inch trout. Another fisherman caught a 2 pounder.

Berry creek weather conditions were reported to be ideal. The "yellow fantail" fly was in good repute. A limit of 1/2 to 1 pound fish was taken in French creek by a visiting fisherman.

Spring Garden had the reputation of offering good bait fishing in the nearby creeks, the main river being high and muddy. The trout averaged from 12 down to 6 inches in length. H. E. Phelps, C. W. Hamilton and C. W. Pratt each were close to limit catches on Sunday. That section is looked upon for big improvement when the weather runs fair.

Photographs of the recent trout destruction below the Derby dam, on the Truckee river, depict the luckless fish lying in piles along the rocky shores and among the river boulders. Many of the dead fish were 20 pound weight rainbows that ran up the river from Pyramid lake.

Phil B. Beckett has joined Life Ball at Albion, Mendocino county, where the salmon fishing at the mouth of the Albion river and steelhead fishing farther upstream have been unsurpassed for the past week or two.

Major William W. Forsyth, Sixth Cavalry, U. S. A., acting superintendent of Yosemite National Park, in a communication to the State Fish and Game Commission, conveys the pleasing information to anglers that fishing for trout in the streams of Yosemite Valley National Park will be permitted on and after July 1st.

For the past three years the embargo on the angler's fishing tackle has been in force. During this time the streams and lakes of the famous valley have been plentifully stocked with trout fry each year. From different reports it is anticipated that the coming fishing privileges will be replete with good sport. Time was, not so long ago, when trout fishing in Yosemite valley was a noted recreation.

The sport, however, is only to be enjoyed on a legitimate sporting basis. The use of nets, seines and traps, or with the aid of drugs or explosives, or, in fact, catching fish in any other manner than by hook and line, is prohibited.

Fishing for profit is also forbidden. Should the park superintendent find it expedient, fishing in any particular waters of the park may be stopped or limited to any particular season of the year, until otherwise ordered by the Secretary of the Interior.

All fish caught less than eight inches in length must be immediately returned to the water, with as little damage to the fish as possible. Fish caught that are to be retained by the angler, so the park regulations direct, "must be at once killed by a blow on the back of the head or by thrusting a sharp knife or other sharp instrument into the head. No person shall catch more than twenty fish in one day."

Anglers who have a penchant for the Big Meadows trout waters may be interested in the fact that a new road out of Greenville to the big power dam at the Meadows affords an easy drive in from that point, enabling one to fish the day out and get back to Greenville before sunset. It is only an hour's drive from Greenville to the dam.

Recent reports from that section indicate that many favorite streams are most promising for good trout fishing this season.

Intimation as to reliable fly patterns for that region are that the yellow forked tail and blue dun should be good in the Big Meadows country up to June 1st. The Dr. Grant and Heppes special grasshopper will be in order when the trout slack up a bit.

For Wolf and Indian creek trout the black spinner is recommended. For Genessee creek the blue bottle is regarded as the proper lure. Spanish creek, in the Quincy district, will offer special inducements for the red ant and red spinner flies. For the middle fork of the Feather river, Nelson creek and Squirrel creek the royal coachman and grasshopper flies are suggested.

Jack Heppes, a Greenville angling expert, claims, after years of experience in whipping the mountain streams, that between 9 a. m. and 3 p. m. is the best time to fish the riffles and pools of Plumas county, rainy or sunshiny weather making but little difference with the trout's appetite.

Klamath river advices are very inviting. Dave Harefield, Harold Harefield and J. Buck left recently for a month's sojourn at the hot springs.

The Nicasio is reported to have enough clear water in its bed and pools to allow nice fly fishing. Paul Vining fished from high up among the hills down to Garcia and creeled a limit with the aid of red ant and March brown flies.

Nearly 50,000 salmon fry, averaging about two inches in length, were liberated in the river near Sacramento, about a week ago. These baby salmon were all marked—the ventral fins had been snipped off.

One lot of the marked salmon, including a batch of steelhead fry, also marked in a similar manner, were slowly towed down the river from Sacramento to Point Bonita, the trip taking about four days.

Before being liberated, the young quinnats were kept at the branch hatchery for about ten days, to insure that the weaklings had been eliminated.

A slight loss of the salmon fry occurred, the young steelhead of the same size not seeming to prosper in salt water as well as did the salmon.

This experimental trip was made by N. B. Schofield and Superintendent Shebley, for the purpose of gathering data in regard to the progress of a young salmon from the spawning ground to the ocean.

The young fish were not allowed to have free scope at Point Bonita, but were taken back to Sausalito, where they have been for several days.

The run of salmon in Monterey bay up to last Sunday and Monday, when unprecedented catches were made, had subsided, the fish since Wednesday last week having disappeared.

It is the belief of the Fish and Game Commission officials that these immense salmon schools represented the salmon that were hatched in the Brookdale hatchery and liberated in 1910.

Last Wednesday, however, big schools of salmon again made an appearance and good catches were made by many anglers.

SAN FRANCISCO FLY CASTING CLUB.

Saturday Contest No. 3. Class series. Stow Lake, May 11, 1912. Wind, variable. Weather, cloudy. Judges, F. A. Webster, James Watt, T. C. Kierulff. Clerk, E. O. Ritter.

Table with 6 columns (1-6) and 6 rows of names and scores. Includes names like C. G. Young, T. C. Kierulff, F. A. Webster, James Watt, Geo. C. Edwards, L. G. Burpee.

Sunday Contest No. 3. Class series. Stow Lake, May 12, 1912. Wind, variable. Weather, fair. Judges, C. H. Kewell, H. B. Sperry, T. C. Kierulff. Clerk, E. O. Ritter.

Table with 6 columns (1-6) and 6 rows of names and scores. Includes names like A. Sperry, C. H. Kewell, T. C. Kierulff, H. B. Sperry, James Watt, T. C. Kierulff, C. G. Young.

Re-Entry: H. B. Sperry 103.98.56.98.32.98.50.98.41.98.2. C. H. Kewell 91. A. Sperry 98.

NOTE: Event 1—Long distance fly-casting, feet. Event 2—Accuracy fly-casting, percentage. Event 3—Delicacy fly-casting, a, accuracy percentage; b, delicacy percentage; c, net percentage. Event 4—Lure casting, 1/2 ounce lure, percentage. Event 5—Lure casting, 1/4 ounce lure, percentage. Event 6—Lure casting, long distance, feet.

Massachusetts Stops Sale of Game.—After three months of the hardest fighting ever known in the State of Massachusetts over bills for the better protection of wild life, last week the House of Representatives passed, by a vote of six to one, the Senate's bill to stop the sale of all native wild game in the State of Massachusetts, to promote the sale of game bred and reared in preserves, an dto permit the sale of certain species of foreign game. The tagging system, which is working so well in New York, is also provided for. A hag limit bill was also passed, immediately after the no-sale measure.

Edward Sutherland, game warden near St. Maries, Idaho, reports that coyotes and timber wolves are numerous in that district. Deer also are numerous. "I have a house about four and one-half miles from St. Maries," he said, "and I can go out 15 minutes and kill two or three deer without any trouble. I got my job as game warden by shooting a deer last summer. It cost me \$150, but the authorities knew I could shoot and was acquainted with the woods when I got through."

CONSERVATION OF BIRD LIFE AND ITS IMPORTANCE.

We are living in an age when the question of conservation is one of vital importance, and concerning this question Gifford Pinchot has said: "Our greatest problem in connection with the conservation of our natural resources is the preservation of the wild bird life of our country."

In order to realize how essential is conservation along this line, let us consider how it affects our daily lives, and the interests thus involved. Here we have a question of national importance, for the birds are one of the country's most valuable economic assets, because of the close relation which they bear to all forms of agriculture.

As the foundation of the wealth of this country is in its agriculture, so the national prosperity must depend largely on the success of this industry. This has been proven again and again, for invariably with the failure of crops comes the cry of "hard times." So we can readily see that this question affects not merely the farmer, but the banker, manufacturer, and tradesman as well. In fact, it matters not what our daily work may be, we are all primarily dependent upon the success of agriculture.

Statistics show that in 1911 there were 873,729,000 acres of farm land in the United States. Every acre of this land has its host of insect, weed and rodent foes, which cause a yearly loss to the agricultural interest of our country of over a billion and a half dollars. Dr. T. S. Palmer, of the U. S. Biological Survey, has said: "Among the most potent agents in checking such losses are insectivorous and seed-eating birds, and the importance of their preservation, while difficult to measure in dollars and cents, is self-evident."

With the introduction of new crops has also come the introduction of new pests, examples of which are the Hessian fly, San Jose scale and codling moth. These usually go unnoticed until they become too numerous to be exterminated. Once established, however, they are here to stay and add their toll to the immense loss already levied on the farmer and fruit grower by native insects.

While much time and money are being spent in trying to find artificial methods of destroying these pests, we too often overlook one of nature's means of controlling them—the bird. While it may be an easy matter to destroy the birds on a farm, it is not so easy to control the insects, weed and rodent foes which are sure to follow such destruction, for it is a well-established fact that the destruction of the useful bird life of this country has been followed by a marked increase in those pests which devastate the crops, and by subsequent loss to the farm and fruit grower. On the other hand, the protection of the useful bird population on the farm or in the orchard is sure to bring abundant reward, in the form of increased profits on crop return.

The foregoing circular is introductory to a series of articles to be issued by the State Fish and Game Commission dealing with the economic value of bird life, in its relation to the farmer and fruit grower—The food habits of birds in relation to man, "Value of birds on the farm," "Birds as Insect Destroyers" and "Birds as Rodent Destroyers" (two articles).

In line with this subject we append a seasonal article from a Washington correspondent:

It costs more by many millions each year to feed our insects tahn to educate our 20,000,000 children.

It is clear to those who know most about the subject that unless radical and immediate measures are adopted to restore a sure, safe and natural equilibrium between insectivorous birds and their foods, the time will soon come when the annual loss caused by insects to the agriculture in this country alone will be counted in billions instead of millions of dollars. The estimated annual loss to farmers through insects is now about \$800,000,000 a year.

These are some of the striking facts and figures with which the Senate committee on Forest Reservations and the Protection of Game accompanies a bill, reported today by Senator George P. McLean of Connecticut, to protect migratory game and insectivorous birds in the United States. To see a bill like this pass has been the ambition of true sportsmen and economists for many years. The destruction of game and song birds and their eggs by pot-hunters and thoughtless boys has gone on almost unchecked, except by spradic State legislation, for so long that regions that once abounded with the feathered creatures are now destitute. No people ever were more blessed with a plentiful supply of useful and beautiful birds than the people of the United States; and in no country have the little creatures been slaughtered more recklessly. Many persons are now living who remember when all the markets of the East were glutted with partridge, quail, prairie chicken and wild water fowl. An official report of 1864 states that one dealer in New York is known received twenty tons of prairie chickens in one season, and that some of the larger poultry dealers were estimated to have sold from 150,000 to 200,000 game birds in six months.

When Mr. McLean was appointed chairman of this committee it was not known generally that an authority on the subject of fish and game was being selected to supervise the important work the committee had marked out for it. As a new senator he was given a relatively unimportant committee and it was supposed to make little difference whether he knew anything about game and forests or not. As a matter of fact, Mr. McLean is one of the most expert of sportsmen and has long been a deep student of birds and animals. He is a member of the exclusive

Princess Anne Club of Virginia, one of the leading shooting clubs of the country, and his beautiful estate in Simsbury, Conn., where he makes his home, consists of about eight hundred acres. A pond on the estate is kept stocked with game fish at considerable expense and the Senator offers his bird friends every encouragement to share his woods and fields with him.

The bill reported by the committee is intended to combine the best features of all the protective bills introduced in Congress, including notably those of Representative John W. Weeks of Massachusetts and Daniel R. Anthony, Jr., of Kansas, to say nothing of Senator McLean's own bill. It does not stop at the protection of migratory game or song birds, but includes every kind of bird that is regarded as useful in consuming destructive insects. The bill specifies wild geese, wild swans, brant, wild ducks, snipe, plover, woodcock, rail and wild pigeons, but it includes within the scope of its protection all other migratory game and insectivorous birds which are not strictly local to any State or Territory. These are deemed by the bill to be within the custody and protection of the Government and may not be destroyed or taken contrary to regulations prepared by the Department of Agriculture. The remaining sections of the bill provide as follows:

Section 2. That the Department of Agriculture is hereby authorized to adopt suitable regulations to give effect to the previous section by prescribing and fixing closed seasons, having due regard to the zones of temperature, breeding habits, and times and line of migratory flight, thereby enabling the Department to select and designate suitable districts for different portions of the country within which said closed seasons it shall not be lawful to shoot or by any device kill or seize and capture migratory birds within the protection of this law, and by declaring penalties by fine of not more than one hundred dollars or imprisonment for ninety days, or both, for violations of such regulations.

Section 3. That the Department of Agriculture, after the preparation of said regulations, shall cause the same to be made public, and shall allow a period of three months in which said regulations may be examined and considered before final adoption, permitting, when deemed proper, public hearings thereon, and after final adoption to cause same to be engrossed and submitted to the President of the United States for approval; provided, however, that nothing hereinafter contained shall be deemed to affect or interfere with the local laws of the States and Territories for the protection of non-migratory game or other birds resident and breeding within their borders, not to prevent the States and Territories from enacting laws and regulations to promote and render efficient the regulations of the Department of Agriculture provided under this statute.

Section 4. That there is hereby appropriated, out of any moneys in the treasury not otherwise appropriated, for the purpose of carrying out the provisions of this act, the sum of ten thousand dollars.

In every attempt to secure legislation of this character its advocates have been met with the opposition of certain constitutionalists who have argued that it would infringe the rights of the States. The committee dispose of this contention briefly but pointedly. They show that for many years European countries have protected bird life by treaties, regulations and international decrees, and they add that the fact that several States of the Union have exercised the right to regulate the taking of both migratory and non-migratory birds where no discrimination or distinction has been suggested or desired does not preclude the nation from asserting its right of protecting migratory birds whenever conditions make such protection necessary.

"The power of the Federal Government to regulate by treaty the taking of migratory seals and fish cannot be questioned," says the report, "and your committee can see no distinction between the right to regulate by law and treaty the taking of seals and fish that today may be in the waters of one State or nation and tomorrow in the waters of another State or nation and the right to regulate the taking of wild birds whose habitat changes from one State or nation to another with the changing seasons. None of the European States allow the killing of game birds during the spring months."

The economic arguments by the committee in favor of the bill are of the most striking character, as the suggestions at the opening of this article indicate. The committee point out that as mammals have succeeded reptiles, insects soon will possess the earth unless some agency less expensive than arsenic is discovered to check their increase. The money value of the damage done by insects seems incredible to one who has hitherto given little thought to that phase of the bird question. A short time ago, suggest the committee, the farmers of the country, especially in the Northwest, were much agitated because of a proposition for reciprocity with Canada. The loss by insects which they, with the other farmers of the country, will suffer this year and which will benefit no one, will exceed by hundreds of millions of dollars the total value of the entire wheat crop of the nation.

In 1904 Dr. C. L. Bartlett, basing his estimate on the crop reports of the Department of Agriculture, asserted that the loss to the agricultural industries that year, caused by insects alone, could be conservatively placed at \$795,100,000; and this does not include a dollar used for insecticides. State Ornithologist Forbush of Massachusetts, in his comprehensive book entitled "Useful Birds," maintains that insect pests destroy agricultural products to the value of \$800,000,000 a year.

The details whereby such enormous totals are reached are available and indicate that the scientists are not guessing wildly. For example, the Hessian fly in 1904 cost the wheat-growing States \$50,000,000. Cinch bugs cost the crops in the Mississippi Valley \$100,000,000 in one year. Rocky Mountain locusts, in their years of greatest activity, cost the Northwest more than \$150,000,000 in one year. Cutworms have caused a loss of \$100,000,000 at one time. Thus it is seen that the terrible loss of \$800,000,000 in one year is fairly easy of proof.

The fecundity of many insects is beyond imagination. The green leaf louse or aphid, so destructive of the hop industry and many other of our most valuable fruit and vegetables, reproduces its kind at the rate of ten sextillion to the pair in one season. These inconceivable figures mean 40,000 for every square inch of land that is above water. Placed in the Indian file, ten to the inch, it would take light traveling at the rate of 180,000 miles per second 2500 years to reach the file leader. The potato bug is less fecund. One pair will reproduce from fifty to sixty millions only in one season. The unchecked natural increase of one pair of gypsy moths would defoliate the United States in eight years.

Insects live to eat. Some insects increase their size at birth ten thousand times in thirty days. No less than 176 species of insects attack the apple, plum, peach and cherry trees; 400 species are found upon the oak.

Fortunately for the protection of humanity against its insect enemies birds are among the most important agencies in staying the inroads of insect devastation. Most birds eat most of the time, and eat insects and little else. Mr. Treadwell of the Boston society of Natural History fed a young robin sixty-eight angleworms in one day. A young crow will eat twice its weight a day in almost anything set before it. Mr. Forbush has seen two parent grosbeaks in eleven hours make 450 trips to their nest, carrying two or three larvae at a time.

Columns could be filled with the stories of devastation of the great food crops of the world wrought by insect attacks, and of the final rout of the invaders by the bird legions. On the approach of winter tit-mice and wrens paid daily visits to the infested trees and before spring the eggs of the moth were entirely destroyed. Seagulls once saved Utah from an army of crickets, and in 1865 the blackbirds redeemed Nebraska from the locusts.

A severe outbreak of forest tent caterpillars occurred in New York, and parts of New England in 1898. Thousands of acres of woodland were devastated and great damage was done to the sugar maple orchards of New York and Vermont. Birds—warblers, orioles, sparrows, robins, cuckoos and cedar birds—attacked the caterpillars vigorously and by 1900 the plague had been so reduced that the injury was not seen.

The failure of the French harvests not many years ago was due to the reckless slaughter of birds and the destruction of their eggs by children. It is related that King Frederick of Prussia, who was especially fond of cherries, on seeing the sparrows destroy his favorite fruit gave orders for their extermination. Of course many other birds were killed along with the sparrows. Within two years the cherries and most of the other fruits had disappeared and the repentant king was obliged to import birds to protect the trees.

It would seem that, with the powerful opinion behind it which disclosures like these should arouse, such a bill as Senator McLean proposes and Representative Weeks has so ably championed on the House side should be enacted into law. It will be, unless academic doctrines and wooden arguments are permitted to win through the mouths of a party which is asking that the interests of the nation be intrusted to its tender care.

THE WONDERS OF LASSEN COUNTY.

Unknown and unappreciated, California's Yellowstone lies in the heart of the northern Sierras, awaiting the day when the people of the State will discover it and brave hardships to enjoy it, or at some later day, when railroad and stage will bring its wonderland within the grasp of all who love nature in her magnificent moods.

The Lassen Butte country, unfortunately for the world, is looked to the ordinary visitor by miles of bare valley and miles of rugged mountain country. It is something jealously guarded from the tourist world, and only the most determined travelers have ever seen it at close range, although its glittering pinnacles can be seen from the Shasta Express or the Western Pacific's Feather river trains—beckoning the curious to make better acquaintance.

Lassen Butte is a volcanic range, thrust up on the border of four counties—Tehama, Shasta, Plumas and Lassen. The pyramidal north butte soars to a height of 10,437 feet, and the south butte, a jagged crag, is almost as high. Connecting the two buttes is a long chain of crumpled, twisted, snow-splashed, flinty rock, with sheer precipices dropping to glorious meadows and the bluest of Alpine lakes, leagues of untracked forests and sunny meadows, and virile streams, abounding with trout—a wilderness of scenic joys and a hunter's paradise.

Sunk in a hundred crevices in the great buttes are geysers, mud volcanoes, solfataras, spouting, snorting, bubbling, steaming jets of hot water, drawn from the subterranean furnaces which lie uncomfortably close to the surface of this place of fires and snows. The most remarkable inferno in the whole region is "Bumpass' Hell," lying under the hrow of the

stately north butte. It is nearly 9,000 feet in elevation, but it smokes and roars like a kiln in the lowest of the lower regions. Here—strange paradox— one can see icy water dropping from the overhanging snowbanks into scalding water—brilliantly dyed water, bubbling from a hundred different vents, flowing through several acres of burned and blistered earth. Hades comes very close to Paradise here.

Above, from the ridge, one can look out on the whole backbone of the butte—can see the glacier chiseled granite—can see the bleak, heliotrope colored sweep of volcanic sand and clinker on the north butte, can see the leagues of green forest and the emerald glades that break the monotony of the pine and fir.

From this elevation one can see the other volcanic wonderland of Snag lake—a body of water which is destined to be as famous as any spot in the State. Here, on its bank, is a cinder cone—the perfect thing of its kind in the world, with the possible exception of the cinder cone on Vesuvius. Here, too, is a lava flow—the youngest lava flow in the United States. This great expanse of what was once molten rock burst, one hundred years ago, from the side of the cinder cone, which was spouting fine volcanic sand all over the country for miles around. The mass of liquid rock spilled out across what was once one lake, dividing it into two bodies of water and backing the southern lake so that its level was raised many feet, submerging a living forest and leaving the dead stumps today underneath the waves—the snags which give the lake its name.

Snag lake itself is worth a visit, if only for the sport which it furnishes. Here, locked in by the dike of lava, are trout so large that they defy all except the largest and strongest trolling outfits. Here, too, are ducks and geese, deer and bear, and wild animals of many descriptions. For instance, you can kill a porcupine here, and there are not so many places in California where that is possible.

It is not so far from here that the lava country offers other surprises. Hat creek, which starts from the glacial snows of the north butte of Lassen, is a wonder stream in itself. It riots for miles northward to disappear in a crevice in the volcanic plate which buries this region. The river rushes on underground only to burst forth suddenly and foam onward for a quarter of a mile. Here it breaks on a huge boulder and dashes over a cliff, 200 feet high, falling into a great, black pool. Half way down the precipice, from another crack in the lava, the rest of the stream emerges, slipping in a thousand trickles through banks of maiden hair and five finger ferns, to tumble into the pool.

Manzanita lake, on the western foot of the north butte, is a resort for hunters and anglers, ever increasing in popularity. Grassy lake has its few devotees. There is room in this enchanted region for hundreds and hundreds of campers and sportsmen. Some day they will be in there.

"Jim" McCord of Baker, Ore., who has been trapping cougars on Sutton creek, near there, had an exciting experience recently. He set one of his traps and before getting far away looked back and saw that it contained a cougar, which he immediately shot at, and, as the animal appeared to be hit, he made his way back to the trap. Thinking the cougar was dead, he approached to within a few paces, when it suddenly came to life and sprang toward him. He was at too close range to use his rifle and had it not been for his revolver the outcome might have been serious. He escaped with a few bruises.

Selby Loads on Top.

By far the biggest shoot of the year was won with Selby Loads. In the three day tournament held by the Los Angeles Gun Club recently, the following records were made with Selby Loads: Fred Willet, high professional, 561x600, and P. J. Holohan third professional, 557x600, both shooting Selby Loads throughout. Bob Bungay with Selby Loads tied for high amateur, 561x600, and Fred Moullen, also with Selby Loads, tied for third amateur with 556x600. Besides these Fred Willet was high gun in practice May 9, 1912, with 192x200, or 96 per cent.

On the first day of the shoot Mr. Frank Newbert, a Sacramento amateur, broke 194x200, or 97 per cent. Mr. Neel, also shooting Selby Loads, made a fine record of 553x600 for the three days.

As all of the above scores were made with Selby Loads, it goes without saying, that for consistent efficiency the Coast loaded ammunition is without an equal.

Selby Loads won at San Bernardino. The two days' tournament of the Urbita Gun Club at San Bernardino ended May 15th, and, as usual, Selby Loads carried off the honors. General high average was won by O. N. Ford, an amateur, using Selby Loads, his score being 343 out of a possible 360, while professional high went to W. F. Willet, also shooting Selby Loads, with a total of 342x360.

These very fine averages cannot fail to convince shooters that Selby Loads are reliable under any conditions and against any competition.

Winchester Winnings.

At the Urbita Gun Club shoot, held at San Bernardino, California, on May 14th and 15th, Mr. Fred Willet won the high professional average 342x360, with Leader shells and Winchester gun. Mr. L. R. Barkley was second, 335x360, with Winchester factory shells and Winchester gun.

The high amateur average was won by O. N. Ford, 343x360, with Leader shells.

Warranted to give satisfaction.

GOMBAULT'S CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeney, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable.

Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address

THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio

THE ALFALFA-FED HOG.

The hog is a voracious eater, but he cannot eat all day long and then spend the night chewing and digesting his feed, as does the cow. He fills up two or three times a day, and usually does it in a comparatively short time, spending the remainder of the time sleeping and digesting his rations. On account of his internal equipment, few roughages can be fed to him, except in the form of green forage during the summer. Alfalfa, however, can be fed with profit even during the winter. Brood sows can be wintered on it with little corn, and are much better for it. Fattening hogs that have access to alfalfa pasture or alfalfa hay do much better and develop excellent carcasses, and are supported with a good quality of bone. A government inspector, in describing a hunch of alfalfa-fed hogs, had the following to say of them:

"As these alfalfa hogs came down the alley to the scales, they were certainly hogs for the packer, raised at a profit—thrifty and ready to yield good-grade pork, for a good price was realized. I noticed that they were well up on their expanded feet, their height, length and bones all rounded out with even fat, covered with a glossy, glistening, heavy coat of hair, and the keen eyes were alert. Their hocks were straight, broad, and well-curved into long, deep sides that had plump, pointed, even-shaped hams at one end and arched shoulders at the other. On post-mortem we did not find a single parasite in livers, lungs, kidneys or intestines, as we do in hogs grown on corn and cereals. Their lungs remained expanded, that is, inflated, when cast down in the chute; did not collapse and were of a perfect pink. Their stomachs were larger and did not recoil or contract readily, and the same was observed of the whole intestinal tube.

"Their skins were well filled, shining and smooth, as in the human family. The shipper said: 'Don't credit it all to alfalfa, for we did our hogs every two weeks in two or three inches of crude oil, and never know what lice mange or scurf are, nor hog cholera, so far.' Their bodies were solid and the meat was of that marble appearance of lean and fat, for the fat of an alfalfa hog is whiter, and thus we get the two strips of lean in the bacon—rustling for a living makes muscle. As we stood and looked up the slaughtering rail, they looked like birds, each representing a \$20 eagle, and as large as rhinoceroses. Wonderful is an alfalfa-field for this species of thick-skinned animals—the American rhinoceros herd."—Farmer's Guide.

Part of the hog-lot should be sown to artichokes or rape. This forage crop will afford a large part of the living for a hunch of pigs. If they have shade and water, they will be apt to show growth and good health all summer. One ration a day of grain will be ample until fattening-time in the fall.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE, CHEAP—A McMurray, 28 lb., bike sulky, only used once, and a fine Toomey road cart. Must be sold. Apply to 2277 Howard St., San Francisco.

FOR SALE—Bay horse by Demonio, dam by Sable Wilkes. Six years old; 15.3 hands; weight 1100 pounds. Can pace a mile now in 2:15; good actor; sound; wears no hoppers or boots; good action. Great racing prospect. For further particulars, address C. L. DE RYDER, Pleasanton, Cal.

POSITION WANTED—A good careful conscientious man would like a position on a stock farm; has had years of experience in handling stallions, broodmares and trotting stock. Is not afraid of work and would like to show what he can do. Anyone who would appreciate the service of a sober man with these qualifications can address B. E. CROW, 433 Third St., Oakland, California.

FOR SALE—Brown yearling stud colt by Zolock 2:15 1/4, dam Queen Derby 2:06 1/4. When just broken at 10 months old could show a 3-minute gait and was then turned out. Is a pure-gaited line trotter and said to be the finest-looking yearling at Pleasanton. Is paid up in \$35,000 worth of futurities. Queen Derby was a successful race mare, winning 6 in 10 starts, and her first 3 dams are in the Great Brood Mare table, so this colt should be and will be a race horse. Address M. B. MCGOWAN, 651 3rd Ave., San Francisco.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Glinton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7496 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

G. LINDAUER, Owner, Union Livery and Sales Stable, 122-124 Clara Street, San Francisco.

One Half Bottle Earned Him \$50

READ Mr. McLean's letter. See how one-half bottle of Kendall's Spavin Cure earned him \$50. The other half of the bottle may earn him even more. Many men make a business of buying lame horses and curing them up with Kendall's. Then they sell at a big profit.

How about your horses? Why not get a bottle of

Kendall's Spavin Cure

and be ready to cure cases of Curb, Spavin, Splint, Ringbone, Bony Growths or lameness from bruises or other causes? Thousands of other Farmers are doing it—have been doing it for over 35 years. It's the old, safe, remedy you can depend on. Get a bottle at once and see how much it will save or make for you. At drug-gists \$1 a bottle; 6 for \$5. Ask your druggist for book "Treatise on the Horse," or write to

KEEP SWINE FREE FROM PARASITES.

The hog house is a common cause of thriftlessness in young pigs and when numerous, tends to retard their growth. It is advisable and most profitable to keep swine free from lice at all ages and stages of their existence and development so far as possible. To this end their houses, pens and sleeping places should frequently be cleaned and disinfected, the woodwork whitewashed, the bedding material kept fresh, clean and dry, and the yard free from accumulations of litter and filth.

It is impossible to keep hogs free from lice without maintaining sanitary conditions in their quarters, and in attempting to rid them of these pests the treatment must include not only the hogs, but practically everything with which they come in contact daily.

To disinfect recently purchased hogs, that possibly may carry disease germs or vermin into the herd, wash them in a warm 2 per cent solution of coal tar dip and repeat the treatment in 10 days or two weeks; or apply the solution freely with a spray pump and rub it in with a brush. The addition of flowers of sulphur at the rate of 16½ pounds to each 100 gallons of dip mixture renders the solution more effective, and such a combination solution should be freely used for all forms of mange or chronic disease of the skin in hogs.

To destroy lice, a mixture of equal parts of kerosene and machine oil, or one part of turpentine and two parts of machine oil, should be applied to every part of the hog by means of a rag or swab of cotton waste; or it may be applied along the back, from ears to tail, with a common machine oil can and allowed to ooze down the sides of the hog. Repeat the application in 10 days. As a remedy for lice on black hogs, crude petroleum oil is successfully used. It is mixed with an equal amount of warm water and applied with a spray pump or brush. A repetition of the application in 10 to 14 days, eradicates lice with certainty. Irritating applications, such as undiluted kerosene, cannot safely be used on pregnant sows, as abortion may follow their use.

THE UNPROFITABLE COW.

When crops are fed to stock, or labor is expended in its care, the animal is made the measure of the profit which can be obtained from both crop and labor, as well as from the animal. The importance of having a cow good enough to make the most profitable use possible on the feed and labor expended upon her will be seen at once. Every farmer knows that some cows are more profitable than others, but all of us may not realize that some of our cows do not even pay expenses. To discover and to eliminate all the cows which do not pay expenses, and to retain only the best, is a very important problem of the farm manager, and vitally affects the profits from the farm.

What are the means of doing this? First, we must have a record of the cow's performance. We must know exactly what she is producing and what is the value of that production. This can be found out by weighing the milk and determining its fat content. Each individual farmer can do this for himself, or he can join with his neighbors in a cow testing association, which is probably the cheapest and most effective way. We must also know the cost of production. To do this, it is necessary to have a record of all the cow's feed and the labor expended in her care, as well as a record of the interest, depreciation, barn rent, etc., which makes up the remainder of the cost of production. With these things at hand, the determination of the profitability of a cow is a simple matter. It is better to have a few profitable cows than to have a large number which are merely paying expenses.

If dry-farming can be general, and produce good crops on the now vacant arid land, it is the greatest discovery of the age—of any age.

A poultry-house without a grit-box and a dust-bath is incomplete.

Woodland Race Meeting

Fourth of July Celebration

JULY 4TH, 5TH AND 6TH, 1912.

Entries to close Thursday, June 20, '12

RACE PROGRAMME.

THURSDAY, JULY 4.

No. 1—2:25 Trot \$600

No. 2—2:15 Pace 400

No. 3—Matinee Race, open to Clubs in Sacramento Valley

FRIDAY, JULY 5.

No. 4—2:12 Trot \$400

No. 5—2:08 Pace 400

No. 6—Matinee Race for Local Horses

SATURDAY, JULY 6.

No. 7—2:08 Trot \$400

No. 8—2:25 Pace 600

No. 9—Matinee Race, open to all California Clubs

NOTE.—Commencing at 10 o'clock a. m., parade of Floats and Live Stock. Speaking by able men, and an old-fashioned Barbecue. Regular racing in the afternoon. In the evening the Horrible Parade, Fireworks, and last, but not least, a Grand Ball. On the 5th and 6th there will be Stock Judging in town, free to all, and Racing each afternoon. Good prizes, good racing, and a good time for all. We will also celebrate the first train on the new electric railroad from Sacramento to Woodland.

CONDITIONS.

Horses to be named with entry. Entrance fee 5 per cent to enter and 5 per cent deducted from money winners.

Money divided into four moneys—50, 25, 15 and 10 per cent.

The Association reserves the right to reject any and all entries and declare off or postpone any and all races on account of weather or other sufficient cause.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races.

Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starters to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. When a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

Racing colors must be named by 5 o'clock p. m. on the day preceding the race, and must be worn upon the track, in all races. Colors will be registered in the order in which they are received, and when not named or when said colors conflict, drivers will be required to wear color designated by the Association.

All races mile heats, 3 in 5, and no race longer than five heats, and money not decided before fifth heat will be divided according to rank in the summary at the termination of the fifth heat.

Member National Trotting Association.

ONLY \$2 TO ENTER.

Guaranteed \$7,500

The Pleasanton Futurity Stakes of 1914 and 1915

For Foals of 1912, to Trot and Pace at Two and Three Years Old

—ON THE—

—Pleasanton Race Track, Pleasanton, California.—

(R. J. MacKENZIE, Proprietor.)

Entries to Close Monday, July 1, 1912.

MONEY DIVIDED AS FOLLOWS:

\$3,000 for Three - Year - Old Trotters.

\$1,500 for Two - Year - Old Trotters.

\$2,000 for Three - Year - Old Pacers.

\$1,000 for Two - Year - Old Pacers.

ENTRANCE AND PAYMENTS.—\$2 to enter foal or nominate mare on July 1st, 1912, when name, color, description and breeding of foal, or name of mare and stallion bred to must be given; \$5 January 1st, 1913; \$10 July 1st, 1913; \$10 January 1st, 1914; \$10 January 1st, 1915.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Pace; \$35 to start in the Two-Year-Old Trot; \$25 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All Starting Payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two-Years-Old are not barred from starting again in the Three-Year-Old Divisions.

CONDITIONS.

The races for Two-Year-Olds will be mile heats, 2 in 3, and for Three-Year-Olds, 3 in 5. Distance for Two-Year-Olds, 150 yards; for Three-Year-Olds, 100 yards.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1913, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment, nor will any entry be liable for more than amount paid in or contracted for.

Entries must be accompanied by the entrance fee. Nominators liable only for amounts paid in. Failure to make any payment forfeits all previous payments.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these Stakes in case the number of entries received is not satisfactory to the management.

Money divided in each division of the Stake 50, 25, 15 and 10 per cent. There will be no more moneys in each division than there are starters.

Entries open to the world. Write for Entry Blanks to

R. J. MACKENZIE, Proprietor.

PHENOMENAL SHOOTING

Made Possible by the Use of

Peters FACTORY LOADS

H. D. Freeman won HIGH GENERAL AVERAGE at Vicksburg, Miss., May 8-9

298 ex 300 with Straight Runs of 188 and 167

Including Preliminary and Extra Events Mr. Freeman was also high gun— 590 ex 600

Such shooting can only be done with Perfect Ammunition and Peters Shells, with "steel where steel belongs," are perfect. The "Target" and "High Gun" are just what shooters have long wanted—SUPERIOR SHOOTING QUALITY at a MEDIUM COST.

|---|--|--|--|

CONDITIONS.

Horses to be named with entry and eligible when entries close.

Nominators have the right of entering two horses in one ownership in any race by the payment of one per cent additional for that privilege, but only one horse of the two so entered can be started except when proper transfer is made according to rule and final entry fee paid on each entry.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts in both races.

All races mile heats, 3 in 5, except for two and three-year-olds, which are 2 in 3.

No race to be more than five heats. Any race not decided before the fifth heat, money will be divided according to the rank in the summary at the termination of the fifth heat.

In case class in which horse is entered does not fill, entry may be transferred to any stakes to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent and an additional five per cent of the amount of the stake will be deducted from money-winners.

Rules of the National Trotting Association, of which this track is a member, to govern except as otherwise stated.

For entry blanks and further information, address

- NO. 18—FREE-FOR-ALL PACE\$1000

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 3, 7, 8, 9, 13, 14, 15, 16 and 17, mile heats 3 in 5, no race longer than 5 heats. Races 4, 5, 10 and 18, mile heats 2 in 3. In the first three heats of races Nos. 11 and 12, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 6, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moneys as there are heats.

Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards.

A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting.

If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |

SAVE-THE-HORSE

SPAVIN REMEDY

TRADE MARK REG. T.

16 YEARS A SUCCESS

A RETAIL DRUGGIST IN A "LIVE HORSE TOWN" WITHIN THIRTY MINUTES' RIDE FROM NEW YORK CITY, WRITES: "I AM SELLING THREE TIMES MORE SAVE-THE-HORSE THAN ANY OTHER ONE VETERINARY REMEDY; WHEN THEY WANT THE GOODS THAT CURES THEY COME BACK FOR SAVE-THE-HORSE."

SAVE-THE-HORSE STOPS THE LOSS

Troy Chemical Co., Binghamton, N. Y.
Dear Sirs—We are today in receipt of a bottle of Save-the-Horse, purchased of our druggist.

We had the advantage of others in regard to your remedy, as a friend of ours bought a bottle some time ago and used it on a splint, which he cured with three-quarters of a bottle. After he cured him he sold the horse for double what he was worth before using your treatment. That is how we came in possession of your remedy. He gave us the remainder of his bottle.

Yours very truly,
RENTLER BROS.

What He Thinks of Book!

Mr. L. Decker, New Paltz, N. Y., writes: "\$5 enclosed for bottle of Save-the-Horse. I wouldn't take \$5 for your book alone."

Write describing your case, and we will send our—BOOK—Sample Contract and Advice—ALL FREE to (Owners, Trainers and Managers—Only).

SAVE-THE-HORSE is sold by Druggists and Dealers Everywhere. For over 16 years it has saved horses and is doing it more today than ever; it does, after all others get through; it undoes the damage and complication others make.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

\$5 A Bottle

With a binding contract to refund money or cure any case of Bone and Bog Spavin, Thoroughpin, Ringbone (except Lou), Curb, Splint, Capped Hock, Windpuff, Shoe Bolt, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual.

AT ALL DRUGGISTS AND DEALERS OR EXPRESS PAID.

TROY CHEMICAL CO., BINGHAMTON, N. Y.
D. E. NEWELL, 80 Bayo Vista Avenue, Oakland, Cal.

|--|--|--|

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family.

He will make the season of 1912 at

Pleasanton Training Park. \$100 THE PATCHEN BOY 39033

Three-Year-Old Record 2:10 3/4 in a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

| | | |
|----------------------------|-----------------------------|-----------------------------|
| Francis J. 2:08 | Legal Patchen .. 2:15 3/4 | Dorothy C. 2:19 3/4 |
| Evelyn Patchen .. 2:10 3/4 | Lucile Patchen .. 2:16 | Louise Patchen ... 2:19 3/4 |
| Scott Patchen ... 2:12 3/4 | Jerry Patchen ... 2:16 3/4 | Dr. Warren ... 2:19 3/4 |
| Dessie Patchen ... 2:13 | Knightstown Belle 2:16 3/4 | Roscoe Binning .. 2:20 |
| Frank Patchen ... 2:13 3/4 | Alec Williams ... 2:18 3/4 | Mary Patchen ... 2:20 3/4 |
| Ruby Patchen ... 2:13 3/4 | Lols Patchen ... 2:19 3/4 | Black Patchen ... 2:20 3/4 |
| J. C. Patchen ... 2:14 3/4 | Auduous the Miller 2:19 3/4 | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10 3/4, C. W. M. 2:24 3/4 (trotted to high wheels), Anglin Wilkes 2:16 3/4 over half-mile track, trial 2:09 3/4, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pity Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RIDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

LOGAN POINTER 52167

One of the best bred sons of the pacing king
Star Pointer 1:59 3/4.

Dam Effie Logan (dam of Sir Albert S. 2:03 3/4; Jim Logan 2:05 3/4, world's champion 3-year-old pacing colt 1909; Dan Logan, mat. 2:15) by Dur fee 11256 (sire of Shecam 2:12 3/4 and 2 others, and of Capt. Hicks, sire Edwin S. 2:08, etc.); 2nd dam Ripple (sister to Creole 2:15, sire of Javelin 2:08 3/4, etc.); 3rd dam Grace (dam of Daedallon 2:08 3/4, etc.) by Buccaneer, etc.

CHARLES JOHNSON, Woodland, Cal. Phone 40.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39460, son of McKinney 2:11 3/4, out of Helena 2:11 3/4 (dam of 5 in 2:30) by Electioneer 125.

First dam Ida Apetz by Nutwood Wilkes 2:16 3/4 (sire of Copa de Oro 1:59, John A. McKerron 2:04 3/4, Happy Dentist 2:05 3/4, etc.); second dam Novelist 2:27 by Norval 2:14 3/4; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc.

Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address

J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

PARKER GUNS

Wear Well, Shoot Well, and Handle Well.

Wear well because they are made of the best material by the most skillful craftsmen.

Shoot well because they hold the charge compactly together at extreme ranges.

Handle well because the greatest attention has always been paid to the distribution of wood and metal, to insure perfect balance and the most symmetrical outline.

Twenty-hore Parkers have set the pace for small bores in America, and are growing in popularity every year with the most progressive sportsmen.

For further information regarding guns in gauges ranging from 8 to 28, address

PARKER BROS., Meriden, Conn.

N. Y. Salesrooms, 32 Warren Street.

Prince McKinney (2) 2:29 1/4 Reg. No. 51803

Winner of 2-y.-o. Trotting Division Pacific Breeders' Futurity Stakes No. 3.

PRINCE MCKINNEY is by MCKINNEY 2:11 1/4, the greatest of all speed sires, and is out of Zorilla, by Dexter Prince, one of the most successful sires ever owned by the Palo Alto Farm; next dam Lilly Thorn by the great Electioneer; next dam Lady Thorn Jr., dam of that good racehorse Santa Claus 2:17 1/2, that sired Sidney, grand sire of the world's champion trotter, Lou Dillon 1:58 1/2.

Prince McKinney is a handsome dark bay horse, standing 16 hands and weighing 1150 or more pounds. He has grand bone, a rugged constitution and fine trotting action.

Season of 1912 at McKinney Stables, 36th Ave. and Fulton St SAN FRANCISCO, CAL.

Good opportunity for San Francisco owners of good mares to breed them to a high-class stallion. FEE \$40 (cash), with return privilege.

F. GOMMET, Owner. Apply or address F. E. BURTON, McKinney Stables, 36th Avenue, San Francisco.

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By Allerton 2:09 1/4, Jay Bird's greatest son; dam Exine 2:18 1/4 (dam of Riverside (3) 2:30 and Rinola (3) 2:30) by Expedition 2:15 1/2; second dam Euxine (dam of 6) by Axtell 2:12; third dam Russia 2:28 (great broodmare) by Harold 4:13; fourth dam Miss Russell (dam of Maud S, 2:03 1/2 and 6 others), etc., etc. Best Policy is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

FEE: \$50 for the Season. Usual return privilege.

LIFE POLICY

4 years old; handsome bay stallion, with black points; stands 16 hands; weighs 1190 pounds. Sired by Best Policy 42378; first dam by Boodle 2:12 1/2; second dam by Silver Bow 2:16; third dam by Antevolo 2:19; fourth dam by Nutwood 2:18 1/2; fifth dam by Williamson's Belmont. This horse was worked a short time as a two-year-old and trotted a half in 1:10, eighths in 16 seconds.

FEE: \$25 for the Season. Usual return privilege. Money due July 1st. Season of 1912 at my feed stable, corner of Bridge and Center Streets, VISALIA, CAL.

After the season is over these two horses will be taken to the races this year. Good pasturage at \$2.50 per month, and the best of care taken of mares, but no responsibility assumed for accidents or escapes. Address

R. O. NEWMAN, Box 575, Visalia, Cal.

The McKinney Trotting Stallion

Expressive Mac 41523

Record 2:25 1/4

California Stallion License 237—"Pure Bred."

Sire of Vera Hal 2:07 1/4 (trial 2:05 1/4), Eddie Mack (3) 2:29 1/2.

By MCKINNEY 2:11 1/4; dam Expressive (3) 2:12 1/2 (dam of Atlantic Express 2:08 1/4, world's record for a 3-year-old stallion, 4th heat; Esther Bell 2:03 1/4, champion 6-year-old trotting mare of her year, etc.) by Electioneer 125; second dam, Esther, great broodmare, by Express, etc.

EXPRESSIVE MAC has size, good color, substance, quality, fineness without coarseness, finish, beauty of conformation, breeding equal to the best, trotting speed and gentle disposition. He has proved himself a sure foal getter of beautiful colts, nearly all being seal browns or dark bays. Breed to Expressive Mac and get the golden cross of Wilkes and Electioneer.

TERMS: \$25 by the season, with return privilege; \$35 to insure a mare in foal. Money on season mares due July 1, 1912; and on insurance mares January 1, 1913. Pasture at \$2 per month, where mares may be left the year round if desired. No responsibility assumed for accidents or escapes.

Expressive Mac will make the season of 1912, commencing March 1, at my ranch, three miles south of Selma, on McCall Road, until April 1, when he will be at the Brick Stables in Selma on Thursdays, Fridays and Saturdays of each week, and the balance of the time at my ranch.

Factory Loaded Smokeless Powder Shells

THE HARD-HITTING, FAR-REACHING LOADS

Duck shooting is a great test of the shooting qualities of a shotgun shell. Many of the shots are at long range, and, as all shooters know, ducks generally fly mighty fast. The most successful wild fowl shooters use and endorse Winchester Factory Loaded Shells, "Leader" and "Repeater." Experience and trial have convinced them that they are the killing loads. Careful and correct loading make them so. Try them out yourself.

LOOK FOR THE RED W ON THE BOX.

Every bottle of Mack's \$1000 Spavin Remedy is accompanied with our Thousand Dollar Bond guaranteeing you against risk or loss. It is the only Spavin Remedy in the world backed with a \$1000 guarantee. It will cure your lame horse or you lose not one cent.

Succeeds in Cases Formerly Considered Incurable. However bad the lameness—however long it has been—wherever the swelling is located—even though expensive treatment has failed, do not hesitate one day before securing this guaranteed remedy. For many despairing horse owners have tried Mack's \$1000 Spavin Remedy as a last chance, and have been amazed at the result—painless, positive, quick and permanent cure, leaving absolutely no mark to show that the horse had ever been lame.

Don't pay out big fees to have your valuable horse treated with "firing," "blistering" or any other such method. If that kind of treatment has already been given and the horse is not cured—you can still save it with Mack's \$1000 Spavin Remedy.

\$1000 Bond Guarantee--"No Cure--No Pay"

That is a square business proposition which you cannot afford to fail taking quick advantage of. Every day your horse remains lame costs you not only his keep, but the profit of the work he would do if well. And every day's delay in curing your horse increases the seriousness of the trouble and lowers the value of the horse by taking the spirit out of him. But even though the lameness is of long-standing, it will just as surely yield to Mack's \$1000 Spavin Remedy. If the lameness is new, stop it quick before it gets worse and before disfiguring your horse with harmful preparations or treatment.

We Have Hundreds of Letters Like the Following. Nearly Every Mail Brings More. Write for References in Your Own State or County.

"Forty Oaks Farm," Readington, N. J., March 27, 1911. I bought a mare about a year ago that was very lame in stifle joint, so much so, in fact, that at times we could hardly get her out of the stable. I spent several dollars for various remedies, which gave only temporary results. Seeing your advertisement, I decided to try Mack's Thousand Dollar Spavin Remedy, which I used in connection with Mack's Thousand Dollar Ointment. Within a short time the mare began to improve, and before contents of bottle was entirely used she traveled flat in her foot and shows no lameness at all. Am very much pleased with the results, and consider the money well spent. Very truly yours, R. No. 2. White House, N. J.

Polysippi, Wis., March 16, 1911. I wish to advise that the mare I treated with Mack's Thousand Dollar Spavin Remedy for capsular ligament lameness is entirely cured of her lameness. I do not want my money back; you have done wonders for my horse. She did not earn her grain for the last three years, I could hardly get her out of the barn for weeks, now we drive her every day and no lameness. I have ordered another bottle of the remedy from Milwaukee, as I now have a mule affected, etc. Yours, C. J. WALTER.

Ludowici, Ga., Dec. 7, 1910. The remedy you sent me cured the two horses that the hoof was coming off. The mule's foot was nearly off when I got the medicine, but in five days the mule was able to walk on it. The horses are working every day, and have been since using your remedy the third day. It is the best medicine you ever saw for the foot. Our Vet. says these horses would not be able to work in 12 months, but he sees his mistake now. I recommend your medicine to every one, as I know it is all O. K. Yours truly, J. T. COLLINS.

To Be Sure—Get This Free Expert Diagnosis

If your horse's lameness has proven stubborn—if you have the slightest doubt that Mack's \$1000 Spavin Remedy will give complete relief—tell us about it and we will give you a definite assurance as to the cure of your horse. No Charge for this diagnosis. Just mark the location of the lameness on the picture of the horse in the coupon below. Send it to us and our practicing veterinary specialist will give you his expert diagnosis absolutely free. Then you will have our positive assurance to rely on—in addition to our \$1000 Bond Guarantee.

Just fill out this Free Diagnosis Coupon and write us today.

Your Druggist will Supply You with Mack's \$1000 Spavin Remedy

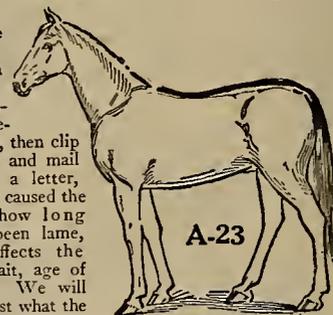

If he does not have it on hand, he will get it for you if you ask him. Should he not take your order, send \$5 to us and we will fill your order immediately. The price of Mack's \$1000 Spavin Remedy is \$5—the same wherever you buy it. Every bottle is guaranteed, and is accompanied with our \$1000 Warranty Bond, assuring you against the loss of a cent if this remedy fails to do all we claim for it as stated in our guaranty.

Do not let anything be substituted on you for Mack's \$1000 Spavin Remedy. You want a sure guaranteed cure for your horse's lameness. Insist upon having Mack's \$1000 Spavin Remedy. If you cannot get it through your druggist, write to us at once.

McKallor Drug Co., Binghamton, N. Y.

Free Diagnosis Coupon

On picture of horse mark with an X just where swelling or lameness occurs, then clip out coupon and mail to us with a letter, telling what caused the lameness, how long horse has been lame, how it affects the animal's gait, age of horse, etc. We will tell you just what the lameness is and how to relieve it quickly. Absolutely no charge. Write today.

Free Book, "Horse Sense" Send us the Free Diagnosis Coupon, get absolutely free, a copy of our book, "Horse Sense No. 2." Describes and illustrates disease of horses' limbs, shows correct name for every part of horse and tells valuable facts every horse owner ought to know.

The Standard Trotting Stallion

LOS ALTO Registered No. 57267

By McKena 39400, son of McKinney 2:11 1/4, out of Helena 2:11 1/4 (dam of 5 in 2:30) by Electioneer 125. First dam Ida Aetz by Nutwood Wilkes 2:16 1/4 (sire of Copa de Oro 1:59, John A. McKerron 2:04 1/4, Happy Dentist 2:05 3/4, etc.); second dam Novelist 2:27 by Norval 2:14 1/2; third dam Elsie (dam of 5 in 2:30 list) by Messenger Duroc. Los Alto 57267 is a magnificent brown stallion; stands 16 hands high and weighs 1250 pounds. He is well built, stylish and a horse of high quality in every respect. He is a good-gaited trotter. Is 5 years old. As a three-year-old I broke him and trotted him a mile in 2:30, a half in 1:13 and a quarter in 36 seconds with very little work. He has not been worked since that time, but he proved to my satisfaction that he had all the speed that belonged to him as a representative of the McKinney-Guy Wilkes and Electioneer blood.

Season of 1912 at MAYFIELD, Santa Clara Co., Cal.

SERVICE FEE: \$30; \$15 time of service and \$15 when mare proves in foal. Good pasturage and the best of care taken of mares. For further particulars, address J. S. PHIPPEN, Manager, Box 172, Mayfield, Cal.

3 in One REAL REEL OIL. Lubricates properly the sensitive mechanism. With perfect action the reel never fails at a critical moment. "3 in One" wont gum, dry out, contains no acid. "3 in One" prevents rust on every part, adding years to the life, and brightness to the beauty of even the finest. Good for the rod too—preserves the wood, promoting pliability—protects the metal. Good for fisher also—the delicate, pleasant odor keeps off mosquitos. Try it. All dealers. Trial bottle sent free. Write to THREE IN ONE OIL CO. 617 New St. New York City.

THE IDEA of building a mile track within the inclosure of the Panama-Pacific Exposition grounds is highly commended everywhere, and as a drawing card to the great Fair it is conceded to be one of the best. The San Francisco daily press is, wonderful to relate, giving a little space in its columns to this subject. How it can possibly spare even a little from the amount allotted to prize fighting and baseball is marvelous. For years these journals have devoted hundreds of columns to these issues, which appeal to certain classes, while the light harness horse industry (which is one of the leading industries of California, and which appeals to thousands) has been kept in the background, and even when an article has appeared of late it was written by some one who had not striven hard to get the facts. However, we are pleased to see even the names of the horses mentioned, and the fact announced that \$355,000 will be divided among the trotting and pacing horse owners and trainers on the Pacific Coast this year—more money than is to be disbursed among any other class of sport.

The advantages California offers to horsemen as a place to train horses is recognized everywhere, and were Chicago, New York, Philadelphia, Lexington, Boston, Cincinnati, Detroit or any of the largest of our American cities to have them, the readers of all the leading daily papers in these cities would notice pages written every week instead of columns, as they see now, describing the horses and the work they are doing. In all these places the most competent turf writers are employed to publish facts about the industry, and the publicity thus given has been found to increase the circulation of the publications having the most competent writers, and also adding to their business from a commercial standpoint.

In California and Oregon, for some unknown cause, the publishers have refrained from giving any publicity to this branch of industry, even though the attention of the leading capitalists in America, Europe, Australasia and elsewhere is continually attracted to this Coast by the wonderful performances of the trotters and pacers bred here; and, were it not for the "Breeder and Sportsman" and two other journals devoted to this industry, there would never be anything known of the breeding and development of these horses. Neither would they know of the existence of the finest and fastest racetracks in the world, the best and richest natural pastures, the rarest climate for the breeding of horses and livestock, the enterprise of those engaged in this industry, and the self-sacrificing devotion of those who spend their time and money in demonstrating to the world that they have used the best judgment in the breeding and development of their trotters and pacers—men who have been contented to see their horses go forth and wrest championship honors from the pick of all that are trained in the United States.

In 1915 there will be the largest assemblage of horsemen and breeders and their friends, as well

as the greatest aggregation of royally bred horses, ever seen in one place in the world. The purses and stakes will be of such magnitude that they will attract the largest entry lists and not only will horses be here from all parts of the United States, but some of the choicest will come from Canada, Australia, New Zealand, Russia, England, France, Austria and Italy.

The daily newspapers published a notice saying there would be futurity races valued at \$25,000 for two-year-old foals of 1913. This was an error. There will be stakes for three-year-old foals of 1912, and the amount set aside for these will be \$25,000. A committee has been appointed and is now deeply engaged in preparing all the preliminaries for this meeting, also estimating on the cost for the building of this mile track, erection of a grandstand to hold about 20,000 people, stalls and paddocks. As soon as its work is completed it will be submitted to the president and directors of the Panama-Pacific Exposition.

With this great future before it and the fact that throughout the entire world the interest in the light harness horse industry is better, brighter and more progressive than it ever has been since trotting races were established, those who are engaged in the business in any capacity have much to feel proud of, and should endeavor to do all in their power to help the good work on. Now is the time to "boost."

ATTENTION is called to the full text of the initiative measure to be submitted directly to the electors of the State of California which was unanimously adopted by the Associated Horse Breeders' Association recently organized in this city. It is a copy of the law enforced in Kentucky, and which has proven so successful. The elimination of bookmakers, poolrooms and other places wherein bets are taken upon horses racing in other parts of the United States is one of its main features. The formation of a racing commission, composed of men who have been engaged in the breeding of horses for a period of five years prior to the adoption of this law (these men must not have had anything to do either as officers of any corporation engaged in giving race meetings,) is a good one. There are other provisions in this law which show that its intent is to revive an interest in horses and restore this industry to the position it occupied before the advent of the knights of the blackboard and chalk—the bookmakers.

THERE HAS recently been organized another racing circuit, to be known as the "Oregon-Idaho Racing Circuit." It includes the towns of La Grande, Baker and Ontario, Or., and Caldwell in conjunction with Boise, Idaho. The sum of \$1,500 for 2:20 trotters and 2:15 pacers, in addition to a lot of other good purses is given. It has arranged a uniform program for each member of the circuit. The manager is Joseph Waddell, of Baker, Or.

Lists have been furnished to many prominent horsemen in the various counties of California who have signified their willingness and desire to get signatures, and by June 30th, it is believed that the requisite number will be obtained. The idea is to get a bill before the electors so that it will be placed upon the ballot at the November election. Women voters are allowed to sign the petitions.

OWING to some irregularities in entries, the King County Fair Association, which holds its race meeting at Seattle, declared all those that closed May 15th off and has reopened the list, as can be seen in our business columns. These will close July 1st.

THE unprecedented heavy rains during the latter part of the week prevented the trotters and pacers from starting at the advertised matinee race meetings at Los Angeles, Stockton and San Francisco.

LOS ANGELES will have a banner meeting this year, judging by the splendid entry lists received. In numbers and quality they exceed any heretofore noted at any of the race meetings there.

THE State Agricultural Society has appointed Mr. J. L. McCarthy to do the starting at the race meeting to be given this year during the State Fair.

The Riverside Driving Club of Portland held its first matinee at the Portland Track on Thursday, May 30th.

A BANNER LIST OF ENTRIES.

Following is a list of entries to the following classes which filled so well for the Los Angeles race meeting, October 16th to 19th. It is a splendid and most encouraging showing:

Race No. 1; 2:20 class; trot; \$1000 (twenty-eight entries).—Honey Healey, br. m., W. G. Durfee; Lady Alice, b. m., Sam Watkins; Bonnie Princess, M. C. Keefer; Cedric Mac, ch. h., R. L. English; Perlo, blk. m., Dr. Ray Felt; Tell Tale, g. m., Dr. Rae Felt; Carbon, blk. g., C. A. Canfield; Merry Widow, ch. f., W. Parsons; Direct Benefit, b. g., Valencia Stock Farm; Lucille Wilson, br. m., Dick Wilson & Co.; Rex, b. g., Mrs. A. C. Powell; Charles F., b. g., Chas. F. Silva; Jean Val Jean, blk. h., W. A. Clark, Jr.; Moko Hall, hr. h., F. J. Ruhstaller; Redeem, b. g., J. W. Paulsen; Maud Medium, b. m., Al Russell; Bessie T., b. m., Al Russell; Bobby H., b. g., W. J. Miller; Prince Seattle, b. h., S. S. Bailey; Irmer Direct, h. m., S. S. Bailey; Monica McKinney, s. m., A. S. Elliott; Dr. Wayo, b. h., A. R. Porter; Gamax, b. h., J. C. Leggett; Killarney, b. m., Al Pryor; Brutus, b. g., S. Christenson; Dan Matthews, b. g., Geo. T. Haag, and Bonaday, b. h., Frank E. Alley.

Race No. 2; 2:14 Class; Trot; \$1500 (sixteen entries).—San Felipe, b. g., W. T. Sesnon; Mabel, b. m., Geo. H. Magruder; Matawan, b. h., I. L. Borden; Derby Lass, blk. m., R. S. Kernahan; Expedio, b. m., F. J. Ruhstaller; Della Lou, ch. m., J. W. Paulsen; Prince Seattle, b. h., S. S. Bailey; Irmer Direct, b. m., S. S. Bailey; Mabel Gray, g. g., Arnold Zbinden; Escobado, b. h., Fred E. Ward; Kinney Rose, b. h., Henry Delaney; Kenneth C., br. h., James C. Wallace; Henry Clayton, b. g., Lou Childs; Phyllis Wynn, b. m., Frank E. Alley, and Belle N., b. m., Frank E. Alley.

Race No. 3; 2:20 Class; Pace; \$1500 (twenty-two entries).—Barlin, b. g., Dr. J. A. Randolph; Loch Lomond, hr. g., I. L. Borden; Bonway, s. g., T. W. Brodnax; Nifty, ch. h., Chas. F. Silva; Dan Logan, b. h., C. Montgomery; Auto Zombro, b. h., Al Russell; Zonclita, b. m., Sullivan Long; Job, b. g., E. S. Bailey; Fred Branch, b. h., A. L. Spooner; Toodles, s. m., Herman Grigg; Hal Scott, b. h., C. A. Harrison; Aviator, b. g., C. J. Berry; Audubon, blk. g., J. H. Williams; Ben Hal, b. h., Geo. W. Garner; Joe McGregor, b. h., Fred E. Ward; Hal Gray, g. h., Geo. C. Pendleton; Sir John W., b. g., W. Whittington; Dick W., b. g., B. F. Stone; Will Gutbric, blk. h., M. Henry; Cclusa, Geo. L. Herndon; Roseburg Boy, br. g., and Homer Mack, b. g., J. M. McClain.

Race No. 5; 2:08 Class; Pace; \$2500 (twenty-three entries).—Gracie Pointer, g. m., G. Cuneo; Maurice S., b. g., Dick Wilson & Co.; Little Lucille, b. m., Dick Wilson & Co.; Chiquita, ch. m., W. S. Maben; Nifty, ch. h., Chas. F. Silva; Normona, b. m., Chas. F. Silva; Vera Hal, b. m., J. G. Liggett; Jr. Dan Patch, h., S. H. Elwell; San Jacinto, b. h., Dr. Arnold; Auto Zombro, b. g., S. S. Bailey; Aviator, b. g., C. J. Berry; Francis J., b. h., C. J. Leggett; Peter Preston, g. h., A. C. McKenzie; June Pointer, b. h., S. Christenson; Allerdon, b. g., Lou Childs; Sirius Pointer, b. h., Lou Childs; Chorro Prince, ch. g., W. J. Miller; Alberta, b. g., Geo. T. Haag & Co.; Roan Hal, roan h., S. H. Roe; Susie Gentry, gr. m., H. R. Elliott; Bertha A., br. m., H. R. Elliott, and Lady Mack, blk. m., J. W. McClain.

Race No. 6; Three-Year-Old Class; Trot; \$1200; (nine entries).—Nutwood Lou, b. f., A. L. Scott; Albaloma, br. h., I. L. Borden; True Kinney, b. h., J. W. Considine; Mauricio, br. h., C. J. Berry & Co.; Peter Fairbanks, ch. h., C. J. Berry & Co.; George Hammett, b. c., C. M. McCarthy; El Bel Maden, b. m., Fred E. Ward; California B., b. g., D. L. Bachant; and Bonnie Ansel, b. f., Alex Brown.

Race No. 9; 2:08 Class; Trot; \$2000 (ten entries).—Orleana, b. m., C. P. McCan; Donasham, b. h., C. A. Canfield; Bon Voyage, h. h., W. A. Clark, Jr.; Bernice R., h. m., W. C. Keefer; Nada, hk. m., M. C. Keefer; Helen Stiles, b. m., C. J. Berry & Co.; Carlok, b. h., W. G. Durfee; Zombronut, b. h., J. P. Porter; The Statesman, b. h., Ben. Walker, and Prince Lot, b. g., Alex Brown.

Race No. 12; 2:10 Class; Trot; \$2500 (eighteen entries).—Donasham, b. h., C. A. Canfield; Moko Hall, br. h., F. J. Ruhstaller; Expedio, b. m., F. J. Ruhstaller; Cresto, Jas. F. Dunne; Bernice R., b. m., M. C. Keefer; Henry Gray, g. g., Arnold Zbinden; Nogi, h. h., Dana Perkins; Kinney Rose, b. h., Henry Delaney; Brutus, b. g., S. Christenson; Rena Directum, bk. m., S. Christenson; Prince Lot, b. g., Alex Brown; Adam G., b. g., D. I. Bachant; Johnny G., ch. h., H. R. Elliott; Densmore, b. h., H. R. Elliott; Phyllis Wynn, h. m., Frank E. Alley, and Bonaday, b. h., Frank E. Alley.

The very best and most promising yearling seen for many years at Sacramento belongs to Samuel Gault of that city and is in charge of Walter Tryon. He is just thirteen months old and last Saturday trotted a quarter in 38 seconds, last eighth in 18 seconds. His name is a lengthy one; Nearest Alto McKinney, and in appearance he is a credit to the royal families he represents. He was sired by Nearest McKinney 2:13 1/4 out of Iran Belle by Iran Alto 2:12 1/4; second dam Bell Bird (1) 2:26 1/4, by Electioneer 125; third dam Beautiful Bells by The Moor 870, etc. His grandam held the world's trotting record as a yearling, 2:26 1/4, which she obtained at Stockton, driven by Chas. Marvin, October 21, 1891. So he naturally comes by his early and, and extreme speed.

NOTES AND NEWS

Send us your lists of foals.

Do not overlook that big Pleasanton Futurity stake.

There was a big matinee race meeting held at Santa Ana on Thursday, at which six races were decided.

The formation of a circuit to take in Chilliwick, Ladner, Vancouver and Victoria, B. C., and Seattle, Wash., is talked of.

W. L. Scott, of Riverside, is the owner of a five-year-old full sister to Kid Wilkes 2:09 $\frac{1}{4}$ that is a very promising trotter.

Dick Wilson is handling the phenomenal pacer Little Lucille 2:09, at Pleasanton and will race her throughout the Pacific Coast Circuit.

The Proof (2) 2:29 $\frac{3}{4}$ Messrs Keefer & Spencer's royally bred son of The Exponent 2:11 $\frac{3}{4}$, has been bred to twenty-two mares this season.

The big West Side Fair will be held at Newman, Stanislaus county, September 6th, 7th and 8th. It promises to be one of the best ever held there.

Now is the time to subscribe for the Breeder and Sportsman, the oldest representative journal devoted to the trotting and pacing horse west of Chicago.

Walnut Hall Farm has 106 yearlings on the place, and seventy-five foals have been dropped so far this spring, while a great number of mares are yet to foal.

All the horses in Los Angeles and vicinity that are to appear on the Grand Circuit will be shipped from University today. W. G. Durfee has the largest string of good ones.

Great preparations are being made for the three-days' race meeting at Woodland July 4th, 5th and 6th, and many horsemen have signified their intention to make entries there.

Bessie Bonehill 2:05 $\frac{1}{2}$, is the dam of two pacers entered in the Chamber of Commerce \$5000 stake at Detroit—Joe Patchen II. 2:17 $\frac{1}{4}$, by Joe Patchen, and Empire Direct, by Direct Hal.

The full text of the new bill relating to betting on race tracks and appointment of a State Racing Commission appears in this issue and should be read carefully by all who are interested.

The fixed events for the Lexington, Ky., meeting, October 8-19, will close today, June 1. They include, The Transylvania, Tennessee, Walnut Hall Cup, McDowell, Stoll, Johnston, West Wilson, Kentucky and Lexington stakes.

There were very few prominent trotting horse breeders in attendance at the formation of the Associated Horse Breeders' Association. Although many names of owners and breeders appeared as signers of the call for the meeting.

W. L. Scott, president of the Riverside Driving Club, has been in this city during the past few days and reports that his club is prospering and a greater interest is being taken in the light harness horse industry there than ever.

Joseph Schrieber, the California horseman and owner, is contemplating buying up a big tract of land near the Coeur d'Alene country for the breeding of thoroughbreds. The Californian has a fast stable of runners in training at Alan, headed by the good horse Jim Basey.

S. H. Cowell has in the pacing mare Eleanor Sears by Searchlight 2:03 $\frac{1}{4}$, one of the best "prospects" in California. Her winning mile in 2:14 $\frac{1}{2}$ at the Sacramento matinee was made so easily that many predict she will get inside the 2:10 list with very little work.

"Drivers must be properly and neatly dressed." That is one of this year's mandatory A. T. A. rules. Another important rule is, "a driver shall not drive a horse in the race without personal knowledge as to the eligibility of the horse to compete in said contest."

A yearling filly by the futurity sire, Moko, and out of Zephyr 2:07 $\frac{1}{4}$ (dam of Zelma 2:28 $\frac{3}{4}$) by Zombro 2:11; grandam the extreme speed producer, Gazelle 2:11 $\frac{1}{2}$, dam of four, including Zolock 2:05 $\frac{1}{4}$, is one of the best-liked juveniles at Lexington. She is just naturally fast and has shown already her ability to trot a 2:30 shot for a furlong. She is owned by E. T. Barnette, of California and Alaska, and is receiving her lessons in Gene Bowerman's charge.

P. W. Hodges' fine stallion Montbaine has had a successful season this year and from the way his progeny is showing speed next season his book will be filled quite early. All of his colts and fillies are well proportioned and have the best of feet and legs and all trot.

The Woodland Driving Club met last Monday night and discussed affairs relative to the coming celebration on July 4th. W. A. Hunter, secretary of the club, offered his resignation on account of pressure of other business. It was accepted and O. D. Payne was appointed in his stead.

Very satisfactory entry lists were secured for the Calgary, Alta., meeting June 28-July 5. The 2:15 pace and 2:10 trot has 33; the 2:30 pace and 2:25 trot, 23; the 2:25 trot, 20; the 2:22 pace and 2:17 trot, 17, and the 2:18 trot, 15. Twenty of the nominators are from the States, including Al Russell, who has brought his stable on from Los Angeles.

The great brood mare Maggie Sultan, dam of Nico 2:08, and three others by Sultan, son of The Moor, dam Maggie Purcell, by Jim Monroe; second dam Laura Logue, by American Clay; third dam Peg, by Lewis Crusader, in foal to Del Coronado, and due to foal on May 26, died at Village Farm, Willow Grove, Pa., on May 10.

"They say" that the three-year-old Hal Norte by Hal B. and the aged pacer, Chico, by Wayland W., worked an eighth together last week over the Portland track in 15 seconds; the quarter was in :34 $\frac{3}{4}$. This Hal B. colt looks like the best three-year-old in sight in the Northwest. He is owned by Ed. Dennison, of Portland, and is being entered down the line.

Hawthorne, the unbeaten brown gelding, was sold at Louisville, May 16, by G. H. Coyle, of New York to C. F. Busch Meyer of Louisville for \$12,500. Hawthorne is a two-year-old by Hastings, out of White Thorn. He was bred by August Belmont at Nursery stud, near Lexington, and Mr. Coyle bought him for \$650. Hawthorne has won every race in eight starts.

J. T. Atkinson, a prominent lumberman of Humboldt county, is the owner of a stallion called Bob Fleming by Bob Fitzsimmons 2:07 $\frac{1}{4}$ and several very choicely bred mares which he is breeding this season. In a few years the produce will be seen on our race tracks. Mr. Atkinson is a thorough horseman and is well versed in the pedigrees and histories of our leading trotting sires.

Thos. Vantine, of 340 Eddy street, has one of the finest imported German coach stallions for sale ever brought to America. This horse is Ewald 4401, foaled 1904, and weighs 1400. In color he is a coal black. He has won first premiums at the State Fair in 1907 and 1910. His colts are large, heavy boned, stylish and perfect in form. It is from this breed that most of the artillery horses in the German army come.

It is but a few years since any bunch of western horses, meaning by that, range bred animals, could have been bought for any old price that the buyer saw fit to offer. But conditions have changed. At a recent auction sale in New York City 100 head of ponies suitable for polo, consigned by Miller Brothers, of the 101 Ranch in Oklahoma, sold for an average price of \$200. One fancy chestnut brought \$625.

Sam Hildreth, the American trainer, has entered into an arrangement whereby he will train for Baron Maurice de Rothschild, one of the French branch of the well-known family. Hildreth will undoubtedly have a better time with the colony of American trainers at Maison Lafitte and Paris than if he had stabled down at Newmarket. His arrangements with Rothschild allow Hildreth to devote part of his time to Fitz Herbert and the other stars sold to Charles Kohler.

The Kings County Fair Association directors will start work for the 1912 agricultural fair by meeting immediately. With Hanford on the Pacific Coast Circuit of fairs it is believed that the fair can be made to finance itself, but in order that no debts may be contracted that cannot be met, a small guarantee fund may be solicited among the merchants. This fund will not be collected unless it proves necessary. Last year about 75 per cent of the \$3000 guarantee fund had to be collected and the merchants gladly donated this sum to back the directors.

The heavy rain in Los Angeles on Friday and Saturday caused the race meeting there to be declared off. It was a big disappointment to many owners who had hoped to see some records made by their colts and fillies. I. L. Borden had the pacing filly Gold Lily and his trotter Carlos. J. S. Mahen had his two trotters Good Policy and El Carhine. Whittier, a colt owned by Wm. Loftus, was to beat 2:30 $\frac{1}{4}$ and Imbro, another owned by M. B. Mosher, was to beat 2:25 $\frac{1}{4}$, pacing. Fred Brown's Carlrich was to get a trotting record better than 2:30 and so was Hagen, that belongs to Messrs. Borden & Berry, to try and beat 2:30 $\frac{1}{4}$. Besides these eight aspirants for records there were seven splendid races scheduled and all the very best horses at the Exposition track were to start.

The splendidly bred pacer Roman Boy 2:19 $\frac{3}{4}$ (trial 2:10 $\frac{1}{4}$) will be sold at Chase's sale June 10th. Whoever wants one of the fastest and best racing "prospects" as well as a high class driving horse, should not overlook him.

C. K. G. Billings has notified President Ed. A. Tipton of the K. T. H. B. A. that he will again donate a gold cup, designated as the Billings trophy, for the annual trotting meeting in October. Last year the trophy was presented to Louis Neidhardt, whose trotter, Charley Mitchell 2:04 $\frac{1}{4}$, won the fastest heat (trotting) at the meeting. President Tipton has not as yet decided on the conditions under which the cup will be presented this year.

M. C. Keefer, one of the leading hotel keepers of Woodland and also the most active participant in all matters pertaining to the light harness horse industry of Yolo county, sold out his interest in the Julian Hotel of that thriving city and has taken all his horses to the Sweetwater Track, National City, San Diego county, where he will join forces with Charley Spencer in the training and developing of over twenty finely bred trotters and pacers. The departure of these two active and energetic men from Woodland is a serious loss to the community and the people of National City are to be congratulated upon having these new-comers settle among them.

I heard good reports about Bierne Holt and asked Red Gerrity about him, says a writer in The Horseman. "Well, sir," he replied, "I am very much encouraged about that colt. Within the last few days he has quit fighting his head. Heretofore he has always had speed enough, in fact I have ridden faster behind him than any trotter I ever drove, but he would get to "bulling" in his races, not because of the company, but just through headstrongness, and would go to a break at critical times. This spring I have gone slow and have tried to improve his manners, and the other day I worked him a mile around 2:25 and he didn't fuss with his head at all. Yes, I am very much encouraged."

There has been \$10,000 appropriated by the City of Vancouver, B. C., for further improvements on exhibition grounds and Managing Secretary Rolston has a force of men and teams started on the roads, which will be graded and graveled. This is an improvement which was much needed, as it is extremely difficult to winter horses properly or give them any early spring training when quartered at a race track where the roads are impassable in wet weather especially in this northern country. After the Vancouver Exhibition Association has completed its road building and repaired a few stalls such as hanging new doors, etc., they will have the best training ground in the Pacific Northwest.

The first free-for-all pacing stake of the year will be decided at Cleveland. Inasmuch as these free-for-alls were prominent events on last year's Grand Circuit, there will be considerable interest shown in this first one of 1912. The Cleveland free-for-all is called the "Champion Pacing Sweepstakes." It is a 2 in 3 event, entrance to which is \$100 in graduated payments, with \$1,000 added by the association. Thirteen entries have been made, viz.: Independence Boy 2:01 $\frac{1}{2}$, Ross K. 2:01 $\frac{1}{2}$, Evelyn W. 2:01 $\frac{3}{4}$, Vernon McKinney 2:02, The Eel 2:02 $\frac{1}{4}$, Hal B. Jr. 2:03, Don Desmore 2:03 $\frac{1}{4}$, Merry Widow 2:03 $\frac{3}{4}$, Zula Hal 2:03 $\frac{3}{4}$, Sir R. 2:03 $\frac{1}{2}$, Major Mallow 2:03 $\frac{3}{4}$, Peter the Second 2:04 $\frac{1}{4}$, and Zombrewer 2:04 $\frac{1}{4}$. If all of the eleven are kept good, which is hardly likely, the race will be worth \$2,300.

Too many mares with colts by their side, or mares about to foal, should not be kept in one pasture or in one corral. They will do much better if there are only a few in small pasture lots. Young colts and fillies also should not be kept together in the same enclosure. It is better to separate the weanlings or yearling fillies and keep only a few in one enclosure. When yearling colts and fillies run together the fillies rarely do well. The fillies and mares have an inclination to mate for companionship with only one or two or three others, and where many are together in one small field there are too many factions and feuds. The abuse which animals give one another is in its depressing and injurious effects much like that which they too frequently get from man.

An unique way to destroy a horse was performed by the old pathfinder Ezra Meeker at his farm near Puyallup, Washington. For thirty years the horse had been a faithful animal but had come to a precarious condition so that Meeker decided to destroy it painlessly. He bought two sticks of dynamite, caps and a bit of fuse. He tied the explosive to the horse's neck, inserted the caps and attached the fuse. When all was ready the fuse was lighted and Meeker ran for the orchard, 100 yards away, as fast as his seventy-nine years would permit. The old man had not gone far when, hearing a noise behind, he turned to behold the old horse following him at a brisk trot. The animal was frightened at the sizzling fuse dangling from its neck and sought protection at the hands of its master. Meeker realized his danger and ran faster. A barbed wire fence separated the orchard from the pasture and this the old man hurdled like a deer. The farmer, with his clothes in shreds, found himself in an apple tree. The old horse had vanished together with fifty yards of the fence.

There are some splendidly bred, well trained trotters and pacers to be sold at Chase & Co.'s auction sale June 10th.

Chas. Johnson, of Woodland, has consigned fourteen very well bred and useful horses to the sale at Chase & Co.'s June 10th. Send for catalogue.

Ninety-five trotters and 26 pacers entered the standard list as two-year-olds during the season of 1911. Pearl Ongale led the pacers, with a mark of 2:15½.

A man might be looking a long while before he would see three finer looking bay trotters than those consigned by Thos. Ronan, of Pleasanton, to the Chase & Co. sale.

On May 25th, M. B. McGowan's good mare, Queen Derby 2:06¾ foaled a fine large bay colt to cover of The Bondsman. As her colt by Zolock, a pacing sire, is a trotter, this one by The Bondsman surely will be one also. This foal is entered in all the futurities to date on the Coast. Queen Derby is the fastest record mare bred to The Bondsman and the colt should be a good one as he is "bred in the purple" on both sides.

Some time this week John Splan will ship to Jas T. Thompson, of Sacramento, a yearling colt, which was purchased by that gentleman a short time ago. This precocious youngster is by Peter the Great 2:07¼ and out of Klyo (2) 2:29¾ by Jay McGregor 2:07¼; grandam Miss Spears 2:21¾ (dam of six, including The Shakespeare (3) 2:09¾), by Lakewood; third dam Medium's Last (dam of seven, grandam of ten) by Happy Medium.

George Wilkes made nine seasons in Kentucky and during that time sired 69 out of his 72 trotters to enter the 2:30 list. Belmont was foaled in 1864; made his first season for mares in 1869, died in 1889, making twenty years as a sire in Kentucky. He left 49 trotters to enter the 2:30 list. Almont, foaled in 1864, made about fifteen seasons in Kentucky for mares; left 35 trotters to enter the 2:30 list in the next generation. George Wilkes left 103 sons to sire 2092 trotters and 1068 pacers; and 110 daughters to produce 148 trotters to enter the 2:30 list and 59 pacers to enter the 2:25 list. Belmont left 78 sons to sire 520 trotters to enter the 2:30 list and 188 pacers to enter the 2:25 list; 80 daughters to produce 123 trotters to enter the 2:30 list and 26 pacers to enter the 2:25 list. Almont left 98 sons to sire 449 horses to enter the 2:30 list as trotters; 160 horses to enter the 2:25 list as pacers, and 84 daughters to produce 107 horses to enter the 2:30 list as trotters and 29 horses to enter the 2:25 list as pacers.

ELECTION OF OFFICERS.

Last Saturday about ninety members of the California Harness Horse and Breeders' Association assembled at the Mission Promotion Club Hall pursuant to a call of the Secretary Wm. J. Kenney. The meeting was called to order by A. L. Scott, the president, and on hearing the report of the secretary for the past year, personalities were indulged in. It was claimed that Secretary Kenney had ignored the existence of a president, treasurer and executive committee since March 24, 1911, and had hired a stenographer at a cost of \$480, knowing there was no legislative work to be done that year. All hope of straightening out the affairs of this association was abandoned while so much friction existed among its officers. Some member then proposed that nominations and an election be held. A. E. Sherwood, one of the leading business and horsemen of Stockton, was then elected by acclamation, and so was John Nowlan, first vice-president; S. H. Burns, second vice-president; A. Phillips, third vice-president. No one seemed to care to assume the duties of treasurer even though Treasurer Matthias said there was "nothing whatever to do, at least he was never allowed that privilege." Wm. J. Kenney was made treasurer and secretary. Mr. Sherwood, with Secretary Kenney will place this association on a sound and better footing. No doubt its affairs will be conducted on more business-like methods and it will prove a factor in its work to restore district fairs.

EXPULSIONS ORDERED BY TROTTING BOARD.

The board of appeals of the American Trotting Association adjourned its semi-annual meeting at Chicago on Wednesday after hearing thirty-seven cases, ordering a number of suspensions, and expelling members in two disputed cases.

The first expulsion came in the case of the Association vs. Tom Bradstreet and R. T. Arbuckle of Grand Island, Neb., and the brown or black gelding "Dr. Frazee" alias "Lou Rass." Owner, driver and horse were expelled.

The second expulsion order was issued in the case of the Association vs. A. S. Parent, of Greenville, O., and the brown gelding "Baron Ray" alias "Billy Baron," in which a demand was made for the return of alleged illegal winnings. Parent and "Baron Ray" were expelled.

George A. Estabrook, wealthy Denver horseman, lost his case against the Indiana State Fair Association of Indianapolis, in which he protested a collection against the bay mare "Countess Marie," one of the horses in the Estabrook stables.

Drink Jackson's Napa Soda.

LETTER FROM STOCKTON.

Stockton, May 30, 1912.

Editor Breeder and Sportsman;

Having just visited Chas. Nance's stable, I found he was working five head, and they are all doing well. This trainer is a hard and conscientious worker and deserves success. He has two belonging to Mr. Ed. Lavin—one a three-year-old called Stella McKinney, by Ed. McKinney, out of a mare by Eros. This filly worked a mile as a two-year-old in 2:21 and is a very promising "prospect." The other is also a three-year-old by John Rowan's good stallion Mechanic out of a mare by Monochrome, grandam by Mendocino 2:19½. She has shown a mile in 2:40. Mr. Nance has a very handsome bay stallion by Stam B. 2:11¼ out of a mare by Elect 2:26, he by Richards' Elector. W. R. Ruggles bred and sold her as a yearling to her present owner, Edmond Miller. He is called Stamboy and has a matinee record of 2:24, but is good for a mile close to 2:20. This trainer also has a pacer called Daisy that has already gone a mile in 2:14, and last, but not least, he has his fine four-year-old stallion called Bourbon that trotted a mile last fall in 2:40 and a quarter this spring in 35 seconds. He is a blood bay in color, very solidly made and looks as if he could trot all day without tiring. He was sired by Monochrome (son of McKinney 2:11¼) out of a mare by St. Nicholas (son of Sidney 2:19¾).

Mr. Digges is working his good stallion McAdrian 2:24 and is satisfied he will lower his record this year.

Mr. Peter Chalmers has four head, viz.: Grace Chalmers by McAdrian; Ollie McAdrian by McAdrian, dam by Gen. Booth; grandam by Hawthorne; a four-year-old filly by Zolock 2:05¾, and a three-year-old by Guy McKinney, which he calls Mose Lewis. All of his horses are doing well.

Chas. DeRyder, of Pleasanton, was here the other day and purchased from J. N. Jones a yearling by Vernon McKinney 2:02 out of Lady Irene 2:14½, by Diahlo 2:09¼, grandam Geraldine 2:16¾, by Mount Vernon 2:15¼, great grandam Edith C., by Gen. McClellan 143. A colt bred like this one should learn to go some. Mr. Jones is only working a three-year-old at present by Western McKinney (a son of McKinney 2:11¼, out of a mare by Stamboul 2:07½).

Tom Holmes and Chris Jorgensen arrived at this track last week with three head. Tom has a three-year-old by Stam B. 2:11¼, dam by Bay Bird. This colt is called Golden State and is heavily engaged in the stakes. Mr. Jorgensen has a big five-year-old gelding he calls Dane Swift, sired by Almaden D. out of a mare by Kentucky (son of Whipple's Hambletonian, grandam by Langford. This horse recently trotted a mile over the Sacramento track in 2:15¼, last half in 1:04. Chris also has a yearling pacer by Natoma from a granddaughter of that good old trotter Albert W.

Willis Parker has a full brother to Vernon McKinney 2:02 which looks like his sire and should be a good one. He has a four-year-old by Guy McKinney out of Blancbeard (dam of China Maid) by Onward 2:25¼. He is also handling a Zolock pacer that is good for a mile in 2:14. Yours, LOU HICKS.

NOTICE TO HORSEOWNERS.

Owing to the fact that many do not care to give their horses records at the Butchers' Picnic at Emeryville, June 12th—and if they race for money that will be the result—the management decided to substitute for the purses in all class events valuable silver cups, which will be cherished as souvenirs of this "one big day." And this announcement is made in the hope that a splendid entry list will be obtained. The track is being prepared for these events and a royally good time is anticipated. It is estimated there will be an attendance of 25,000 people there.

THE SANTA ROSA RACE MEETING.

Mention was made in these columns a few days ago of the endeavor being made by S. H. Burns, owner of the Santa Rosa Stock Farm and race track, to arrange for a harness race meeting here. The matter was discussed at a meeting of horsemen in this city on Monday night, held under the auspices of the Sonoma County Driving Club at Dixon & Elliott's store, and it was decided to lend every assistance to make the meeting a success.

At Monday night's meeting Sampson B. Wright presided and George Prindle was at the secretary's desk. Some twenty-five horsemen were present.

As intimated, Mr. Burns will hang up some of the big purses that will be contended for on the tracks of the State this year, and has already secured promises that some of the best horses in California will be registered in the events for each day. There are some good ones on the circuit this year.

The date of the Santa Rosa meeting will be July 17, 18, 19 and 20. As is well known, the Santa Rosa track is one of the fastest in the West, and horsemen like to bring their horses here.

With the backing given the meet by the horsemen here and about the State, it is sure to be a success in every way.

"We shall have some of the best racing ever witnessed in California, and the best horses in the State are coming," was the enthusiastic declaration of Dr. J. J. Summerfield on Monday night.—Press-Democrat.

William L. Snow has a look-in for the Giftline, \$2000 stake at Grand Rapids Grand Circuit meeting, with Zombrewer 2:04¾, by Zombro 2:11.

HORACE W. WILSON.

San Francisco, May 26, 1912.

Editor Breeder and Sportsman:

With deep regret I have just learned of the death of Horace W. Wilson, ex-secretary of the Kentucky Trotting Horse Breeders' Association. Mr. Wilson was a well-known worthy secretary, whom I esteemed and admired also as a gentleman. It was my pleasure to have had business dealings with him in relation to horses, also with the late Wm. B. Fasig; they were "the kings of kings of Trotting Horse Association Secretaries." They were ever thoughtful and kind; both were ambitious, and were always striving to widen their circle of acquaintances in order that through these associates they might learn more and more the wants of men and horses. In my dealings with these two gentlemen I found their unwritten words as binding upon them as a legal document and thoroughly free from selfishness (recognized to day as the hesetting sire of many an American). As I think of them, their integrity and many good qualities I cannot help classing them as Robert Burns the poet once did in his poem on "Handsome Nell":

"Oh! Once I loved a bonnie lass
Aye, and I love her still,
And while that virtue warms my breast
I'll love my handsome Nell."

No two men in all the history of the light harness horse industry furnished a greater incentive for others to work for it than they. Their devotion to its welfare and success is recognized everywhere, and I speak of the late Messrs. Fasig and Wilson as I at all times found them. Their lives were clothed with simplicity and dignity without a trace or touch of false coloring. With them, as with many others who have "passed over the river to that great beyond," their remembrance will ever remain with me and will "linger in my bosom" like the psalms of David. "Hang theologians," I say. Give us more Fasigs and Wilsons if possible as our trotting horse track secretaries. Men who are tried and true friends of the sport: horses, owners, trainers and caretakers. It was always their motto to cheer the weary, clothe the naked, feed the hungry at their door, raise the fallen, guard the helpless (forgetting self at all times) heal the sick and help their friends.

Yours,
SAMUEL GAMBLE.

TALMAGE ON HEREDITY.

In one of Dr. Talmage's beautiful discourses many years ago, he referred to heredity in the human race. His views regarding transmission of characteristics were:

"Now, the longer I live the more I believe in blood—proud blood, good blood, bad blood, humble blood, honest blood, thieving blood, heroic blood, cowardly blood. The tendency may skip a generation or two, but it is sure to come out, as in a little child you sometimes see a similarity to a great-grandfather whose picture hangs on the wall. That the physical and mental and moral qualities are inheritable is patent to anyone who keeps his eyes open.

"The similarity is so striking as to sometimes be amusing. Great families, regal or literary, are apt to have the characteristics all down through the generations, and what is more perceptible in such families may be seen on a smaller scale in all families. A thousand years have no power to obliterate the difference. The large lip of the House of Austria is seen in all descendants, and is called the Hapsburg lip. The House of Stuart always means in all generations cruelty and bigotry and sensuality. Witness Queen of Scots and Charles I and II, and James I and II, and all the others of that imperial line.

"Scotch blood means persistence. Dutch blood means cleanliness and good breeding. English blood means reverence for the ancient. Irish blood means religiosity. Danish blood means fondness for the sea. Indian blood means roaming disposition.

"The Jewish faculty for accumulation you may trace clear back to Abraham, of whom the Bible says, 'He was rich in silver, and gold, and cattle,' and to Isaac and Jacob, who had the same family characteristics."

What Dr. Talmage said regarding human families may with equal fitness be applied to the equine. How many times are we struck by the resemblance of a colt or filly to an ancestor in the second, third or fourth line of parentage, while the sire or dam may have only the barest resemblance, or perhaps none at all.

But in the long run the prominent characteristics of a sire or a dam are sure to crop out in the descendants, at some future date. It's nature's way, and is not to be denied in either the human or animal family.

NOTICE TO OUR READERS.

As several of our subscribers have expressed a wish to have us publish the full text of the bill regarding pari-mutuels and auction pools that is sent broadcast for distribution, we do so in this issue. They also desire to state their views on it. The "Breeder and Sportsman" hereby offers space in its columns for any explanation of its favorable or objectionable features, the "Breeder" reserving the privilege of publishing at its discretion these articles; the names of the authors are not to be published if the contributors do not wish them to be known.

FORMATION OF A NEW ASSOCIATION.

Full Text of the Measure to Be Submitted to the Electors of California.

About sixty prominent horsemen convened in the concert hall of the Palace Hotel on Saturday, May 25th, and, with Colonel J. C. Kirkpatrick, of San Francisco, acting as chairman and J. H. Chanslor, of the Los Angeles Driving Club, acting as secretary, the Associated Horse Breeders of California was organized. The aim of this association will be the enacting of legislation calculated to promote the breeding of thoroughbred horses and horse racing in this State. An initiative petition in that direction was offered by A. B. Spreckels and seconded by Harry T. Creswell and was unanimously adopted.

It is in the form of a measure to be submitted directly to the electors of the State for an amendment to the existing laws. In order that this petition—as published below—can be submitted to the voters at the coming Presidential election under the provisions of the Constitution it is necessary to have 8 per cent of the registered voters, or about 35,000 registered electors, sign the petition. Already steps have been taken to have these petitions sent out to all the counties in the State.

Harry T. Creswell, former City Attorney of San Francisco, made a short speech outlining what vital importance the adoption of the proposed measure would have on horse-breeding in California.

M. F. Tarpey, of Fresno, followed with a talk on the game of horse racing, which has been described from time to time as the "Sport of Kings" and the "King of Sports." In part, the speaker bemoaned the fact that racing became commercialized, and spoke enthusiastically of the proposed new law reviving the sport. Mr. Tarpey referred to the time when horses raced over a track which was located in the thickly settled district now hounded by Polson, Twenty-second, Mission and Twenty-third streets, called the Treat track, and admitted that the men who promoted the sport ran it into the ground and looked to the Racing Commission to correct that evil, which was pronounced in the prosperous days of Emeryville.

"The racing and breeding of horses is like raising an orchard," said Tarpey. "When one of your trees declines and does not bear fruit as it should, it is not necessary to pull it up by its roots, but rather nurse it along and find out the fault. There was undoubtedly something the matter with the racing game, but the lawmakers went after it with an ax instead of a pruning knife. All that is needed is regulation.

"The country needs good horses and, in order to get them, it is necessary to have racing of thoroughbreds to bring out their good qualities and stimulate interest in breeding them. The auto truck will in a great measure drive the horse out of the city, but they are needed in the valley and the vale. The driving horse is needed off the main road, and the heavy horse is needed in the country."

INITIATIVE MEASURE TO BE SUBMITTED DIRECTLY TO THE ELECTORS.

Initiative Petition.

Whereas, it is the desire of all racing and breeding associations of horses in the State of California, to prohibit bookmaking upon horse races, or any other event, and to prevent the conducting or maintaining of pool rooms in the State of California; and Whereas, it is also the desire of many persons engaged in the breeding of blooded stock, and the owners of breeding farms in the State of California, to foster and encourage the enterprise and business of breeding and racing blooded horses, and to encourage capital in the investment in such enterprises in the State of California; and

Whereas, to that end an amendment to the existing laws of the State of California is deemed desirable;

The undersigned duly registered and qualified electors of the State of California, by this their petition do hereby petition and propose the adoption of the following law, under the initiative provisions of the Constitution of the State of California:

An act to prohibit bookmaking and pool-selling, and to provide for the appointment of a State Racing Commission to grant licenses for horse racing in the State of California, for a limited period, and the permitting of wagering upon such races by the Pari-Mutuel and Auction Pool Systems only.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

Section 1. Any association or corporation formed for the purpose of racing and breeding or improving or encouraging the breed of horses and conducting races and contests of speed between horses, shall have the right and power, subject to the provisions of this act, to hold one or more race meetings in each year, and to hold, maintain and conduct horse races at such meetings. At such meetings the corporation or association or the owners of the horses engaged in such races, or others who are not participants in the racing, may contribute purses, prizes, premiums or stakes to be contested for, but no person or persons other than the owners of a horse or horses contesting in a race shall have any pecuniary interest in a purse, prize, premium or stakes contested for in such races or be entitled to or receive any portion thereof after such races shall have been finished.

Section 2. A State Racing Commission is hereby established to consist of five persons to be appointed by the Governor within twenty days after this law shall be in force, all of whom shall have been breeders and raisers of horses for five years preceding their appointment, none of whom shall be an officer in any corporation or association or race track engaged in giving race meetings. The members of said Commission shall hold their offices for four years.

Section 3. Such Commission shall appoint a secretary, who shall hold such office during the pleasure of the Commission. The duty of such secretary shall be to keep a full and faithful record of the proceedings of the Commission and preserve at its general office all books, maps, documents and papers entrusted to its care, and perform such other duties as the Commission shall prescribe. He shall be paid a salary to be fixed by the Commission at a rate not exceeding eighteen hundred dollars per annum, which shall be paid by such racing corporations or associations who shall obtain licenses from said Commission, the amounts to be paid by each to be apportioned by the Commission, which shall on or before the first day of January of each year assess upon each of said corporations or associations its proportion of such salary. The Commission shall biennially make a full report to the Governor of its proceedings for the two year period ending with the first day of January preceding the meeting of the Legislature. All other expenses of the said Racing Com-

mission shall be paid by the racing corporations or associations obtaining licenses under this act, and shall be prorated in the same manner. Said Commission shall have the power to make rules, regulations and conditions which shall govern the actual trotting, pacing and running races held upon the track of any corporation or association who shall obtain a license under the provisions of this act.

Section 4. Any association or corporation formed for the purpose of raising and breeding or improving or encouraging the breed of horses and conducting races and contests of speed, shall have the power and right, subject to the provisions of this act, to hold one or more race meetings in each year, and to hold, maintain and conduct pacing, trotting and running races at such meetings. No races are authorized, or shall be permitted between sunset and sunrise, or on Sundays.

Section 5. No such races shall be conducted except by a corporation or association duly licensed by said Commission as herein provided.

Licenses shall be granted by said Commission to such corporations and associations to hold races or race meetings for such period of time as such corporations and associations shall desire, but not to exceed one hundred days in any calendar year in any one county in this State. No one corporation or association shall hold race meetings to exceed in the aggregate one hundred days within the boundaries of this State during any calendar year. The Commission shall not issue licenses permitting running races between sunset and sunrise, or be conducted in any one county in this State for a period exceeding one hundred days per calendar year.

In the event that the said Commission should refuse any such license, the said Commission shall publicly state its reasons for so doing, and said reasons shall be written in full in the minute book of said Commission, which shall at all times be subject to inspection upon application by any one desiring so to do, and said finding of said Commission shall be subject to review by courts of general jurisdiction of this State, and the revocation of any license by said Commission shall likewise be subject to the review of the courts of this State.

No association or corporation shall be entitled to a license who shall violate any of the provisions of this act, and the said Commission may, by a majority vote, rescind and revoke any license granted to any association or corporation who shall violate the provisions of this act, after a fair and impartial hearing.

Section 6. Every race meeting held or conducted, except as allowed by this act, is hereby declared to be a public nuisance, and every person acting or aiding therein is punishable by imprisonment in the county jail or in the State prison for a period or not less than thirty days, and not exceeding one year, and in addition thereto in a suit brought for that purpose by the said Racing Commission in the Superior Court of the county where it may be proposed to conduct such unauthorized racing, an injunction may be obtained against the same.

Section 7. The provisions of this act relative to the payment to the said Racing Commission of proportionate moneys to pay the entire expenses of conducting said Commission shall not apply to race meetings conducted by any State Fair Association, or Agricultural Society, or County Fair, or any association to which State aid is given, who shall hold a meeting for a period of not exceeding ten days.

Section 8. Every person (1) who engages in pool-selling or bookmaking, with or without writing, at any time or place; or (2) who, whether for gain, hire, reward, or gratuitously, or otherwise, keeps or occupies, for any period of time whatsoever, any room, shed, tenement, tent, booth, building, float, vessel, place, stand or enclosure, of any kind, or any part thereof, with a hook or books, paper or papers, apparatus, device or paraphernalia, for the purpose of recording or registering any bet or bets, or any purported bet or bets, or wager or wagers, or any purported wager or wagers, or of selling pools, or purported pools, upon the result, or purported result, of any trial, or purported trial, or contest, or purported contest, of skill, speed or power of endurance of man or beast, or between men, beasts or mechanical apparatus, or upon the result, or purported result, of any lot, chance, casualty, unknown or contingent event whatsoever; or (3) who, whether for gain, hire, reward, or gratuitously, receives, holds, or forwards, or purports or pretends to receive, hold or forward, in any manner whatsoever, any money, thing or consideration of value, or the equivalent or memorandum thereof, staked, pledged, bet or wagered, or to be staked, pledged, bet or wagered, or offered for the purpose of being staked, pledged, bet or wagered, upon the result, or purported result, of any trial, or purported trial, or contest, or purported contest, of skill, speed or power of endurance of man or beast, or between men, beasts or mechanical apparatus, or upon the result, or purported result, of any lot, chance, casualty, unknown or contingent event whatsoever; or (4) who, whether for gain, hire, reward, or gratuitously, receives, at any time or place, bets, wagers, or registers any bet or bets, wagers or wagers, upon the result, or purported result, of any trial, or purported trial, or contest, or purported contest, of skill, speed or power of endurance of man or beast, or between men, beasts, or mechanical apparatus, or upon the result, or purported result, of any lot, chance, casualty, unknown or contingent event whatsoever; or (5) who, being the owner, lessee or occupant of any room, shed, tenement, tent, booth, building, float, vessel, place, stand, enclosure or grounds, or any part thereof, whether for gain, hire, reward, or gratuitously, or otherwise, permits the same to be used or occupied for any purpose, or in any manner prohibited by subdivisions one, two, three or four of this section; or (6) who lays, makes, offers or accepts any bet or bets, wagers or wagers, upon the result, or purported result, of any trial, or purported trial, or contest, or purported contest, of skill, speed or power of endurance of man or beast, or between men, beasts, or mechanical apparatus, is punishable by imprisonment in a county jail or State prison for a period of not less than thirty days and not exceeding one year.

This section shall apply, not only to persons who may commit any of the acts designated in subdivisions one to six inclusive of this section, as a business or occupation, but shall also apply to every person or persons who may do in a single instance any one of the acts specified in said subdivisions one to six inclusive, save and except all racing associations and corporations which shall obtain licenses to conduct race meetings in the State of California pursuant to and under this act, may conduct and carry on and permit within the enclosure where horse racing is held betting upon the races conducted with said enclosure by and through the Pari-Mutuel and Auction Pool Systems of betting.

Section 9. All acts and parts of acts in conflict with this act are hereby repealed.

This petition is presented under the provisions of the Constitution providing for the enactment of a law by the electors of the State of California in direct manner under the eight per cent initiative provision of the Constitution of the State of California, and the same is presented to the Secretary of State to be submitted to the electors of the State of California for their approval or rejection.

This petition is prepared and is to be presented in sections, and this section is for the county of _____, State of California.

Signature of Elector. Residence, Town or City, Election Precinct, Street and Number. Assembly District Precinct District _____

Slake, in boiling water, half a bushel of lime. Strain, so as to remove all sediment. Add two pounds of sulphate of zinc, a pound of common salt and half a pound of whiting, thoroughly dissolved. Mix to proper consistency with skim-milk and apply hot. This is much cheaper than paint and gives the buildings and fences a very attractive appearance.

Tom King 2:12 $\frac{1}{4}$, one of the Chamber of Commerce entries, is a broncho of unknown breeding, standing 14.2 hands and weighing 750 pounds. He was bought out of a herd for \$25.

[Special Correspondence to the Breeder and Sportsman.]

TROTTING IN NEW ZEALAND, AND A NEW CHAMPION.

[Fred C. Thomas]

Christchurch, May 8, 1912.

In my last letter I referred to the great possibilities associated with the Rothschild mare Emmeline, predicting that when sent against "time" next November she would surely go a mile in 2:06 or better. Since then she has more than borne out the high expectations formed of her and today stands as the undisputed queen of the New Zealand trotting world.

At the Forbury Park (Dunedin) meeting, the opening of which had to be postponed for a couple of days owing to the heavy state of the course, Emmeline was brought out in an endeavor to capture a \$500 purse offered by the club for any horse breaking the existing track record of 2:11 $\frac{4}{5}$ held by Revenue. Driven by her owner and trainer, R. McDonnell, the mare reeled off her first two furlongs in 1:31 $\frac{2}{5}$ seconds, three furlongs in 46 seconds and passed the half-mile disc in 1:20. Right up to the six-furlong post she maintained a 2:05 clip, but from this out tired rather badly, eventually reaching the judges' box in 2:08 $\frac{3}{5}$. Not alone did she eclipse the track record, but what is more she equaled King Cole's New Zealand record of 2:08 $\frac{3}{5}$. When the uneven manner in which she was driven and the dead state of the track are taken into consideration, Emmeline's achievement stands out as the best ever registered in New Zealand, but I am quite confident that when next matched against Father Time she will clip his wings by at least two seconds. On the second day of the meeting Rothschild's handsome daughter added further to her laurels by establishing a new colonial record of 4:20 for two miles; a record that I fancy has never been beaten in a race even in America. It was really a marvelous achievement, for Emmeline had to thread her way past six other opponents, to all of whom she was conceding substantial starts. Emmeline was bred in the Ashburton (Canterbury) district by her owner-trainer, Mr. R. McDonnell, one of the most successful breeders of light harness stock in the Dominion. She is by that great sire of winners, Rothschild, from Imperialism, a daughter of Prince Imperial, while through her dam she inherits strains of thoroughbred blood begotten from Traducer and Hornby. Being only a five-year-old and not by any means over raced, there is no knowing what further possibilities there are associated with the latest champion's future prospects.

Trainer R. McMillan, who leaves for a trip to the States next month, had another good inning at the Forbury Park meeting. With Louis Dillon, a four-year-old son of Harold Dillon, and St. Louise, he captured the mile and a half trial handicap, in 3:48, not had going for a first appearance in public. Later in the day he drove his own representative, John M. to victory in the Regent Handicap. The mile and a quarter being left behind at a 2:17 gait. It is quite on the cards that "Mac" will bring something good back with him.

Though Mr. Alf Lawrence has been compelled to take a lengthy trip to England, he evidently does not intend to give up racing, as recently he made an important addition to his stable in the Franz gelding, Franz Joseph, who showed good form at the Metropolitan Easter meeting.

All of Mr. Edwards' horses are to be submitted to auction on the 4th of next month, after which he and his brother Bert intend going for a holiday to Australia.

Cecil Maple has seven head in his stable at Rush Park, Rushville, Indiana, besides the stallion, Dale Axworthy, that is making the season under Maple's care. Those in the training department are: Game of Chance, 3, by The Patchen Boy 2:10 $\frac{1}{2}$, now at Pleasanton, dam by Gambrel 2:10 $\frac{1}{2}$. Game of Chance is a pacer, and trialed in 2:19 $\frac{1}{2}$ last year at two. A three-year-old trotter that is promising is The Midget by Poem 2:11 $\frac{1}{2}$. Another three-year-old trotter that Maple likes is Flowery Maid, by Charley Hayt 2:06 $\frac{1}{2}$, dam by Rexwood. This one is charged with a mile in 2:40 at two, with fractions faster. The Lady Maud S, by The Patchen Boy, dam by Roan Wilkes 2:15 $\frac{1}{4}$, trotted a mile in 2:43, a quarter in 39 seconds at two, while a black filly, 3, by Simore 2:17, dam by Baron Posey, trotted in 2:36 $\frac{1}{2}$ last year, with 48 days' training. Sam H., a four-year-old grandson of Anderson Wilkes, and a yearling by Nutwood Wilkes, out of Oria O. 2:23 $\frac{1}{2}$, by Roan Wilkes completes the string. Lady Posey 2:15 $\frac{1}{4}$ will soon join this stable, and as she was second in 2:08 when racing a season or two ago, should have no trouble in reducing her record a few seconds. Lady Posey has a yearling sired by Zomhro 2:11 that is said to be a great one.

There is no one factor that does more to educate the public to like harness racing than matinee racing. In any city where there is a live matinee club, with lots of racing for the amateur reinsman, professional harness racing is most popular. It will pay the racing association of any live city where the sport does not seem to be popular to encourage racing to the extent of throwing open its track to the amateur reinsmen, for by so doing not only would the amateurs themselves get interested in professional racing, but a portion of the public caring little about that branch of sport would learn of its charm and become its patrons.

SAN BERNARDINO IS STILL ON THE MAP.

Editor Breeder and Sportsman:

There is probably more horses being worked at the Agricultural Park at the present time than ever before, although very little has been said publicly.

It was my privilege to spend several forenoons of the past week there watching the "work outs," and seeing the different horses driven, or being showed such as were not being driven during my visit.

Jim Sanford was busy preparing his stable to ship east. He drove Amado, the recent purchase of C. H. Jones, from M. S. Severance, a splendid mile considering the work that he has had. Amado is by Direct Heir, out of La Belle and is credited with miles under 2:10.

Jim had two others which were receiving special preparation for the races. Bonnie June, a Zolock mare, dam by Woolsey, and Buster by Neernut. These are owned by G. E. Bunnell of this city. They and green trotters, and fine prospects. Bonnie June has plenty of speed, and will surely be in the money, with no bad luck. Buster worked a mile in 2:15 and seemed to have plenty of speed in reserve. He has a nice way of going.

Jim Sanford left with these horses Monday for Amarilla, Kansas, the opening place of the Kansas and Oklahoma circuit.

Among the good looking prospects that I saw worked out was a black pacing mare by Zolock, from Wm. Best's stable. She has had very little work, but turned a mile in 2:19 very handily, going the last end very fast. This mare belongs to George West, the contractor.

Mr. Best has another Zolock mare in his string that is well thought of; she belongs to Thos. Holmes, and has only been in training a short time. He has several other good prospects, mostly colts which are receiving their first instructions.

We find Mr. Geo. W. Bonnell still in the ring with a good stable of horses, at the head of which is Zolock, who needs no introduction in the west. In his stable we find such horses as Copper the Ore, a Direct Heir mare, dam May Kinney, owned by Mr. Bonnell and Mr. J. T. Wells. Mr. Bonnell worked this mare a mile in 2:21, the last half in 1:06, and she did it easily.

A very attractive colt is an R. Amhush stallion, which Mr. Bonnell calls Amulet. He is a dark bay, with plenty of style, but has never had much work. Mr. Bonnell thinks he will make a great horse next year. R. Amhush colts are very popular around San Bernardino. Another one in Mr. Bonnell's stable is a four-year-old gelding belonging to Will Talmadge, of Highland, which paced a mile in 2:15, a quarter in 31 seconds. This horse will probably be raced this season, though Mr. Bonnell has not decided where he will go.

In the same stable is Major Baron, by Baron Glenwood, owned by Chas. Fair of Rialto; 2:17 is the time he paced his fastest mile the morning I saw him work.

George H. Parker has a number of very classy horses in his stable, not least among which is Mable Van 2:15¼. No mare can be in finer condition than this one is at present. She has developed into a large, strong mare, with considerable more speed than she had last year. Mable Van will be raced in the Pacific Circuit this season. Mr. Van Tress, who owns Mable Van, has a full sister to her, a fine On Stanley filly, dam Vanity by Eucalyptus, son of Silkwood; second dam by Gossiper; she outshines her sister in beauty, and bids fair to be her equal in speed.

Ben Hal, the handsome son of Hal B., has fully overcome any weaknesses that may have resulted from his illness in the east last summer. He is blessed with speed enough to go a mile in two minutes and barring accidents will have a very fast record attached to his name at the end of the season. Ben Hal is owned by George W. Garner, of Bishop, Inyo county, Cal.

Another Bishop horse is in Parker's string, and is one of the most promising young trotters in the State of California. This is Inyo Boy, by Osito 2:13¼, owned by J. B. Collette. This horse was worked some last year, but had to be thrown out of training on account of a quarter crack. Was taken up about the first of the year, has been brought along carefully, and today worked a mile in 2:17½ very handily over a track that was fully three seconds slower than when in normal condition.

Dr. I. W. Hazelette has a very promising young stallion by Redlac 2:07½, dam Inaugretta, by Zolock 2:05¼. In beauty he has all the redeeming qualities—being a beautiful coal-black with fine markings, is of good size, and splendidly proportioned. He has had but two months work but shows he is a trotter.

A new acquisition to the same stable is a pacing On Stanley filly, owned by Dr. T. W. Orme. The doctor calls this filly Dee Sherrill, and there is no doubt but that she will prove worthy of the name. With only two weeks' work she paced a mile Saturday in 2:32, the last quarter in 33 seconds.

Dr. Orme has a Larry Kinney colt, also called Orme Kinney, out of the same dam that bids fair to be a trotter of fame.

There is another newcomer in this string, by R. Amhush 2:09¼, a three-year-old filly owned by H. H. Eastwood, that promises well. Hy Yu was in the next door to the Amhush filly. Hy Yu raced a little as a three-year-old, but since then had nothing done with her; she is now six years old and has an easy way of going, and went her mile in 2:21, a

half in 1:06, an eighth in 16 seconds, without an extra effort. She is an On Stanley mare, and speaks well for her sire.

Last, but not least of the Parker stable, is a two-year-old filly by Osito, dam by Hillsdale, that is surely a phenomenal trotter. The second time she was ever hitched to a light cart she trotted an eighth in 18½ seconds. She has been hooted and worked just six times and showed a 2:20 clip. This filly is as handsome as she is fast and surely has a future.

We noticed Wm. Rourke on the race course with Larry Kinney. Larry looks well, and in all probability will be raced this year.

A VISITOR.

SAFELY ARRIVED AT LIBERTYVILLE.

A correspondent of the Chicago Horseman sends the following:

I journeyed to Libertyville Sunday to witness the arrival of the MacKenzie stable from California.

The horses left California at 6 p. m. Wednesday and arrived in Libertyville at 2 p. m. Sunday, making the run in less than four days. They all shipped well except Bessie L., whose legs filled up a bit, due no doubt to her having been histered for hip lameness. Her unsoundness is not expected to keep her out of her engagements. "Red" Gerrity was interested in looking her over, as he once came near buying her for \$250. She has been a mile this year in 2:15.

It was an interesting sight, as the train pulled in and stopped, to see the express car doors open and the caretakers pile out and greet their resident comrades from the Libertyville track, who were out in force to meet the incomers.

There were eighteen horses in the shipment, comfortably housed in three cars, with only six horses to the car. The express charges alone on the shipment were \$1800.

Two of the horses were not members of the MacKenzie shipment—viz: Jim Logan (3) p. 2:05¼, owned by J. Elmo Montgomery, and Del Ray, the pacer with a three-year-old trial last year of 2:05, owned by Messrs. Hazard & Silva.

With the advent of this California shipment there are 116 horses in training at Libertyville, and more to come. When Havis James arrives (he is due today), he will visit Charlie Dean at Palatine to join the Libertyville aggregation. By the time the racing season opens there will possibly be three MacKenzie stables racing. George Spencer will take one string of four or five, including Peter Preston, through the northwest. Havis James and Charles Fleming will take the balance of the Libertyville stable through the Grand Circuit. The horses left at Dean's will either be raced by Charlie himself or Charlie Dean Jr.

The horses did not seem to be overly tired from their 3000 mile ship, but all walked to their stables quietly except Del Ray and Joe Patchen II. The former was very coltish, while the latter (stable named "the bull") paused every half hock to walk a few steps on his hind legs, an accomplishment at which he is very proficient.

Weather at Libertyville has prohibited fast work among the horses already stabled. The 1912 track record to date is 2:20, held jointly by Frank Goodwin's trotter, Swanee 2:10¼, and a member of George Castle's stable, whose name I did not learn.

RECKLESS AUTOISTS.

H. B. Bushey in the Horseman has the following. It seems from this that the autoists are getting more reckless than ever in New York, and the true friends of the automobile—there are thousands of them—should endeavor to put a check upon reckless drivers such as this observant writer describes:

"The cheek of some automobile agents is enough to discourage the champion mule kicker. One of them advocates in the daily press a law banishing horse-drawn trucks from the streets of the city. Everything should make way for the motor truck. The patient dray horse has been one of the factors which raised a village to the rank of the second city in the world; he is still a necessity in business districts, but he interferes with the profits of the builders of machines and should go. The utter selfishness of this view is startling. As a matter of course no such law will be passed. The owners of horses already have surrendered too many of their rights and are in no mood to be further trifled with. The work horse is a part of our civilization and he will remain with us to the end. The drivers of machines in our streets have grown more and more reckless, and the wrath of long suffering and patient pedestrians is rising. It is reasonable to state that for every person riding in a machine, five hundred persons walk, and should a bitter conflict between the two occur, the result would not be for a moment in doubt. Within the past two years automobiles have killed in the streets of New York 263 people and maimed 1,663. The slaughter is greater than that of some widely chronicled battlefields. The year 1912 is still young, but during the month of February eleven people were killed by automobiles in our streets and seventeen were killed in the month of March. If this thing keeps up, the reckless drivers will be dragged from their seats by outraged people and given a taste of mob law. The resentment is keenest against the offenders who, after mortally injuring a child or a woman, run away without explanation or offer of help. The speed craze develops the brutish instinct.

The careful drivers have to suffer in a measure for the sins of the reckless. They can not escape the odium cast upon their profession by the careless and indifferent. Curb the selfish spirit of motor car drivers and make the public roads reasonably safe for pedestrians, equestrians and drivers of horse-drawn vehicles, and all talk about the horse being a hack number will cease. Reduce the danger of riding or driving and you will see a steady increase of horses on the public roads. The pleasure of those who ride horseback is spoiled by the hoggish tactics of motor car drivers, and there is an earnest demand for a change in this direction."

THE ORIGIN OF THE PARI-MUTUEL BETTING SYSTEM.

William Northey, secretary of the Montreal Jockey Club, in talking about the rumor that the Pari-mutuel system of betting would be inaugurated at Blue Bonnets this spring said: "The matter has been under consideration for a long time, but we are not prepared to say as yet whether such a thing will take place or not. The Pari-mutuel machines for betting purposes in the horse-racing game had their origin in the abuses of the bookmakers in France, which were no greater and no less than what we have had to contend with in America. In 1866 the owners asked the government for the suppression of the bookmakers. It was done, but then they found that racing without betting would not pay, and in 1891 the Pari-mutuel system was evolved.

The racing law then passed was as follows:

"(a) No racing club to be appointed in France unless with the approval of the Minister of Agriculture.

"(b) Any club to be appointed if it does not assume by itself a character of encouragement, i.e., without laying aside individual profits, either for the directors or shareholders, their profits being absolutely reserved to the fund of racing allowances.

"(c) The authorization to run with the ready money Pari-mutuel on the race courses with the supervision of the Inspector of Finances will only be granted to the racing clubs whose profits will be exclusively kept by the clubs and with the special condition that part of the percentage levied on the money invested goes to the State, applying the same to the encouragement of agriculture and horse-breeding as well as to charity boards."

These are the regulations under which the racing clubs are holding their liability in France since the year 1891. At present the receipts of the clubs have increased in a very great proportion and the total amount of money invested in the Pari-mutuel has reached the sum of \$350,000,000 a year, providing in that way \$20,000,000 for added money on racing and \$14,000,000 for State's income annually.—The Field.

THE YEARLING PACING CHAMPION.

Recently at Palatine, Ill., we observed with interest the work of Frank Perry (1), p. 2:15. We had seen him before at Lexington, but over the Palatine half-mile track we watched him take his jog work, and for the first time felt we had really become acquainted. On no track can you get a better idea of a horse in motion than on a half-mile ring. We saw him both jogging and brushing.

When jogging slowly he reminds you of a little child going to school. You have seen a hoy or girl hop along, then walk a few steps, perhaps run a while, stop at the roadside to pluck a flower, or jump sideways in play with a companion. That was Frank Perry jogging. He was as limber as a jumping-jack. One moment he would go lumbering along like a sailor just off ship, then again go straight but swing his body like a swaggering youth who expected to be President, then again he would jump at a shadow, or perhaps buck a hit. Of course it was spring and he was on the track for one of the first times since confinement from a mild attack of distemper and his unaccustomed freedom doubtless made him more playful than ordinary, still he impressed us as one of those care-free sort that doesn't care whether school keeps or not. And it is not such a had trait if it can be controlled.

At speed, and we saw him brush an eighth in 20 seconds pulled up from a playful break, he flattens out in a very husy, disdainful way, as though he realized he was a world's champion. He is not one of those pacers which seem to do all of their work with their legs, but is of the swingy, pendulum-like kind which put their whole organism to work to accomplish the desired end.

He does not look like a colt that broke a yearling record but more like a playful two-year-old, just broken, that you would expect to race as a three-year-old. We doubt if he is much taller than he was last year, but he has filled out considerably.—Horseman.

Occasionally it happens that a foal may be raised on cow's milk. For this purpose one may combine a dessertspoonful of granulated sugar with three or four teaspoonfuls of water and a similar quantity of limewater, adding enough new cow's milk to make a pint. The milk should not be rich in butter fat. The mixture should be fed warm in small quantities and often, beginning with about half a teacupful every hour. Week by week the amount at a feeding may be increased and the intervals lengthened. During the third month a change may gradually be made to sweet, separator skim milk, but before this the foal will be nibbling at grain and hay or grass. The growth of any colt may be promoted by feeding cow's milk after weaning, but this is not essential.

PLEASANTON'S GREAT DAY.

Pleasanton is noted for lovely weather, but on Thursday it surpassed itself. The citizens of this pretty town had decorated the streets in honor of the fact that the last of the successful matinees to be given on their historic track was scheduled for the day. At the station a huge banner was stretched with the word "Welcome" emblazoned thereon and all the principal streets were decorated with flags and banners. Lines stretched across these thoroughfares were covered with emblematic mottoes, and festooned with evergreens.

From early morn all the roads leading to this place were dotted with swift moving automobiles, huggies, wagons and carriages loaded to overflowing with well-dressed happy people who have been anticipating this day of pleasure for some time.

Beneath the wide spreading trees within the driving park grounds many picnic lunches were ate and everybody seemed to throw dull care aside and enjoy the pleasures of joyous companionship.

Promptly at 1:30 Starter J. L. McCarthy called for the horses in the first race, and as he said he would have the five races ended by 4 o'clock, he kept his word.

In the first event, a free-for-all trot, Borena D. was scratched and Brutus developed a slight quarter track; this left but two contenders: Wm. T. Sesnon's San Felipe and H. Brown's Camelia. It was merely a jog for the former to win in 2:20 1/4 and 2:16, and the beautiful solid silver R. J. MacKenzie cup was awarded to the winner. Mr. Sesnon is in Europe as a representative of the Panama-Pacific Exposition and the news that his horse was a winner will make him "homesick" for California.

Chas. James, driving St. Thomas, the bay gelding left behind by R. J. MacKenzie, captured the 2:25 trot in 2:15 1/2 and 2:17 1/2. This son of Woodford Wilkes trotted as though 2:12 will not be beyond him ere the races end this season. Bonnie Derby was unsteady, while The Fleet, a very fine looking horse belonging to Wm. Meek, and driven by "Farmer" Bunch, trotted the best race of his life and was second in both heats.

The free-for-all pace was of Grand Circuit caliber, and the outcome was a most agreeable surprise to the owner of the winner. There were five entries, viz: Holly Brand, Vela A., Welcome Boy, June Pointer and Queenie R. To a splendid start Vela A. cut out the pace to the half, closely followed by June Pointer. Here the latter passed her and then Welcome Boy moved up and was seen to gradually close upon the leader until at the head of the stretch he was on even terms with him. Ben Walker, the driver of June Pointer, saw it was to be a hard heat and, never having driven the pacer before, was a little shy about trying to force him to the limit, especially as Welcome Boy began to gain. When nearing the wire, however, he saw his horse was better than he expected and set down to drive, but it was too late. Welcome Boy won by two and a half lengths. Holly Brand was third, two lengths farther away; Vela A. fourth, and Queenie R. last. Time 2:10 1/2.

In the next heat, Schwartz, behind Welcome Boy, drove very wide on the first turn, carrying June Pointer out, then Smith with Queenie R. slipped in and took the pole and led to the quarter. Welcome Boy then paced alongside of him to the half in 1:05, June Pointer in a pocket. On the far turn Walker pulled the latter back, and taking him on the outside, set sail for the leaders. It was one of the prettiest races imaginable, the three pacers being head and head to the head of the stretch, June Pointer on the outside. Coming to the wire, Walker called upon this son of Star Pointer, who, gallantly responding, fairly outpaced his rivals to the wire, winning by a length in 2:10 1/4. The greatest enthusiasm among the excited and delighted spectators prevailed at seeing such a splendid race. Before the next heat many predicted that June Pointer would not "come back." When the word was given he was nose and nose with Welcome Boy; he led to the quarter pole in 31 seconds and up the hill he paced to the half, where he was timed in 1:03 1/4; at this point he shook off his rival but the latter rallied and came at him again, but June Pointer was not to be denied. He passed the three-quarter pole in 1:36 1/2, where Welcome Boy gave up the struggle, Queenie R. and Holly Brand passing him, but neither were able to make June Pointer extend himself as he jogged under the wire in 2:10 1/4, the rest in procession-like order behind him. How fast this five-year-old could have paced this mile will not be known; that he will be one of the best pacers of the year no one can doubt. His gameness is unquestioned, and Ben Walker, his driver, today sees in him a possible 2:03 performer this year. He is a compactly built dark bay horse with perfect legs and feet. He has the bandomest head, neck and shoulders of any Star Pointer in California and belongs to S. Christenson, of San Francisco. Chas. DeRyder says he was the hardest horse to handle he ever saw, but now that he is so thoroughly schooled he is the most tractable and has more stamina than any horse he ever handled or ever saw any other man handle.

Vanderlip, a big bay gelding by Stamboulette, ably driven by Chas. DeRyder, won the 2:15 pace, Dicto fercing him to pace in 2:15 1/4 in the first heat and in the second Jih was only a length behind him as he came in a winner in 2:15.

The last race of the day for the 2:25 pacers was another warmly contested one. Oakwood, handled skillfully by Al Schwartz, won in 2:17 1/2 and 2:18, but at no time during the two heats was he much

alone, for Ora D. was at his collar in the first until the seven-eighths pole was reached in both heats and then tired as he has not had six weeks' training on a race track. Star Tilden passed Ora D. in the deciding heat and was only half a length behind Oakwood at the finish.

Taking it all in all, it was pronounced the best day's racing seen in Pleasanton in years and great credit is due the Chamber of Commerce and its representatives, Lee Wells and Jose Neal, for their efforts to make these matinees so popular. To the donors of the beautiful cups are due the thanks of all resident and visiting horsemen, and next spring when this driving park is ready for matinee racing, after it is put in order by the proprietor, Mr. R. J. MacKenzie, it will draw thousands to the races to be decided there.

The officials were: Judges—Ed McLees of Tulare, T. J. Sexton of Oakland and J. H. Nelson of Fresno; timers—H. E. Armstrong, William Wilson and H. Sullivan; starter, J. L. McCarthy.

Summary:

First race, free-for-all trot, R. J. MacKenzie cup: San Felipe, b. g. by Zombro (De Ryder) 1 1 Camelia (Walker) 2 2 Time—2:20 1/4, 2:16.

Second race, 2:25 trot, Frank Diavila cup: St. Thomas, b. g. by Woodford Wilkes (James)..... 1 1 The Fleet (Bunch) 2 2 Bonnie Derby (De Ryder) 3 3 Roselin (Smith) 4 4 Lucile Wilson (Wilson) 4 4 Time—2:15 1/2, 2:17 1/2.

Third race—Free-for-all trot, R. J. MacKenzie cup: June Pointer, br. s. by Star Pointer-Perza (Walker) 1 1 Welcome Boy, b. g. by Welcome (Schwartz)..... 1 2 Queenie R. (Smith) 5 4 Holly Brand (Woodcock) 3 3 Vela A. (De Ryder) 4 5 Time—2:10 1/2, 2:10 3/4, 2:09 3/4.

Fourth race, 2:15 pace, Dr. M. F. E. Harms cup: Vanderlip, b. g. by Stamboulette (De Ryder)..... 1 1 Jih (Simpson) 4 2 Dicto (James) 2 4 Dawn o' Light (McBride) 3 3 Time—2:15 1/4, 2:15.

Fifth race, 2:25 pace, cup presented by Woman's Improvement Club of Pleasanton: Oakwood, b. g. by Charles Derby (Schwartz)..... 1 1 Ora D. (Walker) 2 3 Star Tilden (De Ryder) 4 2 Homburg Belle (Simpson) 4 2 Searching (Bunch) 3 5 Diablo Mac (Smith) 6 6 Time—2:17 1/2, 2:18.

GOOD RACING AT THE STADIUM.

An immense crowd gathered at the Stadium Thursday to witness the races listed by the San Francisco Driving Club. The contests were good and finishes close over this lightning-fast track. The day was an ideal one and the races were called promptly on time.

The feature race was dampened by the laming of Happy Dentist, J. Ryan's crack matinee pacer. Happy Dentist was the scheduled star of the third race, a free-for-all pace, but in the beginning of the first heat the pacer went lame.

The best event of the afternoon was the fifth, the 2:18 pace race, captured by Nomona, the crack Sacramento mare of Charles Silva. Nomona came in last in the first heat, with Little Dick and Pilot last. From a poor start Nomona paced ahead in both the second and third heats in the last quarter. In the second heat Nomona negotiated the last quarter in 0:32 1/2, while the third heat she made in 0:32.

The second heat of the free-for-all trotting race afforded a neck-and-neck fight through the last quarter to a close finish with Raymond M. and Sunset Belle.

Two cups and a whip were distributed in each race, the San Francisco Driving Club giving ten cups and George Giannini and James J. Ryan donating the other two.

Frank Lieginger of Stockton acted as timer in place of Frank Ruhstaller, and G. P. Macshado of Alvarado in place of James J. Donovan. There were forty-two entries, including five from Sacramento, two from Alameda and two from Sausalito. Summary:

First race, 2:25 pace, mile heats, best two in three: Queen Lily (Frank O'Shea) 1 1 Light of Day (J. J. Donovan) 2 2 Baldy Mitchell (H. Campodonico) 3 3 Belle (J. Danz) 4 4 Richard Derby (W. Scotte) 5 5 California Belle (J. O. Hardy) 7 6 Bill H. (E. Dodd) 6 7 Time—2:22, 2:20.

Second race, free-for-all trot, mile heats, best two in three: Raymond M. (F. L. Matthes) 2 1 Sunset Belle (H. C. Ahlers) 1 2 Harold K. (J. B. Galindo) 5 2 Walter Wilkes (P. Ruhstaller) 4 3 Charles F. (Charles Silva) 3 4 Time—2:20, 2:18, 2:19.

Third race, free-for-all pace, mile heats, best two in three: George Woodward (S. H. Cowell) 1 1 Delilah (J. S. Heahan) 2 2 W. J. K. (W. J. Kenney) 3 3 Time—2:15, 2:14.

Happy Dentist dropped out in first heat at start; lamed.

Fourth race, 2:20 pace, mile heats, best two in three: Sweet Princess (H. C. Ahlers) 1 1 Victor Pointer (Frank Verilhac) 2 2 Little Medium (Frank Pereira) 3 3 Alfred D. (P. Kohn) 4 4 Tom Murphy (E. T. Agres) 5 5 Mission Kid (J. Rawling) 6 6 Patery (A. Benson) 5 7 Time—2:16 1/4, 2:15.

Scratched—Sidney B.

Fifth race, 2:18 pace, mile heats, best two in three: Nomona (Charles Silva) 5 1 Little Dick (A. Hoffman) 1 2 Senator H. (W. Malough) 3 2 Pilot (Frank Pereira) 2 4 Harold B. (W. H. Gaffett) 4 5 Time—2:16 1/4, 2:14, 2:15 1/2.

Sixth race, 2:25 trot, mile heats, best two in three: Harold C. (H. Cohn) 1 1 Direct Rome (W. Higginbottom) 2 3 Kinney H. (C. Hashagan) 5 2 Darby Mc (J. W. McTigue) 3 4 Duke of Monterey (G. A. Nissen) 4 5 Steve D. (G. Tassi) 6 6 Time—2:20, 2:19.

Scratched—Effe Madison, Kinney Lou Jr. and Mission Belle.

ORIGIN OF "GREAT SIRE."

No stallion yet foaled of any breed has ever produced any considerable number of what would be classed as "great sires." In fact each generation shows in all not as many sires universally conceded such designation as can be reckoned on the fingers of one hand. As men count now the greatest of sire propagators (because a "founder" in the infancy of a breed, and procuring over 1300 foals from the choicest living mares,) Hambletonian 10, has to his credit not a half dozen to be distinguished as eminently great or successful speed producers, writes J. W. Thompson in the Spirit of the West. The list of George Wilkes and Electioneer is likewise reduced to a narrow margin when the critic's measure has been applied, with all the hooming and boosting given about every male promising anything sired by either. This is why it seems so supremely absurd for any one to take the half dozen or less noted sires of a single era, such as McKinney 2:11 1/4, Bingen 2:06 1/4, Axworthy 2:15 1/4, Todd 2:13 1/4, Moko, etc., and make them the basis for concluding that the progenitors from which they descended are the only great breeding-on propagators in the male line of their kind. Ten or twenty years later are just as likely to have as many famous speed producers tracing to some disparaged families, tribes or clans, as to Electioneer through a prominent son or two of the present, or to George Wilkes from his now ascendant branches. The Strathmores, the Almonts, Belmonts, McGregors, Woodford Mambros, Mamhrino Patchens, Aherdeens, Sentinels, Dictators, Edward Everetts, Harolds, or even some descendant from the great fountain head, may come out and eclipse the greatest yet produced. Before the trick was done neither William L. nor Jay Bird would have been picked to produce champion sires, or champion anything else, nor would Moko have been the favored son of Baron Wilkes, nor May King been looked to for leader in the house of Electioneer in the sire generating line, and Sidney Dillon appeared no rare pippin on his tree, McKinney on his, previous to being tested out. And what has been will continue to be, and great male lines and female lines are residing in some obscure colt on which the gaze of the world waits to be turned by unheralded and unthought of potency. It is so in all lines. The Lincolns, Grants, Garfields, McKinleys, and the geniuses in invention, oratory, poetry, music, art, statesmanship and the like, come from no single or few families, clans or lineage. Men may be exclusive in choosing the "to be honored and preferred." Nature is not, and despises aristocracies of all sorts, and dooms and downs them all, in due order of time. It is for no man to determine or say what shoot or branch of the great equine tree into which the standard bred horse is developing and unfolding will reach the highest, or spread the widest, or grow the richest and fairest fruit, until its consummation is reached and all it ever produces has been gathered in.

TWO GOOD FOALS.

George Bowerman is much pleased with the arrival of two foals at his farm on the Georgetown Pike, near Lexington. They are a bay colt by Moko, dam Silurian (3) 2:25 3/4, by Wilton, and Tookah T. by Ashland Wilkes 2:17 1/4, that foaled a chestnut filly by Peter the Great (4) 2:07 1/4. Both mares are good producers, Tookah T. being the dam of Hulda Strong 2:20 1/4, and Willis Strong 2:29 1/4, while Silurian ranks high among the crack mares of the day. She is an own sister to the world's champion two-year-old trotter Silicon (2) 2:15 1/4, that later reduced her record to 2:13 1/2 and that since retirement has become famous as a producer by showing the Futurity winner, Silkko (3) 2:11 1/4, record in Europe at five of 2:08 3-10, sister Frances (3) 2:14 1/4, etc.

Silurian is herself the dam of Mauricio, a non-record three-year-old at Los Angeles, of which marvelous tales have come across the Rocky mountains concerning his performances last season, while he showed over the local track when a yearling that he was a speed marvel. The colt is a full brother to the newly arrived foal, also to Miss Queenly (2) 2:26 1/4, and to a non-record horse that has shown quite a bit of speed. But the best on public form that she has shown is the black pacer, Don Pronto that last year as a four-year-old proved himself to be the best pacer on the Coast, winning a big majority of his races and taking a record of 2:05 1/4. Mr. Bowerman, who has known all of the Silurian foals, having bred the mare herself, says that this last one is the nicest foal she has yet thrown.

Drink Jackson's Napa Soda.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

The Grand American Handicap.—The Interstate thirteenth Grand American Handicap target tournament will be held at Springfield, Ill., under the auspices of the Illinois Gun Club of that city, from June 18 to 21, both dates inclusive, with \$1500 added money, the winner of the main event, which will be shot on June 20, to receive \$1000 in cash and a suitable trophy, presented by the Interstate Association. The program, in speaking of this premier event, the most important for many reasons of all the trap shooting tournaments of the year, says:

"The Grand American Handicap at targets, inaugurated in 1900, has grown year by year in magnitude. It is the greatest battle of the year between America's trap shooters, and it can be safely asserted that this year, even though marking the fatal thirteenth renewal, there will be no diminishing in magnitude; no lessening in competition; no dwindling in popularity.

"June, the month of roses, has generally been honored with this trap shooting classic. This year there will be no departure from old lines in respect to dates. The days chosen belong to the third week of that glorious month, a period when every trap shooting devotee is in his finest fettle. This assures the highest standard of excellence in the combat for fame and fortune. There will be an innovation, however, characterizing the competition. Heretofore the main event, the Grand American Handicap, has been 'open to all,' but this year that particular event is confined to amateurs only. In fact, the entire tournament has been arranged for amateurs, with the exception of two events, which are open to professionals only.

"A change has also been made in the order of scheduling the events. It has been the custom in the past to conduct the National Amateur and the National Professional championships on the final day of the tournament. The order will be reversed this year, these highly important events being scheduled for the first day, a change bound to appeal to all prospective entrants."

Monday, June 17, will be practice day, a very necessary feature for those who are going to shoot on the grounds for the first time, as it will give all who may wish an opportunity to get a line on the grounds and the different traps before the tournament proper starts. On this day there will be ten 20 target events, five in the forenoon and five in the afternoon, with an optional sweepstake in each event, purses to be divided on the Rose system into four moneys, ratio 8, 5, 3, 2.

The first event on the first day, June 18, will be the National Amateur Championship, open to amateurs only, 200 single targets per man, 18 yards rise, \$20 entrance, \$200 added to the purse, the winner of the event, in addition to first money, to receive a trophy from the Interstate Association.

The second event on the first day will be the National Professional Championship, 200 targets each man, 18 yards rise, \$20 entrance, open to professionals only, the winner of the event to receive a suitable trophy from the Interstate Association. The purse in this event and Event No. 1 will be divided high guns, not class shooting.

On the second day of the tournament proper, June 19, the program will consist of the Preliminary Handicap, open to amateurs only, 100 single targets each man entrance \$7, targets included, \$100 added to the purse, handicaps from 16 to 23 yards, high guns to win. The number of moneys in this event will be governed by the number of entries. The man winning this event will be presented with a beautiful trophy in addition to first money.

June 20 will be given over entirely to the Grand American Handicap, open to amateurs only, 100 single targets, \$10 entrance, \$500 added to the purse, handicaps the same as in the Preliminary Handicap, high guns—not class shooting. The number of moneys in this event will be determined by the number of entries. The winner of this event is guaranteed \$1000 in cash and a beautiful trophy from the Interstate Association. Professionals will be permitted to shoot in the two handicap events, but only for targets.

On the last day, June 21, the program will consist of the Consolation Handicap, 100 targets per man, \$7 entrance, \$100 added to the purse, the Amateur Championship at double targets, 50 pairs each man, \$1 entrance, \$10 added to the purse, and the Professional Championship, 50 pairs of targets each man, \$10 entrance, open to professionals only.

In addition to first money, the winners of the Consolation Handicap, the Amateur Championship at double targets, and the Professional Championship at double targets will each receive—in addition to first moneys—a handsome trophy from the Interstate Association.

Regular entries to the Grand American Handicap must be made on or before Saturday, June 8, and must be accompanied by a forfeit of \$5. Penalty entries may be made up to June 18, by paying \$15 entrance, targets included.

The Illinois Gun Club will provide a room containing lockers for guns, shells, clothing, etc., and a separate locker will be assigned to each contestant desiring one.

Lockers will be rented to those who desire them at one dollar for the week's shooting. Each applicant will be required to deposit two dollars, of which amount one dollar will be refunded on return of the key when through with the locker. Lockers can be reserved in advance by addressing Dr. J. R. Leib, Secretary, Illinois Gun Club, Suite 302, Myers Building, Springfield, Ill.

The locker room will be in charge of a competent watchman, but as contestants will have free access to this room at all times they must be responsible for their own belongings. Neither the Interstate Association nor the Illinois Gun Club will be responsible for the contents of lockers under any circumstances.

Further information, if needed, and programs, may be had by addressing Elmer E. Shaner, secretary-treasurer of the Interstate Association, 219 Coltart Avenue, Pittsburgh, Pa.

Exposition City Gun Club.—The challenge trophy match is a popular feature on the program of the club's bluerock shoots. At the monthly shoot on the trap grounds, May 26, E. Hoelle won the trophy in the first class competition in event 5, with a score of 16 out of 20 birds. In a second challenge match he won again. The scores were: Hoelle 18, W. H. Price 15, A. J. Cook 14.

T. D. Riley, with 16 breaks, was high gun in the second class. Four challenges resulted, and J. H. Jones won with 16, against George Thomas 15, Riley 13, E. Klevesahl 13, M. J. Iverson 12.

D. M. Hanlon, pot present, forfeited the third class honors. Theodore Handmann won with a final string of 17 on the second contest. The scores were: Handmann, J. W. Dorsey and A. C. Stubbs tied with 16 each; C. Westerfeld 14, W. D. Mansfield 10, Dr. C. Clark 15. Final: Handmann 17, Dorsey 16, Stubbe 15.

Harry Dutton 14, W. H. Smith 13, C. N. Dray 12, was the result in the fourth class race, Dutton having the top score.

Captain Hoelle's team of ten shooters won by a margin of two birds in the second event, the grub shoot, over Captain Price's squad. The first event, in the table, is the club match, 20 targets. Third match, distance handicap, trophy shoot; fourth event extra, 20 bird practice shoot. The scores were:

| Events | 1 | 2 | 3 | 4 | 5 |
|-----------------|----|----|---------|----|----|
| T. D. Riley | 20 | 20 | Yds. 20 | 20 | 20 |
| E. Hoelle | 12 | 13 | 13 | 16 | 16 |
| W. H. Price | 17 | 14 | 20 | 16 | 18 |
| W. H. Price | 16 | 13 | 20 | 13 | 16 |
| Tony Prior | 18 | 15 | 20 | 17 | 15 |
| George Thomas | 11 | 10 | 18 | 14 | 16 |
| Miss Meyers | 9 | 12 | 16 | 14 | 11 |
| E. Klevesahl | 13 | 9 | 18 | 13 | 13 |
| C. Lancaster | 15 | 12 | 20 | 17 | 11 |
| A. J. Cook | 15 | 12 | 20 | 13 | 16 |
| H. Stelling | 17 | 13 | 18 | 14 | 12 |
| H. Dutton | 11 | 8 | 16 | 14 | 12 |
| C. Westerfeld | 17 | 12 | 16 | 14 | 9 |
| Dr. Hopkins | 7 | 8 | 18 | 12 | 9 |
| W. B. Sanborn | 14 | 11 | 16 | 11 | 15 |
| Dr. C. Clark | 12 | 11 | 16 | 9 | 17 |
| E. H. Forester | 11 | 11 | 16 | 17 | 10 |
| W. H. Smith | 6 | 5 | 14 | 9 | 12 |
| J. W. Dorsey | 13 | 10 | 16 | 13 | 12 |
| McGill | 11 | 5 | 16 | 11 | 8 |
| Golcher | 9 | 5 | 16 | 12 | 8 |
| J. H. Jones | 17 | 11 | 13 | 19 | 12 |
| M. J. Iverson | 16 | 11 | 13 | 16 | 12 |
| Theo. Handmann | 12 | 12 | 16 | 13 | 17 |
| W. D. Mansfield | 11 | 7 | 16 | 10 | 13 |
| A. C. Stubbe | 16 | 16 | 15 | 15 | 1 |

Vacaville Blue Rock Club.—The feature event of the club shoot May 18, was the Peters trophy race at 25 targets. Dr. Weldon's string of 23 was top score. The results were:

V. Radcliffe 18, Dr. Weldon 23, W. Z. McBride 21, W. B. Parker 16, A. Erickson 17, Dr. Wirt 16, Dr. Marshall 16, Thos. McLaughlin 16, W. C. Mitchell 8, F. H. Ream 17, R. C. Gray 16, H. A. Bassford 18, S. B. Watts 10, F. Ream 17, Geo. Hinman 8. Back scores—Dr. Marshall 18, W. C. Frahm 11, R. Schaer 10, W. B. Parker 18.

Salt Lake Gun Club.—The members of the Salt Lake Gun Club held the last shoot May 26 before the tournament which began Monday, May 27. This was also the concluding shoot for the trophy which was won by H. S. Mills, who broke 561 targets out of 600. L. E. Riter was second with 555 out of 600, and Charles Reiley third with 550 out of 600. L. A. Cummings was high gun for the day, breaking 98 out of 100, followed by E. J. Morgan who broke 98.

The tournament which started Monday run through until Thursday. A number of prominent marksmen were present, including Harvey Dickson, winner of the last American handicap and C. A. Haight of San Francisco. Complete score for Sunday's practice shoot follows:

L. A. Cummings 98, E. J. Morgan 96, Bert Acker 90, L. E. Riter 66, R. Kingsley 66, H. S. Mills 65,

C. H. Reiley Jr. 63, P. L. Williams 46, Dr. J. F. Sharp 43, J. N. Sharp 42, C. Coolidge 45, J. Shepard 44, John Cowan 45, W. Young 42, E. J. Miller 42, D. Burgess 60, Wm. Hewett 60, Wm. Fowler 40, H. Heagren 40, A. W. Cowan 38, Geo. Ruthop 38, Kempie 40, A. F. Smith 38, W. F. Gallagher 47, Bert Bain 38, Moeller 34, L. G. Dinwoodey 37, Dr. West 21, J. A. McCaskell 41, L. G. Street 32, Geo. Ames 39, W. F. Bronson 20, Dr. Ervine 21, Bert Brown 17.

Fresno Gun Club.—A two day shoot is beginning today. Eleven events are on both day's cards. Cash and merchandise prizes to the amount of \$500 are hung up. The attendance promises to be a large one.

GOSSIP FOR SPORTSMEN.

Fish Lines.—Snow and rain in the Feather River canyon at Beldon and other points put the ban temporarily on fly-fishing conditions recently. Unfavorable weather in the Truckee river section of the Sierra recently also placed that famous trout fishing resort on the temporary waiting list.

Good repute for excellent fly fishing recently is credited the McCloud river, where Alex. Hamilton and F. W. Van Sicklen whipped the river a few days for rainbow trout.

The Marin county resorts seem to turn out a fairly regular supply of trout. Lake Lagunitas has been visited daily by various anglers with permits, most of whom make satisfactory catches of trout.

Laguinitas creek, left unwhipped by the main bunch of rodders for a fortnight or two, was fished with limit result by Milton Frankenburg. Mr. and Mrs. A. Lamotte also returned with good baskets.

Along the main Paper Mill creek were George Uri, Bert Dewar, Will Eaton, G. W. Johnson, Frank Brown and others, who enjoyed a pleasing combination of sport and fairly well-filled creels.

Ned Bosqui and J. D. McKee fished Salmon creek lagoon a week ago. Besides small steelhead, five large ones, from four to ten pounds in weight, were caught. The improved governor and Kamloops flies were the killing lures.

Pescadero creek was well supplied with small trout. Above Buteno falls one good catch of eight inch trout was made. In the Gazos lagoon a five pound grilse succumbed to the skill of Dr. L. C. Abbott's rod.

Tunitas Glen, Lobitas and Purissima creeks were visited by over 100 anglers last Sunday. General results were fair.

A three limit trip to the San Gregorio was the pleasing luck a week ago of Floyd Spence and others.

The San Lorenzo, in Santa Cruz county, has been good so far since the season opened. W. W. Richards in two hours' fishing near Brookdale landed forty-seven nice sized fish. Floyd Judah and family cast flies in the river near the Big Trees and were on the limit end of the game. E. H. Humphrey, W. Colby and Townley Ball caught limits last Sunday, after an unsuccessful Saturday fly-casting in Aptos creek.

Sierra point, on the San Mateo bayside, a bit south of Tanforan, was prospected for striped bass by Will Turner, Jack Duckell, Charles Grey and Charles Lehretter, members of the Drybone Bass Club. The striped fish, if any were in that part of the bay, did not make their presence known. Stingrays, however, were plentiful.

Striped bass anglers who have recently fished near San Pablo have not had much luck. Muddy water has prevailed in the east San Pablo bay for several days past. The same conditions were experienced at Vallejo Junction.

Hilmer Pape and Roy Peterson landed several four and five pound bass near Greenbrae during a mid-week fishing trip. Other anglers have not been getting many bass.

Superintendent W. H. Shebley and Deputy A. E. Doney, at the instance of the State Fish and Game Commission, will make a tour of the State for the purpose of having maintained proper fish ladders and screens wherever necessary and in accordance with the State laws.

The salmon run in Monterey bay off Santa Cruz, which was apparent last Tuesday and Wednesday, a week ago, was a flash in the pan and not of more than forty-eight hours' duration. One boat on Wednesday returned with forty salmon.

The Santa Cruz and Capitola fishermen are, it is given out, to have plentiful supplies of sardine baits for anglers in the future. The Capitola fishing boats were all put in the water a week ago.

Fresno sportsmen have been making good catches of salmon and striped bass in the San Joaquin river near Mendota. Thirty-five salmon and a number of striped bass and shad was the recent take for a party from the Raisin City. The present run of big salmon and other fish in the river is the heaviest noted in years.

A Medal Offered.—The American Game Protection and Propagation Association, a powerful national organization, has offered a gold medal to the county in proportion to population which secures the largest membership in the California Fish and Game Association.

Shad Angling.—Shad fishing with hooks and lines or rod and line tackle promises to be a popular sport along that stretch of the San Joaquin river which flows through Fresno county.

Though this statement may seem rather absurd to sportsmen in other sections of the State who have for years been of the opinion that shad were not to be caught excepting by the use of nets, it is nevertheless true that Fresno sportsmen have solved the problem of the use of hooks on shad and that the fish may now be caught with orthodox tackle.

The solution of the problem came about after two or three years of experiments, during which time all sorts of hooks and contrivances were used with more or less success.

These experiments finally led to the discovery that shad will invariably bite at a red spinning spoon, which, it must be explained for the benefit of those not versed in the sport, consists of a metal disc with hook attachments. For a shad lure its color must be a bright red.

The discovery of the efficiency of this contrivance will be the means of furnishing a new phase of angling sport. Heretofore the general supposition has been that the shad is a very docile and stupid fish. This belief was due to the fact that when caught in a net the shad seemed to consider its fate as inevitable and after being taken from the meshes was placed in its basket with hardly a struggle that would indicate fight.

But when caught on the end of a line the shad has proven that there is no gamier fish. In this respect those who have caught the fish with a hook and line state that it rivals the speckled trout, and that owing to its tender mouth great care and more skill is required to land it than even in the case of the trout.

In those counties where fishing with nets is not entirely prohibited, the custom has been to catch shad with small circular nets on the end of a pole, while the fishermen stood on the banks of the stream. In this manner the shad when "running" were caught by the dozen.

The discovery of the new manner of catching the toothsome fish should result in the use of nets being prohibited throughout the State.

Instances are not unknown where shad have been caught with light tackle, a white winged fly with a red tail being the killing fly. Several seasons ago a few Stockton anglers made numerous catches of shad with the above fly.

Salmon Infected.—Professor Pernot, bacteriologist of the Oregon Board of Health, is credited with the discovery of a germ in the flesh of salmon that is fatal to dogs who are fed on this fish.

Professor Pernot has discovered that salmon fresh from the sea did not poison dogs that ate the flesh. This led to the further discovery that dogs were poisoned after eating salmon only when the salmon has been in the fresh water of the river for some time. By a close examination of the blood-like material along the back of the fish under a low power microscope, Professor Pernot discovered white spots which he quickly discovered to be amoeba. In other words, organisms that attach themselves to the fish but do not poison the fish. Professor Pernot found that salmon-trout poisoned dogs in the same way that salmon from the sea did. Doses of calomel in quantities of two grains, given early after sickness, saved the lives of all dogs to whom it was administered by Professor Pernot. It is believed that the discovery of the cause and the cure of salmon poisoning will prove of high value to many owners of dogs on the Coast. It is the first time anyone properly equipped and of sufficient intelligence has gone to the trouble of finding out why the eating of salmon was so fatal to dogs and to prescribe a remedy. The common remedy has been castor oil. Some would give salt, some shot, and the Indians would cut the end of the tail off. Many other remedies, too numerous to remember and mention, have been suggested. After a dog has recovered from a case of salmon poisoning he is said to be for ever afterward immune, and can eat it with impunity. Bears, cats, hogs, and every other animal eat salmon in every stage of condition, and it seems to agree with them. The Indians have been seen eating it raw when in its most putrid state of decay. In fact, they prefer those salmon of putrefactive condition to any other salmon.

The World's Largest Fish Hatchery.—The largest and most elaborate fish hatchery in the world is now in process of construction at Pratt, Kan., says L. William Thavis in the June Popular Mechanics Magazine. This project was authorized and provided for by the Kansas Legislature last year. It will cost \$150,000. None of the fish hatcheries ever built by the government has exceeded the cost of \$25,000.

The Kansas hatchery will be one mile in length and a quarter of a mile in width. It will contain 100 deep ponds, averaging an acre in size and six feet deep. When compared to other hatcheries already in existence this project seems a stupendous undertaking since most of the largest hatcheries of the country cover only a dozen or more acres of water.

The building of this great Kansas fish hatchery includes the construction of a concrete dam, 500 feet long, across the Ninescah river, which will furnish a supply lake of ten acres. Water from this lake will be carried to the hatchery, nearly three miles distant, through 21-inch pipes, which connect separately with each individual pond. The system also includes 190 sluice gates, ninety-four concrete structures, 500 galvanized wire-mesh screens and various other structures and appurtenances for handling and controlling the water supply.

WHAT'S IN A NAME.

[By Wennitz Dunne.]

I wandered far adown the road
By sign-post guides advised.
Toward "Shady Rest, a Calm Abode,"
Or so 'twas advertised.
I found a shanty glary white
And baking 'neath the sky,
And rapidly I took my flight
With somewhat thoughtful sigh.

At "Comfort Home" I turned away—
The house was hot and small,
I saw ten habies, I should say,
And how they all did squall!
At "Wayside Inn, Where Tourists Rest,"
I paused a little space
'Twas off the road three miles at best—
A man-forsaken place.

I wandered next to "Angler's Nook,"
My faith existing still;
There was no water, not a brook—
The "Nook" was on a hill,
At "Country Farm" I looked around—
There was no garden here,
But heaps and heaps of cans I found,—
All relics of the year.

At "Maple Grove" two trees towered high,
The "Forest House" had less.
"The Woodland's" was surrounded by
A sand-bank wilderness,
And so at eve I wandered back
To old, familiar scenes;
The place—it has no name, alack!
They call it just "Joe Green's."

STATE GAME FARM NOTES.

These are the days when a visit to the State Game Farm at Hayward affords one some unusual and very interesting sights. The hatchery with a capacity of over 2500 eggs is almost weekly turning out hundreds of pheasants as well as many turkeys, quails, and Hungarian partridges. As a result, Superintendent Dirks and his assistants are busy men.

On May 10, 414 pheasant chicks were hatched. Of this number 367 were of the ring-necked variety, the rest being Golden, Silver, Lady Amherst, Reeve's and Piebald pheasants. These little fellows, now in the brooder house, make a very interesting sight. Although looking and acting a good deal like little chicks, yet many of their habits mark them as quite different. The next hatch will number very near a thousand.

A number of little turkeys are to be seen following their foster mothers about. Still more interesting is the sight of five turkeys setting on their respective nests in the grass. Turkeys are being raised both by natural and by artificial means.

The pheasants are laying well, over 1850 eggs having been laid during April. During this same month the few turkeys on the farm laid 168 eggs.

The old adage that "Birds of a feather flock together" seems to be upheld in the case of the Game Farm, for some 8 or 10 pairs of juncos are nesting in the vines on the house and other buildings, countless English sparrows are raising their broods in the vines on the pens, and the eaves of the barn are plastered up with cliff swallows' nests.

Another interesting sight is that of a mallard duck and her nest. Secreted among some tall weeds, she escaped observation for sometime, but the nest having been found she can now be approached within a few feet and the nest and deight eggs inspected.

A new-comer on the farm is a roadrunner. This bird, although in captivity, retains its reputation as a monser and proceeds to swallow whole all such contributions. Its heralded propensities for eating eggs have not been upheld by this particular individual, for it has persistently refused this article of diet.

These are only a few of the novel sights to be seen on the State Game Farm at Hayward where, following the example of other States, this State is attempting the propagation of wild game.

ECHOS FROM THE NORTHWEST.

[by August Wolf]

Allan Scott, commissioner of Spokane county, Wash., hagged a silver-tipped grizzly bear in the Yacht river country of northern Idaho, a few days ago. He was accompanied by Judge Frederick Witt, who brought down a cougar, and Charles Goodsell, whose skill with rod and fly yielded baskets of large trout. Commissioner Scott reports there is every indication that big game is increasing in the northern Idaho forests.

Sheshone Rod and Gun Club at Wallace, Idaho, headed by S. P. Fairweather, has requested the federal government to supply 50,000 muskellonge fry for planting in the Coeur d'Alene lakes. The petitions to the State and the government hatcheries this year request 600,000 fry. This includes 500,000 trout fry and 50,000 walleyed pike, in addition to the muskellonge.

C. D. McGregor, a veteran bear hunter of the St. Maries valley, Idaho, has sent to North Carolina for a pack of dogs, which he will use this season. He reports that bears are plentiful in the Coeur d'Alene mountains, east of Spokane.

AMERICAN FISHES IN STRANGE WATERS.

When Secretary of State Root visited South America on that now historic tour, he was entertained at a banquet in Buenos Ayres, and on the hill of fare as one of the chief dainties were rainbow trout. Those descendants of ancestors living in Rocky Mountain streams served as a text on the bond of friendship existing, and which was, it should be hoped, to endure, between the great Republic of the Northern Continent and one of the great ones of the Southern.

The story of those rainbow trout and of others of the same kind may serve to illustrate the worldwide activities and generous usefulness of the United States Fish Commission. When the request from the Republic of Argentina came to Washington for some of the famous fishes of the North American Continent, with the hope that they could be domiciled and acclimated there, great doubt was felt whether the eggs could be transported such a distance. It seemed almost hopeless to make the effort. Still, an attempt was decided on and a quantity of eggs of the rainbow trout were secured from the streams flowing from the Rocky Mountains and from California, and were started off on their long journey by train to New York. Thence they were shipped across the Atlantic to London, and then they were reshipped to the Argentine Republic by steamer. Arrived there they had to be transported a long distance overland, including 300 miles across a desert by pack train in midsummer. Finally they were received at their destination and after being put in the hatchery were finally hatched in a season opposite to that prevailing in the land they had come from. It was considered remarkable that after all the vicissitudes they had passed through only two and three per cent of the eggs failed to hatch. This was three or four years before the visit of Secretary Root to Buenos Ayres, and the fish served to him were from that shipment of eggs.

The Federal Fish Commission has not only transported fish from one State to another and transferred species from the Atlantic to the Pacific and vice versa, but it has contributed from the unrivalled piscatorial bounties of the United States to all other countries. The rainbow trout from the Pacific Slope, king among the trout tribe, can now be found in the imperial preserves of the Emperor of Japan; in the National Fish Cultural Establishment of France; in Austria, Germany, Italy, Belgium—in short, in almost every civilized country in the world.

For years the enterprising government of New Zealand has been planting American fishes in its waters. Among those most desired were the white fish from the Great Lakes, trout, Chinook and red salmon. Various shipments of fish have been made by the United States Government to New Zealand, and sometimes the shipments have been accompanied on the their long journey by representatives of the New Zealand government, at others by employes of the Fish Commission. One year 3,500,000 eggs were shipped across the Pacific to the colonial Utopia, and in other years almost twice that many have been shipped from our hatcheries. So successful have been these efforts to establish American fishes in the Antipodes that the rainbow trout of California is perfectly at home under the Southern Cross, and the New Zealanders claim that they have the finest rainbow trout fishing in the world. In fact, they are declared to be so plentiful that they are taken by the ton.

Our fish-culture experts felt very dubious about the request for eggs of the salmon. They doubted whether the king of the food fishes could be bred and made to multiply in the waters of the Antipodes. Besides, many authorities among the fishermen and some scientists, too, held stoutly to the theory that the salmon, in choosing a stream in which to spawn, ascended the identical stream to which their ancestors had been wont to return year after year, and it was solemnly asserted that no salmon would ever be deceived into ascending a river other than the one in which its material parent had deposited the egg from which it had been hatched. However, the request of the New Zealand authorities was complied with, and it was resolved to watch and see whether the salmon would develop enough patriotism to return to his native shores, or refuse utterly to propagate in foreign waters. Eggs of the Chinook and the sock-eye both were sent over, beginning 1902. They were hatched and planted in 1903, and this year word was received in Washington that the salmon had returned to the rivers to spawn. Remarkable discrimination is shown by the sock-eye in choosing waters to spawn in. The sock-eye will spawn only in inlets to lakes, and consequently it will only ascend rivers having lakes at their headwaters. At present salmon culture in New Zealand seems to be a success, but it is still impossible to say whether the fish will become sufficiently abundant in the southern waters to permit of canning them as an industry.

Reports from Kalispell, Mont., are that the homesteaders in the mountain district have petitioned the United States forestry department to detail a crew of rangers to fell fir and pine trees upon which grow a succulent moss that, when obtainable, is a substantial portion of the winter diet of the deer. In some regions homesteaders have been feeding the starving deer from haystacks, and the young orchards along the valley borders have been menaced at times by the hungry animals.

Drink Jackson's Napa Soda.

TROUT TICKLING.

The indignant orthodox fisherman deny that trout tickling is a sport at all. In a manner he may be right; and yet in a manner he is most certainly wrong. Trout tickling is no sport in the orthodox, and, next to dry fly fishing in the clear, chalk streams of Hampshire, that there is for me no moment more enthralling, no excitement comparable to the moment when, with the lightest touch, the fingers glide slowly, almost caressingly, along the back of some fine trout tracked with infinite care and patience to his ultimate inaccessible lair, where no worm, no fly, no line of any sort could ever find him.

Perhaps it is just this very inaccessibility that affords alike the excuse and the excitement, for it is only where the trout are quite inaccessible, when the underwood surrounds their pools so closely that neither fly nor worm could ever penetrate, that the trout may be tickled with an easy conscience; and here let it be said that were I offered the alternative of worm fishing or tickling in a blind pool, I would give my choice for tickling.

There is infinitely more sport, more science in tickling than in any worm fishing, and to the worm fisher I would say: "If you are keen enough to bear a little discomfort, away with your rod and into the water." Cold, tedious, unsportsmanlike! Not a bit of it. Cold it may be, and very seldom will you return with a dry stitch of clothing; but it is far less tedious than deerstalking, when the science of the game is played by a man at your elbow, and infinitely more sportsmanlike than worm fishing; the excitement is greater, and the chances—the chances are what you make them. I have tickled trout in many streams, but I am still inclined to give the odds on the fish.

The slightest clumsiness, the slightest mistake, or the slightest discoloration of the water, and the game is up, the trout is gone; waste no more time over him, but go on. Further away among the jungle-like undergrowth another pool awaits you, where with infinite patience, infinite care, infinite quiet, you may retrieve your mistake.

The oldest of clothes and an old pair of rubber waders or sand shoes are the best protection. Turn your sleeves up to the uttermost. Do not mind a few scratches or thorns; you will get plenty of them, but if you are courageous, if you are really keen, no scratches, no bitter cold of the sunless water will deter you. You will have no time to think of cold or scratches; all your senses are required at their very keenest for other things.

Now the sunlight lies behind you, among the overhanging boughs scarcely a single ray penetrates, and over the water hangs a sense of secrecy and infinite calm, accentuated by the monotonous ripple of some tiny cascade mysteriously near and yet mysteriously far away. The overhanging tree with deep roots enables you to locate the pool, and you approach with infinite care. The slightest slip will prove fatal, for though you are advancing up water the noise of your stumble will give warning to the trout, and he will seek refuge before you can see him.

And to see him. That is your ambition. The brambles obscure your way and hold you back. Turn them aside slowly, gently; if they are dead, break them quietly; avoid them when you can; above all, let nothing drop into the water, for the least splash will prove your undoing.

The moments pass slowly enough while you achieve your aim, now bending, now erect, waiting ever alert, ever watching the pool in front for the slightest ripple, the smallest movement that will betray to you the secret of the silent pool. All your movements are catlike, all your attention is fixed; unconsciously, you imitate the animals. When you rise you are motionless, silent as the heron; when you scan the water you are swift and alert as the otter.

At last a faint ripple at the head of the pool gives you the clue. The fish has turned from the shallows and is swimming lazily back into the deep water. Has he seen or heard anything? You hold your breath for a moment—rigid, unstirring, one with the trees and the rocks.

You can see him now quite clearly—a long, grey line; a shadow, visible at one moment, curiously invisible the next; a long, grey line just perceptible in the water, with tail that moves and undulates gently with the motion of a piece of weed swayed by the current. Has he seen you? No. He lies still in the open. Had he seen you, or even suspected you, he would have gone at once straight to his cave. You draw a quiet breath and prepare for the final moment, the uttermost sensation that the world of sport can give, the personal capture of a living prey.

Every motion now must be one of infinite delicacy. You must make progress in the water inch by inch. You have, indeed, the knowledge that if he suspects you, becomes frightened, he will make for his cave; but then the game will be against you; the disturbance of the water, the fact that the fish is frightened, all diminish your chances of success, and for one fish that you can get in the open water you will lose three under the bank.

Time passes in the approach, but you heed it not. It may have been five minutes, or twenty, before you find yourself within gripping distance, and it is then, alas! most often that the fish turns and makes, as if instigated by an unknown fear, for his home in the deep water among the inaccessible.

But fortune is still with you. Very, very slowly you lean forward till your hand touches the water about half a foot behind the motionless fish. Thence very

quietly you move forward till you can just touch the slippery, eel-like back, and at the touch how many have failed! There is nothing quite like it in the world of sport, this touch of a living fish, so yielding, so soft, so electric. Every nerve is now restrained; you no longer breathe. The water is icy cold, but you do not feel it. You feel only the faint outline of the supple and sinuous form on which your eyes are fixed.

And so your fingers travel onward surely, caressingly, obeying some ancient law which you seem to have known all your life, and suddenly to have discovered, till the moment arrives when the thumb and first finger close in a deadly, deathlike grip, and the fish, for all his struggles, is yours.

A NOTABLE SINGER.

Here is song indeed, for it flows in sweetest numbers from a mocking-bird. Not one in a cage, but a free songster out among the flowers and trees of its native land.

In Southern California the bird begins to sing in earnest, i.e., more frequently, about the first of February. From then to August one may enjoy his lovely solos and imagine the delights of a musical paradise. Such beautiful arias, such abandon to song life; such appropriation and enjoyment of bush, fence, pole, high-strung wires, chimneys or lofty tree-tops! Anything will do on which he can perch and sing, not for five or ten minutes, but for a half-hour at a time. His wonderful throat seems tireless, his musical ability always at its best.

To hear a neighborhood mocking-bird from day to day is to learn to love it and appreciate it as a talented friend, who never tires of charming one away from petty cares and worries.

Just before the first dawn, a liquid note is heard, followed by a whistle or a long thrill; next a chirp, a few sharp notes and then a perfect rapture of full-throated song, changing wonderfully every second or two. The dear bird seems so delighted to be alive that it cannot suppress its glad tunefulness, and often for thirty minutes, without stopping for more than a few seconds at a time, it will pour out such rich and different notes that a bird lover wonders how the tiny throat can possibly produce the exquisite harmony. The mocker seems to be overflowing with happiness all the time. It will sing at the top of its voice while flying from one high point to another, and often may be heard on one side of a house one instant and on the opposite the next.

Several years ago in Whittier, as fine a singer as I ever heard made its headquarters in the chimney of a vacant house, and for five months its music could be heard day and night, for it often sang an hour or two between midnight, and dawn. Last summer a mocker in San Diego sang at intervals all night. I was resting one night during the month of July, so quietly took a sheet and comfort and went to a cosy summerhouse about 11 o'clock p. m. The bird was in full song. I dozed off and on until daylight, but most of the time was wideawake, enjoying the novelty of sweet fragrances, the occasional rustling of leaves, the starry procession overhead, and the sense of all outdoors in the sacred stillness of the night. Stillness? That blessed mocking-bird stirred the air. He would seem to call and laugh and whine and whistle, after which a little silence would ensue; then, as if from a nap, he would utter only a few notes, very slowly and sleepily; but presently he fully awoke again and then it was laughable to hear how he tried to make up for lost time. I never enjoyed anything more in my life, and for days afterward I was still telling of my wonderful feathery night singer. When I left the summerhouse at daylight he was singing loudly, all sleep banished for at least twelve hours to come.

These birds have a strange habit of flying a yard or so above their perch every few minutes while they are singing. They never swerve to right or left, but fly straight up from wherever they happen to be and appear almost to turn a somersault in coming down, as if in play.

It is a mistake to think that these birds really mock others. All their notes are absolutely their own. I have heard very young ones trying their voices for the first time, and they went over all the many notes an older bird would, only not so perfectly. The meadow lark, which often sings song for song near a mocker, is never imitated. The mocker has none of the lark's notes, nor the linnet's or those of many other birds who are its near neighbors constantly. It does not need to mock, it has enough music for a dozen birds.

One day as I was walking along a San Diego street I noticed two mocking-birds acting very strangely. They were in a garden, one on each side of a low bush and as one went to the right side the other went to the left and then each reversed its position, but every little while both stood still until one began to dance as well as a bird can. The other kept perfectly still while the frisky one moved exactly as if its feet were on something too hot for them. Up and down it put them many times. Then the other went to the opposite side of the bush and the dancing stopped and the hide-and-seek was resumed. I watched them for twenty minutes, and during all their performance not a sound, not even a chirp was uttered by either bird.

Neither in Florida nor in California are mocking-birds allowed to be shot or caught and caged. How could any one with a feeling heart imprison such a bird after seeing and hearing its delight in freedom and the Creator's great outdoors!

TAN MARKINGS ON TERRIERS.

The other day (states a writer in "Our Dogs") we were in company with several breeders of fox-terriers, and the question of "color" was discussed. One breeder stated that he invariably drowned the tan-marked puppies in any litter as soon as they were born. It was, of course, the signal for a lively argument, and many cases were adduced to show the folly of such a procedure. Many noted dogs with tan markings were named, and eventually the individual who started the question found himself lamentably left in the minority. To what an extent breeding would have been affected had all breeders destroyed their tan-marked puppies it is not easy to say. Certain it is that many champions had never seen the light, and although one must admit a fairly general prejudice against the color, the reason for that prejudice is not so easy to find. In terriers working with foxhounds, tan markings are not desirable, because hounds are apt to be led astray by the similarity to the color of their quarry, oftentimes to the untimely end of the terrier so marked. Perhaps, the birth of the prejudice may be traced to this fact. However, tan-marked terriers are generally very game, more so than their black-marked brothers, and our experience is that better legs and feet accompany the unpopular color. On the other hand, light eyes and a certain foreignness of expression may often be observed in such terriers. We do not think that at the present time any good judge would put back a good terrier because he happened to possess tan markings, but the blue color, seen often in wires and but seldom in smoots, might well furnish a reason for dismissal. This color nearly always accompanies a soft coat, and has obviously been derived from a Bedlington cross at some time. If breeders had drowned all such, perhaps the "coat" crusade had never started.

Information Wanted.—"Can dogs find their way home from a distance?" is a question frequently asked. It is just according to the dog. If it is one you want to get rid of he can find his way back from Africa. If he is a valuable one he is liable to get lost if he goes around the corner.

Du Pont Was On Top.

Illinois State Tournament—Bart Lewis high general average all program events 875 x 925, Schultze; Bart Lewis, high general average registered program, 440 x 450, Schultze; C. B. Eaton, second general average, registered program, 435 x 450, Du Pont.

Long Runs.—Bart Lewis 129, Schultze; Tom Hall 118, Schultze; A. C. Conner 111, Schultze.

Board of Trade Diamond Badge.—J. D. Martin 10 to 22 yards 96 x 100, 18 yards, Du Pont.

Smith Cup, 18 yards, 2 barrels.—A. Vance, 25 straight, 19 x 20, shoot off, Ballistite.

Jefferson Hotel Cup, 18 to 23 yards.—E. K. Crothers, 48 x 50, 20 yards, Dupont; shoot off, 37 x 40.

Professional State Championship, 18 yards.—A. H. Ammann, 49 x 50, Schultze.

Amateur State Championship, 18 yards.—J. R. Graham, 50 straight, Du Pont.

Clark Diamond Trophy, 16 to 23 yards.—Tom Hall, 49 x 50, Schultze; Jessie Barker, 49 x 50, Du Pont; Blake Alexander, 49 x 50 Ballistite; Tom Hall, 40 straight in shoot off from 20 yards.

Eleven out of the first twelve amateurs in the Southern Handicap Tournament used Du Pont. Du Pont winning \$420 to \$95 won by shooters using competitive powders. Also eleven out of 14 money winners in the handicap event at 100 targets, these eleven winning \$601 to \$116 won by shooters using competitive powders.

Red "W" Wins.

At the Los Angeles Gun Club shoot held at Venice, Cal., May 10, 11 and 12, out of a total of 136 shooters, Fred Willet won high professional average, scoring 561 x 600 with a Winchester gun with Winchester shells. L. R. Barkley was second with 560, using a Winchester gun and Winchester factory loaded shells. M. Skeen, who was high amateur, equalled the professional score of 561, shooting Winchester factory loaded shells.

At the Southern Handicap, at Columbus, Ga., May 14, 15 and 16, V. Cate won the Southern Handicap event, scoring 93 x 100 with a Winchester gun. H. B. Pottinger was high amateur for the shoot with 382 x 400, shooting a Winchester gun and shells.

At Houston, Texas, May 15, W. H. France won the Texas Handicap trophy, scoring 94 x 100 and 25 straight on the shootoff, using "Repeater" shells and a Winchester gun.

A. D. Mermod won high general average at Hot Springs, Ark., April 29 and 30, scoring 293 x 300 with a Winchester gun. Mrs. Topperwein was second with 268, shooting the Winchester combination.

At Columbus, Ohio, May 8 and 9, F. M. Edwards won high amateur trophy, scoring 262 x 300 with a Winchester gun.

At Vicksburg, Miss., May 7 and 8, W. J. Fletcher won high amateur average, scoring 284 x 300 with a Winchester gun and Winchester shells.

At Charlotte, N. C., May 9, H. A. Morson won the North and South Carolina Championship with "Leader" shells. Mr. Morson also won high amateur average for the shoot.

At Eagle Grove, Iowa, May 9 and 10, J. P. White won high general average, scoring 382 x 400 with a Winchester gun and Winchester shells.

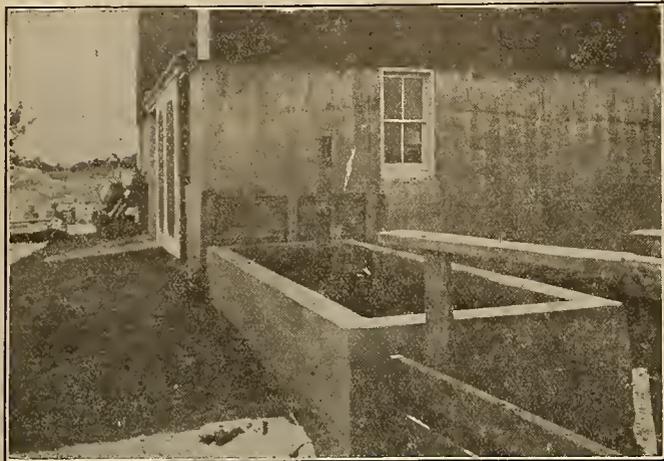

EVERLASTING WATERING TANKS.

How Stockmen Build Their Own Concrete Troughs.

Many farmers and stockmen want to know how to build their own concrete watering tanks and troughs. The method is easy and a tank is not expensive. To explain the plan, a horse and cattle tank is described below which holds 30 barrels of 3 1/2 gallons each. If desired, smaller or larger troughs, round or square, may be built in exactly the same manner. Such tanks, well made, never crack, wear out or cause mudholes.

wise and to project up into the walls to within 6 inches of the top, and likewise a strip 4 feet longer than the inside length of the tank.

With the forms ready, mix the concrete 1 part Portland cement to 2 parts sand to 4 parts crushed rock. In measuring the materials, count 1 bag of cement equal to 1 cubic foot. If bank-run gravel is used, mix the concrete 1 part cement to 4 parts gravel. Fill the foundation trench with concrete. Set the outside form in place. See that it is level, so that the tank will be level and can be entirely filled with water. Lay the 6-inch

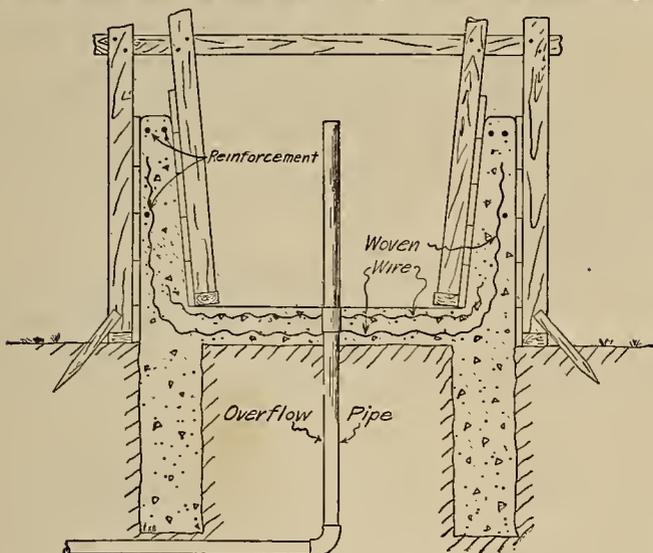

CONCRETE TANK WITH REMOVABLE TANK HEATER.

To build an oblong tank like the one shown in the picture, mark out the ground plan 5 by 14 feet. Within these lines scrape away all trash and dig a foundation trench 10 inches wide and 2 1/2 feet deep around the entire tank. Lay all in-flow and overflow pipes (not less than 1 1/2 inches in diameter) so that the ends, fitted for connections, will be even with the finished bottom of the tank.

Before digging the foundation trench, build the forms and have all materials on hand. For forms use 1-inch siding on 2-by-4-inch uprights spaced 2 feet apart. The outside form is a bottomless box 5 feet wide by 14 feet long, inside measurements. Make it 3 feet high to provide for a 6-inch floor and a clear depth of 2 1/2 feet. The inside form must be narrower

bottom reinforced 1 1/2 inches from the under side with the short lengths of woven wire crosswise and 1 1/2 inches from the upperside with the long strip of fencing. Bring up the extra length of wire so that the ends will project up into the future side-walls and can be fastened to the reinforcing rods. (This wire reinforcing in the bottom will prevent possible cracking due to heaving by frost. Finish the surface of the bottom the same as for a sidewalk. Do not let concrete get into the in-flow and over-flow pipes.

With the bottom finished, immediately set the inside form in place and fill the wall space with concrete mushy wet. Half-way up the side, and 1 inch from the outside, lay a 3-8 inch rod (or several hooked together) entirely around the tank. Again 2

CROSS-SECTION SHOWING FORMS AND TANK WITH REINFORCEMENT.

and shorter to make provision for walls 5 inches thick at the top and flaring to a thickness of 8 inches at the bottom of the tank. When ice forms, this slope allows it to slip up the tank walls instead of pushing directly against them. The sides and ends of the forms may be made separate and put together in place; or, if there is sufficient help, each form may be entirely completed and set up as one piece. The forms are held in position by 2-by-4-inch liners at top and bottom and, if necessary, by sloping braces nailed to stakes driven in the ground. Cut strips of heavy woven-wire fencing long enough to cover the bottom of the tank cross-

inches from the top and 1 inch from both inside and outside, imbed two more 3-8 inch rods in the concrete. Round the top edges of the tank with a trowel or a sidewalk tool. If a tank cover is desired, insert 1/2-inch bolts, heads down, in the soft concrete with sufficient length above the top of the wall to pass through the wooden cover and to receive a nut and washer.

When the tank is three days old, remove the inner form and paint the inside of the tank with a mixture of cement and water as thick as cream. Screw into the over-flow connection the necessary length of over-flow pipe. The tank may be used in ten days provided the outside form is left in place.

Gombault's Caustic Balsam

The Worlds Greatest and Surest

Veterinary Remedy

HAS IMITATORS BUT NO COMPETITORS!

SAFE, SPEEDY AND POSITIVE.

Supersedes All Caustery or Firing. Invaluable as a CURE for

- FOUNDER,
- WIND PUFFS,
- THRUSH,
- DIPHTHERIA,
- SKIN DISEASES,
- RINGBONE,

Total

By getting prices from local dealers, the cost may be found to be less. The cost of materials, however, may

vary according to freight rates. Such a tank is by far the cheapest to be had, since it never needs repairs and never wears out.

The care of milk should begin before it is secreted, for unless we start right, we shall encounter obstacles that will make the profits doubtful.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE—Two well broken pacing mares, 6 and 7 years old, by Cupid 2:18 and Cronje, out of Miss Valensin. Apply to Captain Graham Parker, Point Baker, near Sausalito, Cal.

FOR SALE, CHEAP—A McMurray, 28 lb., bike-gulky, only used once, and a fine Toomey road cart. Must be sold. Apply to 2277 Howard St., San Francisco.

FOR SALE—Bay horse by Demonto, dam by Sable Wilkes. Six years old; 15.3 hands; weight 1100 pounds. Can pace a mile now in 2:15; good actor; sound; wears no hobbles or boots; good action. Great racing prospect. For further particulars, address C. L. DE RYDER, Pleasanton, Cal.

POSITION WANTED—A good careful conscientious man would like a position on a stock farm; has had years of experience in handling stallions, broodmares and trotting stock. Is not afraid of work and would like to show what he can do. Anyone who would appreciate the service of a sober man with these qualifications can address B. E. CROW, 433 Third St., Oakland, California.

FOR SALE—Brown yearling stud colt by Zolock 2:05 1/4, dam Queen Derby 2:06 3/4. When just broken at 10 months old could show a 3-minute gait and was then turned out. Is a pure-gaited line trotter and said to be the finest-looking yearling at Pleasanton. Is paid up in \$35,000 worth of futurities. Queen Derby was a successful race mare, winning 6 in 10 starts, and her first 3 dams are in the Great Brood Mare table, so this colt should be and will be a race horse. Address M. B. MCGOWAN, 651 3rd Ave., San Francisco.

Flies! Flies! Flies!
Get rid of them and help make your home and premises sanitary by the liberal use of **Tanglefoot Fly Paper**. There is fully one-third more compound per sheet on **Tanglefoot** than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for **Tanglefoot**.

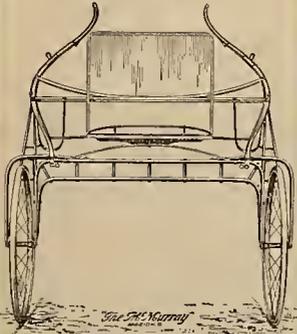

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans.

Will protect your trees from all climbing insects.

The Pleasanton Futurity Stakes of 1914 and 1915

For Foals of 1912, to Trot and Pace at Two and Three Years Old

— ON THE —

— Pleasanton Race Track, Pleasanton, California. —

(R. J. MacKENZIE, Proprietor.)

Entries to Close Monday, July 1, 1912.

MONEY DIVIDED AS FOLLOWS:

\$3,000 for Three - Year - Old Trotters.
\$1,500 for Two - Year - Old Trotters.

\$2,000 for Three - Year - Old Pacers.
\$1,000 for Two - Year - Old Pacers.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare July 1, 1912, when description of mare and stallion bred to must be given; \$5 October 1, 1912, when color and sex of foal must be given; \$5 May 1, 1913; \$10 October 1, 1913; \$10 May 1, 1914; \$10 May 1, 1915.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Pace; \$35 to start in the Two-Year-Old Trot; \$35 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All Starting Payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two-Years-Old are not barred from starting again in the Three-Year-Old Divisions.

CONDITIONS.

The races for Two-Year-Olds will be mile heats, 2 in 3, and for Three-Year-Olds, 3 in 5. Distance for Two-Year-Olds, 150 yards; for Three-Year-Olds, 100 yards.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1913, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment, nor will any entry be liable for more than amount paid in or contracted for.

Entries must be accompanied by the entrance fee. Nominators liable only for amounts paid in. Failure to make any payment forfeits all previous payments.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these Stakes in case the number of entries received is not satisfactory to the management.

Money divided in each division of the Stake 50, 25, 15 and 10 per cent. There will be no more moneys in each division than there are starters.

Entries open to the world. Write for Entry Blanks to

R. J. MACKENZIE, Proprietor.

CONDITIONS.

Horses to be named with entry and eligible when entries close.

Nominators have the right of entering two horses in one ownership in any race by the payment of one per cent additional for that privilege, but only one horse of the two so entered can be started except when proper transfer is made according to rule and full entry fee paid on each entry.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts in both races.

All races mile heats, 3 in 5, except for two and three-year-olds, which are 2 in 3.

No race to be more than five heats. Any race not decided before the fifth heat, money will be divided according to the rank in the summary at the termination of the fifth heat.

In case class in which horse is entered does not fill, entry may be transferred to any stakes to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent and an additional five per cent of the amount of the stake will be deducted from money-winners.

Rules of the National Trotting Association, of which this track is a member, to govern except as otherwise stated.

For entry blanks and further information, address

CHAS. L. DE RYDER, Manager, Pleasanton, Cal.

- NO. 18—FREE-FOR-ALL PACE\$1000

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 3, 7, 8, 9, 13, 14, 15, 16 and 17, mile heats 3 in 5, no race longer than 5 heats. Races 4, 5, 10 and 13, mile heats 2 in 3. In the first three heats of races Nos. 11 and 12, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 6, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moneys as there are heats. Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards.

A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting.

If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |
|-------------------------|-----------|------------|------------|------------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$15 |

SAVE-THE-HORSE

SPAVIN REMEDY

TRADE MARK REG'T.

16 YEARS A SUCCESS

A RETAIL DRUGGIST IN A "LIVE HORSE TOWN" WITHIN THIRTY MINUTES' RIDE FROM NEW YORK CITY, WRITES: "I AM SELLING THREE TIMES MORE SAVE-THE-HORSE THAN ANY OTHER ONE VETERINARY REMEDY; WHEN THEY WANT THE GOODS THAT CURES THEY COME BACK FOR SAVE-THE-HORSE."

SAVE-THE-HORSE STOPS THE LOSS

Rahway, N. J., March 9, 1912.
Troy Chemical Co., Binghamton, N. Y.
Dear Sirs—We are today in receipt of a bottle of Save-the-Horse, purchased of our druggist. We had the advantage of others in regard to your remedy, as a friend of ours bought a bottle some time ago and used it on a splint, which he cured with three-quarters of a bottle. After he cured him he sold the horse for double what he was worth before using your treatment. That is how we came in possession of your remedy. He gave us the remainder of his bottle.

Yours very truly,
RENTLER BROS.

What He Thinks of Book!

Mr. L. Decker, New Paltz, N. Y., writes: "\$5 enclosed for bottle of Save-the-Horse. I wouldn't take \$5 for your book alone."

Write describing your case, and we will send you—BOOK—Sample Contract and Advice—ALL FREE to (Owners, Trainers and Managers—Only).

SAVE-THE-HORSE is sold by Druggists and Dealers Everywhere. For over 16 years it has saved horses and is doing it more today than ever; it does, after all others get through; it undoes the damage and complication others make.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

\$5 A Bottle

With a binding contract to refund money or cure any case of Bone and Bog Spavin, Thoroughpin, Ringbone (except low), Curb, Splint, Capped Hock, Windpuff, Shoe Boil, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual.

AT ALL DRUGGISTS AND DEALERS OR EXPRESS PAID.

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fast-old stallion of 1910.

Grace Bond (3) 2:09¹/₄, winner both of Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911. and 31 others.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:06³/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.

Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18.
Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:05, Baron May 2:07³/₄; sired dams of 4 in 2:10.

SORRENTO
Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Bola 2:19³/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.

4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family.

He will make the season of 1912 at

Pleasanton Training Park. **\$100**

the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

- | | | |
|--|---|--|
| Francis J. 2:08 | Legal Patchen .. 2:15 ³ / ₄ | Dorothy C. 2:19 ³ / ₄ |
| Evelyn Patchen.. 2:10 ³ / ₄ | Lucile Patchen .. 2:16 | Louise Patchen .. 2:19 ³ / ₄ |
| Scott Patchen .. 2:12 ³ / ₄ | Jerry Patchen .. 2:16 ³ / ₄ | Dr. Warren .. 2:19 ³ / ₄ |
| Dessie Patchen .. 2:13 | Knightstown Belle 2:16 ³ / ₄ | Roscoe Binning .. 2:20 |
| Frank Patchen .. 2:13 ³ / ₄ | Alec Williams .. 2:18 ³ / ₄ | Mary Patchen ... 2:20 ³ / ₄ |
| Ruby Patchen .. 2:13 ³ / ₄ | Lois Patchen ... 2:19 ³ / ₄ | Black Patchen .. 2:20 ³ / ₄ |
| J. C. Patchen ... 2:14 ³ / ₄ | Auduous the Miller 2:19 ³ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggis Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: **\$50** Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

Mack's SPAVIN

\$1000 REMEDY

The Only Spavin Remedy in the

World Sold Under a \$1000 Bond

WHEN a horse of yours goes lame—goes lame bad—do you sell him for what you can get and stand your loss? Many a horse is sold that way at a heavy loss—just because the owner did not know how to cure the lameness. Since trainers everywhere have found

that Mack's \$1000 Spavin Remedy is a **sure** cure for all cases of lameness, they now are able to buy horses cheap—cure them quickly and sell them at big profits. You can easily and quickly make any lame horse of yours again sound, spirited, and worth his full value.

Mack's \$1000 Spavin Remedy **\$1000 Bond Guarantee to Cure Any Lameness**

Your lame horse, even if given up as incurable by veterinarians, can be cured just as thousands of other horses apparently in hopeless condition have been completely and permanently cured by Mack's \$1000 Spavin Remedy. No case of lameness is too bad to be cured by this marvelous remedy. It goes to the root of the trouble, eradicates the disease, and builds up new tissues. No scar, mark,

loss of hair, or blemish of any sort is left to show that the horse was ever lame. Don't give your horse severe and harmful treatments, such as "fring" or "blistering." Don't waste time and money on remedies not backed with **absolute** guarantee. You can't afford to let your horse's lameness linger and grow worse while you experiment. Mack's \$1000 Spavin Remedy is **safe**—and is

The Only Remedy in the World Backed with a \$1000 Bond Guarantee

"Forty Oaks Farm," Readington, N. J. March 27, 1911.
I bought a mare about a year ago that was very lame in stifle joint, so much so, in fact, that at times we could hardly get her out of the stable. I spent several dollars for various remedies, which gave only temporary results. Seeing your advertisement, I decided to try Mack's Thousand Dollar Spavin Remedy, which I used in connection with Mack's Thousand Dollar Ointment. Within a short time the mare began to improve, and before contents of bottle were entirely used she traveled flat in her foot and shows no lameness at all. Am very much pleased with the results, and consider the money well spent.
Very truly yours,
R. No. 2. J. B. HALSTEAD, White Plains, N. J.

Ludowici, Ga., Dec. 7, 1910.
The remedy you sent me cured the two horses that the hoof was coming off. The mule's foot was nearly off when I got the medicine, but in five days the mule was able to walk on it. The horses are working every day, and have been since using your remedy the third day. It is the best medicine you ever saw for the foot. Our Vet says those horses would not be able to work in 12 months, but he sees his mistake now. I recommend your medicine to every one, as I know it is all O. K.
Yours truly,
J. T. COLLINS.

Your Druggist Can Supply You

If your druggist does not carry Mack's \$1000 Spavin Remedy, ask him to get it for you. Or send the price—only \$5, the same wherever you buy—direct to us, and your order will be promptly filled. Whether your druggist supplies you, or we do, our \$1000 Bond Guarantee goes with every bottle, protecting you against loss as stated in the Bond. Also, if you will mail us this **Free Diagnosis Coupon** our practicing Veterinary Specialist will give you, without charge or obligation, his expert diagnosis of your horse's lameness. Just mark on the picture in the coupon where the cause of the lameness is located, and give us the information that the coupon asks for. Our Veterinary Specialist's diagnosis is invariably correct. It will tell you what the nature of the lameness is and how to cure it quickly, completely and permanently. Get Mack's \$1000 Spavin Remedy—or write us today.

McKALLOR DRUG CO., Binghamton, N. Y.

HORSE LAID UP FOR 12 MONTHS.
SEE WHAT TWO BOTTLES DID FOR THIS MAN.

Fredericksburg, Ind., Mar. 3-12.

McKallor Drug Co., Binghamton, N. Y.

Dear Sirs: I want to thank you for the value I received through the advice of your veterinarian, and MACK'S \$1,000 SPAVIN REMEDY. My horse was in bad condition. He was lame in the right front knee, which you term Big Knee, and was unfit for work for over 12 months. His knee was badly fractured. Seeing your advertisement in the paper I ordered a bottle of your remedy which brought surprising results, so I purchased a second bottle. This I used according to directions, and we now have a sound horse. Two veterinarians failed and everybody said he would always be lame, but MACK'S \$1,000 SPAVIN REMEDY cured him. If anybody doubts this, write me. Yours truly,
JOHN COOPER.

HORSE 24 YEARS OLD CURED.

Jamestown, Cal., 3-11-12.

McKallor Drug Co., Binghamton, N. Y.

Sirs: I beg to write you in regard to my spavined horse. Am pleased to state that after using one bottle of Mack's Thousand Dollar Spavin Remedy my 24-year-old horse is entirely cured. He is not lame at all now, where before using your remedy could not drive him out of a walk. The lump on his back has also disappeared. Can safely recommend Mack's Remedy. Thanking you very much, I remain, yours respectfully,
P. B. SMITH, Box 140.

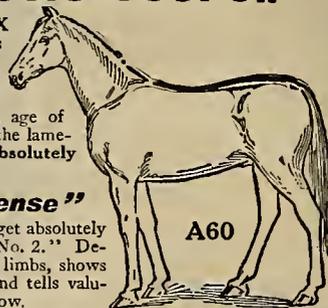

It cures spavin, ringbone, thoroughpin, curb, capped hock, shoe-boil, sprung knee, ruptured tendons, sweeny, or any other of the many causes of lameness your horse may be suffering from. Our \$1000 Bond Guarantee accompanies every bottle. You take no risk when you use Mack's \$1000 Spavin Remedy. Get it at once and save that lame horse or have this guaranteed cure on hand to be ready should one of your horses suddenly show signs of going lame.

FREE DIAGNOSIS COUPON

On picture of horse mark with an X just where the swelling or lameness occurs, then clip out coupon and mail to us with a letter, telling what caused the lameness, how long horse has been lame, how it affects the animal's gait, age of horse, etc. We will tell you just what the lameness is and how to relieve it quickly. **Absolutely no charge. Write today.**

Free Book, "Horse Sense"

Send us the Free Diagnosis Coupon, get absolutely free, a copy of our book, "Horse Sense, No. 2." Describes and illustrates disease of horses' limbs, shows correct name for every part of horse and tells valuable facts every horse owner ought to know.

RESULTS COUNT.

E. F. DUMM & SOISSON, Wholesale and Retail Dealers in Flour, Grain, Hay, Straw and Salt Spangler, Pa., Mar. 16/12.

McKallor Drug Co., Binghamton, N. Y.

Gentlemen: Two months ago I bought a bottle of your MACK'S THOUSAND DOLLAR SPAVIN REMEDY, and used it on a blind spavin which never made any enlargement. Six months ago our very best veterinary fired this horse but it never improved, but after using your remedy he travels every day and never shows a sign of lameness.

Enclosed please find my check for \$5.00 for another bottle of MACK'S THOUSAND DOLLAR SPAVIN REMEDY, as I now have a case, etc. Yours truly, E. F. DUMM.

ANOTHER MAN SURPRISED AT THE RESULTS.

717 Shepley St., Wilmington, Del., Mar. 30, 1912.

McKallor Drug Co., Binghamton, N. Y.

Dear Sirs: I am giving your spavin remedy a thorough test. Have been using it on a horse that had a spavin so sore that he could not go a mile. In fact I drove him two miles and thought I would not get back with him, it hurt him so. Since starting with your remedy have followed directions faithfully, keeping a strict data so as to be sure.

Have also used it on a mare with side bone that made her lame. They are both good horses. The one with spavin is getting better fast and can go every day, and the one with side bone is sound.

The reason I write is I am out of ointment, and wish you to send me a box for I do not want to discontinue the treatment. Yours,
J. H. GOULD, JR.

Los Angeles, October 14th to October 21st.
San Diego, October 21st to October 28th.
Phoenix, Arizona, November 4th to November 12th.**Subordinate Circuits.**Woodland, July 4th to 6th.
Roseburg, Oregon, July 30th to August 3d.
Vancouver, Wash., September 9th to September 14th
Walla Walla, September 16th to September 21st.
North Yakima, September 23d to September 28th.
Spokane, September 30th to October 5th.
Boise, October, 7th to 12th.**Grand Circuit.**Grand Rapids, Mich.—July 8 to 13.
Kalamazoo, Mich.—July 15 to 20.
Detroit (Blue Ribbon)—July 22 to 27.
North Randall, Ohio—July 29 to August 3.
Pittsburg—August 5 to 10.
Fort Erie—August 13 to 16.
Readville, Mass.—August 19 to 24.
Salem, N. H.—August 26 to 31.
Hartford, Conn.—September 2 to 7.
Syracuse, N. Y.—September 9 to 14.
Detroit, State Fair—September 16 to 21.
Columbus, Ohio—September 23 to October 5.
Lexington, Ky.—October 8 to 19.

NO BETTER evidence of the steady growth of the trotting horse industry on the Pacific Coast is needed than the splendid list of entries obtained from the horsemen by the Pacific Coast Trotting Horse Breeders' Association this year. It contains more names than the one of 1911 and every event advertised, with the exception of the free-for-all pace, filled. (This race has always been a difficult one to get sufficient entries to fill it in the past). The absence of many who named horses last year, men who have disposed of their horses or placed their mares in the breeding ranks, will be noted, but the addition of others in this list who have been liberal purchasers of our most prominent trotters and pacers during the past two years is welcomed. The class of horses entered is superior to any we have had, and, as the circuit as outlined will be the scene at every point of many close and exciting contests, it is not too much to claim that ere the bell in the judges' stand at Phoenix, Arizona, rings for the last time in 1912 there will be a greater and more wide-spreading concern in every branch of this industry. This will be attributed to the interest created during this sixteen weeks of racing, the best that was ever dreamed of during a similar period in the history of light harness horse racing in any one section of the United States. Many a visitor and admirer of these events will journey to the big extensively advertised stock farms in the Eastern States for the express purpose of purchasing the best bred and most promising individuals that money can buy, and many a stock farm with these royally bred trotters at their head will then be started. In a few years, with such acquisitions to our present stock of good ones, California will again resume her place as the greatest fast horse breeding State in the Union. The work of the Pacific Coast Trotting Horse Breeders' Association cannot be too highly commended for keeping alive this spark for the past twenty-two years, when storms of strife caused by bad legislation and a mild cyclone of apathy carried away all enthusiasm in this industry when the leading stock farm owners sold their farms or passed into that long, quiet sleep, leaving no relatives to carry on these great undertakings they had so lovingly cherished. Happily, light is breaking

through the mists, and with the splendid response by the horsemen to the calls of this association and the growing one in Los Angeles, there is a return of that spirit of hope which presages nothing but pleasure and success for everyone interested in the light harness horse industry of the entire Pacific Coast; and these well filled entry lists prove it.

THE EXISTENCE in this city of a large number of openly conducted booking rooms, or, as they are erroneously called, "pool rooms," or "bucket shops," was brought forcibly to the attention of the public by three mysterious explosions one night last week, and, as a result, our police officials and the police judges have been compelled to admit that although there is a law prohibiting such places, that law has never been enforced. The daily newspapers (the supposed watchdogs of the public's affairs) have also pursued a silent policy regarding them and whether they have been subsidized by the wealthy proprietors of these places or not will never be known. There is said to be over three hundred of these rooms scattered throughout San Francisco, Oakland and San Jose, all running wide-open and making "books" on the "foreign" races, or those held in other parts of the United States and Canada. There are as many men playing the ponies in these places as there ever were at Emeryville in its palmiest days and in some of them "the limit is the sky."

When the Emeryville meeting was in full swing some steps were taken to close these places and force all their patrons to visit the race track if they wanted to wager any money; but these attempts were failures, and not until the noise of these explosions startled the vast majority of the citizens of San Francisco did the latter realize the extent to which this system of gambling increased. The telegraph company which supplies this information has never been enjoined for furnishing racing entries and results to these rooms or the daily newspapers; and, with that powerful corporation as an ally it did not take much capital outside of the money to pay for this information and the rental of a portion of a saloon or for a certain class store, to transact business. If the authorities were paid to shut their ears and eyes no one outside of those directly interested will ever know, but the impression that somebody must pay for the privilege is all powerful and, like Banquo's ghost, "it will not down!" These places should be closed for all time.

ENTRIES for the Vancouver race meeting's most important events, viz: The Free-for-all Hotel Proprietors' stake, \$2000; 2:25 trot, Citizens' stake, \$3000; the 2:05 pace, Vancouver Breweries' stake, \$2000; the 2:30 trot, Merchants' and Manufacturers' stake, \$1000, and the 2:20 pace, Cascade stake, guaranteed by the Vancouver breweries, \$1500, will close next Saturday, June 15th. These events should draw a large entry list; it is essential, therefore, that all who wish to have a chance to compete for these stakes should send their entries in on or before the day set. There is another very important factor regarding all events to be raced at this place, viz: The Vancouver association will not make the allowance of three seconds on account of records made on mile tracks. The track there being one of the best half-mile rings in the country, all who attend this meeting will never regret it for hospitality reigns supreme and H. S. Rolston, Esq., the manager, will greet all who come and make them happy.

HAVE you noticed that list of entries to the Los Angeles races which was published last week, and have you also seen that one received by the P. C. T. H. B. Association at the big Stockton meeting? They look good and prove what has been claimed in this journal for the past year that the industry is reviving. Figures don't lie and all those horsemen who became disheartened and sold their choicely bred horses should take courage and re-embark in this, the most entrancing of all industries. It has a future now based on the experiences of those who engaged in the business of breeding and developing fast horses from a foundation that was not so solid as it is today. The day for horses with nothing to recommend them but a long pedigree has passed; individuality, soundness, speed and a natural speed inheritance and stamina are the requisites sought after by horsemen of the present day, and these lists show there is not an animal listed whose sire or dam

is of unknown breeding, and it would not be claiming too much to say that the dams of everyone can be traced to the third generation and some to the sixth in strictly trotting lines.

BUNKER HILL DAY, June 17th (one week from next Monday) will be duly celebrated by all owners of good trotters and pacers in a manner that will show their appreciation of Mr. R. J. MacKenzie's efforts to give a big meeting in Pleasanton this year by sending in their entry blanks filled out to the manager, Chas. De Ryder. The programme, as published in another column of this issue, should be read carefully as well as the liberal conditions provided for the conduct of this meeting. Entry blanks will be mailed to all who have not received them by notifying this office. If the meeting proposed to be held at Santa Rosa takes place the week preceding this at Pleasanton, horsemen should endeavor to get every horse ready they possibly can for these meetings, and then from Pleasanton cars will leave direct for the big meeting at Vancouver, British Columbia, and thence through the Pacific Coast Circuit to Phoenix, Arizona.

EVERYBODY in need of a good stallion, broodmare, colt or filly, or who is looking for a high-class roadster or draft horse, should attend the auction sale of horses to be held at Fred Chase & Co.'s pavilion next Monday evening. Catalogues have been issued and they contain the names, descriptions, and pedigrees of a remarkably select lot consigned by owners in all parts of California. The sale takes place at 7:30 p. m. sharp and it will pay all who are interested in choice horses to attend.

NEXT Wednesday, June 12th, will be celebrated as Butcher Day by all the wholesale and retail butchers in San Francisco, Oakland, Alameda, Berkeley and San Jose by a big picnic at Shell Mound Park and a race meeting at Emeryville race track. It is the first time in several years this magnificent course will be used for racing purposes and a royally good time is in store for all who come. There will be something doing every minute.

NEWLY ORGANIZED.

The Agricultural Board for the Fourth Agricultural District of California, met in the Chamber of Commerce rooms in the court house, Santa Rosa, Friday forenoon and organized by electing John P. Overton, president; Frank Muther, Sr., treasurer, and Edward H. Brown, secretary. In addition to the members named the following members of the board were present: H. W. LeBaron of Valley Ford, A. B. Lemmon, W. H. Lumsden and Joseph T. Grace of Santa Rosa. The commission is not at this time contemplating the holding of a district fair because of the various fairs that are planned for this year by cities that are in the district. The object of the meeting Friday was to organize and to hold the commission in readiness to go ahead with a district fair when it may be deemed advisable.—Santa Rosa Democrat.

PETER V. JOHNSTON DEAD.

Kalamazoo, Mich., May 28.—Peter V. Johnston, the veteran harness horse trainer and driver, died suddenly today as a result of a stroke of apoplexy. He was seventy and for over fifty years was one of the most prominent figures of the trotting turf.

Johnston first drove in Chicago, gaining national fame in the '70's behind the famous horses of that time. He was the first driver in America to drive a mile in 2:10, performing that feat with the pacer, Johnston, on a Chicago track.

He also gained renown as the man responsible for Peter the Great 2:07½, winning the Kentucky Futurity with him in 1898. He had driven over 300 horses to records of 2:30 or better.

CLASSES REOPENED AT SAN JOSE.

San Jose, Cal., June 5, 1912.

Breeder and Sportsman, 363 Pacific Bldg.,
San Francisco, Cal.

Dear Sir:—

Unavoidable conditions caused Mr. Shirley Christy, secretary of the Pacific Coast Fair and Races Association, much delay in mailing entry blanks for the Association, ours included. So that owners and agents were unable to send us proper blanks on June 1st, the day closing our stakes. Therefore I have reopened all classes and extended the time to close on June 15, 1912. Our days of races are September 11, 12, 13, 14, unless otherwise arranged during week of races.

Yours truly,

E. W. ALLEN, Manager.

There is no glory and but very little profit in any race, short of first money. So, win when you can and as often as you can. A winner you know always looks good and will bring a good figure at all times.

NOTES AND NEWS

ATTENTION is called to the extension of time for the making of entries in that \$10,000 Los Angeles Futurity stake. This will give owners of foals of 1912, until July 1st, 1912, an opportunity to make entries and every owner of a good colt or filly on the Pacific Coast should read the notice in our business columns and send for an entry blank at once. They cannot and should not overlook this, the largest and best stake ever offered in California.

Independence Boy 2:01½ was recently priced at \$10,000 to Walter Cox.

The track at Santa Rosa was never in better condition than at present.

Fifty head of horses are in training at the Regina Exhibition track, Regina, Saskatchewan, Canada.

There will be a trotting meeting at Seever, Oregon, and one at Independence, Oregon, next month.

The Old Glory sales next fall and winter will be held at the Madison Square Garden, New York.

Lucille McKerron (2) 2:28½, by John A. McKerron 2:04½, dam Lucille 2:07 to wagon, goes to Russia.

A sister to Peter Thompson (3) 2:07½. A. B. Coxe's Futurity winner in 1911, was born recently at Patchen Wilkes Farm, Lexington, Ky.

Remember that big sale of trotting stock takes place at Fred Chase & Co.'s pavilion in this city next Monday night.

The three seconds' allowance for horses having made their records over mile tracks will help half-mile track associations this season.

It is said that Ben Walker will handle S. Christenson's good little pacing stallion June Pointer through the Pacific Coast Circuit this season.

Including the race meetings at Woodland, Santa Rosa and Pleasanton, there will be sixteen weeks of the best racing ever seen west of Chicago on the Pacific Coast Circuit.

When a man buys a yearling he can do so with the assurance that its former owner has not tried the colt (or filly) and found it wanting. Bought at that age it is not likely to have acquired any fixed habits that are not in accord with the views of its new owner.

S. Christenson's good mare Reina Directum, by Rey Direct 2:10, dam Stemwinder (dam of Directum 2:05¼) has been bred to The Bondsman. She has proven one of the star matinee trotters of California and should become a famous broodmare.

Seventy-five thousand dollars for a horse barn at Springfield, Ill., is one of the most important additions to the Illinois State Fair. The legislature appropriated \$200,000—\$125,000 for the pavilion and the balance as noted above.

As an illustration of the value of betting through the Pari-mutuels at the Louisville, Ky., meeting the Clark Handicap run May 18, is a fair indication, \$25,875 being the total wagered on it.

The Vancouver Exhibition Association hereby notifies all horse owners that it does not intend to make the allowance of three seconds on account of records made on mile tracks. This is an important matter and should be heeded.

Edmond McLees, of Lindsey, Tulare County, is the owner of Zomatilla 2:29¾, by Zomhro 2:11; second dam Italia (dam of two), by Sidney 2:19¾; third dam Dot 2:29, by Prompter. Mr. McLees sent her to Pleasanton to be bred to The Bondsman and last Monday he came and shipped her home.

Wm. Reis, of Santa Marguerita Farm, San Luis Obispo county, is breeding a thoroughbred on to a number of small mares he has with a view of getting some polo ponies. The demand for the latter is good and prices are exceedingly high.

The fastest mile reported from any eastern training ground this season is 2:14 by the pacing mare Evelyn Patchen 2:10¼, by The Patchen Boy (p) 2:10¾, who stepped a matinee heat in that time at Altoona, Pa., on May 18.

Frank S. Turner will take his string of promising trotters and pacers from Santa Rosa to Pleasanton next week. This well-known horseman, who was one of "Pa Hamlin's" students back in Buffalo, New York, has several that should get marks of 2:10 or better, and now that he has given up the care of a stock farm, will be able to put more time in on these horses. It must feel good for him to get back to his first choice, after such a long rest.

Many a man has lost thousands of dollars in the breeding business simply because he was not liberal enough to employ a first class trainer. A twenty-five dollar man has never yet succeeded in handing a ten thousand dollar horse successfully, and never will.

Frank Burton is handling F. Gomet's handsome trotting stallion Prince McKinney (2) 2:29¼ at the Stadium, and the way this horse can reel off quarters in 32 seconds shows that he will be a dangerous rival for some of the best trotted horses on the Pacific Coast Circuit to meet this year.

Despite the stringent anti-racing laws that are now in force in the State of New York, there were eighty-eight trotting meetings given during the season of 1911 in the Empire State, and from all accounts there will be a greater number this year. But one State, Ohio, is credited with having held more fairs and race meetings within its borders last season.

Cal. Reams is handling a "green" four-year-old Demonio pacing gelding at Santa Rosa that is a full brother to Airlie Demonio, and, from the way this one is developing many believe he will be one of the fastest of his illustrious family. He is hardly hridle-wise, needs no hoots and has a marvelous hurst of speed whenever called upon.

There is a fine Sidney Dillon trotter called Kittie Dillon at the Santa Rosa track which belongs to S. H. Burns, the proprietor of this course. Ben Scoville is handling her and is satisfied she will get her share of the money when any race she starts in is decided.

H. Ahlers, the proud owner of Sweet Princess, by Prince McKinney (2) 2:29¼, would not take twice the amount (\$600) he paid for her two months ago. She will be a 2:10 pacer before another year passes. Her dam was Arrawana B., by Sidney Dillon, out of that good game old trotting mare Lily Stanley 2:17½ (dam of 3 in 2:30) by Whippleton.

Chas. W. Winter, of Alhambra, reports that Will Durfee drove his six-year-old gelding Alarich 2:27½ Friday, May 24th, the fourth and fifth heats in 2:14; last eighth in each in 15¾ seconds. On the Tuesday following he repeated in exactly the same time. He has taken him home and will get him ready for the market next winter.

There is a full sister to Ella Mac 2:14½ (by Tom Smith 2:13¼, out of Kate Lumry 2:20½, by Shadeland Onward), at the Fresno race track that is conceded to be the fastest trotter of her age ever seen on that famous track. J. W. Zihhell, her owner, has her entered in all the stakes, and, unless something unforeseen occurs, he will be in the lead to the wire in a number of them this fall.

Mr. J. H. Plummer, Vancouver, B. C., has purchased Bonnetta, from Chas. Parker. This is a nice trotting filly by Bon Voyage 2:08, dam by Sidney 2:19½. She was trained by Walter Mahen at Los Angeles and has been a mile in 2:16. She will be raced in the Vancouver matinees and through the Northern circuit by Mr. Plummer. This mare and Era 2:10 are now at Calgary in charge of Chas. Parker but they will now be returned to Vancouver.

When Chauncey Sears, of Fall River, Massachusetts, was visiting California last winter, he often spoke of the pride of his stable, Chase 2:07¼, and how he got him ready for the matinee races that were given on the Charles River Speedway. By a telegram we learn that this good game son of Keeler 2:13¼, and Enola D., dropped dead after a work out, presumably of heart disease.

Prof. Heald 2:09¼, the trotting stallion that created such a sensation last year on account of his pure action and gameness, was placed in Dr. Masero's hands in December, and is now in better shape than ever to go on and race, for this horse was injured as a three-year-old and one of his legs has been weak ever since. His owner, A. Ottinger, expects to return from the East about the 15th of this month and will drive him in the matinees at the Stadium.

S. S. Bailey, of Pleasanton, is so highly pleased with a filly by his horse Bon Guy 2:11¼, out of Nancy Wave, by Tidal Wave 2:06¾; second dam Zombronita, by Zomhro 2:11, that he bred this mare back to this fast trotter again. All the horsemen at Pleasanton who have seen her declare she is out of the finest formed youngsters they have seen this year.

W. Anderson assisted by Thos. Lindsay is using the Canal Farm race track, near Los Banos for schooling horses to the saddle, there being a strong demand for cultured horses both in San Francisco and Los Angeles. In this manner Manager D. W. Wallis is securing fancy prices for horses that would ordinarily be sold for nominal prices. Last week Mr. Anderson took a bunch of six to San Francisco which he is now disposing of. It is the intention of Mr. Wallis to have the men watch his horses as they run on the ranges and choose therefrom the animals that are naturally gaited to the paces most desired by city horsemen and party riders.—Los Banos Enterprise.

There will be a matinee race meeting under the auspices of the Park Amateur Driving Club today (Saturday) at the Stadium, Golden Gate Park.

Senator Ben F. Rush recently decided to breed four mares to The Bondsman and last Monday they arrived at Pleasanton. They are bred as follows: Brown mare by Demonio 2:11¾, dam Mamie Comet 2:23¼; a chestnut mare by Demonio 2:11¾, out of Eva, by Le Grande; Potrero Girl by Prince Airlie 2:28½, out of Moscovia 2:28½ (dam of Mamie R. 2:15½, etc.); a Zomhro mare out of Hanora by Oro Wilkes 2:11, and Gracie R. 2:10½, by Demonio 2:11¼, out of Hannah by Le Grande.

S. B. Wright, of Santa Rosa, has a full sister to Sonoma Girl 2:04¾ that is just as promising a trotter as that celebrated campaigner was, and resembles her very much in conformation and gait. Sonoma Girl was the largest money winner in 1907. She won the M. & M. of that year; the Empire Stake at Buffalo; the Ohio at Cleveland; the Hoster-Columbus at Columbus; the Buckeye at Columbus, and the Transylvania at Lexington, and is now owned by the Dromore Farm, St. Clair, Michigan, where she is in foal to Barongale 2:11¼.

In selecting a stallion for the ranch mares see that it has pasterns of medium length and of fair slope. Many stallions are too short in the pastern, especially behind. This makes them inclined to knuckle over on the fetlock joint and sometimes to appear cock-ankled. A medium slope of pastern indicates some springiness of action and causes the weight of the horse to fall more gently upon the foot than if the pastern were more upright. This reduces the tendency to sidehones.

Joe Ryan, of Sonoma, is bringing several very promising trotters and pacers from that pretty town to the Santa Rosa race track, where he will give them their final preparation for the races this fall. He has a three-year-old pacing filly by Washington McKinney 2:17½, out of Annie Rooney 2:17, by Strathway 2:19, and a three-year-old trotter by Washington McKinney 2:17½, out of Hilda 2:08¼, one of the gamest and best gaited daughters of Guy Wilkes 2:15¼. These belong to Mr. Rudolph Spreckels, who also owns Rooney Dillon, a pacer by Sidney Dillon out of Annie Rooney 2:17. This mare was out of Jewel by Oakland Boy.

FRED H. CHASE'S SALE.

Next Monday night (June 10th), Fred H. Chase & Co., the well-known livestock auctioneers, will hold a sale of high-class saddle horses and roadsters, and some richly-bred trotters and pacers. These have been very carefully selected with a view to meet the wants of our horsemen. Among the trotters and pacers to be sold are Voyageur 2:23¼, trial 2:14½, by Bon Voyage 2:08, out of Lucie May 2:22½; a high-class individual and a perfect horse for track or road purposes. A number of really useful horses, mares, colts and fillies consigned by Chas. Johnson, of Woodland, by such sires as Bayswater Wilkes 2:25¼, Demonio 2:11¾, Falrose 2:19, Tuberose 2:25, Airlie Demonio, Dan Logan, etc. Then there is that grandly bred mare Beatrice Zomhro, by Zomhro 2:11, out of Atherine 2:16 (dam of Copra de Oro 1:59, etc.). One of the choicest in the State and no one has a finer young 16-hand mare. Mamie Belle, by a brother to Daedalion 2:08½, out of a Silver Bow mare. Fine geldings by Zolock 2:05¼, Prince Charles 2:16, Oro Guy, Birdman, and a filly by the latter out of Myrtle by Arronax that will undoubtedly get a low record. These three Birdmans are hard to excel anywhere. Then there is a chestnut stallion, Col. Killmonio, another grandly bred son of Demonio 2:11¾, and the Demonios are forging rapidly to the front; a mare by Derby Ash and one by Monterey, besides that good pacing gelding Roman Boy 2:19¾, trial 2:10¾, by Zolock 2:05¼, out of Wanda 2:14, one of the truly great broodmares. Jack, by Tom Smith 2:13¼, is an extra good horse also. Then E. T. Anderson sends his good stallion brother to Jim Rankin 2:16. A grand looker and a perfect roadster. Besides these there will be several high-class all-purpose horses and work mules.

MATINEE RACING AT ALAMEDA.

Lady Listowell won the feature event of the harness meet last Sunday afternoon on the marsh driving track, under the auspices of the Alameda Driving Club. The event of the day was the 2:20 pacing race and a great deal of interest was displayed in the running of the three heats. Lady Listowell took the second and third ones, being beaten out in the first by Harold K. The last race was in the nature of a special event, being a 2:25 trot between Deva H. and Peter. Deva took both heats in 2:38 and 2:40, respectively. The results of the races were as follows:

First race, 2:25 trot.—First heat—Zampo, Duke of Monterey, Torina; time 2:26½. Second heat—Zampo, Duke of Monterey, Torina; time 2:26.

Second race, 2:40 mixed.—First heat—Collie, Little Andy, Alameda Kid, Agnes G.; time 2:41. Second heat—Collie, Little Andy, Agnes G., Alameda Kid; time 2:42½.

Third race, 2:20 pacing.—First heat—Harold K., Lady Listowell, Clipper Jr., Lorenzo Boy; time 2:21. Second heat—Lady Listowell, Harold K., Clipper Jr., Lorenzo Boy; time 2:21½. Third heat—Lady Listowell, Harold K., Lorenzo Boy, Clipper Jr.; time 2:21½.

Drink Jackson's Napa Soda.

ENTRIES FOR THE P. C. T. H. B. A. MEETING.

Following is the splendid list of entries received for the race meeting to take place at Stockton, September 25th to 28th, inclusive:

No. 2-2:30 Pace—\$1000—32 Entries.

*Roseburg Boy, br. g. by Diawood-by Memo; Frank E. Alley.
 *Holly Brand, b. g. by Tidal Wave; S. S. Bailey.
 Loch Lomond, br. g. by Zolock-by McKinney; I. L. Borden.
 June Pointer, b. s. by Star Pointer-by Allie Wilkes; S. Christenson.
 *Nellie R., s. m.; James Collins.
 Dan Logan, b. s. by Chas. Derby-by Durfee; G. M. Dalrymple.
 *Rothada, b. m. by Margrave-by Spanish Cavalier; Carl Deering.
 *Bess, bl. m. by Zolock-by Maximilian; L. De Witte.
 Hal Scott, b. s. by Hal B.-by Capt. Hunter; Dunn & Harrison.
 Dicto, b. g. by Dictatus Medium-by Benton Boy; Jas. F. Dunne.
 *Zulu Belle, bl. m. by Petigru-by Thos. Rysdyk; C. A. Durfee.
 Will Guthrie, bl. s. by Educator-by Guide; M. Henry.
 Colusa, b. g. by Chester-by Killarney; Geo. L. Herridon.
 Zonelita, br. m. by Zolock-by Stoneway; Sullivan Long.
 *Dolly Varden, b. m. by Welcome-by Steinway; Marcella McCart.
 *Manitoba, b. g. by Walter Direct-by Wedgewood; A. C. McKenzie.
 *Lovlock, br. m. by Zolock-by Steinway; Ray Mead.
 *Fanny Easter, b. m. by Arner-by Vasto; Frank Overacker.
 *Ben Hal, b. s. by Hal B.-by Shoo Fly; Geo. W. Garner.
 *Alto Genoa Jr., b. s. by Alto Genoa-by Reliance and *Beauty Dick, bl. g. by Alto Genoa-Thoroughbred; Will Peirano.
 *Hal Gray, gr. s. by Hal B.-by Touchet; Geo. C. Pendleton.
 *Marlin, b. g. by Dialect-by Clarence Wilkes; Wm. Duncan.
 Welcome Boy, b. g. by Welcome; Al Schwartz.
 Bonway, s. g. by Strathway-by Hal; T. W. Brodnax.
 *Mary W., ch. m. by Dictatus-by Sidney; D. W. Wallis.

Sir John W., b. g. by Diablo-by Prince Almont; Dr. Whittington.
 *Joe McGregor, b. s. by Fergus McGregor-by Joe Young; F. E. Ward.
 *Tomer Mc, b. s. by Pettigru-by Ketchum; and *Hal Mc, b. g. by Hal B.-by Albium; J. W. McClain.
 *Auto Zombro, b. h. by Zombro-Trixie; Al Russell.
 M. S. McCarthy, b. h. by Director General-by Dictator; Wm. Parslow.
 *Phyllis Wynn, b. m. by Bon Voyage-by Zombro and *Queen Alto, br. m. by Iran Alto-by Director; Frank E. Alley.
 *Dellich, b. m. by Delphi-by Electioneer and *Goldie, s. g. by Kinney Lou-Floradora; H. E. Armstrong.
 *Lady Del, br. m. by Del Coronado; Joe Ayer.
 *Irma Direct, b. m. by Robt. Direct; S. S. Bailey.
 *Matawan, b. s. by Athadon-by Junio; I. L. Borden.
 Valjejo Boy, b. g. by Tom Smith-by May Boy; Mrs. F. H. Burke.
 *Henry Clayton, b. g. by Prodigal-by Aberdeen; Lou Childs.
 *Reina Directum, bl. m. by Rey Direct-by Venture and *Brutus, b. g. by Strathway-by Mendocino; S. Christenson.
 *Jean Val Jean, bl. h. by Bon Voyage-by Abbottsford and *Bon McKinney, b. h. by Bon Voyage-by McKinney; W. A. Clark Jr.
 *Jean Jacques, br. s. by The King Red-by Fieldmont; Considine & Harrison.
 *San Felipe, b. g. by Zombro-by A. W. Richmond and *Mamie Alwin, ch. m. by Lord Alwin-by Chestnut Tom; C. L. De Ryder.
 *Mabel, br. m. by Sir John S.-by Lynmont; Wm. Duncan.
 Zommell, gr. g. by Zombro-by A. W. Richmond; Dunn & Harrison.
 *Monica McKinney, s. m. by Ed McKinney-by McKinney; B. L. Elliott.
 *Cedric Mac, ch. s. by Nearest-by Alta Vela; A. L. Blackwell.
 *Tell Tale, s. m. by Edward B.-Lady T.; Dr. Rae Felt.
 *Reflector, bl. s. by Sunrise-Alma; O. D. Fisher.
 St. Thomas, b. g. by Woodford Wilkes; Chas. James.
 *Bonnie Princess, b. m. by Prince Ansel-by Chas. Derby; M. C. Keefer.
 *Con Brio, b. g. by Echo Chief-by Junio; Chas. E. Clark.
 *Greenbaum, br. g. by Red Medium-by Allerton; A. C. McKenzie.
 *The Fleet, b. h. by Mendocino-by Nutwood Wilkes; W. E. Paulsen.
 *Mabel Van, b. m. by On Stanley-by Eucalyptus; Frank Van Tress.

Those marked with a star are double entries.

LEAVING FOR THE NORTHWEST.

Loren B. Daniels, the well-known horseman, is preparing to leave Chico for the Northwest soon with a number of Chico's fast horses, among which will be Dan Logan, the horse that gave Chico a name not so very long ago because of its great speed, and unexcelled training.

Daniels will visit Spokane, Portland and other prominent racing points, using Dan Logan as his shining star.

The horses are now at the Speedway park training and trimming down to racing weight. Daniels is in charge of the high-bred stock and will accompany the animals on all of their journeys.

Some of the local sports are interested still in Dan Logan and think that better records are to be made during the coming racing season by this fast pacer.—Chico Enterprise.

OWNERS SHOULD COMPLY WITH LAW.

The California Stallion Registration Board, composed of President A. L. Scott and Secretary George Robinson of the State Board of Agriculture, and Dr. Charles Keane, State Veterinarian, has employed an agent for the purpose of rounding up owners of animals who have not registered with the Board. Also those who are violating the regulations laid down in the law.

Dr. E. L. Glycer was named as special agent at the last meeting of the Board, and he is now working in Amador county, looking up cases of which complaints have been made to the State.

Dr. Glycer will go over the entire State, having instructions to prosecute all who have not obeyed the law. Up to the present 2000 licenses have been issued by the Board.

THE BUTCHERS' PICNIC.

All the butcher shops in every city and town around San Francisco Bay will close next Wednesday, June 12th, as those connected with them will be at the Butchers' Picnic on that day. The following are the entries for the two principal racing events:

2:20 Pace—For four cups valued at \$500: Marin, Victor Pointer, Little Medium, Demonio Nutwood, Vela A., Lady Listowel, Homburg Belle and W. J. K.
 2:25 Trot—For four cups valued at \$500: Harold K., Hazel Patch, Raymond M., Laddie G., Sunset Belle, Harold C., Fanny S. and Tell Tale.

In the other races cups will be given winners valued at \$130 for each event.

ON THE WING.

Editor Breeder and Sportsman:

Last Sunday the thermometer registered 104 here in San Jose, which was the record for the hot spell of a week ago, but I was fortunate in escaping the extreme heat of that day by making my old friend John Hogan a visit at his home in Soquel in the Santa Cruz mountains, near the popular seaside resort of Capitola and within sight of the blue Pacific. Mr. Hogan has an ideal home, a haven of rest in which to spend his declining years after a long, busy and eventful life; many years of which were spent as a hard-working pioneer in Oregon and California accumulating a competency which enables him to live in comfort in an earthly paradise and raise a few well-bred trotting colts to occupy his mind and please his fancy. From two well-bred mares Mr. Hogan has quite a band of promising youngsters that are hard to beat in breeding and looks. The first to arrive on the little farm in that delightful retreat was the black pacing colt, now four years old, called Morning Light, by Ray o' Light (3) 2:08½, dam Sally M., by Rinaldo (son of The King 2:22, by Geo. Wilkes); second dam Pascoe by Hambletonian Mambrino; third dam Sally M. (dam of Pathmont 2:09½, Altao 2:09½, Trumont 2:21, etc.) by Oregon Pathfinder. Morning Light is the first foal by Ray o' Light and was trained last year as a three-year-old at this track by Ed. Dowling, and showed a mile in 2:16. Sally M.'s next foal is a brown three-year-old filly by Kinney Lou 2:07½, and as she first saw the light on Valentine's day is called Valentine Lou. She is a trotter but big-gaited and requires age. Sally's next is a two-year-old gelding by San Felipe, the fast (though now unsexed) son of Zombro; her next is a very fine black yearling filly by Kinney de Lopez 2:23.

Mr. Hogan's other good broodmare is a well-made and handsome bay called Babe, by Sunrise 2:19, (registered as Count Lionel) a good son of Antrim (sire of Anzella 2:06½, etc.), first dam Neva by Rinaldo, son of The King 2:22; second dam Lady by American Boy 2:26. Her first foal is a very handsome and beautifully gaited chestnut filly by Diamond Mc. 2:17½, by Kinney Lou 2:07½. This filly is a great trotting prospect and is at present being trained by Mr. Hogan's nephew, Ed. Dowling, a careful and painstaking trainer at the new half-mile track at Capitola. Her next is a grand looking and promising black two-year-old filly by Kinney de Lopez which is also at the track; her next is a brown yearling filly by Kinney Lou 2:07½, not yet broken and her last, but not least, in Mr. Hogan's estimation, is a black filly, six weeks old, by Guy Carlton 2:30. It was partly to see this miniature replica of her sire that I journeyed to Soquel last Sunday to see for myself if the glowing tales of her beauty and perfection written me by her owner really true. But, like the dusky queen of old, I can say that "the half had not been told." Of course no one would take me to be an impartial judge of this one, so we will let it go at that.

Mr. Hogan met me at the station at Capitola and twenty minutes' drive over bill and dale brought us to the "ranch." On the way my host informed me that there was to be a matinee that afternoon at the new track and asked me if I would care to attend. I told him I would be more than pleased as I wanted to see the track. After we had inspected the young trotters we were told that luncheon was ready and we repaired to the house. While on the veranda inhaling the cool invigorating salt-laden air and viewing the beautiful scenery, I saw the garden, and strawberries came into my mind, great delicious strawberries.

Last summer Mr. Budd Doble who had been under the weather for some time, took a vacation of three weeks and spent that time with Mr. Hogan in his mountain home. When he returned he looked and felt like a new man. I was surprised at his wonderful improvement in so short a time, when I spoke to him about it he told me of the fruit and berries, the strawberries and rich yellow cream, the mountain water, the cool sea breezes and all the good health-giving things he had enjoyed during his stay up in the hills by the sea. When I saw the garden I remembered all he told me and wondered if I would get any strawberries, fresh ones, right off the vines that never saw a vegetable wagon or a fruit store. While wondering, I could taste them. I was not disappointed Mrs. Hogan had the strawberries for us all right and lots of other good things; what a meal for a hungry man, and if he wasn't hungry he would get hungry when he started in. His appetite would surely come. That was the way it was with Mr. Doble; he got his appetite and then he got something to satisfy it, and that is how he gained nearly a pound a day during his three weeks' stay with Mr. and Mrs. Hogan.

After luncheon we drove to the track, less than three miles distant, being situated just outside the village of Capitola on the Santa Cruz and Capitola electric car line, which passes right by the entrance to the grounds, and four miles from the city of Santa Cruz, and about one-quarter of a mile from where the waves of the boundless Pacific break upon a smooth and sandy beach. The track is a half-mile oval with well-built turns, but the surface is somewhat uneven, which imperfection will soon be remedied by harrowing and floating; the soil is good and the footing firm and safe; when perfected it will be a first half-mile track. It is about two-thirds enclosed with a tight high board fence, a well-built

judges' and timers' stand has just been completed and a temporary spectators' stand capable of seating several hundred has been erected. When completed according to plans it will be a conveniently situated and well-equipped plant. The promoters are working on the safe and sure plan of only doing what they can pay for and not get into debt. The matinee last Sunday was the first that has been held and was attended by nearly one thousand spectators that paid twenty-five cents admission and judging by the enthusiasm they showed over the closely-contested finishes seemed to have gotten their money's worth of enjoyment.

There were three events on the program, the 2:25 pace, half-mile heats, best 3 in 5; the 2:40 trot, mile heats, best 2 in 3, and the free-for-all pace, half-mile heats, best 2 in 3. The judges were J. P. Soares, Charles Younger and Orrin Blodgett, John Hogan, Swift Train and E. C. Jeffreys took the time; Mike Costello officiated as starter and did his duty like an old hand, while John Maher acted as marshal.

The stand was full to overflowing and many teams and automobiles lined both sides of the track nearly the entire length of the homestretch.

The first race called was the 2:25 pace with Ed. Leonard's black mare Babe, full sister to Steam Beer 2:17, by Cuervo; W. T. Bartlett's gelding, Black Diamond by Henry Nutwood 2:29½ (half brother to Ethel Downs 2:10), and D. M. Russell's chestnut mare Bell, breeding not stated, as starters. Black Diamond was given a most thorough warming up before the race was called and by the time the five heats had been paced and the race was over was a tired horse. Bell appeared on the track quite sore (they told me from corns) and was unsteady in the first heat which she lost to Babe by running under the wire, or where the wire is supposed to be, anywhere in front of the judges' stand. But this new and incomplete track is not the only one that has only an imaginary wire.

They were sent off on the first score to an even start, Bell broke at the first eighth, losing considerable ground, caught and paced fast and took the lead into the stretch where Babe, well driven by her owner, gave her a hot chase for home; fifty yards from the score Bell again left her feet and ran to the finish a little in advance of Babe, but the latter was properly given the heat. Black Diamond got his legs crossed in the early part of the heat and did not seem to be able to again get on his stride and finished several lengths back.

In trying to get their positions to score for the second heat the drivers got to circling round and round, seemingly unable to all get headed in the same direction at the same time. They finally, however got their bearings and coming down to a fair start were sent away. By this time Bell was well thaved out and moving along nicely, took the lead and was never headed. She won the third heat handily, two lengths ahead of Babe with Black Diamond a good third. The driver of the latter horse was given a good call-down by the starter for driving so wide and was told that it did not look as if he was trying to win and was threatened with a fine. In the fourth heat Bell again took the lead with Black Diamond sailing closer in to shore right at her wheel. On the back stretch Bartlett raised his long buggy whip high in the air and held it there, ready to strike. With the persuader suspended threateningly over him the Diamond horse never faltered but hung on to Bell's wheel until within thirty-yards of the wire when the whip descended with a resounding whack upon the ribs of the camel-like pacer who nobly responding with a supreme effort forged to the front and won the heat from the chestnut mare by a head amid the most thunderous applause I have heard on a race track in years. The fifth heat was a close contest from wire to wire between Black Diamond and Bell not half a length separating them the entire distance, but the latter won the heat by an eyelash which gave her the hard-fought race.

The 2:30 trot had only three starters, E. C. Jeffreys' bay mare, Dot McKinney, by McKinney, driven by J. M. Ferguson; John Hogan's beautiful little black mare, Olva Lou, by Kinney Lou, driven by Ed. Dowling and S. H. Cowell's black mare Harvest Queen, driven by F. George. The Queen won the first heat closely pressed by Dot McKinney (a mare only twelve days out of pasture) with Alva Lou a good third. In the second heat at the finish of the first lap Ferguson, driving Dot McKinney, and in second place, pulled up, thinking the heat and race was over, much to his own chagrin when he saw his mistake, and very much to the amusement of the spectators. Harvest Queen won this heat, which decided the race, with Alva Lou, that had come fast the last quarter, less than half a length behind her. This sweet little daughter of Kinney Lou's that I broke as a yearling, trotted two nice heats, never making a skip or a bobble. She has had but little training and this was her first start in public, her mile in 2:33 over that new half-mile track I consider as good as 2:26 or 2:27 over a good mile track. I think I recognized in Harvest Queen, a daughter of Silver Arrow, and if I am not mistaken I saw the late "Honest" John Gordon work her a mile over the Lawrence Stock Farm track in 1906 when she was four years old in 2:21.

The last race on the card was the free-for-all pace which was a duel between J. M. Ferguson's chestnut gelding Mike by Scott McKinney and Frank George's chestnut gelding Kermit by Henry Nutwood. I never saw Mike looking as fine as he did nor moving better.

Kermit, that has won matinee races around 2:10, did not seem to like the half-mile ring any too well or to be quite up to racing form, so Mike had no trouble in winning the first beat in 1:07, and in the second he finished in a jog in 1:07½, pretty fair time for a new and scarcely finished half-mile track. Summary:

2:25 pace; best 3 in 5; half-mile heats:
Bell, ch. m., untraced (Russell)..... 2 1 1 2 1
Babe, blk. m., Cuervo (Leonard)..... 1 2 2 3 3
Blk. Diamond, Henry Nutwood (Bartlett) 3 3 3 1 2
Time—1:17, 1:14, 1:14½, 1:14, 1:18.

2:40 trot; best 2 in 3; mile heats
Harvest Queen, blk. m., Silver Arrow (George)..... 1 1
Alva Lou, blk. m., Kinney Lou (Dowling)..... 3 2
Dot McKinney, b. m., McKinney (Ferguson)..... 2 d
Time—2:36, 2:33.

Free-for-all pace; best 2 in 3; half-mile heats:
Mike, ch. g., Scott McKinney (Ferguson)..... 1 1
Kermit, ch. g., Henry Nutwood (George)..... 3 2
Time—1:07, 1:07½.

C. C. C.

JIM LOGAN 2:05¼, AND DEL REY.

In a very interesting article on the appearance of the MacKenzie horses which recently arrived in Libertyville, "Marque," in the "Horse Review," adds the following as his impressions of these favorite young pacers:

It isn't often that one has the pleasure of viewing two of the world's greatest three-year-old pacing colts quartered in adjacent stalls. I found J. Elmo Montgomery with Jim Logan 2:05¼, and Frank Hazzard with Del Rey over in the sheds side by side. They came over with Mr. MacKenzie's horses from Pleasanton. In 1909 Montgomery raced Jim to a record of 2:05½, equalling the world's record, held so long by Klatawah. It was a sparkling performance and gave us Easterners a start, for it was unexpected. Montgomery laid his colt up in 1910, but last season made a successful campaign with him, reducing his record a quarter of a second. Jim is by Charles Derby 2:20, sire also of Klatawah, his dam being that truly great matron Effie Logan, by Durfee 11256. Effie is the dam of Sir Albert S. 2:03½, the speed marvel which Millard Sanders brought east several years ago. Jim "wears 'em," but aside from that fact is with the Grand Circuit bunch, and his trainer says that he will make good. Mr. Montgomery is a "Native Son," this being his first visit east of the Rocky Mountains. I hope that he will have no reason to regret his invasion, for he is an affable whole-souled gentleman. The story that goes with Del Rey reads like a dream. It reminds one of the dreams we poor horse lovers entertain—which never come true. Frank Hazzard, Del Rey's owner, has the tangible stuff to show for his dreams, unlike the majority of us. When I knew Frank several years ago, he was caring for horses, having been a number of years with Ed. Benyon. He went to California and engaged with J. W. Marshall, of Dixon, and becoming enamored with one of his employer's yearlings, purchased it for \$250. The colt is now known as Del Rey, and last fall Frank turned down an offer of \$7500 for him. Frank broke his colt, worked him lightly as a yearling and two-year-old, and last year took him to Pleasanton (after Del had showed a lot of speed) and turned him over to Charles De Ryder. Charley stepped Del Rey a mile in 2:05, the performance being made during the races at Fresno, Cal. It was an exhibition, and while unofficial was just as good, as many watches caught it. Naturally such a mile by a three-year-old attracted a lot of attention, and Del Rey's fame was broadcast. In addition he beat 2:06 three times, and paced about 20 miles in 2:08 or better. Frank led the colt out for inspection and I cannot recall a time when I enjoyed such a visual feast as Del Rey presented. In many respects he is among the handsomest stallions I ever looked over, and I have yet to see another four-year-old pacer that could hope to "show" with him. We read of horses whose coats dazzle the eyes, but previously I have always regarded such a statement as being overdrawn. I take it back and apologize to the gentlemen who wrote in such terms, for Del Rey's coat is so brilliant that when he is standing broadside to the sun one can scarcely fix one's gaze on him. Primarily he is a bay, but his coat is full of bronze, bronze of such an iridescent, shimmering hue that no artist could paint nor no writer describe. Perhaps Del Rey's coat will fade, but right now it's a thing of beauty and a source of delight to all who see him. Also he is a grand individual, standing about 15.3 hands, I should judge, and a finished horse throughout. He has a beautiful head, fine neck, and all-in-all is exceptionally attractive in make up. Frank will not race him this season, but will ship him along the Grand Circuit and show him a fast mile when he is ready. He thinks that he can show a mile in 2:03, and if he can, Del Rey is likely to bring more money than ever a green pacer previously brought. I almost neglected to say that Del Rey does not wear anything except quarter boots. Del Rey is by the great sire Nutwood Wilkes 2:16½, dam Ramona, by Demonio (p) 2:11¼.

Thoroughbreds to the value of \$5000 have been raised this year on the Palo Alto Stock Farm, most of them being for the eastern tracks. The animals, five yearlings, valued at \$1000 each, will be shipped next month to the Latonia and Louisville tracks in Kentucky. Most of the runners are colts from the famous "Bearcatcher," who swept the tracks three years ago at Latonia. The horses have not been raised under the management of the board of trustees of the estate, as have those of the past, but by private breeders who have leased the stables for breeding purposes.

THE PACIFIC NORTHWEST CIRCUIT.

That the good old sport of racing is rapidly coming into its own in the Northwest is being demonstrated every day. The old racing towns are coming back strong this year and everywhere one turns his eyes new racing associations are being formed, where before this year such a thing was unthought of, all of which should fill the heart of every devotee of the sport with courage for the future as well as pleasure in the present prosperous outlook.

The particular cause for this new expression of appreciation is the announcement that a new circuit has been formed in the north to give a series of meetings early enough in the season to allow horses that are going to race in the big circuits later in the season, a chance to get a little valuable experience.

This circuit seems to be well organized and is under the management of men who will do everything in their power to give campaigning horsemen a square deal in every particular. The fact that at one point on the circuit the Pari-mutuel machines will be used should be of particular interest to all horsemen. The Vancouver, B. C., meeting is to be held at the Minoru track, where the thoroughbreds perform. This track has about the best system in the country for the operation of the betting machines—the public is protected here in every possible way against fraud and the people of Vancouver and all honest horsemen like the system.

This will be an excellent opportunity for horsemen and all interested people to note the effect of Pari-mutuel betting on harness racing and it is to be hoped that the management of this meeting will see to it that no careless or slipshod methods of operating the machines be allowed.

The success or failure of this little meeting as far as the betting system is concerned will have marked effect on the public mind in its attitude toward harness-racing. Just now racing men in the West who try to see into the future are banking on Pari-mutuel betting to attract the public to harness racing in numbers sufficient to make the business of racing horses profitable to any capable man who engages in it.

Another feature of this circuit that we will watch with interest is the three-heat, every-heat-a-race plan. We have long believed that this plan of racing would be more attractive to the public, because simpler and more easily understood by the majority of the spectators, at the same time giving horsemen an opportunity to witness what to their minds is a decisive contest. If we read the signs of the times rightly, the man who is not satisfied with the result after his horse has raced three heats, will soon be considered an oddity among horsemen.—Pacific Horse and Sportsman's Review.

SALINAS' "BIG DAY."

There was a meeting of the executive committee of One Big Week last Monday evening.

Director-General John J. Hebron presided. Secretary F. A. Abbott and the following named members were present: Iver Cornett, J. N. Anderson, C. Tynan, Duncan McKinnon, J. J. Bevans, R. D. Logan, J. J. Conner, R. H. Abbott, W. H. Hughes, Will Jeffery, F. Griffin, Geo. W. Rogers, all chairmen of committees which have some features of the Big Week to take care of. There were also present as interested spectators and participants, P. E. Zahala, E. Griffin, Frank Hebron, H. H. Main, John Bacon and three newspaper men.

The committee took up many questions and discussed them in a free-for-all way. The question of harness races was considered—the purses to be hung up and the entrance money.

Iver Cornett, chairman of the finance committee, said something when he remarked about the thousands who would pay admission fees and then some to get into the grand stand—say 7000—figure that out.

The committee decided that the harness races would be under the management of the agricultural society, the same as the stock exhibit.

A car load of wild horses from Oregon and another from Nevada were announced as a feature of the wild west show.

It was decided to run a booster excursion as far as Paso Rohles and as far north as Santa Clara about the middle of July.

The committee men were enthusiastic, confident and earnest. They expect to have a bigger Big Week than that of 1911.

A VETERAN OF THE TURF GONE.

Lexington, Ky., May 25.—Daniel Swigert, aged 79, one of the oldest and best known American turfmen and father-in-law of Leslie Coombs, former Minister to Peru, died tonight at his home near this city from the infirmities attending his advanced age. Mr. Swigert bred, owned and raced many famous horses, among them Kingfisher, with which he won the Belmont Stakes; Baden-Baden, the winner of the Kentucky Derby for him in 1877; Bombay, with which he won the Ohio Derby in 1876 at Cincinnati; Peru, with which he won the first Ashland Oaks, here in 1879; Hindoo, which he sold to Dwyer Brothers as a two-year-old in 1880; Spendthrift, which he sold to Overton H. Chanault for \$21,000; King Alfonso, Trinidad, Toledo, Ceylon, La Favorita and Talisman. Mr. Swigert once owned the original Simendorff Farm, and upon his retirement as a breeder sold it to Con. J. Enright, who in turn sold it to James B. Haggin, the present owner.

MATINEE RACING AT SANTA ANA.

A fair-sized crowd, possibly fifteen hundred people, witnessed the matinee races yesterday afternoon at the local track, and while the time was not phenomenally fast, there were consistent racing and close finishes and that counts with the people who don't calculate the seconds too closely in affairs of this kind.

There were eight harness races and one running race, and although at times the affair seemed to lag, the full program was pulled off on practically schedule time and everybody got their money's worth in an afternoon of enjoyment.

The first event on the card was the free-for-all trot, in which there were four entries, but when the race was called only two contestants appeared, On Conn, owned and driven by Charles June, of Riverside, and Gold Nut, owned by George W. Ford, and driven by Jack Brady.

Everybody, including Gold Nut's driver, seemed to think the chestnut stallion had a cinch, and when the Riverside horse took the first heat that opinion was unchanged, as it was believed to be understood that the Santa Ana horse would lay up the first heat and then come on and win at his ease.

Gold Nut won the second heat and things looked good to the backers of the Santa Ana horse, but in the third heat, although the Riverside horse broke at the half and fell back ten lengths, he came again and collared Gold Nut in the stretch and headed him under the wire in a whipping finish in 2:20, winning the heat, and race.

The 2:25 trot brought out two starters, Copper the Ore, owned by Wells & Bunnell, of San Bernardino, and Cope, owned and driven by Pete Beatty, of Santa Ana. The San Bernardino mare had the most speed, but after the first heat which was won by her in slow time, she seemed to tire in the stretch, and Cope won the third and fourth heats, the second being decided a dead heat.

The free-for-all pace was won by Kid Downey, entered by Ted Howland, of Riverside, with Artesia second, owned by O. W. Martin, of Garden Grove. The Garden Grove entry led to the half in the first heat and was first in the second heat, but he shot his bolt too early in the race and was headed at the wire in the first and third heats by the Riverside horse.

Four horses faced the starter in the 2:30 trot, including Neernut, formerly owned by George W. Ford, but now the property of Peter Beatty, and while the veteran racer fails to show his old-time speed, he was a close second in both heats to Lauretta, owned and driven by Charles June, of Riverside, who won handily in 2:22½.

The 2:25 pace was won by Fleet, owned and driven by Peter Beatty, in 2:22.

The gentlemen's driving race was won by Frank Thomas with Flash, after Peter Mack, owned and driven by William Jeffries, had annexed the first heat.

The three-eighths-of-a-mile running race, single dash, was won by a horse entered by John Clapp.—Santa Ana Blade.

NEWS NOTES FROM ALBANY, OREGON.

Editor Breeder and Sportsman:

The writer made a visit to the Kiger Stock Farm, located seven miles from Albany, being shown over the 1800 acres of this old stock farm by Mr. Kiger. John Kiger has been a large raiser of draft stock, and has also been one of the foremost producers of grain in this locality.

In the colt pasture he had seventy-five draft colts of the Percheron and Shire varieties. These youngsters are to go to the Portland market. Half of them are now ready for sale, and next spring he will be able to turn off at least sixty head of these horses.

Last year Mr. Kiger built a beautiful half-mile track, and I must compliment him on its location, as the soil is especially adapted for a track in this particular locality, being arranged so a perfect view can be had of the entire farm. His barn and houses are equipped with electric lights.

John Kirkland, of Tidal Wave fame, giving this horse his mark of 2:06¾ in the fall of 1909, is head trainer for Mr. Kiger. Mr. Kirkland trained and drove Mr. S. S. Bailey's string of horses while they were located here, Tidal Wave being his favorite stallion, and is by Nutwood Wilkes, dam by McKinney. Lady Malcolm, by Malcolm, dam by Oregon Wilkes, is the nominee for the 2:10 trot at Portland and Salem this fall. Oregon Babe, by Caution, out of a thoroughbred mare, having a mark of 2:21, will start in the 2:15 and 2:20 pacing class. She goes free-legged. A black trotting filly by Tidal Wave, dam Oregon Babe, is expected to make some of the good ones go.

Mrs. Kirkland has a two-year-old filly that will be a Futurity candidate this year. She is by Tidal Wave, dam Winnie Mann 2:11½. Winnie Mann was by Elixix, by William L., by Axtell.

A four-year-old pacing gelding by Sunny Jim, dam Hazel S., full sister to Starlight, is another one that takes his work beautifully. He goes without the straps also.

Mr. E. Perwick, a resident of Albany, has a three-year-old pacer, Rallia B., by Tidal Wave, dam Allie Guy, by Ora Guy. This colt will be campaigned by Mr. John Kirkland through the Pacific Circuit.

WAYNE STUART.

Joe Carson, of Winnipeg, Man., has purchased from Jas. Houchin, of Jefferson City, Mo., the fast pacing mare Ella Penrose 2:11¼. He will likely race her through the Canadian and North Pacific Circuits.

PLEASANTON TRACK IMPROVEMENT.

Within a very few days dirt will begin to fly at the Pleasanton Driving Park, is the announcement made by Mr. De Ryder, the manager, and that the architects who have the planning of the new stables and other improvements, have submitted their ideas on paper to him.

"Work will begin in a very few days now," said Mr. De Ryder, "and we hope it will be rushed as fast as is consistent with good building. The old stables will be replaced by new ones, the entire park fenced and the entrance to it will be changed. We have decided to adopt the same style of a fence as the Spring Valley Company has been building around its properties in this vicinity, a woven wire one and believe that the effect of it will be much neater than the old-style board kind. Luckily the people in this district are not addicted to "stealing a look" on occasions when there are race-meets here, and we do not have to take into consideration this feature.

"The old barns will remain standing of course until the new ones are constructed, or as far as possible, so to accommodate the horses which will remain here even this summer."

Asked if he himself would as usual travel the circuit this year, Mr. De Ryder stated he would not as matters at the track would not permit of his absence. It is understood that R. J. MacKenzie, the owner of the park, who went east some days ago, may return to Pleasanton in a short time, or as soon as the work of improving gets under way. His trip will probably be made before the opening of the Grand Circuit, some time in July.

Concerning the big race meet planned for July here, there is to be \$12,000 in purses instead of \$10,000, as this paper has erroneously stated before. From indications there will be four of the best and biggest days of racing the town of Pleasanton has seen in the harness line for years, if not ever before. The size of the purses hung up and the fact that the new owner, Mr. MacKenzie, is a favorite and well-known horseman, is doing much to bring this about.

A committee to secure funds from merchants and others of the town, the Chamber of Commerce having expressed a willingness to aid in the matter, has been suggested. The names spoken of are C. L. Crellin, Jerome Arendt, Frank Diavila and Charles Gale. As a considerable sum of money must be raised and as Mr. MacKenzie is doing more than anyone else has ever done in late years to popularize this as the most available and desirable training ground in the west, there should be no hesitation on the part of the local people to generously contribute as their means may permit. As it is the intention of the new owner to attract many more eastern owners here next winter and as each will bring with him, a number of trainers and stablemen, all of which means much to Pleasanton, the gain should be apparent to all. And Mr. MacKenzie is happily so situated that he can carry out any plan he selects.—Pleasanton Times.

BRED TO THE PROOF (2) 2:29¾.

- Following is a list of mares bred to Messrs. Keefer & Spencer's grandly bred young stallion The Proof (2) 2:29¾, by The Exponent 2:11¾, out of Chord 2:27 (dam of Silver Chord 2:22¾), by Wilkes Boy 3803; second dam Sonato, by Dictator 113, etc.:
Sam Hoy's Miss Davis by Zoelock 2:05¼—by Dick T. J. Finnegan's Wilmo Wilkes by Nutwood Wilkes 2:16½—by Silverbow 2:16.
Haile & Rush's Minerva by Guy Wilkes 2:15¼—by Sultan 2:24.
W. J. Miller's Katalina by Tom Smith 2:13¼—by Shadeland Onward.
J. Perkins' Rose Trix by Corbett Rose—by Nutwood Wilkes 2:16½.
J. Clark's Truly C. by Palo King 2:28¾—by Diablo 2:09¼.
W. A. Perley's Lady Whips by Whips 2:27½—by Antevolo 2:19¾.
W. S. Harley's Devilletta by Diablo 2:09¼—by Hark, H. B. Coll's mare by Director 2:17—by McKinney 2:11¼.
Wm. Detel's Daphne McKinney by McKinney 2:11¼—by Guy Wilkes 2:15¼.
S. Smith's Alice Eyles by Lockheart—by Adrian Wilkes.
C. Montgomery's Leta H. by Nutwood Wilkes—by Electioneer.
J. Marshall's Madeline Marshall by Demonio—by Nutwood 2:18¾.
C. Matley's Nusta by Nushagak—by Prince Ansel 2:20¼.
C. Johnson's Dimettis by Diablo 2:09¼—by Altamont 2:26¾.
Alex Brown's Alsolols by Prince Ansel 2:20¼—by Shamrock 2:25.
Alex Brown's Evelyn B. by Prince Ansel 2:20¼—by Nephew.
Alex Brown's Decorato by Prince Ansel 2:20¼—by Nushagak.
C. A. Spencer's Norine by Nushagak—by Azmoor 2:20¼.
M. C. Keefer's Advosta by Advertiser 2:15¼—by Nutwood 2:18¾.
M. C. Keefer's Nellmonio by Demonio 2:11¼—by Dawn 2:18¾.

In 1911 the world's record for yearling pacers went to Frank Perry, son of Toddington 2:20 by reason of his wonderful mile in 2:15. The precocious youngster was at that time the property of James R. Magowan, Mr. Sterling, Ky. This season Mr. Magowan has hopes of reducing the world's record for yearling trotters and thereby securing additional honors. His prospect is Alma Forbes, a daughter of his great young stallion, J. Malcolm Forbes (4) 2:08 and out of Alma Vista 2:20¼, a producing mare by Direct 2:05½.

Drink Jackson's Napa Soda.

THE KENTUCKY RACING BILL AND THE ONE PROPOSED FOR CALIFORNIA.

[COMMUNICATED.]

We sometimes read of the play "Hamlet" with Hamlet left out. A modified copy of the Kentucky Racing Bill is included in a petition to voters for their signatures and for their adoption as a law under the initiative provisions of the Constitution of the State of California. In the Kentucky law are the following provisions: "Said Commission shall have power to prescribe rules, regulations and conditions under which races shall be conducted" * * * "and every such license shall contain a condition that all races or race meetings conducted thereunder shall be subject to the rules, regulations and conditions from time to time prescribed by the Commission, and shall be revocable by the Commission for any violation thereof, or whenever the continuance of such license shall be deemed by the Commission not conducive to the interests of legitimate racing."

Under the foregoing provisions the Kentucky Racing Commission can make and amend all rules necessary to fully regulate the conduct of racing meetings, can designate the per cent to be taken by the association out of the Pari-mutuel machines, can compel honest handling of these machines, can regulate or correct about all of the evils connected with racing. The copy of this law to be submitted to the voters of California contains only the following concerning the authority of the Commission in the making of rules and regulations:

"Said Commission shall have power to make rules, regulations and conditions which shall govern actual trotting, pacing and running races held upon the track of any corporation or association who shall obtain a license under the provisions of this act." Power to make rules, etc., which shall govern actual races (i.e., power to make only contest rules) is, to put it mildly, very inadequate. This express limitation of the rule-making power of the California State Commission, to the making of rules which shall govern actual races (i.e., the making of only contest rules), giving the Commission no control over other more important matters pertaining to racing and racing meetings, such as the conduct of betting, regulation of the per cent to be taken from the Pari-mutuel machines or the commission to be taken from auction pools, etc., is so at variance from the power and authority of the Kentucky Racing Commission that, in comparison to the Kentucky law, it is like the play "Hamlet" with Hamlet left out.

About the only authority to be allowed the California Commission by the proposed act is to grant licenses, make contest rules, and revoke or refuse licenses for exceeding the time limit of meetings or for violation of these contest rules. Surely, this is not as intended by those who employed attorneys to draw up a bill patterned after the Kentucky law and to be modified only so far as necessary to meet the requirement of conditions in California. These gentlemen who initiated the movement to place this law before the voters had in view the best interests of

breeding and racing, and the attorneys employed were evidently instructed to draw up a proposed act in accord therewith. However, by leaving out the most important provisions of the Kentucky law, that gives to the State Racing Commission authority to make rules, regulations and conditions that govern the entire conduct of race meetings, that make licenses revocable for any violation of such rules, these attorneys have committed errors that should be promptly corrected before it is too late to make such corrections and submit to voters for their adoption a racing measure that will satisfy nearly every one who believes in or favors good and fair speed contests and racing meetings for sport, and for the purpose of encouraging the commendable industry of breeding a superior class of horses.

Another omission or oversight in the proposed law is failure to provide for matinee racing, or meetings at which there is no betting, without the necessity of obtaining a license from the State Racing Commission. The provisions for and limitations on racing in the act are as follows:

Section 1 states, "Any association or corporation shall have the right and power, subject to the provisions of this act to hold one or more race meetings in each year." Section 4 states, "No races are authorized or shall be permitted between sunset and sunrise, or on Sundays." Section 5 states, "No such races shall be conducted except by a corporation or association duly licensed by said commission as herein provided." Section 6 states, "Every race meeting held or conducted, except as allowed by this act, is hereby declared to be a public nuisance, and every person acting or aiding therein is punishable by imprisonment in the county jail or in the State prison."

Under such provisions, matinee racing or racing on Sundays cannot be held, or is even prohibited, without a license from the State Commission, and there are no other provisions under which it can be allowed. Furthermore, in section 5 is stated, "Licenses shall be granted by said commission to such corporations and associations to hold races or race meetings for such period of time as such corporations and associations shall desire, but not to exceed one hundred days in any calendar year in one county of this State. No one corporation or association shall hold race meetings to exceed in the aggregate one hundred days within the boundaries of this State during any calendar year. The commission shall not issue licenses permitting running races between horses to be conducted in any county for a period exceeding one calendar year."

Licenses appearing necessary for matinee racing, the question arises whether such interpretation can be placed upon the foregoing provisions just quoted as will prevent matinee racing after some other association (trotting or running or mixed) has already raced one hundred days in that county during the year. Whether "not to exceed one hundred days in any calendar year in one county" in the above provisions, limits the total racing days in one county to one hundred days of racing, selecting their own dates, would be a question for interpretation, not by the commission, but by the courts. If it should

be interpreted to mean that a total of only one hundred days of racing is to be allowed in one county during the year, then the matinee associations, not being able to race without a license, could not obtain a license or hold a racing meeting after there had already been one hundred days of racing; nor could a racing association using Pari-mutuel machines or auction pools conduct a meeting after there had already held one hundred days of matinee racing in that county. Even as regards State and county fairs the only exemption provided for is as to contributing an apportioned amount for salaries of the secretary of the racing commission or a prorated amount for other expenses of the commission. Matinee associations would not only have to race under provisions of this act, which require a license from the commission for all racing, but they would also under its provisions be compelled to bear a share of the expenses of the commission, should provisions of the proposed act be strictly enforced.

In each provision of the act allowing racing it expressly provides only for racing conducted by "a corporation or association," but nowhere does the act seem to allow race meetings to be conducted by an individual. Mr. R. J. MacKenzie has recently purchased the Pleasanton Track located in Alameda county. There are also two other tracks located in Alameda county, one at Emeryville and another at the city of Alameda. Mr. R. J. MacKenzie is about the only multi-millionaire in the United States who is interested financially as sole owner, or in race track ownership, without hope of profit or without interest in some "racing trust," and it would certainly be a great misfortune to not amend a racing bill that would prevent him individually from getting dates for either a trotting or a running meeting or for hotb, simply because a license had been previously obtained for racing in that county during one hundred days of the year. Under the law proposed for this State there is no provisions made for allotment of dates by the commission, as in the Kentucky law.

The law proposed for California is quite prolix in provisions for abatement of the poolroom evil, but nowhere does it contain provisions which will relieve public prosecutors from the necessity of proving that races run outside of this State, on which the bets were taken, did actually occur. Since proof that contests outside the State did actually occur is at the present time probably necessary before a conviction can be obtained, the proposed act could add provisions that would obviate the necessity for such proof before a conviction can be obtained. The expression "purported contest" does not seem to satisfy police court officials.

The important omissions that have been made in copying the Kentucky law would make racing under the proposed act for California a fatal sin of commission. Let us have instead a full copy of the Kentucky law in so far as that law is adaptable to conditions existing in California, or else a complete new draft of a satisfactory measure before the time is too late for submission to the voters at the next general election.

\$10,000 Guaranteed.

\$2 TO NOMINATE MARES.

Reopened.

The Los Angeles Futurity Stake No. 1

TO BE GIVEN BY THE

Los Angeles Harness Horse Association

or Foals of 1912, the Produce of Mares Nominated July 1, 1912, or Substitutes as Provided Below, to Trot and Pace at Two and Three Years Old.

ENTRIES TO CLOSE MONDAY, JULY 1, '12.

\$6000 for Trotting Foals.

\$3000 for Pacing Foals.

\$600 to Nominators of Dams of Winners.

\$400 to Owners of Stallions.

MONEY DIVIDED AS FOLLOWS:

\$4,000 for Three-Year-Old Trotters.

200 for the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Trot.

2,000 for Two-Year-Old Trotters.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Trot.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

\$2,000 for Three-Year-Old Pacers.

200 for the Nominator of the Dam on whose Entry is named the Winner of Three-Year-Old Pace.

1,000 for Two-Year-Old Pacers.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Pace.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace.

FOR SPECIAL CASH PRIZES FOR STALLION OWNERS

Giving to Owners of Stallion standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize \$80; 2nd Prize \$60; 3rd Prize \$40; 4th Prize \$20.

Prizes will be Paid on August 15, 1912

ENTRANCE AND PAYMENTS.—\$2.00 to nominate mare July 1st, 1912, when name, color and description of mare and stallion bred to must be given; \$5.00 September 1st, 1912; \$10.00 January 1st, 1913; \$15.00 May 1st, 1913; \$15.00 January 1st, 1914; \$15.00 January 1st, 1915.

STARTING PAYMENTS.—\$25.00 to start in the Two-Year-Old Pacing Division; \$50.00 to start in the Two-Year-Old Trotting Division; \$35.00 to start in the Three-Year-Old Pacing Division; \$75.00 to start in the Three-Year-Old Trotting Division. All starting payments to be made ten days before the day of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two Years Old are not barred from starting again in the Three-Year-Old Division.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The races for three-year-olds will consist of three heats, one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal up to the date of second payment, September 1st, 1912, regardless of ownership, but there will be no return of payment nor will the nominator be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for only amounts paid in. Failure to make any payments forfeits all previous payments.

This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions.

Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in these conditions, rules of National Trotting Association to govern.

For entry blanks and further particulars, address the Secretary.

C. A. CANFIELD, President,

E. J. DELOREY, Secretary,

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

Fresno Tournament.—One of the boys sent in the following communication:

"They have an ideal place for a tournament, facing the north and shooting directly over a beautiful green field. A comfortable club house made it pleasant for the visiting shooters. President Fred Stone and Secretary A. S. Long were everywhere at the same time, watching to see that each visiting sportsman was properly cared for, and you can rest assured that none of the arrangement cogs slipped a notch during the two days. Mr. Wm. Ellert of the Fresno Brewing Company conducted a party of visitors through his splendid brewery, all of which was intensely interesting and instructive and every one of the boys pronounced the Fresno beer absolutely the world's best. (That day the temperature was only 105 degrees.)

On Saturday evening all of the boys were guests of the Fresno Blue Rock Club, and we attended one of the most delightful banquets the writer ever has had occasion to speak of. We were entertained by a wholesouled bunch of good fellows and needless to say that each and everyone of us enjoyed every minute of the evening. Long live the Fresno Blue Rock Club.

The tournament was run off in clocklike order and not a hitch of any kind happened to mar the pleasure of the shooters.

High scores were the principal features even though the heat was almost unbearable. The coolest place in Fresno on Saturday was 105 degrees and Sunday saw conditions about the same, the thermometer reaching 106 degrees but we came through it, and we'll all be there next year when Fresno sends out her bids. The high general average was shot by O. N. Ford of San Jose, making the fine score of 390 out of 410. Dick Reed won high professional average with 385 out of 410.

Billy Sears made a wonderful performance on Sunday, breaking 181 out of 185 and going the longest run of the tournament—84 without a miss.

Mr. W. E. Staunton of Winnemucca, Nevada, came with the next long run, 79, and Dave Ruhstaller of Sacramento next with 67.

The miss and out race at the close of each day's shooting was really the most spectacular feature of the shoot, and much interest was shown by both shooters and spectators.

On Saturday Mr. D. Ruhstaller by breaking 18 straight, showed all the shooters how it really should be done and captured the handsome pot of \$30.

Sunday from a field of 36 shooters, Mr. Danny Davison from Modesto, finished his wonderful day's shooting by winning the miss and out after breaking his 25th target. This was indeed a popular win for he was immediately showered with congratulations and it was a good score that closed the Fresno Blue Rock Club's tournament."

Among the fifty blue rock shots at the tournament were a number of San Francisco experts.

Dick Reed won the high representative general average by breaking 385 clay targets out of 400. Fred Willet followed with 381, Lon Hawhurst's score was 367, Jim Lee pumped out 365.

O. N. Ford, now of San Jose, who has a record of 342 straight breaks, broke 390. Barney Worthen of Sacramento, 385; Billy Sears, formerly of this city, now of Los Banos, 282; W. E. Staunton of Winnemucca, Nevada, 379.

Sears, with eighty-four consecutive kills, made the longest run. Dave Ruhstaller cracked out 69, Staunton broke 64, D. C. Davidson and Henry Garrison, both of Modesto, 59 each.

The shoot was the first tournament held in the Raisin City for over a decade. "Howdydew" Rice of this city was secretary-manager of the tournament. The scores follow:

California Wing Club.—Members and guests were at the Stege trap grounds last Sunday when the club's June pigeon shoot took place. The features of the medal contest were three straight scores made by M. R. Sherwood, shooting from the 28-yard mark; W. W. Terrill, 30 yards and H. Stelling 29 yards, each shooter accounting for every one of his birds.

The purse contest failed to produce any score exceeding 11 birds. E. L. Schultz and Clarence Nauman failed to connect with their twelfth birds. Seven shooters with 11 birds each cut up the club purse.

Sherwood's straight score was accomplished with the use of both barrels on every bird. H. B. Gregg dropped 11 pigeons with but one barrel; he lost his fifth bird in the purse race.

Stelling and Nauman were high guns in two 10-bird pool matches. In the concluding miss-and-out shoot, both shooters were tied with 4 birds each, and divided the pool. E. L. Hoag, M. W. Moore and Miss Meyer shot as guests of the club. The scores follow:

Forenoon medal match, 12 pigeons, \$50 added, 4 moneys, high guns, distance handicap—

Striped bass anglers have not recently had enough excitement in this branch of the sport to disturb ordinary equanimity. For several weeks a large number of clam tossers were at the San Pablo fishing grounds, but failed to get any returns. Memorial day the attendance was also very strong. The condition of the bay waters was a pea soupy consistency that spoiled all chances for fishing. Fair and warm weather continuing should be most favorable for either trolling or still fishing. A few small fish have been caught in Corte Madera slough within a week.

The scheduled fly-casting contests of the San Francisco Fly-Casting Club of Stow lake last Sunday and Saturday were postponed. Rain and variable weather kept members enough away so that the allotted number to make up a contest was not available.

Salmon Fishing.—During the past two weeks there has been quite a run of salmon in Monterey bay off Santa Cruz and Capitola. The fish are larger average size than those of the big run four weeks ago. A. Rath, a well known local salmon angler, caught twelve salmon one Wednesday. Other anglers have taken a few fish every day since. Last Sunday two local anglers who were out from 5:30 in the morning until midday only succeeded in securing four salmon, the largest one scaling fourteen pounds.

A few salmon were taken Friday of last week. The weather was exceedingly warm and the sardine schools were coming close in shore at Santa Cruz and Capitola. Indications, with a continuance of warm weather, were excellent for good trolling sport.

For a Shorter Deer Season.—In the past few weeks a number of deer hunters in Marin county were anxious to have the opening of the deer season postponed until July 15, thereby shortening the season this year two weeks. They claim that July 1 is entirely too early in Marin county for the reason that the deer are not given an opportunity to shed the velvet from their horns and thereby enable them to seek cover in the brush.

Attorney Ed. I. Butler, in discussing the matter, said: "It is my opinion that it would be for the best interests of the sport in the county to have the deer season shortened this year two weeks, in order to give every protection to the deer. Last year, on the opening day, most of the deer hunters found the deer out in the open, all of those killed, had velvet still on their horns. Unless some ordinance is passed to protect the deer in the county, the sport will become a thing of the past. The only pleasure in deer hunting is found in the chase. It is absolutely necessary that the deer are permitted to get under cover, otherwise they will soon be exterminated."

If the Board of Supervisors would simply pass a resolution requesting all hunters to refrain from shooting deer in the county until July 15, the Independent states, "We feel sure that every hunter in the county will observe the request."

The deer season opens July 1 in Kern county, while in the surrounding counties on the south it does not open until August 15. That means more work for the deputies of the Fish and Game Commission, and this year they are planning to stop the practice of hunters in Kern county crossing the line, shooting deer in other counties in which the deer season does not open until later and then getting back over the line again before they are caught. It is planned to police this section so thoroughly that the hunters will have little chance of getting away with this trick. Deputy I. A. Bordner reports that deer signs are plentiful in that region.

A Fresno Trapper.—Joseph Clark of Hume was before the county clerk recently making out the necessary affidavits to base his claim against the State for \$80 as bounty for the killing of four California lions. These he had killed during the winter season and to make good his claim for the bounty his affidavits had to be particular in stating that the lions were killed in the county and State.

Clark is well known in the mountains of Fresno county as a hunter and trapper of wild and fur bearing animals, with the Kings river canyon and the mountains in that vicinity as his field of operations. This occupation he has followed for 20 years. One of the lions he shot. The others were trapped.

Clark incidentally made the statement that in his mountain wanderings he noticed last season in the streams the presence of a considerable number of fur otters. This announcement is interesting because of the generally entertained belief that the otter having been so ruthlessly pursued by the early trappers had become an extinct animal in California.

In his 20 years' experience as a hunter, Clark has a record of having killed or trapped 94 bears. At Hume he has quite an extensive zoological museum of specimens that he himself has caught and mounted. He says it is his purpose to send this collection for exhibition to the Panama-Pacific Exposition in San Francisco in 1915 as a Fresno county exhibit, as all the mounted animals are county specimens. After the exposition he says he will make a gift of the collection to the county or city of Fresno as an educational feature illustrative of the wild life of the mountains of the county.

Too Many Jackrabbits.—Reports from the Butte Creek country state that that section is overrun with jackrabbits, which are playing havoc with crops. It is said that the increase in the number of jackrabbits is due mainly to the bounty placed on coyotes. Before there was a bounty on coyotes they were more numerous and killed off the jackrabbits, but since they have been exterminated to a great extent the rabbits have greatly increased.

SOME COMMON GAME, AQUATIC, AND RAPACIOUS BIRDS IN RELATION TO MAN.

Aside from its interest to sportsmen the recently issued Farmers' Bulletin No. 497, by W. L. McAtee and F. E. L. Beal, assistants in the Biological Survey, U. S. Department of Agriculture, shows by a careful study of these game birds, including the group known as shore birds, that these birds are of great value to the farmer.

The water birds, as the grebes, gulls and terns, have greater economic value and no less harm than is ordinarily supposed, while some species, like Franklin's gull and the black tern, are markedly beneficial. It is pointed out in this bulletin that many birds of prey are exceedingly valuable to the farmer, but the opposite is true of the Cooper's hawk, the sharp-shinned hawk, and the goshawk, which should be destroyed as the determined foes of domestic poultry and game birds and also of most of the smallest insectivorous species.

Introduction.—Game and aquatic birds, as a rule, have less economic interest than the species more closely associated with man. Nevertheless nearly all aquatic birds have important relations with the fishing industry. One of the birds, the horned grebe, sometimes accused of living entirely upon fish, is here shown to feed largely on crawfish, other crustaceans, and insects. Terns also have been held responsible for the serious reduction of food fishes in some localities, but a careful study of their food habits demonstrates that only a small proportion of their diet consists of such fishes. On account of the relatively small number of terns it is manifestly impossible for them to do all the damage attributed to them even if they fed exclusively on food fishes. Certain aquatic birds approach the land birds in feeding habits; examples are Franklin's gull and the black tern, both of which by their destruction of insects are beneficial to man. All the shore birds are strikingly beneficial in their food habits, and the slaughter of these game birds deprives the farmer of valuable allies against some of the worst crop pests. The food habits of the upland plover and killdeer are here described as illustrating the beneficial qualities of the group. The gallinaceous game birds, as quail, grouse, and pheasants, take far less insect food than the shore birds, yet all of them do a certain amount of good. Because of their close contact with crops it is important that their economic relations be made widely known.

The hawks and owls have a bad name, but for the most part it is undeserved, and indiscriminate persecution of these birds is a serious mistake. Accounts of six species are given in this bulletin in order to point out the distinction between injurious hawks and owls and useful ones. The latter should be carefully protected.

Prairie Chicken.—(*Tympanuchus americanus*).—The prairie chicken, now common only in Kansas, Nebraska, Minnesota, the Dakotas, and Manitoba, is one of the birds which formerly occurred over a much wider range than at present and in far greater abundance. It has been reduced principally by hunters, as have so many of our finest species of birds. Many sportsmen declare allegiance to the highest principles of game preservation yet fail to practice these principles. Our present game laws, even though efficiently administered, will save no species of birds, as the rapid growth of the army of sportsmen and pot hunters more than counterbalances the effect of the shortening of open seasons and reduction of bag limits. Moreover, game laws, as a general rule, are not strictly obeyed.

In southern Wisconsin, where there was a closed season on prairie chickens for a term of years, to the writer's knowledge these birds were killed at every opportunity. The customary excuse was: "They are so scarce they won't breed up again anyway." Aside from showing culpable willingness to assist in the birds' extermination, this remark is untrue. Like all birds of its family the prairie chicken is very prolific, and if adequately protected would soon become numerous in its old haunts. The bird is easily domesticated, hence is eminently suited for propagation on preserves. As the increase of game in this manner is the only way to preserve it indefinitely and at the same time allow hunting, the plan should be actively put into operation by those most interested in the preservation of game—the sportsmen.

The prairie chicken is valuable not only as game, but as an efficient destroyer of farm pests, and any farmer would profit by having these birds reared on his place. Almost 15 per cent of the bird's food consists of weed seeds, including those of such pests as foxtail grass, smartweeds, and ragweed. More than 10 per cent of the diet consists of rose hips. A few other fruits are eaten and more than a fourth of the food consists of leaves, flowers, and shoots, collectively known as browse. The prairie chicken eats a great deal of grain, but takes most of it from stubble. The bird is fond of such mast as hazelnuts and acorns.

Nearly 15 per cent of the bird's food consists of insects, the bulk of them being grasshoppers. Almost every kind of grasshopper, locust, or cricket appears to be acceptable, and nearly 20 different kinds were identified from the stomachs. The prairie chicken made itself especially useful during the destructive invasions of the Rocky Mountain locust. Sixteen birds examined at that time were found to have eaten 866 locusts. Among other pests eaten by this species are the Colorado potato beetle, 12 spotted cucumber beetle, sugarbeet leaf beetle, May beetles,

cotton worm, army worm, cutworms, the yellow bear caterpillar, and chinch bug.—W. L. M.

California Quail.—(*Lophortyx californica*).—The California quail is common and generally distributed over the states west of the Sierra, except at the higher altitudes, and is especially abundant in the fruit raising sections. Like the bobwhite of the East, this quail never goes far from cover, and it delights to dwell on unimproved land where trees and chaparral alternate with small areas of open ground. In settled regions it is somewhat domestic in habits and soon becomes accustomed to living in orchards, gardens, and cultivated grounds. The writer has seen a female sitting upon her eggs in a garden within 30 feet of a house, between which and the nest carriages and foot passengers passed many times each day. In winter a covey frequently feeds with the farmer's chickens, and if not disturbed will continue to do so until pairing time.

The natural food of the quail consists of the seeds of the vast number of plants known as weeds, with a little foliage of the same, especially in winter, when the leaves are young and tender. Considering how small is the amount of fruit usually found in the stomach of this bird, it is a surprise to learn that it sometimes does serious damage to vineyards. Investigation, however, shows that, as in most other similar cases, the injury results only when too many birds gather in a limited area. Nearly all the complaints against the quail for eating fruit are that it visits vineyards in immense numbers and eats grapes. When thousands visit a vineyard, even if only occasionally, and each bird eats or spoils at least one grape, the result is disastrous.

An observer states that he once saw a flock of about 1,000 quail eating Zinfandel grapes in a vineyard in the central part of the state, and another says that in southern California he has seen as many as 5,000 feeding upon Muscat grapes. In the writer's interviews with California fruit growers, only one mentioned the quail as harmful. His ranch was situated along the hills on the side of a narrow valley, adjacent to wild grazing land with much chaparral and forest, among which the quail lived. In this case the annual loss was estimated at two or three tons of grapes.

In the laboratory investigation of the food of the California quail 619 stomachs were examined. They were collected in every month except May, but only one was obtained in March. The other months are well represented. Animal food, principally insects, amounts to but 3 per cent, and most of this was found in the stomachs of young birds, mere broodlings. Vegetable food amounts to 97 per cent and consists mainly of seeds of plants most of which are of noxious or troublesome species.

Animal Food.—Ants appear to be a favorite food. They were found in 82 stomachs, and were eaten by adults as well as by young. They amount, however, to less than 1 per cent of the whole diet. The rest of the animal food aggregates a little more than 2 per cent and is distributed as follows: Beetles in 30 stomachs, bugs (Hemiptera) in 38, caterpillars in 11, grasshoppers in 7, flies in 2, spiders in 6, millepedes in 1, and snails in 2. The most interesting point in this connection was the stomach of a brooding only 3 or 4 days old. Besides several adult Hemiptera, some ants, caterpillars, and spiders, and a few seeds, it contained 280 minute insects, which constituted 76 per cent of the stomach's contents, and were identified as an immature form of species of scale, *Phenacoccus helianthi*.

In this connection the following extract from a letter dated at Los Angeles, Cal., October 28, 1908, by Dr. W. G. Chambers to the Secretary of Agriculture, is interesting:

"Last May during the hatching season one of my female quail died a week prior to completing the hatch. An incandescent light of eight candlepower was substituted, the result being 15 baby quail, very wild at first, not understanding human sounds or language, but finally becoming as docile as pet chickens. They were raised in my back yard, running at large after the first week.

A number of Marguerite bushes which grow in profusion in the yard were so infested with black scale that I decided to uproot them and had postponed doing so as the little quail worked so persistently among the branches; upon investigation I discovered them eating the scale and twittering happily; they would swallow the fully developed scale and thoroughly clean the branches of all those undeveloped."

The young in the first week of life eat animal matter to the extent of from 50 to 75 per cent of the food, but by the time they are 4 weeks old they take little if any more animal food than the adults."

Vegetable Food.—The vegetable part of the quail's food may be divided into fruit, grain, seeds, and forage. Fruit appeared in 106 stomachs and aggregates 2.3 per cent of the yearly diet. It was distributed as follows: Grapes in 7 stomachs, prunes in 9, apples in 3, rubus (blackberry or raspberry) in 4, olive in 1, elderberry in 21, snowberry in 8, Mandanita in 2, huckleberry in 11, and rose haws in 3. Pulp and skins, identified as fruit only, were found in 27 stomachs, and unknown seeds, probably those of some small fruit or berry, occurred in 10 stomachs. It is evident that the percentage of any one of the above is insignificant. Stomach examination throws no new light upon the quail's grape eating habits, except to show that the ravages complained of are exceptional. That fruit does not constitute any important part of the bird's annual food is clearly proved.

Grain was found in 133 stomachs and constitutes 6.4 per cent of the food. It was distributed as follows: Corn in 14 stomachs, wheat in 15, oats in 13, barley in 89, and rye in 2. The principal complaints against the quail on the score of grain eating are that flocks sometimes visit newly sown fields and eat large quantities of the seed. Walter E. Bryant says on this point:

"Two males which I shot one evening as they were going to roost for the night after having been feeding on a newly sown field contained the following, mainly in the crop: (a) Two hundred and ten whole grains of barley, 6 pieces of broken barley, 3 grains of 'cheat,' and 1 of wheat, besides a few barley hulls, some clover leaves and alfalfa; (b) 185 whole grains of barley, 5 broken pieces, 4 grains of 'cheat' and 2 of wheat; also barley hulls, clover and alfalfa. The flock numbered nearly or quite 20 birds."

Only one report accuses the bird of eating grain from the harvest field. Mr. W. T. Craig, of San Francisco, writing to the United States Department of Agriculture, says:

"I have observed the quail enter a field of wheat to the number of thousands, and had they not been driven away they would have destroyed the whole crop."

Stomach examination does not indicate any month in which grain is eaten in excess of other food. January shows the highest percentage, 12.4, but November is nearly as high, while December, although between the two, shows less than 3 per cent. A little more than 3 per cent was eaten in February, and none at all in March and April, though the newly sown grain would be accessible in one at least of these months. June and July, the harvest months, show, respectively, 4.1 per cent and 10.7 per cent. In fact, the stomach record plainly indicates that the quail does not make special search for grain, but being naturally a seed eater takes grain when it comes in the way.

The seeds of a multitude of plants which have no apparent useful function except to increase by their decay the deposit of humus in the soil constitute the staff of life of the quail. In this particular investigation they aggregate 62.5 per cent of the food of the year. They appear in stomachs taken in every month and reach a good percentage in each, the only months that show much diminution in quantity being January, February, March and April, when new forage partly replaces seeds. The percentage is highest in June, 85.9, but shows no great falling off from July to December, inclusive. Seventy-three kinds of seeds were determined specifically. Many more were ground up so as to be unrecognizable.

Bur thistle, lupines, bur clover and turkey mullein appear to be the favorite seeds; that the others are not distasteful is shown by the quantities found in some stomachs. For instance, mayweed was identified in only 27 stomachs, yet one stomach contained at least 2,000 of these seeds; pigweed (*Chenopodium*) in but 11, yet 1 contained 1,000. One stomach held 83 kernels of barley, 592 seeds of geranium, 560 of tarweed, 40 of hur thistle, 48 of clover, 80 of alfalfa, 704 of timothy, 32 of catchfly and 5 of snowberry, or 2,144 seeds in all. Another contained 1,696 geranium seeds, 14 bur thistle, 24 knotweed, 14 tarweed, 38 bur clover, 148 alfalfa, 12 ray grass and 1 unknown seed, and a pod of uncertain origin—in all, 1,947 seeds and a pod. In both cases the contents of the crop is included with that of the stomach or gizzard. These samples indicate considerable variety in the quail's diet, even in one meal.

Grass and other forage constitute a little over 25 per cent of the quail's annual food. Forage amounts to less than 1 per cent in June, remains about the same until October, and increases somewhat in November. In January it becomes important, and it reaches nearly 60 per cent of the food for the next four months. The maximum, 85 per cent, occurs in March; but this percentage, based on only one stomach, can not be considered final. Seeds and forage are practically complementary to each other; that is, as one increases the other decreases. Junc, which shows the least forage, has the largest percentage of seeds. Leaves of red and of hur clover and of alfalfa were the favorite kinds, and in some cases constituted the whole stomach contents. Blades of grass are frequently taken. A few bits of acorn, and perhaps other nuts, were eaten, but the quantity is insignificant.

Summary.—From the above analysis of the food of the California quail it is apparent that under normal conditions the farmer and fruit grower have nothing to fear from its ravages. When, however, large areas of chaparral land are cleared and brought under cultivation, it is natural that the products of garden and vineyard should be eaten to a greater or less extent by quail, which abound in such localities. On the other hand, its seed eating record is in its favor. Usually there is little difficulty in getting rid of a superfluity of game birds; in fact, in most cases the trouble is to prevent their extermination. This is strikingly illustrated by the fact that, in order to restock its depleted covers, an attempt is now being made in southern California to import quail from the peninsula of Lower California. A bird so large, so easily trapped, so valuable for food, and withal one whose pursuit affords such excellent sport as the valley quail, will rarely become numerous enough to do serious damage, and then only locally and under unusual conditions. When such conditions arise, a reduction in numbers is the easiest and simplest cure. Permits to trap quail on one's own premises are obtainable in California on application to the State Fish and Game Commission. After the birds have been

sufficiently reduced they can be kept within reasonable limits by a moderate amount of shooting in the proper season.—F. E. L. B.

[To be continued]

TRADE NOTES

Guns and Ammunition High Class.

At the recent tournaments held at Los Angeles, San Bernardino and San Diego, it was clearly demonstrated that the choice of the shooters was Remington-U.M.C. guns and shells.

At Los Angeles, Mr. R. H. Bungay and Mr. M. Skeen tied for high average, making the splendid score of 561 x 600. Mr. Bungay shot Remington-U.M.C. steel lined "Arrow" shells and a Remington-U.M.C. pump gun, and Mr. Skeen shot a Remington-U.M.C. autoloading gun, proving decisively the wonderful shooting qualities of both guns and ammunition. From a field of 135 shooters over one-third of them chose to shoot the famous Remington-U.M.C. guns and steel-lined "Arrow" shells, and their decided popularity was a feature of the tournament.

At San Bernardino, Mr. Fred B. Mills, shooting a special load in Remington-U.M.C. steel-lined "Arrow" shells, won second high average, scoring 335 x 360. Mr. Mills and Mr. Naquin, both shooting Remington-U.M.C. "Arrow" shells, divided honors on the long runs of the tournament, each breaking a little over 80 straight. Out of the first fifteen high amateur averages, eight shooters used Remington-U.M.C. steel-lined "Arrow" shells, and over 40 per cent of the 80 shooters attending this tournament used the popular "Arrow" shell.

At the Northwest Sportsmen's Association shoot held at Walla Walla, May 21 and 23, Remington-U.M.C. guns and ammunition brought victory to the shooters and more firmly than ever before established their superiority over all other makes. The most phenomenal shooting score ever recorded on this Coast was established by Mr. H. E. Poston when he scored 98 out of 100 from the 20 yard mark. This was in open competition for the Chingren challenge trophy, and on being challenged Mr. Poston again made a wonderful score by breaking 95 out of 100 from the extreme handicap of 22 yards. This score was tied by a shooter standing at 18 yards and on the shoot-off at 25 targets Mr. Poston, shooting from the 22 yard handicap, scored 24x25, thereby winning the trophy and establishing a wonderful record and unquestionably proving the high standard of quality of Remington-U.M.C. guns and ammunition.

Mr. Poston used a Remington-U.M.C. Pump gun autoloading gun and steel lined Nitro Club shells.

Other very notable wins at this tournament were as follows:

Mr. C. L. Parsons, second high amateur, score of 557 out of 600; also winner of the Smailes trophy with the fine score of 25 straight and making another straight score of 20 for the Multnomah medal. Mr. Parsons stood at the 20 yard handicap in competing for these trophies. He shot a Remington-U.M.C. Autoloading gun and steel lined Nitro Club shells.

Mr. E. J. Chingren, shooting a Remington-U.M.C. pump gun won the Brownlee medal with a splendid score of 17 out of 20 (doubles) and the Individual Championship with a perfect score, 20 straight. Mr. Chingren won both of these trophies shooting from the 20 yard handicap.

Mr. G. E. Egbers won the Globe trophy, making the wonderful score of 44 out of 50, shooting at 30 singles and 10 pair, from the 20 yard handicap. The shells used by Mr. Egbers were Remington-U.M.C. factory loaded "Arrows."

Selby Loads Win the Northwestern Handicap.

The shoot at Walla Walla May 21-24, inclusive, again demonstrated the superiority of Selby Loads. Mr. J. W. Seavey, shooting Selby Loads, won the handicap event, breaking 49 x 50. Some remarkable shooting was done by Mr. E. J. Chingren at 20 yards and Mr. Knight in their race for the individual championship of the Northwest. Both ran 99 straight, Mr. Chingren finally nosing out Mr. Knight in the shoot off, breaking 19 against 17. Mr. Chingren also won the Brownlee Trophy, breaking 17 x 10 pair of doubles. Mr. C. L. Parsons tied Mr. Chingren for the Smalls' Cup, 25 straight, and won the shoot off with 21 against 19. Mr. D. W. Fleet tied Mr. Parsons for the Multnomah Trophy 20 straight, and won the shoot off, 19 against 17. Mr. Guy Egbers won the Globe Trophy, breaking 44 out of 30 singles and 10 pair of doubles. The Walla Walla team, all shooting Selby Loads, were victors in the team shoot with 58 x 60.

Mr. C. L. Parsons was also second high amateur, 557 x 600, Mr. F. Dryden third with 555, and Mr. Archie Bishop fourth, 552. The longest run went to the credit of Mr. Earl Farmin—103 straight.

All of these scores were made with Selby Loads and stand as a tribute to their consistent efficiency.

The three day shoot of the Utah-Idaho Sportsmen's Association, at Salt Lake ended May 30, 1912, and was a big victory for the Pacific Coast loaded shells. Mr. F. A. Dryden shooting Selby loads was high amateur with 554 x 580. During the shoot Mr. Dryden ran 168 straight and dropped but one in 235 birds. Second amateur went to Mr. A. P. Bigelow who with Selby loads smashed 552 x 580, and Dr. J. F. Sharp shooting Selby loads tied for third amateur 550 x 580. Mr. C. B. Randlett shooting Selby loads won third professional 406 x 450.

Besides these victories, the Confarr Medal, Brown-ing Trophy, Individual Championship Event, Salt Lake Handicap, and the Becker Medal were all won with Selby loads.

At a regular shoot of the Winnemucca Gun Club on May 12th, Mr. W. E. Staunton shooting Selby loads ran 121 straight. Mr. Staunton again came to the front at a tournament held by the club May 18 and 19 by winning the Club Handicap Trophy, breaking 96 out of 100 at 20 yards. This also with Selby loads.

Mr. B. A. Worthen of Sacramento was second high amateur at the shoot of the Fresno Blue Rock Club, June 1, with 385 x 410. Mr. W. P. Sears also shooting Selby loads was third high amateur with 384 x 410. On the big day, June 2, Mr. W. F. Willet shooting Selby loads was general high 196 x 205.

All of these scores were made with Selby loads and are fine tributes to their consistent high efficiency.

Red "W" Winnings.

At Victoria, B. C., on May 25, Mr. W. Lohbrunner, Mr. W. Bechtel, and Mr. J. Sylvester, all shooting Winchester shells, were the one-two-three high amateurs.

At the Northwest Shoot, at Walla Walla, Washington, held May 21 to 24 inclusive, Mr. P. J. O'Brien was high amateur for the tournament, 572 x 600. He used Winchester shells and Winchester gun, the winning Red "W" combination. Mr. F. A. Dryden, also shooting Winchester shells, was third amateur with the score of 555 x 600.

The Anaconda Dupont Cup was won by Pete O'Brien with 20 straight, 18 in shoot-off, with the Red "W" combination.

Mr. E. J. Chingren won the Walla Walla Brownlee Medal, 17 x 20 doubles, with Winchester shells.

Dayton Medal was won by Mr. W. W. Caldwell, 20 straight, with Winchester factory loads.

D. W. Fleet won the Multnomah Medal, 20 straight, and 18 in shoot-off. Mr. Fleet used the Winchester combination, Winchester gun and Winchester shells.

On all targets shot at Mr. O'Brien was high amateur, breaking 768 x 825, Red "W" combination, and Lee R. Barkley was high over all targets with 784 x 825, with the Winchester shells and Winchester gun.

Mr. E. J. Chingren won the Individual Championship, with Winchester shells.

Mr. J. Seavey won the Northwest Handicap, 49 x 50, with the Winchester Red "W" combination of gun and shells.

At Fresno, Cal., on June 1 and 2, Mr. B. H. Worthen was second high amateur for the tournament with a score of 385 x 410. Mr. Worthen used Winchester shells.

On June 2 Mr. Fred Willet was high professional with 196 x 205, Winchester gun and Winchester shells. Jim Lee was third with 190 x 205, also using the Winchester combination. Mr. Fred Willet broke 89 x 90 on June 2, with Winchester shells and Winchester gun.

Peters' Points.

The famous E. C. Cup, which has been contested for from time to time since the year 1896, and which is emblematic of the inanimate target championship of the world, was placed in open competition by the Fairmont, W. Va., Gun Club at the West Virginia State Tournament May 14, and was won by Mr. C. A. Young with a score of 184x200, the highest score ever made in these matches. Mr. Young thus wins the inanimate target championship of the world, and by a score which will probably stand as a record for some little time. He used Peters factory loaded shells with "steel where steel belongs," the famous Red P ammunition that is creating a sensation among trap and field shooters. In addition to winning the cup, Mr. Young won high professional average, 288x300; high general average on all program events, 409x429, and had long runs of 111 and 90.

Peters "steel where steel belongs" shells cleaned up the entire field of amateurs and professionals at the Illinois State shoot at Peoria, Illinois, May 15-17. Mr. Bart Lewis of Auhurn, Illinois, shooting the Red P "Target" shell, broke 440x450, an average of practically 98 per cent. He led the entire field of some 100 shooters and his shooting was a fine exhibition not only of marksmanship, but of ammunition quality. Mr. Lewis also won the trophy for the longest run of the shoot—129 straight.

At Houston, Texas, May 14-15, the Texas championship event, which was open to all Texas amateurs and professionals, was won by Mr. H. A. Murrelle with a score of 10 straight, shooting Peters factory loaded "Premier" shells. Mr. Murrelle and Mr. H. J. Borden tied for high professional average, 410x440, including 100 targets from 22 yards, and Mr. Murrelle made the longest run of the shoot—144 straight. Mr. Borden also shot Peters "Premier" shells.

High general average at the Washington State shoot, Walla Walla, May 21-24, was won by Mr. L. H. Reid of Seattle, with a score of 581x600, a percentage of practically 97. His score, shot under difficult weather conditions, gave him a good lead over the entire field and demonstrated the work that can be done with Peters medium grade "Target" loads—the shell "with steel where steel belongs." Mr. Fred V. Berger of Spokane, also shooting the "Target" grade, tied in the Dayton medal event with a score of 20 straight from 20 yards.

BLOAT IN CATTLE.

Bloating is a very common trouble among cattle in the spring and summer. It is caused by the animals eating large quantities of green food which ferments and often proves fatal if not promptly attended to. Alfalfa is especially conducive to bloating when covered with dew.

The symptoms of bloating are familiar to the experienced farmer. One or more of the cattle act restless, and move from one place to another, as if in pain. The breathing is labored and rapid, and in a short time the characteristic distension of the abdomen is noted. In acute cases, death may ensue in from ten to thirty minutes from suffocation or apoplexy.

Prompt treatment is usually necessary, and often the animal dies before a veterinarian can be summoned. To be prepared for such emergencies should be the aim of every stock owner.

Treatment consists in stopping the fermentation and formation of gas. All sorts of medicinal agents are used. Common baking soda—a tablespoonful

THE BEST LINIMENT

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE, CHEAP—A McMurray, 28 lb., bike snuky, only used once, and a fine Toomey road cart. Must be sold. Apply to 2277 Howard St., San Francisco.

FOR SALE—Bay horse by Demonio, dam by Sable Wilkes. Six years old; 15.3 hands; weight 1100 pounds. Can pace a mile now in 2:15; good actor; sound; wears no hoppers or boots; good action. Great racing prospect. For further particulars, address C. L. DE RYDER, Pleasanton, Cal.

FOR SALE—Brown yearling stud colt by Zolock 2:05 1/4, dam Queen Derby 2:06 3/4. When just broken at 10 months old could show a 3-minute gait and was then turned out. Is a pure-gaited line trotter and said to be the finest-looking yearling at Pleasanton. Is paid up in \$35,000 worth of futurities. Queen Derby was a successful race mare, winning 6 in 10 starts, and her first 3 dams are in the Great Brood Mare table, so this colt should be and will be a race horse. Address M. B. McGOWAN, 651 3rd Ave., San Francisco.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Ginton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5478; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7496 by Knowle Light of the West 3203 (8735). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

G. LINDAUER, Owner, Union Livery and Sales Stable, 122-124 Clara Street, San Francisco.

to a pint of water, or three or four tablespoonfuls turpentine in a pint of water, given as a drench, is good. Mechanical appliances, such as the old-fashioned straw hridle or probang, are still used.

A trocar should be kept on hand, and the animal punctured on the left side a hand's breadth in front of the point of the hip, about four inches back of the last rib and the same distance below the backbone. If a knife is used, make a small incision and hold the aperture open until the gas escapes. Do not wait until the animal is almost dead before trocaring, but experience will only teach one the proper time, if at all needed. Horses are trocared on the right side at about the same location. Greater precautions must be used on horses than on cattle, or peritonitis will result.

CLIP YOUR HORSES Clipped horses work better, feel better, look better, and are worth more than unclipped horses. Clip off the thick, heavy coat that holds sweat and dirt. Clipped horses dry quickly, rest well and get more good from their food. They come out refreshed and look and work better.

This Stewart Ball Bearing Clipping Machine is acknowledged in every civilized country on earth as the finest outfit ever made for horse clipping. It has all file hard cut steel gears, enclosed, protected and swimming in oil. Friction and wear reduced to minimum. Turns easiest, clips fastest, lasts longest. Guaranteed for 25 years. Price, complete, \$8.50. Send Today

Get one now at your dealers or send for our big, new catalogue CHICAGO FLEXIBLE SHAFT COMPANY, 204 Ontario St., CHICAGO

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 3, 7, 8, 9, 13, 14, 15, 16 and 17, mile heats 3 in 5, no race longer than 5 heats. Races 4, 5, 10 and 18, mile heats 2 in 3. In the first three heats of races Nos. 11 and 12, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 6, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moneys as there are heats.

Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards. A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting. If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |
|-------------------------|-----------|------------|------------|------------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$15 |
| 2:15 Trot | 35 | 35 | 35 | 20 |
| 2:12 Trot | 65 | 65 | 65 | 55 |
| 2:08 Trot | 15 | 15 | 10 | 10 |
| 2:20 Amateur Trot | 15 | 15 | 10 | 10 |

\$1. for a Horse

Save a horse and you won't have to buy one. Don't sell or destroy any horse on account of Spavin, Splint, Ringbone, Curb, Sprains or any lameness. Spend one dollar for a bottle of
Kendall's Spavin Cure
—the old reliable remedy. Thousands have made big money buying "broken down" horses, then curing them with Kendall's. Thousands have saved big money using this safe, reliable, economical cure. Dr. G. H. Corbin of Kingmont, W. Va., writes: "Gentlemen—Have used a great deal of Kendall's Spavin Cure and have never found anything equal to it. I used it on a mare which I only paid fifty dollars for and since I cured her of the Spavin I have refused to take two hundred dollars for her."
Can you call a cure "hopeless" in the face of these facts?
Get Kendall's Spavin Cure at any druggist's. Price, \$1 per bottle. 6 bottles for \$5.00. "A Treatise on the Horse" free at druggists or from
DR. B. J. KENDALL CO.
Keosauqua Falls, Vermont, U. S. A.

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Dan Misner is managing this track and will keep it in first-class order. The rent for box stalls will be \$2 each per month. The finest climate in California and the track over which world's champions have been made. Address

The Pleasanton Futurity Stakes of 1914 and 1915

For Foals of 1912, to Trot and Pace at Two and Three Years Old

— ON THE —

— Pleasanton Race Track, Pleasanton, California. —

(R. J. MacKENZIE, Proprietor.)

Entries to Close Monday, July 1, 1912.

MONEY DIVIDED AS FOLLOWS:

\$3,000 for Three - Year - Old Trotters.
\$1,500 for Two - Year - Old Trotters.

\$2,000 for Three - Year - Old Pacers.
\$1,000 for Two - Year - Old Pacers.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare July 1, 1912, when description of mare and stallion bred to must be given; \$5 October 1, 1912, when color and sex of foal must be given; \$5 May 1, 1913; \$10 October 1, 1913; \$10 May 1, 1914; \$10 May 1, 1915.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Pace; \$35 to start in the Two-Year-Old Trot; \$35 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All Starting Payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two-Years-Old are not barred from starting again in the Three-Year-Old Divisions.

CONDITIONS.

The races for Two-Year-Olds will be mile beats, 2 in 3, and for Three-Year-Olds, 3 in 5. Distance for Two-Year-Olds, 150 yards; for Three-Year-Olds, 100 yards.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1913, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment, nor will any entry be liable for more than amount paid in or contracted for.

Entries must be accompanied by the entrance fee. Nominators liable only for amounts paid in. Failure to make any payment forfeits all previous payments.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these Stakes in case the number of entries received is not satisfactory to the management.

Money divided in each division of the Stake 50, 25, 15 and 10 per cent. There will be no more moneys in each division than there are starters.

Entries open to the world. Write for Entry Blanks to

R. J. MACKENZIE, Proprietor.

CHAS. L. DE RYDER, Manager.

Pleasanton, Cal.

CONDITIONS.

Horses to be named with entry and eligible when entries close.

Nominators have the right of entering two horses in one ownership in any race by the payment of one per cent additional for that privilege, but only one horse of the two so entered can be started except when proper transfer is made according to rule and full entry fee paid on each entry.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts in both races.

All races mile heats, 3 in 5, except for two and three-year-olds, which are 2 in 3.

No race to be more than five heats. Any race not decided before the fifth heat, money will be divided according to the rank in the summary at the termination of the fifth heat.

In case class in which horse is entered does not fill, entry may be transferred to any stakes to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent and an additional five per cent of the amount of the stake will be deducted from money-winners.

Rules of the National Trotting Association, of which this track is a member, to govern except as otherwise stated.

For entry blanks and further information, address

CHAS. L. DE RYDER, Manager, Pleasanton, Cal.

New Edition of John Spian's Book

"Life With the Trotter"

Price, \$3.00, Postpaid.

"Life With the Trotter" gives us a clear insight into the ways and means to be adopted to increase pace, and preserve it when obtained. This work is replete with interest, and should be read by all sections of society, as it inculcates the doctrines of kindness to the horse from start to finish.

SAVE-THE-HORSE

(Trade Mark Registered.)

SPAVIN REMEDY

Campaigners and Trainers ATTENTION!

HAVE YOU A GRIM FEAR That Your Horse Will Not Stand Fast Work?

While preparation has practically begun, time flies.

Don't take any chances. The importance of quick, positive and permanent results may mean a whole season's gain or loss.

YOU CAN DEPEND UPON SAVE-THE-HORSE

Here are two expressions constantly received from our customers:

"I thank you for your advice."

"I have followed your directions and my horse is cured."

The point we wish to emphasize is simply this—no matter how serious or perplexing the case has proven there is a way to reach it—and this way is made plain and goes to each and every purchaser with his order.

OUR ADVICE HELPS TO SELL A HORSE FOR \$800.

Ogden, Iowa, April 18, 1912.

Troy Chemical Co., Binghamton, N. Y.:
Gentlemen:—I have used Save-the-Horse for years and I never found any case but it would do just what you claim for it. At present I have a horse I want to race and want your advice and another book. I lost or mislaid mine. The last time I bothered you, your advice and treatment did the work, and I sold the horse for \$800. Yours truly,
H. S. HELPHRY.

Brazil, Ind., April 23, 1912.

Troy Chemical Co., Binghamton, N. Y.:
Dear Sirs:—Enclosed find P. O. Money Order for \$5 (five dollars), for which please send one bottle of Save-the-Horse. Please send at once.
I have cured two spavins, one curb and one very bad case of shoulder lameness. To have a bottle of Save-the-Horse in the barn is the best insurance against loss I know of. It is all O. K., and I cannot praise it enough for what it has done for my horses.
J. L. CUTSHALL

J. M. GEORGE GRAIN CO.,
Grain, Seeds, Choice Milling Wheat a Specialty.

Shattuck, Okla., April 1, 1912.

The Troy Chemical Company, Binghamton, N. Y.:
Gentlemen:—Please send me your book on "Use and Abuse of Bandages." I used Save-the-Horse on a Ruptured Tendon and cured it perfectly on one of my stallions after a lameness of two years, and after trying several other remedies and veterinarians. Less than one bottle did the work perfectly, and he has never taken a lame step since, and that was one year ago.
I believe I had spent \$50 on this before I used Save-the-Horse. Now I keep a bottle on hand in case of emergency, that's all.
Yours truly,
J. M. GEORGE.

16 YEARS A SUCCESS.

What He Thinks of Book

Mr. Landson Decker, New Paltz, N. Y., writes: "\$5 enclosed for bottle of Save-the-Horse. I wouldn't take \$5 for your book alone."

We sell Save-the-Horse under a legal binding Contract to refund the money if it does not cure.

E. G. DYMOND, GROWER OF VEGETABLE PLANTS,

Wyoming, Pa., April 29, 1912.

Troy Chemical Co.:
Your Save-the-Horse medicine has the right name. It straightened my horse all right. I could not believe it would last is the reason I have not written before.
I am well pleased. Would it be good for rheumatism in a person's knee?
Answer.
E. G. DYMOND.

DR. F. P. FOLEY,
Physician and Surgeon.

Dorchester, Wis.

Troy Chemical Co., Binghamton, N. Y.:
Dear Sirs:—Send me at once two bottles Save-the-Horse as soon as you can. I want one and a friend wants the other.
I used a bottle a year ago on a Jack spavin and it did the work. Please send at once with contracts as before.
Fraternally yours,
F. P. FOLEY, M.D.

But write describing your case, and we will send our—BOOK—Sample Contract, Letters from Business Men the World Over on Every Kind of CASE and advice—ALL FREE (to Horse Owners and Managers Only). PUT YOUR HORSE TO WORK and CURE HIM NOW. Write! AND STOP THE LOSS.

Makes a Tendon as Strong as a Rod of Steel.

\$5 A BOTTLE
WITH SIGNED GUARANTEE.

This is a binding contract and protects purchasers absolutely in treating and curing any case of Bone and Bog Spavin, Thoroughpin, Ringbone (except low), Curb, Splint, Capped Hock, Shoe Boil, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual. Send for copy of this contract, booklet on all lameness and letters from prominent business men, bankers, farmers and horse owners the world over on every kind of case. AT ALL DRUGGISTS AND DEALERS OR EXPRESS PREPAID.

TROY CHEMICAL COMPANY

Binghamton, New York.

E. E. NEWELL, 80 Bayo Vista Avenue, Oakland, Cal.

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄, champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fastest 4-year-old stallion of 1910.

Grace Bond (3) 2:09¹/₄, winner both divisions of Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911.

and 31 others.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:06³/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.

Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

- BARON WILKES 2:18.** Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:05, Bar-on May 2:07³/₄; sired dams of 4 in 2:10.
- SORRENTO** Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Eola 2:19³/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.
- 4th dam Virgle**—by Abdallah 15.
- 5th dam Lucy**—by Highlander (Veech's).
- GEORGE WILKES 2:22** Sire of 83, dams of 204.
- BELLE PATCHEN 2:30³/₄** In great brood mare list.
- GRAND SENTINEL 2:29³/₄** Sire of 23, including Nettle 2:16³/₄, Tosca 2:18³/₄.
- EMPRESS** Dam of 2 and granddam of 3.
- HAMBLETONIAN 10** Sire of 40.
- DOLLY SPANKER** Dam of 1.
- MAMBRINO PATCHEN 58** Sire of 25, dams of 162.
- SALLY CHORISTER** By Mamb. Chorister, dam of 2 in 2:20, etc.
- SENTINEL 280** Sire of 8 in list.
- MAID OF LEXINGTON** By Mamb. Pilot 29.
- ABDALLAH MAMBRINO** Sire of 15, dams of 42.
- BIG ELLEN** By Clark Chief.

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. **\$100** the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ In a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

- Francis J. 2:08
- Evelyn Patchen ... 2:10³/₄
- Scott Patchen ... 2:12³/₄
- Dessie Patchen ... 2:13
- Frank Patchen ... 2:13³/₄
- Ruby Patchen ... 2:13³/₄
- J. C. Patchen ... 2:14³/₄
- Legal Patchen ... 2:15³/₄
- Lucile Patchen ... 2:16
- Jerry Patchen ... 2:16³/₄
- Knightstown Belle 2:16³/₄
- Alec Williams ... 2:18³/₄
- Lola Patchen ... 2:19³/₄
- Auduous the Miller 2:19³/₄
- Dorothy C. 2:19³/₄
- Louise Patchen ... 2:19³/₄
- Dr. Warren ... 2:19³/₄
- Roscoe Binning ... 2:20
- Mary Patchen ... 2:20³/₄
- Black Patchen ... 2:20³/₄
- and 11 others in 2:30.

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: **\$50** Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

Montbaine

Reg. No. 48667

SON OF

MOKO 2457 (futurity sire) and Krem Marie (dam of 4 in 2:30) by Krem'lin 2:07³/₄; second dam Maymont by Blackmont; third dam Maywood by Blackwood, etc.

Montbaine is a rich mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

P. W. HODGES,

4416 Stanford Ave., Sacramento,

CAL.

Sired by Nutwood Wilkes 2:16³/₄ Sire of Copa de Oro 1:59 Jno. A. McKerron 2:04³/₄ etc.

CHESNUT TOM

Record 2:15 Reg. No. 43488

Dam by Director 2:17 2nd dam by Nutwood 2:18³/₄; 3rd dam by Geo. M. Patchen Jr. 2:27; 4th dam by Williamson's Belmont.

WILBUR LOU 2:19³/₄, Champion Yearling Colt Trotter of the World. The dam of Wilbur Lou 2:19³/₄ is the only one of the get of Chesnut Tom ever raced. Will stand at Tulare Fair Grounds, Tulare, Cal. FEE: \$25 the Season. Usual return privilege for further particulars address I. M. LIPSON, Box 464, Tulare, Cal

Woodland Race Meeting

—AND—

Fourth of July Celebration

JULY 4TH, 5TH AND 6TH, 1912.

Entries to close Thursday, June 20, '12

RACE PROGRAMME.

- THURSDAY, JULY 4.**
- No. 1—2:25 Trot \$600
 - No. 2—2:15 Pace 400
 - No. 3—Matinee Race, open to Clubs in Sacramento Valley
- FRIDAY, JULY 5.**
- No. 4—2:12 Trot \$400
 - No. 5—2:08 Pace 400
 - No. 6—Matinee Race for Local Horses
- SATURDAY, JULY 6.**
- No. 7—2:08 Trot \$400
 - No. 8—2:25 Pace 600
 - No. 9—Matinee Race, open to all California Clubs

NOTE.—Commencing at 10 o'clock a. m., parade of Floats and Live Stock Speaking by able men, and an old-fashioned Barbecue. Regular racing in the afternoon. In the evening the Horrible Parade, Fireworks, and last, but not least, a Grand Ball. On the 5th and 6th there will be Stock Judging in town, free to all, and Racing each afternoon. Good purses, good racing, and a good time for all. We will also celebrate the first train on the new electric railroad from Sacramento to Woodland.

CONDITIONS.

Horses to be named with entry. Entrance fee 5 per cent to enter and 5 per cent deducted from money winners. Money divided into four moneys—50, 25, 15 and 10 per cent. The Association reserves the right to reject any and all entries and declare off or postpone any and all races on account of weather or other sufficient cause. Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races. Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starters to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. When a nominator makes a double entry in two races he shall be held for one entrance fee in each race. Racing colors must be named by 5 o'clock p. m. on the day preceding the race, and must be worn upon the track, in all races. Colors will be registered in the order in which they are received, and when not named or when said colors conflict, drivers will be required to wear color designated by the Association. All races mile heats, 3 in 5, and no race longer than five heats, and money not decided before fifth heat will be divided according to rank in the summary at the termination of the fifth heat. Member National Trotting Association. Address all communications to the Secretary.

HIGH SCORES MADE BY SHOOTERS OF

SMOKELESS POWDERS

—AT THE—

Kentucky State Shoot

Again the superiority of du Pont Smokeless Powders for trapshooting is demonstrated by the following exhibitions at Lexington, May 23rd and 24th:

WINNER OF STATE CHAMPIONSHIP.

W. G. Green, shooting "BALLISTITE," score 95 x 100.

HIGH PROFESSIONAL SCORE ON ENTIRE PROGRAM.

Woolfolk Henderson, shooting "SCHULTZE," score 287 x 300; average 96 per cent

HIGH AMATEUR SCORE ON ENTIRE PROGRAM.

T. H. Clay, Jr., shooting "INFALLIBLE," score 281 x 300; average 94 per cent.

In addition to these exceptionally high scores, shooters of du Pont Powders won the first FIFTEEN AMATEUR AVERAGES. The success of the winners is proof of our claim that

Solid-breech
Hammerless
.22 REPEATER

**Sure Safe
Shooting For Man
or Boy—And a Simple
Rifle to Care For.**

The *Remington-UMC* .22 Repeater is rifled, sighted and tested for accuracy by expert gunsmiths. It shoots as you hold.

The simple, improved safety device on every *Remington-UMC* .22 Repeater never fails to work. Accidental discharge is impossible.

The *Remington-UMC* .22 Repeater is easily cared for. In taking down your fingers are your only tools. The breech block, firing pin and extractor come out in one piece—permitting the barrel to be cleaned visibly from the breech.

The action handles .22 short, .22 long or .22 long rifle cartridges—any or all at the same time without adjustment.

Ask your dealer to quote you prices on this small game and target rifle to-day. *Remington-UMC*—the perfect shooting combination.

**Dr. Bethune's
MARVELOUS**

HOOF NOURISHER

DOES NOT CONTAIN GREASE

A Powerful Antiseptic, Disinfectant and Deodorant

Marvelous remedy for Scratches, Thrush, Grease Heel, Cracked Heels, Tender, Brittle, Hard, Contracted Feet, Quarter Cracks, Quitters, Wounds of all kinds. It has no equal to stop a horse from rubbing his mane and tail and to stop a hemorrhage, and the cure of foul in cattle's feet.

All other remedies contain grease or oil of some kind. You may be told different, but test them for yourself by adding to them a little water and you will find they will not mix. You grease leather to prevent moisture from penetrating, but this you must NOT do to a horse's foot, for moisture is one of Nature's own remedies to help nourish the hoof.

DR. BETHUNE'S MARVELOUS HOOF NOURISHER DOES NOT CONTAIN A DROP OF GREASE and it WILL MIX READILY WITH WATER. A trial is the best proof. It has no equal as a Hoof Nourisher, Softener and Toughener, and is a guaranteed remedy for Thrush.

PRICE: Qt., \$1.25; half gal., \$2.50; gal., \$4; 2-gal. and 5-gal. can at \$3.50 per gal.; f. o. b., Punxsutawney, Pa.

IT IS QUITE AMUSING to see a Remedy Company advertise their Remedy so strongly as a great remedy for the horse's foot, and condemning GREASE and OIL when their Remedy itself is made up of Grease. If you do not believe this statement try it and see if it will mix with water. "The proof of the pudding is in the eating of it," so convince yourself.

Percy Burnham is Well Pleased.
Indianapolis, Ind., May 9, 1912.

Dr. Bethune, Punxsutawney, Pa.:
Dear Doctor: Please send me one gallon of your Hoof Nourisher and one package of your Combination Horse and Colt Renovators. Enclosed please find money order for \$5 to pay for the same. I have used a lot of remedies, but the like of yours I have never seen.
PERCY BURNHAM.

The Well-Known Trainer, Fred Jamison.
Washington, Pa., April 6, 1912.

Dr. Bethune, Punxsutawney, Pa.:
Dear Doctor: Please send me at once two gallons of your Hoof Nourisher

and one dozen of your Combination Horse and Colt Renovators. They are the best I have ever used by far.
Yours truly,
FRED JAMISON.

From the Home of the Habs.

Lynnville, Tenn., April 12, 1912.

Dr. J. G. Bethune, Punxsutawney, Pa.:
Dear Doctor: Your Hoof Nourisher has worked wonders for me, and I cannot say enough for it. Please send me two gallons at once.
Yours truly,
JOHN W. ALEXANDER.

What W. L. Rhodes Says.

Guttenburg, N. J., April 6, 1912.

Dr. Bethune, Punxsutawney, Pa.:
Dear Doctor: Enclosed please find exchange for two gallons of your Hoof Nourisher. My horses' feet were never better than now and I would not try to do without this great remedy.
Yours truly,
W. L. RHODES.

A Leg and Body Wash
DR. BETHUNE'S
Friend of the Horse

Do Not Torture Your Horse
BY FIRING, BUT INSTEAD
Use Dr. Bethune's Reduceall

The Only Remedy for Bad Legs
A MOST POWERFUL STIMULANT

It penetrates to the seat of trouble at once. It removes soreness quicker than any known remedy, and keeps the soreness out. It allays fever in a very short time. It makes the legs hard and tough. It is infallible as a cure for Spavin and Ring Bone of recent origin, and will remove Splints, Curbs, Thoroughpins and Bunches of all kinds. A trial is the best proof.

Price: \$2 pint bottle, prepaid on receipt of price; \$15 dozen bottles; \$8 half dozen; \$8 gal. jug, f. o. b., Punxsutawney, Pa.

The Most Powerful Absorbant Blister Known

A Remedy that does ITS work while the horse does ITS work. No other remedy known to equal it for Blows, all kinds of Puffs, Bursal Enlargements, Splints, Curbs, and is superior to all other remedies for BOWED and BROKEN DOWN TENDONS. A trial is the best proof. Do not pay \$4 a can for a remedy that is not to be compared with REDUCEALL, \$2.50 a pound can.

REDUCEALL is as easily applied as is paint and is applied only once a day for 8 or 10 days.

DR. BETHUNE'S
Combination Horse and Colt Renovator

Is Not a Stock Food

The Greatest Remedy to Stimulate the Blood and Nervous System

It is a combination treatment, fully guaranteed to give satisfaction if your horse has Worms, Indigestion, Dyspepsia, Dropsy, Apoplexy, Hidebound, Run-down Condition, Loss of Appetite, Flits, Staggers, Yellows, Kidney and Bladder Trouble and Swollen Legs.

Each package contains 3 doses of Worm Killer, 1 Phytic Tablet, 20 doses of Pure Tonic for a large horse or twice the amount of each dose for a small horse. Price, \$1 package; \$5.50 for one-half dozen packages; \$10 for dozen packages. A trial is the best proof.

No orders sent C. O. D. unless sufficient cash is remitted to pay expressage.

DR. BETHUNE'S
Speed Sustaining Tablets

Dr. Bethune's Speed Sustaining Tablets have one great advantage over all other remedies of this kind. It is a tablet and you can carry the vial in your vest pocket and all you have to do is to drop a tablet in a 2-oz. bottle of water and you have two doses ready to give. They are the most valuable vegetable compound ever offered the racing public—not only a nerve stimulant, as all other such remedies are, but contain ingredients that stimulate the muscles of the heart and muscles of the body and respiratory organs; prevent Thumps, Physical Distress, resist exhaustion and enable the horse to perform prolonged and extreme exertion with the least fatigue. Sample size, 16 doses, \$1; regular size, 40 doses, \$2. A trial is the best proof.

In all Cases Send Money Order, Express Order or Draft.

For sale by leading dealers, and if they do not have them send to

 Kalamazoo, Mich.—July 15 to 20.
 Detroit (Blue Ribbon)—July 22 to 27.
 North Randall, Ohio—July 29 to August 3.
 Pittsburg—August 5 to 10.
 Fort Erie—August 13 to 16.
 Readville, Mass.—August 19 to 24.
 Salem, N. H.—August 26 to 31.
 Hartford, Conn.—September 2 to 7.
 Syracuse, N. Y.—September 9 to 14.
 Detroit, State Fair—September 16 to 21.
 Columbus, Ohio—September 23 to October 5.
 Lexington, Ky.—October 8 to 19.

THIS is the busiest season of the year for a light harness horse trainer. He has to watch the class journals in order that he may enter his trotters and pacers in the events at different places where he thinks he has a chance to win. This work he generally does during the evening, but as a rule, he defers it until a few evenings before the entries close, because for good and prudent reasons the colt or filly he is "keying up" for certain races may "go wrong" and if entered he would forfeit his money. However, after this clerical work is finished he feels better, and knowing that he has something at stake, he is more careful than ever to have the candidate trained to the minute. Every likely trotter and pacer in his string must undergo his most careful scrutiny. Very few realize what a responsibility rests upon a trainer if he is conscientious. Every work-out day he hopes that his heaviest staked youngster comes out of his work right. If he does, there is a corresponding feeling of buoyancy, a thrill of delight, as it were, when the little one is again hitched up. If his colt is unable to move around the stall and shows that he has "gone wrong" there is a feeling of depression created which can hardly be described.

There is no set rules for training no more than there are that two colts should be shod, hitched and trained alike. The trainer must decide by his constant association with any colt whether it would be advisable to ask the owner to continue making payments on it. No one outside of the trainer knows what the capabilities of the colt are. No one but he has driven the youngster at speed and has felt that when called upon the youngster will respond or not. If there is that awakening to the anxious call for more speed and a greater endeavor to go faster without hitching and "breaking," hope is created that, on the critical day when the bell rings in the judges' stand, the youngster will be ready to go on and defeat his rivals. The man standing on the track with a timer in his hand cannot tell this, no matter how skillful he may be in sizing up quality, gait and speed. He may condemn the trainer for "keeping that cayuse paid up in the stakes," but the man who handles the reins is in the best position to judge. A

writer has said that the true trainer, the one who can and does educate colts into winning propositions, establishes an understanding between his pupil and himself that no observer can correctly fathom. The man and the colt "feel things" that are not on the surface and sometimes, yes often, the man cannot tell to the world, all that the colt in some mysterious manner, communicated to him. Even when appearances are all against the pupil, the teacher obtains an inkling of a quality which establishes his belief in the race horse ability, the coming greatness, of his charge. The teacher who is quietly mastering the secrets of his pupil, may not be telling the world what he has discovered, but he may have acquired the suggestion that leads him to believe that some day he will, after infinite patience and worry, be able to show the whole world that the awkward, hunch-lacking baby trotter of the present, is the real heir to the throne. Then will the critic wonder what it was the trainer saw that caused him to persevere with the "ungainly little brute" and if he is fair will admit that the trainer who is doing things has eyes—perhaps feelings—for things that he cannot herald to the world.

A trainer's work demands sobriety, coolness, a light hand, a low persuasive voice, a keen observant eye and a natural love for the horse. He must be untiring in his labor, and patient and painstaking at all times, and when night falls there is no man who enjoys his rest more than a trainer who has worked faithfully to have his horses in the pink of condition and is satisfied they are doing all that he demands of them.

A few weeks more this trainer will be packing up his sulkies, boots and paraphernalia, and with his men will lead his horses to the railroad depot for shipment to the first race meeting for which all his horses are entered, and, with the best wishes of his neighbors and friends he bids adieu for a time to the old familiar box stalls and race track and hopefully hastens away to battle for honor, glory and a share of the purses and stakes.

PLEASANTON! There is not a town in California that is better known than it. Wherever trotters and pacers are known its fame is heralded. Its beautiful situation nestling at the foot of the coast mountains which overlook the famous Livermore valley, its climate unsurpassed, soil the richest, its race track the best, and its proximity to San Francisco make it one of the most desirable places to hold a race meeting in California; and this will be the last time those who bring their horses there will have an opportunity of keeping them in the old stalls, for Mr. R. J. MacKenzie, its proprietor, has planned a complete reformation of this driving park and when completed it will be one of the show places of California, with its mile and half-mile tracks, paddocks, lawns, new buildings, stalls, new entrance and everything made up-to-date. His enterprise in purchasing this place cannot be too highly praised and when the subject of holding a race meeting there in July (whence the horses could be shipped direct to Vancouver, B. C.) was spoken of, he readily acquiesced and said he would do all he could to see that a good meeting was held. The residents of Pleasanton joined with him in this and as a result the splendid sum of \$12,000 is offered for the meeting to be held there July 24th to 27th inclusive, entries for which close next Monday, June 17th; and it is the earnest wish of every horseman and every friend of the horse that a big entry list will greet the management. In Chas. De Ryder's care the track and its appointments will be in elegant condition and daily excursions will be held—these coming from Sacramento, Stockton, San Jose, Oakland and San Francisco and all intermediate towns. Owners and trainers should show their appreciation of the efforts of all connected with the Pleasanton Driving Park by sending in their entries on time. Remember the date for doing so is next Monday, June 17th, and this is the final announcement.

ENTRIES to the San Jose race meeting close to-day, June 15th. The events are: 2:20 pace; 2:15 trot; 2:11 pace; Driving Club pace; 2:08 trot; three-year-old pace; Driving Club race; 2:06 pace; 2:16 pace; three-year-old trot; 2:20 trot, and 2:12 trot. Entry blanks that have been issued with the date June 1st printed thereon, may be used to fill in the entries to-day, June 15th. Remember, this race meeting precedes the California State Fair.

ATTENTION is called to the advertisement of the Oregon-Idaho Fair and Racing Association list of racing events for an aggregate of \$40,000 which appears in our business columns. This circuit will occupy five weeks, the purses are big, conditions liberal and entries will close July 15th.

ENTRIES to the big three days' race meeting July 4th, 5th and 6th, will close next Thursday, June 20th.

POLO CLUB ELECTS NEW OFFICERS.

The San Mateo Polo Club has elected its officers for the ensuing year and promulgated a new set of by-laws. The officers are as follows: E. J. de Sabla Jr., president; R. G. Hooker, first vice-president; John Barneson, second vice-president; A. H. Redington, secretary and treasurer. Directors, E. J. de Sabla Jr., R. G. Hooker, John Barneson, E. W. Howard, H. P. Bowie, Geo. H. Howard, Thos. A. Driscoll, E. J. Tobin, Elliott McAllister. Committees—Finance, Hooker, Barneson and E. W. Howard. House—Geo. H. Howard, E. W. Howard. Sports—McAllister, Tobin, Driscoll.

J. A. MCKERRON HONORED AGAIN.

At the annual meeting of the Park Driving Club last Tuesday evening at the Palace Hotel the following officers were elected: John A. McKerron, president; S. Christenson, first vice-president; Ivy L. Borden, second vice-president; Dan E. Hoffman, third vice-president; T. F. Bannon, treasurer; J. W. Thompson, secretary; H. M. Ladd, historian; J. Perry, Captain W. Matson, G. Wempke and G. E. Erlin, directors.

The report of the treasurer showed that the club is now in a better financial condition than for years past.

The next matinee racing meeting of the club will be held at the Stadium track on Saturday, June 22d, entries to close on Monday, June 17th.

Important matters concerning harness-horse meetings will be acted upon by the board of directors at meetings in the near future.

STATE FAIR ATTRACTIONS.

At a called meeting of the amusement committee of the State Fair citizens' general committee, held at Sacramento last Monday, Captain A. W. Lewis was chosen as director of amusements, and will have charge and direction of all amusements and spectacles, entertainments and events to be given in connection with the next State Fair by the people of Sacramento.

When the proposition was first made by the citizens to the State Agricultural Society that \$30,000 should be spent on amusements, and a return to be made to the subscribers to the fund from the gate receipts, the offer was declined by the directors of the society, but in lieu they asked the people of Sacramento to take charge of all the advertising and special amusement features, for which the State Fair people will pay just as if they were doing the work. It is believed that in this way interest and enthusiasm of the people of the city will be awakened as in no other way.

The director of amusements says he will secure a list of attractions for the State Fair to eclipse anything ever seen there.

BON VOLANTE (3) 2:19 $\frac{1}{4}$ SOLD.

Capt. Wm. Matson, one of the leading business men in California, is an enthusiastic horseman and a reinsman of ability. He has always driven his horses carefully and well, although his victories have not been many because he did not have horses that were noted for their extreme speed and a desire to stick to their trotting gait. He won last Saturday with his Unimak gelding Wireless, and at the Fred Chase sale on Monday night he purchased one of the handsonest trotters of his size ever led into a sales ring. The price paid, \$300, was not one-fourth of his value, but, as Ted Hayes brought him from Los Angeles and stated he must be sold, the sale was made. This horse was Bon Volante (3) 2:19 $\frac{1}{4}$, a black stallion, four years old, sired by Bon Voyage 2:08, dam Missie Medium (also dam of Le Voyage 2:25 $\frac{1}{4}$), by Ranpart 2630 (son of Almont 33 and Kate Thompson, by Ericsson 130; granddam Lady Godwin, by Burr's Columbus); second dam Belle Medium 2:20 (dam of Stam B. 2:11 $\frac{1}{4}$, three sires of nineteen and two dams of four in 2:30), by Happy Medium 400; third dam Argenta, by Almont Lightning 1023 (sire of dam of Zombro 2:11, etc.); fourth dam Mary Adams, by Mambrino Patchen 58; fifth dam Mambrino Belle, by Mambrino Chief 11; sixth dam by Mason's Whip (thoroughbred). Bon Volante is a perfect likeness of his sire, and as he is sound as a new milled dollar and has not been worked for speed this year, Capt. Matson will take great pleasure in piloting this youngster around the course and will find that he can go straight and smooth and never become cranky, no matter if he has to face a strong headwind in his journey to the goal he is started for. We congratulate Capt. Matson in having such a royally bred, promising individual, and trust he will win many cups and prizes with him ere the winter rains put a check upon matinee racing.

NOTES AND NEWS

Joan 2:04½ is lame and has been sent to Kentucky to breed to Peter the Great.

Ruth Dillon 2:06¼, raced to her record by Milard Saunders, will be raced again this season.

Stake entries in the Vancouver race meeting will close today (June 15th.) Read the advertisement!

Entries to the big meeting at Pleasanton will close next Monday, June 17th (Bunker Hill Day.)

With three payments made there are still thirty-one trotters in the M. and M. and thirty pacers in the C. of C. Stakes at Detroit.

Fred Ward, the well-known horseman, has taken full charge of the race track at Los Angeles and will keep it in first class shape.

W. G. Durfee is at Detroit, Michigan, with a small but select string of trotters and pacers which he will race throughout the Grand Circuit.

A wonderful old horse is Baron Wilkes 2:18. On his thirtieth birthday he was hitched to a jog cart and driven five miles.

Ed. Geers, it is reported, is to get Del Rey, the California four-year-old that paced three miles better than 2:06 last year.

Consuelo S. 2:07¾, by Directum 2:05¼, has a brown colt at foot by Bingen 2:06¼ that is picked by good judges as the best of the 1912 foals at David M. Look's Castleton Stock Farm.

Recent investigation of the pedigree of Charley Mitchell 2:04¼, shows that his grandam, Lucy, was by Judge Leland, a son of Sweepstakes, and that his third dam was Old Fan, by Toronto Chief.

Wm. Higginbottom, the well-known horse auctioneer recently sold his trotting gelding Direct Rome to Dan E. Hoffman, who will drive him in the matinee races at the Stadium.

Of all the faults that a trainer and driver can be accused of, none is so disastrous as carelessness. It loses more races, breaks down more horses and disgusts more owners, than any half dozen complaints that we know of.

Shirley Christy says the delay in issuing the entry books for the Pacific Coast Circuit was caused by a printers' strike in Phoenix, Arizona, where he was getting this work done.

Entries for the Woodland race meeting will close Thursday, June 20th. This promises to be one of the best three days of racing ever held over the splendid race track there.

The intense heat of the past few days prevented many track horses from getting their regular workouts. It was only necessary to jog them around the track once to get them in condition for a scrape.

Directum Girl, by Directum Kelly, dam Victoria, by Athanio, owned and driven by Trainer James Brown, entered the 2:30 list for three-year-olds, winning the Preis von Sasaloom at a 1:33 2-10 gait, at Vienna, Austria, recently.

Lou Billings has been bred to The Harvester, writes our Russian correspondent. How will this sound: Bay colt by The Harvester 2:01, dam Lou Billings (3) 2:08¾ by John A. McKerron 2:04½; second dam Lou Dillon 1:48½?

About 90 trotting meetings, most of them in connection with fairs, will be held in New York this year, which shows that this State still ranks second in number of meetings held annually, despite its severe laws against public betting.

Director T. J. Crowley, one of the directors of the P. C. T. H. B. Association, is motoring through the southern part of California, where he is interested in many oil wells. He will visit the race tracks of Los Angeles and San Diego before he returns to this city.

A number of trainers will move to Hastings Park track, Vancouver, B. C., next week. Al McDonald is coming in from Seattle, Geo. McPherson from Los Angeles; Wm. McGilvery's stable came in from Chilwack last week and it is quite likely that all the horses in training at the Minoru track will move over, now that the Hastings track is in first-class condition.

Another of our well-known turf writers has passed away. Hugh E. Keough, one of the brightest in the profession, died at Chicago last Monday. The deceased was connected with the "Chronicle" in this city and made many friends on this Coast. He was made sporting editor of the Chicago "Times" and occupied that position at the time of his death.

Ben Walker brought two horses to Pleasanton last Friday which he will prepare for the Pacific Coast Circuit. They are Chas. F. and The Statesman. He will also have June Pointer in his string to take the place of Teddy eBar 2:05 this year.

The "peeping game" in reality causes more spills than the hopples, as more than half the accidents occurring in races, are the results of drivers taking their optics off their horses long enough to learn how the other boys are coming along.

Great preparations are being made for the Breeders' Meeting at Stockton this year. That entry list which was published last week created quite a sensation among the trotting horse enthusiasts there when they heard of it, and everybody in the "Mill City" is talking about it.

The Salinas Driving Club held a meeting last evening and decided to advance the date of the next race meet from July 4th to Saturday afternoon June 29th. This is done to permit members to attend celebrations of the Fourth elsewhere—at King City and San Ardo, for instance.

"Red" McDonald, caretaker of Joe Patchen II, and shipping clerk of the MacKenzie stable, is said to know the mileage of every principal railroad in the United States and Canada and the location and box car capacity of every sidetrack between New York and San Francisco. Jas. Cowan of Winnipeg is responsible for this bon mot.

The black gelding Wireless, which is owned and was driven to victory at the Stadium last Saturday in 2:27¼ and 2:28* by Capt. Wm. Matson, was sired by Unimak (brother to Sterling McKinney 2:06¼) out of a mare by Hart Boswell. Wireless is a big gaited colt having plenty of ambition and with age will develop into a very useful trotter.

Mr. R. J. MacKenzie arrived in this city last Friday after spending a few days at Libertyville, Ill. He has been in Pleasanton watching his corps of employees laying out the half-mile track and with Superintendent Chas. De Ryder is completing plans for making this beautiful driving park and grounds one of the show places of California.

In 1902 with pool selling allowed and a wheel of fortune in operation the early closing events at Goshen, N. Y. meeting received 121 entries and it was considered a fine showing. This year with both the pool selling and the wheel of fortune barred the association has received 364 entries. The comparison indicates that the horsemen would rather race where pool selling is barred.

Al. Russell who trained at Los Angeles all winter won his first start at Edmonton, Canada, with his pacers Auto Zombro in straight heats. Time, 2:29¼, 2:28½ and 2:25¼. This was on May 28th. He also won second money with Helenes Jr., and first money with Hal McKinney the same day. It was a Russell day, sure enough!

If the brown colt foaled at the Dromore Stock Farm last week which was sired by Barongale 2:11½, out of Sonoma Girl 2:04¼ is as handsome and perfect as the bay foal by The Bondsman, out of Lottie Lynwood (sister to Sonoma Girl 2:04¼) belonging to Chas. Butters, of Oakland, then the owner of Sonoma Girl will have reason to be happy, for the California colt is conceded one of the highest formed youngsters seen in many a day.

Entries for the Vancouver race meeting's most important events, viz: The Free-for-all Hotel Proprietors' stake, \$2000; 2:25 trot, Citizens' stake, \$3000; the 2:05 pace, Vancouver Breweries' stake, \$2000; the 2:30 trot, Merchants' and Manufacturers' stake, \$1000, and the 2:20 pace, Cascade stake, guaranteed by the Vancouver breweries, \$1500, will close today (Saturday, June 15th.) Don't overlook them!

Attention is called to the extension of time for the making of entries in that \$10,000 Los Angeles Futurity stake. This will give owners of foals of 1912, until July 1st, 1912, an opportunity to make entries, and every owner of a good colt or filly on the Pacific Coast should read the notice in our business columns and send for an entry blank at once. They cannot and should not overlook this, the largest and best futurity stake that was ever offered in California.

Last Saturday Mr. R. J. MacKenzie received the following account of the workouts of some of his horses at Libertyville, Ill.: Vernon McKinney 2:11, Joe Patchen II 2:11, Bert Kelly 2:12½, Maymack 2:12½, J. C. Simpson 2:15, Merry Widow 2:12, Harry Direct 2:11, The Earnest 2:13, Graham Bellini 2:25, Pan Boy 2:13, Star Brino 2:13 and Peter Preston 2:10½. All the horses are looking well and from this time on will be keyed up a little stronger.

It is nonsense to undervalue a horse simply because he has reached the age of ten years. If at that age a horse is sound and free from objectionable habits, he is a safer purchase, in a way, than one at five years. The older horse is less liable to sudden or acute attacks of disease such as colic, etc. If sound and all right at ten, the average horse is good for many years of reasonable service if properly cared for.

Remember, entries to the big meeting at Pleasanton will close next Monday, June 17th. Everybody owning a trotter or pacer should make an entry, give this beautiful track a "hoost" and show an appreciation for the efforts made by Mr. R. J. MacKenzie, its proprietor, to place the light harness horse industry of this Coast on the high road to popularity. Read the advertisement, note the liberality of the conditions and send in your entry.

Mr. A. B. Spreckels, of the Napa Stock Farm, bred Edda, the winner of the King Edward Cup, 1¼ miles, last week at the Woodbine, (Canada) track in 2:10¾. The track was very heavy and as Edda carried 112 pounds, it can be considered a fast race. Last week Mr. Spreckels shipped two thoroughbreds to Salt Lake City to race, and undoubtedly they will be the first to flash by the judges' stand at the finish of each race they start in.

M. I. Higgins, owner of King Brook 2:07¼, has engaged eight stalls at the Kalamazoo, Mich., track and will do his early summer training there. King Brook 2:07¼, his three-year-old brother Brook King and two-year-old sister, Alma Brook, also a green trotter by The Bondsman, are in the string and are extensively staked in their classes all down the Grand Circuit. If all of these horses should prove worthy of their early engagements it will be a new record for the Northwest.

A racing circuit composed of Baker, Ore., Ontario, Ore., Caldwell, Idaho, and probably Boise, Idaho, and La Grande, Ore., will be arranged and rates fixed for a series of meetings at these towns this fall. Uniform conditions will prevail throughout the circuit and a systematic effort will be made to attract horsemen to these meetings. The dates and conditions will be announced later. Two \$1,500 purses will be given at each meeting for 2:20 trotters and 2:15 pacers.

Oimutz, the five-year-old trotting gelding by Zombro 2:11 that Johnny Ray purchased in California, last winter, will be used in the matinees at Cleveland this summer, as he has not yet shown expected ability. In 1910, when a three-year-old, this gelding participated in a futurity event at San Jose, and, though back of the money, was nevertheless said to have shown three miles around 2:16. He is a good looking gelding and may be benefited by a summer's experience at the fun game.

J. Aker, of Stockton, reports the death of his fine stallion Derby Ash 18038, as the result of a broken leg. Derby Ash was foaled in 1891, at the Oakwood Park Stock Farm. He was sired by Chas. Derby 2:20, out of Addie Ash, by Indianapolis 517; grandam Addie H., by Ashland Chief 751; great grandam Old Lady (dam of Little Miss 2:26½, etc.), by Captain Walker. He was the sire of Deputy 2:13¼ and a number of very handsome colts and fillies. Mr. Aker considers one colt by this horse worthy of being called Derby Ash II.

Wolf teeth are generally supposed to have an injurious effect upon the eyes. This is a mistaken idea. They seldom do any harm, unless they are large and in such a position that they interfere with mastication; but being supernumerary and having no function they should be extracted. The somewhat common habit of knocking the crowns off should not be followed. They should be drawn with a pair of forceps. Sufficient attention is not given to a horse's teeth, and a dollar spent for having them dressed by a reliable veterinary dentist, is usually a good investment.

Pronto J. was purchased from Jack Pidgeon for \$1,000 by R. M. Sebastian, of San Diego, last week. Pronto J. is a royal-hred fellow, besides showing lots of early speed. He is by Strathway 2:19, sire of four in the 2:10 list, dam Kelta by Aladdin, son of Electioneer. Mr. Sebastian worked him ninety days and showed the owner a mile in 2:20. When at the track twenty days more he trotted a mile in 2:15¼, last half in 1:06¼, last quarter in 32¼ seconds, when the sale was made. The rail birds all tout him a 2:10 trotter before the season is over. Mr. Sebastian will race him with his string through the Canadian Circuit commencing June 28th at Calgary, Alta.

The only big stable of horses to be campaigned in the Grand Circuit, the members of which were up to 2:10 form before the middle of May is that of the Canadian owner, R. J. MacKenzie, wintered by Havis James at Pleasanton, Cal. Owing to the cold, rainy spring, none of the horse wintered in the South and East had reached anything like 2:10 form by the middle of May; indeed, most of them had not reached the 2:20 stage at that time. It will be interesting to compare the performances of the MacKenzie horses with those so much behind them in form when they started on the season's campaign. Some well-informed men are of the opinion that trotters and pacers booked to begin their racing in July can be brought up to 2:10 form too early in the season, while others hold the opposite view. The backward season that prevented the Eastern trainers from getting their horses into form for fast work until nearly the first of June, will afford an opportunity to see whether or not such conditions have adversely affected their horses as compared with the conditions which existed in California and which the trainer of the MacKenzie horses took full advantage of.—Horse World.

The mutuels at Montreal will be operated under the French system, a set of pads from which the tickets are stripped showing the number sold, instead of registering them by a machine.

The group of representative citizens who have been promoting the county fair to be held in Modesto September 4, 5 and 6, under the name of the County Fair Committee last Wednesday formed a definite organization to be known as the Stanislaus County Fair Association. A. L. Rutherford is president and W. K. Bassett is secretary. Other officers are to be elected at the next meeting which will be held two weeks from Saturday, June 22. S. P. Elias was substituted on the invitation and transportation committee for C. D. Whitmore who was unable to serve. G. O. Hillier was placed on the finance committee.

Havis James is laid up in bed at Libertyville, Ill., as a result of a kick received on Saturday after finishing a workout mile with Joe Patchen II, alongside Harry Direct. "The bull" made a lunge at the latter horse and let fly with both hind feet. Luckily James was driving to a cart; even then one of the Patchen horse's hoofs struck one of James' knees a glancing blow and cut open a gash which required five stitches. James kept bold of his horse till he got to the barn and then sent for a doctor, who put Havis to bed. The doctor says James will be laid up several days, if not a couple of weeks, but believes no bones were fractured. The scribe who recently described Joe Patchen II as good mannered certainly has little knowledge of the horse, whose nickname, "the bull," aptly described him. George Spencer, who was driving Harry Direct at the time of the accident, says if the horse was a mare he would name her Maud, for he kicked out with both feet straighter and farther than the illustrious mule of cartoon fame. Stable gossip says that hereafter the big horse will not be humored as heretofore, and an effort will be made to take some of the devilishness out of him.

Following is the pedigree of Emmeline 2:08 3-5, the fastest pacing mare seen in Australasia: Sired by Rothschild, out of Imperialia 2:25 1/2 by Prince Imperial; second dam Shamrock by Dexter; third dam by Horaby, thoroughbred. Rothschild was sired by Childe Harold 414 (son of Harold 413, out of Young Portia, great broodmare, by Mambrino Chief 11; second dam Portia by Roebuck; third dam by Whip), dam, Belle Briggs (daughter of James Lick, he by Homer, son of Hambletonian 10 and a mare by New York Rattler, grandam by Imported Consternation, etc.). Rothschild's grandam was by John Nelson 187, out of a mare by Imported Glencoe. Prince Imperial was sired by Hambletonian Bell Boy (he by Ulster Chief 18011, out of a mare by Bell Alto by Williamson's Belmont; grandam Old Peggy by Easton's David Hill, great grandam by Shattucks Black Hawk), out of Princess by Dexter (son of Traducer, a thoroughbred, the sire of Modred, Cheviot, etc., and Gentle Annie by Sportsman, another Australian thoroughbred); second dam the Prickwillow mare. This horse Dexter also sired the grandam of Emmeline. There is a peculiar blending of trotting and thoroughbred strains of blood in her veins and it is not to be wondered at that she has proven such a good mare.

THE WOODLAND MEETING.

As this is the last notice published before the date set for the closing of entries to the Woodland race meeting (June 20th) the attention of horse owners and trainers is called to its programme in another column. The Woodland race track has long been noted as being one of the fastest, safest and best in the United States, and Mr. Alex Brown, the proprietor, will see that it is fully up to its reputation this year. There are nine races to be decided at this meeting, viz: a 2:25 trot, 2:15 pace, a 2:12 trot, a 2:08 pace, a 2:08 trot, a 2:25 pace and three matinee races, and it is earnestly hoped a big entry list will be sent in for these events. President F. C. Worley and Secretary O. D. Payne are working to make this race meeting a success and as the trotting horse men throughout California are striving hard to prove that the industry they represent is in a very flourishing condition, they cannot demonstrate their belief in it more strongly or in a more convincing manner than by aiding the management of the Woodland race meeting by naming every candidate for class honors and a share of the purses in this meeting. Remember the date for sending these entries in closes next Thursday, June 20th, and this is the last notification.

SANTA ROSA WILL HAVE RACING.

Mr. S. H. Burns, the genial and enterprising owner of the far-famed Santa Rosa race track, has decided to conduct a race meeting there commencing July 15th and ending July 20th—three days. There will be six harness races and three running races during the meeting, as can be seen in the advertisement, and horsemen who are to start their horses on the Pacific Coast Circuit will find that in Santa Rosa there are the advantages they desire, such as a fast and safe track, a genial climate, plenty of stall room and one of the prettiest cities in California at hand. Entries to this meeting will close July 1st and no horse owner or trainer can afford to omit it from their itinerary.

MADE SECOND PAYMENTS.

Following is a complete list of entries in the Canfield-Clark Stake No. 4, with the names of their owners and Sires, that made second payments:

- Mrs. F. H. Burke's Yoncalla, ch. c. by Bon Voyage.
- Alex. Brown's br. c. by Prince Ansel; b. c. by Prince Ansel; br. f. by Nuristo, and br. f. by Nuristo.
- I. L. Borden's Sally M., ro. f. by Charlie D.; b. c. by Barney Barnato; br. c. by Barney Barnato, and b. f. by Barney Barnato.
- D. L. Bachant's Athleen, b. f. by Athasham, and Handy Andy, b. g. by Athasham.
- C. A. Canfield's b. c. by Carlokink; b. f. by Carlokink, and ch. f. by El Volante.
- J. E. Connell's Edwards Belle, blk. f. by Kenneth C. W. G. Durfee's Esperanza, b. f. by Carlokink; Ethel D., b. f. by Carlokink; b. c. by Copa de Oro; De Oro, b. f. by Copa de Oro; b. c. by Carlokink; b. c. by Carlokink; Carlotta D., blk. f. by Carlokink; g. c. by Carlokink, and Blanche Hall, br. f. by Directum Penn.
- Wm. E. Detels' Bonnie Melbo, b. f. by Bon Guy.
- Revel L. English's Cousin Hattie, f. by Owynex, and Clara Kinney, f. by Owynex.
- M. C. Keefer's La Jolla, sr. f. by Adansel; Delzura, b. f. by Adansel, and br. f. by El Zombra.
- M. B. McGowan's Healani, br. c. by Zoelock.
- John McLeod's Bel Bar, b. c. by Belmar.
- Mrs. Mabel Lopson's Palicia, ch. f. by Best Policy.
- Dr. A. D. Hubbell's Esperanza H., b. f. by Clay Edwin.
- Hemet Stock Farm's Nealon, b. c. by Worth While; Frank H. Holloway, ch. c. by Geo. W. McKinney; Geo. W. Carter, ch. c. by Geo. W. McKinney, and Col. Mayberry, b. c. by Geo. W. McKinney.
- W. A. Clark's Bon Courage, ch. c. by Bon McKinney.
- C. C. Price's Miss Embro, by Embro.
- Chas. W. Winter's Clancy, b. c. by Alarich.
- P. H. Smith's El Volante S.; br. c. by El Volante; Roseval S., br. f. by El Volante, and Zomarine S., b. f. by Zombro.
- A. L. Scott's Bonnie Rose, b. f. by Le Voyage.
- W. N. Tiffany's Carniss, br. f. by Carlokink.
- James Stewart's Patrick De Oro, b. c. by Copa de Oro.
- J. J. Campbell's Bon Cross, blk. c. by Bon Voyage.
- H. M. Witeman's br. c. by Zombro.
- R. B. Witeman's blk. f. by Joe Lock.
- J. W. Zibbell's foal by Tom Smith; foal by Tom Smith, and foal by Eddie G.
- Homer Rutherford's Bonnie Porter, b. f. by Bon McKinney.

CALIFORNIA STATE AGRICULTURAL SOCIETY.

The following have made fourth payment to date in the Stanford Stake for 1912:

- Alex. Brown's Gayristo, by Nushagak.
 - W. G. Durfee's Santiago, by Carlokink.
 - Arthur Hardy's Miss Helen, by Greco B.
 - D. W. Wallis' Sissy, by Greco B.
 - Hemet Stock Farm's Wilbur Lou, by Kinney Lou.
 - J. B. Iverson's Salinas Star, by Nutwood Wilkes.
 - A. L. Scott's Nutwood Lou, but Nutwood Wilkes.
 - Smith Music Co.'s Valjejo Queen, by Lynwood W.
 - F. E. Ward's El Bell Maden, by Almaden.
 - D. L. Bachant's Solson, by Athasham.
 - J. W. Zibbell's Baby Doll, by Tom Smith.
- The following have made third payment to date in the Stanford Stake for 1913:
- L. E. Barber's Burke, by Lord Isle.
 - I. L. Borden's not named, by Barney Barnato.
 - I. L. Borden's Carlos, by Carlokink.
 - I. L. Borden's Fulton G., by Carlokink.
 - Bowman & Maurer's Peter Huck, by Blue Pointer.
 - John W. Conside's Lottie Ansel, by Prince Ansel.
 - John W. Conside's Laura, by Prince Ansel.
 - E. M. Barker's Arista Ansel, by Prince Ansel.
 - Mrs. S. V. Barstow's Mc. McKinney, by Nearest McKinney.
 - Mrs. S. V. Barstow's Lady Alto, by Alto Express.
 - E. D. Dudley's Hazel Bee, by Palite.
 - W. G. Durfee's Dr. Hagan, by Del Coronado.
 - W. G. Durfee's not named, by Del Coronado.
 - W. G. Durfee's not named, by Del Coronado.
 - Hemet Stock Farm's Miss Gaily, by Geo. W. McKinney.
 - Hemet Stock Farm's Eradicade, by Geo. W. McKinney.
 - Hemet Stock Farm's James S., by Geo. W. McKinney.
 - W. J. Irvine's California Mc., by McKena.
 - Mrs. R. S. Irvine's Al La Moscovita by Alconda Jay.
 - P. S. Pfeiffer, Anita Malone, by Alex. Malone.
 - Dana Perkins' Danae, by Stam B.
 - A. L. Scott's Bon Prix, by Bon Voyage.
 - C. A. Spencer's Star Ansel, by Prince Ansel.
 - I. E. & C. K. Short's Rubber Girl, by Skido Wilkes.
 - F. E. & C. K. Short's Flora May, by Skido Wilkes.
 - Thomas Smith's Valjejo Maid, by Demonio.
 - W. A. Clark's Zombowage, by Nobage.
 - Jas. Thompson's Guacho, by Nobage.
 - F. E. Wright's Iva W., by Prince Ansel.
 - F. E. Ward's Eagle M., by Escabado.
 - Geo. L. Warlow's not named, by Athadon.
 - J. W. Zibbell's not named, by Tom Smith.
 - J. W. Zibbell's not named, by Tom Smith.

THE FRED H. CHASE SALE.

The attendance at this sale last Monday night was fair considering that there were only a few really high class trotters and pacers to be sold. Bidding was light, notwithstanding silvery-tongued Wm. Higginbottom worked harder than he ever did in his life to get bids. The mare Beatrice Zombro (the magnet of the sale) was lame and withdrawn, while several of Charles Johnson's horses were taken sick and could not be shipped. The exhibition of Los Banos saddle horses by Prof. W. L. Anderson was very interesting and several of them were sold. Following is a list of the trotters and pacers that brought \$100 and over. The balance of the thirty head sold for \$65 up:

- Bon Volante (3) 2:19 1/2, h. s. by Bon Voyage-Lucille Medium, Capt. Wm. Matson.....\$400.00
- Voyageur (3) 2:23 1/2, b. g. by Bon Voyage-Lucille May, David Dillon..... 285.00
- Romeo, b. g. by Prince Charles-Princess. D. Quinlan..... 150.00
- Main Guy, br. g. by Oro Guy-Nina E. A. Mich..... 160.00
- Gallioa, b. g. by Birdman-Mary E. M. Tabbri, 147.50
- Roman Boy (2) 2:19 1/2, b. g. by Zoelock-Wanda, Dr. Doherty..... 125.00

John E. Madden (1) 2:27, will be known hereafter as Magowan.

CARE OF THE SUCKLING COLT.

There will be a difference of from twenty-five to fifty dollars in the selling prices of horses determined by the management they have received when they were colts. The colt that three or four years ago was allowed to follow its dam to town or church, or to drag its weary limbs back and forth after the mare from one end of the corn field to the other, from morning till noon and from noon till night, has not developed as it should and sells at anywhere from twenty-five to fifty dollars less than it would have brought had it been properly cared for.

We do not know what the price of horses will be when the sucklings of this year are put upon the market; but whether that be high or low, it will pay to give them Christian treatment. They are young; their bones are soft; and while they like to play and have a good time, they are easily tired out, and hence should not be allowed to follow the mare further than the stable door or the barn yard. She will probably fret and worry about her baby for the first day or two, but the farmer can afford to unhitch her at about ten o'clock, give her a drink of water, let her cool off, supply the wants of her baby, and then go back to work.

If the colt is kept in a roomy stall, or, better still, in a paddock, or in a hog pasture well fenced, preferably with some other colt or idle horse to keep it company, it will soon be content to stay at home; in fact, will not know that it can go outside of the enclosure in which it is confined, whatever that may be.

After it is three or four weeks old it will begin to get hungry; but a little fresh grass, if there is a pasture convenient, or a little bran, oats, clover or timothy hay, will stay its stomach until feeding time comes. In fact, the well bred colt will always pay a good price for anything that is fit for it to eat. Hence no farmer should stint his suckling colts.

Remember, that in the first year, particularly in the first six months, you are laying the foundation, building the frame work, so to speak, on the lines of architecture you laid out when mating the dam. No matter how well bred the colt, it must be developed. The plan of the architect must be carried out, and this can be done only by proper feed, shelter, and care.

Teach the colt that you are its master—omnipotent so far as it is concerned—whose will cannot be resisted, and yet though powerful are kind, disposed to be friendly, even generous. All this takes a little time and trouble; but it is time that is well spent and trouble that pays.

MATINEE AT NATIONAL CITY.

Fully two thousand persons attended the matinee trotting races at the Sweetwater track last Sunday making what is said to have been the largest crowd ever seen at that track. The races were for prizes only.

Pogi and Ebony W. made the first race in four heats, Pogi winning the first in 2:19 1/4, Ebony W. the second in 2:23 1/2, and Pogi the third and fourth in 2:21 and 2:24.

In the second race, Jack Rice entered Alef W., Charles Spencer entered Laura Rogers, and E. M. Barber entered Nuristo, for the best two in three Barber won the first and second, and Spencer was second in both heats. The time was: First, 2:22 and second, 2:20.

The third chanter was called the "Gentlemen's Driving Race." Prince was entered by Higgins, Gentry by Knuck, and Tuffey by Carpenter. Tuffey won the first and second heats; Gentry was third in the first and No. 2 in the second; Prince was second in the first and third in the second.

Prince and Gentry tried a third heat to decide the tie, Gentry winning. The time was: Tuffey 2:31. Gentry 2:34, and Prince 2:36.

Nuristo and Laura Rogers are said to be two of the finest "green" horses in the State, and they are expected to be heard from later in the season. It is thought now that Spencer and Keefer, proprietors of the track, will have another matinee on July 4th, just prior to beginning the summer season.

The judges last Sunday were A. J. Dahl, Steve Brown and William McConnell.

OREGON-IDAHO FAIR CIRCUIT.

There are five live, wide-awake cities composing this circuit, viz: La Grande, Oregon, Baker, Oregon, Ontario, Oregon, Caldwell, Idaho, and Boise, Idaho, and by uniting their forces on this 201-mile circuit they are able to give \$40,000 in stakes and purses at these places, commencing September 9th, and ending October 11th. The programmes are published in this issue and should attract an excellent entry list. The date for closing of entries on this circuit is July 15th and the Secretary, Leon J. Chapman, of Ontario, Oregon, will do all he can to treat all visitors cordially.

The watchword of the Oregon-Idaho Circuit is "Progress," and its sole purpose is for the advancement of the light harness horse and the thoroughbred. The programmes of events for each day during this five weeks of racing are similar, the conditions are very liberal and as there is a running race each day there should be no trouble in getting a goodly number of entries.

Drink Jackson's Napa Soda.

THE SEASON'S PROSPECTS.

Whenever there are three or four days of pleasant weather in a bunch the State Fair Grounds become a scene which gladdens the eye of the lover of the trotter and pacer. Tuesday and Wednesday, then Friday and Saturday have been picked by the trainers of the 100 and odd horses at the track as the days when a little speed is to be made. The first named pair were all right last week and enough was accomplished to show that when the bell rings there will be plenty of horses ready for efforts which will result in as much speed as the relative week has produced in other years, says Frank S. Cooke in the Detroit Free Press.

At Libertyville, Readville, Poughkeepsie, North Randall, Indianapolis and Columbus, which are the favored tracks north of the Ohio river, there are plenty of indications of speed. The trainers who can't help it are hiking now and then, but the rank and file of men who have a habit of going to the races and coming away with some of the other fellows' money are in no great rush.

In just six weeks from Monday the Grand Circuit will open at Grand Rapids, and this meeting, together with Kalamazoo and Detroit, will have the distinct advantage of seeing a lot of horses which have not been drilled to death. What the northern stables that waited until late last June to make speed did to the rest of them in the racing season was a bint to the wise.

The principal stable in training at the State Fair Grounds is that of W. L. Snow, who has been here a couple of weeks. Snow winters his horses at Hornell, then goes to the covered track at East Aurora for March and April when roads are bad and weather unsettled, usually heading for Detroit early in May. He finds that the combination is a winner, and now he is training twenty-eight horses, a number of which are in the stakes and others will be raced in the purse events at the Blue Ribbon meeting, and again at the State Fair in the fall.

While Snow has been referred to as one of the best trainers and drivers of pacers in the business he has some exceptional trotting prospects this year, and interest centers in the campaign of several of them. The best known of the lot through the chattering in the coal stove circuit, when the snow was deep and the air was cutting, is Marie McKerron, a mare that was bred and is owned by a Detroit man. Marie is being pointed for the M. and M., which is the big event of the American turf. She was schooled all last year and beat 2:09. She wintered well and on Wednesday last she trotted in 2:27½, the last quarter at the rate of 2:15, which suited her trainer. A better looking, better acting and better gaited trotter is not being trained anywhere, and while it is asking a lot of any horse to win the Blue Ribbon classic she surely has a chance.

Gray trotters are becoming uncommon but Snow happens to have two this year in Oakdale and Gray Gem. Oakdale is a young horse and took a record of 2:12½ when they had to drive him out at Columbus in the fall. He showed that he could beat 2:10, and while he is not as far advanced as many of the others of the stable he promises to figure in later events.

Gray Gem, the old sport whose attempt to come back was dwelt upon last Sunday, also is a sort of a gray, and he is so chipper this year that Snow believes he will be among those present in some of the finishes. Gray Gem, like Pearl Pauline and Husky Harry, trotters, is by Dancourt, the Kalamazoo bred horse that won the Horseman Stake for four-year-olds at the Grosse Pointe track in 1894. None of the trio has had much work, not being sent to know until after the season on the indoor track.

Senorita, the good daughter of Marble Grit and Bonanza, is working nicely and may bother some of the colts in the three-year-old events down East. Elizabeth Ray, also owned here, is coming along nicely and has been a mile in 2:30. A big sorrel trotter owned by the Detroit and Jackson confederacy, stepped in 2:32, quarter in 3¼ seconds, the first time hooked to a sulky and could have beaten 2:25. They are talking about the M. and M. of 1913 for this one.

The Snow stable is not devoid of pacing material by any means, on the contrary it is as strong as ever. With Zombrewer and Eddie Dillard for the fast classes, Grand Opera, Spray Norwig and Sadie Hal for the stakes and Major Odell, Beth Clark, Myra Pelle and a few others for the classes, the man from Hornell probably will walk to the place where they pay off as many times as any of the drivers.

The Michigan filly, Myra Belle, now four years old, is farther advanced than any excepting Major Odell, with which horse she worked a mile in 2:23½ last week. Whether to save Myra for next year is a question with the trainer and owners, as she is a splendid pacer.

Grand Opera, the reliance of Canada in the Chamber of Commerce and other stakes, has been a mile in 2:26. There is no doubt about this fellow, as he is a real pacer and has shown that he can race with any of them. Sadie Hal, also in the stake, has been in 2:25½ and Spray Norwig, that joined the stable late, in 2:29½.

Eddie Dillard should have a great year and improve upon his mark of 2:06¼. He has been in 2:23½ and Snow likes him. Zombrewer, a late comer, seems to be in fine shape. She has worked in 2:30, but there never is any danger that she will not make speed.

Taking into consideration both branches, Snow has one of the best stables in the country and that

the horses will be intelligently trained and ready when the time comes goes without saying. Snow has more Michigan horses than any outside trainer, showing bow he stands in this State.

Monster entry lists which have been announced by the Grand Circuit cities might lead to the belief that racing is to be confined to the mile tracks, but such is not the case, for the twice around ovals, where early closing events are featured, never did so well in the past as they have this year. This makes it look as though more horses now are in training than ever in the history of the light harness turf, and one of the reasons for this popularity of this sport is the decline of running races through adverse legislation brought about by the greed of the promoters of these contests.

Of the half-mile tracks Goshen is an easy leader. For many years meetings have been held at this town near which Hambletonian 10 was foaled, and backed by a most liberal patroness the association is able to give purses of Grand Circuit dimensions for horses which are in the habit of performing for about 20 per cent of the amount. Goshen gives a three days' meeting in August and 360 horses are named in the events on the card, in itself a record.

Monroe, which is close to Goshen and co-operates with that track, has 318 entries, and the figures of the two towns beat those of any pair in the big line. Goshen gives every driver who wins in straight heats \$50 and Monroe likewise has a special prize for hustlers, so there will be some horse racing at these meetings.

Parkway, which is on the edge of Great New York, gives a summer meeting and its early events have attracted 140. These three meetings make plain that the sport is not dead in the Empire State in spite of laws intended to suppress the runners, but which are so drastic that they are un-American.

Massachusetts boasts of one half-mile track that is second to none. This is at Brockton, where a big fair is held each fall. The Brockton races have been a great attraction for many years and the officers of the association have increased the inducement to keep pace with popular demand until their entry list stacks up alongside of that at Readville and the swell tracks of New England.

This year Brockton is giving seven \$1000 purses and it is of interest to note the response from owners. Here is how they filled: Two-year-old trot, 42 entries; three-year-old trot, 34; 2:28 trot, 38; 2:19 trot, 29; 2:16 trot, 14; 2:19 pace, 28; 2:14 pace, 26, an average of more than 30 to the race.

In some places the half-mile track sport goes on just the same, year in and year out, and the managers of the associations should pay attention to what has been accomplished by the towns above mentioned. Not only can they make more money by so doing but they can give their patrons a better show, and there is room for improvement in the attraction.

There is no class of racing on the Grand Circuit of which more interest centers than in the futurities for two and three-year-olds. Millions of dollars are spent annually by the rich men who make racing what it is in their endeavor to breed or to buy colts that can win the stakes. They have done this for years and will keep on as long as racing is in favor, for the average of these men strikes everything off the other page in the ledger if he happens to win a futurity.

The half-mile tracks have been copying the idea and this year a number of them have stakes for young trotters. Particularly is this so at Goshen and Brockton, and at the last named place a futurity of \$5000 to be raced three years hence closed with a good entry. The Western tracks have had colts racing for a number of years and have graduated some high-class young things from their lists of victors.

Whether colt racing is a good thing for the colts themselves is a mooted question, but it is a good thing for the half-mile tracks. The average man has a remote chance of winning one of the big futurities where the pace is very swift, but if he could start his colts on a nearby half-mile track he would have them trained. One of the Michigan tracks, Bay City, has added colt races to its fall program this year and it is known that others are going to take the step next year and make the juvenile sport a big thing on their bills.

As usual the first professional racing of the year will be on the half-mile tracks in Canada, where they never are troubled in getting horses ready early and keeping them in shape late.

In connection with the Canadian habit of racing for two months on the ice in the winter and then for five months in the spring, summer and autumn, it is worth while looking at what some of the horses owned there did last year. They raced longer and started oftener than horses that were handled with gloves in the southern training camps and by the average Yankee driver. Here is what a few of them did:

Hal D. 2:11¼ started 17 times; Hal Direct 2:10¼, 12 times; Nettie Ethan 2:15¼, 19 times; Knight Onwardo 2:11¼, 17 times; St. Anthony 2:10¼, 17 times; Harry Hill 2:11¼, 12 times; Emily Morris 2:16¼, 13 times; Princess Eleanor 2:23¼, 14 times. This list does not include the starts on the ice, so that it is safe to say that some of the Canadian horses went to the score in two dozen races. They were struggling to their utmost in May and doing the same thing in October, then they came back and raced through January and February, when the thermometer refused to work. Either they are a great breed or the American trainers are in wrong.

BUTCHER DAY RACES.

Threatening weather did not in the least disturb the gaiety at the nineteenth annual celebration of the Retail Butchers' Association of San Francisco and the Oakland Butchers' Exchange, held Wednesday afternoon at Shell Mound Park and Emeryville. Fully 8000 persons were in attendance. Two places of interest divided the attention of the visitors—Emeryville track, where a series of barness races for valuable cups and cash prizes were held, and Shell Mound Park, with its foot races.

The dancing pavilion on the park grounds attracted the attention of hundreds and throughout the day the strains of "Everybody's Doin' It," "Alexander's Ragtime Band" and other popular ragtime selections kept the crowd going. Many viewed the foot races held on the park oval.

The races at Emeryville proved unusually well contested and a number of close finishes were recorded. Prizes in cups and cash aggregating \$3000 were distributed. A score of vaqueros from the stockyards of Oakland and Butchertown in San Francisco thrilled the gathering with daring exhibitions of roping, tying and riding steers.

Perhaps the closest finish registered in the trotting races was that of Vic Pointer, owned by Vic Verillac, in the second heat of the second race of the 2:20 class in the San Francisco Wholesale Butchers' grand stake race. Leading by a nose, the trotter crossed the finishing line in advance of Marin, owned by R. J. Lathrope. Demonio Nutwood, owned by W. B. Connolly, proved to be the star of this race, being awarded the first money and a handsome gold cup. Tell Tale, owned by Charles de Ryder, scored in three straight heats in the 2:25 trot, listed as the Oakland Wholesale Butchers' grand stake.

Only one minor incident occurred, following the finish of the eighth race. R. Asher, the owner and driver of Clipper Jr., keeled off his sulky and fell heavily to the ground in a faint. The strain of the race had been too much for Asher, and at the finish he suddenly released his hold on the reins, falling to the ground. Several attendants hurriedly rushed the horseman to an anteroom, where he quickly recovered.

The seventh race, a mile dash, free-for-all trot, was easily taken by Orlena, owned by Charles de Ryder. Walter Wilkes showed up well in the first quarter, but dropped back at the finish.

Following is the result of the harness races:

First race, maiden race, one mile dash—Won by Jim B. (George Algeo), Lady Dillon (Charles Kerner) second, Agnes Boyle (R. Asher) third, Casey McKinney (W. R. Harper) fourth. Time, 3:05.

Second race, 2:20 class, best three in five heats, San Francisco Wholesale Butchers' Grand Stake; cup \$500: Demonio Nutwood (W. B. Connolly) 3 1 1 1 1
Vic Pointer (Vic Verillac) 3 1 2 2 2
Little Medium (Frank Pereira) 1 8 4 2 3
Marin 4 2 6 4 4
W. J. K. 8 2 5 4 4
Homburg Belle 7 5 3 6 6
Lady Listowell 2 4 8 8
Vela A 6 6 7 5
Time—2:21, 2:22 2-5, 2:21, 2:22 2-5, 2:25.

Third race, butchers' race, mixed, one mile dash—Won by Kitty D. (W. M. Newman), Lassie M. (M. M. Bates) second, Clipper Jr. (R. Asher) third, Lady B. (B. Belloiomiini). Time, 2:26.

Fourth race, 2:25 trot, Oakland Wholesale Butchers' Grand Stake; cup \$500:

Tell Tale (Charlie de Ryder) 1 1 1
Sunset Belle (H. C. Ahlers) 2 2 2
Harold C. (H. Cohen) 3 3 4
Raymond M. (F. Matthes) 4 4 3
Harold K. 5 6 5
Laddie G. 6 5
Time—2:20, 2:21, 2:23.

Fifth race, free-for-all race, one mile dash, cups valued at \$130—Won by Senator H. (W. Malough); second, King V. (James O'Kane); third, Major Cook (William Higginbottom); fourth, Ray MacGregor (Dexter Prince Stables); fifth, Pilot (Frank Pereira); sixth, Ida M. (A. W. Kiel); seventh, May Day (S. Benson); eighth, Modicum (Hugh Boyle). Time, 2:21.

Sixth race, free-for-all, one mile dash—Won by Little Dick (A. Hoffman); second, Senator H. (William Malough); third, Happy Dentist (J. R. Ryan). Time, 2:20.

Seventh race, free-for-all trot, one mile dash, cups valued at \$130—Won by Orlena (Charles de Ryder); second, Walter Wilkes (Frank Burton); third, Modicum (Hugh Boyle); fourth, Major Cook (William Higginbottom). Time, 2:21.

Eighth race, 2:22 mixed, mile dash, cups valued at \$130—Won by Ida M. (A. W. Kiel); second, Kitty D. (William Newman); third, May Day (S. Benson); fourth, Mission Kid (Dan Healey), fifth, Queen Lil (Frank O'Shea); sixth, Darby Mack (J. McTigue); seventh, Clipper Jr. (R. Asher). Time, 2:23.

Sam Norris has, in his string of trotters at the Santa Rosa race track, a very strongly made chestnut trotting mare by Sidney Dillon; she is a full sister to R. W. P. 2:13¾, and is owned by Rayford Peterson. She is a little high in flesh and when worked a few months will undoubtedly be as fast as her brother. Her trotting action is perfect and the way she is improving is pleasing to her owner. Sam is also handling for Fred Emloy, of Marysville, a black stallion called Washington McKinney Jr., by Washington McKinney 2:17½, out of Hazel Turk by Silas Skinner 2:17; grandam Miss Brown (dam of three in 2:30), by Brown's Volunteer 1758; great grandam Maggie Dale, by Owen Dale, son of Williamson's Belmont. This horse is doing well. In another stall, Mr. Norris has Welbeck, by Washington McKinney 2:17½, out of Pilot D. by Daly. This horse is a pure-gaited trotter and is owned by Wm. Chisholm, of Petaluma.

Drink Jackson's Napa Soda.

MATINEE AT THE STADIUM.

The second matinee of the Park Amateur Driving Club was held at the Stadium last Saturday. Notwithstanding the sky was cloudy and the weather cool a good attendance was present. The track was not in the very best condition, especially on the lower turn. In compliance with the request of this club the Park Commissioners will remedy this defect immediately.

There were six races on the card, but only five were started, and at times the contests were very close. Some of the horses acted "rank," but after a few more races they will become settled.

A. L. Scott's Mamie Alwin so far outclassed her field in the free-for-all trot that it seemed no effort for her to win. Mr. Scott has every reason to be proud of this smooth-turned chestnut mare and it is his intention to have her raced throughout the Pacific Coast Circuit.

Ida M., the little "butcher mare of Mill Valley," won the first race trotting after losing the first heat to Billie Burke. Le Voyage acted better than he has upon any former occasion and will undoubtedly keep on improving.

As Mr. Ivey L. Borden, one of the leading members, was unable to attend, his horses did not start. This was a serious drawback. In one race, the free-for-all pace, Rey McGregor was substituted for his mare Roberta and this big pacer won from Sweet Princess in straight heats.

E. Cerciat's Nearer, a good, steady-going trotter, ably handled by her owner, defeated her opponents easily. Direct Rome being the only one to give the mare any trouble. Laddie G., the other contestant, had only been up from pasture a short time and was hardly fit to race.

In the last race of the day Capt. Wm. Matson drove his black gelding Wireless to victory, having apparently no trouble to shake off Smiley Corbett and Director B. at the three-quarter pole. Smiley Corbett will be a factor in these races when he gets a little more track work. Wireless is out of the dam of Jack, a Stadium favorite among those who admire pacers, but Wireless is a very open gaited trotter.

The next matinee will take place June 22d. J. A. McKerron, A. J. Molera and A. Joseph were the judges. J. Perry, H. Rosenbaum and G. Wempe held the watches. T. F. Bannan started the fields.

Summary:

| | |
|--|-------|
| First race, Class B trotters, mile heats, best 2 in 3: | |
| Ida M., b. m. (H. Boyle) | 3 1 1 |
| Billy Burke, b. m. (R. Nolan) | 1 2 3 |
| Le Voyage, br. s. (A. L. Scott) | 2 3 2 |
| Second race, free-for-all trot, mile heats, best 2 in 3: | |
| Mamie Alwin, ch. m. (A. L. Scott) | 1 1 |
| Raymond M., ch. g. (F. L. Mathes) | 2 2 |
| Sunset Belle, br. m. (E. C. Ahlers) | 3 3 |
| Birdeye, rn. g. (Capt. Wm. Matson) | 4 4 |
| Time—2:18½, 2:18½. | |
| Third race, free-for-all pace, mile heats, best 2 in 3: | |
| Rey McGregor, b. g. (R. Consoni) | 1 1 |
| Sweet Princess, b. m. (H. C. Ahlers) | 2 2 |
| Time—2:21½, 2:17. | |
| Fourth race, Class A trot, mile heats, best 2 in 3: | |
| Nearer, ch. m. (E. Cerciat) | 1 1 |
| Direct Rome, b. g. (D. E. Hoffman) | 2 2 |
| Laddie G., bl. g. (R. Consoni) | 3 dr |
| Time—2:24½, 2:24½. | |
| Fifth race, Class A pace, declared off. | |
| Sixth race, Class C trot, mile heats, best 2 in 3: | |
| Wireless, bl. g. (Capt. Wm. Matson) | 1 1 |
| Smiley Corbett, b. g. (S. Christianson) | 2 2 |
| Director B., b. g. (T. F. Bannan) | 3 3 |
| Time—2:27½, 2:28. | |

MATINEE SEASON OPENS AT PORTLAND.

On Saturday, June 1st, the Riverside Driving Club of Portland held its first matinee of the 1912 season. It was one of the best—if not the very best—matinees ever held by this organization. The fact that the races were first advertised for Decoration Day and had to be postponed on account of a wet track, tended to keep the attendance down to proportions lower than usual at these events, say "Pacific Horse Review."

President Drennen had arranged a first class program of five races, all of which were well contested and provided great sport for both the contestants and spectators. The management was first class in every respect and if the first meeting is taken as a criterion the season of 1912 will be the best in the history of the club.

The Class A trot brought out four good trotters, all without records except Paul W. 2:14½, who acted rank for his owner, C. W. Todd. The Brook Nook bred gelding Sargo, nicely driven by his owner, Tom Howitt, acted like a real race horse by winning the last two heats in 2:23½ and 2:22, which was a very creditable performance for any green trotter at this time of the year.

Fred Merrill's good four-year-old pacer, Red Hal, by Hal B. 2:04½, went two nice heats for his owner and with fair luck should make a successful campaign in his class when he starts for the real money.

Another good Hal B. colt showed up in the three-year-old Hal Norte, owned and driven by Ed Dennison. This fellow has been touted to be the best three-year-old in this part of the country and he certainly gave a good account of himself by winning the last two heats very cleverly.

In the mixed race two good green geldings by Hal B. showed up. Budweiser, a horse that has been used on the road until a few weeks ago, romped off with the first heat in 2:22. He acted like an old campaigner under the hands of Sam Gilbert, a man who has made some good race horses. After the first heat Todd received permission to put the hoppers on his mare Aldine by Alcone. She is a perfectly green mare and has had very little work, but with

the underwear on she played with her field in the last two heats.

The honors of the day for sires were divided between Hal B. 2:04½ and the Brook Nook Rancho's stallion Alcone. Each had two winners to their credit. The summaries:

| | |
|--|--------|
| Class A trotting: | |
| Sargo, b. g. by Alcone (T. Howitt) | 3 1 1 |
| Guy Light, b. g. by Searchlight (Planders) | 1 3 2 |
| Zonetta, b. m. by Zombro (Dr. Smith) | 2 2 3 |
| Paul W., b. g. by Zombro (Todd) | 4 4 4 |
| Time—2:25½, 2:23½, 2:22. | |
| Class B, trotting: | |
| Hallie C., ch. m. by Caution (I. T. Howitt) | 1 2 1 |
| Carruka, b. m. by Alphonso (G. K. Howitt) | 2 1 2 |
| Ernie M., b. m. by Hal McKinney (Myers) | 3 3 3 |
| Time—2:36, 2:34½, 2:34½. | |
| Class E, pacing: | |
| Red Hal, b. g. by Hal B. (Merrill) | 1 1 |
| Chico, b. g. by Wayland W. (Anderson) | 2 2 |
| Time—2:38½, 2:25. | |
| Class C, pacing: | |
| Hal Norte, br. s. by Hal B. (Dennison) | 3 1 1 |
| Lillie Hal, br. m. by Hal B. (H. Wise) | 1 5 2 |
| Miss Altalena, b. m. by Bonner N. E. (Planders) | 2 4 4 |
| Fred E., b. g. by Zombro (Brooker) | 4 3 3 |
| Carrie Mann, b. m. (S. Wise) | 6 4 6 |
| Sadie T., br. g. by Senator (Dehbour) | 5 6 5 |
| Time—2:32½, 2:31¼, 2:29. | |
| Mixed race: | |
| Aldine, b. m. by Alcone (Todd) | 4 1 1 |
| Budweiser, br. g. by Hal B. (Gilbert) | 1 3 2 |
| Nutwood Pointer, ch. g. by Star Pointer (Cooley) | 5 4 3 |
| Jim Hall, b. g. by The Commonwealth (G. K. Howitt) | 3 5 4 |
| Halboy, b. g. by Hal B. (Crane) | 2 2 dr |
| Max Lovelace by Lovelace (Galensky) | 6 dr |

STOCKTON'S RACING MATINEE.

(By George H. Tinkham.)

Again the San Joaquin Valley Driving Club has shied its bat into the ring for the campaign of 1912, a campaign which promises to be one of great success, ending, as it may, with the splendid program of the Pacific Coast Breeders' Association in September next.

The matinee races yesterday (Sunday) were not fast, for none of the starters have had much work, but the heats were all well contested and several of them exciting.

After the close of the first heat, Walter Chalmers, who owns the two-year-old Olive McAdrian, drove her a workout mile in 2:38½. None of the spectators nor the judges knew that he was going to drive out, but fortunately the judges caught the time.

The old stagers, T. D. W. and Alta Genoa Jr., again fought it out in the free-for-all pace and T. D. W. in the first heat leading from the wire came in easily in 2:15. In the second heat T. D. W. again led by a half length. The pacers scored very fast, as Pierano was bound to take the heat if possible. They went to the quarter in :33 and the half in 1:05, but Alta Genoa tired there, being short of work, and T. D. W. finished in 2:14½.

The starters in the first race, the 2:40 trot, were all new performers, and Lady Thornhill, was several seconds faster than Tom King or California. The mare last named is owned and was driven by A. T. Jackson, who some two years ago campaigned and gave Ice-man a record of 2:10.

In the free-for-all trot the starters were the two stallions, Stamboj and McAdrian, and the pretty brown mare, Stella McKinney, owned and well handled by Ed Lavin. She was not in the race, although it is stated that she has a race record of 2:21, driven by Charles De Ryder, now manager of the Pleasanton track. In this race Stamboj 2:24½, driven by Charles Nance, never before trotted two better heats and in the third heat he lowered his record two seconds. Yesterday was the first time McAdrian has been driven at a matinee, since 1910. That year, driven by Bunch, he trotted an exhibition mile in 2:19½. He was yesterday splendidly driven by Thomas Holmes of Sacramento, owner of the three-year-old Golden Gate. Two curious accidents happened in this race, fortunately without serious injury. In the first heat on the upper turn, the tire of Stamboj's bike came off and Nance was compelled to pull his horse to a walk. In the second heat near the same place, McAdrian's bike tire blew out, and Pierano's tire came off as he was about to start in the first heat of the race.

In the 2:20 class pace Ray and Grace Chalmers paced two pretty heats. In the first heat she led to the three-quarters pole by a length. There Brod Jones came up and rapidly they came down the stretch, Ray winning the heat by a half length.

In the 2:17 pace Daisy was not in it with Beauty Dick, as he has paced a mile in 2:11. She made him travel to the half, however, he making that distance in 1:07½.

The following is the result with owners' names:

| | |
|--|-------|
| First race, 2:40 class, trotting: | |
| Lady Thornhill, b. m. (Nance) | 1 1 |
| Tom King, ch. g. (Terry) | 2 3 |
| California, blk. m. (Jackson) | 3 2 |
| Time—2:45, 2:46½. | |
| Second race, free-for-all, pacing: | |
| T. D. W., b. g. (Ernest Kemp) | 1 1 |
| Alto Genoa Jr., blk. h. (J. Peirano) | 2 2 |
| Time—2:15, 2:14½. | |
| Third race, free-for-all, trotting: | |
| Stamboj, b. h. (Nance) | 3 1 1 |
| McAdrian, b. h. (E. D. Diggs) | 1 3 2 |
| Stella McKinney (Ed Lavin) | 2 2 3 |
| Time—2:29½, 2:25, 2:22½. | |
| Fourth race, 2:20 class, pacing: | |
| Ray, b. g. (Brod Jones) | 1 2 |
| Grace Chalmers, b. m. (P. J. Chalmers) | 2 1 |
| Time—2:33½, 2:30½. | |
| Fifth race, 2:17 class, pacing: | |
| Beauty Dick, br. g. (J. Peirano) | 1 1 |
| Daisy, br. m. (Harvey O'Neal) | 2 2 |
| Time—2:19½, 2:22½. | |

Judges—F. H. Johnson, A. W. Cowell and J. Aker. Starter—A. B. Sherwood. Marshal—F. A. Murray. Timers—W. Beisinger, Charles Pagan and H. E. Armstrong of Pleasanton.

THE PLEASANTON RACE MEETING.

Approximately half a million of dollars has been hung up for harness racing west of the Rocky Mountains. New fair and racing circuits have been formed and prospects are bright at the present time for the trotting horse industry. The great interest being taken in it by men of means throughout the Coast and the many accessions to the ranks of breeders are being felt by everyone interested. Most prominent among the representative men who have taken such an interest in this industry is Mr. R. J. MacKenzie, one of the leading citizens of Winnipeg, Manitoba, who has recently purchased the historic track at Pleasanton, a track that has many claims to offer to horsemen, among which may be mentioned its central location, its proximity to San Francisco, Stockton, Sacramento, San Jose, etc., its railroad facilities, having two through lines with depots there, its unsurpassed climate, making it one of the best winter tracks in the United States, its pure water, abundance of green feed, all of which must not be overlooked.

In order that this magnificent property, the fame of which extends wherever harness horses are known, may be a credit to him and to California, he has decided to make it second to no track in the United States. In addition to making the track itself perfect, he will have all its appointments in keeping with his idea of what such a place should be, and has decided to give a big race meeting there July 24th, 25th, 26th and 27th. It will be the first one in California this season, and \$12,000 is the amount he has offered for four days' racing at that time. Added to this, he announces a \$7,500 guaranteed futurity stakes for foals of 1912, and next year it is his intention to arrange matters so as to have two big meetings held there—the opening and the closing ones of the Pacific Coast Circuit.

The date set aside for the closing of entries to this race meeting in July is next Monday, June 17th, and it is of the most vital importance to every horseman on the Pacific Coast that entries be sent in on or before that date. The advertisement in our business columns gives the classes, amounts and conditions, and it is earnestly hoped that the entry list will contain as many names as those sent in to the Los Angeles and Breeders' meetings. This is the last call!

MATINEE AT SACRAMENTO.

Only one of the four races on Sunday's barness meet at the fair grounds track went three heats and in that Eleanor Sears was an easy winner in the deciding heat when Colusa and Princess Flora B. were dropped out. The feature race of the day, the Class A pace between Nonoma and George Woodard, resulted in a victory for S. H. Cowell's classy pacer in straight heats.

G. S. Powell's May B. won the class C pace in straight heats, with George R. Dittus' Doc Frazer, a straight beat winner in the Class A trot. The officials in yesterday's races were F. J. Ruhstaller, E. A. Johnson and M. J. Murray, judges; John Quinn, J. H. Aglen and Oe Marty, timers; Frank E. Wright, starter; George Vice, another. Summary:

| | |
|--|-------|
| First Race, Class A Trot, mile heats: | |
| Ben Alto, (Ike Harlan) | 2 2 |
| Katie B., (Geo. W. Shane) | 3 3 |
| Doc Frazer (Ego R. Dittus) | 1 1 |
| Time—2:23½, 2:28. | |
| Second Race, Class B Pace, mile heats: | |
| Colusa (Geo. L. Herndon) | 1 2 * |
| Princess Flora B. (E. O. Burge) | 3 3 * |
| Time—2:21½, 2:17½, 2:19½. | |
| Third Race, Class A Pace, mile heats: | |
| Nonoma (C. F. Silva) | 2 2 |
| Geo. Woodard (S. H. Cowell) | 1 1 |
| Time—2:16¼, 2:20¾. | |
| Fourth race, Class C pace, mile heats: | |
| May B. (G. S. Powell) | 1 1 |
| Florida (G. L. Herndon) | 3 3 |
| La Dona (W. E. Sprague) | 2 2 |
| Time—2:24, 2:23½. | |

HANFORD FAIR ATTRACTIONS.

Hanford, June 6.—Directors of the Kings County Fair Association have decided to take up the matter of financing the 1912 agricultural county fair and the board of supervisors will be looked for the best support it can afford to give.

It is the purpose of the directors to give a conservative fair and they will hold all premiums down to a reasonable basis in an effort to this year come out even on the project. A guarantee fund will be made up among the merchants and if everything goes well with the directors this may not be collected.

Last year and the year before the fair grounds were closed at sundown because it was believed that the night entertainment were hitherto run at a loss. The ideas of the new board of directors on this point do not conform with those of the old board. They believe that if the attractions are of the proper kind and reasonably conducted that they will be productive of good revenue and it has been decided to sell all the good concessions possible for as good a figure as possible and to keep the fair grounds open every evening during the fair.

Kings county is on the circuit of fairs and as no other fair is in progress in the State at the time it is running the horses and other attractions available for the week of October 7 to 12 will be of the best character.

Before going East, W. G. Durfee sent four young horses to his father, Chas. Durfee, to handle at San Jose and prepare for the Pacific Coast Circuit.

MARES BRED TO THE BONDSMAN.

Bert Webster, Chas. De Ryder's understudy, who is also one of the best horsemen and caretakers of a stallion in California sends the following letter:

"I inclose list of mares bred to The Bondsman so far this season. We have twelve other mares 'hooked' to him but they have not foaled yet. All the mares are looking well and we are trying to please every owner. The Bondsman is as sure a foal getter as any horse I ever saw, consequently the majority of mares now bred to him are in foal:

- L. C. Gates, Modesto—Midget, by Carmichael's Prince, dam Lulu by Norfolk.
 W. A. Shippee, Sacramento—Lydia, by Nutwood Wilkes, dam by California Nutwood.
 Capt. C. P. McCann, Hood River, Oregon—Lucille Patchen 2:16 by The Patchen Boy, dam by Beaumont; Lady Patchen by The Patchen Boy—Syringa by Prince of India; Orlena 2:11½ by Ormonde—by Helen by Electioneer; Hazel Patchen by The Patchen Boy—by Blue Bull.
 S. Christenson, San Francisco—Simmons by Simmons; Ferza (dam of June Pointer) by Allie Wilkes, and Reina Directum by Rey Direct, dam Stenwinder by Venture.
 C. L. De Ryder, Pleasanton—Bay mare by Athasham, dam Corinne Neilson by Clarence Wilkes; Ava J. by Zombro, dam by Secretary; Gertie A. by Diablo, dam by Sidney; Gregan by Steinway, dam Maggie McGregor by Robert McGregor.
 M. H. Tuttle, Rocklin—Bay mare by Stam B.
 P. H. Smith, Los Angeles—Rosemary 2:25 by Raymond; Seville S. by Strathway, dam Simmone by Simmons; Katharine A. by Diablo, dam by A. W. Richmond.
 Edmond McLees, Lindsey—Zomatella by Zombro, dam Italia by Sidney.
 L. H. Todhunter, Sacramento—Leavenette by Zombro, and Sweet Bow by Bon Voyage.
 F. W. Perkins, Willows—Garra Patta by Pittick, son of Altamont, and Minnequa by Athamax, dam Garra Patta.
 A. V. Mendenhall, Oakland—Bay mare by Washington McKinney and bay mare by Nazote out of Emma-line 2:28 by Electioneer.
 A. W. Morrison, Sacramento—Maud by Sidmore, dam by Prompter.
 H. L. Middleton, San Jose—Isobelina by Stam B, dam Isobel 2:19 by McKinney.
 G. Wempe, San Francisco—Plumada by Advertiser, dam by Dexter Prince, and Belle W. 2:16 by Director, dam by Hambletonian Jr.
 L. R. Rogers, Fresno—Bay mare by Cupid and a bay mare by Obas, Derby.
 M. L. Woy, Fresno—Loma B. by Stam B, dam by Sidney.
 J. J. Campbell, Vancouver, B. C.—Silver Fir by Silver Bow.
 J. W. Pendleton, Oakland—Abbie McNutworth by Guy McKinney, dam by Diablo.
 L. E. Grimm, Oakland—Cleo G. (dam of Cleo Dillon 2:13) by Yosemite.
 W. T. McBride, Pleasanton—La Muscovita (dam of Bon Guy 2:11½) by Guy Wilkes.
 J. B. Iverson, Salinas—Salinas Princess.
 Geo. E. Rea, Gilroy—Bay mare.
 Claude L. Jones, Modesto—Lady Rea by Iran Alto.
 A. L. Scott, San Francisco—Weatewater by Sidney Dillon, dam by Electioneer; Rosa Woodburn 2:16 by Easter Wilkes; bay mare by Guy Wilkes; Cora

- (dam of Lady Inez 2:12¾): Lady Inez 2:12¾ by Nutwood Wilkes.
 John Ferrin, Oakland—Bay mare.
 J. E. McGregor, Riverside—Bay mare by Geo. D. McKinney, dam Italia (thoroughbred).
 John Rowan, Stockton—Modesto by Mendocino.
 B. F. Wellington, Stockton—Black mare by Azmoor, dam by Dexter Prince.
 R. S. Irvine, Stockton—Bloom by Nushagak, and Berta (sister to C. The Limit 2:04¼) by Searchlight.
 Col. J. C. Kirkpatrick, San Francisco—Lucretia 2:13½ by Nazote and Flewly Flewly (dam of Charlie D. 2:06¼) by Memo.
 J. W. Zibbell, Fresno—Kate Lumry by Shadeland Onward, dam C. C. L. by Combat.
 G. Cuneo, Oakland—Provoline (dam of Gracie Pointer 2:07¾) by Charles Derby.
 Jos. A. Hardy, San Francisco—California Belle (sister to Dr. Hammond 2:12½), by Charles Derby.
 J. Elmo Montgomery, Davis—Cynera by Highland C., dam She 2:12 by Abbottsford.
 J. A. Peck, White Rock, Nevada—Brown mare.
 S. S. Stiles, Oakland—Silver Haw (dam of Helen Stiles 2:08½) by Silver Bow.
 Rush & Haile, Suisun—Eva Demonio by Demonio, dam Eva; Comet Demonio by Demonio, dam Mamie Comet; Potrero Girl by Prince Airlie, dam La Muscovita, by Belmont.
 W. G. Connelly, Suisun—Gracie R. 2:10¾ by Demonio.
 Dr. C. A. Case, Pleasanton—Roan mare by Neernut.
 Chas. Butters, Oakland—Lottie Lynwood (sister to Soroma Girl 2:04¼) by Lynwood W.
 Fred Hahn, Emeryville—Black mare by Chas. Derby.
 A. R. Miller, Vancouver, B. C.—Silpan by Silver Bow.
 Thos. Ronan, Pleasanton—Burntside by Antrim, dam by Arranax.
 Chas. L. Griffith, Pleasanton—Bay mare by Bonnie Direct, dam Ginger by Steinway.
 Frank Malcolm, Fresno—Fresno Girl 2:10¼ by Seymour Wilkes, dam by Richards' Ector.
 D. A. Baker, Sorento—Evangie (sister to Online 2:04) by Shadeland Onward.
 P. H. Bellingall, Oakland—Mimosa by Secretary.
 Mrs. G. C. Schriber, Alameda—Bay mare by Secretary.
 Fred Woodcock, Pleasanton—Zolace by Zolock, dam by Lovelace and Bessie L. by Montana Director, out of a mare by Ovita.

THE FIVE LEADING FAMILIES.

Editor Breeder and Sportsman:

I am sorry to say that some of our horsemen can't give the breeding of their horses beyond the sire and dam. If you ask one of them what the breeding of Rysdyk's Hambletonian was, they don't know. It seems to me that a man interested in the harness horse should post himself on all these things. As we all know, "like hegets like or the likeness of same ancestor," a horse may have a Wilkes for a sire and a Mambrino for a dam, and still not be either, as he may breed after his grandsire or grandam, hence, as there were five stallions which founded families, and the blood of these horses is still very much in evidence, a man should know just where his colt breeds to. Now, the Hambletonians and Mambrinos, although coming from the same source on the sire's side, are entirely different horses in everything—size, color, conformation, gait, disposition, etc. The reason is or was that Hambletonian bred after his dam, the Bellfounder mare,

called the Chas. Kent mare, and Mambrino Chief was the counterpart of his dam, the big Eldredge mare, and had all her coarseness and her awkward, sprawling gait. At the same time, the Mambrinos were the gamest of the five families; the Clays, although the finest gaited and with the finest dispositions, were a bit soft; the Pilots were, as we all know, horses of great merit, hut, as George Fuller used to say, "they had more devil in them and less sense than any horses on earth"; the Stars were mostly little chaps and very light honed and their gait, although not so showy as the Clays, was, I think, the fastest of them all, as there is absolutely no waste of force in a Star gait, and they wanted to be shod light, just the opposite of the Mambrinos. I never saw a Simon-pure Mambrino that could trot in a light shoe. Suppose a man has a good colt that has one or more lines to all these five families; if he is posted in regard to the characteristics of the different families, he knows just what his horse is, whether it is a Clay, a Hambletonian, a Pilot, a Star, or a Mambrino, and can then shoe and work his horse intelligently. A shoe that would be right for a Mambrino would anchor a Star, and I never saw a Star that needed a toe weight.

The Mambrinos were very rough-gaited horses, too much knee and hock action; their gait was a continual waste of force, hut they were, for the most part, big, strong horses, with legs like iron, and no one ever saw one of them stop. Now, when these mares were bred to George Wilkes, a small, compact horse, with a gait that was perfection, and the holder of a world's record, we got such horses as Guy Wilkes, Baron Wilkes, Onward, Red Wilkes, etc. And Geo. Wilkes, although sired by Rysdyk's Hambletonian, the greatest horse that ever lived, was not really a Hambletonian, but a Clay, as he bred after his dam, Dolly Spanker, and she was by Henry Clay 8, the founder of the Clay family. This Clay gait was the principal reason for Electioneer's greatness; he had the gait and imparted it to his progeny.

—LOU HICKS.

It has always been the rule in the past, since the foundation of the world, that when people traded horses they traded only for what they could see, unless a special guaranty was demanded and given. And the horseman who would point out a defect in his own horse would lose caste immediately, unless he merely pointed out the defect to keep the purchaser from noting a greater one, but an Indiana law not only forbids the use of drugs or any article to conceal the fact that a horse is sick, lame or defective, hut requires the trader to run down his own horse, by telling the intending purchaser of every defect and disease with which the creature is affected. If he fails to do this he is subject to a fine of \$500, to which may be added imprisonment in the jail or workhouse not longer than six months.

\$10,000 Guaranteed.

\$2 TO NOMINATE MARES.

Reopened.

The Los Angeles Futurity Stake No. 1

TO BE GIVEN BY THE

Los Angeles Harness Horse Association

For Foals of 1912, the Produce of Mares Nominated July 1, 1912, or Substitutes as Provided Below, to Trot and Pace at Two and Three Years Old.

ENTRIES TO CLOSE MONDAY, JULY 1, '12.

\$6000 for Trotting Foals.

\$3000 for Pacing Foals.

\$600 to Nominators of Dams of Winners.

\$400 to Owners of Stallions.

MONEY DIVIDED AS FOLLOWS:

\$4,000 for Three-Year-Old Trotters.

200 for the Nominator of the Dam on whose Original Entry is named the Winner of Three-Year-Old Trot.

2,000 for Two-Year-Old Trotters.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Trot.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

\$2,000 for Three-Year-Old Pacers.

200 for the Nominator of the Dam on whose Entry is named the Winner of Three-Year-Old Pace.

1,000 for Two-Year-Old Pacers.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Pace.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace.

FOR SPECIAL CASH PRIZES FOR STALLION OWNERS

Giving to Owners of Stallion standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize \$80; 2nd Prize \$60; 3rd Prize \$40; 4th Prize \$20.

Prizes will be Paid on August 15, 1912

ENTRANCE AND PAYMENTS.—\$2.00 to nominate mare July 1st, 1912, when name, color and description of mare and stallion bred to must be given; \$5.00 September 1st, 1912; \$10.00 January 1st, 1913; \$15.00 May 1st, 1913; \$15.00 January 1st, 1914; \$15.00 January 1st, 1915.

STARTING PAYMENTS.—\$25.00 to start in the Two-Year-Old Pacing Division; \$50.00 to start in the Two-Year-Old Trotting Division; \$35.00 to start in the Three-Year-Old Pacing Division; \$75.00 to start in the Three-Year-Old Trotting Division. All starting payments to be made ten days before the day of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two Years Old are not barred from starting again in the Three-Year-Old Division.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The races for three-year-olds will consist of three heats, one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards. If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal up to the date of second payment, September 1st, 1912, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for only amounts paid in. Failure to make any payments forfeits all previous payments.

This Association is liable for \$10,000, the amount of the guarantee only. Hopples will be barred in trotting and pacing divisions.

Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in these conditions, rules of National Trotting Association to govern.

For entry blanks and further particulars, address the Secretary.

C. A. CANFIELD, President,

E. J. DELOREY, Secretary,

Los Angeles, Cal.

305½ S. Spring St., Los Angeles, Cal.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

Traffic Gun Club.—The third monthly shoot of the club took place on the Alameda trap grounds last Saturday. Haight scored two straight 10's and the only straight 25 shot. The scores were in different club and practice events and are the following:

| Targets | 10 | 10 | 15 | 16 | 15 | 26 | 25 | 26 | 25 | 25 |
|----------------|----|----|----|----|----|----|----|----|----|----|
| W. A. Simonton | 8 | 8 | 13 | 11 | 13 | 20 | 17 | 19 | 18 | .. |
| F. Simonton | 5 | 9 | 6 | 10 | 6 | .. | 15 | .. | .. | .. |
| A. C. Stubbe | 10 | 7 | 13 | 13 | 19 | 13 | 21 | 19 | 15 | .. |
| E. R. Cuthbert | 4 | 5 | 3 | 6 | 4 | .. | .. | .. | .. | .. |
| H. Scott | 5 | 6 | 9 | 6 | 10 | 14 | 10 | 13 | 22 | .. |
| R. Henderson | 5 | 6 | 9 | 6 | 16 | 8 | 18 | .. | .. | .. |
| T. E. D. Riley | 5 | 6 | 9 | 6 | 23 | 8 | 18 | .. | .. | .. |
| G. W. Colby | 8 | 7 | 4 | 9 | 16 | 13 | 17 | .. | .. | .. |
| B. Smith | 5 | 6 | 8 | 11 | 15 | .. | .. | .. | .. | .. |
| Joe Rice | 4 | 7 | 12 | 4 | 12 | 10 | 9 | 15 | 14 | .. |
| C. A. Haight | 10 | 10 | 12 | 12 | 24 | 25 | 24 | .. | .. | .. |
| Fulton | 4 | 7 | 12 | 4 | 12 | 10 | 9 | 15 | 14 | .. |
| H. Stelling | 8 | 9 | 13 | 11 | 22 | 21 | 13 | .. | .. | .. |
| E. L. Hoag | 5 | 8 | 7 | 13 | 15 | 18 | 20 | 22 | 16 | 19 |
| W. F. Schmidt | 3 | 7 | .. | .. | .. | .. | .. | .. | .. | .. |
| W. B. Townsend | 8 | 10 | .. | .. | .. | .. | .. | .. | .. | .. |
| C. Kiel | 6 | 9 | .. | .. | .. | .. | .. | .. | .. | .. |

| H. H. Ellerherst | 8 | 7 | 12 | .. | .. | 12 | .. | .. | .. | .. |
| T. B. Fernandez | 7 | 9 | 5 | .. | .. | 11 | .. | .. | .. | .. |
| E. E. Hart | 9 | 8 | .. | .. | .. | .. | .. | .. | .. | .. |
| E. Armstrong | 7 | 0 | 1 | .. | .. | .. | .. | .. | .. | .. |
| W. Melane | 10 | 10 | 11 | .. | .. | .. | .. | .. | .. | .. |
| Lasserot (B. S.) | 11 | 13 | 14 | .. | .. | .. | .. | .. | .. | .. |

Franzen Gun Club.—The June outing at Larkspur was a repetition of similar enjoyable meetings on the ark Tillamook—a combination of target smashing, striped bass fishing widing up with a clam chowder dinner.

The blue rock section of the club was busy all day. Good scores were shot in six twenty target events. Among those present were Mr. and Mrs. William Hoenes, Mr. and Mrs. E. Grundell, Miss T. Mayer, Miss A. Meyer, Mr. and Mrs. George Franzen, Miss Belle Jacobs, Miss M. McKeown, Mrs. E. Quinan, Miss L. Flaherty, Mr. and Mrs. J. X. De Witt

In a series of twenty target events the scores were: Dr. C. Clark, 17, 14, 15 18; P. Swenson, 11, 9, 14, 14, 14, 16; E. L. Schultz, 21, 24, 18; Colonel Cuthbert, 23, 24, 15; A. C. Stubbe, 21, 20, 19; E. Hoelle, 20, 19; H. Stelling, 20, 20, 20; George Franzen, 15, 17, 20, 20; H. S. Craft, 6, 13, 14, 10; M. Langliss, 18, 12, 10, 13; E. Klevesahl, 13, 16, 16; Colonel Nies, 9, 14, 17, 13; A. Pape, 8, 12; E. Grundell, 17, 14, 16, 20; J. D. Hanna, 10, 9; Colonel English, 6; R. Norgrove, 22.

Bay View Gun Club.—The club's monthly shoot at the Alameda grounds last Sunday drew an attendance of 18 shooters. Besides the regular club events, a number of 10 and 15 bird practice matches were shot. The scores were:

| Eventa | 1 | 2 | 3 | 4 | 5 |
|---------------|----|----|----|----|----|
| W. H. Price | 12 | 12 | 15 | 15 | 15 |
| H. D. Swales | 13 | 14 | 14 | 14 | 14 |
| O. Rheil | 11 | 12 | 11 | 11 | 11 |
| F. Adams | 9 | 12 | 8 | 10 | 8 |
| W. H. Wobber | 12 | 12 | 15 | 12 | 12 |
| P. R. Fox | 12 | 12 | 15 | 12 | 12 |
| T. W. Parsons | 6 | 8 | 7 | 7 | 7 |
| J. Potter | 6 | 8 | 7 | 7 | 7 |
| G. Millett | 6 | 8 | 7 | 7 | 7 |

Event 1, Club match. Event 2, Peters trophy. Event 3, Grub shoot. Event 4, Du Pont trophy. Event 5, Selby trophy.

San Leandro Gun Club.—The "cherry carnival" at San Leandro was attended by thirty-three shooters on the 9th inst., who participated in the blue rock shoot of the San Leandro Gun Club. The program was arranged for nine 15 bird events and a ten bird match (Event No. 5, the "grub shoot," which was declared off).

The prizes in each event were a 10 and a 5 pound box of cherries. The winners in each event were: H. P. Vallejo and C. A. Haight (the 14's shot off the tie in the second event). H. Grief and E. Hoelle. M. O. Feudner and Joe Rice, Harry Golcher and H. D. Swales, E. B. Van Arnam and Geo. Thomas, N. W. Sexton and W. J. Higgins, Manning and Carl West-erfeld, Dr. Hutton and Fred Webster, W. H. Price,

T. L. Houpt and Joe Lohoa. Shooters were barred from winning more than one box of the luscious fruit. Ties were decided in following events: Price and Houpt tied five times before Price won out on a 14 score.

Clarence Haight was high gun with 121 out of 135 and won the handsome high average trophy donated by Lynne Stanley, a prominent Oakland merchant. Otto Feudner and H. Grief tied for second place with 119 each. The scores follow:

| Eventa | 1 | 2 | 3 | 4 | 6 | 7 | 8 | 9 | 10 |
|---------------|----|----|----|----|----|----|----|----|----|
| Haight | 14 | 14 | 14 | 13 | 12 | 13 | 14 | 14 | .. |
| Greif | 13 | 15 | 15 | 14 | 11 | 10 | 12 | 15 | .. |
| Higgins | 10 | 13 | 12 | 12 | 10 | 11 | 11 | 7 | 8 |
| Van Arnam | 12 | 12 | 12 | 13 | 15 | 9 | 12 | 12 | .. |

San Diego Tournament.—The Pastime Gun Club's three-day blue rock tournament at San Diego, May 17, 18 and 19 was attended by 79 shooters, mostly southern California sportsmen, but with a marked attendance of shotgun enthusiasts from cities north of Tehachapi, including San Francisco, San Jose, Pacific Grove, Sacramento, various San Joaquin valley points, Ogden, etc., and elsewhere, including a fair Arizona representation.

Fred B. Mills, of Long Beach, won high amateur average for the three days' powder burning with a total of 564 out of 600. Fred Willet of San Francisco led the professional squad with 545 out of 600. The scores follow:

| Targets | 1 | 2 | 3 | Ttl. |
|----------------------|-----|-----|-----|------|
| F. B. Mills | 200 | 200 | 200 | 600 |
| W. P. Sears | 180 | 192 | 186 | 658 |
| C. Rathel | 187 | 152 | 187 | 656 |
| W. B. Vanden | 181 | 190 | 183 | 654 |
| Dick Reed | 184 | 180 | 187 | 651 |

Brookdale hatchery, that are to be liberated in different streams of the county. Trout are cannibals with unappeasable appetites and the big fellows get away with the baby trout in jig time. To stop this wholesale destruction of stock fish it is proposed to erect temporary dams in the creeks after removing the large trout from the dammed section. This scheme, it is believed, will prevent the little fish from falling a prey to their larger cousins.

The dams, being temporary structures, will be washed out by high water next spring and the planted trout will be large enough to protect themselves.

Sportsmen who fancy the Big Meadows country are getting ready for trips of a week and more duration. Bruce Bidwell has been on the receiving end of several days' splendid fishing in the Doty branch of Feather river. Four boxes of trout recently forwarded to friends in this city were beauties, averaging three-quarters of a pound apiece. Billy Dorrner and several friends departed for that section early this week.

Advices from various resorts in the Feather river canyon convey the information that more fish have been taken with salmon fly and grasshopper baits than by fly-fishing. Cold and rainy weather prevailed generally up to a week ago, since which time the weather has been clearing and good sport is looked for.

At that numerous anglers have for about two weeks past had the hardihood to brave the weather conditions and with generally good results.

Striped Bass Notes.—Salt water anglers are elated over striped bass activities that have recently developed at different fishing resorts, possibly induced by the recent warm weather spell.

San Antonio creek, in the Petaluma marsh, took precedence with a 23 pounder caught by Professor Texas Bob McFarland, which feat was accomplished a week ago Saturday.

W. S. Kittle landed several smaller bass on Sunday and Wednesday following. These fish were caught with silver trolling spoons Nos. 7 and 4. Charles Bond, Bob Sangster, Al Christianson, Jake Christianson and other anglers also hooked several bass.

The bass have, it is claimed, been feeding on the big schools of small fry, flounders, perch and the like that are at present in the creek, something heretofore unusual. The presence of young food fish in such numbers is attributed to the suppression of the close meshed shrimp nets for more than a year past. It is argued that since those fishing devices have been stopped in the destruction of tons of the young of different varieties of food fish which spawn in the waters of San Pablo bay, a natural breeding ground, that perch, sole, flounders and other fish have increased and spread.

Such is also the reason advanced for the appearance in many Marin and Sonoma creeks this year of myriads of young and half grown edible crabs, an occurrence unknown during the vogue of the shrimp netting operations. This proposition was particularly urged for the preservation of food fish, a move that seems to have a semblance of favorable results.

Near Point San Quentin, about two weeks ago, one fisherman who trolled nearly all night long, caught 18 bass, the fish ranged in weight from the legal size, 3 pounds, up to over 20 pounds.

Corte Madera creek, above Greenbrae, last Sunday was the scene of operations for seven trolling boats. The average catches to the rod were 6 and 7 bass, none going over 4 or 5 pounds. A No. 4 Kewell-Stewart spoon was the lure that pleased the fish.

The creek has been full of small sized bass. Last Sunday, Mr. and Mrs. Charles Urfer caught two bass, 7 and 10 pounds in weight, respectively.

Among the Rodeo clam tossers recently were: William Turner, Jack Duckell, Master Duckell, Next Mayor Lynch, H. Harrison, Ed Dalmonite and others. Fifteen striped bass of various weights were landed two weeks ago, a decided rise in the fish barometer of that resort.

At San Pablo a fair catch of goodly sized bass was made recently, tide and weather conditions being favorable. H. Reimensperger, Al Bowley, Al Thornton, Jack Davis, H. Grief, Billy Augstein, Joe Dutro, Frank Dohl and others were on the job.

Salmon Fishing.—Salmon trolling in Monterey bay, off Santa Cruz, took a sudden upward tendency a fortnight ago. Charley Kewell was informed by a telegram on Friday that a big run was on. Every boat out returned with at least 20 salmon.

During the warm spell and fair weather the schools of sardines, upon which the salmon feed, had been working inshore. For a week and more prior fair salmon fishing was available. A week ago Game Warden Welch intimated a continuance of fair weather would bring about a run of salmon, which statement seems to have been verified.

Following this news a party, composed of Ned Bosqui and Pete Blanchard, in a Sausalito launch run by Billy Campbell, were out last Sunday, off Rocky Point on the San Mateo shore, fishing for rock cod.

Noticing that big schools of sardines were in the vicinity, a shift was made and salmon tackle was put in trolling commission. In a short time 18 fine salmon were caught, fish scaling from 3 to 16 pounds each.

Last Monday Campbell went outside alone and returned with a catch of 33 salmon, running in weight from 3 to 18 pounds. His Tuesday catch was 8 salmon.

This run up the Coast from Monterey bay has been anticipated for several weeks past.

SOME COMMON GAME, AQUATIC, AND RAPACIOUS BIRDS IN RELATION TO MAN.

[Continued from last week.]

Ruffed Grouse.—*Bonasa umbellus*.—The ruffed grouse called "partridge" in the northeastern States and pheasant in some other parts of its range, is one of our most widely ranging game birds. It inhabits wooded regions from Canada and Alaska south to California, Colorado, Tennessee, and northern Georgia. It is usually a wild and wary bird and well withstands the inroads of hunters, but it responds to protection in a gratifying manner and has proved to be well adapted to propagation under artificial conditions. On account of these qualities and its desirability as a game species it is a good subject for game farming.

Wild fruits, mast and browse make up the bulk of the vegetable food of this species. It is very fond of hazelnuts, beechnuts, chestnuts, and acorns and it eats practically all kinds of wild berries and other fruits. Nearly 60 kinds of fruits have been identified from the stomach contents examined. Various weed seeds are also consumed.

Slightly more than 10 per cent of the food consists of insects, about half of which are beetles. The most important pests devoured are the Colorado potato beetle, clover-root weevil, the pale-striped flea beetle, grapevine leaf beetle, May beetles, grasshoppers, cotton worms, army worms, cutworms, the red-humped apple caterpillar, and sawfly larvae.—W. L. M.

Introduced Pheasants.—(*Phasianus torquatus* and *P. colchicus*.)—While introduced pheasants may hardly seem to deserve a place on a list of common birds, the extent to which they are being imported and propagated in the United States makes it desirable that information be made available as to their feeding habits when liberated. Ringneck pheasants have long been established in Oregon, Washington and British Columbia, and are less common in the wild state in Massachusetts, New York, Indiana and Kansas. But persistent efforts, in some cases on a very large scale are being made to establish pheasants in other States, and the farmers whose land they are likely to range over should have access to information concerning their economic value.

Severe criticism of pheasants and fulsome praise are about equal in volume. The birds are accused of digging newly planted and sprouting corn, oats, barley, and beans, and seeds of melons, cucumbers, and squashes. It is claimed that because of their depredations it has been necessary to replant whole fields of corn. They are said to drive chickens away from their food and even to kill young poultry. Some landowners in Ontario county, N. Y., claim that the loss suffered on account of pheasants has been more than twice the amount of their taxes.

On the other hand the birds have not proved a nuisance in Oregon and Washington, where they have been numerous for years. Some farmers even value them so highly that they will not permit hunting on their property.

The few pheasant stomachs examined indicate that these birds are very fond of grain. Oats and wheat compose about 34 per cent of the food of 12 ringneck pheasants collected in Oregon and Washington, and 82.5 per cent of the stomach contents of two English pheasants from British Columbia. But all of these birds were taken in September, October and December; hence it is probable that all if this grain was waste. The next largest item of food in these stomachs was insects, consisting entirely of larvae of March flies (*Bibio*). One stomach contained no fewer than 360 of these larvae and another 432. The remainder of the food included acorns, pine seeds, browse, peas, rose hips, snowberries, and seeds of dandelion, lupine, bur clover, black mustard and chickweed.

From 200 to 960 kernels of wheat and oats were taken by various birds; about 200 peas were found, but it was evident that these were the old and partly decomposed refuse of the harvest. Twenty-three acorns and 200 pine seeds were taken by the bird which ate the largest amount of mast, and about 800 capsules of chickweed, containing more than 8000 seeds, were in the stomach of the best weed-seed eater.

What is more evident is that pheasants are gross feeders; their capabilities for good or harm are great. If a number of them attack a crop they are likely to make short work of it, or if, they devote themselves to weed seeds or insect pests they do a great deal of good. It seems therefore that the question of the economic value of pheasants is peculiarly a local one. Much depends on the proportion of land under cultivation, the kind of crops raised, and the quantity of wild food available. Apparently the chances are about even that imported pheasants will or will not become useful economic factors.—W. L. M.

Upland Plover.—(*Bartramia longicauda*.)—The upland plover forms a striking exception in habits to its closest relatives, the sandpipers. While sandpipers love the vicinity of water, the upland plover frequents dry hills and prairies and is most abundant in the interior. This so-called plover breeds from Oregon, Oklahoma and Virginia north to Alaska, MacKenzie, and Maine, and migrates over the more southern parts of the continent, passing to the pampas of Argentina to spend the winters.

From its habits the upland plover would naturally be expected to have a closer relation to agri-

culture than most sandpipers, and such proves to be the case. Almost half its food is made up of grasshoppers, crickets, and weevils, all of which exact heavy toll from cultivated crops. Among the weevils eaten are the cottonball weevil; greater and lesser clover-leaf weevils; clover-root weevil; *Epicaerus imbricatus*, which is known to attack almost all garden and orchard crops; cowpea curculios; *Tanmecus confertus*, an enemy of sugar beetles; *Thecesternus humeralis*, which has been known to injure grapevines; and bill bugs. *Thecesternus* alone composes 3.65 per cent of the seasonal food of the 163 stomachs examined, and bill bugs constitute 5.83 per cent. No fewer than 8 species of bill bugs were identified from the stomachs. These weevils injure, often seriously, such crops as corn, wheat, barley, and rye, as well as forage plants of many kinds.

The upland plover further makes itself useful to the farmer by devouring leaf-beetles, including the grapevine colaspis, southern corn leaf-beetle, and other injurious species; wireworms and their adult forms the click beetles; white grubs and their parents, the May beetles; cutworms, army worms; cotton worms; cotton cutworms, sawfly larvae; and leather-jackets or crane fly larvae. They befriend cattle by eating horseflies and their larvae, and cattle ticks.

They eat a variety of other animal forms, such as moths, ants, and other Hymenoptera, flies, bugs, centipedes and millepedes, spiders, snails, and earthworms. Practically 97 per cent of the food consists of animal matter, chiefly of injurious and neutral forms. The vegetable food comprises the seeds of such weed pests as buttonweed, foxtail grass, and sand spurs, and hence is also to the credit of the bird.

Notwithstanding that the upland plover injures no crop and consumes a host of the worst enemies of agriculture, it is one of the numerous shore birds that have been bunted to the verge of extinction. Can it be that the American public will allow one of the best friends of agriculture to be exterminated by hunters who care only for the momentary excitement of dropping these swiftly flying birds and the pleasure of devouring the few mouthfuls of savory flesh they afford?—W. L. M.

Killdeer.—(*Oxyechus vociferus*.)—The killdeer is one of the best known American birds. It frequents cultivated lands and even roads and the vicinity of buildings. It is well named "vociferus," for it delights in repeating the loud and penetrating call of "kill-dee, kill-dee," from which its common name is taken. Some individuals spend the winter in the southern half of the United States or occasionally even farther north, while others go as far south as northern South America.

Like the upland plover the killdeer spends much of its time away from water. It frequently nests in cornfields or pastures and, as noted above, even comes about the abode of man. These preferences naturally influence the food habits of the species, affording it an opportunity to destroy insects which are directly related to agriculture. The food of the killdeer is varied, being composed of the following principal items: Beetles, 37.06 per cent; other insects, as grasshoppers, caterpillars, ants, bugs, caddis flies, dragon flies, and two winged flies, 39.54 per cent; and other invertebrates, as centipedes, spiders, ticks, oyster worms, earthworms, snails, crabs, and other crustacea, 21.12 per cent. Vegetable matter composes 2.28 per cent of the total food, and is chiefly made up of weed seeds, such as buttonweed, smartwood, foxtail grass, and nightshade.

Among the injurious beetles consumed are the following weevils: Alfalfa weevil, cottonboll weevil, clover root weevil, clover leaf weevil, rice weevil, cowpea curculio, white pine weevil, and bill bugs. The latter alone constitute more than 2 per cent of the whole food. The alfalfa weevil, a new and destructive pest, is relished by the killdeer, 41 being found in a single stomach. Other destructive beetles devoured are white grubs and their adult forms, the May beetles; wireworms and their imagoes, the click beetles; larvae of the genus *Ligyris*, which attack sugar cane, corn, and carrots; brown fruit beetles, which injure apples and corn; the grapevine leaf beetle; southern corn leaf beetle; two striped tortoise beetle, which injures sweet potatoes; and a flea beetle which attacks tobacco and sugar beets.

Cicadas, buffalo tree hoppers, and negro bugs, the last named injuring parsley and raspberries, are some of the true bugs relished by the killdeer. Caterpillars are a favorite article of diet, and several very injurious species are eaten, as the cotton worm, cotton cutworm, other cutworms, and caterpillars of the genus *Pilegethonius*, which damage tomatoes and tobacco. Grasshoppers and crickets, including mole crickets, are a staple food. Two winged flies or Diptera furnish 11.01 per cent of the food of the killdeer. Such pests as crane flies and their larvae, known as leatherjackets, are eaten, as well as horseflies and mosquitoes and their larvae.—One stomach contained hundreds of larvae of the salt marsh mosquito (*Aedes sollicitans*), which is one of the most troublesome of the biting species. The State of New Jersey has spent thousands of dollars in trying to reduce the numbers of this pest. The killdeer thus befriends man, but it does something also for the domestic animals, not only by eating horseflies and mosquitoes, as just mentioned, but also by preying upon ticks, including the American fever or cattle tick, which has caused such enormous losses in some parts of the South.

Crawfish, well known pests in levees, and even in corn, cotton and other fields in certain localities,

are another item of the killdeer's food, and 3.62 per cent of the subsistence of the 238 birds examined was composed of worms of the genus *Nereis*, which prey upon oysters.

In all, 97.72 per cent of the killdeer's food is composed of insects and other animal matter. The bird preys upon many of the worst crop pests and is a valuable economic factor. There can be no logical reason for continuing to regard it as a game bird.—W. L. M.

Horned Grebe.—(*Colymbus auritus*.—Grebes are among the most interesting of water birds. Their power of diving as quick as a flash or of sinking beneath the surface without leaving a ripple has earned for them such names as bell-diver, sprite, and water witch. Grebes are not only accomplished divers, but swim well under water for long distances—not exclusively by aid of the feet, however, as is often stated. The writer has more than once seen the pied bill grebe using its wings in underwater progression. Grebes have difficulty in rising from the water, but fly well when under way. When alighting they strike the water with a splash, gliding some distance on the breast. The nests are built of water-soaked vegetation, a portion of which is used to cover the eggs in the absence of the parents.

To illustrate the food habits of grebes, the horned grebe is chosen. This species has a circumpolar range. In North America it breeds from the northern tier of the United States northward, and winters from the southern boundary of the breeding range south to Florida and California. The most remarkable point about the food habits of grebes is that the stomachs almost invariably contain a considerable mass of feathers. Feathers are fed to the young, and there is no question that they play some essential though unknown part in the digestive economy. As they are finely ground in the gizzards it is probable that finally they are digested and the available nutriment assimilated. Feathers constituted practically 66 per cent of the contents of the 57 horned grebe stomachs examined. However, it is not likely that they furnish a very large percentage of the nourishment needed by the birds. As the nutritive value of the feathers is unknown, this part of the stomach contents is ignored. The other items of food are assigned 100 per cent, and the percentages are given on that basis. Various beetles, chiefly aquatic, compose 23.3 per cent of the food; other insects (including aquatic bugs, caddis and chironomid larvae, dragon fly nymphs, etc.), nearly 12 per cent; fishes, 27.8 per cent; crawfish, 20.7 per cent; and other crustacea, 13.8 per cent. A little other animal matter is taken, including snails and spiders, and a small quantity of vegetable food was found in two stomachs.

It has been claimed that grebes live exclusively on fishes and do mischief in fish hatcheries. The results obtained by stomach examinations show that they do not depend wholly or even chiefly upon fish. On the contrary, they eat a large number of crawfishes, which often severely damage crops and consume numbers of aquatic insects which devour small fishes and the food of such fishes.—W. L. M.

[To be continued.]

SAN FRANCISCO FLY-CASTING CLUB.

The following high scores made at Stow Lake last Saturday and Sunday speak for themselves with the additional scintillating point of the world's record in accuracy 99 5/10 per cent knocked galley west by two scores of 99 8/10 per cent, cast by Carlos G. Young and H. B. Sperry in the Sunday re-entries—only 2 demerits each in 10 casts. In a private communication calling our attention to the record score, the claim is made for a score of 99 7/10 per cent, 3 demerits in 10 casts. However that may be we publish the score sheets verbatim as sent in by the club's representative.

Saturday Contest No. 5. Classification series, Stow Lake, June 8, 1912. Judges—L. G. Burpee, G. C. Edwards, E. A. Mocker. Clerk—E. O. Ritter.

HINTS TO PUPPY WALKERS.

Puppies are sent out to walk when from six to eight weeks old. If you can choose your puppy always take one with a big head, for unless he has a big head to grow to be will not, as a rule, be very large; also go for a good long neck and good bone. Whether a puppy is straight or not at that age is of little consequence.

Two puppies are far less trouble than one and two thrive better than one; they exercise each other, keep each other amused and, to some extent, out of mischief.

Let their sleeping place be free from draughts, well supplied with clean straw and their bed raised twelve inches above the ground.

Freedom is the first consideration for puppies; if you can give them the run of a grass paddock, by all means do so, but give them daily exercise also. A foxhound puppy must never be chained up nor shut up in a small space except at night.

Exercise them on foot till they are four or five months old. Then you may let them follow you on horseback or follow your groom when exercising the hunters.

If possible, let the puppy be shampooed daily with a hound glove. When the puppy first comes from the kennels he ought to be fed at least twice a day; better still, three times, viz., first thing in the morning, midday and last thing when he is shut up for the night. As puppies get older two feeds a day will be enough—morning and evening. If one puppy is a shy feeder and the other greedy take care the former gets his fair share, but do not leave the food to be eaten up at any time.

Where there is the least sign of "rickets" give a tablespoonful of lime water in each meal. "Rickets" generally shows itself by the puppy getting bandy-legged; his stifles and elbows turn out, the joints giving out and the puppy grows weak and unable to walk properly.

A pint of whey or buttermilk daily is a capital thing for young hounds—or old ones.

Let the puppies hunt anything they like, providing no harm comes of it; watch carefully against hunting sheep, which ought to be stopped at once and severely dealt with. It is all to the good if puppies hunt hares or rabbits on their own hook; it teaches them to use their noses and gets them into the way of puzzling out lines. Once get young hounds into kennel given plenty of cubs during cub hunting, then can soon be taught not to hunt "riot," but to go for the line of the fox in preference to that of the hare. Some masters do not like their puppies to be allowed to hunt hare; others approve it.

A HUMANE DOG MUZZLE.

As a result of the recent dog muzzling laws enacted by the several municipal authorities of the bay counties cities, owners of valuable canines have been considerably interested in muzzling of every description, humanity and safety being given due consideration. A consensus of opinion appears to be that the muzzle used by Frank H. DePue on his bloodhounds is almost perfection in this line. The muzzle has been in use, for bloodhounds, for a number of years past, for the reason that it will not permit the dogs to bite but will allow them to breathe freely and also to drink, two of the prime requisites of a muzzle.

The muzzle is made entirely of strong wire, covered with a coat of rubber tape, the front loop encircling the muzzle of the animal and the back loop encircling the neck. It is an absolute preventive of biting, which cannot be said for the leather muzzles at present being used, as the latter—when adjusted so as to prevent the animal biting is so tightly strapped as to cause it to suffer. The humanity standpoint has never been considered in muzzling the household pets, the reason probably being that never until the past few months has any necessity arisen for the enforcement of a muzzling law in this locality.

The fact that pronounced cases of rabies have developed is undisputed, despite Brother Harker's articles to the contrary, published in San Jose papers.

Doggy Briefs—At a bench show held at the Bide-a-Wee home for stray dogs, at Orange, N. J., held on Saturday, May 25, a collie owned by Mrs. L. L. Andrus, named Southport Stamp, won a cup offered by Mrs. B. F. McGuckin, president of the home. It called for the best dog in the show.

Another show was held on the grounds of Mr. Francis G. Lloyd, at Bernardsville, N. J., on Saturday, for terriers of various breeds. An Irish terrier, Blarney Brickbat, owned by Mr. John G. Bates, won the prize for the best dog in the show. Mr. Robert Goelt's Rumpus of Glenmere, a West Highland terrier, was placed reserve.

Imported Irish Terrier.—A very fine specimen of the Irish terrier breed has just been received by Mr. John W. F. Peat, a local fancier, from Mr. F. M. Jowett of Crow Gill Kennels, Shipley, Yorkshire, England. He is a terrier of exceptional high quality, wheaten red, with small ears well carried and a long, lean head, and is registered as Crow Gill Boxer.

Drink Jackson's Napa Soda.

ECHOES FROM THE NORTHWEST.

J. G. Tanner, a justice of the peace, living six miles south of Spokane, and H. Daniels, a neighbor, caught seven coyotes in traps recently. Justice Tanner, who is a chicken fancier, believes the State should increase the bounty on coyotes and other predatory animals. "The State ought to increase the coyote bounty to at least \$2.50," he said. "That would furnish an incentive to trappers and would encourage more people to start chicken farms near Spokane."

Protection for Chinese pheasants and "Bob White" quail for at least another season in Yakima county, Wash., was assured when Commissioner W. B. Newcomb ordered 300 quail and announced that the commissioners expect to make further purchases of pheasants, partridges and prairie chickens to extend the protection of those already propagated. The State law gives the commissioner authority, by further propagation expenditures, to protect the birds indefinitely.

Al F. Wieseman, secretary of the Spokane Fish Protective Association announces that from 2,000,000 to 3,000,000 rainbow trout fry will be placed in the Spokane river this year. More than 525,000 eastern brook trout from the local hatchery were planted in April and 640,000 will be liberated in a short time. The association will engage men to patrol the river until November 1. The foremost sportsmen in the city are members of the association and are supporting the work.

L. R. Chase, a trapper at Coolin, in northern Idaho, recently brought in some of the finest marten pelts seen in Spokane in years. He said: "The district in which I trapped for two months last winter lies between the Sullivan and Salmon rivers in Bonner county, but it has been almost trapped out in the last five seasons. I had my traps strung through the mountains for 80 miles, yet my total catch was but 38 marten and 20 weasels. The marten pelts will bring from \$7 to \$25 apiece while the weasel skins are worth but about 50 cents each."

The largest timber wolf killed in the Blue mountains, north of Spokane, this year was trapped by Dean Weitman of Dayton, on Lewis fork. The animal measured five feet from tip to tip, and stood two feet high. Whitman says that timber wolves are becoming more numerous in the heavily timbered sections.

English sparrows have become such a nuisance at Sprague, Wash., Mayor Noylan has appointed "Tex" Richard as a special officer to wage war on the pests.

S. W. Purdy, official cougar hunter for the State Fish and Game Commission of Oregon, who has just returned to Pendleton after an extended trip in the Umatilla river districts, says the snowstorms last winter wrought havoc among standing timber in the Wenaha national forest.

Once More!

Remington-U.M.C. shells again show superiority over all other makes, adding another victory to their long list of wins.

At the Fresno Blue Rock Gun Club tournament held on June 1st and 2d, Mr. O. N. Ford won high general average for the entire tournament, making the splendid score of 390 out of 410, and out of 410. Both of these shooters used the eastern loaded Remington-U.M.C. Arrow shells.

Mr. Wm. P. Sears proved his right to be classed as one of the crack amateurs of the country by piling up the wonderful score of 176 out of 180, making the longest straight run of the tournament and finishing third general high average for the entire shoot. Mr. Sears shot the Remington-U.M.C. steel lined "Arrow" shells.

The long runs of the tournament were made by shooters using Remington-U.M.C. goods exclusively, proving without question their absolute superior quality. Wm. P. Sears, straight run of 88, using Arrow shells; W. E. Staunton, straight run of 76, using Arrow shells; Dave Ruhstaller, straight run of 69, using Remington-U.M.C. pump gun.

The five high amateurs on the last day of the shoot were as follows: O. N. Ford, 195x205, shooting Remington-U.M.C. eastern loaded Arrow shells; Wm. P. Sears 195x205, shooting Remington-U.M.C. steel lined Arrow shells; D. C. Wood 194x205, shooting Remington-U.M.C. pump and Arrow shells; D. C. Davison 193x205 shooting Remington-U.M.C. pump gun and Arrow shells; W. E. Staunton, 193x205, shooting Remington-U.M.C. Eastern loaded Arrow shells.

The above result is conclusive proof of the high standard of quality of Remington-U.M.C. guns and ammunition, and the shooters throughout the country are quick to recognize that quality, above all other things, is the one best asset for good scores.

At San Diego, Mr. Sears, Mr. Rathel and Mr. Varlen won second, third and fourth high amateur averages, scoring 558, 556 and 554 out of 600 targets, all shooting the Remington-U.M.C. factory loaded steel lined "Arrow" shell.

Nine shooters among the first 12 high amateur averages shot Remington-U.M.C. "Arrows" and the shooters demonstrated beyond a doubt the popularity of Remington-U.M.C. goods, for out of a field of 60 shooters almost 70 per cent of them used the Remington-U.M.C. factory loaded "Arrow" shell.

THE FARM

DAIRY NOTES.

Cleanliness is the keynote in good dairying.

Concrete vats in the milk house are reasonably cheap, eternally durable, and highly sanitary.

The cow gets up on her hind feet first, with head down. For this reason the manger should be low and the cow allowed enough freedom in her stall so that she can rise with ease.

The more a cow is compelled to tramp over pasture for feed, the less milk in proportion will she give. Moral: Have smaller but better pastures—bluegrass and clover "knee-deep."

As soon as dairy stock must be stabled from the cold every night, supply sufficient bedding to make the animals comfortable and for absorbing stall liquids. Heavy bedding is the secret of turning stable waste into dollars.

A well-bred animal costs very little more to purchase, and generally less to feed, than a poor one, while the progeny is always salable.

Any work or exercise which produces severe strains on the muscles, especially of the hind quarters, is liable to cause abortion in mares.

Do not be stingy in the use of clean straw for bedding; but do not use long, heavy straw in the bed of the farrowing sow, as sometimes very young pigs get tangled up in it and die.

SAVE-THE-HORSE

TRADE
MARK
REG'D.

SPAVIN REMEDY

16 YEARS A SUCCESS

A RETAIL DRUGGIST IN A "LIVE HORSE TOWN" WITHIN THIRTY MINUTES' RIDE FROM NEW YORK CITY, WRITES: "I AM SELLING THREE TIMES MORE SAVE-THE-HORSE THAN ANY OTHER ONE VETERINARY REMEDY; WHEN THEY WANT THE GOODS THAT CURES THEY COME BACK FOR SAVE-THE-HORSE."

SAVE-THE-HORSE STOPS THE LOSS

Rahway, N. J., March 9, 1912.

Troy Chemical Co., Binghamton, N. Y.

Dear Sirs—We are today in receipt of a bottle of Save-the-Horse, purchased of our druggist.

We had the advantage of others in regard to your remedy, as a friend of ours bought a bottle some time ago and used it on a splint, which he cured with three-quarters of a bottle. After he cured him he sold the horse for double what he was worth before using your treatment. That is how we came in possession of your remedy. He gave us the remainder of his bottle.

Yours very truly,
RENTLER BROS.

What He Thinks of Book!

Mr. L. Decker, New Paltz, N. Y., writes: "\$5 enclosed for bottle of Save-the-Horse. I wouldn't take \$5 for your book alone."

Write describing your case, and we will send our—BOOK—Sample Contract and Advice—ALL FREE to (Owners, Trainers and Managers—Only).

SAVE-THE-HORSE is sold by Druggists and Dealers Everywhere. For over 16 years it has saved horses and is doing it more today than ever; it does, after all others get through; it undoes the damage and complication others make.

MAKES A TENDON AS STRONG AS A ROD OF STEEL.

\$5 A
Bottle

With a binding contract to refund money or cure any case of Bone and Bog Spavin, Thoroughpin, Ringbone (except low), Curb, Splint, Capped Hock, Windpuff, Shoe Boll, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual.

AT ALL DRUGGISTS AND DEALERS OR EXPRESS PAID.

TROY CHEMICAL CO., BINGHAMTON, N. Y.

D. E. NEWELL, 80 Bayo Vista Avenue, Oakland, Cal.

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE, CHEAP—A McMurray, 28 lb., blue sulky, only used once, and a fine Toomey road cart. Must be sold. Apply to 2277 Howard St., San Francisco.

FOR SALE—Brown yearling stud colt by Zolock 2:05 1/4, dam Queen Derby 2:06 3/4. When just broken at 10 months old could show a 3-minute gait and was then turned out. Is a pure-gaited line trotter and said to be the finest-looking yearling at Pleasanton. Is paid up in \$35,000 worth of futurities. Queen Derby was a successful race mare, winning 6 in 10 starts, and her first 3 dams are in the Great Brood Mare table, so this colt should be and will be a race horse. Address M. B. MCGOWAN, 651 3rd Ave., San Francisco.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Ginton 1016 (6890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7611 by King Richard 312 (3784); third dam Lake County May 7496 by Knowie Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

San Francisco Boat House,

CAPT. W. W. HERKE, Prop., Tiburon, Cal.

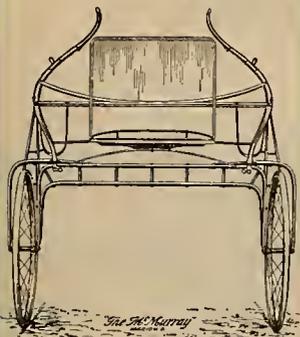

Good ferry service from foot of Market St.

After the pigs have been put into the fattening pen in the fall they should be fed all that they will eat with a relish, for, as a rule, the shorter the fattening period, the larger the profits.

Do not be in too much of a hurry to wean the pigs. As long as the sow is giving plenty of milk and keeping in fairly good flesh let the younglings suck. This will give them a long lead in getting growth and fat.

THIRD DAY.

| | |
|--------------|-----|
| 2:20 Pace | 400 |
| 2:12 Trot | 500 |
| Running Race | 100 |

CONDITIONS OF HARNESS RACES:

Entries Close Monday, July 1, 1912.

Horses to be named with entry. Entrance fee 5 per cent to enter and 5 per cent deducted from money winners. Money divided into four moneys—50, 25, 15 and 10 per cent.

The Association reserves the right to reject any and all entries and declare off or postpone any and all races on account of weather or other sufficient cause. Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races.

Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starters to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. When a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

All races mile heats, 3 in 5, and no race longer than five heats, and money not decided before fifth heat will be divided according to rank in the summary at the termination of the fifth heat.

Member National Trotting Association. Running races will be at catch weights; distances to be arranged to suit the horses that will be at the track. Two moneys—\$75 and \$25. Running races will be on the inside 1/4-mile track.

Address all communications to the Secretary.

HENRY NUNAN, Secretary, Santa Rosa, Cal.

S. H. BURNS, Proprietor.

LEST YOU FORGET

The Name

REDUCINE

When your horse gets lame or blemished or has bad feet or a sore neck. If you wish to buy REDUCINE, see to it that IT IS REDUCINE. See that the fac-simile signature

A. J. Stark

is on the outside of the box containing the can. Be sure to write us about a doubtful case before you buy REDUCINE. Better write us anyhow. We don't want REDUCINE used on incurable cases.

K. M. SMITH & COMPANY,

The Pleasanton Futurity Stakes of 1914 and 1915

For Foals of 1912, to Trot and Pace at Two and Three Years Old

— ON THE —

— Pleasanton Race Track, Pleasanton, California. —

(R. J. MacKENZIE, Proprietor.)

Entries to Close Monday, July 1, 1912.

MONEY DIVIDED AS FOLLOWS:

\$3,000 for Three - Year - Old Trotters.
\$1,500 for Two - Year - Old Trotters.

\$2,000 for Three - Year - Old Pacers.
\$1,000 for Two - Year - Old Pacers.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare July 1, 1912, when description of mare and stallion bred to must be given; \$5 October 1, 1912, when color and sex of foal must be given; \$5 May 1, 1913; \$10 October 1, 1913; \$10 May 1, 1914; \$10 May 1, 1915.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Pace; \$35 to start in the Two-Year-Old Trot; \$35 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All Starting Payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two-Years-Old are not barred from starting again in the Three-Year-Old Divisions.

CONDITIONS.

The races for Two-Year-Olds will be mile heats, 2 in 3, and for Three-Year-Olds, 3 in 5. Distance for Two-Year-Olds, 150 yards; for Three-Year-Olds, 100 yards.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1913, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment, nor will any entry be liable for more than amount paid in or contracted for.

Entries must be accompanied by the entrance fee. Nominators liable only for amounts paid in. Failure to make any payment forfeits all previous payments.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these Stakes in case the number of entries received is not satisfactory to the management.

Money divided in each division of the Stake 50, 25, 15 and 10 per cent. There will be no more moneys in each division than there are starters.

Entries open to the world.

ROSS McMAHON

Awning and Tent Co.

Camp Furniture, Awnings, Hammocks and Covers in stock and to order. Flags and Banners.
Phone Kearny 2030. 303 Davis St., San Francisco, Cal.

New Edition of John Splan's Book

"Life With the Trotter"

Price, \$3.00, Postpaid.

"Life With the Trotter" gives us a clear insight into the ways and means to be adopted to increase pace, and preserve it when obtained. This work is replete with interest, and should be read by all sections of society, as it inculcates the doctrine of kindness to the horse from start to finish. Address: BREEDER AND SPORTSMAN, P. O. Drawer 447, San Francisco, Cal. Pacific Bldg., Cor. Market and Fourth Sts.

| 4—2-YEAR-OLDS, PACING 400 | | | |

CONDITIONS.

Horses to be named with entry and eligible when entries close.

Nominators have the right of entering two horses in one ownership in any race by the payment of one per cent additional for that privilege, but only one horse of the two so entered can be started except when proper transfer is made according to rule and full entry fee paid on each entry.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts in both races.

All races mile heats, 3 in 5, except for two and three-year-olds, which are 2 in 3.

No race to be more than five heats. Any race not decided before the fifth heat, money will be divided according to the rank in the summary at the termination of the fifth heat.

In case class in which horse is entered does not fill, entry may be transferred to any stakes to which it is eligible, subject to the approval of the nominator.

Entrance fee five per cent and an additional five per cent of the amount of the stake will be deducted from money-winners.

Rules of the National Trotting Association, of which this track is a member, to govern except as otherwise stated.

For entry blanks and further information, address

CHAS. L. DE RYDER, Manager, Pleasanton, Cal

Address all communications to J. S. HARRINGTON, Manager, Caldwell, Idaho.

CONDITIONS.

Harness Races for La Grande, Baker, Ontario and Caldwell.

1. Entrance fee five per cent and five per cent from all money winners, payable two per cent July 15th, when horses must be named, and the remaining three per cent on September 1st, 1912.
2. No entry will be accepted unless accompanied by the entrance fee.
3. The main race of the \$1500 purse for 2:15 pacers will be for \$1000. The consolation purse of \$500, free entrance will be given provided there are eight (8) or more starters in the main event. First, second and third money winners barred.
4. 2:20 trot for \$1500, same condition as 2:15 pace.
5. An entrant who has made the two per cent payment may declare out at any time prior to August 15th, by the payment of one per cent additional, but an entrant who has not actually paid the two per cent cannot avail himself of this privilege and will be held for the full five per cent.
6. All harness races mile heats, three and five, and no races shall be longer than five heats (except in the event of a tie for first money at the end of the fifth heat), and money is payable according to summary at end of race. Division, fifty, twenty-five, fifteen and ten per cent.
7. The right is reserved to declare off any race that does not fill satisfactorily, to change the order of program, to postpone or declare off any race on account of inclement weather, and on all tracks of this circuit to call two starters a walkover and the contest will be for the entry fee paid divided as follows: Seventy per cent to the first horse, thirty per cent to the second.
8. Owners may enter two horses from one stable by the payment of one per cent additional for that privilege, due when entry is made, but only one horse can start except where proper transfer is made according to rule and full fee paid on each entry.
9. A horse distancing the field shall be entitled to first money only.
10. Rules of the National Trotting Association to govern.
11. Owing to criticism of fairs, under State control, the following rule has been adopted by all members of this circuit: All horsemen will be charged a nominal fee of \$1.00 per each badge or admission ticket issued, and no badge will be issued to owners, trainers, drivers or grooms without this payment.

CONDITIONS GOVERNING RUNNING RACES.

Entrance fee five per cent of purse and five per cent from money winners. Two per cent payable on date of closing July 15th, and final three per cent payable on September 1st.

No entry will be accepted unless accompanied by the entrance fee.

Right is reserved to declare off any race that does not fill satisfactorily, to change order of program, to postpone. All races weight for age. Money divided seventy, twenty and ten per cent.

American Racing Rules to govern.

Additional overnight events for horses in attendance.

All entries and remittances must be made to the individual secretaries or managers.
LEON J. CHAPMAN, Secretary Oregon-Idaho Fair Circuit, Ontario, Oregon.

FREE-FOR-ALL PACE\$ 800

Address all communications to ARTHUR HODGES, Secretary, Boise, Idaho.

CONDITIONS.

2:15 pace—5 per cent entrance fee will be charged on \$1000; 2 per cent payable August 10, 1912, and the remaining 3 per cent on September 10, 1912.

For the \$500 consolation an additional 5 per cent will be deducted from money winners.

2:20 trot for \$1500. Same conditions as 2:15 pace.

An entrance fee of 5 per cent will be charged on all entries, 2 per cent payable August 10, 1912, and the remaining 3 per cent on September 10, 1912; with 5 per cent additional from all money winners.

On all other stakes an entrance fee of 5 per cent will be charged, 2 per cent payable August 10, 1912, and the remaining 3 per cent payable on September 10, 1912.

No entry will be accepted unless accompanied by the entrance fee.

This Association issues a special folder regarding running races and other speed events not given here.

Flies! Flies! Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of *Tanglefoot Fly Paper*. There is fully one-third more compound per sheet on *Tanglefoot* than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for *Tanglefoot*.

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans, Will protect your trees from all climbing insects.

The State Agricultural Society

SATURDAY, SEPTEMBER 21ST.

- NO. 17—STANFORD STAKE, FOR THREE-YEAR-OLDS.....(Closed)
- NO. 18—FREE-FOR-ALL PACE\$1000

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 3, 7, 8, 9, 13, 14, 15, 16 and 17, mile heats 3 in 5, no race longer than 5 heats. Races 4, 5, 10 and 13, mile heats 2 in 3. In the first three heats of races Nos. 11 and 12, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 6, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moneys as there are heats.

Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards.

A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting. If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |
|-------------------|-----------|------------|------------|------------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$15 |

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fast-old stallion of 1910.

Grace Bond (3) 2:09¹/₄, winner both Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911. and 31 others.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:06³/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.

Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

BARON WILKES 2:18. Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:05, Baron May 2:07¹/₂; sired dams of 4 in 2:10.

SORRENTO Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Eola 2:19³/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.

4th dam Virgie—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

GEORGE WILKES 2:22 Sire of 83, dams of 204.

BELLE PATCHEN 2:30³/₄. In great brood mare list.

GRAND SENTINEL 2:29³/₄ Sire of 23, including Nettle 2:16³/₄, Tosca 2:18³/₄.

EMPRESS Dam of 2 and granddam of 9.

HAMBLETONIAN 10 Sire of 40.

DOLLY SPANKER Dam of 1.

MABRINO PATCHEN 58. Sire of 25, dams of 162.

SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc.

SENTINEL 280 Sire of 8 in list.

MAID OF LEXINGTON By Mamb. Plot 29.

ABDALLAH MAMBRINO Sire of 15, dams of 42.

BIG ELLEN By Clark Chief.

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. \$100 THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ in a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

| | | |
|--|---|--|
| Francis J. 2:08 | Legal Patchen .. 2:15 ³ / ₄ | Dorothy C. 2:19 ³ / ₄ |
| Evelyn Patchen .. 2:10 ³ / ₄ | Lucile Patchen .. 2:16 | Louise Patchen .. 2:19 ³ / ₄ |
| Scott Patchen .. 2:12 ³ / ₄ | Jerry Patchen ... 2:16 ³ / ₄ | Dr. Warren 2:19 ³ / ₄ |
| Dessie Patchen .. 2:13 | Knightstown Belle 2:16 ³ / ₄ | Roscoe Binning .. 2:20 |
| Frank Patchen .. 2:13 ³ / ₄ | Alec Williams ... 2:18 ³ / ₄ | Mary Patchen ... 2:20 ³ / ₄ |
| Ruby Patchen ... 2:13 ³ / ₄ | Lols Patchen ... 2:19 ³ / ₄ | Black Patchen ... 2:20 ³ / ₄ |
| J. C. Patchen ... 2:14 ³ / ₄ | Auduous the Miller 2:19 ³ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pity Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: \$50 Return privilege 1913
Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

Montbaine

Reg. No. 48667

SON OF

MOKO 2457 (futurity sire) and Krem Marie (dam of 4 in 2:30) by Kremlin 2:07³/₄; second dam Maymont by Blackmont; third dam Maywood by Blackwood.

Montbaine is a rich, mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

P. W. HODGES,

4416 Stanford Ave., Sacramento,

CAL.

Sired by Nutwood Wilkes 2:16³/₄ Sire of Copa de Oro 1:59 Jno. A. McKerron 2:04³/₄ etc.

The Wilkes-Nutwood-Director cross. **CHESNUT TOM** Record 2:15 Reg. No. 43488 Sire dam of

Dam by Director 2:17 2nd dam by Nutwood 2:18³/₄; 3rd dam by Geo. M. Patchen Jr. 2:27; 4th dam by Williamson's Belmont.

WILBUR LOU 2:19³/₄, Champion Yearling Colt Trotter of the World. The dam of Wilbur Lou 2:19³/₄ is the only one of the get of Chestnut Tom ever raced. Will stand at Tulare Fair Grounds, Tulare, Cal. FEE: \$25 the Season. Usual return privilege for further particulars address I. M. LIPSON, Box 464, Tulare, Cal

Woodland Race Meeting

—AND—

Fourth of July Celebration

Entries to close Thursday, June 20, '12

RACE PROGRAMME.

THURSDAY, JULY 4.

No. 1—2:25 Trot \$600

No. 2—2:15 Pace 400

No. 3—Matinee Race, open to Clubs in Sacramento Valley

FRIDAY, JULY 5.

No. 4—2:12 Trot \$400

No. 5—2:08 Pace 400

No. 6—Matinee Race for Local Horses

SATURDAY, JULY 6.

No. 7—2:08 Trot \$400

No. 8—2:25 Pace 600

No. 9—Matinee Race, open to all California Clubs

NOTE.—Commencing at 10 o'clock a. m., parade of Floats and Live Stock Spoken by able men, and an old-fashioned Barbecue. Regular racing in the afternoon. In the evening the Horrible Parade, Fireworks, and last, but not least, a Grand Ball. On the 5th and 6th there will be Stock Judging in town, free to all, and Racing each afternoon. Good purses, good racing, and a good time for all. We will also celebrate the first train on the new electric railroad from Sacramento to Woodland.

CONDITIONS.

Horses to be named with entry. Entrance fee 5 per cent to enter and 5 per cent deducted from money winners. Money divided into four moneys—50, 25, 15 and 10 per cent. The Association reserves the right to reject any and all entries and declare off or postpone any and all races on account of weather or other sufficient cause. Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races. Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starters to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. When a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

Racing colors must be named by 5 o'clock p. m. on the day preceding the race, and must be worn upon the track in all races. Colors will be registered in the order in which they are received, and when not named or when said colors conflict, drivers will be required to wear color designated by the Association.

All races mile heats, 3 in 5, and no race longer than five heats, and money not decided before fifth heat will be divided according to rank in the summary at the termination of the fifth heat.

Member National Trotting Association.

THE ROYALLY BRED YOUNG STALLION

Best Policy 42378

By Allerton 2:09 1/4, Jay Bird's greatest son; dam Exine 2:18 1/4 (dam of Riverside (3) 2:30 and Rinola (3) 2:30) by Expedition 2:15 1/4; second dam Euxine (dam of 6) by Axtell 2:12; third dam Russia 2:28 (great broodmare) by Harold 413; fourth dam Miss Russell (dam of Maud S. 2:08 1/4 and 6 others), etc., etc. **Best Policy** is a handsome bay, has size, style and quality in every respect. Is a pure-gaited trotter. No better bred one in California. His progeny will be seen in races this year.

FEE: \$50 for the Season. Usual return privilege.

LIFE POLICY

4 years old; handsome bay stallion, with black points; stands 16 hands; weighs 1190 pounds. Sired by Best Policy 42378; first dam by Boodle 2:12 1/4; second dam by Silver Bow 2:16; third dam by Antevolo 2:19; fourth dam by Nutwood 2:18 1/4; fifth dam by Williamson's Belmont. This horse was worked a short time as a two-year-old and trotted a half in 1:10, eighths in 16 seconds.

FEE: \$25 for the Season. Usual return privilege. Money due July 1st. Season of 1912 at my feed stable, corner of Bridge and Center Streets, VISALIA, CAL.

After the season is over these two horses will be taken to the races this year. Good pasturage at \$2.50 per month, and the best of care taken of mares, but no responsibility assumed for accidents or escapes. Address

R. O. NEWMAN, Box 575, Visalia, Cal.

Triumphs and Trophies

WON BY SHOOTERS OF

SMOKELESS POWDERS

At the First Annual Tournament of the

DELAWARE STATE SPORTSMEN'S ASSOCIATION

The notable scores made by winners at the traps of the du Pont Gun Club, Wilmington, Del., May 29-30, prove that skillful marksmanship and reliability of powder make a victorious combination for trapshooters at all tournaments.

Delaware State Championship

Won by A. B. Richardson, Dover, Del., 285 x 300, with "Schultze," and Mr. Richardson also won the Delaware Open State Championship, 96 x 100, with "Schultze."

High Averages for Entire Tournament

Made by H. H. Stevens, Roselle Park, N. J., 292 x 300, with "Schultze." L. S. German, Aberdeen, Md., 290 x 300, with "du Pont."

Longest Run of the Tournament

Made by H. H. Stevens, Roselle Park, N. J., 147 straight, with "Schultze."

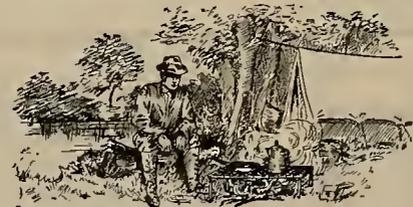

Longest Amateur Run

Made by Allen Heil, Allentown, Pa., 68 straight, with "du Pont," which secured for him the "Davis" silver punch bowl, and Mr. Heil also made 12 straight during the two days, thereby winning the "Capelle" Trophy awarded to the contestant making the greatest number of perfect scores.

Why Not Shoot du Pont Loads and Join the Winners?

WINCHESTER

SMOKELESS AND BLACK POWDER FACTORY LOADED SHELLS

THE RED W BRAND

“Leader” and “Repeater” smokeless and “New Rival” and “Nublack” black powder shells, contained in boxes with a big red **W** on the end, are made entirely in the Winchester factory, including the loading. The complete equipment and vast experience of the Winchester Co. are utilized in every step and process of their production. Factory loaded shells have always proven the most satisfactory, as their method of manufacture insures their being uniform in size, loading and shooting. Machines are used which perform each operation with mathematical exactness. Winchester factory loaded shells can be procured in all the standard loads.

SAVE-THE-HORSE

(Trade Mark Registered.)

SPAVIN REMEDY

Campaigners and Trainers ATTENTION!

HAVE YOU A GRIM FEAR That Your Horse Will Not Stand Fast Work?

Preparation is at full blast and time flies.

Don't take any chances. The importance of quick, positive and permanent results may mean a whole season's gain or loss.

YOU CAN DEPEND UPON SAVE-THE-HORSE

Here are two expressions constantly received from our customers:

"I thank you for your advice."

"I have followed your directions and my horse is cured."

The point we wish to emphasize is simply this—no matter how serious or perplexing the case has proven there is a way to reach it—and this way is made plain and goes to each and every purchaser with his order.

OUR ADVICE HELPS TO SELL A HORSE FOR \$800.

Ogden, Iowa, April 18, 1912.

Troy Chemical Co., Binghamton, N. Y.:
Gentlemen:—I have used Save-the-Horse for years and I never found any case but it would do just what you claim for it. At present I have a horse I want to race and want your advice and another hook. I lost or mislaid mine. The last time I bothered you, your advice and treatment did the work, and I sold the horse for \$800. Yours truly,
H. S. HELPHRY.

Brazil, Ind., April 23, 1912.

Troy Chemical Co., Binghamton, N. Y.:
Dear Sirs:—Enclosed find P. O. Money Order for \$5 (five dollars) for which please send one hottle of Save-the-Horse. Please send at once.
I have cured two spavins, one curb and one very bad case of shoulder lameness. To have a hottle of Save-the-Horse in the barn is the best insurance against loss I know of. It is all O. K., and I cannot praise it enough for what it has done for my horses.
J. L. CUTSHALL.

J. M. GEORGE GRAIN CO.,
Grain, Seeds, Choica Milling Wheat a Spacialty.

Shattuck, Okla., April 1, 1912.

The Troy Chemical Company, Binghamton, N. Y.:
Gentlemen:—Please send me your book on "Use and Abuse of Bandages." I used Save-the-Horse on a Ruptured Tendon and cured it perfectly on one of my stallions after a lameness of two years, and after trying several other remedies and veterinarians. Less than one bottle did the work perfectly, and he has never taken a lame step since, and that was one year ago.
I helieve I had spent \$50 on this before I used Save-the-Horse. Now I keep a hottle on hand in case of emergency, that's all.
Yours truly,
J. M. GEORGE.

16 YEARS A SUCCESS.

What He Thinks of Book

Mr. Landson Decker, New Paltz, N. Y., writes: "\$5 enclosed for hottle of Save-the-Horse. I wouldn't take \$5 for your hook alone."

We sell Save-the-Horse under a legal binding Contract to refund the money if it does not cure.

E. G. DYMOND, GROWER OF VEGETABLE PLANTS.
Wyoming, Pa., April 29, 1912.

Troy Chemical Co.:
Your Save-the-Horse medicine has the right name. It straightened my horse all right. I could not believe it would last is the reason I have not written before.

I am well pleased. Would it be good for rheumatism in a person's knee?
Answer.
E. G. DYMOND.

DR. F. P. FOLEY,
Physician and Surgeon.

Dorchester, Wis.

Troy Chemical Co., Binghamton, N. Y.:
Dear Sirs:—Send me at once two hottles Save-the-Horse as soon as you can. I want one and a friend wants the other.
I used a hottle a year ago on a jack spavin and it did the work. Please send at once with contracts as before. Fraternaly yours,
F. P. FOLEY, M.D.

But write describing your case, and we will send our—BOOK—Sample Contract, Letters from Business Men the World Over on Every Kind of CASE and advice—ALL FREE (to Horse Owners and Managers Only). PUT YOUR HORSE TO WORK and CURE HIM NOW. Write! AND STOP THE LOSS.

Makes a Tendon as Strong as a Rod of Steel.

\$5 A BOTTLE
With Signed Guarantee

This is a binding contract and protects purchasers absolutely in treating and curing any case of Bone and Bog Spavin, Thoroughpin, Ringbone (except low), Curb, Splint, Capped Hock, Sboe Boil, Injured Tendons and all Lameness. No scar or loss of hair. Horse works as usual. Send for copy of this contract, booklet on all lameness and letters from prominent business men, bankers, farmers and horse owners the world over on every kind of case. AT ALL DRUGGISTS AND DEALERS OR EXPRESS PREPAID.

THE MAJORITY of the people are just awakening to the fact that the light harness horse industry throughout the world is on a better basis than it has ever been. The fame of the American-bred trotting horse has extended everywhere and descendants of Hambletonian 10 and Mambrino Chief 11, are to be found wherever civilization has established a foothold. As a consequence, there is an increasing demand for our very choicest bred stallions and mares from horsemen in Europe, Asia, Africa, South America, Australia, and our Island possessions. This demand has had a most beneficial effect upon the industry, because those interested know that they can always get a good price for their very choicest ones, provided they have size, speed and stamina. Hence, there is an incentive to continue breeding and developing. California, unfortunately, is too far away from the principal markets, thousands of miles separate it from Chicago and New York City, where the richest of European buyers come, consequently, many engaged in the light harness horse breeding industry here have become discouraged. Being small breeders and not having the advantage to induce even American buyers which were formerly held by the Palo Alto, San Mateo, Oakwood Park, and many other farms of similar magnitude. Nevertheless, there have been sales made here by the small breeders (men who had only a few choice mares) which must be encouraging to all doubting ones, and the fact that in the past buyers have always been present to secure our very best young horses, at good remunerative figures is one reason why so many owners have entered so heavily in our Futurity stakes, and in this they are showing rare forethought and wisdom.

During the past four years we have had to announce some important sales in California, and it is strange none of these trotters and pacers have been shipped away, but all are kept before the public in their particular spheres, either as stallions, broodmares or campaigners. The highest priced one was C. The Limit, by Searchlight 2:03¼; he sold for \$10,000; Biene Holt, while not a California product, was sold in this State for a similar figure; Perfection, a mare bred here, was sold for \$10,000 a few

years prior to the time her purchaser, Mr. Estabrook, of Denver, secured C. The Limit 2:04¼. Vernon McKinney 2:02, by Guy McKinney was bought by R. J. MacKenzie, of Pleasanton, for \$9000; Aerolite 2:07½, by Searchlight 2:03¼, was sold to C. L. Gifford for \$8500; Helen Stiles 2:08¼, by Sidney Dillon, brought \$8000 after she got her record; Bert Kelly by McAdrian 2:24, was sold for \$7500, and Maymack, by Arthur Wilkes 2:28½, brought \$6000. Both these were purchased by Mr. MacKenzie. Bon Guy 2:11¼, by Bon Voyage 2:08, was bought by Mr. S. S. Bailey, of Pleasanton, for \$5500; Will Guthrie, by Educator, was sold for \$4000 to T. E. Pollock, of Flagstaff, Arizona, last Saturday; Bon McKinney 2:24¼, by Bon Voyage 2:08, was bought by W. A. Clark, Jr., for \$4000; Blanche 2:06¼, by Menlow, was purchased by Lou Childs for \$3500, and, after winning more money than any other pacer on the Pacific Coast last year, was resold for \$1500 to Mr. Pollock, of Arizona. Dr. Hagan, a two-year-old, by Del Coronado, was sold to Clarence Berry for \$3000; Tom Smith 2:13¼, by McKinney 2:11, was sold to Mrs. Frank H. Burke for \$2500; Bessie L., by Zombro 2:11, was sold to Mr. MacKenzie for \$2500; F. S. Chadbourne received \$2500 for Moortrix 2:07½, by Azmoor 2:20½, Kalatan by Kinney Lcu 2:07¼, brought \$2500 and is now in Saswatchewan; Sirius Pointer (2) 2:18 was bought by Lou Childs for \$2200. Besides these, there were at least half a dozen that brought between \$1000 and \$1500, including Vallejo Boy 2:15, by Tom Smith 2:13¼; Cleopatra 2:11, by Zolock 2:05¼; Alberta 2:09¼, by Searchlight; Pronto J., by Strathway 2:19; Matawan 2:17½, by Athadon, and El Zombro 2:11. All these were disposed of at private sale.

With such a showing during the past four "lean" years what will he accomplished during the next three years. Each year will see more and greater race meetings on this Coast, bigger stakes and purses, consequently larger fields—even up to and including the greatest race meeting ever held in the United States, which is to take place on the new mile track in a naturally sheltered cove within the boundary lines of the Panama Pacific Exposition grounds. At this meeting more big purses will be offered during the 12 days of racing than were ever raced for before, and the attention of every owner of a promising horse in the United States, Canada, Europe and Australasia is being attracted to it. Turf journals everywhere are referring to it and there is not an enthusiastic horse lover anywhere who will not endeavor to be in California during the time this great meeting is in progress and witness races that will go down in history as the greatest ever seen.

SINCE the late Chas. Marvin published his remarkably useful book on the training of trotting colts and fillies many horsemen have endeavored to follow the teachings and advice set forth in that work. But time and experience have proven that the kindergarten system of training as then set forth, might work on big farms where the injury to a few colts and fillies is hardly noticeable, but where there are only a few choice ones, owners do not care to take any such chances by rushing them beyond their limit, but prefer to take them slower and never let them get so tired they will cross their legs or stagger. The Western Horseman in its last issue, refers to the question of developing the speed of colts for the futurities in the following able and comprehensive article:

"This should be an exceptional year for the colts and the futurities should be productive of some exceptionally hard-fought races. Never was there a better lot of colts in training in all sections of the country than at the present time and while some of the youngsters will fall by the wayside, there should be enough left to furnish sensational sport when it comes time for the futurities to be decided. The colts are now looked upon to furnish a great deal of the best racing of the year. They are foaled with much natural speed and take to the trot or pace without the trainer having to spend weeks and months in gaiting them. Some of these precocious race horses have so much speed that the trainer has to take care not to let them step too fast at first, rather than being anxious to make speed. The colts have to be well muscled and in good physical condition to go the route before it is possible to let them step at top speed. Training conditions have changed much in the last few years and the successful trainer is the one who has changed his methods along with the improvements in breeding. What was essential a dozen years ago would serve to ruin the racing prospects of the highly bred colt of the present day. The yearling of today has more speed, can show more speed, than many of the three-year-olds of even ten or a dozen years ago, and such being

the case it is patent that old-time methods of training will not apply at the present time. Even the trainer hardly realizes how greatly changed are present methods until he stops and harks back to his own methods of a few years ago. The successful trainer has changed his methods so progressively from year to year that he does not realize that he has made any revolutionary changes until he begins to think it over. Nothing radical on his part has ever been required because the changes have been gradual and in keeping with the slow progress made by the breeders, and while this latter progress has seemed extremely slow at times, yet the improvements made in the course of a dozen years have been something surprising, so much so that even those most interested hardly realize that such is the fact. That the trainer has kept up with the procession is evident from the success he is having in developing colts of futurity caliber and while at times it has seemed almost discouraging to see a phenomenal colt shoot out and establish a remarkable record, yet in the course of a few seasons the average has again been re-established and the great farms are turning out as large a percentage, even a larger one, than heretofore."

SANTA ROSA is bound to be kept in the "spotlight" if S. H. Burns, the enterprising owner of the beautiful race track there can keep her there. With a few enthusiastic trotting horse men this gentleman intends to give a three days' meeting commencing July 18th and ending July 20th. The purses are not as large as they would have been had there been an awakening sooner among the residents of the "City of Roses" who, as a general thing, have been liberal in financially aiding the meetings in the past. But as this meeting was started at the "eleventh" hour Mr. Burns believes they will all come and see that he can conduct one of the best meetings ever seen there. He has put the buildings: grand stand, Judges' stand and box stalls in excellent condition and as the track is conceded to be, by all horsemen who have raced over it, one of the fastest, safest and best in California, there will be some low records made there. Entries to these races will close July 1st and everybody owning or training a horse should strive to make an entry there. The horses can be shipped direct from there to Pleasanton and thence to Vancouver, B. C., on through the Pacific Coast Circuit.

THE COMPLETE lists of entries for the San Jose, Woodland and Pleasanton race meetings will appear in our next issue.

ATTENTION is called to the programme of races at the Portland meeting. Entries for which will close July 1st.

BIG FAIR AT HANFORD.

Hanford, June 16.—The biggest fair ever held in Kings county will be held October 7 to 12, inclusive. The decision of the County Fair directors to offer premiums for the livestock show and to horsemen entering the harness program, was followed by a preliminary canvass for a guarantee fund. Two thousand dollars was raised in four hours yesterday, insuring sufficient funds to give an exhibit that will attract farmers from miles around.

Not only Kings county ranchers, but many from all parts of the San Joaquin Valley will take part in the exhibits. About \$4,000 in premiums will be offered.

The speed committee has arranged a program including a 2:10 trot and a 2:10 pace, for which \$1,000 in purses are hung up. Purses for the races will aggregate \$5,000. Special purses will be offered for gaited horses, among which will be several contestants from San Francisco.

The Fair Association directors are C. L. Newport, president; A. G. Robinson, secretary; H. R. Cousins, Frank Johnson, Walter Gallup, Mark Bassett and George C. Aydelott.

SACRAMENTO'S CHARITY MATINEE TOMORROW

Plans for the Sacramento Driving Club's charity matinee, which will be held at the State Fair Grounds tomorrow (Sunday) afternoon, June 23, are fast becoming completed, and Secretary Murray is receiving entries with every mail.

Some of California's fastest matinee horses will be racing for the beautiful trophies the local club is offering. Prizes will be given to horses finishing first, second and third in all of the events.

Fourteen silver cups have been donated by liberal Sacramento business men, and many other prizes have been offered.

The entire proceeds will be turned over to the Home of the Merciful Savior. The directors of the Driving Club expect to raise \$1,000, and if it is made it will be the largest sum ever realized at a benefit race meet there. Last year \$800 was collected.

The following entries have been received up to date:

NOTES AND NEWS

Pari-mutuel betting will be allowed at the Vancouver, B. C., meeting.

Thirteen \$1000 purses are offered in open purses for the Kalamazoo Grand Circuit meeting.

The Earnest, one of the MacKenzie three-year-old futurity candidates, trotted a half at Libertyville in 1:04 $\frac{1}{4}$ last week.

Vallejo Boy 2:15, is trotting sound at San Jose, and will be a factor in his class on the Pacific Coast Circuit this season.

Remember, entries to the Santa Rosa race meeting close July 1st. See programme and liberal conditions in our business columns.

Billie Burke 2:03 $\frac{1}{4}$ is in promising form this season. Alonzo McDonald let him trot a mile in 2:12 in his work a few days ago.

Patsy Davey has recently added Lovelock 2:19 $\frac{3}{4}$, by Zolock 2:05 $\frac{1}{4}$, to his string at San Jose, and last Saturday drove her a mile in 2:13 $\frac{1}{4}$ quite easily.

There will be an immense crowd in attendance at the Charity Matinee races tomorrow at the race track in Agricultural Park, Sacramento.

Billy Andrews 2:06 $\frac{1}{2}$, the pacing stallion by Bow Bells 2:19 $\frac{1}{2}$, dropped dead at Medicine Hat, Alta, recently. He was the property of Fred McLain.

In the printed list of those colts upon which second payments in the Canfield-Clark stakes were made Red Comet and Dorsie McK. were inadvertently omitted.

C. D. King, of Hanford, writes that he gave Guy Borden his first workout Tuesday morning and he came through the stretch an eighth in 15 $\frac{3}{4}$ seconds. Rather good for a starter.

Horses are still worth stealing. Samuel Witherow, of Maple Shade, N. J., is mourning the loss of his pacing mare, Annie H. 2:11 $\frac{3}{4}$, taken from the Salem race track on the night of May 18.

Yearling colts that are entire should never be allowed to run in the same pasture with fillies of that age or older. Two or more yearling entire colts will usually run quietly in the same lot.

Belwin (1) 2:21 $\frac{1}{4}$, by McKinney 2:11 $\frac{1}{4}$, in the stable of William J. Andrews at North Randall, O., is considered to be the fastest colt of his age (now 2 years old) the turf has ever known.

A subscriber has sent in a request for the present address of Nelson M. Burks, owner of the pacer Jim Rankin, Jr. Any information regarding him will be acknowledged by this office.

They are trying to have some match races at the Sweetwater Track, National City. Mr. M. C. Keefer has promised to send us some of the "doins" of the horses and horsemen there.

M. C. Keefer writes from National City that his mare Nellie K. dropped a fine filly by The Bondsman last week. He also adds that he is delighted with the way Chas. Spencer has his string of horses working this year.

Frank Patch 2:13 $\frac{1}{4}$, and Gallagher 2:03 $\frac{1}{2}$, have been matched for \$1000 a side to race over the Halifax, N. S., race track, June 26th. Considerable money will change hands on the result as both horses have many friends.

Claro 2:11 $\frac{1}{2}$, by Mendocino 2:19, out of Clarion 2:25 $\frac{3}{4}$, by Ansel 2:20, is some pacer yet, even if he is eleven years old. Last week he equaled the half-mile record over the speedway, New York City, in 1:02 $\frac{1}{2}$ and 1:02.

Francis M. Ware says that one of the best hunters he ever rode was a trotting bred horse by Smuggler, 2:15 $\frac{1}{4}$, out of Ella Elwood 2:29. He could both gallop and jump, was up to carrying 250 pounds, but could not trot a mile in 4:00.

James Butler of New York has at East View Farm a full sister to Vera Violetta, winner of second money in the Austrian Derby of 1912. The young filly is by Directum Kelly 2:08 $\frac{1}{4}$, out of Edna Simmons 2:12 $\frac{1}{2}$, by Simmons 2:28.

Adlon, a two-year-old colt by John A. McKerron 2:04 $\frac{1}{2}$, out of Lou Dillon 1:58 $\frac{1}{2}$, is reported to have trotted a mile in 2:22 $\frac{1}{2}$, with a half in 1:07 $\frac{1}{2}$. The youngster is owned by C. K. G. Billings, and is in the training stable of John H. Dickerson.

The stallion season will be almost at an end in two weeks in California. More choicely bred mares have been stunted to the best stallions than ever and owners are anticipating much pleasure in seeing what the resultant foals will be like.

Horse owners should remember that the time for making entries in that \$10,000 Los Angeles Futurity Stake No. 1, has been extended from June 1st to July 1st. Every owner of a foal of 1912 should make an entry in this, the largest stake ever offered in the West!

Eddie Dillard 2:06 $\frac{1}{4}$ —that good pacing son of the Western stallion, Judge Dillard 2:12 $\frac{1}{4}$, owned by Dave Maloney, Spokane, Wash., is taking his work well this year; Billy Snow has not been faster than 2:19 $\frac{1}{4}$ with him but Eddie will be able to take care of himself in the 2:07 paces when the hell rings.

Word has been received that the racing committee of Baltimore county had ruled that after this year hetting will be done by the pari-mutuels only. This does away with the hookmakers at Pimlico, Electric Park, Prospect Park, Gentlemen's Driving Park and Timonium. The rule goes into effect December 31.

Dr. D. E. Herspring, of Woodland, has purchased of Carey Montgomery of Davis, who at a two-year-old had a trial of 2:21 and a quarter in 31 seconds. His sire is Dan Logan, matinee record 2:12 $\frac{1}{4}$, and his dam is Humming Bird, the dam of Chiquita 2:10 race record. St. Patrick is four years old.

Billy Burke 2:03 $\frac{3}{4}$, by Silent Brook 2:16 $\frac{1}{2}$, the fastest trotter now in training in this country and a candidate for stallion honors, reeled off a mile in 2:12, a few days ago for Lon McDonald, at Indianapolis, and the way he is working is a source of great satisfaction to his capable trainer.

Del Rey will not be in Ed. Geers' stable, as some of the papers have reported, but will be trained by Havis James. We get this information from Frank Hazzard, half owner of Del Rey. It is the plan to work him around 2:12 at Grand Rapids, Kalamazoo and Detroit and then give him a fast trial at Cleveland. He is in fine shape.

S. H. Cowell's good Searchlight mare Eleanor Sears won the Class B. race at Sacramento at the last matinee in 2:17 $\frac{1}{2}$ and 2:19 $\frac{1}{2}$. It will not be surprising if she got a record of 2:12 this year. Mr. Cowell handled her like a veteran. He is considered one of the best reinsmen among our leading amateur drivers.

Ray Mead's splendid broodmare Carrie B. 2:18 (dam of Ray o' Light 2:08 $\frac{1}{4}$, Lovelock 2:19 $\frac{3}{4}$ and Ishmael 2:21), by Alexander Buton 1997, out of Carrie Malone (sister to Chas. Derby 2:20, etc.) by Steinway 2:25 $\frac{3}{4}$, dropped a very handsome bay colt by Tom Smith 2:13 $\frac{1}{4}$, last Saturday, and will be bred back to this good son of McKinney 2:11 $\frac{1}{4}$.

It looks as though Steinway 2:25 $\frac{3}{4}$ is trying to keep a corner on the three-year-old pacing stallion record through his progeny. He sired Klatawah 2:05 $\frac{1}{2}$, his son Chas. Derby 2:20 sired Jim Logan 2:05 $\frac{1}{4}$, who equalled it in 1910 by winning a third heat from Adam G. at Woodland, Cal., in 2:05 $\frac{1}{2}$, Demonio 2:11, a grandson of Steinway, sired the dam of Del Rey, three-year-old trial 2:05, in 1911.

The Columbus mile track is indeed quite a busy place these days and while the season has been a backward one, we believe the many prospects now in training here, are the better for it, as they are a sound looking lot, appear in splendid physical order, and finish their miles in a way to impress one with the fact that they have speed in reserve.

Owners of foals of 1912 should not overlook the golden opportunity afforded by the different racing associations offering futurity stakes, and in that list The Pleasanton Futurity Stakes of 1914 and 1915, guaranteed value \$7500, offering special inducements appears. Entries to these will close July 1st. Make your foals valuable by having all of them named in this.

Walter Cox has several quite promising colt trotters in his stable at Dover, N. H. Derby Axworthy, a two-year-old colt by Axworthy 2:15 $\frac{1}{2}$, out of Derby Princess 2:08 $\frac{1}{2}$, by Charles Derby 2:20, has already shown 2:10 speed for an eighth, while The Decision, a three-year-old filly by The Exponent 2:11 $\frac{3}{4}$, dam The Gem, by Sidney 2:19 $\frac{1}{4}$, has shown quarters in 32 $\frac{1}{2}$ seconds.

Instead of paying for the services of thirty extra motor police to take care of the joy riders and speed burners who infest the Golden Gate Park roads and other highways after dark, why not levy a tax on all automobiles, to force them to keep within the speed laws. In this way, the city, as well as the road house and the undertaker, would make something out of the joy rider.—Wasp.

With its old time spirit, Hanford responded to the solicitation of the Kings County fair directors and its finance committee today when it was asked to subscribe to a guarantee fund to assure the successful financing of the 1912 agricultural fair, and more than \$2000 was raised among the business men and farmers who chanced to be in town transacting business in the short space of two hours. Report of the success of the committee has not been announced since noon, but in all probability a handsome guarantee fund will be drawn together before tomorrow night, and the Kings' county fair is absolutely assured.

C. A. Harrison, Seattle, has leased the 1912 racing qualities of Hal Scott 2:19 $\frac{1}{2}$, by Hal B. 2:04 $\frac{1}{2}$, dam by Capt. Hunter 2:13 $\frac{1}{2}$, to Frank E. Alley, Roseburg, Ore. This stallion looks to be a good bet in the 2:20 paces and will be entered down the line. Mr. Harrison's trotter Zomell 2:14 $\frac{3}{4}$, the gray gelding by Zomero 2:11 is now a member of the Bonaday Farm's training stable and will be raced by Trainer Dowling if he continues to go sound.

It is a very foolish notion that gets into some breeders' minds that a record attached to a horse, no difference how hammered out of him, insures a speed sire. As good sires as ever have appeared have for one reason and another been recordless. Individuals right in pedigree and make-up, representing the blood lines making a nick with the mares bred to them prove a success with or without an official record.

Havis James has recovered sufficiently from the kick on the inside of his knee received from Joe Patchen II so that he is able to drive again. One of the "boys" at Pleasanton facetiously said when he heard that this highly esteemed driver was only slightly injured: "Would it not be a good idea to have John A. McKerron, the celebrated horse hoot-maker, send some knee hoots to some of our best drivers. Every year we hear of some of them getting kicked in that joint by some celebrated horse."

Alternating with the motorcycle racing on the Fourth of July will be trotting and pacing events under the auspices of the Alameda Driving Association at the Alameda race track. Entries of some of the best known harness horses have been made. Work on a grand stand addition to augment the capacity of the present structure will begin next week. G. A. Nissen of the Alameda Driving Association, C. R. Smith and Durand constitute the committee on entries.

The death of James de la Montanya occurred in this city last Tuesday. The deceased was at one time deeply interested in trotting horses and with the late Jack Curry as trainer, raced his good trotting mares Tuna 2:08 $\frac{1}{2}$, and Brilliant Girl 2:08 $\frac{1}{4}$, through the Grand Circuit in 1906. Deceased has been suffering from ill health for many years; this deprived him of the pleasure of enjoying his favorite pastime, driving a good team over the road. He made many friends who will regret to hear of his death.

There is an effort to restore horse racing in Louisiana, but there is little prospect of success. In a poll of the lower house of the general assembly a majority of the members expressed themselves as opposed to the bill introduced several days ago providing for the restoration of racing in New Orleans. A petition asking that members of the house vote against any racing has been circulated in that body by Leon Locke, author of the anti-racing measure of four years ago.

Great preparations are being made at the beautiful race track at Santa Rosa for the race meeting to take place there next month. Proprietor S. H. Burns has a number of men employed in putting the stalls in order, clearing away the weeds, and scraping, rolling and leveling the track, and as he has also put the inside three-quarter mile track in first-class shape, horsemen who have heard of all that is being done are applying for stalls and will have their trotters and pacers ready when the hell rings.

Ted Hayes stopped off at San Jose on his way to Los Angeles and on going to the race track saw a colt by Bon McKinney 2:24 $\frac{1}{4}$, out of School Girl 2:17 $\frac{1}{4}$ by Prodigal which he liked so well he bought and shipped him with Bon McKinney back to Los Angeles. The youngsters by this grandly-bred son of Bon Voyage 2:03 cannot be surpassed for looks by the progeny of his sire and if there is anything in the "breeding on" principle—and there certainly must be—a family of trotting champions has been started.

The infield of the San Jose race track which was sown with alfalfa last spring is beginning to look green again after those three days of intense heat which dried up the pastures in the Santa Clara valley two weeks ago. Mr. Ray Mead, the proprietor of this track, recently sunk a well on the place and installed a motor and centrifugal pump; as a result, he can irrigate every foot of the land. The track itself was never in better shape and the presence of this additional moisture so close to the inner fence will have a most beneficial effect upon it.

The light harness horse, when intelligently bred, is not surpassed in the matter of general ability. The thoroughbred is only valuable for what he can do on the turf or in the stud. The draft horse is only fitted for drawing heavy loads. The light harness horse is fitted for all the uses of man, except the drawing of extreme heavy weight. On the road and track he has no equal at his way of going; on the farm he is always useful; in the show ring, whether under the saddle or at all hitches, he captures the ribbons, while in the parks he outshines and out-styles all other breeds. He is not only the horse of the century, but the horse of all the centuries. He is purely an American product, the conception of American genius and forethought, and American citizens are proud of him and his achievements.

Under the caption "A Six Horsepower Horse," the "Bit and Spur," New York, relates that "a correspondent of a French newspaper, desiring to ascertain the actual strength of a powerful horse, visited several of the stables that use the finest horses in Paris, and selected an eight-year-old Percheron which for three years had been engaged continually in hauling out stone for building purposes. He tested the animal and it was able to haul a block of stone weighing 13¾ tons, placed upon a car that weighed 4½ tons, making a total weight of 17¾ tons. This is a task to which six horses would ordinarily be put."

It is hoped that all trainers starting on the Pacific Coast Circuit this year will have the names of their horses, their gaits and records printed on neat little signs to be placed over the stalls, so that track officials, as well as visitors will be able to learn something of the horses without having to ask innumerable questions. These may be lettered in white on thin black oilcloth and with eyelets at each corner can be tacked up, and, when the time arrives for the horses to be shipped, these signs can be easily taken down, rolled up and placed in the trunks with the other paraphernalia.

The sensation of the hour is a bay mare with a stripe in her face, in the stable of George W. Hayes, at the Lexington track. The mare trotted a mile Tuesday morning in 2:13½, and did it so easily that a number of the railbirds declared that she is a certain 2:10 proposition. When Hayes was asked for her name and pedigree he said: "I do not know her name. She was sent in to me from Hamburg place by John E. Madden, and I was told that she is a four-year-old by Vice Commodore 2:11, out of one of those Leyburn mares." When the astute John E. Madden was asked about her he said: "That mare has a history, but just now I do not care to say anything."

The day of the handy horse is gone and gone forever. Such horses as Goldsmith Maid and Pilot Temple were wonderful horses when the races were mixed—running and trotting, and the run that gained position over the horse that trotted all the way, counted; but the handy horse has no place in a trotting race today. There is no time to rest a tired horse by changing his gait for a few yards; he must work the same set of muscles to the end of the mile and win, if he wins, by honestly outlasting his competitors in an effort to do what he is bred to do.

One of the "big hopes" of the R. J. MacKenzie string, Bert Kelly, has been hitting his knees in his workouts in Libertyville and despite all the skill of Havis James to stop him seems to be getting worse. It is believed he will have to be scratched out of his engagements. It is a great disappointment for this horse promised to be one of the best ever sent from California and while he always traveled a little close in front he did not strike. It is hoped that this defect in his gait will be overcome and that he will demonstrate his worth as a racehorse and be one of the biggest money winners in the string.

Last Saturday, Mr. T. E. Pollock, of Flagstaff, Arizona, the capitalist who purchased that good game pacer Blanche 2:06¼ from Lou Childs last fall, bought the coal black pacing stallion Will Guthrie (trial 2:07¼) from M. Henry, at Pleasanton; consideration, \$4000. This free-legged pacer, whose remarkable trials against the watch have been heralded through the land, will doubtless be raced throughout the Pacific Coast Circuit commencing at Vancouver, B. C. He can be considered one of the best "huys" of the year, as he is absolutely sound, very level beaded, dead game and has a world of speed on tap. He needs nothing but quarter boots and a pleasanter road horse could not be found in a day's travel. Mr. Henry's daughter has always driven him around French Camp and Stockton and it is said she could drive him in 2:13 to a cart. Mr. Pollock is to be congratulated upon getting a pacer that will be among the first to catch the judges' eye in every race he started in, no matter what are in the field against him.

In an interview with Mr. Andrew Robertson, of Melbourne, Australia, prior to his departure for England last month, this well-known exporter of thoroughbreds and trotting stock to Australasia said that on one trip from New York City to Melbourne, via the Cape of Good Hope, he discovered by the merest accident during this sixty-day voyage that his stallions and mares could be taught to like the taste of boiled linseed oil in their feed, and ere the journey ended every animal whinnied whenever his men went over to where the big tins of linseed oil were kept. At first, he gave them about a tablespoonful in their mash, this he gradually increased until they would take half a teacupful. He found that it kept them in perfect health, their coats were bright and smooth, their digestion improved, and a shipload of horses in finer physical condition never landed after such a long and stormy journey than this one. There was no need for drugs of any kind when once this oil was used. Since their arrival at the Allendale Stock Farm these horses get a little oil regularly in their feed and he found that they do better than those that have never tasted it. The reason he tried this on shipboard was that by some accident the sacks of flaxseed were not shipped with the rest of the feed in New York, and as there happened to be a quantity of linseed oil on board, and he used it as a substitute.

A matinee of the Salinas Driving Club will be held at the Salinas race track Sunday, June 29th. A big time is anticipated, as twenty-one horses will start in the four races.

Robt. McMillan left for Lexington, Kentucky, Thursday, where he will buy some young trotting stock. He expects to be back by August 1st.

The programme of amusements for the State Fair this year is replete with novelties and should attract a large attendance every day.

On account of the absence of so many trotters and pacers that are to be handled by their owners at the big charity matinee at Sacramento tomorrow the Park Amateur Driving Club has postponed holding its regular race meeting today.

Wm. Higginbottom, the well-known auctioneer, has arranged to sell on July 2d, at 10 a. m., the contents of the Santa Clara livery stable, the largest stable west of Chicago. There will be 85 horses sold—besides wagons, carriages, huggies, carts, harness, robes, whips, all in the finest condition. It is the best lot of horses ever offered at auction in this city and it should be largely attended.

The Woodland Driving Club met Monday evening. Secretary Payne reported that a number of entries had been received for the races and by the end of the week the bulk of the competitors will have registered. One of the entries received is from O. L. Blackwell of Pasadena, who will bring his string of fine trotters and pacers. The city trustees have awarded the Driving Club a blanket license for all concessions during the three days.

The way that Demonio-Mamie Comet stallion, Demonio Nutwood, owned by W. B. Connolly, of Suisun, and driven by the veteran Mannie Reams, won that pacing race at the Butchers' Picnic last week taking the last three beats in 2:21, 2:22 and 2:25, stamps him as a candidate for still greater honors as the track was very soft and heavy. This horse injured his hip last fall and for a time all hope of his recovery was abandoned, but Mr. Connolly persevered and finally got him on the track, where he is improving every day. He is big, strong gaited natural pacer and were it not for this accident would undoubtedly have a mark of 2:10 or better as he paced miles in 2:09¼ for Fred Chadbourne at Pleasanton last July.

Carey Montgomery went to Chico last week to see his horse Dan Logan put through a speed trial. Carey says he has been doing fine and expects him to show a good clip today, about 2:06 or 2:07. He has Logan entered in all the events of the Pacific Coast Fair and Racing Circuit as a green horse with no record. He will first send him to Woodland, then Santa Rosa and Pleasanton before going on the circuit. He will then start at Vancouver, B. C., in August, then work south by Seattle, Portland, Salem; returning to California will go at San Jose and Fresno, then jumps to Salt Lake, back to Hanford, California, Los Angeles and San Diego, finishing the circuit at Phoenix, Arizona, in a meet from November 4 to 9. Mr. Montgomery tells us Dan Logan has a daughter that gives great promise. She is two years old and will be started several times in her class this season.—Enterprise.

R. McMillan, one of the leading trotting horse men of New Zealand, is visiting California after an absence of eight years. Mr. McMillan once had charge of Silver Bow 2:16 for the late George Fox at Clements, and prior to that time was connected with several of our leading stock farms. He met with success in his adopted home and has quite a string of horses ready every year to compete in the races there. On his last visit he bought the grandly bred stallion Harold Dillon from the Santa Rosa Stock Farm, and has proven that his judgment in selecting him was correct, as this horse's services are in demand everywhere, for his progeny are fast and level headed and are also noted for their stamina. Mr. McMillan also brought the highly bred Bingen stallion Mauritius to New Zealand at the same time. This little pacing stallion has also proven his worth as a race horse and sire. He is located in Australia.

Tomorrow, June 23, is the date set for the Charity Matinee to be given by the Sacramento Driving Club at Sacramento for the benefit of "The Home of the Merciful Savior for Invalid Children." It is customary for the Sacramento Driving Club to give a benefit matinee every year for some one of the homes at Sacramento and, after inspecting all of them, it was found that this one was very much in need. Last year a matinee was given for the same Home and the club gave them a check for \$500. Everybody who attended the matinee knows it was a grand success and the committee in charge this year aim to make this year's matinee even a better one. The entries are expected to contain some of the fastest horses in California and the different clubs of northern California that are to take part are: San Francisco, Woodland, Marysville, Chico, Rocklin, Stockton and Pleasanton. The free-for-all pace and trot will include horses that will be raced on the Pacific Coast Circuit this fall and with the weather conditions right it is expected to see some fast miles stepped. The club extends an invitation to everybody to help make this a grand success.

SOPRANO.

This noted broodmare was bred by Col. R. G. Stoner, Paris, Ky., and foaled in 1875. She was bay in color and her sire was Strathmore 408. The latter was by Hambletonian 10, and his dam was a very celebrated road mare known as Lady Waltermire. The noted trainer John E. Turner, recently deceased, knew Lady Waltermire well and once stated that there had never been another such road mare in Philadelphia as she, and never would be again. She was never trained and conditioned for racing in public, but it was stated that she once trotted a mile in 2:32 and repeated in 2:30, pulling a skeleton wagon, and was sold immediately afterwards for \$2500 to one of the gentlemen who timed her, and who bought her to drive on the road.

Lady Waltermire was by North American, also known as the Bullock Horse. North American was by Sir Walter, a thoroughbred, whose sire was Hickory, a son of imported Whip. The dam of Sir Walter was Nettletop, by imported Diomed, and his second dam was by imported Shark, a son of Marske, sire of the invincible O'Kelly's Eclipse. The dam of Soprano was Abbess (dam of Steinway (3) 2:25¼ and Solo, 2:28¼), by Albion, a son of Peter's Halcorn, whose sire was the thoroughbred Halcorn, a son of Virginian, by Sir Archy. The dam of Albion was by Crowell, a son of Bertrand, by Sir Archy. The second dam of Soprano was by Marshal Ney whose sire was imported Emancipation, and whose dam was by Randolph's Roanoke, a son of Sir Archy.

Soprano derived a large share of her inheritance on both sides from the best of thoroughbred ancestors, and was considerably inbred to Sir Archy, the best son of imported Diomed, and the most noted horse in America in his day. Soprano was the dam of 10 standard performers, eight of which were trotters. Two of her sons have sired 49 trotters and 22 pacers, and two of her daughters have produced three trotters and four pacers that have made records in standard time; making the number of Soprano's descendants in the first and second generations that have taken records in standard time 88; viz., 60 trotters and 28 pacers.—American Horse Breeder.

MATINEE AT WATSONVILLE.

The 1912 racing season of the Watsonville Driving Club was opened last Sunday afternoon at the driving park on the Beach road and a fair crowd attended the first horse races of the season. The races were three in number and some classy events were seen by those that were present. The Driving Club has a number of good races in view this season and the patrons of the track are in for some good events. The officials were: Starter, Edward J. Kelly; judges, C. W. Bridgewater, Charles Manning, Lawrence Sandberg; timers, James Redman, George Mann.

The events were as follows: First race, half-mile, best two out of three heats, D. Whiteman's Sidney, first; Horace Smith's Nick, second; J. Lewis' Alert, Paulsen's Dolly Gray, M. S. Machado's Daisy M. Time 1:25.

Second event, mile, best two out of three heats: J. Cruz' Lilly C., first; J. B. Forster's Charles Sumner, second. Time 2:39.

Third event, exhibition mile between J. Redman's Daisy R., and half-mile run by Edward Geyon, won by the horse in 2:21, Daisy R. driven by J. P. Soares.

GREAT COLT HARNESS.

Messrs. G. S. Ellis & Son, the famous harness makers of Cincinnati, are out with a decided "leader" in leather work. Something which will appeal to every man who owns a colt. It is their Handmade Colt Harness, which they are advertising in this issue at less than bargain prices for one week only. This harness has gained a world-wide reputation for excellence, the best of wearing qualities, high finish and moderate cost. This week this harness which is never sold less than the regular price, \$33.50, is offered for \$23.50! A saving of \$10 which can be used for some other purpose. Customers may select the style of saddle desired and they incur no risk in ordering the harness on description. In preferring to deal "C. O. D." the price is \$25. The Ellis shops publish a catalogue of big stock of up-to-date horse goods and a copy of this will be sent to every applicant.

The trainers are commencing to "search 'em" and while different trainers have different methods it is to be hoped that the searching process will not put too many on the shelf for the balance of the season. There is no question but that there were many horses that could beat 2:10 in June last year that were never able to approach that mark after the bell rang. It is possible that many of these horses would have slowed up any way, but there is a suspicion that in some instances the trainers made speed too fast and made too much of it at the wrong time. Owing to the backward spring there will be a temptation this year to bring some of the candidates for turf honors along very rapidly, but trainers should bear in mind that there is quite a bit of time yet before the real racing seasons begins and that it is better to have the extreme speed that is in all horses after the racing begins than to take it all out of them in workouts. It is a difficult question for a trainer to decide upon, this making of speed, but it is just as well for the rank and file to make haste slowly and to have their horses in perfect condition for fast work before beginning to "cut 'em open."—Western Horseman.

THOMAS RONAN'S BIRDIE.

This Broodmare Is Descended From One of the Most Famous Mares of Her Day.

In the last issue of the "American Horse Breeder," Editor S. W. Parlin publishes a three-column article about Charlotte F., the thoroughbred running mate of old Etban Allen's. This mare has a peculiar interest to many horsemen in California, from the fact that her daughter, Dame Tansey, by Daniel Lambert, is the granddam of Birdie, Thomas Ronan's roan mare that is the dam of Bodaker 2:13, the remarkably game trotter, and Birdman, his full brother, who will undoubtedly become a sire. The pedigree, as published by Mr. Ronan, gives Dame Tansey's dam as Quarter Mare, dam of Bay Star (sire of Amy Lee 2:14), full brother to Dame Tansey. This Quarter Mare was none other than the thoroughbred Charlotte F., registered in Bruce's American Stud Book, Volume I, page 290, and again registered under her dam, Sally Polk, in Volume II, page 250. The breeding of her dam has been traced to the 18th generation. Charlotte F. was used mostly hitched to pole, as a running mate for the noted trotting stallion Ethan Allen 2:25½, record to pole with running mate 2:15. The well-known horseman, J. Dunn Walton, who was at one time a partner of the noted trainer, Dan Mace, in the stable business in New York City, knew Charlotte F. well, as he had charge of her for some time, and broke her to harness. Three years ago Mr. Walton described her in a letter to Mr. E. S. Stokes as follows:

Charlotte F. was sired by imported Scythian if I remember right. She was a great mare. I saw Mace drive her a mile to wagon in 2:56 on the trot and also saw him drive her a mile to wagon in 1:50 and repeat in 1:48 on the run. She was a fine looking mare, bay in color, about fifteen hands two inches high. She had never had a harness on when we got her and I broke her to harness myself. You could drive her as far as you wanted to go and she would never tire. She was a great broodmare.

The distinguished horseman and expert reinsman, Mr. David Bonner of New York City, a brother of the noted horse fancier, Robert Bonner, who at various times owned such trotting champions as Dexter 2:17½, Rarus 2:13¼, Maud S 2:08¾ and Sunol 2:08¾, remarked, "Why I remember Charlotte F. as well as I remember Dexter or Ethan Allen. She was a grandly built, powerful and most level-headed thoroughbred I ever laid my eyes on. She was almost as celebrated as Ethan Allen."

Mr. Walton's memory was correct as to the sire of Charlotte F. She is registered in Bruce's American Stud Book, as stated above. Her sire was imported Scythian, a son of Orlando by the famous Touchstone, a son of Camel, by Whalebone, and he by Waxy, a son of Pot-3-o's. The latter was the most successful son of the renowned O'Kelly's Eclipse, as a progenitor of noted race winners. The dam of imported Scythian was Scythia that was considerably inbred to Byerly Turk and Darley Arabian and inherited the blood of both O'Kelly's Eclipse and Herod. The dam of Orlando, sire of imported Scythian, was inbred to Herod, that in his day was the most successful sire of race winners in all England. She was by Langar, whose sire was Selim, a direct descendant in the paternal line of Herod. The dam of Langar was by Walton, a son of Herod. The second dam of Langar was Young Giantess, a daughter of the old first Derby winner, Diomed, by Florizel, a son of Herod. Young Giantess was one of the most distinguished broodmares in England in her day. Scythian was also well bred on his dam's side.

Sally Russell, the thoroughbred daughter of Boston, that produced the noted broodmare Miss Russell (dam of Maud S. 2:08¾, etc.), was mated with imported Scythian and the result was a filly called Rosalind that in due time was mated with the Morgan and thoroughbred stallion Golddust 150, known to old-time horsemen as Dorsey's Old Golddust, and the produce of this union was the stallion Zilcaadi Golddust 4400, the most successful son of Golddust 150 as a sire of standard performers. Zilcaadi Golddust 4400 got the dams of the noted racing trotters, Rosalind Wilkes 2:14½, and Solon Grattan 2:09½.

The dam of Charlotte F. was by imported Ambassador, a son of Emilius, by Orville. The latter was by Beningbrough, a son of King Fergus, by the renowned O'Kelly's Eclipse. The dam of Orville was by Stamford, a son of Sir Peter Teazel by Highflyer, the fastest son of the renowned sire Herod. Sir Peter Teazel's dam was by the unbeatable O'Kelly's Eclipse. The dam of imported Ambassador was by Tramp, a son of Dick Andrews, and he by Joe Andrews, a son of the famous O'Kelly's Eclipse. The second dam of imported Ambassador was by Sir Solomon, a son of Sir Peter Teazel, by Highflyer, the son of Herod mentioned above. Imported Ambassador's third dam was Queen Mab, by the renowned O'Kelly's Eclipse. It will be seen that the near ancestors of Charlotte F. were considerably inbred to both Herod and O'Kelly's Eclipse, the two most famous sires and progenitors of race winners in the world in their days.

The second dam of Charlotte F. was by Giles Scroggins, he by Sir Archy, the best son of imported Diomed, winner of the first English Derby. The dam of Sir Archy was imported Castanira, by Rockingham, a son of Highflyer. The latter as already mentioned was the fastest son of the renowned Herod, and like the famous O'Kelly's Eclipse he was never defeated. Col. S. D. Bruce, author of Bruce's American Stud Book, and the best authority of his day, said of Sir Archy that "As a sire he had no equal." An analysis of the extended pedigree of Sir Archy shows

that he was considerably inbred to Darley's Arabian Byerly Turk and Godolphin Arabian, the three stallions to which the thoroughbred race horse is largely indebted for his most valuable qualities. Sir Archy inherited 14 crosses from Darley Arabian, 12 crosses from Byerly Turk and nine crosses from Godolphin Arabian.

Charlotte F.'s third dam was by Arab, a son of Sir Archy; fourth dam by Wonder (also known as Little Wonder, and Wilkes' Wonder), a son of imported Diomed; and fourth dam by Saltram, a son of the renowned O'Kelly's Eclipse. Saltram won the English Derby in 1783 and in 1800 when 20 years old was bought and brought to Virginia, by William Lightfoot. Imported Diomed was three years older than Saltram and was taken to Virginia in 1799. Diomed was by Florizel, a son of the renowned Herod. The latter was a direct descendant of Byerly Turk and his dam Cypron inherited two strains from Darley Arabian. Her sire was Blaze, a son of Flying Childers, by Darley Arabian, and her fourth dam was a daughter of Darley Arabian. The dam of Saltram was by Snap, a son of Snip, by Flying Childers, and his second dam was by Regulus, a noted son of Godolphin Arabian. The dam of Charlotte F. was even better bred than was Scythian her sire.

Charlotte F. produced two foals by Daniel Lambert 102. One was the stallion Bay Star 11267, sire of Amy Lee 2:14, and two other trotters with standard records. Five daughters of Bay Star 11267 have produced 13 standard performers, 11 of which were trotters. The most successful of his daughters as a producer was Roxie Lee 2:26¾, that is credited with six trotters with standard records, the fastest of which are Joymaker 2:12¾, and Hastings 2:13¼.

Charlotte F.'s other foal by Daniel Lambert was the great broodmare Dame Tansey, the dam of The Prima Donna (p) 2:09¼, Marie Jansen 2:21¾ and Busbey 2:29¼. Four of the daughters of Dame Tansey are in the great broodmare list. The most noted of them as a producer was Tansey, by George Wilkes 2:22. Tansey produced the trotters Butterfly 2:19¾, and Eagle Bird 2:21. Three of the sons of Tansey have sired, and two of her daughters have produced standard performers. The most successful son of Tansey as a sire was Eagle Bird 2:21, a son of Jay Bird 2:31¾. He is credited with 45 trotters and 17 pacers, 62 in all, that have made records in standard time, the fastest of which is the game trotter Eagle Flanigan 2:07½. Eagle Bird 2:21 is also credited with 11 sons that have sired 15 trotters and 20 pacers that have made standard records, and with 19 daughters that have produced 21 standard performers, 16 of which are trotters.

The other two sons of Tansey that have produced standard performers are Billy Sayre 5868, by Young Jim 2009, a son of George Wilkes 2:22; and The Night Hawk 31856, a son of Jay Bird 2:31¾. Billy Sayre 5868 is credited with one trotter and four pacers with standard records; also with one son that has sired 33 standard performers, 23 of which are trotters; and with one daughter that has produced one standard record trotter. The son of Billy Sayre 5868 that is a sire of standard speed is Galileo Rex (p) 2:12¾. His fastest and only 2:10 performer Tiverton 2:04½. The Night Hawk 31856 is a full brother of Eagle Bird 2:21, and is credited with 25 standard performers, 18 of which are trotters. None of his sons have sired standard record speed, but he is credited with one daughter that has produced one standard record trotter.

The two daughters of Tansey that have produced standard performers are Widow's Mite and May Bloom. Widow's Mite was by Waveland Chief 1617, a son of Ericsson 130 and the great brood mare Pilot Anna, by Pilot Jr. 12. Widow's Mite is the dam of two trotters with standard records, viz., Blue Dawn 2:21½ and May Betterton. Two of the sons of Widow's Mite have sired standard performers, viz.: Blue Dawn 2:21½ and Parker Gun 18158, both by Jay Bird 2:31¾. Blue Dawn 2:21½ is credited with three trotters that have made records in standard time, and with one daughter, Grace Helen 2:11¾, that has produced three trotters with standard records. Parker Gun 18158 had but limited opportunities in the stud and died young. He is credited with two trotters with records of 2:14½ and 2:18¾ respectively, and with one pacer whose record is 2:18¾. One of his daughters produced Flora P. (p) 2:19¾.

May Bloom, the other standard speed producing daughter of Tansey, was by William L. 4244, the son of George Wilkes 2:22 that got the noted trotter and successful progenitor of speed Axtell (3) 2:12. May Bloom produced the pacer Gagnant (p) 2:14¼, her only standard performer. Two of the daughters of May Bloom have produced two trotters and one pacer with standard records. One of these daughters was Virginia Reynolds, the dam of Baroness Virginia 2:08¾, and Baroness Evelyn (p) 2:12¾. The other producing daughter of May Bloom was Anthesis by Jay Bird 2:31¾. She produced Komorn 2:16¼ and the pacer Kalanos 2:18¾.

The daughter of Dame Tansey that now ranks next to Tansey as a speed producer is Marie Jansen 2:21¾, by Betterton 8022, a son of George Wilkes 2:22. Marie Jansen is credited with three trotters that have made standard records, the fastest of which is East View Belle 2:15¾, but none of her sons or daughters have sired or produced a standard performer. Podie, by George Wilkes 2:22, is another producing daughter of Dame Tansey. She is the dam of two trotters with standard records; and one of her sons, Banquet 2:24, by Mambrino Patchen 58, has sired two trotters and one pacer that have made records in standard time. Five

of the daughters of Banquet have produced five trotters and one pacer with standard records.

Lady Lyle is another daughter of Dame Tansey's, she was by George Wilkes and is therefore a full sister to Podie, dam of Castalia 2:22½ and Banquet 2:24. Lady Lyle is the dam of Birdie, by Jay Bird (dam of Birdalex 2:30¼ and Bodaker 2:13). Mr. Ronan paid \$2500 for Birdie in Kentucky and brought her to his stock farm, known as the Meredith Place, in Dayton, Washington, many years ago. Birdie's last foal is a yearling called Yncalla, by Bon Voyage 2:03, owned by Mrs. Frank H. Burke, San Jose.

The other daughter of Dame Tansey to gain distinction as a producer is The Prima Donna (p) 2:09¼, by Betterton 8022, making her a full sister to Marie Jansen 2:21¾. The Prima Donna (p) 2:09¼ is the dam of two with standard records, viz., the trotter Peter O'Donna 2:08, a stallion, by Peter the Great 2:07¼, and the pacer Onadona (p) 2:17¼, by Onward 2:25. Peter O'Donna 2:08 is but seven years old and probably none of his foals have been trained yet, but horsemen of good judgment who have seen him move in the lot are highly pleased with him.

Considering the prejudice that was created more than thirty years ago against thoroughbred blood in a trotter by John H. Wallace, and the opportunities they have received the descendants of Charlotte F. have made a remarkably good showing and judging from what we have heard from horsemen of experience in whose judgment we have confidence, ten years hence the reputation of Charlotte F. as the founder of a trotting family will be considerably greater than it is at present. Many breeders who are opposed to anything but orthodox trotting blood in a trotting pedigree have made greater mistakes than did the man who mated the thoroughbred Charlotte F. with Daniel Lambert 102 to produce the great broodmare Dame Tansey.

STATE FAIR AMUSEMENT NOTES.

The decision to have a delegation representing the Citizens' Committee of the State Fair go before the Sacramento Ministerial Association within a few days and ask that body if any objection will be made by the churches against a Sunday program at the Fair Grounds during the next State Fair; the hearing of representatives of the local Knights of Pythias, who plan to bring delegates from all over the State to compete in spectacular degree work of the order, and the outlining of a tentative fair program by Captain A. W. Lewis, Director of Amusements, was the action of the Amusement Committee late Saturday afternoon at the Chamber of Commerce.

Grove L. Johnson, H. M. Rible, John Stafford, William Hogan, L. S. Calkins, P. Ford and J. A. McKinder, appearing for the Knights of Pythias, were heard in connection with the proposal made by the local branch of the order that a spectacular Knights of Pythias day be held in connection with the fair. The Amusement Committee discussed the Pythian proposal at length, and without exception the members are in favor of accepting.

The Knights of Pythias must gain the consent of the Grand Chancellor, but this is considered only a perfunctory measure.

It is said that other fraternal orders are contemplating assembling here during fair week, and the Citizens' Committee is much pleased with the prospects of a large attendance of lodge folk.

Captain Lewis is strongly in favor of a Sunday program. It was declared at the meeting yesterday that Sunday is the poor man's day, and the laboring man and his family can better afford to attend an amusement on Sunday than on any other day of the week. It was suggested that the Sunday program should be one of the best of the week, and that if properly carried out the churches could find no objection to it.

It is tentatively planned to have the band competition Sunday morning and afternoon at the Fair Grounds and in the evening a sacred concert, participated in by the McNeill Club, Oratorio Society, Sacramento Symphony Society and the German Liederkranz.

The talk of the Libertyville, Ill., track is Peter Preston's half in :59½ last Thursday. The same day he worked a mile in 2:09½ without the hoppers, but with one break, George Spencer shipped to Winipeg Saturday with Peter Preston, Harry Direct, Greenbaum and Star Brino. They start there next month and then work westward through Canada to the meetings on the Pacific Coast. Frank Perry (1) p. 2:15, has been brought over from Dean's stable at Palatine and added to Havis James' stable. Havis James got out of bed Sunday after a week's layup from a kick by Joe Patchen II. The doctor advises James to stay close to the house for a while yet. The Earnest (3) worked a half in 1:04¾ and Graham Bellini (3) a half in 1:07. J. Elmo Montgomery worked Jim Logan a mile in 2:15 last week. Del Rey was worked in 2:16 by Wm. Fleming for Frank Hazzard.—Horseman.

We are informed that Huff's National Fair Directory for 1912 will be ready for free distribution on or about July 1st.

This will be the sixth annual publication of Huff's Directory and it will contain the Location, Dates, Speed Program, Time of Closing Entries, Date of Bar and other valuable information for Horsemen, Privilege Men, Exhibitors and others interested in State and County Fairs.

Any of our readers may secure one of these pocket Directories absolutely free of charge by sending your name and address and enclosing three cents for postage to the publisher. E. L. HUFFMAN, Camden, Ohio.

Drink Jackson's Napa Soda.

VANCOUVER, B. C., MATINEE.

Those who journeyed to Hastings Park track last Saturday were treated to a splendid afternoon's sport. The time shown in the summaries is evidence of how good the track is, for not one of the contestants had a workout previous to the first spring meeting which was held a week ago.

In the A class pace Olga S. 2:16½, by Diahlo 2:09¼, and Judge Black 2:17½, a handsome grey black horse by Greystone, went a couple of slow mile heats in 2:34 and 2:28, which was little more than a jog for Olga but seemed to hang up the Judge, who is given to very fast hursts of speed but a little inclined to be erratic.

The B class pace furnished plenty of excitement owing to the close finishes in the first and second heats. Dacy 2:14¼, a little pony pacer by Direct 2:05¼, won the first heat by the very shortest kind of a head from King Kassel, driven by Mr. Ed Bell, of New Westminster, who is a new adventurer into the game, but drove the Kassel horse like a veteran teamster. The time was 1:08.

In the second heat Mr. Bell made his drive earlier at the head of the stretch and after passing Dacy crossed in front of him, which "interference," he was instructed by Starter Anderson, was against the rules, but owing to Mr. Bell's inexperience he was awarded the heat, Dacy second, Nelly Wilkes third, a half length hack of Dacy. Time 1:08½.

King Kassel won the third heat quite easy in 1:08½.

Grace A. Speers 2:22½, a smooth-going bay mare by Waldstein, driven by Geo. Hardy, was awarded first honors in the B class trot. St. Patrick, by Nutwood Wilkes 2:16½, was a close second each heat; this being Pat's first race for a number of years he should be hard to trim after a little work has been given him.

Richard Lou and Just It 2:19½ renewed their acquaintance in the C class pace. Richard took the first heat in rather easy style, the mare making a break on the hack stretch, and Mr. Gordon had to pull her to a standstill to catch her. Time was 1:13½.

In the second heat Just It showed a little different form and gave Richard such a close rub that the judge had to call it a dead heat. Time 1:10.

In the third heat Just It made another bad break catching her quarter which did her so much damage she was unable to finish with her usual turn of speed, Richard winning in 1:11 by many lengths.

The C class trot presented a nice filly in Acclaim, a two-year-old by Carlok in 2:07½. She is owned by Wm. McGilvery, and was beaten in the first heat by Bill Miller, an aged horse, by a close margin. In the second heat she won, the third heat going to the Miller horse again. Acclaim can trot much faster than the time shown in the summaries, but it is her owner's intention to keep her steady and not ask too much of her until she is further advanced in her schooling.

Much credit is due the management at Hastings for the good condition they have their track in, as it is not only a great advantage to Vancouver horses but it is one of the best advertisements for the August meeting, for many of the trainers who are working over mile tracks will ship there early in order to give their horses their finishing preparations over a half mile track.

Summary:

| | |
|--|-------|
| A class pace, one-half mile heats: | |
| Olga S., by Diablo 2:09¼ (Marshall) | 1 1 |
| Judge Black, by Greystone (Flack) | 2 2 |
| Time—2:34, 2:28. | |
| B class pace, one-half mile heats: | |
| King Kassel (E. Bell) | 2 1 1 |
| Dacy, by Direct 2:05¼ (Robinson) | 1 2 2 |
| Nelly Wilkes, by Jayfoot (Morris) | 3 3 3 |
| Time—1:08, 1:08½, 1:08½. | |
| B class trot: | |
| Grace A. Speers, by Waldstein (Hardy) | 1 1 |
| St. Patrick, by Nutwood Wilkes 2:16½ (Armstrong) | 2 2 |
| Barney (Robinson) | 5 3 |
| Sister Bells, by Six Bells (Myres) | 3 5 |
| Evelyn McC. (McMillen) | 4 4 |
| Time—1:14½, 1:16½. | |
| C class pace: | |
| Richard Lou, by Kinney Lou 2:07¼ (Perry) .. | 1 0 1 |
| Just It, by Nearest (Gordon) | 1 0 1 |
| Time—1:13½, 1:10, 1:11. | |
| C class trot: | |
| Mendoza, by Daly (McDonald) | 1 1 |
| Dominion King, by King Patchen | 2 2 |
| Time—1:17½, 1:19. | |
| D class pace: | |
| Brown Bob (H. Almond) | 1 1 |
| Baby L. (Beamish) | 2 2 |
| Aitmont (Armishaw) | 4 3 |
| Gussie Hall (Dr. Graham) | 5 4 |
| Norona (McDonald) | 7 5 |
| Ray (Smith) | 6 7 |
| Time—1:16½, 1:16½. | |
| D class trot: | |
| Bill Miller (Dr. Higginbotham) | 1 2 1 |
| Acclaim (2), by Carlok in 2:07¼ (McGilvery) .. | 2 1 2 |
| Sweet Nut, by Burtwood 2:16½ (Dr. Miloy) .. | 3 3 3 |
| Time—1:26, 1:31½, 1:30. | |

—Pacific Horse Review.

In no section has the sport of harness racing shown such marked increase as in the far western States, the northwest section of the United States and the Canadian northwest. From the most humble beginning it has grown so rapidly that since the year 1901 the number of race meetings held in the Canadian northwest, Arizona, California, Colorado, Idaho, Montana, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming have increased from a total of forty-five meetings to 107 in 1911, while the amount of money raced for has increased from \$12,025 in 1901 to \$366,825 in 1911. Thus the number of race meetings has increased 140 per cent, while the values of the purses raced for have advanced over 200 per cent.

AMERICAN TROTTERS IN NEW ZEALAND.

With the publication of the first three volumes of the New Zealand Trotting Stud Book it is now possible to give a list of the American horses exported to New Zealand. The Stud Book was compiled by Fred C. Thomas, of Christchurch, N. Z., and is published by the New Zealand Trotting Association.

The following is a list of the American stallions exported to New Zealand. Those marked with a * were California bred:

| Imported Stallions. | |
|---|------|
| Foaled. | |
| Name and breeding. | |
| 1896 Abbey Bells, by Bow Bells—Russia, by Harold. | |
| *Albert Victor, by Albert W.—Victorine, by Magnolia. | |
| 1890 *A. W. Anther, by Albert W.—Silica, by Algona. | |
| 1870 Berlin, by Woodford Mambrino—Sue Dudley, by Edwin Forrest. | |
| *Bill Allen, by Sawyer's Messenger—by Captain Fisher. | |
| 1878 Blackwood Abdallah, by Homer—by Blackwood. | |
| 1908 *Bon Homme, by Bon Voyage—Floradan, by Athadon. | |
| 1871 Childs Harold, by Harold—Young Portia, by Mambrino Chief. | |
| *Companion, by Comrade—by Arthurton. | |
| 1891 *Del Paso, by Albert W.—Augusta, by Gus. | |
| 1891 *Electioneer (Mangan's), by Albert W.—Silica, by Algona. | |
| *Fitz James, by General McClellan, by Owen Dale. | |
| 1902 *Galindo, by McKinney—Elsie, by Gen. Benton. | |
| 1885 *Grand Moor Jr., by Grand Moor—Corisander by Iowa Chief. | |
| Grattan Abbey, by Abbey Bells—Blonde Grattan, by Grattan. | |
| 1880 *Ha Ha, by Nephew—The Ryan mare. | |
| 1906 *Hal Zolock, by Zolock—Bell Pointer, by Sky Pilot. | |
| 1870 *Hambletonian, Newlands', by Speculation—Minnie, by Joseph. | |
| 1903 *Harold Dillon, by Sidney Dillon—Guycara, by Guy Wilkes. | |
| *Honest Wilkes, by Honesty—Red Rose, by Red Wilkes. | |
| 1879 Huon, by Almont Jr.—Polly, by Hamlin Patchen. | |
| *Imperious, by Director—Mundane, by Whipple's Hambletonian. | |
| 1879 Irvington, by Hambletonian—Imogene, by Seely's American Star. | |
| *Judge Beldon, by Elmo—Prentice mare, by Niagara. | |
| King Harold, by Childs Harold—by Yorkshire Hero. | |
| 1891 *La Rue, by Campaign—Clara D., by Priam. | |
| 1890 *Lauderdale, by James Madison—Belle Allen, by Vick's Ethan Allen. | |
| 1901 *Marvin Wilkes, by Don Marvin—Nora S., by Sable Wilkes. | |
| 1902 Mauritius, by Bingen—Roxana, by King Wilkes. | |
| 1900 *Peralta, by Nutwood Wilkes—Rose McKinney, by McKinney. | |
| *Pinole Patchen, by Liberty Patchen—by Morgan Tucker. | |
| 1889 *Pleasanton, by Richard's Elector—Belle Robbins, by Tarrasnoy (thbd.). | |
| 1891 *Sacramento, by Albert W.—Promptress, by Prompter. | |
| 1887 Specification, by Contractor—Katie Merryhawk, by Merryhawk. | |
| 1881 Vancleve, by Harold—Vassar, by Belmont. | |
| *Voia Clair, by Antevolo—Perrequita. | |
| 1898 *Wallace L. by Don L.—Economy, by Echo. | |
| 1892 *Wildwood, by Good Gift—Amlet, by Fallis. | |
| *Wilmington, by Fallis—Flushing Belle, by Dictator. | |
| 1900 *Young McKinney, by Seymour Wilkes—Kate Brady, by Sidney. | |

TO BE AVOIDED BY HORSEMEN.

The dangers of inbreeding are illustrated in South Africa. The first blooded horses imported into that country were the English thoroughbreds. Many of the residents are Englishmen or of English descent and naturally were prejudiced in favor of the thoroughbred, as were the original settlers in many sections of the United States. The horses imported were bred and inbred and while the results were satisfactory at first, the conditions at present are very far from ideal. The horses lack bone and substance and a man who is familiar with conditions there states that it is now no uncommon thing for horses to break their legs while being driven on the asphalt streets. Indeed, he says that at least one such accident occurs weekly. Naturally, the horse owners are very much dissatisfied with such a condition and are searching for an outcross that will enable them to breed a hardy and strong breed of horses with finish and style, yet with bone and substance that will enable them to be driven on all kinds of roads without danger of serious injury. The most satisfactory cross to date is the American trotter, but only certain types of the trotter are in demand. These are ones with plenty of size and bone, yet with excellent conformation. Speed is not a requisite and, in fact, is rather shunned, for the South Africaners have an idea that American breeders have been sacrificing the qualities they demand in an attempt to secure extreme speed. As a matter of fact, this criticism would apply ten or a dozen years ago more than at the present time, for many breeders have already been convinced that speed should not be attained at the expense of individuality and they are paying more attention to the quality of their brood mares than was the case a few years ago. However, there are many who in their search for speed are willing to mate any mare with a stallion so long as both have fast records. This is a ruinous course to pursue and one that will bring bankruptcy to any one continuing it to any great extent. American breeders should take heed from the experience of the South African breeders and avoid the policy that has produced an almost worthless breed of horses in that young country. There are plenty of the right type of stallions in this country and if breeders will pay attention to individuality in their matings they will have no danger of falling into the errors of their distant cousins.

LIST OF ENTRIES AT CALGARY.

Following is a list of entries to the stake races at the Calgary Industrial Exhibition in 1912:

Saturday, June 29th.

Race No. 29—2:18 trot; stake, \$1000; Reginald, Guy Boyington, Calgary; Henry Clayton, Lou Childs, Spokane; Yosemite, E. C. Dalke, Calgary; Monica McKinney, B. L. Elliott, National City, Cal.; Dan Mathews, Geo. Haag, Calgary; Delmo E., Geo. C. Loomis, Minneapolis; Bessie T., Al Russell, Los Angeles, Cal.; Touchdown, Frank Ragsdale, Great Falls, Mont.; Dr. Chas. K. Cole, Frank Ragsdale, Great Falls, Mont.; Prince of Peleg, C. A. Tuttle, Anaconda, Mont.; Lew Kinney, Chas. Wilson, Regina; Altro G., R. W. Hamill, Regina, and Vaster, R. W. Hamill, Regina.

Monday, July 1st.

Race No. 7—2:15 pace or 2:10 trot; Hotelkeepers' Stake, \$3000; Lamona, F. H. Birmingham, Calgary; Ella Penrose, J. Carson, Winnipeg; Sirius Pointer, Lou Childs, Spokane, Wash.; Bessie R., Copeland & Ireland, Kelowna, B. C.; Clide Wells, Jas. S. Dompierre, Edmonton; Billie M., Jas. S. Dompierre, Edmonton; Lady Arrod, Jas. S. Dompierre, Edmonton; Broncho Boy, Alex Hassard, Winnipeg; Roan Hal, Geo. Haag, Calgary; Musselshell, Dr. E. S. Kellogg, Helena, Mont.; Susie Gentry, Geo. C. Loomis, Minneapolis; Lady Mc. J. W. McClain, Monarch, Alta; Louis E., J. F. McGuire, Denver, Colo.; Direct E., J. F. McGuire, Denver, Colo.; not named, C. H. McKay, Williston, N. K.; William T., H. N. Martin, Davenport, Wash.; Rotheda, H. C. Meyers, Union, Ore.; Bessie M., R. E. Maffett, Claresholm; Leah, Miss J. M. Mueller, Calgary; Auto Zombro, Al Russell, Los Angeles, Cal.; Hellenes Jr., Al Russell, Los Angeles, Cal.; Tom Longboat, Alex Storey, Calgary; Sam the Limit, Frank Ragsdale, Agent, Great Falls, Mont.; Billy D., Frank Ragsdale, Agent, Great Falls, Mont.; Mere Chance, J. S. Turner, Davenport, Wash.; Merry Direct, F. E. Smith, Idaho Falls, Idaho; J. H. B. Wilkes, Walter Wilkins, Edmonton; Wee Wee, R. W. Hamill, Regina, and Jessie Aitel, R. W. Hamill, Regina.

Race No. 8—2:30 pace or 2:25 trot; stake, \$1000; Teddy, Lou Childs, Spokane, Wash.; Lucky Pet, Ed Cummings, Edmonton; Billie M., Jas. S. Dompierre, Edmonton; Lady Arrod, Jas. S. Dompierre, Edmonton; not named, W. B. Edward, Crossfield, by Red Wilkes; H. N. Gross, Regina, Sask.; Little Pat, Alex Hassard, Winnipeg; Southward Senator, Geo. Haag, Calgary; Kid Patch, Geo. Haag, Calgary; Midway Girl, F. W. Ings, Nanton, Alta; Senator Sanders, Dr. E. S. Kellogg, Helena, Mont.; Gay Americus, Geo. C. Loomis, Minneapolis; Alberta Lass, D. T. Loves, Calgary; Waitress Princess, J. F. McGuire, Denver; Direct E., J. F. McGuire, Denver; Onwell, John Matheson, High River; Harvey N., John Matheson, High River; Auto Zombro, Al Russell, Los Angeles, Cal.; Cya, Frank Ragsdale, Great Falls, Mont.; not named, Riley Fye, Williston, N. D.; Don M., not named, Wishart, Gleichen; Reuben Alerton, Chas. Wilson, Regina, and Vaster, R. W. Hamill, Regina.

Tuesday, July 2nd.

Race No. 15—Pace, three-year-olds; \$500; Diamond Patch, H. N. Gross, Regina, Sask.; Sally Hal, Geo. Haag, Calgary; March Allerton, Chas. Wilson, Regina; Nellie B., Jas. Boyle, Regina, and Ambassador Tod, A. Robbins, Laura, Sask.

Race No. 16—Trot, 3-year-olds, owned as in No. 15; stake, \$500; Seneca Boy, Curt Brown, Regina, Sask.; Russell Onward, J. W. Clark, Edmonton; The Pact, Jas. S. Dompierre, Edmonton; Prince of Peleg, Geo. Haag, Calgary; J. B. Onward, J. B. Hillar, South Edmonton, and Dan Scott, J. Lewis Cox, Medicine Hat.

Race No. 18—President's Handicap, 7 furlongs; stake, \$1000; Buri, G. K. Allen, Westaskin; Merrifield, Pat Buoye, Madella, Minn.; Rusty Coat, T. E. Cummings, Edmonton; Delcassy, T. E. Cummings, Edmonton; Wassail, T. E. Cummings, Edmonton; Sepu-Prince Rhupeid, T. E. Cummings, Edmonton; Sepumeda, R. P. Dickenson, Independence, Ore.; Melos, G. F. Lee, Priddis, Alta; Dan Field, B. S. Michell, Midnapore, Alta; not named, L. M. Sage, Innisfail, and Miss Webster, W. H. Owen, Wetaskiwin.

Race No. 23—2:22 pace or 2:17 trot; stake, \$1000; Not named, R. Dilworth & Co., Dalhart, Texas; Lady Arrod, Jas. S. Dompierre, Edmonton; M. S. McCarthy, Geo. Haag, Calgary; Musselshell, Dr. E. S. Kellogg, Helena, Mont.; Densmore, Geo. C. Loomis, Minneapolis; Homer Mc. J. W. McClain, Monarch, Alta; Nothlis, H. C. Meyers, Union, Ore.; Al Russell, Los Angeles, Cal.; Cye, Frank Ragsdale, Agent, Great Falls, Mont.; Touchdown, Frank Ragsdale, Agent, Great Falls, Mont.; Kels Warhall, B. Thompson, Prince Albert; Bonnie Allerton, Chas. Wilson, Regina, and Bonway, R. M. Sebastian, National City.

Wednesday, July 3rd.

Race No. 22—2:25 trot; stake, \$1000; Al McKay, J. A. Bush, Spokane, Wash.; Complete, Lou Childs, Spokane, Wash.; Monica McKinney, B. L. Elliott, National City, Cal.; Merriman, W. P. Fleming, Calgary; not named, Alex Hassard, Winnipeg; Dan Mathews, Geo. Haag, Calgary; Tortoise Shell, Dr. E. S. Kellogg, Helena, Mont.; Joe Roy, Jas. Kerr, Minneapolis; Wanda Dwyer, Robert McDonald, Edmonton; Goyo, J. F. McQuire, Denver, Colo.; May E., Chas. H. Parker, Cal-McQuire, Denver, Colo.; Gold King, Chas. Cal-McQuire, Denver, Colo.; Maud Medium, Al Russell, Los Angeles, Cal.; Bessie T., Al Russell, Los Angeles, Cal.; General Bryson, J. E. S. Turner, Davenport, Wash.; Prince of Peleg, C. A. Tuttle, Anaconda, Mont., and Lou Kinney, Chas. Wilson, Regina.

Thursday, July 4th.

Race No. 31—1½ miles; stake, \$1000; Rusty Coat, T. E. Cummings, Edmonton; Wassail, T. E. Cummings, Edmonton; Prince Rhupeid, T. E. Cummings, Edmonton; Delcassy, T. E. Cummings, Edmonton; Sepumeda, R. P. Dickenson, Independence, Ore.; Llandoff, H. W. Eshom, Lundbreck; Cartoon, G. M. Gray, Gleichen; not named, L. M. Sage, Innisfail, and Confagration, Geo. L. Owen, Wetaskiwin.

It is hoped that all the grooms who are to take care of trotters and pacers this year on the circuit will, on race days, dress as neatly as possible. It costs very little for a new suit of overalls, either blue or brown, and a 50-cent cap, and these can be kept for use during the afternoons, when the horses they have charge of are to appear. Nothing looks so mean and poverty-stricken as a patched-up pair of old pants, a dirty looking fedora or soft hat, and a shirt that has never been through the hands of a laundress. A little neatness on the part of these men would be appreciated and place some of them in a better position in the estimation of their employers and the general public.

Joan 2:04¼ and Lillian R. 2:04½, are to be bred to Bingen 2:06¼.

TURF JOURNALS AND THEIR MISSION.

Various journals devoted to the interests of the light harness horse, including the American Sportsman, the Trotter and Pacer and the Horse Review, have dealt editorially quite recently with a subject which must be of vital interest and which has long been neglected by the journals themselves. This subject deals with the protection of turf papers against what are known as wildcat schemes and extensively covers the field pertaining to the business management of journals in general.

The American Sportsman in its editorial recites the history of the handicap promoted by a New York association and points out the evils that must come from enterprises of like nature. That part of the editorial which deals most fully with the part that is played by turf journals is found in the following:

"Eliminate the turf papers and how would it be possible for an organization desirous of giving race meetings to bring its offerings to the attention of the horsemen of the country? The answer is, of course, advertise. But where? An examination of the published entries of the various members of the Grand Circuit discloses the fact that the homes of the horsemen are from Maine to California and from Canada to Texas. What newspapers cover this field? What publication of any kind in which advertising could be secured? The answer to the first question is that no fifty newspapers in the United States could be selected that entirely cover the field. We grant that they would reach all the principal cities of the country, but many places have been found on the map of the United States only after the performance of some wonderful campaigner made it known that such a place existed. The prices for advertising in the popular magazines and weeklies with large circulations that practically reach all parts of the country are such that a race secretary could not think of using such a medium.

"As a matter of fact only the turf publications reach the horsemen, and thereby secure entries for the thousands and more meetings held in North America. They are the real publicity agents and it would seem that they deserve protection for their services, since it is because of their alertness and activity that the sport today has been purged of many of its evils and placed upon the present high plane which it occupies."

That the journals devoted to the light harness horse are of incalculable value to associations, owners of stallions, breeding establishments, and to that part of the public that is keenly interested both in racing and in breeding, goes without saying. These journals are indeed the publicity bureau which carries to every part of the world the news of the harness horse; it exploits the achievements of the trotter wherever an interest is taken in them; it furnishes more or less comprehensive summaries of the many hundred meetings given throughout the world; it keeps all who are interested in the trotter posted on what is taking place in the various training quarters, at the many meetings and in the breeding world; it whets the appetite of the admirer of the trotter and yearly is responsible for the increase in the number of owners and in the attendance at trotting meetings.

These journals some of them publish more or less illuminating articles on the problem of breeding, they advance theories written by men with some knowledge and the ability to present this in a convincing manner. As a matter of fact the journals devoted to the light harness horse make up collectively much of the mental activity that exists in relation to the American trotter. A majority of the breeders of this country find their first enthusiasm on the subject from reading the report of a brilliant performance or a dissertation on breeding by some well-known writer. The turf journals directly or indirectly bring in the recruits to the ranks of racing and breeding, and frequently do much to alleviate the disappointments of owners who might otherwise abandon this field. These journals keep alive the interest in the American trotter, they are read by hundreds of thousands of men and women, they scatter broadcast accounts of race meetings and they are the only means by which the racing world can keep in touch with the current events in which the trotter plays so important a part.

It is probably not too much to say that almost all the reforms that have taken place during the past quarter of a century owe their origin to the turf papers, which invariably work for the betterment of the sport of racing, see with unprejudiced eye, and comment on the happenings in the racing world with some degree of justice. When they err it is on the side of mercy and rarely do they treat unjustly any one connected with the sport. The place they occupy is of greater importance than that held by any man or set of men, they are willing at all times to support liberally every honest endeavor to maintain and uphold both racing and the breeding industry and the sentiments that they reflect are invariably the best. Not only are they purveyors of the news but are in a sense teachers, for the writers on these subjects have greater opportunities of viewing everything connected with the horse disinterestedly than have those who have an axe to grind.

Many of the writers employed by the leading journals are men of intelligence, some are practical horsemen and all are honest in their endeavors to deal fairly with the men and horses who are the chief actors in the little world that enrolls among its numbers good men and had, sportsmen and sports; their lives are not always easy ones nor do they find their tasks free from effort, they must travel extensively, work hard, and in order to keep peace with all mankind must cultivate a degree of diplomacy that would bring them greater compensation in other fields of endeavor. They must appear interested when a foolish owner discusses a second

class horse, they must sympathize with the driver who feels that he has been harshly treated and must encourage secretaries by praising their meetings and must flatter officials by lauding their efforts. To square themselves with really intelligent horsemen they must occasionally deal in criticism that is just, yet never once are they permitted to make invidious comparisons, for many owners are like sensitive plants, and if the criticism is hunted and to the point it may arouse the ire of a liberal patron of the business department.

During the period between the first of November and the first of the following July the journals devoted to the light harness horse keep alive the interest in the trotter. They are read carefully by hundreds of thousands and some of them form as important a part of the literature of the day as is carried into the average horseman's home. As the racing season is a very short one lasting only about four months the remaining eight furnish little to gratify the fancy of the admirer of the trotter and it is for this reason that the part that the turf journal plays is an important one. During the early spring, when the time comes for the early closing events to be filled it is the turf journal that carries to horsemen this important fact, not alone the letters of the secretary. After the entries have closed, the weekly papers furnish food for thought to their readers and from that time until the campaign begins it is the turf journal that keeps alive the dormant interest in light harness racing.

It is probably true that if the turf journals of this country would suspend publication it would entail a loss of thousands of dollars to secretaries, would result in a great falling off in the attendance of race meetings and would be felt in many other ways. A certain class of owners derive the only benefit they receive in connection with the American trotter from reading accounts of their horses in the weekly journals, and if any one believes that a majority of owners, drivers and secretaries are indifferent to publicity let him say something jarring in the columns of the press and see how quickly he hears from the offended individual. Every breeder who pays the slightest heed to market values and is in the least interested in selling his wares is absolutely dependent on his standing with the turf journals. If he advertises his stallion he is given value received and without this publicity the horse could not be heralded abroad. The press carries to the uttermost ends of the world the achievements of great campaigners and every word that is written concerning prominent race horses is an advertisement for their sires and dams.

Every association owes more to turf journals than to all else, for the latter could if they chose make or unmake any meeting by merely printing the exact truth about every race, by publishing a story of the methods in vogue, the lack of management, of the incapacity of the judges, of the insecurity of the surface of the track or of the lack of accommodations as regards stabling. Instead of this, journals praise to the skies the tracks, the secretaries, the judges and the racing.—Stock Farm.

GOOD LEXINGTON ENTRY LIST.

For the October meeting of the Kentucky Trotting Horse Breeders' Association, the twelve stakes to which nominations and payments were due June 1, received a total of 513 entries, which is nearly 200 in excess of the entry to the events that were decided last fall.

President Ed. A. Tipton and the directors of the association are naturally very well pleased with this closing, since it comes as a testimonial of their judgment in reducing the entrance fee to the several stakes and making the subsequent payments easier on the owner who is never certain until the day of the race whether he will be able to have his nomination go to the post.

The three subscription events, the Transylvania, the October Prize and the Tennessee, to which horses are to be named on September 25, were well patronized, the Transylvania receiving twenty and the other two sixteen each.

The Kentucky Futurity, worth \$14,000, has sixty-three three-year-olds remaining eligible and for the two-year-old division, the prize for which is \$5,000, eighty-two are kept good. It is a noticeable fact that the Lexington, the other stake for two-year-olds, attracted sixty-eight entries. The following is a list of the stakes, their values and the number of nominations to each:

| | |
|--|----|
| Kentucky's Futurity, \$14,000, three-year-old trotters | 66 |
| The Transylvania, \$5000, 2:10 trotters | 16 |
| The October Prize, \$5000, 2:08 trotters | 20 |
| The Futurity, \$5000, two-year-old trotters | 82 |
| The Tennessee, \$3000, 2:05 pacers | 16 |
| The Castleton Cup, \$3000, 2:12 trotters | 37 |
| The Walnut Hall Cup, \$3000, 2:15 trotters | 57 |
| The Ashland, \$2000, 2:20 trotters | 51 |
| The Kentucky, \$2000, three-year-old trotters | 57 |
| The Lexington, \$2000, two-year-old trotters | 68 |
| The Blue Grass, \$2000, 2:10 pacers | 33 |
| The Pacing Futurity, \$2000, three-year-old pacers | 10 |

THE SAN JOSE FAIR.

E. W. Allen, vice-president of the Santa Clara County Fair Association, reports the following races filled: 2:20 pace, 2:15 trot, 2:11 pace, 2:08 trot, 2:06 pace, 2:16 pace, 2:20 trot and 2:12 trot. As there were not enough entries in the three-year-old pace nor the three-year-old trot it was decided to re-open these and give a \$100 cup in each class. The full list will appear in our next issue.

Drink Jackson's Napa Soda.

STATE FAIR AMUSEMENT PROGRAM.

SACRAMENTO, June 20.—The citizens' committee, working in the interest of the State Fair, appeared before the board of directors of the State Agricultural Society today and submitted a report outlining a programme of amusement for each day during the fair. The report, which was adopted, provides:

Saturday, September 14th, Sacramento day—Automobile competition, decorated automobile parade in the evening, carnival parade and ball in the evening, fireworks.

Sunday, September 15th—Morning exercises, Turn Verein Society; afternoon band competition and Turn Verein Society; evening sangerfest, Oratorio Society, McNeill Club and Symphony Society; fireworks.

Monday, September 16th, Woman's day—Western sports, including broncho busting, bull riding, wild-horse race, cowgirls' riding competition, fancy riding, roping and tying competition and fancy roping arranged for afternoon and evening; fireworks.

Tuesday, September 17th, Elks' day—Finale of frontier day sports, fireworks.

Wednesday, September 18th—Knights of Pythias competition, fireworks.

Thursday, September 19th, San Francisco and Panama-Pacific International Exposition day and Governor's day—School children's exercises in the afternoon and evening, children's parade, flag ceremonies, parade of military in the afternoon and evening, fireworks.

Friday, September 20th, Fraternity day and Sacramento Valley day—Drill competition between uniform ranks of all fraternal organizations, afternoon and evening, fireworks.

Saturday, September 21st, Coast Cities day and Forty-nine day—Stage coach, with Joaquin Miller; schooner wagon, pony express, claim staking, claim jumping, lynching bee, gambling, rock drilling competition in afternoon, Forty-nine day parade, Forty-nine day ball in the evening, fireworks.

The total expense attached calls for \$13,600 out of the \$30,000 set aside for public amusement by the State Fair board.

A REMARKABLE RECORD.

Delinette, by Boydell from Electioneer, trotter 2:25½, nineteen years old and the mother of nine colts, owned and driven by A. H. Davidson for many years on the local tracks, yesterday broke a world's record and Mr. Davidson is happy. It was not a speed record, however, so no one can assume that Davidson was breaking the Sahhath while his horse was breaking the record, says the Tucson Republican.

On the contrary, Delinette, though a good traveler, has abandoned hope of becoming a top notcher and is devoting her talents to motherhood. Yesterday she gave birth to two fine twin colts sired by Dr. Clark, trotter, 2:14¾. That was a good showing, but the record-breaking part of it consists in the fact that she gave birth just thirteen months before, to two other twin colts, by Milo McKinney, owned by J. C. Adams, Milo being a full brother of Sweet Marie, with a record of 2:02. This is the first time that twin colts have been born to one mare twice in succession, so far as any records in the horse books show.

It is also very rarely that both colts live in the case of twins, there being only two or three such instances known; of Delinette's offspring one of last season's colts died but Mr. Davidson has taken one of his latest possessions away from the mother and put it on the hottle in the hope that he may be able to save both of them this year.

Davidson is now rather up against it. He said his ranch a while back and only has an acre of ground where he lives while horses are multiplying on him with unprecedented rapidity. He now has eight of them and if he don't do some big hustling to take care of his growing horse family, some of them will have to go to the poor farm.

This incident only emphasizes what this journal has so frequently called attention to, namely, the adaptability of this valley to the horse industry.

JUST \$15,000 A WEEK.

That is the amount offered by the North Pacific Fair Association for its eight weeks' racing—\$12,000, and in the advertisement in this issue there are some additions and changes which must not be overlooked by horsemen. Special attention is called to the number of big stakes and purse races, entries for which will close July 1st, one week from next Monday. The Portland meeting programme also appears for the first time. Horsemen in California who are getting their horses ready for these meetings, and this includes every trainer, should not forget that after they leave Santa Rosa they will proceed to Pleasanton for that meeting and at this place cars will be ready to convey them directly to Vancouver, B. C., where the next big meeting is to be held. Those who are racing in Calgary (the big entry list for this meeting appears in this issue, will join them there; then, if they do not care to go through the Pacific Coast Circuit, they can follow the splendid fairs of this North Pacific Fair Association and go down the line where the tracks will be in fine shape and money is plenty. The attention of horse-owners is called to this circuit. John W. Pace, the wide-awake, hustling secretary, will do all in his power to show his appreciation of all who come there this year, for he knows they will come back next year and bring other horsemen with them.

Seekers after first class "prospectors" should not overlook the grand looking trotter Melrose advertised in this issue. This horse has never received three months' training and will undoubtedly be a 2:10 performer. He is bred to go all day and as an individual he is absolutely perfect.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

AT THE TRAPS.

Golden Gate Gun Club.—Thirty-one blue rock shots competed Sunday in Alameda in the club's June prize shoot. All events except the fourth shoot were at sixteen yards' distance from the traps. This match is the handicap trophy shoot, the marksmen being placed at from sixteen to twenty-one yards distance.

Dick Reed, shooting from the twenty-one yard mark, broke nineteen out of twenty blue rocks; H. P. Vallejo, with seventeen, was second high man. Reed, G. Thomas and W. Lancaster made the best scores in the first event, nineteen out of twenty each.

In the twenty-five bird extra match, J. B. Lee and Reed, with twenty-four each, were top scores. Reed broke 25 straight in another shoot from the 21 yard peg.

Two fifteen men teams competed in a ten bird shoot for lunch honors. Captain Thomas' starred shooters won the match over Captain Lancaster's team. The score was 111 to 109.

| Events | 1 | 2 | 3 | 4 | Yds. |
|----------------|----|----|----|----|------|

Los Angeles Gun Club.—Twenty-six shooters turned out for the weekly shoot of the Los Angeles Gun Club, Sunday, June 16. While there has been larger crowds on the local grounds, there never was a more enthusiastic crowd of target smashers at the traps, writes Secretary Bruner. Only two members were successful in pulling down straight scores, they were S. W. Trout and Wm. Pugh. The high score for the day was made by J. P. Bull, 98 x 100. The lady members are beginning to show that it is possible for the gentler sex to break targets quite as successfully as the men. Mrs. C. E. Grote broke a very good string, 16x25. This lady shooter has only attempted to shoot two or three strings, and from her score last Sunday she bids fair to be well up in a short time. S. C. Miller had his 20 gauge with him and made a creditable showing by breaking 61 per cent. Scores follow:

| Targets | 25 | 25 | 25 | 25 | Pct. |
|------------------|----|----|----|----|------|
| J. P. Bull | 24 | 24 | 23 | 24 | 95 |
| T. W. Neel | 22 | 24 | 24 | 24 | 94 |
| Wm. Pugh | 23 | 23 | 25 | 22 | 92 |
| S. A. Bruner | 23 | 23 | 24 | 22 | 92 |
| J. R. Converse | 21 | 22 | 23 | 23 | 89 |
| F. W. Kinney | 21 | 21 | 22 | 24 | 88 |

Northwest Sportsmen's Tournament.—The trap shooting tournament held by the Northwest Sportsmen's Association, in Walla Walla, Wash., May 21, 22, 23 and 24, was well attended and a success from first to last. Nearly all present shot the program through and everybody had a pleasant time. The scores made are the following:

| Sh. at Bk. | Sh. at Bk. |
|----------------|------------|

Butte Gun Club.—The shooters turned out in goodly numbers at the Butte Gun Club's grounds on the afternoon of May 19, and everyone enjoyed himself immensely. The weather was good, though we had two light showers of rain during the afternoon, but that did not interfere materially. The first event at 50 targets was for the Du Pont trophy, to be contested for three times at 50 targets, in April, May and June. This was the second contest. It becomes the personal property of the one making the highest score at all three shoots. After a shoot off with Gemmett, Goddard won the Twoby medal. The scores made were:

| Targets | 50 | 25 | 25 | 25 | Targets | 50 | 25 | 25 | 25 |
|-----------|----|----|----|----|------------|----|----|----|----|
| Flannigan | 47 | 25 | 21 | 21 | Walker | 47 | 21 | 20 | 23 |
| Drumgoole | 47 | 22 | 23 | 21 | Goddard | 47 | 25 | 23 | 21 |
| Gemmett | 48 | 25 | 20 | 18 | Sullivan | 49 | 22 | 20 | 20 |
| Woeher | 47 | 17 | 23 | 22 | Leck | 49 | 23 | 16 | 19 |
| Neel | 42 | 21 | 19 | 15 | Truzzolino | 43 | 15 | 14 | 14 |
| Cummings | 49 | 25 | 24 | 24 | Hallowell | 46 | 19 | 18 | 18 |
| Smith | 47 | 21 | 15 | 19 | Wiltonby | 48 | 18 | 24 | 20 |
| Mathewson | 50 | 19 | 21 | 19 | Merkle | 50 | 19 | 19 | 19 |
| Rowe | 47 | 23 | 18 | 25 | | | | | |

Crow's Landing Gun Club.—At practice shoot last Sunday, E. R. Dixon was high gun with 93 out of 100. F. Stevenson's score of 91 was next best. The following scores are of excellent average for a new club. The boys are all good wing shots but not yet in full swing on clay pigeons. Roy Morris' score is exceptionally good for a third experience at the traps.

| Targets | 20 | 20 | 20 | 20 | 25 | 25 | 25 | 25 | Totl |
|--------------|----|----|----|----|----|----|----|----|------|
| C. R. Huber | 16 | 17 | 17 | 18 | 18 | 18 | 18 | 18 | 86 |
| E. R. Dixon | 18 | 18 | 18 | 19 | 20 | 20 | 20 | 20 | 93 |
| R. L. Crow | 18 | 17 | 15 | 14 | 16 | 16 | 16 | 16 | 86 |
| S. C. Bell | 19 | 19 | 15 | 13 | 13 | 13 | 13 | 13 | 66 |
| F. Stevenson | 18 | 18 | 17 | 19 | 19 | 19 | 19 | 19 | 91 |
| A. Witten | 11 | 11 | 11 | 11 | 11 | 11 | 11 | 11 | 44 |
| R. Oswald | 13 | 16 | 18 | 20 | 20 | 20 | 20 | 20 | 67 |
| R. Morris | 23 | 16 | 11 | 21 | 21 | 21 | 21 | 21 | 81 |
| L. Elfers | 15 | 15 | 15 | 15 | 15 | 15 | 15 | 15 | 60 |
| H. C. Tucker | 11 | 11 | 11 | 11 | 11 | 11 | 11 | 11 | 44 |

| F. Brown | 9 | 9 | 9 | 9 | 9 | 9 | 9 | 9 | 36 |
| C. Bell | 14 | 14 | 14 | 14 | 14 | 14 | 14 | 14 | 56 |

Tacoma Rod and Gun Club.—The regular semi-monthly shoot took place May 19, with thirteen members shooting. J. Cooper was high man for the day, breaking 99 out of 100 targets. H. W. Newton won the Selby medal with 24 out of 25. J. Cooper won the Du Pont and Peters medal with 25 straight, respectively. Following are the scores:

| Targets | 25 | 25 | 25 | 25 | Targets | 25 | 25 | 25 | 25 |
|--------------|----|----|----|----|-----------|----|----|----|----|
| J. Cooper | 25 | 25 | 24 | 25 | Maupin | 22 | 17 | 20 | 20 |
| J. C. Jensen | 23 | 23 | 24 | 25 | D. Stultz | 19 | 17 | 21 | 21 |
| F. C. Reihl | 22 | 24 | | | | | | | |

bird that looks to be "sailing" toward you and rising—i. e., head well up. Make it 6 inches or 8 inches from tip to tip, put a drop of gum on the body, and then stick it on the top pane of glass of your window. Take your gun (empty), and stand about 12 feet back, or so as to get the bird at an angle of near 45 degrees above your shoulder. The pattern will then look just about the size of a partridge coming at 20 yards off, or a pheasant at 30 yards. Aim dead on the bird, and then lift ahead, above it. You have lost sight of it behind the gun and your left hand. Now tilt the gun, left barrel down, and butt just resting flat on top of your shoulder, the toe outward; aim along the high tube, lift as before, left hand gripping left barrel only, no fingers over, and you see your bird. If the distance is enough and right for a bit, try on your window, lifting double that amount. With the gun tilted you will see the bird; with the side by side position of barrels it will be still invisible, "bird in the hand."

Actual bird shooting is different from deliberate aiming at a mark. I do not say that with the under-and-over gun every man will know that he sees the bird while in the act of lifting ahead and pulling; men differ in sight and vary in their personal equation. But you do see the bird; it is there to be seen and probably unconsciously you see it and act. With the side-by-side type you cannot see the third bird after lifting, but brain and hand act on optimistic impulse of experience, a movement on estimate, the correctness of which depends on experience.

Alignment is further facilitated in the new gun by the left hand being below the line of sight. To my mind this is a great advantage; certainly some men grip right over the barrels, fingers over the rib. The sense of easy alignment of these guns and mental faith that the gun was "on" the object, was delightful, and confidence kills birds. As it was so with me with guns not my fit, I look forward to perfect ease with guns built to fit me.

Now I come to a question of some depth; it can only be solved by actual experiment. It may prove to be all moonshine, but it certainly is manifest to human feeling that there is a great reduction of recoil in the under-and-over gun. In the side-by-side barrels the recoil acts in the line of center of barrel—that is, to one side (or the other) of the central line of gun, to one side of the pivot point of butt at shoulder. Therefore, it is a force ex-centric. In the new gun, the back lash of recoil is along the central line of gun, direct.

The automatic loading magazine guns are in the nature of under-and-over guns in the recoil acting along the line of common center of gravity to the butt pivot. The claim is made that "the effect of recoil is so reduced as to be particularly non-existent." One claims that recoil is absorbed by being utilized in performing the actions of reloading, the barrel and breech bolt only moving back. In another, on the other hand, the barrel and stock are fixed together; "the gun recoils, but the breech bolt cover, being a body not in movement, retains by its own inertia, on its guides, its position, while the rest of the gun travels backwards." Is it not highly probable that in both these guns and in the under-and-over the apparent reduction, or the absence of noticeable recoil, is due to central instead of ex-centric action? Otherwise I doubt recoil being absorbed in the second magazine gun.

There is another question, and that is "lift" of breech in firing, and I have little doubt but it exists. In the side-by-side present gun the discharge, acting in a vertical direction, is in either barrel acting ex-centric. It is common experience in firing at a target that if the gun is not held firmly by the right-hand and well into the shoulder, the hits will center low left from right barrel and low from left barrel, and often the shooter's cheek gets a bad knock. A flexible handle sometimes accounts for this, but more often loose holding, especially with a trigger damaged finger or a wet butt on a shiny mackintosh or slicker. Anyway, it is a lift at breech, and, being a force ex-centric (even though the arm or couple be very small) tends to cant the barrels from horizontal position, lifting the breech before the shot have actually left the muzzle, whereas in the under-and-over gun the upward force is acting in the vertical of the common center of gravity of the whole gun. I do not suggest a figure of amount of erratic throw of charge, nor that it exists with good holding; but it must exist with feeble or faulty holding of present guns, and may be minimized in the new type gun.

The test would be to so sling each of these types in turn as to permit the muzzle to cast to either side of line of aim. To fix as pivot the center of heel on a pad, allowing no more back give than would the human body give in firing, and the slinging (not vice) should permit of the barrels canting on firing from their horizontal setting. If such tests were made with the two guns, they should be of equal weight and fire equal charges, and the results would at least tell us what does happen with the two distinct types or models, and whether there is any real superiority in the new type of gun over the existing gun in relation to recoil and the casting of the charge.

If recoil is, in fact, greatly absorbed, it may have a bearing upon the evil known as gun headache, a malady which prevents many men from shooting well, for no one who is consciously flinching at the expected shock can be in best shooting form. This matter is above mere opinion; I venture none. Experiment alone, or at all events best, can show us the secrets of recoil action. At present the only remedy offered for gun headaches is that sufferers should use cartridges reduced to a conditions of almost imbecility for game shooting—deadly enough, perhaps, on cats.—W. Baden-Powell, in London Field.

SOME COMMON GAME, AQUATIC, AND RAPACIOUS BIRDS IN RELATION TO MAN.

[Continued from last week.]

Franklin Gull.—(*Larus franklini*).—The term "gull" usually suggests a vision of dashing spray or for- extending beaches with reedy bays and outreaching points of sand or islets on which the birds rest to preen their feathers after their long flights, and where perchance they make their nests and rear their young. The species under consideration, however, spends little time on the seacoast but is an inhabitant of far-inland prairies and broad reaches of marshy land, where it lives and breeds during the warm season. In winter it retires southward, but lingers long enough in some of the Southern States to be of material assistance to agriculture. Its center of abundance in North America during the breeding season is west of the Mississippi River and north of Iowa, east of the Rocky Mountains, but it is known to breed to some extent both south and east of these limits. The marshy lakes of this region afford ideal nesting sites for the species, while the adjoining broad stretches of prairie land yield an abundance of their favorite food. A few decades ago these birds occupied this vast region undisturbed, but today the plow is turning up the sod and the mower cutting the grass of the boundless fields over which for centuries they have foraged. With the advent of agricultural operations some changes harmful to the birds must necessarily take place, but it behooves the tillers of the soil to leave the gulls unmolested as far as possible, for where they abound they are a most potent factor in the reduction of insect life. They do not by any means confine themselves to marshes when seeking for food, but fly over the dry prairie and even visit cultivated fields, looking for grubs, grasshoppers, and other insects. When unmolested they become quite fearless and follow the plowman to gather the grubs and worms from the newly turned furrows.

In an investigation of the food of Franklin's gull 93 stomachs were examined. Nearly all were taken from their breeding grounds and in the breeding season. Unfortunately none were secured during July, which is probably the very height of the reproductive period.

Of the whole food 94.46 per cent consisted of animal matter and 5.54 per cent of vegetable. Of the latter nearly all was of no significance, probably being taken accidentally, except the contents of two stomachs collected in May in North Dakota. About 75 per cent of the contents of each of these consisted of wheat probably gathered from newly sown fields. This was the only vegetable food found in any stomach that was of the least economic value.

Of the animal food the most important item is grasshoppers. These amount to 43.43 per cent of the food of the season, and in September and October constitute over four-fifths of the whole diet. As an example of the number these birds can eat at a single meal, the following may be cited. Stomach A contained 70 entire grasshoppers and jaws of 56 more, with remains of 3 crickets. Stomach B contained 20 beetles, 66 crickets, 34 grasshoppers, and 3 other insects. Stomach C contained 90 whole grasshoppers, the jaws of 52 more, with 8 crickets, 1 bug, and 1 caterpillar. Stomach D contained 82 beetles, 87 bugs, 984 ants, 1 cricket, 1 grasshopper, and 2 spiders, or 1157 insects in all. Stomach E was filled with 327 nymphs of dragon flies. Several other stomachs were completely filled with grasshoppers and crickets, too far advanced in digestion to be counted. Adults and larvae (grubs) of May beetles were also a large component of the food and these were probably taken upon cultivated ground. Stomachs collected in Louisiana during the fall migration contained in addition to grasshoppers and beetles large numbers of true bugs (Hemiptera), including several species which are injurious to cotton, tobacco, and squashes. From this brief statement of the food of Franklin's gull, farmers will readily perceive that these birds are very desirable neighbors and will do all in their power to protect them.

There are several other species of gulls and terns that, like Franklin's take up their residence about the lakes and marshes in the interior of the country. Their food habits, as far as known, are all beneficial to the farmer. They are great eaters of grasshoppers and have been seen catching those insects on the wing and also may often be seen following the plow in search of the grubs and beetles turned up. Among these are the California gull (*Larus californicus*), the ring billed gull (*Larus delawarensis*), and the black tern (*Hydrochelidon nigra surinamensis*). The latter lives and breeds about marshes where there is often little or no open water.

An illustration of the value of gulls as insect destroyers is furnished by the experience of the Mormons when they settled in Utah and raised their first crops of grain. This is graphically described by Hon. Geo. A. Cannon, temporary chairman of the Third Irrigation Congress:

"Black crickets came down by millions and destroyed our grain crops; promising fields of wheat in the morning were in the evening as smooth as a man's hand—devoured by the crickets. At this juncture sea gulls (California gulls) came by hundreds and thousands, and before the crops were entirely destroyed these gulls devoured the insects, so that our fields were entirely freed from them. The settlers at Salt Lake regarded the advent of the birds as a heaven-sent miracle. * * * I have been along

the ditches in the morning and have seen lumps of these crickets vomited up by these gulls, so that they could again begin killing."

These "lumps of crickets" were undoubtedly "pellets" of the indigestible parts habitually disgorged by the birds. At the time of the Nevada mouse plague in Humboldt Valley in 1907, gulls, as well as hawks and owls, were noted feasting on the destructive rodents.—F. E. L. B.

Terns.—Like the gulls, terns are usually associated in the mind with the seacoast, but at least six species breed in the interior of the continent. The terns are expert in flight, and so trim and graceful in appearance that they have received the name sea swallows. They breed in colonies, usually nesting on low islands. This leads to the destruction of large numbers of eggs and young by high tides. Formerly terns were slaughtered for millinery purposes to such an extent that some species have been almost extirpated.

Persons engaged in the plumage business have made the not disinterested charge that terns devour large numbers of food fishes and hence should be destroyed. In order to ascertain the truth of the matter the Biological Survey has made a thorough examination of the question. Too few stomachs of the caspian, roseate, and arctic terns have been examined to form a basis for satisfactory conclusions, but a fair number of stomachs of five other species were available—the royal tern, Forster's tern, common tern, least tern, and black tern.

Royal Tern.—(*Sterna maxima*).—Twenty-four stomachs were examined. They contained 3 per cent of crustacea and 97 per cent of fish. The fishes were yellow perch (*Perca flavescens*), 4 per cent, taken in North Carolina in July; bluefish (*Pomatomus saltatrix*), 8 per cent, taken in Florida in March; menhaden (*Brevoortia tyrannus*), 60 per cent, taken in Georgia in November and December, Alabama in October, and Florida in February, August, October, November, and December; and unidentified fishes, 20 per cent.

Thus it is probable that not more than 16 per cent of the normal food consists of fishes each by man. The feeding upon menhaden, tons of which are made into fertilizer, is insignificant economically.

Forster's Tern.—(*Sterna forsteri*).—The food of 34 specimens of this species consisted of crustacea, 2 per cent, and fish, 98 per cent. The largest item of finny food was menhaden (*Brevoortia tyrannus*), 28.2 per cent, found in stomachs taken in South Carolina, Georgia, and Florida in November, December, and January, respectively. Silvery anchovies (*Stolephorus*) (not the anchovies of commerce), forming 24.1 per cent, were next in rank. They were taken in California in September and December, and in Georgia and Florida in November, December and January. Fresh water minnows (*Cyprinidae*) composed 20.5 per cent of the food. Following these in importance were pompanos (*Trachinotus carolinus*), 5.9 per cent; round herrings (*Etrumeus sadina*), 5.8 per cent; mummichogs (*Fundulus zebrinus*) and fresh water sticklebacks (*Eucalia inconstans*), 2.6 per cent each. Unidentified fish made up 7.3 per cent of the food.

Thus only 5.9 per cent of the food of Forster's tern, as at present known, consists of food fishes; 92 per cent consists of fishes of no direct value to man, among which are sticklebacks, which feed upon the spawn of other fishes.

Common Tern.—(*Sterna hirundo*).—One hundred and sixteen stomachs of the common tern have been examined. One per cent of their food consists of mollusks, crustacea, and the worms (*Nereis*) which feed upon oysters. Two per cent is composed of moths and 1.5 per cent of other insects, including grasshoppers, crickets, ants, dragon flies, caddis flies, beetles, and bugs. The remaining 95.5 per cent consists of fishes. The largest item is fresh water minnows (*Cyprinidae*), 23.3 per cent. Sand launces (*Ammodytes americanus*) make 17.8 per cent of the food. Other fishes eaten are menhaden (*Brevoortia tyrannus*), 5.1 per cent; yellow perch (*Perca flavescens*) and sticklebacks (*Gasterosteus bispinosus*), 4.3 per cent each; and silvery anchovies (*Stolephorus*), chub mackerel (*Scomber colias*), and silversides (*Menidia*), 1 per cent each.

Only 6 per cent of the bird's food is composed of food fishes. To offset this, 3.5 per cent consists of insects, mostly injurious, and 4.3 per cent of sticklebacks, of which a distinguished naturalist (Günther) says: "It is scarcely to be conceived what damage these little fishes do, and how greatly detrimental they are to the increase of all the fishes among which they live, for it is with the utmost industry, sagacity and greediness that they seek out and destroy all the young fry that come their way."

Almost 85 per cent of the food consists of fishes of neutral importance.

Least Tern.—(*Sterna antillarum*).—Almost half (43.1 per cent) of the food of 49 least terns consists of silver anchovies (*Stolephorus*). They were captured from New Jersey to Florida and Louisiana in May and June. Menhaden (*Brevoortia tyrannus*) compose 6.8 per cent; mummichogs (*Fundulus*), 6.3 per cent; silversides (*Menidia*), 1.1 per cent; and unidentified fish, 37.7 per cent. The remaining 5 per cent of the food is made up of crustacea. No food fishes were identified from stomachs of the least tern.

Black Tern.—(*Hydrochelidon nigra surinamensis*).—The food of the black tern is more varied than that of any other species. Fish, chiefly minnows (*Cyprinidae*) and mummichogs (*Fundulus*), compose a little more than 19 per cent of the total contents of 145 stomachs. Dragon flies make more than 20 per cent; May flies, 13 per cent; grasshoppers, 12 per cent; predaceous diving beetles, almost 6 per cent; scara-

baled beetles, almost 5 per cent; leaf beetles, 3½ per cent; gnats and other flies, more than 8 per cent; crustacea, 3½ per cent. Other items of food are ground beetles (Carabidae), click beetles (Elateridae), weevils, stone flies, caddis flies, water striders, moths and ants.

The bird preys upon no food fishes, as far as known, but does feed extensively upon such fish enemies as dragon-fly nymphs, dytsid beetles, and crawfishes. It takes a great variety of insects, including some of economic importance, as the moth of the cotton bollworm and the fall army worm, click beetles (adults or wireworms), weevils, and grasshoppers.

Summary.—The average percentage of food fishes in the regimen of these five species of terns is only 4.8 per cent. This refutes the charge that they live largely on food fishes. Among the other fishes eaten, menhaden are prominent, forming an average of 21 per cent of the food. Since these fish are so enormously abundant that their chief economic value is for fertilizer and oil, hundreds of tons of which are made, the number of them consumed by terns is insignificant. Silvery anchovies (*Stolephorus*) and fresh water minnows (*Cyprinidae*) compose about 12 per cent each. These little fishes swarm in shallow waters and are of no direct value to man.

The charge that terns prevent the increase of food fishes by eating the small fishes which are their natural food is wholly unfounded, since there is no scarcity in the food supply, but on the contrary a constant superabundance. In this connection we would point out that some largely herbivorous food fishes, such as the buffalo fishes, with whose food supply the terns have very little to do, have alarmingly decreased, just as have some of the carnivorous ones. The cause of reduction in the number of food fishes is not chiefly failure of the natural food supply, but, as has been pointed out by experts of the United States Bureau of Fisheries, too close fishing.

The responsibility for the scarcity of certain food fishes, therefore, cannot justly be placed upon the terns, especially since it is shown that a very small proportion of their diet is composed of these fishes. Moreover, it must be remembered to their credit that part of their food consists of economically injurious fishes, and that in the case of some species a considerable proportion of insects is taken, most of which are directly injurious to the fishing industry. W. L. M.

SALTWATER ANGLING.

Salmon trolling outside "the Heads" took on a flurry recently that put the local salt-water anglers in a fever of anticipation. Following the reports from time to time of big salmon catches in Monterey bay, the appearance of the fish in the ocean waters was eagerly awaited by local rosters. An odd fish or two was taken by ocean going launches at intervals, but no consistent catches were made until Sunday a week ago.

Ned Bosqui, Pete Blanchard and a friend were out in a launch fishing for rockcod off Rocky Point on the Bolinas shore. Big schools of sardines were frequently seen in the morning so often that the party rigged up salmon tackle that were believed to be following up. Results were pleasantly surprising, for eighteen salmon, ranging from three to sixteen pounds in weight were caught.

Billy Campbell went outside on Monday and returned with thirty-eight fine salmon. On Tuesday his catch was only a half dozen. Charles Linn, Al Wilson and Dr. Matson were out the same day and landed but one fish.

Notwithstanding the fact that hut comparatively few fish have been taken on the outside or inside trolling grounds, there has recently been a big run of the quinnat salmon up the Sacramento and San Joaquin rivers.

The sport in Monterey bay, off Santa Cruz, is still good in a way. One day good catches are made, the following morning the fish are absent, the next day are in again in greater or less numbers. The solution of this state of affairs is simply that the salmon are following up the small fry on which they feed. The shifting of the little fellows in and out of the bay keeps the larger voracious fishes on the move.

Arthur Googin's boat returned with seventy-eight fish last Wednesday. The Sunday results were: T. McCreary, George Cardiff and party, forty-five salmon and five big rock fish; a San Francisco party caught thirty-eight salmon; A Googin's party, forty-one; A. C. Bryant of this city was out with Floyd Uhden and caught twenty-eight; City Attorney C. L. Johnson, J. Johnson and C. E. Rittenhouse of Redwood City, forty-two; Ed Rhodes, twenty-four; L. Kent, forty-three; C. M. Tabler and J. Birkland, thirteen, and C. Herman, sixteen.

Striped bass angling has been a bit on the pick up for the past week. Possibly the best catches have been made in Corte Madera creek. Last Sunday Mr. and Mrs. Charles Urfer landed nine bass, the two largest weighing seven and ten pounds. Thursday morning they caught eight bass, fishing from the ark Tillamook, moored in the creek near Larkspur. Clam baits were used for these two catches. Tiburon lagoon has also produced a few moderate sized striped bass for a week or so past.

San Antonio creek visitors have been fairly lucky in bass fishing. A week ago Hugh Draper, E. Accret, Dave Wallace and others were fairly lucky.

STATE VETERINARIAN'S VIEWS ON HYDROPHOBIA.

[By Dr. Charles Keane.]

Sacramento, June 11.—An article in the San Jose Morning Mercury, June 2, 1912, entitled "The Truth About Hydrophobia," by Charles R. Harker, secretary San Jose Kennel Club, is so misleading that I believe it my duty as a sanitary official, to make public some real facts with reference to rabies and the serious situation in connection with same that presents itself to the people of California today.

It is a most unfortunate circumstance that when anyone wishes to controvert the opinions of scientists, and especially of investigators in connection with infectious diseases, that such people often resort to the practice of extracting from the reports of such scientists or investigators, only that which suits their purposes most, and in doing so they often fail to quote the scientist or investigator adequately or properly.

Rabies has been recognized as a communicable disease since the time of Aristotle, the fourth century, B. C. Today the scientific world recognizes this disease as communicable, and while the active infectious agent is not positively known, it is believed, however, that the Negri bodies that are found microscopically in the brain tissue of all rabid animals, are the real microbial cause of this disease.

Scientists Conservative.—Scientists are most conservative in their statements, and on account of the fact that no method as yet has been devised by which these Negri bodies can be cultivated artificially, these scientists will not positively declare that they are the causative agents.

The communicability of this disease, however, cannot be well controverted. The disease can be produced in susceptible animals by experimental inoculation; under natural conditions it is transmitted to susceptible animals, including man, through the bite of a rabid animal.

The disease can be exterminated if biting animals are prevented from using their teeth by the enforcement of adequate muzzling ordinances. The disease can be prevented, after the individual has been bitten by a rabid animal, if Pasteur (preventive) treatment, is used soon enough.

It is a fact, as Mr. Harker states in his article, that hydrophobia is a misnomer. Hydrophobia is a manufactured word, being two Latin words, which literally mean "fear of water."

In the disease of rabies, and the writer has seen many cases, there is absolutely no fear of water. On the contrary, many observers have seen rabid dogs swim streams when affected with the furious type of this disease. The real fact in connection with the fallacious "fear of water" theory, is that in an established case of rabies, there is a paralysis of the muscles of mastication (chewing) and deglutition (swallowing). A rabid dog will endeavor to drink water if it is placed before him. However, he makes no progress for he has difficulty in lapping up the water and he cannot swallow it. Consequently if a receptacle of water is placed before him, very little water will be found taken out of this receptacle, unless the dog in its anger, or an account of its inability to swallow, upsets the receptacle.

Rabies in California.—Today rabies is epidemic, or more strictly speaking, epizootic, within the State of California. It exists in nearly all the southern counties, in the San Joaquin valley counties, and it is very prevalent in the city of San Francisco. A number of cases have recently been reported from San Mateo county, and about two weeks ago the writer observed one typical case of dumb rabies in the veterinary hospital of Dr. P. H. Browning of San Jose. The clinical diagnoses of a great many of these cases, including the San Jose case, have been verified by microscopical examination at the hygienic laboratory in Berkeley.

It is true, as Mr. Harker says, that the popular notion of a mad dog is a brute running about the street, foaming at the mouth, snarling and snapping at any object within reach.

It is not true, however, as Mr. Harker says, that a mad dog does not run about nor try to bite, etc.

The real facts are these: Rabies manifests itself in dogs in distinct types of the disease, according to the initial symptoms presented. We have what we term the dumb type, and we have also what we term the furious or mad type of this disease. In the dumb type of the disease, which is the less dangerous of the two, the initial symptoms outside of change in disposition, etc., are those of paresis affecting the jaws and throat at first and which gradually extends over the entire body and in the course of five or six days from the onset, the animal dies. During all this period, many of these cases present no vicious symptoms. The most pronounced symptom being at first the paralysis of the lower jaw, which hangs pendulous. However, it must be borne in mind that during all this time such an animal may be able to infect a human being with the disease even if he does not bite the human being. This infection might take place through the caressing of the animal, by means of the infected saliva gaining entrance into a wound. In all epidemics of rabies, the above-mentioned dumb type is more prevalent. In the "furious" or mad form of this disease, the animal does exactly what Mr. Harker says he does not do.

Becomes Wild Brute.—In many instances, and the writer has seen many of them in California, the animal becomes transformed into a wild brute. After the initial symptoms of restlessness, change of demeanor, etc., etc., the dog affected with the furious type will leave home, if unrestrained, and wander

considerable distances from his kennel. During such a pilgrimage he will engage in numerous fights with other dogs; he will attack human beings if they are in his way, and he will also fight and devour inanimate objects, such as wood, stones, etc. He eventually becomes paralyzed similar to the dog with the dumb type and dies in the course of five or six days from paralysis.

Mr. Harker in his article mentions excerpts from a paper read by Dr. John A. McLaughlin before the Hudson County Practitioners' Club, which states in part, as follows:

"Rabies was so prominent in Providence that anyone, it would seem, could diagnose it, and yet it was under such circumstances that I found myself making errors until I became lost in amazement. Some cases which no one had any trouble diagnosing as rabies had no Negri bodies, and two cases of impaction without any rabid symptoms had them in abundance," etc., etc.

Of course, it is very possible for the human to err, and it is not surprising, therefore, that in instances where this disease is extremely prevalent, as it is in California today, and as it possibly was in Rhode Island, that some dogs ill with other diseases, would be reported as being affected with rabies. It is also possible that in the two cases reported in Rhode Island, where the laboratory examination showed Negri bodies, but which, according to Dr. McLaughlin, died from impaction, that the microscopist made a mistake. However, on the contrary, it is also possible, and it is very probable, that these two cases of supposed impaction were really rabid cases on account of the well-known fact that a rabid dog, affected with the furious type, in the early stages of this disease, will eat many inanimate objects, and consequently suffer from impaction. However, regardless of the fact whether mistakes were made in such instances or not, and I do not believe that they are very often made, the fact is well established that rabies exists in California today, and it is a serious menace to our public health and safety. Consequently it is the duty of every governing board of a city where the disease is manifest, to take the proper measures to suppress and eradicate it.

Eight Deaths.—Eight human beings have already died from this disease contracted from the bites of rabid dogs in this State during the present epidemic and God only knows how many more would have succumbed had it not been for the wonderful discovery and the early application of the Pasteur treatment to many others who had been bitten by rabid dogs.

The records of this department show that since April 1, 1911, 257 dogs, twenty cows, five hogs and two goats have contracted and died from this disease within the State of California. These records do not, of course, show all the cases as many other animals undoubtedly contracted this disease but the reports were not submitted to this department.

I take issue with Mr. Harker when he says it is cruel to muzzle dogs. There is, of course, some inconvenience to the dog until such a time as he gets accustomed to the muzzle.

The writer has a dog in San Francisco which he has kept muzzled for several years, and before the epidemic of rabies commenced in this State. The muzzle was placed upon the dog to prevent him from becoming poisoned, which is common in large cities.

Anyone who thinks anything about a dog would certainly remove the muzzle in order to allow such an animal to eat.

Furthermore, when reliable statistics show that the enforcement of muzzling ordinances will exterminate this dread disease, is it not more humane to take these measures in order to eradicate rabies, than to allow your dogs to become infected and die from the disease, leaving out altogether our sentiment for the human family?

NEW LICENSES READY.

Hunting licenses for the State of California are due on July 1, and the State Fish and Game Commission has adopted a new design for the certificate that will be issued to the nimrods who pay their fees. The new card is made of bank note paper and on the face has places for the name, age, residence, color of hair and eyes of the hunter. On the reverse side a reproduction of a picture by Louis Agassiz Fuertes, representing a pair of ringnecked pheasants, lends an artistic touch to the commercial document.

In printing this picture the Commission has in view to give the public a chance to see what a ringnecked pheasant looks like. Considerable money has been spent by the Commission in raising these birds and also in importing them from Oregon, China and other places.

Licenses can be obtained from the offices of the Commission, from deputies, from any county clerk in the State and from most of the sporting goods houses, which have been commissioned to issue them.

The Commission has had 171,000 licenses printed. Last year the revenue from this source amounted to \$150,000, which includes the licenses issued to residents at one dollar apiece, non-residents at \$10 and aliens at \$25 each. In 1911 the receipts were \$142,000 and in 1910, \$133,000. The money received in license fees constitutes the chief source of income for the work of the Commission; \$25,000 income is received for commercial fishing licenses and from \$20,000 to \$30,000 is annually received in fines inflicted for breaches of the game laws of the State.

FLAVORS IN MILK.

"Milk may acquire abnormal odors and flavors in various ways:

"The cow may, through some pathological condition, produce milk with an unusual flavor. This may occur when the cow shows no outward sign of disorder and usually lasts for a short time only.

"Highly flavored foods may impart their peculiar flavors to the milk. The disagreeable results of feeding even small quantities of wild onion, turnips, and similar feeds are unfortunately too familiar to need comment. Other feeds with a less pungent taste no doubt affect the flavor of the milk to a less degree.

"Milk, especially warm milk, takes up the odors and flavors of the surrounding air with great rapidity. The flavor thus acquired may be so slight that it ordinarily passes unnoticed, or it may be so pronounced that anyone may recognize its source.

"The flavor of milk may be materially changed by the growth of bacteria, with the infinite variety of by-products which result from their development. If milk is sterilized and then inoculated with some one kind of bacteria, a certain flavor, frequently very pronounced, will result; and under the same conditions this particular variety will always produce the same flavor. Another kind may produce an equally pronounced but entirely different flavor, while some species may grow for a long time without causing any noticeable change. In ordinary milk, however, the conditions are different, in that many kinds of bacteria are growing together and the milk is usually consumed before there is any marked change in the flavor.

"When a number of different kinds of bacteria grow together, as they usually do in milk, the development is not equal. One variety finds the conditions of food or temperature or acidity more suited to its peculiar habits of life and develops more rapidly than other kinds. In a short time this rapidly growing form may so change the milk that while the conditions are more favorable to its own growth, they become less and less adapted to the needs of the others. In the course of time this form crowds out all the others, and an examination would show large numbers of this kind, while others originally present would have entirely disappeared or would occur only occasionally. It is in this way that the special fermentations develop.

"If milk shows a peculiar flavor when it is first drawn it is safe to say that the flavor is not produced by bacteria, but by the cow, usually through something in the feed. If, on the other hand, the fresh milk is normal and the flavor develops as the milk stands, it is usually due to bacteria.

"The distinct bitter taste which sometimes appears in milk may be caused by (1) certain weeds that cows have eaten, (2) an abnormal condition of the udder, (3) an advanced period of lactation, or (4) the action of certain bacteria. The first three causes of bitter milk need not be discussed in this paper. It is probable that the bacteria causing bitterness are not at all uncommon and that they could be found in many lots of milk showing no bitterness. Some of these bacteria form acid, and are checked by the growth of the lactic-acid bacteria.

"In this most troublesome fermentation the milk becomes what is commonly described as rosy or stringy. The milk is slimy and viscid. As this condition increases the milk may be drawn out into threads.

"This fermentation should not be confused with garget, which appears in the fresh milk and is due to an inflammation of the udder. Rosy or stringy milk develops after the milk is drawn and is caused by the growth of certain kinds of bacteria. Although a number of kinds of bacteria causing this trouble have been studied as distinct varieties, it is probable that they are nearly all closely related. They do not form spores and are therefore destroyed by a comparatively low heat.

"In order to prevent bad flavored milk the agencies which produce it must be eliminated. Aeration may help, in some instances, but it will do little to improve bad flavors caused by bacteria, feeds, etc."—Farmers' Bulletin No. 490.

OUR CHERRY CROP AND
DECIDUOUS FRUITS—
A BUMPER YEAR!

Any keen observer at the present time cannot refrain from noticing the glittering array of all varieties of cherries that the markets of San Francisco are putting forth, at comparatively low prices; and in consequence, this recalls to mind the fearful pessimistic cry that was heralded from one end of the State to the other this spring, that we had had no rain to speak of and that it was going to be a dry year, and if we had any fruit yield at all it would be miraculous.

Well, we had the dry spell, a delightful mild winter, our regular warm spring showers, and now, a heavy cherry crop for a starter, with sure prospects ahead of a bumper yield of all varieties of deciduous fruits. California has never failed, and it is safe to prognosticate a bumper year.

Off and on, as the seasons arrive and depart, we lose a cherry crop and occasionally an apricot, occasioned by an unusual late frost or cold, severe rain and hail storm; but this season, being one of especial observable interest, because so hammered at by that same old pessimist who will live fat off of its fruits during the entire year and be ever ready with the strong arm to meet the advancing spring with the same old gloomy tactics, should the least opportunity present itself to give rise to hapless, disastrous, seasonal prospects. And, by the way, the pessimist who continues to live well fed off of the same land and crops he harasses year by year, reminds one of the Sacramento river mosquitoes, which, when bursting full, will continue to annoy the public (i. e., those whom are so unfortunate as to camp for a night upon its beautiful, enticing, romantic banks) with their mournful tune and dreadful sharp sting.

There is in store this year for the California fruit producers and consumers as well, a complete fruit crop, without even the elimination of an early variety or late, and we all have reason to be more than thankful for being so fortunate as to be the inhabitants of an unfailing State—Golden California!

The same atmospherical conditions that would invariably result disastrous throughout many of the States, does not produce, or cause to be produced, upon this State the same effect in way of a total failure of crops. A total failure is not known here. At times we may have a partly crop, through some unlooked-for atmospherical cause, but assuredly by the time the ripening period has arrived and the thought-to-be failure cognized, the yield always proves to be far in advance of expectation.

With fruits plentiful and all other crops in accord California folk can one and all rejoice, reap, feast and exultantly sing with the birds that harbor no worry and conjecture no forebodings as to wherefrom their livelihood will emanate, but gleefully trust and know that their every need will be exuberantly supplied.

The "gloomer's" doleful bewail may spread from shore to shore
And paint a picture of famine and dark despair;
But, does not, that dismal picture the Truth ignore
When from this giving soil we share abundance everywhere?
Heedless of the human, mortal, distasteful cry,
Proceed, and trust, with a dauntless, optimistic eye!

—OSCAR O. OATES.

Collar galls often need the services of a veterinarian. He will cut out the little sack that causes the trouble.

The horse that slobbers when eating should have his teeth examined.

FOR THIS WEEK ONLY

Greatest
Bargain in
Hand - Made
Colt Harness
Ever Offered....

\$23.50

Cash with order; or \$25 if shipped C. O. D., or on open account.

TAKE ADVANTAGE OF THIS EXTRAORDINARY OFFER TODAY. It may be too late if you put it off, as we positively will not sell this harness after this week for less than our regular price, \$33.50.

The above harness are suitable for jogging and training, also make an excellent racing harness. They are made of the best quality pure oak tanned leather, are sewed and finely finished by hand by our best skilled mechanics, and can not be duplicated elsewhere for less than \$33.50.

We furnish either our all hand-made treeless saddle or a saddle with tree as desired, and ship the harness all complete, with Bridle, Lines, Breast Collar and Traces, Martingale, Saddle, Turnback Hip Strap, Breeching and Breeching Straps.

YOU TAKE NO RISK WHATEVER in ordering this harness, for if you do not find them to be superior to any harness you have ever looked at, at the price, and the nearest bargain ever offered, RETURN THEM AT OUR EXPENSE and we will refund the full amount you paid for them.

to give satisfaction.

GOMBAULT'S
CAUSTIC BALSAM

A safe, speedy and
positive cure for

Curb, Splint, Sweeney, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all lamenesses from Spavin, Ringbone and other bony tumors. Cures all skin diseases of Parasites, Thrush, Diptheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable.

Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use.

Send for descriptive circulars, testimonials, etc. Address THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio

SPECIAL ADVERTISING.

Wanted, For Sale, and Miscellaneous advertising under this head will be set in nonpareil type (same type below) and will be published at the rate of 2 cents per word each insertion, or 6 cents per word by the month. Count each abbreviation and initial as a word.

FOR SALE.—McRose; handsome, stylish bay gelding; five years old; stands 16 hands; a remarkably pure-gaited trotter; has been a mile in 2:15, a half in 1:04. He is one of the best "prospects" in California. Sired by Stam B. 2:11 1/4, out of Mountain Maiden (dam of Tom Carneal 2:08 1/2, Kenneth C. 2:13 1/4, Ben Hur 2:17 1/4, and 1 more in 2:30), by Cresco 4908; granddam Lucy M. (dam of Betty M. 2:20) by Cloud, son of Rifleman; third dam, Hathaway mare by David Hill Jr. Can be seen at San Jose race track, care of Chas. Durfee, Jas. Perry, Owner, 825 First Avenue, San Francisco.

FOR SALE.—Brown yearling stud colt by Zolock 2:05 1/4, dam Queen Derby 2:06 3/4. When just broken at 10 months old could show a 3-minute gait and was then turned out. Is a pure-gaited fine trotter and said to be the finest-looking yearling at Pleasanton. Its paid up in \$35,000 worth of futurities. Queen Derby was a successful race mare, winning 6 in 10 starts, and her first 3 dams are in the Great Brood Mare table, so this colt should be and will be a race horse. Address M. B. McGOWAN, 651 3rd Ave., San Francisco.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 6318 by Ginton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7496 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 3 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

G. LINDAUER, Owner, Union Livery and Sales Stable, 122-124 Clara Street, San Francisco.

POULTRY DOTS.

The early hatched pullets make winter layers and the late hatched pullets make summer layers. These facts should be considered when selecting eggs for hatching.

Stains may be removed from eggs by wiping them with vinegar. Rinse in clear water afterward. This is a good thing to remember while preparing eggs for market.

Poultry houses are made more healthy by preparing them so fresh air and sunshine may be let in on the bright days during the winter months.

The rich butter fat cows can be made more numerous only by careful breeding. If you mate rich butter fat stock only the improvement will be rapid.

We can warm water more cheaply in some other way than through the cow.

No farmer ever went wrong following the pathway of a good cow.

NOTICE

To Horsemen, Privilege Men and Exhibitors Interested in State and County Fairs.

HUFF'S NATIONAL FAIR DIRECTORY for 1912 will be ready for FREE DISTRIBUTION on or about JULY 1st.

- It will contain the
- Names of County and Town where Fair is held.
- Full Dates of Meeting.
- Name of Speed Superintendent.
- Speed Program showing Classes and Purse for each day's racing.
- Condition of Races.
- Name of Trotting Association to which each society belongs.
- Date and Time of Closing Entries.
- Date of Bar and Special Conditions.
- Full Information as to Shipping Facilities, Railroads, Traction Lines and Express Companies.
- Fairs held preceding week and those that follow.
- Population of city or town where Fair is held.
- Distance of Fair Grounds from town.
- Name and Address of the Secretary.
- American and National Racing Rules complete for 1912, and other valuable information.

Any Horseman, Exhibitor or Privilege Man can secure one of these Directories absolutely free of charge by sending his name and address and enclosing three cents for postage to the publisher.

The Pleasanton Futurity Stakes of 1914 and 1915

For Foals of 1912, to Trot and Pace at Two and Three Years Old

—ON THE—

—Pleasanton Race Track, Pleasanton, California.—

(R. J. MacKENZIE, Proprietor.)

Entries to Close Monday, July 1, 1912.

MONEY DIVIDED AS FOLLOWS:

\$3,000 for Three - Year - Old Trotters.

\$2,000 for Three - Year - Old Pacers.

\$1,500 for Two - Year - Old Trotters.

\$1,000 for Two - Year - Old Pacers.

ENTRANCE AND PAYMENTS.—\$2 to nominate mare July 1, 1912, when description of mare and stallion bred to must be given; \$5 October 1, 1912, when color and sex of foal must be given; \$5 May 1, 1913; \$10 October 1, 1913; \$10 May 1, 1914; \$10 May 1, 1915.

STARTING PAYMENTS.—\$25 to start in the Two-Year-Old Pace; \$35 to start in the Two-Year-Old Trot; \$35 to start in the Three-Year-Old Pace; \$50 to start in the Three-Year-Old Trot. All Starting Payments to be made ten days before the first day of the meeting at which the race is to take place.

Nominators must designate when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two-Years-Old are not barred from starting again in the Three-Year-Old Divisions.

CONDITIONS.

The races for Two-Year-Olds will be mile heats, 2 in 3, and for Three-Year-Olds, 3 in 5. Distance for Two-Year-Olds, 150 yards; for Three-Year-Olds, 100 yards.

If a mare proves barren or slips or has a dead foal or twins, or if either the mare or foal dies before January 1, 1913, her nominator may sell or transfer his nomination or substitute another mare or foal, regardless of ownership; but there will be no return of a payment, nor will any entry be liable for more than amount paid in or contracted for.

Entries must be accompanied by the entrance fee. Nominators liable only for amounts paid in. Failure to make any payment forfeits all previous payments.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these Stakes in case the number of entries received is not satisfactory to the management.

Money divided in each division of the Stake 50, 25, 15 and 10 per cent. There will be no more moneys in each division than there are starters.

Entries open to the world.
Write for Entry Blanks to

100 to the Nominator of the Dam on whose Original Entry is named the Winner of the Two-Year-Old Trot.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Trot when mare was bred.

\$2,000 for Three-Year-Old Pacers.

200 for the Nominator of the Dam on whose Entry is named the Winner of Three-Year-Old Pace.

1,000 for Two-Year-Old Pacers.

100 to the Nominator of the Dam on whose Original Entry is named the Winner of Two-Year-Old Pace.

100 to Owner of Stallion, Sire of Winner of Three-Year-Old Pace.

FOR SPECIAL CASH PRIZES FOR STALLION OWNERS

Giving to Owners of Stallion standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize \$80; 2nd Prize \$60; 3rd Prize \$40; 4th Prize \$20.**Prizes will be Paid on August 15, 1912**

ENTRANCE AND PAYMENTS.—\$2.00 to nominate mare July 1st, 1912, when name, color and description of mare and stallion bred to must be given; \$5.00 September 1st, 1912; \$10.00 January 1st, 1913; \$15.00 May 1st, 1913; \$15.00 January 1st, 1914; \$15.00 January 1st, 1915.

STARTING PAYMENTS.—\$25.00 to start in the Two-Year-Old Pacing Division; \$50.00 to start in the Two-Year-Old Trotting Division; \$35.00 to start in the Three-Year-Old Pacing Division; \$75.00 to start in the Three-Year-Old Trotting Division. All starting payments to be made ten days before the day of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two Years Old are not barred from starting again in the Three-Year-Old Division.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The races for three-year-olds will consist of three heats, one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal up to the date of second payment, September 1st, 1912, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for all amounts paid in. Failure to make any payments forfeits all previous payments.

This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in these conditions, rules of National Trotting Association to govern.

For entry blanks and further particulars, address the Secretary.

New Edition of John Splan's Book

"Life With the Trotter"

Price, \$3.00, Postpaid.

"Life With the Trotter" gives us a clear insight into the ways and means to be adopted to increase pace, and preserve it when obtained. This work is replete with interest, and should be read by all sections of society, as it inculcates the doctrines of kindness to the horse from start to finish.
Address: BREEDER AND SPORTSMAN, P. O. Drawer 447, San Francisco, Cal.
Pacific Bldg., Cor. Market and Fourth Sts.

BOOKS FOR STALLION OWNERS

- 1. Hoover's Stallion Service Record.**
The most complete book for recording stallion service ever placed before breeders. Not a pocket edition. No more disputing of sires. No more mixing of dams where this book is used. There is space for entering 100 mares, giving their full breeding, description, dates of service, dates of foaling, etc., with index, complete, size 10x7½. Each book is handsomely and substantially bound.....\$2.00
- 2. The Standard Stallion Service Book.**
The neatest Service Book published, containing space for entering 100 mares, giving space for full description, pedigree, date of services and refusals, date of foaling, etc., with index complete, neatly bound in leatherine, suitable for pocket use.....\$1.00
- 3. Breeder's Note and Certificate Book and Stallion Service Book Combined.**
This book contains 75 blank certificates to be given to owners of mares, certifying that said mare has been bred to a certain stallion. Also 75 notes suitable for owner of mare giving to owner of stallion on account of stallion service fee. This book is well bound, and makes a book like No. 2, after certificates and notes have been removed.....\$1.00

— ADDRESS —

BREEDER AND SPORTSMAN, SAN FRANCISCO, CAL.

"KILL THE BUGS."

The damage caused by insect pests of various kinds to growing crops is costing the farmer, the gardener and fruit grower many millions of dollars each year, therefore, any means that can be devised to exterminate these ravenous little animals is of especial interest.

The Turner Gasoline Tubular Torch Used in Killing Chinch Bugs, etc.

Burning Insect Nests in Trees With the Turner Gasoline Tubular Torch.

These two illustrations show a new tubular gasoline torch designed especially for this work by The Turner Brass Works, Sycamore, Illinois. It produces a flame sufficiently large to cut off the supply of oxygen or air, which is essential to animal life, also enough heat to destroy the animal organism. This new method has been found very effective and has been endorsed by many authorities of agriculture and horticulture.

One illustration shows the new torch in use for killing chinch bugs, locust and similar pests, after snaring them. The other shows the same torch in use for destroying insect nests and orchard pests, of various kinds, in trees and bushes. The habits of many insects have been studied and means have been found for trapping them as easily as catching rats and mice, and they can be much more easily killed by means of this new Turner Tubular Torch.

This is especially true of the chinch bug, which can be snared in passing from the wheat to the green corn when the wheat is being cut. This torch can also be used very effectively for destroying the eggs, larvae, etc., beneath the surface of the ground. It is a most effective appliance for killing live potato bugs, cabbage worms, etc., in the garden, also their eggs or the unhatched young. The flame can be applied sufficiently to destroy this animal life and without the slightest injury to the plant itself. It can be used to good advantage in the henery in killing chicken lice and excellently adapted to farm use for general repairing and other work requiring heat around the farm.

An Egyptian plague of locusts would, of course, be impossible at the present advanced stage of scientific farming. However, the seventeen-year locust and many other insects have been the cause of awful destruction in recent times, and each year the chinch bug, grasshopper, potato bug, rose bug and web worm, gypsy moth and numerous other insects continue to destroy and reduce the crop and income of the American farmer. By means of this new appliance, the damage caused by these bugs can be reduced considerably and the bugs in time entirely exterminated.

- NO. 17—STANFORD STAKE, FOR THREE-YEAR-OLDS..... (Closed)
- NO. 18—FREE-FOR-ALL PACE

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 3, 7, 8, 9, 13, 14, 15, 16 and 17, mile heats 3 in 5, no race longer than 5 heats. Races 4, 6, 10 and 13, mile heats 2 in 3. In the first three heats of races Nos. 11 and 12, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 6, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moneys as there are heats.

Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards. A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting. If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. | \$15 |
|-------------------------|-----------|------------|------------|------------|------|
| 2:20 Trot | \$20 | \$20 | \$20 | \$20 | \$15 |
| 2:15 Trot | 35 | 35 | 35 | 35 | 20 |
| 2:12 Trot | 65 | 65 | 65 | 65 | 55 |
| 2:08 Trot | 15 | 15 | 10 | 10 | 10 |

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fast-old stallion of 1910.

Grace Bond (3) 2:09¹/₄ winner both divisions of Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:06³/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.

Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

| | | |
|---|---|--|
| <p>BARON WILKES 2:15.. Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:06, Baron May 2:07¹/₂; sired dams of 4 in 2:10.</p> | <p>GEORGE WILKES 2:22 Sire of 83, dams of 204.</p> | <p>HAMBLETONIAN 10 Sire of 40. DOLLY SPANKER Dam of 1.</p> |
| | | |
| <p>SORRENTO .. Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Eola 2:19³/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.</p> | <p>GRAND SENTINEL 2:29¹/₄ Sire of 23, including Nettle 2:16³/₄, Tosca 2:18³/₄.</p> | <p>SENTINEL 280 Sire of 8 in 1st. MAID OF LEXINGTON By Mamb. Pilot 29. ABDALLAH MAMBRINO Sire of 15, dams of 42. BIG ELLEN By Clark Chief.</p> |
| | | |

4th dam Virgie—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. **\$100**

the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ In a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

| | | |
|---|--|--|
| Francis J.2:08 | Legal Patchen ...2:15 ³ / ₄ | Dorothy C.2:19 ³ / ₄ |
| Evelyn Patchen...2:10 ³ / ₄ | Lucile Patchen ..2:16 | Louise Patchen ...2:19 ³ / ₄ |
| Scott Patchen ...2:12 ³ / ₄ | Jerry Patchen ...2:16 ³ / ₄ | Dr. Warren2:19 ³ / ₄ |
| Dessie Patchen ..2:13 | Knightstown Belle2:16 ³ / ₄ | Roscoe Binning ...2:20 |
| Frank Patchen ...2:13 ³ / ₄ | Alec Williams ...2:18 ³ / ₄ | Mary Patchen ...2:20 ³ / ₄ |
| Ruby Patchen ...2:13 ³ / ₄ | Lois Patchen ...2:19 ³ / ₄ | Black Patchen ...2:20 ³ / ₄ |
| J. C. Patchen ...2:14 ³ / ₄ | Auduous the Miller2:19 ³ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: **\$50** Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

Montbaine

Reg. No. 48667

SON OF

MOKO 2:457 (futurity sire) and Krem Marie (dam of 4 in 2:30) by Kremlin 2:07³/₄; second dam Maymont by Blackmont; third dam Maywood by Blackwood, etc.

Montbaine is a rich, mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

P. W. HODGES,

4416 Stanford Ave., Sacramento, CAL.

Sired by Nutwood Wilkes 2:16³/₄ Sire of Copa de Oro 1:59 Jno. A. McKerron 2:04³/₄ etc.

CHESTNUT TOM

Sire dam of

Record 2:15 Reg. No. 43488

Dam by Director 2:17 2nd dam by Nutwood 2:18³/₄; 3rd dam by Geo. M. Patchen Jr. 2:27; 4th dam by Williamson's Belmont.

WILBUR LOU 2:19³/₄, Champion Yearling Colt Trotter of the World. The dam of Wilbur Lou 2:19³/₄ is the only one of the get of Chestnut Tom ever raced. Will stand at Tulare Fair Grounds, Tulare, Cal. FEE: \$25 the Season. Usual return privilege For further particulars address I. M. LIPSON, Box 464, Tulare, Cal

Santa Rosa Race Meeting

AT THE FAMOUS

Santa Rosa Mile Track

(S. H. BURNS, Proprietor.)

THREE DAYS --- JULY 18, 19, 20 --- THREE DAYS

Entries Close July 1, 1912.

PROGRAM.

FIRST DAY.

| | |
|------------------------|-------|
| 2:20 Trot | \$400 |
| 2:11 Pace | 500 |
| Running Race | 100 |

SECOND DAY.

| | |
|------------------------|-------|
| 2:16 Trot | \$400 |
| 2:15 Pace | 400 |
| Running Race | 100 |

THIRD DAY.

| | |
|------------------------|-------|
| 2:20 Pace | \$400 |
| 2:12 Trot | 500 |
| Running Race | 100 |

CONDITIONS OF HARNESS RACES:

Entries Close Monday, July 1, 1912.

Horses to be named with entry. Entrance fee 5 per cent to enter and 5 per cent deducted from money winners.

Money divided into four moneys—50, 25, 15 and 10 per cent.

The Association reserves the right to reject any and all entries and declare off or postpone any and all races on account of weather or other sufficient cause.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races.

Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starters to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. When a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

All races mile heats, 3 in 5, and no race longer than five heats, and money not decided before fifth heat will be divided according to rank in the summary at the termination of the fifth heat.

Member National Trotting Association.

Running races will be at catch weights; distances to be arranged to suit the horses that will be at the track. Two moneys—\$75 and \$25. Running races will be on the inside 1/4-mile track.

Address all communications to the Secretary.

HENRY NUNAN, Secretary, Santa Rosa, Cal.

S. H. BURNS, Proprietor.

Steel Lined Shot Shells

Each and Every One a Speed Shell

The Speed that breaks your targets nearer the trap. That's why *Remington-UMC* Steel Lined Shells have won 13 out of the 15 Handicaps held in the last three years.

The speed that gets that mile-a-minute "duck" with a shorter lead—that's why it takes over 50,000 dealers to handle the demand for *Remington-UMC* Steel Lined Shells.

The shooting fraternity are speed wise. They know loose smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in *Remington-UMC* shells is gripped in steel. This lining is designed to give the exact compression necessary to send the load to the mark quickest. It insures speed—the same speed in every shell. The steel lining is moisture proof—no dampness can get through. Jar proof—no powder can get out. Waste proof—no energy is lost.

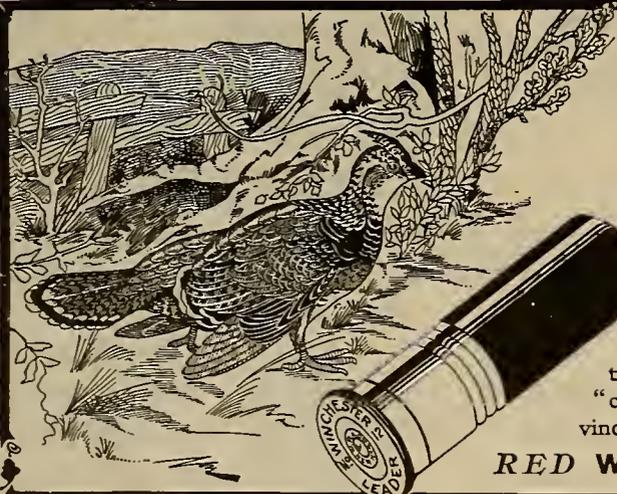

Shoot *Remington-UMC* Steel Lined Shells.

Get All the Drive of the Powder Behind Every Shot.

Remington-UMC—the perfect shooting combination.

Remington Arms-Union Metallic Cartridge Co.

299 Broadway, New York City

WINCHESTER

Factory Loaded Smokeless Powder Shells

"LEADER"

With any practical combination of powder and shot, in any make of gun, Winchester "Leader" Factory Loaded Shells give the best obtainable results. Strong, fast and uniform shooting qualities are theirs. They make nice, even patterns and give excellent penetration. Such features help to make good bags in the field and high scores at the trap. Their patented corrugated head construction reduces "cutting off" to a minimum. Try them and you will be convinced of their superiority.

RED W SHELLS ARE SOLD EVERYWHERE

Amateurs Win at Salt Lake With SELBY LOADS!

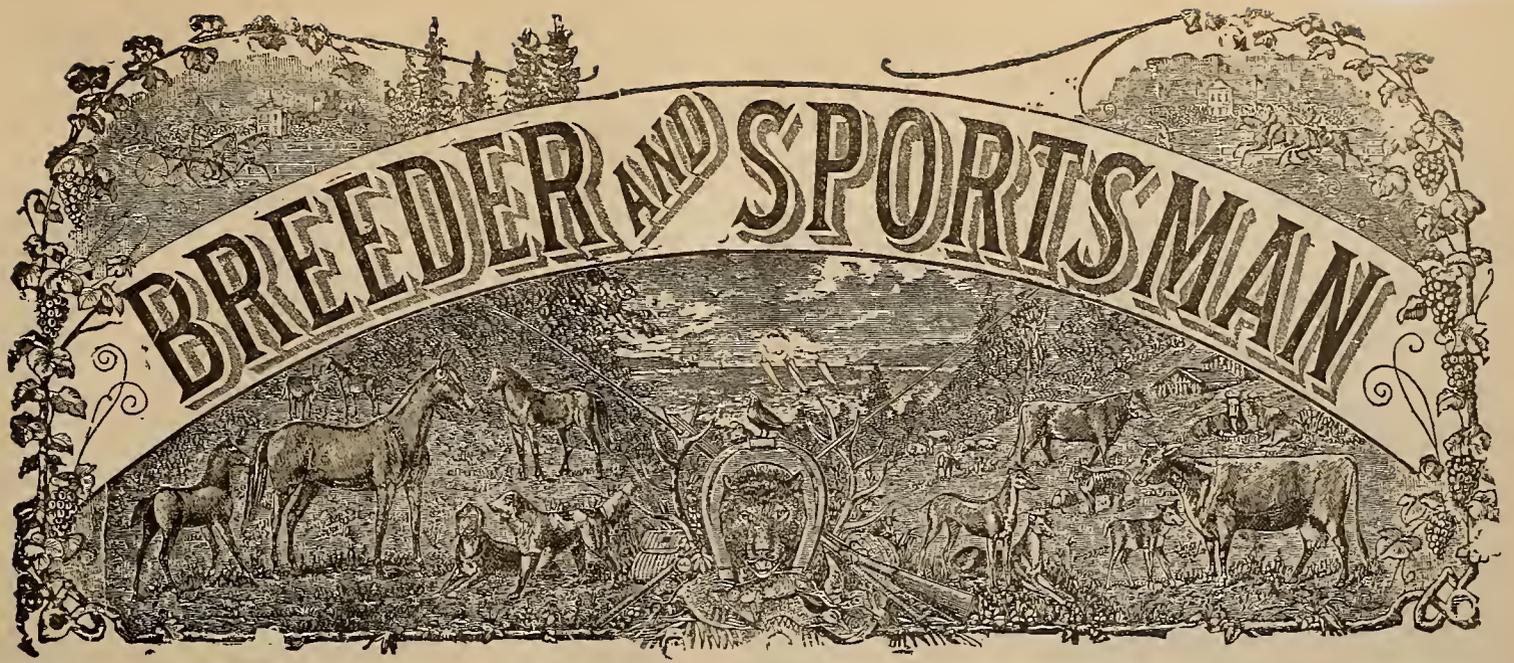

The following scores were made at the Utah-Idaho Sportsmen's Shoot, May 28-30, 1912: --

HIGH AMATEUR, Mr. F. A. Dryden 554 x 580
THIRD AMATEUR (tie), Dr. J. F. Sharp 550 x 580

Mr. F. A. Dryden ran 168 STRAIGHT, dropping but one target out of 235.

SAN FELIPE

That will appear on the Pacific Coast Circuit this year in Chas. De Ryder's string.

WHY NOT?

If it is a good thing to check his head, why not his tail?
Which has the most brains—horse or owner?

After the horse's tail has been cut off, the raw and
bleeding stump is seared with a red hot iron.

We have just issued a new booklet. It contains 132 pages. It has over 100 illustrations. The drawings are by Robert L. Dickey and Leigh S. Toman, acknowledged leaders in the difficult art of equine portrayal. This booklet will be read with interest by owners of every kind of horses. This is a book of facts—no theories or fads—every item had been thoroughly proven before it was accepted as a fact.

This booklet contains solid, useful information which will be valuable alike to professional horsemen, to amateur horseman, to veterinary surgeons, to farmers, to breeders, to horseshoers, to livery stable keepers, to trainers, to teamsters, and to superintendents to large work-horse stables.

The chapter on shoeing will generally improve the shoeing of horses in this country so that they will be better shod than ever before—and this will mean fewer lame horses and better and longer service by those that do not become really lame on account of bad or indifferent shoeing. The chapter on the care and treatment of stallions will change many a stallion from a failure into a success. This chapter will reform the care and treatment of all sorts of horses of all ages and sexes—add to their comfort and increase their usefulness. The chapter on the use and misuse of bandages will be found reliable and valuable. The chapter on bits and checks will meet with approval by all horsemen who can think without getting a headache. The chapter on docking will help to abolish that inhuman practice. The chapter on firing will set many a good man against that barbarous and absolutely useless relic of the dark days of ignorance and cruelty. Chapters are devoted to many different kinds of lameness—their causes and treatment.

Little of the matter in this booklet was ever in print before at any time or place. Everything in this booklet is practical and in accord with the best up-to-date knowledge of the different topics treated. This booklet is the most valuable work on horses ever printed—no matter at what cost or by whom. We have the most complete up-to-date library of veterinary books and books on topics equine in this country. Our new booklet is of more practical value, so far as the matters covered, than our whole library. This booklet will be read and re-read and preserved for future reference. We are prepared to place

ONE MILLION COPIES

of this booklet in the hands of horse owners and we wish to do this within the next sixty days.

This Booklet is FREE

We will send it free, postage paid to any address. If you have a friend or friends who own horses, send us their names and addresses. Write your name and address very plainly.

Winnipeg, July 8th to 19th.
Brandon, July 20th to 26th.
Regina, July 29th to August 3d.
Saskatoon, August 6th to 9th.
Edmonton, August 12th to 18th.
Lethbridge, August 21st to 23d.

SOME PEOPLE who have been "living in the past" and have not kept posted upon all matters pertaining to the widespread growth of the trotting horse industry in America, Europe and Australasia, have been continually "croaking" about its decadence, claiming that "trotting is played out," that "the light harness horse racing is as dead as the running horse game," and that "it never will be revived." These and similar utterances have given their authors much satisfaction, they have thus shown how much they would like to see it "stamped out of existence." It seems as if these pessimists have never looked upon the bright side of life. Instead, they have been gazing through darkened glasses upon everything, and especially the work of the vast body of enthusiastic breeders of light harness horses during the past fifteen years.

What will they say now when their attention is called to the long lists of entries published in all the leading turf journals in America? Will they give horsemen credit for rallying to the support of the associations, and will they say an encouraging word for the efforts of the rank and file of breeders and trainers who have placed the trotting horse industry on a better basis than it has ever been and have striven hard by the enforcement of better rules to make it more popular with the masses?

What criticisms can they make as they notice that there never were as many horses in training, never so many entries made, never as many tracks in use, and never so great and widespread a demand for good horses as at present? They cannot shut from their vision what they see, for not only in the United States is "the fever" spreading, but also in Canada, Europe and Australasia. In these countries the industry is receiving an impetus or obtaining a foothold

it never had before, and by the improvement in breeding and training and a more humane development of fast trotters and pacers, it is becoming the most enjoyable of all industries.

California has had its seventeen "lean" years, so far as the number of good race meetings given were concerned, for after the closing down of the District Fairs all the racing was confined between six and eight weeks each year, and these meetings were widely scattered. The whole Pacific Coast suffered likewise, that is, the states of Washington, Oregon and Arizona were affected. Although every year some marvelously fast trotters and pacers appeared on the Coast and were purchased by Eastern and European buyers the fact remained that our race meetings were not of Grand or Great Western Circuit caliber. But all this has changed miraculously, every one must admit. Today our continuous circuit is longer and presents greater attractions than any other in the United States. More money is offered in stakes and purses (outside of Futurity stakes and several famous national stakes) than during any similar period, and to give the pessimists who have been croaking so long a little more to think about, it is only necessary to thus show by the lists of entries already made in these columns that true and earnest horsemen everywhere appreciate the efforts of the associations composing the circuits on this Coast. We have published the entry lists of the Pacific Coast Trotting Horse Breeders' Association, Los Angeles and Calgary, and in this issue appears full entry lists of the Pleasanton, San Jose and Vancouver meetings. With few exceptions every race advertised has filled and the lists have been larger than were ever known before. The Futurity stakes of the Breeders and the State Agricultural Society contain more names and better bred colts and fillies than at any time in the history of the light harness horse on the Pacific Coast; and those two big Futurity stakes, the Los Angeles for \$10,000 and the Pleasanton for \$7,500 for foals of 1912, will undoubtedly surpass those already closed. Entries to these will close next Monday, July 1st, and the efforts of the directors of these splendid associations in giving such liberal amounts should receive the strongest support of every owner of a good colt or filly on the Pacific Coast. We know that if these stakes receive enough entries that in 1913 they will be increased manifold.

ONE OF the most deserving institutions in California is in Sacramento, is called the Merciful Savior Home for Invalid Children, and, although horsemen, as a general thing, are not considered strict church-goers or devout Christians, nevertheless, whenever called upon to aid or help any charitable cause, whether religious or not,—if it is an appeal for help,—they have always cheerfully and willingly responded. This fact was fully exemplified by the remarkable showing made last Saturday at the Sacramento race track, when over sixty horses of all classes and from all the cities within a radius of one hundred miles of that place were installed in their respective boxes. They came to race, and by that means attract a large attendance so that the gate receipts might be used to aid this institution. Men of all classes and creeds thus testified that that sacred place which has over its portals those words of Holy Writ: "Now ahideth faith, hope, charity, these three; but the greatest of these is charity," should never appeal to them in vain.

The officers of the Sacramento Driving Club made great preparations for the reception of the members of kindred organizations, horse owners and trainers generally, and when that unusual rain fell that morning, destroying all chances for racing, they hired a number of automobiles to convey to the race track all visiting owners who came by train and hoat. On arriving at the course a meeting of these directors was held and every one felt so gratified at the support given their efforts by the visitors that it was resolved that horses entered for the races and their caretakers should be kept and cared for free of all charges until the following Sunday (tomorrow), and greater efforts would be made this week to induce other owners and more horses to come.

The shelves in the office at the track were covered with most beautiful cups, some of them very valuable; these were donated by the citizens of Sacramento. The band of music engaged (twenty-four pieces) was the best ever gathered for an occasion like this and the bandmaster and his gifted musicians offered to donate the salaries they are to receive for their services to this institution. Over 1600

tickets were sold, and the refreshments sent in for the active participants in the day's racing were, by unanimous consent, divided among the local orphans' and children's homes.

Since the magnanimity of the Sacramento Driving Club in behalf of this institution it is trying to aid financially has become known, numerous owners decided to send their horses this week, so that they can make the races even more interesting than at first announced. The result will undoubtedly be that those who attend tomorrow will see the best series of races ever held in one day in California.

It is a good and worthy cause and we take pleasure in commending and thanking that noble body of men who are endeavoring by every laudable means possible to show the general public that better, more liberal minded or charitable men do not exist than those who love a trotting horse.

HORSEMEN are again reminded that they must make entries at several very important meetings on the Pacific Coast Circuit next Monday, July 1st, and it is to their interest to attend to this at once. Entries to the Portland, Oregon meeting, Seattle (The Meadows), Santa Rosa, Fresno, State Agricultural Society, Sacramento, and a number of the big events on the North Pacific Fair Association close on that day. Besides these, entries in the splendid Futurity stakes at Los Angeles (value \$10,000) and the Pleasanton Futurity stakes at Pleasanton (value \$7,500) for foals of 1912 close Monday, July 1st. Hence it can be seen that to horsemen this is a more important day than any other in the year, and as the prospects for making money with good trotters and pacers were never brighter than at present it is absolutely necessary that every owner, trainer and breeder should see that entries are made in all the events scheduled. This is the very last call and should be heeded by all interested. Full particulars as to the races and conditions appear elsewhere in this issue. Remember the date: Monday, July 1st, and have no regrets thereafter.

SECRETARY O. D. PAYNE, of the Woodland Driving Club, reports that owing to an insufficiency of entries received for the three days' meeting advertised to take place at the Woodland race track, July 4th, 5th, and 6th, it was decided to declare the meeting off and give one day of good racing on the Fourth of July. As records made at this three days' meeting might have had a serious effect upon the future of all horses earning them, especially those which are to be campaigned on the Pacific Coast Circuit and which would be eligible as they stand to make entries July 17th, undoubtedly owners refrained from making entries at this Woodland meeting. It is hoped that in 1913 Woodland will resume its old position in the circuit (the week before the State Fair meeting), and if so, there will be no lack of entries, for the track at Woodland is unexcelled and the city is one of the best in California.

JOSE NEAL IS SECRETARY AT PLEASANTON.

We learn from excellent authority that Jose (Joe) Neal, who was for many years the late Monroe Salisbury's secretary and superintendent of the Pleasanton Stock Farm, has been appointed secretary of the Pleasanton Driving Park, taking the place vacated by Mr. Cox. No better appointment could be made. Mr. Neal is a thorough accountant, careful, conscientious and painstaking. He enjoys the respect and confidence of all who have known him for the past thirty-five years, and thoroughly understands all the duties pertaining to the secretaryship of a racing association; hence every horseman visiting Pleasanton will be pleased to congratulate him on his appointment. He has been and still occupies the position of city clerk of that pretty place, and has been indefatigable in his efforts to keep Pleasanton to the front. With Mr. E. J. MacKenzie as owner, Chas. De Ryder as manager, and Joe Neal, secretary of this driving park, we do not know in this state or anywhere else of a more progressive combination or one that will meet with the approval of so many. The Breeder and Sportsman extends its congratulations to this trinity of enthusiastic and able men, and predicts a brilliant future for the interests they severally and jointly represent.

Thos. Coulter, one of the leading trotting horsemen of Sacramento, saw M. B. Magowan's big fine mare Queen Derby 2:06½, and her Bondsman foal at Pleasanton last week and was so well pleased with both that he immediately purchased them. Queen Derby has the honor of being the fastest record holding mare bred to The Bondsman, and as she is by Chas. Derby 2:20 out of one of the most fashionably bred trotting mares brought to the Oakwood Park Stock Farm from the East, she should prove a progenitress of speed.

NOTES AND NEWS

Send in your items.

The meeting at Calgary, Alta., opened yesterday, June 28th.

Bon Vivant (3) 2:10¼, by Bon Voyage 2:08, is at Sivorno, Italy.

The way to increase the earning capacity of the trotter—train him.

Every race filled at Pleasanton except the race for two-year-old trotters.

2:09¼, 2:08½, Vernon McKinney's workouts at Libertyville last week.

2:10, 2:09, 2:08¾ is what Merry Widow and Joe Patchen II worked out in last week.

Charles Dean Jr., Palatine Ill., will race a few of the MacKenzie horses on the half mile tracks.

Happy Dentist 2:05¾ grabbed his quarter very badly in his race at Everyville on Butchers' Day.

The Harvester is to be bred to three Russian mares during his brief stay in the land of the Czar.

Uhlen has trotted a mile at Moscow in 2:12½, last half in 1:01½. The Harvester in 2:16½, last half in 1:03½.

Chas. Durfee drove the handsome Stam B. trotting gelding Melrose, a mile in 2:14½, very easily last Friday at San Jose.

Entries for the Santa Rosa meeting will close next Monday, July 1st. Horseowners and trainers should not overlook this meeting.

The San Bernardino Driving Club held a matinee yesterday. Horses were there from Hemet, Redlands, Riverside and Santa Ana.

Eleata 2:08½, the daughter of Dexter Prince that won the M. & M. Stake at Detroit, as a four-year-old, has been bred to Peter the Great 2:07¼.

It is the intention of the management of the Salinas Driving Club to have three trotters start to beat 2:30¼ today at Salinas.

A number of horsemen and their friends were disappointed last Sunday when they saw there would be no racing at the Sacramento race track.

Remember this is the last call for the closing of entries at the principal race meetings on this coast. Monday, July 1st, is the day set apart for this.

The Oregon-Idaho Fair Circuit will race under the National Association rules. Wm. Krull is the newly elected secretary of the Boise, Idaho, association.

Entries to the early closing events of the Portland meeting will close next Monday, July 1st. The purse event for three-year-old pacers at this meeting is for \$500 instead of \$1000.

Charlotte F., the running mate of Ethan Allen 2:25½, was named for Charlotte Foster, the gifted sister of Charles J. Foster ("Privateer"), who edited Hiram Woodruff's book.

The man who takes a green colt or horse and educates it to trot is entitled to a great deal more credit than the trainer who takes a horse after he is gaited and simply develops his speed.

The first meeting of the Grand Circuit commences at Grand Rapids, Michigan, July 8th to 12th, inclusive. A number of horses well known to Californians will be competitors at this meeting.

Horsemen proclaim the two-year-old by Nutwood Wilkes 2:16½, out of Red Nightingale 2:10¼, in the stable of M. O. Stokes, as one of the very best trotters of his age ever trained over the Springfield, Ohio, track.

Thoroughbred racing prospects were never as bright in Australia as they are at present, and the owners of really first-class horses will find little trouble in reaping financial fortunes on the numerous race tracks there.

W. A. (Lon) Freeman, now of Los Angeles, Cal., has sold the gray pacing gelding Sirnoil (Jack Sunol), by Sir Alcantara (p) 2:05¼, to M. B. Crafts, of Chicago. Swamp Maiden, pacer, trial in 2:19½, owned by Mr. Freeman, will be trained and raced by John J. Shaw.

Jas. Stewart, of Los Angeles, started J. W. McClain's horses in the matinees at Seaforth and they showed well. Lady Mack won half-mile heats with Homer Mack second, first heat in 2:04½, second heat in 2:05. They are both good.

The best yearling pacer at the Lexington track is said to be a filly by Paronhurst (3) 2:25¼, brother to Kentucky Todd (3) 2:08¾, dam Kitty Arion by Arion 2:07¾. She has stepped a quarter in 37½ seconds and an eighth in 17½ seconds.

One of G. Valensin's favorite mares was Hibibi 2:15¼, by Valensin out of Ivy 2:31½, by Buccaneer. She is now twenty-four years old and has a bay filly at foot by Baron Garry on Jacob Ruppert's Hudson River Driving Park. Hibibi never produced a trotter or pacer with a record.

Isn't it remarkable the number of fast miles that are being made in workouts by candidates for 2:20 honors throughout the various racing circuits in the United States? Let us be patient and see if the timers at the race meetings catch the time as fast.

If you want to get full and complete accounts of the race meetings on the Pacific Coast and interesting news regarding the California trotters and pacers which are to race this season on the Grand Circuit, you must read the Breeder and Sportsman.

Fred C. Thomas, compiler of the New Zealand Trotting Stud Book, cables he will be here July 11th, as he left Wellington June 21st. Mr. Thomas has acted as correspondent for the "Breeder and Sportsman" for some time, and is one of the best posted horse authorities in Australasia.

Dr. Ed. Willis has taken the Patchen Wilkes Farm string of colt candidates to the Lexington track for the finishing touches of their education. There are eight in the string, all yearlings, two or three-year-olds, and all by Peter the Great 2:07¼, but one, which is by his son, Peter Donna 2:08.

A starting judge should not be required to time races. He has enough to do to properly perform the duties that have generally been considered to go with the position. If the parent associations want spotters or detectives, let them pay for them.—American Horse Breeder. "Them's our sentiments."

The Colorado plan of using state prisoners to improve the public highways is resulting in better roads and better prisoners. It may work automatically to perpetuate itself. As the roads are made better the automobiles will be tempted to exceed the speed limit and, being sent to prison for this, they can improve more roads.

One of the finest bred and best thoroughbred sires in Australasia, Multiform, by Hotchkiss, out of Forma by Spendthrift, died in New South Wales last month. He was for many years owned by the late G. G. Stead, of Christchurch, New Zealand, and was sold at the closing out sale of the latter's estate for 3750 guineas. Multiform was seventeen years old.

Canata, the dam of Herold, the Austrian Derby winner of 1912, was foaled in 1893 and taken to Austria in 1898. She is sired by Constantine 2:12½, dam Eyeveiner, by Ivaneer (son of Electioneer and Isma, by Gen. Benton); second dam Fanny Wilkes, by Red Wilkes.

Lady Estelle (dam of Smiley Corbett, now at Pleasanton), by Athadon 2:27; second dam, the dam of Seymour Wilkes 2:08½, was sold last summer to John Porter, of Otago, New Zealand, and since her arrival dropped a beautiful bay colt whose sire is June Pointer (matinee record 2:09¾), and this is believed to be the only one he has sired.

Recent arrivals at the Grand Rapids, Mich., track are E. F. Geers, with Dudie Archdale 2:06¼, Anvil 2:08¼ and sixteen others; Gus Macey, with Colorado E. 2:04¼, C. The Limit (p) 2:04¼ and eleven others; Ed. Benyon, with Lulu S. 2:15¼ and twelve others; Tom Grady, with Jack Leyburn 2:04¼ and five others; W. G. Durfee, with Don Pronto (p) 2:05½ and five others, and By Shively, with Sunny Jim (p) 2:06¼ and four others.

We have received a copy of The Polo Players' Diary for 1912, edited by Arthur W. Coaten, of London, England. It surpasses all previous editions, contains much valuable information for poloists and is replete with lifelike illustrations of the principal members of the leading polo games throughout the world. It is an invaluable work for all who are interested in this exciting sport. Walter Goldsmith & Co. are the proprietors.

Norcatur 17855 died suddenly on May 18th, of heart failure. He was owned by Dr. W. H. Richards, of Emporia, Kan. Norcatur was a son of Norval, out of Smirk, by Red Wilkes. His second dam was Coquette, by Pilot Jr., third dam Thoroughbred, by Wagner. He was foaled in 1890. He had twenty trotters and five pacers to his credit at the time of his death.

Have you noticed the size of the purses offered by the King County Fair and Race Meet at The Meadows (mile track), Seattle, Washington? They are as follows: A 2:12 trot, \$2500; 2:08 pace, \$2500; 2:18 trot, \$1000; 2:18 pace, \$1000; 2:29 trot, \$1000; 2:24 pace, \$1000; three-year-old trot, \$1000; three-year-old pace, \$500; two-year-old trot, \$300, and a two-year-old pace, \$200. Entries for these will close next Monday, July 1st. This meeting takes place September 9th to 14th, inclusive.

A carload of wild mustangs has arrived in Salinas. They are from Modoc county and will be used in the wild west contests during the one big week celebration to be held at the county seat from July 29th to August 4th. They were selected by J. E. Breen and are guaranteed to be a "bad" lot. They will be turned out to pasture until the celebration takes place.

C. H. Chandler, of Sacramento, is the proud owner of a filly by The Bondsman out of Lady Search by Searchlight. He has named her Birdie Bond. This filly is entered in the P. C. T. H. B. Association stake, the Los Angeles Futurity, the Chicago Horseman's Futurity and the Pleasanton Futurity stakes. She is one of the handsomest fillies ever seen in Sacramento.

The most sensational performance of the season was pulled off at Lexington, Ky., Tuesday, when Princess Axworthy trotted a half mile in 1:09¼, the last quarter and eighth of which was stepped at even a higher rate of speed. This filly is by Morgan Axworthy and out of Princess of Kent 2:22½, by Heir-at-Law 2:05¾, is the property of John F. Howley, Pittsburg, Pa., and being trained by H. C. Moody.

Frank S. Turner, the well-known horseman and former lessee of the Santa Rosa Stock Farm, has departed for Springfield, Ill., taking with him a string of eight horses, which he has sold there. Mrs. Turner has gone to New York to visit relatives, and later will be joined by her husband. Mr. and Mrs. Turner expect to return to Santa Rosa again before long, to again take up their residence.—Press Democrat.

This is the last appeal to owners of foals of 1912, for entries to the Los Angeles Futurity Stake, value \$10,000, and to the Pleasanton Futurity Stakes, value \$7,500, will close next Monday, July 1st. Read the advertisement and attend to this most important matter at once. Nothing enhances the value of a colt or filly more than the knowledge that he or she is eligible in such Futurity Stakes as these and is thus enabled to win a large amount of money on an insignificant investment.

C. A. Harrison, Seattle, has purchased a grand yearling filly at Bonaday Farm, Roseburg, Ore. This miss is a natural trotter and bred to be one. She is by Bonaday (2) 2:27½, dam by Guy Wilkes 2:15¼; second dam by Secretary 8368; third dam by Sam Patchen; fourth dam by Hambletonian 725. She has trotted eighths better than twenty seconds and is in all the futurities in the country; her development will be continued at the Bonaday Farm.

Practical breeders of trotting stock can learn a more valuable lesson by studying the tabulated pedigrees of noted trotters and noting the blood lines which are common to them than by reading essays of learned theorists who have never bred, owned or driven a trotter that has made a standard record. Similar combinations of blood lines to those which have produced the record-breakers of the past are the combinations most likely to produce the record-breakers of the future.

C. Allison Telfer, manager State Agricultural Society, under date of June 21st writes: "At yesterday's meeting of the State Board of Agriculture, an appropriation was made of \$500 to be used in the purchase of prizes and trophies for the Horse Show which is held at night in the big tent. As this is a feature of the entertainment, any suggestions as to suitable prizes and trophies would be greatly appreciated by the Director under whose supervision this division will come.

R. Fitzgerald, of Cleone, Oregon, recently purchased the handsome black stallion Azem, by Axtell (3) 2:12, dam by Pactolus 2:12¾; the grand broodmare Bhima, by McKinney 2:11¼, dam Vevo, by Altamont 2:26¼, with foal at foot by Hal B. 2:04½, and Bonnie Logan, by Bonnie Direct 2:05¼, dam Miss Logan 2:06¼, by Gen. Logan 17604. Azem was purchased from Harry Squires, of Portland, and Bhima and Miss Logan from G. A. Westgate, of Portland. The two mares are supposed to be in foal to Cruzados 2:29¼, by McKinney 2:11¼.

W. N. Tiffany, Los Angeles, Cal., sent his two-year-olds, Carsto and Clinchfast, with Will Durfee's horses to Grand Rapids, Mich. Carsto, by Carlokina 2:08¼, dam Lady Vasto, by Vasto 20072, took a record of 2:27 Decoration Day at Los Angeles, and has nine Eastern engagements. He trots with light shoes and very plain harness, and has the squarest of gaits. Clinchfast, by Trampfast (2) 2:12¼, out of Lizzie Clinch, by Baron Wilkes 2:18, is also a clean trotter, but has not had as much preparation as his stable mate. He is also engaged in many futurities.

Some horses have a very ugly and annoying habit of gnawing their feed boxes, mangers and, in fact, every piece of wood in reach of them when tied in the stable, to a rack, fence or gate. A very simple and effectual preventive is coal oil. Apply it with a brush or rag, so as to saturate the wood, and they will not touch it as long as the smell or taste of the oil remains. Coal oil is quite offensive to all kinds of animals. When oiling harness add a little kerosene to the harness oil and it will prevent rats and mice or anything else from gnawing and chewing the leather.

Do you own a well-bred well-proportioned colt or filly, a foal of this year, 1912? If so, remember there are two splendid opportunities presented you to make that youngster very valuable, and this you can do at a trivial cost by entering it in the Los Angeles \$10,000 Futurity Stake and the Pleasanton, \$7,500 Futurity Stake. The conditions are advertised in this issue today for the last time, as entries in these splendid stakes will close next Monday, July 1st. You cannot afford to overlook these splendid offerings.

Everybody interested in trotting horses on the Pacific Coast is concerned in what the sons and daughters of The Bondsman are doing in the East. Fred Beachey, of the "Horse Review," writes as follows: "Camera, a rugged and good looking eight-year-old son of The Bondsman and Lilly McGregor (dam of four), by Robert McGregor 2:17½, owned by C. C. Hendrickson, of New York, joined the Hyde stable about three weeks ago. Last year Fred worked him in 2:10½, so that he should win some races later on. His best move thus far was a quarter in :31½ last week at the end of a slow mile.

The second race meeting of the Salinas Driving Club (season of 1912) will be held at the Salinas race track today, Saturday, June 29th. In the 2:35 pace, purse \$100, the following are the entries: Johnny Mac, Dandy, Mae N., and Lillie C. In the 2:25 trot, prize cup, G. Albert Mac, Salinas Girl, Dictatus S., Robert M., and Welcome Dan. In the 2:20, prize cup, Brunita, J. B. I., Dixie, Daisy R., Merry Widow and Elaine. In the 2:40 trot, purse \$100, the following are named: Lady Storm, Belle Neer, Claire Healey, Adje, The Kid, and Chas. Sumner. A splendid day's enjoyment is anticipated.

Orrin Carmen, formerly with Arlie Frost, at Phoenix, Ariz., arrived at Rocky Ford, Colo., from Flagstaff, Ariz., the other day, and will race through the Santa Fe Circuit, which opens at Las Animas, Colo. Carmen has with him Blanche (p) 2:06¾, by Menlow; Highland C. Jr., a four-year-old trotter by Highland C. 2:19¾; Dick, by Alco; Aegon Direct, by Direct View 2:08¾, and Miss Shucks, by Oh So 2:25¾, dam that good pacing mare Auntie Shucks 2:08¾. There is a lot of good racing material in this stable, owned by T. E. Pollock, of Flagstaff, and Carmen undoubtedly will be able to make a good showing through the circuit.

Havis James, while still limping and suffering from the recent painful injury to his leg, resumed work last Wednesday. He drove Joe Patchen II. (p) 2:17¾, accompanied by Merry Widow (p) 2:03¾, with Dick McMahan up, several sharp miles. The fastest were in 2:09¾ and 2:08¾. While the Widow was full of pace, Dick handled her easily, which indicates that the C. of C. candidate is in great form. Vernon McKinney (p) 2:02 has worked with a runner which Dick McMahan drove. He paced his best mile in 2:08¾, doing the first quarter in 29¾ seconds. The great pacer was worked in front and behind the runner, and acted perfectly.

A much-talked-of performance at the North Randall track last week was that of the two-year-old colt Belwin (1) 2:21¾, by McKinney 2:11¾. This young son of the premier sire of Empire City Farms, driven by W. J. Andrews, stepped a mile in 2:18, with the last end of it at a racehorse clip, and at no time did he appear to be extended at all. This is the fastest mile shown by a two-year-old trotter so far this season, and it may be taken as another indication that the get of McKinney are as capable of developing extreme speed in their colt form as are those of any other sire. From present indications, Belwin will be one of the principal factors in this season's events for trotters of his age.

The Estabrook stable is not in very good fettle this spring and they are not expecting much from it. Dorothy Axworthy (2) 2:21¾ and Soralta—formerly Lily W.—went lame and have been bred to Colorado E. 2:04¾. Gold Dollar 2:06¾ and the pacer Denver Jay, candidate for the Chamber of Commerce, are going suspiciously. Colorado E., C. The Limit (p) 2:04¾, Country Jay 2:07¾, Czarine (2) 2:19¾, Red Lock 2:17½, Countess (p) (3) 2:14¾, McKinney Mac (1) 2:27¾, the two-year-old Tulita, and the yearling Estrado, the first of the get of Colorado E., and the fast green trotter The Wanderer, that is intended to carry the Estabrook colors for the M. and M., are at Grand Rapids, Michigan, waiting for the bell to ring on the Grand Circuit on July 8th.

Next Tuesday, July 2d, Wm. Higginbottom will hold one of the largest sales of finely broke horses of all kinds, buggies, carriages, carts, wagons, harness, robes, whips, etc., ever held in this city. It is the absolute closing out sale of the Santa Clara Stables, one of the largest and finest establishments of its kind west of Chicago. The sale commences at 10 a. m. sharp, and the attention of all who are in need of sound, gentle city broke horses (to work double or single) or anything in the livery line that may be useful in a city or town or on a farm, is hereby called to this sale. Every vehicle and harness is less than four years old, and Mr. B. L. Marks is noted for the care he has always taken of everything in the place. See the advertisement in this issue and come and secure bargains. Everything must be sold; there are to be no reservations, hence buyers will get more than the full value for every dollar they pay.

A number of thoroughbreds will appear at the Santa Rosa race meeting.

The first question asked when one takes up a daily paper Monday morning is: "How many were killed by autos yesterday?"

Steel Arch, sire of Ethel Mc, 2:22½, winner of the 2:27 class trot at Seaforth, Canada, is inbred to the Guy Wilkes family. She is by Oro Wilkes 2:11, out of Deborah 2:21½, by Sable Wilkes 2:18 (sire of Oro Wilkes 2:11), son of Guy Wilkes 2:15¼.

A harness race meet will be among the features of the city Fourth of July sports. A programme of six races has been arranged to be held under the auspices of the San Francisco Driving Club, and valuable trophies will be given by the Fourth of July Celebration Committee.

The Pasadena Driving Club has ordered John A. McKerron to make two sets of his celebrated track harness. These are to be given as first prizes at their big matinee race meeting to be held next Thursday, July 4th. There will be great rivalry to win these sensible and useful gifts.

S. H. Burns, proprietor of the Santa Rosa race track, informs us that instead of a race being given for the 2:11 pacers, purse \$500, it has been changed to a 2:10 pace. As entries will close next Monday (July 1st) owners of horses eligible to start in this race will please take notice.

Yearling trotters are stepping like aeroplanes in Kentucky. Last week Maud Watts, by General Watts 2:06¾, dam by Prodigal, trotted a quarter in 35 seconds, and a bay colt by Prodigal 2:16, dam by Ashland Wilkes 2:17¾, did the distance in the same time. Two other yearlings by General Watts, dams by Adbell 2:23, and Arion 2:07¾, trotted quarters in 37 seconds. The brown filly Alma Forbes, by J. Malcolm Forbes (4) 2:08, dam Alma Vista 2:20½, she out of Eastmorn, dam of Justo 2:08¾, and Alceste 2:07¾, covered a quarter in 36¾ seconds, and Royal McKinney, a black filly by McKinney 2:11¾, out of Princess Royal (2) 2:20, was clocked a quarter in 37 seconds. These babies will be trotting miles better than 2:20 by the first of October if they stand the strain.

L. H. Todhunter's handsome Peter the Great yearling colt which Jas. Thompson and John Splan selected in Kentucky for him, arrived at Sacramento last week, and is the center of attraction there. Every horseman who has inspected him declares he is one of the finest proportioned individuals for his age he has seen, and if nothing happens he will be one of the best stallions ever brought to California. So well pleased with him was Robt. McMillan, of Christchurch, New Zealand, that on the following day he packed his suit case and said "Good-bye! I'm going to Kentucky to see if there are any more like him there. If there are, and the prices asked are not too high, you can look for some of them to accompany me to New Zealand. I expect to return to California in about six weeks with a few others besides those I buy which are sired by Peter the Great. I want to see Mr. Splan and may take a run up to Detroit to the races ere I return. I did not think I would go, but after talking with Jim Thompson and hearing about the 'boys' I knew in years gone by and seeing that colt, I determined to drop everything and go."

J. W. Thompson, in the Spirit of the West, writes: The Los Angeles, California, reinsman, Wm. G. Durfee, laid over a couple of days at Topeka with his campaigning string en route for Grand Rapids, Mich., his wife also being along with him, an enthusiastic admirer of the noble steeds. Don Pronto (p) 2:05½, the best four-year-old pacer out in 1911, by the Director General 3:178; dam Silurian 2:25½, dam of two, by Wilton 2:19¾; grandam Silhouette, dam of four, by Hambrino 2:21¾, is the candidate for the extreme speed battles of the year, and acts and looks fit to start in the 2:05 class, with Peter Second 2:04¾, C. The Limit 2:04¾, Ginger 2:05¾, etc., among them. Helen Stiles 2:08¾ occupies a similar place as a trotter, record last August at Woodland, Cal., sired by Sidney Dillon 2:157, dam Silver Haw by Silver Bow 1:1708. She is bred for extreme speed on both sides, and is hulked for it from the ground up. Maurice, brown three-year-old by Moko, dam Silurian, same as in Don Pronto above, is a stake entry for his age and a grand specimen of this kind, doing a half at two years in 1:03 and an eighth in 15 seconds. He is a daisy. Peter Fairbanks, chestnut three-year-old by Peter the Great 2:07¾, dam Wanty by Baron W. 1:7419, has been a half in 1:06 and a mile in 2:17 at the trot and is a rugged, racy looking youngster. Honey Healey is a four-year-old mare made right, by Zombro 2:11, out of the dam of Waldo J. (p) 2:09 by Bob Mason 1:4438, grandam by A. W. Richmond 1:687 that has worked a full mile in 2:10½ at the trot but not intended to be raced this year. It will do to wait to hear from her later. Carston 2:27 is a two-year-old with record taken this spring, sired by Carlok 2:08¾, dam Lady Vasco, by Vasco 1:0996, stout made, handsome, a card for his sire and a prospect for the track. The pace maker, a thoroughbred all-rounder, a mare on the way to Axworthy, and a two-year-old getting experience, fill out the complement, with the retinue of caretakers and equipment galore, filling a large express car, in which the horses are conveyed.

BOOKMAKING KILLED IN MARYLAND.

The Racing Commission of Baltimore county, Md., which was brought into existence through a law adopted by the legislature of that State last winter, has promulgated a decision which decrees the extinction of all bookmaking at the race tracks in that county after the present season. In place of the books, all the betting will be done under the Pari-Mutual system after December 31st next, as after a careful investigation of the subject the commissioners have reached a conclusion that that method is the fairest, both in the interest of the sport and the race-goers. This decision will undoubtedly meet with the approval of every friend of racing who has observed the trend of the sport during recent years under the operation of the bookmaking system. Whatever may be claimed in justification of that method of speculation, it is an undeniable and a significant fact that wherever it has prevailed it has entailed disaster by arousing incensed public sentiment which has resulted in legislation antagonistic to race track betting of all kinds. There is now hardly a State in the Union in which race track speculation is not prohibited, and it is safe to say that a large share of the responsibility for this condition is due to the bookmakers at the running courses. We do not share the opinion of some extremists who hold that the popular prejudice against bookmaking is due to the moral obliquity of the system of unscrupulousness on the part of those who make the odds. No doubt there has been some manifestation of this propensity at times, but to a far larger degree the objection to the hookmaker is the facility he offers to betting through the temptation of his odds. Bookmaking encourages too much betting and causes bettors to risk more than they can afford, to such an extent that it becomes a demoralizing influence and must be stamped out. As is always the case in such a situation, public sentiment makes no fine discrimination as to the methods of betting. It finds all betting pernicious because bookmaking is pernicious, and the comparatively innocuous system of the Pari-mutuals, or the scarcely more reprehensible method of auction pools, have no chance to vindicate their claims to consideration, says the Trotter and Pacer.

The action of the racing commissioners of Baltimore will undoubtedly have the effect to save and perpetuate the sport in that community by keeping the speculative feature properly unobtrusive and subdued. Racing was unquestionably saved to Kentucky by this resort, and it could have been preserved to New York but for the greed of the promoters of the running tracks who chose to wax fat upon the profits of the bookmaker, heedless of the fact that they were rushing to destruction, rather than endure a little sacrifice for the welfare and perpetuation of the sport.

FOURTH OF JULY RACING AT RIVERSIDE.

When the bell taps to call up the horses for the first race at the Fourth of July matinee races under the auspices of the Riverside Driving Club, there will be in the stables and on the track the best string of pacers and trotters ever brought to Riverside and the lovers of this sport are promised some fine going.

This morning G. H. Judd, the well known horseman of this city, went to Santa Ana to secure entries for the Fourth of July events and the association is assured of seven flyers from that city.

One of the greatest races ever witnessed on the Riverside track will be the free-for-all in which On Con and Gold Nut will be entered. Gold Nut defeated On Con here at the recent matinee and On Con turned the trick on Gold Nut at Santa Ana. Because of the rivalry between these two horses there is considerable interest manifested in the outcome of the race here on July 4th.

It is believed the attendance at the races on the Fourth will be a record breaker. The race committee is working on a program that will be the most attractive of all matinee events here. Many new features will be introduced, one of which will be a running race if the committee is able to get together a string of runners.—Daily Press, Riverside.

THE 1911 YEARBOOK.

The eighteenth volume of the Yearbook (1911) has just been issued by the United States Department of Agriculture. In appearance and make-up it differs but little from its predecessors. It contains 31 articles, 67 full-page illustrations, of which nine are colored, and 20 text figures. The 354 pages present data upon many of the important questions now occupying the attention of agriculturists, topics equally vital to the agricultural and urban population, both as producers and consumers of the food-stuffs of the nation. The larger part of the edition is reserved by Congress for distribution by Senators and Representatives, to whom requests for copies should be made.

The grandstand at the Pleasanton Driving Park is in the hands of the painters. When finished it will be white inside and out, but the shingle roof will be a pale green. The half-mile race track in the infield is being made and when completed will be used by Mr. MacKenzie's thoroughbreds. The greatest work at this place will be started immediately after the race meeting ends next month.

Drink Jackson's Napa Soda.

BREEZY LETTER FROM FRESNO.

June 19, 1912.

Editor Breeder and Sportsman:

We are all busy picking out what we think we have a chance to win with this year. Of course, there is always something to crop up at the last minute to upset our plans and make us feel that there is considerable of a lottery in this game, and the ones we select often prove blanks, while those we did not think so much of astonish and surprise us when the bell in the judges' stand rings. The excitement connected with big fields seems to have a marvelous effect upon these "second raters," and they go on and win and demonstrate their worth. Have you ever noticed it?

This is the season of the year when owners and trainers who intend to race their horses pack up all their paraphernalia, lead their trotters and pacers to the cars and ship them to the first track where the horses are to compete. Our good friend and enthusiastic horseman Mr. D. L. Bachant has taken that iron horse" Adam G. to Pleasanton, with him he is taking a very promising three-year-old by his good campaigner Athasham. Adam G. is trotting now and can reel off miles in 2:17 as easily as if he had never achieved a reputation as a "side wheeler." The last part of his miles he can show a two-minute clip. What a horse he is! Not a windfall or pimple on him and when called upon I never saw a horse that really loves to do his best as he does. The three-year-old has worked a half in 1:07 1/4 very nicely.

I have a two-year-old pacer by Athasham that can step a little. The best mile I have asked her to go was 2:35, and an eighth in 16 seconds—a 2:08 gait. In my stable there is also a three-year-old pacer by Kinneysham that looks to me as if he had a fighting chance for some of the money this year. A mile in 2:18, a half in 1:05 1/4, last eighth in 15 seconds, was easily accomplished. Mr. Warlow, his owner, has not been out to the track to see him work this season. I have two green pacers, one by Diablo 2:09 1/4, the other by that good standby Athadon 2:27. They are both very fair and can reel off miles in 2:13 1/4, but I have refrained from calling on them to do any better. It's a little early yet and the weather has been very warm; when they get a little more "hardening" work I think I will have two pretty fair "side-wheelers." Quarters in 30 seconds can be made by either of them.

I have a trotter belonging to Eddie Nathan, of Fowler, that is a very likely "prospect." A mile in 2:20 and a half in 1:06 has been as fast as I have driven her. In adjoining stalls I have two two-year-olds,—one by Stanford McKinney, the other by Athasham. They are very promising colts. Besides these, I have a three-year-old by Tom Smith 2:13 1/4, although not a stake colt, he is a very promising trotter and is owned by Lee West, of this city.

Mr. Charley Clark has some in his string that will make the railbirds sit up and twitter when he comes down the homestretch. I believe he has some that will cause everybody in the grandstand to "stand up and take notice"; one, in particular, a remarkably handsome chestnut mare owned by Charley Switzer, the harness maker here. She is just four years old and was sired by Stamboulette 2:10 1/4 (the gamest of all the Stambou tribe), out of a mare by that pure gaited trotting stallion Strathway 2:19. This little, perfectly formed, pure gaited miss can simply fly, a half in 1:03 is within her reach at any time, with the last eighth in 14 1/2 seconds. It doesn't look possible, but it is a fact, nevertheless. A mark of 2:03 or better will be affixed to her name if no accident happen her. She is the principal attraction in the racing game in the San Joaquin Valley, and there's no "hot air" simmering about this statement. She will be able to turn a half in 1:01 by the time the Fresno race meeting is in progress. Mr. Clark has a black trotting horse by Stanford McKinney that will be knocking for entrance to the 2:10 circle this year and, if extreme speed and gameness is any recommendation, he will be allowed to enter. A mile in 2:14 with his last year's preparation ought to fit him for the 2:10 list, and he is one of the improving kind, too. This horse is owned by Mr. Woy, who has a right to be very proud of him, even though he has several others that will pay him to train.

Mr. Jake Broliar arrived here the other day with two nice ones that will be seen in front in races this year. One is by Zolcek 2:05 1/4, and the other is by R. O. Newman's grandly bred trotting stallion Best Policy. This last one is only a two-year-old.

Mr. Zibble has eight head in his stable, all by Mrs. Frank H. Burke's good stallion Tom Smith 2:13 1/4. They can show a lot of speed for the work they have had. This work has been limited, however, for Mr. Zibble was very late in getting to the track because he was detained in the East longer than anticipated when he left here. These colts will be coming along fast from this time on, and as Mr. Zibble always manages to have a Futurity winner he will not abandon the habit in 1912.

Messrs. Clark, Zibble, Broliar and I will leave here this summer, some will go to Pleasanton to put on the finishing touches to the horses among the other fast ones there.

The Fresno Fair Directors are busy framing up a good fair—the best ever held here. They will have this track lightning fast, plenty of green grass and acres of room for the show stock. Hoping to see all the horsemen and their friends who read your invaluable publication there, I am, Yours truly,

S. C. W.

CALIFORNIA STATE AGRICULTURAL SOCIETY.

The following made entries in the Stanford Stake for 1914:

Frank E. Alley's Bonniola, by Bonaday—Addiola Mack; Douglas O., by Bonaday—Bettie G.; Bonboret, by Bonaday—Maud Stambouret; Princess Bonaday, by Bonaday—Oniska; Bon Diablo, by Bonaday—Diavola L.; Bon Cupide, by Bonaday—Diona A.; Bonnie June, by Bonaday—Fortuna G. W.; Valeen M., by Bonaday—Diabella C. D. L. Bachant's Athlee, by Athasham—Corrine Neilson.

S. C. Walton's Walton Hall, by Black Hall—Narcola.

Geo. L. Warlow's Moto, by Nogi—Donnagene; Wick Hall, by Black Hall—Cora Wickersham; Edith Hall, by Black Hall—Solette; Alice Hall, by Black Hall—Strathalie.

Jay Wheeler's Carrel, by Gerald G.—Leona Wilkes.

J. W. Zibbell's not named, by Tom Smith—Kate Lumry; not named, by Tom Smith—Nona Washington.

REPORT OF OREGON STATE STALLION BOARD.

That 1,238 applications for licenses under the new State stallion registration law have been received during the first year of the State Stallion Registration Board of Oregon, just completed with the first annual business meeting at the Oregon Agricultural College, has been reported by the secretary, Prof. E. L. Potter, of the Animal Husbandry Department. The affairs of the board are in a prosperous condition, the treasury containing more than \$4,000. A detailed statement of the work of the year is to be published, for general distribution, including a list of all licensed horses, and work is also to be commenced at once upon a finely illustrated 100-page bulletin on raising horses and mules, also for free distribution. The board is composed of President J. H. Booth, Roseburg, of the State Board of Agriculture; State Veterinarian J. F. Morel, Portland; Dr. James Withycombe, director of the Oregon Agricultural College Experiment Station, and Professor E. L. Potter, secretary.

SACRAMENTO MATINEE POSTPONED.

Showers last Sunday resulted in a postponement of the Sacramento Driving Club's racing program at the State Fair grounds, which was to have been given for the benefit of the Merciful Savior Home for Invalid Children.

The program as arranged will be given tomorrow (Sunday) afternoon, and the many horses brought from various parts of the State will be quartered at the track until the races are called. A large number of tickets have been sold, and there is no doubt that a big attendance will be present. Although there was considerable disappointment among the local and visiting horsemen over the postponement of the program, it is not believed that the races will be curtailed on account of the week's delay.

Drink Jackson's Napa Soda.

RECLASSIFICATION IS A NECESSITY.

Hanford, Cal., June 17, 1912.

Editor Breeder and Sportsman:

As the advertising is out for most of the race meetings to be held in 1912, it is time for horse owners to consider their chances of winning. To one who is an amateur and never owned a real winner, there is one thing that is very evident, that is, the horse that earns expenses on the Pacific Coast Circuit this year will have to be of Grand Circuit caliber. The trotter that earns expenses will have to be capable of going three miles in 2:10 or better, and the pacer in 2:07 or better. The balance, or at least three-fourths of the ones entered, will be a losing proposition for their owners.

Now, this does not seem like a fair deal for the owner. There is no way he can figure it as a business proposition. It is simply a gambler's chance. If he should be so fortunate as to own one of the four or five which prove to be winners, then he will make some money; but if he has a good game race horse capable of trotting say three miles in 2:13 to 2:15 he will be loser, unless something very unforeseen happens. And as the majority of those entered will prove to be good for three heats in from 2:15 to 2:20, they will start probably once or twice, then be shipped home and another owner hung up for a batch of entry fees.

I cannot understand why our associations do not arrange the classes and have the entries close so as to bar the real fast horses from the slower classes after they have taken their fast records and won. Let them race against those horses with speed near their own, then races would not be like processions.

A bunch of six or eight horses equally matched for speed contesting in real race-horse style for a few hundred dollars would undoubtedly be more interesting to the spectators than the usual procession for a thousand-dollar purse. And if the horses were reclassified every two weeks through the entire circuit, then the owner would have a reasonable assurance that at some place on the circuit there would come a time that his horse (even if it could not beat 2:20) would be pitted against others of its own caliber. The real fast horse under such conditions would probably not earn so much; but it would always earn expenses and you would not see a different list of names for owners each year. Under existing conditions an owner, unless he is wealthy to begin with, can go broke several times before he gets one of the winners.

There are any number of good horses on the coast which are capable of putting up a good interesting race, but have no chance whatever racing against a King Brook, Bernice R, Teddy Bear or Don Pronto, hence the owners are playing a losing game when they spend their money paying training fees as well as entrance fees. Now, if there was some method for these horses to earn expenses, there would be many more horses in training, and in the races there would be a dozen starters where there are only four or five now. The racing then would be for first place, instead of for third and fourth, as it usually is on this circuit. The greatest benefit of such a change would be that you would not see the horses capable of racing in from 2:15 to 2:20 selling at public auction for less money than it cost to train them.

Now, I believe that if the trainers and owners would make a united protest to the associations, a change could be secured by another year. I believe the associations could do nothing more beneficial to themselves as well as to the owners and trainers than to adopt such a method. They could arrange all this at their meeting when dates are allowed.

A READER.

A SUGGESTION FOR TRAINERS.

Trainers as a rule are not in haste to try any innovations either in methods or equipment. Everyone remembers how aloof they were when the first low-wheeled, pneumatic-tired sulky was shown them, and until Ed. Geers looked it over and tried it in an experimental way on a horse in his stable—the experiment, it may be stated, was eminently successful—none of them wanted to ride in it. The Buffalo trainer, W. J. Andrews, has never been averse, however, to giving any new idea a trial that looks reasonable to him. He has adopted methods of feeding his horses which are regarded with suspicion by other trainers, but it must be admitted that the new methods have worked all right with him. The latest innovation to get a trial in the Buffalo trainer's stable is the result of his endeavor to make the going easier for his charges. He is using an aluminum pad between the shoe and the hoof instead of leather, as is the general custom, says Raymond in the Horse World. The object is to stop the sting which occurs when a horse is worked at full speed. This, of course, occurs much more often when a track is hard than at other times, but is always somewhat apparent, many horses being unable to stand the strain of training for that reason. After a fast mile, the shoes of many horses are so hot that they can hardly be touched. The aluminum pad also lessens this heating of the shoe, and it is more than possible that the aluminum pad will come into universal use. While the general idea is not new, it is the first time that aluminum has been used for the purpose. Silk, felt and leather are used as pads by many trainers, while a paper pad has been tried with good results. The result of Mr. Andrews' experiments with aluminum will be awaited with considerable interest by trainers who are on the lookout for aids to keep their horses' feet right.

THE COWBOYS OF AMERICA.

A few words about this horse—the horse of the plains. Whether or no his forefathers looked on when Montezuma fell, they certainly hailed from Spain. And whether it was missionaries or thieves who carried them northward from Mexico, until the Sioux heard of the new animal, certain it also is that this pony ran wild for a century or two, either alone or with various red-skinned owners; as he gathered the sundry experiences of war and peace, of being stolen, and of being ridden by two women and a baby at once, and of being eaten by a bear, his wide range of contempts brought him a wit sharper than the street Arah's and an attitude towards life more blase than in the united capitals of Europe.

I have frequently caught him watching me with an eye of such sardonic depreciation that I felt it quite vain to attempt any hiding from him of my incompetence; and as for surprising him, a locomotive cannot do it, for I have tried this. He relishes putting a man in absurd postures, and will wait many days in patience to compass this uncharitable thing; and when he cannot bring a man to derision, he contents himself with a steer or buffalo, helping the man to rope and throw these animals with an ingenuity surpassing any circus, to my thinking. A number of delighted passengers on the Kansas Pacific Railway passed by a Mexican vaquero, who had been sent out from Kansas City to rope a buffalo as an advertisement for the stock yards.

The train stopped to take a look at the solitary horseman fast to a buffalo in the midst of the plains. Jose, who had his hull safely roped, shouted to ask if they had water on the train. "We'll bring you some," said they. "Oh, I come get," said he; and jumping off, he left his accomplished pony in sole charge of the buffalo. Whenever the huge beast struggled for freedom, the clever pony stiffened his legs and leaned back as in a tug of war, by jumps and dodges so anticipating each move of the enemy that escape was entirely hopeless. The hoy got his drink, and his employer sent out a car for the buffalo, which was taken in triumph into Kansas City behind the passenger train. The Mexican narrated the exploit to his employer thus: "Oh, Shirley, when the train start they all give three great big cheers for me, and then give three mucha bigger cheers for the little gray hoss!"

The cowpuncher's playground in those first glorious days of his prosperity included hattle and murder and sudden death as every-day matters. From 1865 to 1878 in Texas he fought his way with knife and gun, and any hour of the 24 might see him flattened behind the rocks among the whizz of bullets and the flight of arrows, or dragged bloody and folded together from some adobe hovel. Seventy-five dollars a month and absolute health and strength were his wages; and when the news of his excellence drifted from Texas eastward, they came in shoals—Saxon hoyes of picked courage (none but plucky ones could survive) from South and North, from town and country. Every sort and degree of home tradition came with them from their far birth-places.

Some had known the evening hymn at one time, others could remember no parent or teacher earlier than the street; some spoke with the gentle accent of Virginia, others in the dialect of haked heans and codfish; here and there was the haccalaureate, already beginning to forget his Greek alphabet, but still able to repeat the two notable words with which Xenophon always marches upon the next stage of his journey. Hither to the cattle country they flocked from 40 kinds of home, each bringing a deadly weapon.

The cowpuncher's legs must be fended from the thorny miles of the Rio Grande—the thousand mongrel shrubs that lace their hristles together stiff over the country—the mesquite, the shin-oak, the cats claw, the Spanish-dagger; wide-spreading from six inches to ten feet high, every vegetable vicious with an embroidery of teeth and nails; a continent of peevish thicket called chaparral, as we indiscriminately call a dog with too many sorts of grandfathers a cur. Into this sawmill dives the wild steer, through paths and passages known to himself, and after him the pursuing man must also dive at a rate that would tear his flesh to ribbons if the blades and points could get hold of him.

But he cases his legs against the hostile chaparral from thigh to ankle in chaps—leathern breeches, next door to armor; his daily bread is scarcely more needful to him. Soon his harbaric pleasure in finery sews tough leather fringes along their sides, and the leather flap of the pocket becomes stamped with a heavy rose. Sagging in slant upon his hips leans his leather belt of cartridges buckled with jaunty arrogance, and though he uses his pistol with murderous skill, it is pretty, with ivory or mother-of-pearl for a handle. His arm must be loose to swing his looped rope free and drop its noose over the next of the animal that hounds in front of his rushing pony. Therefore, he rides in loose flannel shirt, that will not cramp him as he whirls the coils; but the handkerchief knotted at his throat, though it is there to prevent sunburn, will in time of prosperity be chosen for its color and soft texture, a scarf to draw the eye of woman.

His heavy, splendid saddle is, in its shape and luxury of straps and leather thongs, the completest instrument for night and day travel, and the freighting along with you of board and lodging, that any nomad has so far devised. With its trappings and stamped leather, its horn and high cantle, we are

well acquainted. It must stand the strain of 800 sudden pounds of live beef tearing at it for freedom; it must be the anchor that shall not drag during the furious rages of such a typhoon. For the cattle of the wilderness have often run wild for three, four and five years, through rocks and forests, never seeing the face of man from the day when, as little calves, they were branded. And some were never branded at all. They have grown up in company with the deer, and like the deer they fly at the approach of the horseman. Then, if he has ridden out to gather these waifs from their remote untenanted pastures and bring them in to be counted and driven to sale, he must abandon himself to the headlong pursuit.

The open, easy plain, with its harmless footing lies behind; the steep valley narrows up to an entering wedge among the rocks, and into these untoward regions rush the beeves. The shale and detritus of shelving landslides, the slippery knobs in the beds of brooks, the uncertain edges of the jumping off place, all lie in the road of the day's necessity, and where the steer goes, goes the cowpuncher too—balancing, swaying, doubling upon his sward pony. The noose uncoiling flies swinging through the air and closes round the throat—or perhaps only the hind leg—of the quarry.

In the shock of stopping short or of leaning to circle, the rider's stirrups must be long, and his seat a forked pliant poise on the horse's back; no grip of the knees will answer in these contortions; his leg must have its straight length, a level of muscle and sinew, to yield or close vice-like on the pony's ribs; and when the steer feels that he is taken, and the rope tightens from the saddle-horn, then must the gearing be solid, else, like a fisherman floundering with snapped rod and tangle line, the cowpuncher will have misfortunes to repair and nothing to repair them with.—Owen Wister in Harper's Monthly.

FOUR DAYS FAIR FOR PLEASANTON.

Announcement is made this week that the Alameda County Fair Association, of which Pleasanton is to be the choice of a location for fair exhibition purposes, is to hold a four or five days' fair, shortly after the state event at Sacramento. The association has been fostered by E. E. Hall of the Hall Warehouse company of this place, and numbers among its directors and stockholders many of the most prominent men of the eastern end of Alameda county. The association was formed for the express purpose of exploiting the advantages and the produce of this part of the county, or rather the district situate east of the immediate hay section, and which produces practically all of the agricultural exhibits now being used by the county as arguments for the better points of this territory. During the fair planned to be held there will be the usual premiums offered for all sorts of farm produce and livestock, for fancy work, for poultry and other articles usually selected by judges on which to place prizes.

Harness racing will also be a feature of the occasion, and as by the time that the fair is held most of the fast racing stock that winters here will be home, this part of the week's program may be looked forward to with more than the usual interest.

The association is capitalized for \$10,000 and has already received a charter of incorporation from the state. There are 100 shares of \$100 each, a greater part of which have already been sold or contracted for. Shareholders from various parts of this end of the county assure the interest of all the agricultural section in the association. A list of the directors and shareholders, as furnished by Mr. Hall, appears below:

Directors—W. J. Dakin, H. P. Mohr, E. E. Hall, Pleasanton; F. R. Fassett, Wm. McDonald, Livermore; Wm. Bond, Newark.

Stockholders—C. H. Wente, Livermore; N. S. Boone, San Ramon; Man. Hirsch, Cetrerville; F. Stenzel, San Lorenzo; I. B. Parsons, Hayward; R. J. MacKenzie, C. L. Crellin, S. S. Bailey, J. S. Barros, Jas. Sutherland, Jas Cruickshank, W. J. Martin, H. Reimers, J. A. Philpot, W. T. McBride, S. W. Elliott, C. H. Schween, W. F. Schween, W. A. H. Koopman, T. H. Silva, L. J. Garloff, H. H. Jorgensen, F. W. Chadbourne, C. A. Gale, Ahe P. Leach, Martin Koopman, J. M. de Freitas Jr., Pleasanton; W. W. Hirsch, Henry Lachman, J. F. Chadbourne, Irvington; F. A. Gantadier, W. B. Cushing, Pleasanton; Theo. Gier, Oakland; F. H. Daniels, Alameda; F. C. Winton, San Lorenzo; Wm. Bond, Newark; M. V. Perry, Irvington.—Pleasanton Times.

NO HORSE OWNER

Should fail to send his name to the Reducine Co., 4181 Broadway, New York, for a copy of their new booklet. We have examined this booklet and can say that it is a really valuable work. It is different, in many ways, from anything ever before published. This booklet contains a fund of information on many subjects. The illustrations are superior to anything ever before printed on the subjects treated in the text. The chapters on Shoeing; the Treatment and Care of Stallions; the Use and Misuse of Bandages, Checks and Bits; Stalls and Stables, etc., not to speak of the many pages devoted to different kinds of lameness; Tests to Locate Obscure Lameness, are all intensely practical and will appeal to the owner of any kind of horses. This booklet, while it will appeal to the professional horseman, will be more valuable to the amateur. It is not alone a work for the owners of fast horses, but it treats of all sorts of work horses at the same time. Every owner of horses will not be alive to his own interests if he fails to send for a free copy. We urge every one of our readers to do this, for their own good, whether they own a lame horse or not. We can assure you that the booklet will interest you, and we are certain you will reserve it for future reference.

LETTER FROM CALGARY.

Calgary, Canada, June 17, 1912.

Editor Breeder and Sportsman:

We get the Breeder every week and it seems good to get the home news. It is also appreciated by the horsemen.

Calgary has quite a plant here. The track has been resoled this year, and now there is a move on foot to build an excellent mile track that will compare with some of California's best mile tracks.

The grounds are very nice. The grandstand is not only a whopper, but is neat and substantial. They have a \$50,000 horse show building, about a \$20,000 dog show house and other things in proportion. Box stalls to accommodate about 200 horses are erected and more are building, and even then it looks as if stall room will be at a premium.

Mr. Geo. Haag, of General H. 2:04½ fame, has a large stable here and will campaign The Earl Jr. 2:02½ and a few more good ones through Canada and then down the Coast Circuit through California to Phoenix. He is "hoss" all over, and a good fellow, too.

Johnny Powell is the other big trainer here and has some extra fine ones in his string. When a fellow expects to go to Canada, from now on, for easy money, I would advise him to bring plenty of change with him. I heard an amateur make a remark after a matinee here a few days ago: "It is no use to have two-minute speed, for when you get one going his hest, some fellow will come up and whizz right past you."

All the California horses are doing very well. Hal McKinney 2:06¼ lost his first race, but won the next three starts. They made him step a slow half-mile ring in 2:09¼ at Prince Albert the other day, but he was "there with the goods." Auto Zomhro has won every start, but has not had to stretch himself yet. Stewart's horses from Los Angeles are looking and doing fine. The green trotting mare Monica McKinney was showing lots of class but is affected by the climate some.

Lou Childs is expected from Spokane this week. Also Joe McGuire, Bob Sebastian and several more are slated to arrive in a few days.

This is a great country for sport. It is now 8:30 p. m. and there is a baseball game going on in the infield with about 2000 paid spectators and this is the second game since noon. The days are extremely long. The sun sets about 9 o'clock and it is light enough to read until 10 o'clock.

Will try and send you an early report of the races here.

Yours for success,

A SUBSCRIBER.

HORSES REMAIN AT SACRAMENTO.

With over fifty horses working out at the State Fair track this week, local horsemen will have a small sized State Fair week all to themselves for the next six days. For all of the horses entered on yesterday's postponed program of the Sacramento Driving Club will remain here until the race meet is held next Sunday afternoon. The expense of keeping the horses here will not be met by the sale of tickets next Sunday—the executive committee of the local club has decided to levy an assessment on club members to meet this expense in order that the receipts of the ticket sale may be left free for the aid of the Home of the Merciful Savior.

Yesterday the local club had prepared a large quantity of sandwiches and other refreshments for the drivers and these were turned over to the local orphans and children's homes. Thus the youngsters profited in some measure by the good will of the driving club, even though the had weather necessitated the postponement of the races.—Sacramento Union, June 23d.

GOLDSMITH MAID DID NOT SKIP.

Hemet, Cal., June 24, 1912.

Editor Breeder and Sportsman:

In your issue of June 22d I notice you class Goldsmith Maid with the handy horses of the past when the races were mixed. I beg to call your attention to the fact that in all of Goldsmith Maid's fastest miles, both against time and horses, she never made a skip.

Sincerely yours,

BUDD DOBLE.

ABSORBINE, "THE ANTISEPTIC LINIMENT."

Promptly reduces Bog Spavin, Thoroughpin, Wind Puff, Bowed Tendons, Capped Hock, Shoe Boil, Curb, Splint, Big Knee, Fistula, etc. It is a mild and pleasant remedy to use—does not stain or leave a greasy residue. It is soothing, cooling, healing and powerfully penetrating—a true discutient and resolvent liniment; strengthening and invigorating to tired, lame muscles or tendons. ABSORBINE at regular dealers, price \$2.00 a bottle or sent express prepaid, with full instructions. Write for free book, giving detailed instructions. W. F. YOUNG, P. D. F., 54 Temple St., Springfield, Mass.

Peoria, Ill., June 17, 1909.

G. S. Ellis & Son, Cincinnati, Ohio: Gentlemen: I have used your Ellis Improved Hutton Patent Checking Devices for the past 12 years on many of my best horses and could not well keep house without them. I have also given all similar bits and checks a thorough trial and consider the Hutton the simplest, most practical and humane device ever offered to horsemen and far superior to any other checking device that I have ever seen or used.

With kindest regards, and wishing you success, I remain,
Yours truly,
E. F. GEERS.

OUR SAN JOSE LETTER.

June 28, 1912.

ditor Breeder and Sportsman:

All the horses in training at this track seem to be doing well, and those that are to race are about ready to hear the bell. While there has been no sensational speed shown, there are several that have worked miles well within themselves in time ranging from 2:11 to 2:15, the fastest mile being to the credit of the big pacing mare, Fanny Easter, by Arner, 2:17½. Chas. McCarthy's three-year-old trotter, Geo. Hammett, by Nutwood Wilkes, worked a mile last Saturday in 2:17½, last half in 1:07¼, and the last fifty yards very fast. Harry Brown's three-year-old filly, by Alconda Jay, worked a mile in 2:19. "Pop" Durfee has three trotters, one three-year-old and two two-year-olds, by Carolkin, 2:07½, and a two-year-old pacing filly, by Copa de Oro, 1:59, that his son Will shipped to him when he left Los Angeles for the east. The black two-year-old Carlos will make a very fast trotter some day, and Copa de Oro's little daughter is a real pacer, worthy her famous sire.

Jack Villar is training that splendid son of Kinney Lou's, Prince Del Monte (4), 2:11½, trial 2:18, and he is conceded to be one of the very best "prospects" for a great trotter at this track. He is also the grandest bred son of his sire, as well as the handsomest, and is owned by A. J. Clunie of Palo Alto. When Ted Hayes dropped in here the other day he purchased the most perfectly made, handsomest and best bred baby trotter from Chas. McCarthy that ever stepped his little feet on the soil of this place in the Bon McKinney colt, out of School Bell 2:16½, by Prodigal 2:16. Ted knows a good thing when he sees it, sometimes, and some other people never do. If I had been "heeled" no man from Los Angeles or elsewhere would have put that colt on the cars. T. W. Barstow had some more hard luck recently. One day last week he was working a two-year-old full brother to The Demon (2) 2:29½ (three-year-old trial 2:16), and while scraping the colt out after a heat the youngster suddenly dropped to the ground, and after a short struggle, was as "dead as a door nail." Cause—thought to be heart trouble. Mr. Barstow considered this the best youngster he ever raised and naturally feels his death a severe loss, but there is no misfortune so bad that it might not have been worse. Suppose, Theodore, that you had trained this colt a couple of years longer, and one fine day you worked him a mile in 2:08½, or thereabouts, and then he should keep over dead. Wouldn't that be a great deal worse?

The Demon is working well, and there is no nicer trotter. His three-year-old sister is also a nice trotter and has been better than 2:30. Hal the colt that died lived, their dam would have had three in the list this year. She is by Iran Alto 2:12¼, dam Rose McKinney, by McKinney, and is destined to be a great brood mare.

At last we have a first-class trotting horseshoer, a man of natural mechanical ability, one who learned his trade from serving an apprenticeship under the best trotting horseshoers in America, "Dan" Watkins is an eastern man, who recently came to California and has located here, and his coming has been a boon to us all. The improvement that has already been made in the gait and speed of quite a number of the horses here through his knowledge of the art of shoeing to balance and correct the faulty action of the trotter and pacer is remarkable. The shoeing of the trotting and pacing race horse of today has become an art, and the high-class shoer of the harness race horse is an artist, and just as great a one in his line as is the painter or sculptor who has won world-wide fame. There are many men who consider themselves trotting horseshoers because they have shod trotting horses, or rather they have shod at them, but in reality they are the merest bunglers. They couldn't level a horse's foot to save their lives, and couldn't shape two feet alike if they were to be hung, and if you paid them \$100 they couldn't make a shoe to fit the foot; in fact, they haven't the slightest conception of what kind of a shoe is needed to correct a family gait; still, they will unhesitatingly undertake to shoe your trotter if you will let them and ruin him in the attempt if you don't look out.

Horseshoers have done more toward reducing the trotting and pacing record from 2:20 to 2:00 and under than has the breeder or the trainer. When Budd Dohle obtained the world's record with Dexter 2:17½, and later with the wonderful old mare Goldsmith Maid 2:14, what he knew about shoeing a trotting horse would make a mighty small hook. Do you suppose if he had these two great trotters today he would send the groom to the blacksmith shop with them with instructions to tell the smithy to "shoe them?" I guess not. He would go along, put on his glasses, sit on a stool, and, after telling, not the "smithy" but the artist of today what he wanted, watch every move he made until the job was complete. With the advantage of being properly shod, how fast would the famous old white-legged Dexter trot if on earth today and in his prime? Ask Budd Dohle what he thinks about it. And from what I have read and been told of the Maid's way of going she needed halancing. Do you believe that Budd Dohle thinks there has been foaled since her day a faster or greater trotter than that grand old mare? I don't. Of course, improved tracks, sulks, etc., have played their part in the greatly increased speed of the trotter and pacer of the present over those of 40 years ago, but the horseshoer has played a

greater part than any other one thing. Mr. Watkins has been down the "big line" and shod many of the greatest performers of recent years, and his knowledge has been gained from actual experience and observation, and not mere guess work. Mr. Watkins is enchanted with the Golden State and intends to make the California circuit with the boys this summer, and there is no doubt his services will be in high demand.

San Jose's most popular dentist, Dr. Nash, former owner of the good race horse pacer Happy Dentist 2:05½, met with a most fortunate accident last Sunday afternoon while automobiling in his new high-power machine on the Monterey road. When passing the Driving Park at a fairly good rate of speed, something less than a mile a minute, several other automobiles got bunched in front of him, which necessitated his making rather an abrupt turn to one side to avoid a collision. His machine skidded, struck a culvert, became unmanageable, headed for the other side of the road, jumped a ten-foot embankment, and landed right side up with the doctor sitting safely and comfortably in his seat, with his hands on the steering wheel, but his ride was ended and his machine a candidate for the repair shop. Had the machine went over the bank at a little different angle there can he no doubt it would have capsized and rolled over, and it is dollars to doughnuts that the doctor would now be playing on a golden harp in that land of eternal love and song instead of making golden molars in the land by the Golden Gate. The doctor says, "Happy" never did anything like that. Horse vs. Automobile.

C. C. C.

MATINEE AT INDEPENDENCE, OREGON.

Independence, Ore., June 23, 1912.

Independence Driving Club gave their annual meet over its half-mile track, starting June 19th and closing June 22d. On account of rain Thursday's races were called off. The weather cleared and left Friday and Saturday with a dry track. Starter, W. W. Rowell; judges, J. C. Bohannon and J. H. Johnson.

Wednesday, June 19th, two races were started, the 2:15 pace, \$150 purse, also the two-year-olds, \$100 purse. The 2:15 pace was won by Mack N. This race went five heats. The two-year-old race was won by Patch McKay.

Friday brought out the 2:25 pace, \$150 purse. Aldine won this race. The 2:20 trot on Friday went five heats and was a good race, being won by Dolly McKinney.

Saturday was Red Letter Day, the track record being lowered from 1:06¼ to 1:05¼, this being done in the third heat of the free-for-all by Hal Gray. The 2:15 trot on Saturday brought out a fine field of trotters. After going five heats, Wild Girl took first money; Lady Malcolm and Lady Dillon made Wild Girl step this heat in 1:09½. From the way Wild Girl performed at Independence, she should be in the 2:10 list before long. She is by Wild Nutting, and is owned by Mr. Kite, of Perrydale. If nothing happens to this mare she will be heard from later. She is a square trotter, having a very good head.

The free-for-all was a hard-fought race. Chiquito, by Diabolo, a California product, took the first heat, the second going to Hal Gray. In the third heat Chiquito went to a break in the backstretch, and before Mr. Statts could get him on his feet again he lost his balance and fell. Mr. Todd, driving Bonnie Antrim, also was dislodged from his sulky. Neither of the horses nor drivers were hurt, as they all came up for the next heat.

The three-eighths mile dash was won by Mike Krebs, Copenia second, Ada Jones third, Proctor fourth. Time 1:08¼. Three-quarter mile run, Arthur Hymen first, Lazelle second, St. Salvinia third. Time 1:18.

Mr. J. H. Johnson, one of the judges, was for twenty-five years secretary and manager of the fair and racing association at Bushnell, Illinois, and has only resided at Independence for about ninety days. Mr. Johnson stated he was very well pleased with Oregon, and expects to make this his future home, probably locating some place in the Willamette Valley.

Mr. W. W. Percival, president of the Independence Driving Club, was very well satisfied with the meet, and at its close spoke to the crowd assembled, telling how he appreciated their attendance and hoped to give them a better meet next year, although this meet was a grand success, with a large crowd attending every day. Summary:

Wednesday, June 19th: 2:15 pace—Mack N. won, Aldine second, Baron Lovelace third, Sally Younger fourth. Time for heats—1:06¾, 1:07¼, 1:07¾, 1:09, 1:09. Two-year-old class—Barbara, by Hal B., Merrill up, won; Robin West, by R. Amhush, Fletcher up, second; Patch McKay, by Oregon Patch, Fish up, third. Time—1:24½, 1:23.

Friday, June 21st—Pace—Aldine, by Alcone, Todd up, won; Hal Gray, by Hal B., Pendleton up, second; Tolo, by Diabolo, Statts up, third; Lightfoot, by Prince Lovelace, Merrill up, fourth. Time—1:09, 1:08, 1:10½, 1:08. Trot—Dolly McKinney, by Washington McKinney, Swisher up, won; Lady Dillon, by Sidney Dillon, Tildon up, second; Lady Malcolm, by Malcolm, Kiger up, third. Time—1:12, 1:10, 1:13, 1:09½, 1:09.

Saturday, June 22d—Trot, three in five, purse \$150—Wild Girl, by Wild Nutting, Kite up, won; Lady Dillon, by Sidney Dillon, Tildon up, second; Lady Malcolm, by Malcolm, Kirkand up, third. Time—1:10, 1:08¾, 1:09½. Free for all, pace and trot, \$150—Mack N. won; Hal Gray second, Chiquito third. Time—1:06¼, 1:06½, 1:05¼, 1:06, 1:08¼.

WAYNE STUART.

PLEASANTON RACE ENTRIES.

Following is a list of entries received for the Pleasanton race meeting July 24th to 27th, inclusive. The two-year-old trot did not fill, but it is probable some event will be substituted for it when the horses arrive. Everything will be in readiness when this splendid series of races begins:

 This class did not fill satisfactorily, replaced by an amateur class, 2:20 pace, entries free, for a \$100 cup.

Race No. 8, 2:06 pace; nine entries; purse, \$800:
 Star Brino, b. g. by Wild Brino—George Spencer.
 Allerto, b. g. by Searchlight—G. T. Haag.
 Chiquita, ch. m. by Highland C.—W. S. Maben.
 Allerdaw, b. g. by Allertonian—Lou Childs.
 Aerolite, b. s. by Searchlight—Charles Gifford.
 Dr. E. P., gr. s., by Strathberry—J. R. Reid.
 Chorro Prince, ch. g. by Morris A.—W. J. Miller.
 Adam G., b. g. by McKinney—D. L. Bachant.

Race No. 9, 2:16 pace; twenty entries; purse, \$800:
 Dicto, b. g. by Dictatus—J. F. Dunne.
 Rothada, b. m. by Margrave—Carl Deering.
 Sir John W., b. g. by Diablo—Doctor Whittington.
 Captain Apperson, b. g., by Zombro—Ed Reckner.
 Pointer's Daughter, b. m., by Star Pointer—G. L. Blosser.
 M. S. McCarthy, b. h. by Director General—George T. Haag.
 Roan Hal, r. h., by Athablo—G. T. Haag.
 Queenie R., b. m. by Salvador—A. D. Clark.
 Haltamont, b. m. by Hellenes—Al Russell.
 Princess Flora B., b. m. by Stam B.—E. O. Burge.

Race No. 10, 2:20 trot; 31 entries; purse, \$1500:
 Merry Mac, ch. h. by G. Albert Mac—W. Parsons.
 Lady Alice, b. m. by Chief Whips—W. S. Maben.
 Redeem, b. g. by Directum II—J. W. Paulsen.
 Killarney, b. m. by Cupid—Homer Rutherford.
 Delma E., b. m. by Edward M.—H. R. Elliott.
 Greenbaum, br. g., by Red Medium—George Spencer.
 Lady Arabella, s. m. by Alta Vela—Jack Villar.
 Vallejo King, blk. s. by General J. E. Frisbie—Thos. Smith.
 Rex, b. g., by McNeer—William Duncan.
 Jean Valjean, blk. h. by Bon Voyage—Ted Hayes.
 Silver Hunter, b. g. by Zombro—Al Schwartz.
 Cedric Mac, ch. s., by Nearest—A. L. Blackwell.
 Henry Clayton, b. g. by Prodigal—Lou Childs.
 Reflector, blk. s. by Sunrise—Fred Marceale.
 Moko Hall, br. h. by Walnut Hill—F. J. Ruhstaller.
 Inyo Boy, b. g. by Ostio—J. E. Collett.
 Hy Yu, br. m. by On Stanley—L. Parker.
 Bessie T., b. m. by Zombro—Al Russell.
 Maude Medium, b. m. by King Alexis—Al Russell.
 Monica McKinney, s. m., by Ed McKinney—E. L. Elliott.

Race No. 11, 2:20 trot; 31 entries; purse, \$1500:
 Tell Tale, s. m. by Edward B.—Dr. Rae Felt.
 San Felipe, b. g. by Zombro—C. L. De Ryder.
 Mamie Alwin, ch. m. by Lord Alwin—C. L. De Ryder.
 Maratá, gr. m. by Neerut—James McGuire.
 Reina Directum, blk. m. by Rey Direct—S. Christenson.
 Brutus, b. g. by Strathway—S. Christenson.
 Dan Mathews, b. g.—George T. Haag.
 Mary B., m. by Del Coronado—Charles Parker.
 Burntwood, g., by Falrose—Frank Nelson.
 Fleet, b. h., by Mendocino—W. E. Meek.

Race No. 12, class, 2:12 trot; 13 entries; purse \$800:
 Johnney G., ch. h., by Alcantares—H. R. Elliott.
 Denison, b. h., by Vyzant—H. R. Elliott.
 Cresto, bl. g. by Mesto—J. F. Dunne.
 Derby Lass, bl. m. by Arner—William Brown.
 Thomas M., br. g. by McKinney—D. J. Healey.
 Expedio, b. m. by Lijero—F. J. Ruhstaller.
 Cayo Boy, b. g. by Ostio—J. E. Collett.
 Hy Yu, br. m. by On Stanley—L. Parker.
 Al Style, br. s. by Stam B.—D. Perkins.
 San Felipe, b. g. by Zombro—C. L. De Ryder.
 Mamie Alwin, ch. m. by Lord Alwin—C. L. De Ryder.
 The Statesman, b. s. by James Madison—Mrs. Ben Walker.
 Charles T., s., by Del Coronado—Mrs. Ben Walker.

Zulu Belle, bl. m. by Petigru—C. A. Durfee.
 Bess, bl. m. by Zolock—L. De Witte.
 Pointer Belle, b. m. by Star Pointer—J. B. Iverson.
 Homer Mc, b. h. by Petigru—J. W. McClain.
 Silverstein, b. h.—William Brown.

Race No. 10; 3-year-old trot:
 This class did not fill satisfactorily, therefore was cancelled, and has been replaced by an amateur class, 2:25 trot, entries free, for a \$100 cup.

Race No. 11; class, 2:20 trot; 31 entries; purse, \$1500:

 The Statesman, b. s. by James Madison—Mrs. Ben Walker.
 Charles T., s., by Del Coronado—Mrs. Ben Walker.

SACRAMENTO MATINEE RACING.

Following are the entries to the postponed races to be held at the Sacramento race track tomorrow (Sunday) commencing at 1 o'clock p. m., for the benefit of the Home of Merciful Savior, one of the most deserving institutions in California:

First race, Class A, Mixed:
 Varco, J. F. Elwell, Marysville.
 Nan Patterson, J. H. McQuigg, Rocklin.
 Cecil E., D. W. Elower, Rocklin.
 Anteeo Jr., H. E. Blackwell, Rocklin.
 Toot's W., Jay Wheeler, Sacramento.
 Gray Chalmers, P. J. Chalmers, Stockton.
 Ray, B. Jones, Stockton.
 McAdrian, E. D. Digges, Stockton.
 Derby Belle, James Petch, Rocklin.
 Rocklin Boy, Alex. Levison, Rocklin.

Second race, Class C, Trot:
 Direct Rome, C. L. Becker, San Francisco.
 Billy Burke, E. Nolan, San Francisco.
 Burntwood, Jay Wheeler, Sacramento.
 Cayo Boy, M. H. Tuttle, Rocklin.
 Doc Frazer, Ike Harlan, Sacramento.
 Kinney Lou Jr., F. E. Burton, San Francisco.

Third race, Class A, Pace:
 Teddy Bear, C. F. Silva, Sacramento.
 George Woodard, S. H. Cowell, Sacramento.
 Hymettus, John Quinn, Sacramento.
 June Pointer, S. Christenson, San Francisco.
 Jr. Dan Patch, J. F. Elwell, Marysville.

Fourth race, Class C, Pace:
 Colusa, George L. Herndon, Sacramento.
 Princess Flora B., E. O. Burge, Sacramento.
 Kelly Briggs, F. E. Wright, Sacramento.
 T. D. W., E. Kemp, Stockton.
 Sir B., Blazer & Buell, Marysville.
 Aeroletta, George H. Magruder, Marysville.
 Beauty Dick, J. Pierano, Lodi.
 W. J. K., W. J. Kenney, San Francisco.
 Victor Pointer, Vic Verthiac, San Francisco.

Fifth race, Class A, Trot:
 Expedio, F. J. Ruhstaller, Sacramento.
 Mabel, George H. Magruder, Marysville.
 Sunset Belle, H. C. Ahlers, San Francisco.
 Raymond M., F. L. Matthes, San Francisco.
 Kid Cupid, William Gifford, San Francisco.

Sixth race, Class B, Pace:
 Marlin, Dr. J. A. Randolph, Willows.
 Delilah, J. F. Heenan, Sacramento.
 Normona, C. F. Silva, Sacramento.
 Nifty, C. F. Silva, Sacramento.
 Eleanor Sears, S. H. Cowell, Sacramento.

Seventh race, Class D, Pace:
 La Dona, W. E. Sprague, Sacramento.
 May B., G. C. Powell, Sacramento.
 Happy Jack, C. F. Silva, Sacramento.
 Jas. H. Donnelly, F. E. Wright, Sacramento.
 Florida, George L. Herndon, Sacramento.

Eighth race, Class B, Trot:
 Rex, Mrs. A. C. Powell, Marysville.
 Stamrock, B. N. Scribner, Rocklin.
 Stain Boy, E. Miller, Stockton.
 Strahdon, C. F. Funch, Stockton.
 Prince Alto, Ike Harlan, Sacramento.
 Chancellor Jr., D. E. Hoffman, San Francisco.
 Major Cook, William Higginbottom.

The officials for the meet are State Senator Ben F. Rush, Secretary of State Frank C. Jordan and C. Allison Telfer, Judges; Dr. M. C. Delano, Frank Leiginger, Joseph Thompson, Timers; Frank E. Wright, Starter; Ray Dittus and Tevis Paine, Marshals.

ROD, GUN AND KENNEL

CONDUCTED BY J. X. DeWITT.

GRAND AMERICAN HANDICAP.

[Special Report.]

Springfield, Ill., June 18, 1912.—Although yesterday (Monday, June 17) was what is generally known as "practice day," the thirteenth annual Grand American Handicap tournament was formally opened on the grounds of the Illinois Gun Club in this city at ten minutes after ten in the morning, when Elmer E. Shaner, secretary-manager of the Interstate Association, who has charge of the tournament, gave the word for squad No. 1 to commence the programme prepared for the opening, preliminary session.

The Grand American Handicap is the premier shooting event of the year, and the Illinois Gun Club of this city secured the honor of holding the tournament under its auspices, but only after strenuous competition with other clubs who desired the honor for themselves.

The club has made every effort to have everything in running order, and Secretary Shaner has expressed himself as much pleased with the manner in which the club and its secretary, Dr. J. R. Lieb, have grasped the necessities of the occasion and carried them out in a manner which guarantees a successful shoot. Visiting shooters also spoke warmly yesterday afternoon in praise of the arrangements for their comfort. As a matter of fact, no shoot ever ran with greater smoothness at the start-off, the newly installed traps working well, the help, such as scorers, referees, trap pullers, trappers, squad hustlers, etc., not to mention Mr. Shaner's office force (which is one that has served in the same position at several previous tournaments), all doing their part with a smoothness and lack of friction which bodes well for the successful carrying out of what is a hard and lengthy programme.

Yesterday's programme was divided into two sections, one of five 20-target events, 18 yards rise, for the morning, and a similar programme for the afternoon session. For the morning's programme there were 119 entries, but the books in the cashier's office showed a total of just thirty squads entered for the afternoon's session, 150 shooters toeing the mark with the idea of getting some practice for the main programme itself. This was a capital showing, one on which both the Illinois Gun Club and the Interstate Association ought to be congratulated.

Of the 119 entries for the first five events, fourteen broke 95 or better. William Ridley of Watcheer, Iowa, an amateur won first honors by breaking 98 out of his 100, with two professionals, W. R. Crosby of O'Fallon, Ill., right on his heels with 97 apiece. Then came six with 96, three amateurs and three professionals; the amateurs were Frank Stanton, Bart Lewis and F. S. Wright; the professionals H. G. Taylor, H. D. Freeman and Ed. O'Brien. The 95s were C. D. Henline of Bradford, Pa., secretary of the Pennsylvania State Sportmen's Association, J. W. Garrett, Fred Gilbert, C. G. Spencer and W. R. Chamberlain.

During the afternoon there were twenty, amateurs and professionals combined, who broke 95 or better out of the second 100 targets on the programme. These were C. G. Spencer and J. R. Taylor with 98 each; Frank Stanton and George T. Hall, two amateurs, the former from Long Lake and the latter from Loami, both in this state, H. G. Taylor, J. W. Garrett, C. A. Young, Homer Clark and George Maxwell, all with 97 to their credit. The 96s were Mark Arie and A. F. McLachlan, both amateurs, W. D. Stannard, H. D. Freeman and Wolfolk Henderson. The six 95s were Bart Lewis, W. E. Grubb and Harry Kabler, amateurs, and Ed. O'Brien, Fred Gilbert and Horace Kirkwood, professionals.

On the whole day's programme of 200 targets, Frank Stanton, the amateur from Long Lake, won highest honors in his class with 193 breaks. His record was tied by C. G. Spencer and H. G. Taylor. John W. Garrett and H. D. Freeman came next with 192. Bart Lewis won second amateur honors with 191, being tied by J. R. Taylor, Ed. O'Brien and Homer Clark. Fred Gilbert, with two 95s to his credit, came next with 190. Three amateurs were next with 189; these amateurs were William Ridley, A. F. McLachlan and Harry Kahler. Three amateurs scored 188—Mark Arie, Jesse Young and R. Gerstell.

Some idea of how smoothly the shoot ran may be gained by noting the fact that, although the programme started a little late, it was all over and the grounds practically deserted at 4:30 o'clock, although the number of entries had required the throwing of 26,900 targets.

In previous Grand American Handicap tournaments the professional and amateur championships have been decided on the last day of the tournament, and the entry lists in both instances have suffered in consequence. This year a change was made, and the events put forward to the first day of the regular programme. The result has been most satisfactory, for yesterday (Tuesday, June 18) no less than 137 of the cream of the amateur trap-shooting fraternity and 38 of the very best professional trapshooters competed in their respective classes for the 1112 championships.

As in the past, the races were at 200 targets per man, with an entrance fee of \$20, the Interstate Association adding \$200 to the purse in the amateur event. All contestants stood on the 18-yard mark, instead of the regular 16-yard rise.

The race for first honors in the amateur event was very close and interesting right up to the finish, at which time it was found that E. W. Varner of Adams, Neb., and W. S. Hoon of Jewell, Iowa, were tied for first place on 192 out of 200. The tie was immediately shot off at 20 targets per man. Mr. Varner led off from No. 1 position, Mr. Hoon standing at No. 3. The latter lost his fourth target, but Mr. Varner evened up matters by losing his eighth. They shot along on level terms until Hoon lost his target in the fifteenth round. As neither man missed another target, Mr. Varner won out by the narrowest possible margin of a single target, 19 to 18, and with a grand total for the whole event of 211 out of 220 to 210 for his opponent. By virtue of his victory the trophy donated to the winner by the Interstate Association, a gold watch of the value of \$100, will go to Adams, Neb., along with the lion's share of the purse. Mr. Varner's win was certainly deserved, as he ran his last four events of 20 targets each without a skip.

Mr. Hoon made a grand finish when he went up for his last string of 20 targets. He "had to get them all" to tie, and he knew it, but it did not seem to make any difference to him, as he ground out his "20 straight" with the same deadly precision that has carried him through several similar situations in the past.

Highest honors in the professional ranks went to W. R. Crosby, the hero of many matches successfully carried to an issue, both in this country and in Europe. Mr. Crosby hails from O'Fallon, Ill., and won the professional championship in 1907, the second year of its existence, the Grand American Handicap being held at Chicago that year. Yesterday's victory ties him with Fred Gilbert, so far as professional championship honors are concerned, Gilbert having won in 1908 at Columbus, Ohio, and also in 1909 at Chicago. Mr. Crosby's score yesterday will take a lot of beating, and ties the record made in the same event last year by Lester S. German of Aberdeen, Md., the total in each case being 198 out of 200. Other previous winners of the professional championships who took part yesterday were Mr. German, Walter Huff of Macon, Ga., winner at Indianapolis in 1906, and C. G. Spencer of St. Louis, Mo., winner at Chicago in 1910, when he tied with Jno. W. Garrett, but beat him in the shootoff.

Third place in the amateur championship fell to A. F. McLachlan of Chicago with 191, or only one less than Varner and Hoon scored. On his heels came the veteran G. T. Hall of Loami, Ill., and C. B. Eaton of Fayette, Mo., with a sterling record of 190 apiece, Mr. Hall's work being especially remarkable when the small amount of practice he has had is taken into consideration.

Fred Gilbert, better known as "Noodles" Gilbert, and R. O. ("Pop") Heikes had a great race of it for second honors in the professional championship, the two ending in a tie for second and third moneys with 195 to their credit. Ed. O'Brien and J. S. Day tied with 192 for fourth and fifth moneys on 192. W. H. Heer was sixth with 191, and F. C. Riehl seventh with 190.

For tomorrow's Grand American Handicap, entries also closed at 5 p. m. yesterday. In addition to the list of 326 regular entries received by Mr. Shaner, the secretary of the Interstate Association, on or before June 8, 48 post entries had been added to that list when Fred C. Whitney, the genial cashier of the tournament, announced that his books were closed and that no more entries could be received for the premier shooting event of 1912. This total of 374 entries is a great showing and one that the Illinois Gun Club can point to in the future with just pride.

The second day (Wednesday, June 19) of the big tournament was a repetition of the first day so far as the smooth running of the shoot was concerned. A prompt start was made and an early closing recorded, the Preliminary Handicap, the event scheduled for the programme, being finished, and all ties shot off, before 5 o'clock, although a heavy rain storm shortly before 2 o'clock made an adjournment to the tents and other shelters absolutely necessary for a short time. While the rain lasted it came down in sheets, and the large shelter tent was a most popular place.

A grand total of 301 entries were recorded on the score sheets, and of this number only one person failed to take part in the shooting. As a result of the work of the handicap committee, the competition was extremely close and interesting, the race ending finally in a tie for first honors between four amateurs, who each hung up totals of 94 out of 100. Professionals were barred from competing for either the prize or the purse, so that W. R. Crosby, the national professional champion born day before yesterday, and W. E. Grubb of Laddonia, Mo., had to be contented with the honor of leading a classy field. Crosby's work was wonderful and proves that

his win of the professional championship on Tuesday was no fluke.

The amateurs who ended in a tie for first honors were W. Hoon of Jewell, Iowa, Lee R. Stockley of Chicago, James G. Gray of Bloomington, Ill., and C. E. Orr of East Alton, Ill. Just as soon as the returns were all in from each of the five traps, Elmer Shaner, manager of the shoot, directed that preparations be made for a shoot-off of the tie, the shoot-off to take place on trap No. 3. The men stepped to the score in the following order, each man standing at the same mark at which he stood in the main event: C. E. Orr, 20 yard; W. Hoon, 19; S. R. Stockley, 19, and J. G. Gray, 18. Most of the spectators fully expected that more than one event of 20 targets per man would be required to settle the ownership of the trophy and first money, but just one sufficed, W. Hoon winning out with 18, to 17 for Stockley and Gray, Orr scoring 16. Mr. Hoon thus won a handsome gold watch, worth \$100, donated by the Interstate Association, and further added to his bank account, which had received a nice increase by virtue of his win of second honors in the national amateur championship on Tuesday. Hoon missed his sixth and fifteenth targets; Stockley his third, twelfth and fourteenth; Gray his first, fourth and fifth, running fifteen straight as a finisher, and Orr his fourth, tenth, fifteenth and sixteenth.

The amateurs who just fell one short of tying the fortunate four were six in number: A. C. Connor, the local crack; C. H. Peck, A. Skinner, Frank Campbell, R. H. Bruns and L. Halverson. The following finished with scores of 92: Guy V. Deering, J. C. Davidson, Mark Arie, F. Stanton and J. D. Elliott. There were 238 amateurs in the race, and of that number only 31 finished with a score of ninety per cent or better.

Sixty-two professional shot along in the handicap, and of that number only twelve broke 90 or better. As stated above, Crosby and Grub tied on 94; H. G. Taylor and H. C. Kirkwood also tied on 93; R. O. Heikes and O. R. Dickey on 92 apiece; Homer Clark, C. E. Goodrick and C. O. LeCompte had 91; Fred Gilbert, H. D. Freeman and H. J. Borden, 90.

All the above goes to show that though the weather conditions were not unfavorable, yet there was something, the distance handicap or something else, which made scores run lower than usual.

The Grand American Handicap, the feature of the entire tournament, was almost over when the storm broke (Thursday, June 20), less than 200 targets being all that had to be thrown when the storm passed away. But prior to the rain there had been for some time a strong, gusty wind that played havoc with the scores and made many a good chance "for the money" go aglimmering. This was particularly the case with W. Hoon's chance. When he went up for the last string of his 100 targets, he had already made 77 out of 80. He thus had a chance to win if he broke "straight," and a chance to tie with a 19. But the added handicap of a tricky and strong wind was too much; he dropped three targets and went out with 94, a tie for fourth place.

When the scores had been turned in, Elmer Shaner, the secretary, announced that W. E. Phillips and H. D. Duckham had tied for first place with 96, and that the tie would be shot off immediately on No. 3 trap. Mr. Phillips is a member of the South Shore Country Club of Chicago, Mr. Duckham hailing from Kenton, Ohio. A close and exciting shoot-off was expected, but the same did not materialize, as Mr. Phillips won out easily with 17 to 15, never being in any sort of trouble after the fifth round. He lost his first, sixteenth and eighteenth targets, while his opponent lost third, fourth, sixth, twelfth and thirteenth.

With fully 358 fully paid up entries, the first round showed that there were just 355 starters, three having failed to answer to their names when called to the score. Of the above number 302 were amateurs and 53 professionals, the latter not being eligible to compete for the purse, but contesting for a special prize donated by the Interstate Association. This prize, a handsome gold watch, was won by C. A. "Sparrow" Young of Springfield, Ohio, with 95 out of 100 from 22 yards. Fred Gilbert at 23 yards, John W. Garrett at 22 yards and Ed. Graham at 22 yards tied with 94; Homer Clark at 22 yards and Del Gross at 20 tied on 93.

Among the amateurs, Max Knuessell of Ottawa, Ill., won third money with 95 from 20 yards. There were three niceties: Captain Andy Meaders of Nashville, Tenn.; W. S. Hoon and M. L. Lipporo. The other money winners were the eight who made 93 eight 92, twelve 91 and twenty-four 24. Thus 58 of the 302 amateurs made 90 per cent or better, and "landed in the money."

The total purse made up of entry fees and the cash (\$500) added by the Interstate Association amounted to \$3,192, making first money \$319.20, to which the Association added a further sum of \$630.80, to make up the "\$1,000 guaranteed to the winner." Second money was \$287.30; third, \$255.35, while the three 94s each got \$191.50.

Today's events (Friday, June 21), which will bring this great tournament to a close, are as follows: The amateur championship at doubles, the professional championship at doubles, and the consolation handicap. The amateur championship at doubles is at 50 pairs, 16 yards rise, \$10 entrance, \$100 added to the purse. The professional championship at doubles is shot under the same conditions, but no money is added to the purse. Entries for these events close at 10 o'clock this morning. The consolation handicap entries closed last night with a total of 97 contestants. The conditions are 100 tar-

gets, same handicaps as in the Grand American Handicap, but money money winners in that event barred from competing in the consolation handicap. This event will be the first on today's programme for decision, and will be started promptly at 9 o'clock.

"Now that the thirteenth annual Great American Handicap tournament is a thing of the past, it is hard to see where the Illinois Gun Club could have improved upon the arrangements they made for the comfort of their guests." Elmer E. Shaner, secretary and manager of the Interstate Association, the governing body in the trapshooting world, is responsible for the above statement, made yesterday afternoon (Friday, June 21), when the last shot in the big tournament had been fired. Mr. Shaner added: "The weather, perhaps, might have been a little better, but you can hardly blame Dr. Leib and his fellow members for the trouble we got in that line."

It must have been cause for satisfaction on the part of the members of the local club to know that Mr. Shaner's sentiments seemed to be voiced unanimously by the visiting shooters. Counting in the practice day, Monday, it was a great five days' shooting carnival, and the Springfield Grand American Handicap will be talked of for many years to come.

Additional grounds for congratulation on the part of the local club can easily be found in the win of the Consolation Handicap by its popular secretary, Dr. J. R. Leib, after tying with C. A. Galbraith of Bay City, Mich., on 94 out of 100. The shoot-off of the tie showed that the doctor had not made his excellent total by accident, for he stepped to the score, apparently cool as a cucumber, and ground his 20-straight like a veteran match shooter. His opponent scored 17.

Third money in the consolation handicap went to P. W. Keister of Decatur, Ill., with 93, while J. Barker of Peoria and E. L. Grobe of Fowler, Ind., tied for fourth and fifth places with 91. In the division of the purse all those who scored 86 or better got a slice.

For the doubles championships there were 60 entries for the amateur championship, and 40 in the professional class. A curious feature of these two separate and distinct events was the way in which the amateur shooters outclassed the professionals.

In the amateur race, Mark Arie of Thomasville, Ill., was high with 89, Harry Kahler, the Philadelphian, being close after him with 88. Then came C. M. Powers of Decatur, who broke 86, and Jesse Young of Chicago with 84, his score tying the highest mark by the professionals. Mr. Arie made a good start with a 19 on Trap No. 2, following it up with 18, 19 and 18 on Traps 3, 4 and 5, respectively. He thus went for his last "ten pairs" with only "six down in 80," a remarkable showing under the conditions. It began to look as if he would make a record hard to beat, and he kept grinding them out on the jonah trap (No. 1), until close towards the finish of his score, when he fell down hard and only finished with 89. Strangely enough, Mr. Powers, the third man, made the only straight score of 20 made in the doubles on that same "jonah" trap.

The professionals, all of whom shot so far below their averages, had quite a fight among themselves, and ended up the race with four men tied for first place with 84, two others being only one target behind them. The four in the tie were Fred Gilbert of Spirit Lake, Iowa, J. S. Day of Midland, Texas, Walter Huff of Macon, Ga., and Ed O'Brien of Florence, Kan. Of course, a shoot-off was necessary, and the four men shot it off at ten pairs per man. On the first round all shot very poorly, Gilbert and Day tying with 16, Huff scoring 14 and O'Brien only 11. This eliminated Huff and O'Brien.

The second shoot-off was a starter. Day lost his second and tenth targets, running out with 18. Gilbert ran his first six pairs straight, and then to the surprise of all, and probably very much to his own astonishment, he made what is known as a "Dutch double," that is, he missed both targets, and was tied up once more with Day, as both broke straight to the finish, ending with 18 each. A decision was reached in the third shoot-off, Gilbert winning rather easily with 17 to 15 for his opponent.

At the close of the shoot-off in the professional doubles championship, the trophies won by the leaders in the various events decided during the week were presented to them by J. T. Skelly of Wilmington, Del., president of the Interstate Association. This act of his officially closes the thirteenth annual Grand American Handicap.

Notes.

Late in the day (Tuesday) T. D. Riley drifted into the shooting grounds, having come all the way from San Francisco just to have the pleasure of taking part in the Grand American Handicap. He started off in the Preliminary Handicap.

The total purse in the consolation handicap was \$432.05, seventy-one amateurs competing for same, and also for the handsome gold watch, donated by the Interstate Association, which watch, by the way, is now in Dr. J. R. Leib's possession. In addition to the above 71 entries, 35 professionals and 21 amateurs shot along "for targets only," making the grand total of entries just 127.

The total number of targets thrown was slightly less than 150,000. This means that the contents of about 300 barrels of targets (each barrel containing 500 targets) are strewed around over the field in front of the five sets of traps; in addition to which over five tons of lead in the form of pellets of chilled shot are also lying around loose in the same locality only a bit further away from the traps than the pieces of broken targets.

Visitors from the east have blamed many a lost

target on the unsettling of their nerves by the incessant whistling of the "Bob Whites," which would persist in perching on some of the fence posts in plain view of the shooters at the score.

When Fred Gilbert lost that pair of the second shoot-off for the professional championship at doubles, he had just completed a run of eight pairs without a miss, having broken the last two pairs in the first shoot-off. His opponent had lost his second and tenth targets, so that Fred was apparently on Easy street. Then came the double loss and it was anybody's race once more.

That the shooting was hard is proved by the fact that not more than one run of 100 was recorded during the entire five days of the tournament. Fred Gilbert was the expert who made the only "long run" of the tournament, and that was "103 straight" from 18 yards in the professional championship on Tuesday, the shooting being done from 18 yards.

National Amateur Championship, 200 targets, 18 yards rise, Tuesday, June 18, 1912—

Table listing names and scores for National Amateur Championship, 200 targets, 18 yards rise, Tuesday, June 18, 1912. Includes names like Dunnell, B., Grace, W. H., Powers, C. M., Sharp, J. R., Vance, A., Arie, Nick, Sousa, J. P., Rogers, E. S., Arie, M., Meriwether, W. T., Kohler, H., Appleman, J. W., Barker, J., Peterson, J. B., Williams, B. S., Snyder, H. E., O'Connor, A. D., Famechon, J. C., Rambo, L. S., Varner, E. W., Cochran, W. H., Neville, M. K., Dodds, S. L., King, F. W., Wetleaf, Wm., Myers, E. T., Mackie, G. K., Meaders, A., Goode, O. P., Dunnill, H., Barte, Joe, Webster, W., Dey, J. G. S., Campbell, F., Galbraith, Ira, Riley, W., Graham, P. J., Martin, Jno., MacLacklin, Henline, C. D., Collins, C. C., Wilcox, A. F., Clegg, Jr., W., Gerstell, R., Wedelbusch, W. H., Dixon, H., McDermott, J., Alexander, E. H., Nolder, J. K., Kimball, P., Halverson, L., Fuller, F. G., Young, J. S., Orr, C. E., Easton, C. B., Coburn, C. D., Jackson, M. V., Hammerschmidt, E., Moncravie, J. B., Prechtel, J. A., Shattuck, W., Wulf, J. F., Lawrence, A., Edwards, F. M., Wright, F. S., Duckham, H. D., Ball, G. W., White, J. P., Hoon, W. S., Williams, O., Kneussl, M., Kistler, Geo., Galbraith, C. A., Noel, Jno., Hamilton, L., Moore, C. F., Martin, J. D., Morley, Jno., Groves, J. A., Magill, C. S., Carruthers, E. K., Connors, A. C., Burman, F. C., Hal, G. T., Spruise, J., Slipey, Wm., Lewis, Peart, Gragg, E. N., Wist, W. N., Nichol, Chas., Scott, Jas., Swearingen, N., Huntley, S. Table listing names and scores for various events, including fishing and shooting competitions.

Table listing names and scores for various events, including fishing and shooting competitions.

Exposition City Gun Club.—J. R. Long was the winner of the principal prize, a fine shotgun, at the merchandise prize shoot of the club last Sunday.

Long's score was, with a handicap allowance of 4 birds, a possible 20 from the 14 yard mark in the third event. This match was both a distance and a bird handicap, 14 yard men allowed 4 birds, 16 yards, 2.

The scores follow:

Table showing scores for various events, including fishing and shooting competitions.

Pacific Indians Shoot.—The gathering of the warriors this week at Eugene, Ore., will be for four days—June 25 to 28, inclusive, Monday being practice day.

Idaho State Shoot. At Boise, Idaho, Mr. Lee R. Barkley, shooting the Winchester combination—Winchester factory shells and Winchester shotgun—won the high average, with a score of 288x300.

Mr. D. Holohan, high amateur, Mr. L. A. Leherbos, second, and Mr. P. O'Brien, third, all used Winchester shotguns.

Easton Gun Club.—The regular club shoot, killed for tomorrow, will take place Thursday, July 4. Four 25 bird events will be the schedule.

FISH LINES.

Trout Flies.—For a week past weather conditions at Boca and Truckee have been unexceptionally favorable for the small army of anglers now taking an outing on the famous trout river.

Any one who can cast a fly and knows the river can catch a limit every day during the morning and evening hours. Numerous boxes of trout have been sent to city friends by the Truckee anglers during the week.

Independence lake is in full swing now for good fishing. Twenty-five fishermen located at the lake have been catching limits daily.

Siskiyou counties and the higher Sierra streams. El Dorado county is highly regarded by many anglers for the excellent sport found along the banks of its creeks.

At Spring Garden fair fishing can be had. The royal coachman, black guat and red ant are the favorite fly lures.

Around Oroville there is a variety of fishing, including trout, black bass and striped bass. At Portola the sport has been indifferent.

Stoney creek, in Glenn county, near the town of Elk Creek, is worthy of attention. A three-and-a-half-pound trout was one of twenty-five trout that weighed twelve pounds recently caught.

A letter from Sam Wells last week gives encouraging reports of fine fishing in the Big Meadows country at the present time.

Quite a few trout have been taken by anglers who like the tidewater stretches near Point Reyes.

Last Sunday eighty cans of trout fry were planted in the streams of San Mateo county by a delegation of the California Anglers' Association.

Good trout fishing is yet available in Pescadero creek. E. H. Humphrey, D. Mansell, H. Frey and Dr. Blackburn made limit takes in the lagoon at the mouth of the creek.

Tunitas creek kept M. Uri, Dr. and Mrs. Koenigstein, Mr. and Mrs. Al Johnson and Frank Messenger busy enough last Sunday to get fair catches.

At Purissima last Sunday some of the lucky anglers were: Al Craigie, William Shepdon, Ed Thomas, E. Snyder and Ed Simms.

Black Bass.—This game fresh water fish is reported to be affording great sport in different localities. W. J. Street and Howard Vernon a week ago visited Middle river, near Stockton, on the Santa Fe railroad.

Black bass fishing at Lake Washington, down the Sacramento river on the Yolo side, is said to be very good at present.

Near Thermalito, in Butte county, the creeks of that section are full of black bass.

The San Joaquin river in the vicinity of Newman has been a favorite resort of black bass anglers in past seasons. Recently the river has been too high for good sport.

The fish have been very numerous in that stretch of the river, particularly so since the market fishermen have been prohibited from using set lines.

Drink Jackson's Napa Soda.

THE FARM

A PROSPEROUS SHOWING.

The Annual Report of the California Development Board for 1912 entitled "California Resources and Possibilities" which is just off the press, contains some very carefully prepared figures showing the production in all lines of industry during the year 1911, and comparing these figures with those of former years gives very complete review of the tremendous growth of the State of California.

The development of resources and the increase in wealth during the 62 years of her existence as a State are probable unparalleled in the history of this country. A review of the past ten years' growth is a very important thing in view of the fact that much capital is being invested in California each year and that the realization of the ultimate value of nature's resources is as yet a long way off.

The returns of the thirteenth census gives California an increase in population since 1900 of 892,496, an increase from 1,485,053 to 2,377,549, or gain of 60.1 per cent.

In the 62 years of statehood California has achieved financial strength that speaks well for the energy of her people and for the richness of her acres. The summary of products given in the report shows California produced in 1911 in excess of one billion dollars in mineral, agricultural and manufactured products. This enormous sum has never been reached by the Golden State in any previous year. During the past decade the value of manufactured products has increased 105 per cent while the increase for the United States was 81 per cent.

A statement of the per capita wealth, private and public and in per capita debt shows that California is foremost in the States of this country and among the countries of the world.

Per Capita in 1910.

| | Wealth. | Debt. |
|---------------|------------|---------|
| California | \$2,235.00 | \$ 9.71 |
| New York | 1,868.00 | 57.64 |
| Pennsylvania | 1,707.00 | 19.55 |
| Illinois | 1,689.00 | 16.08 |
| Massachusetts | 1,672.00 | 27.55 |
| Ohio | 1,307.00 | 72.72 |

Per Capita in 1902.

| | | |
|----------------|------------|---------|
| United States | \$1,318.00 | \$14.52 |
| United Kingdom | 1,455.00 | 74.83 |
| France | 1,228.00 | 150.61 |

Many of the factors which have contributed to make California a billion State are quite peculiar to that State. Some of them may be mentioned:

| | |
|--------------------------------------|--------------|
| Citrus fruits | \$37,115,000 |
| Deciduous fruits, fresh and dried | 18,650,000 |
| Prunes | 8,750,000 |
| Canned fruits and vegetables | 17,700,002 |
| Vineyard products, including raisins | 27,030,700 |
| Dairy and Poultry | 47,500,000 |
| Hops | 5,300,000 |
| Sugar Beets | 13,000,000 |
| Barley | 34,510,000 |
| Beans | 9,830,000 |
| Fisheries | 10,600,000 |
| Animal increase | 28,744,000 |
| Petroleum | 42,000,000 |
| Gold | 20,310,937 |
| Cement and Copper | 14,166,356 |
| Garden and Nursery, etc. | 29,500,000 |

The products of farms, packing house and factory with others of their kind will total some \$532,000,000 while manufactures as reported by the census were some \$530,000,000, which brings the grand total up to about one billion dollars, after allowing some 61 millions for duplications.

The Annual Report of the California Development Board also discusses California's policy of exploitation and the public promotion work and it is made apparent that no other State in the Union expends as much money to so much effort in promotion work as is expended by the State of California. Copies of this report will be mailed to any address in the world by the California Development Board, San Francisco, California.

ORIGIN OF INDIAN RUNNERS.

Since the boom in Indian Runners started, the stories broadcasted regarding their history, their qualities and their value to every one, would certainly fill a library. It is a pity that many new breeders, anxious to be classed with know-it-alls for the

sake of a possible rich harvest in eggs or stock, invent newsy notes as they go along. "The Feather" brings the news that the ducks came originally from West India and are related to the Mallards. It also says they are about fifteen years in the country.

The fact that hundreds of Runners were bred on Long Island thirty years ago must be news to G. F. Williamson and his broad statement of their being related to Mallards is unsupported by the two breeds and their characteristics, and antagonistic to all that we know about them, as such is supported by historians. It is a pity that the good Dutch duck cannot quack right out against all such and force her advocates to credit Belgium with all that she is, was or ever will be.

The cold storage egg will no longer masquerade as "strictly fresh" in New York state grocery stores. The legislature has passed a law compelling the grocers to post a sign in full view ten inches long and six inches high on every box or basket or cold storage poultry, fish and eggs, the sign containing these words, "Cold Storage." The letters must not be less than two inches in height. This law will help the producer and seller of fresh eggs and poultry.

Warranted to give satisfaction.

GOMBAULT'S CAUSTIC BALSAM

A safe, speedy and positive cure for

Curb, Splint, Sweeny, Capped Hock, Strained Tendons, Founder, Wind Puffs, and all Lameness from Spavin, Ringbone and other bony tumors. Cures all skin diseases or Parasites, Thrush, Diphtheria. Removes all Bunches from Horses or Cattle.

As a HUMAN REMEDY for Rheumatism, Sprains, Sore Throat, etc., it is invaluable. Every bottle of Caustic Balsam sold is warranted to give satisfaction. Price \$1.50 per bottle. Sold by druggists, or sent by express, charges paid, with full directions for its use. Send for descriptive circulars, testimonials, etc. Address THE LAWRENCE-WILLIAMS COMPANY, Cleveland, Ohio

Flies! Flies! Flies!

Get rid of them and help make your home and premises sanitary by the liberal use of **Tanglefoot Fly Paper**. There is fully one-third more compound per sheet on **Tanglefoot** than on any other fly paper; hence it lasts longest, catches the most flies and is the best and cheapest fly paper. If you ask for "fly paper" or "sticky fly paper" you may get a cheap imitation that will soon dry up or glaze over. Ask for **Tanglefoot**.

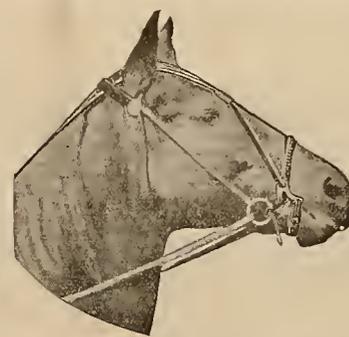

Sold by Grocers and Druggists.

TREE TANGLEFOOT, put up in 1, 3, 10 and 20 lb. cans, Will protect your trees from all climbing insects.

The Most Perfect Colt Bit Made

EVERY COLT

Should wear the **ELLIS IMPROVED HUTTON PATENT CHECKING DEVICE** from the very beginning of its training, as it is the easiest, most comfortable and most humane bit on the market. With its use the colt will not fret, worry, pull, toss its head and get into the bad habits so often caused by the use of other bits and checking devices that inflict punishment or keep it under too much restraint, and at the same time you will have absolute control over it at all times.

Patented August 11, 1896. Patent No. 565,681.

The **ELLIS IMPROVED HUTTON PATENT CHECKING DEVICE** is in a class by itself. It is the only Checking Device or Bit sold on a positive Guarantee **TO REFUND YOUR MONEY IN CASE IT FAILS TO DO ALL THAT WE CLAIM FOR IT.** If the Ellis Improved Hutton Patent Checking Device is used on a colt from the very beginning of its training, we guarantee it will never get any of the following bad habits:

If, however, your colt or aged horse has acquired the following bad habits, the **ELLIS IMPROVED HUTTON PATENT CHECKING DEVICE** will correct them, and if it fails we will refund your money.

GUARANTEED to stop your horse from Pulling, Tossing the Head, Tongue Lolling, Side Pulling, Bit Fighting, or any other bad habits caused by the use of Bits or Checking Devices that inflict punishment, or keep a horse under too much restraint.

PRICE \$5 for complete Device, MAILED FREE TO ANY PART OF

THE WORLD when cash accompanies order. **BEWARE** of worthless imitations and Checking Devices claimed to be as good as the **ELLIS IMPROVED HUTTON PATENT CHECKING DEVICE.** Illustrations of some of these check bits and devices are made to look as near like the genuine as possible, but the article itself is very different, and will not give the same results.

FOR SPECIAL CASH PRIZES FOR STALLION OWNERS

Giving to Owners of Stallion standing highest in number of Mares nominated in this Stake that were bred to their respective horses, divided as follows:

1st Prize \$80; 2nd Prize \$60; 3rd Prize \$40; 4th Prize \$20.**Prizes will be Paid on August 15, 1912**

ENTRANCE AND PAYMENTS.—\$2.00 to nominate mare July 1st, 1912, when name, color and description of mare and stallion bred to must be given; \$5.00 September 1st, 1912; \$10.00 January 1st, 1913; \$15.00 May 1st, 1913; \$15.00 January 1st, 1914; \$15.00 January 1st, 1915.

STARTING PAYMENTS.—\$25.00 to start in the Two-Year-Old Pacing Division; \$50.00 to start in the Two-Year-Old Trotting Division; \$35.00 to start in the Three-Year-Old Pacing Division; \$75.00 to start in the Three-Year-Old Trotting Division. All starting payments to be made ten days before the day of the meeting at which the races are to take place.

Nominators must state when making payments to start whether the horse is a Trotter or Pacer.

Colts that start at Two Years Old are not barred from starting again in the Three-Year-Old Division.

CONDITIONS.

The races for two-year-olds will be mile heats, two in three. The races for three-year-olds will consist of three heats, one mile each, one-third of the stake being divided at the end of each heat, 50, 25, 15 and 10 per cent.

Distance for two-year-olds, 150 yards; for three-year-olds, 100 yards.

If a mare proves barren, or slips, or has a dead foal or twins, or if either the mare or foal dies, her nominator may sell or transfer his nomination or substitute to another mare or foal up to the date of second payment, September 1st, 1912, regardless of ownership, but there will be no return of payment nor will any entry be liable for more than amount paid in or contracted for.

In entries, the name, color and pedigree of mare must be given; also the name of the horse to which she was bred in 1911.

Entries must be accompanied by entrance fee. Nominators liable for only amounts paid in. Failure to make any payments forfeits all previous payments. This Association is liable for \$10,000, the amount of the guarantee only.

Hopples will be barred in trotting and pacing divisions. Right reserved to declare off or reopen these stakes in case the number of entries received is not satisfactory to the Board of Directors.

Money divided in two-year-old divisions, 50, 25, 15 and 10 per cent at end of race. Money divided in three-year-old divisions, 50, 25, 15 and 10 per cent at end of each heat.

There will be no more money in each division than there are starters. Entries open to the world; membership not required to enter, but no horse, wherever owned, will be allowed to start until the owner has become a member.

Other than exceptions made in these conditions, rules of National Trotting Association to govern.

For entry blanks and further particulars, address the Secretary.

THE MONEY LOSS FROM TUBERCULOSIS.

In the dairy industry tuberculosis is exacting the heaviest toll, both in the loss of animals and in reduced profits. The public is continually demanding purer and more sanitary food, especially in dairy products. The dairyman who does not realize the advantages of taking every precaution to have his milk and cream come from "tuberculin-tested" cows must suffer the loss that, sooner or later, is bound to occur. In many cities the milk dealer is required to secure a license before he is permitted to deliver milk. One of the first requirements in securing a license is that the milk must be from "tuberculin-tested" herds.

A diseased animal may increase in

SPECIAL ADVERTISING.

FOR SALE

Shire Stallion—Honest Glory 12551

Foaled 1909. Bred by Malcolm N. McGillivray, Winifred, South Dakota; sired by Movement Archer 5318 by Ginton 1016 (5890); dam Maud R. 12218 by King Richard Junior 5476; second dam Honest Nellie 7511 by King Richard 312 (3784); third dam Lake County May 7496 by Knowle Light of the West 3208 (9733). Has been accepted for registry in Volume 8 of the American Shire Horse Stud Book this 10th day of August, 1911, under the rules of the Association and numbered 12551, as above.

Honest Glory is a very fine individual, extra heavy boned, and guaranteed sound. He comes from the very best families of Shires and is a worthy representative of them. Seekers after one of the best young stallions in California are invited to see this one.

SANTA ROSA RACE TRACK.

This celebrated course is in better condition than ever. The box stalls are in fine fix and a cordial invitation is extended to trainers to come and see it. Dan Misner is managing this track and will keep it in first-class order. The rent for box stalls will be \$2 each per month. The finest climate in California and the track over which world's champions have been made. Address S. H. BURNS, Proprietor, Santa Rosa, Cal.

REEL REASONS

3-in-One keeps all fishing tackle in perfect order. Reels oiled with 3-in-One won't stick or hang at critical moment. They always work easily and surely. 3-in-One will not gum, turn black or sticky.

3-in-One prevents rust on steel rods, keeps joints and connections clean and smooth, preserves wooden rods, too, making them tough and pliable.

Draw your line, silk or linen, through rag moistened with 3-in-One. Makes it stronger and last longer. Will not rot, twist or tangle, preserves lines, nets and traps in either fresh or salt water.

FREE Try 3-in-One at our expense. Write for liberal free sample and booklet. **3-IN-ONE OIL COMPANY,** 102 New St., New York

Coffin, Redington Co., San Francisco, Cal.

Infection may be discovered and the carcass consigned to the rendering tank. In these cases the owner is the loser. There also results more or less frequent expense, due to the diseases contracted from the tuberculous herd, in addition to the deterioration in the quantity and the quality of the milk, and in the value of the herd. The cost of the tuberculin test is a mere fraction of the loss that will certainly follow unless the infected stock is weeded out.

The principal means through which tuberculosis is introduced into a herd are (1) By purchasing cattle from other herds infected with the disease; (2) By feeding calves with milk or whey from tuberculous cows; (3) By allowing healthy stock with or near infected animals; (4) By keeping cattle in unsanitary, poorly ventilated and unclean quarters.

Sooner or later the tuberculous cow begins to give off the germs which escape by the mouth, the nose, in the manure, in the milk, and in discharges from the genital organs.

Germs discharged from the mouth and nose are coughed up from the lungs and are sprayed over the food in front of the cow, or they are for a time carried in the air until they fall to the ground. Cows in adjoining stalls may take in these germs with the air they breathe, or in the food they eat, and thus contract the disease.

The manure and urine from tuberculous animals will spread the disease. The bad practice of having hogs and cattle together in the same yard will result in the infection of the hogs if any of the cattle are infected. Manure containing the tubercle bacilli easily affects the milk. Particles of dried manure or stable dust may fall into the milk pail from the skin of a dirty cow, or be accidentally flicked off from the tail and fall into the milk.

Straining the milk only removes the larger particles, the smaller, including the germs, remain in the milk.

The manufacture of milk powder is a new industry closely allied to dairying. At the Geneva experiment station it has been found that butter can be churned from this powder mixed with water, which shows that its composition is not greatly changed by the heating and evaporating process, and with water added to the powder a good quality of fresh milk is produced at a cost of about 8 cents a quart. If a form of milk powder can be secured that will keep indefinitely, Dr. Van Slyke of the Geneva station believes that there will be no need of shipping whole milk, as milk powder will become a staple grocery article. This would reduce the cost of milk transportation to about one-eighth the present rate and afford greater economy in the expense of retailing milk.

- NO. 18—FREE-FOR-ALL PACE

Entrance fee of 5 per cent of purse and 5 per cent additional from money winners (except where otherwise specified). No entry will be accepted without the first payment of entry fee.

GENERAL CONDITIONS.

Nominators failing to make payments when the same fall due shall be declared out without further liability for entrance money, but shall forfeit all entrance money paid in. No notice necessary from nominators to be declared out.

Races Nos. 1, 3, 7, 8, 9, 13, 14, 15, 16 and 17, mile heats 3 in 5, no race longer than 5 heats. Races 4, 5, 10 and 18, mile heats 2 in 3. In the first three heats of races Nos. 11 and 12, 16 2/3 per cent of the purse will be divided at the end of each heat, and the residue of 50 per cent of the purse will be divided at the end of the race, 50, 25, 15 and 10 per cent, according to the summary. A distanced horse in these races shall be entitled to money already won.

Races Nos. 2 and 6, mile heats, 3 in 5, not to exceed 5 heats. Each heat a race. There will be as many moys as there are heats.

Moneys to be divided 50, 25, 15 and 10 per cent, unless otherwise specified in conditions.

Right reserved to declare off any race that does not fill satisfactorily, or to change order of program.

Stakes are for the amounts guaranteed—no more, no less.

Distances in all heats 80 yards, but if the field is more than eight, 100 yards.

A horse distancing the field or any part thereof is entitled to first money only. There will be no more moneys than there are starters.

All amateur races must be driven to sulky and not to cart.

Owners may enter two horses from one stable in same race and be held for only the entry of the horse that starts, the starter to be named by 5 o'clock P. M. the day before the first day of the meeting, but if neither horse starts one entry fee will be required.

Owners may enter one horse in two races upon payment of the entrance fee for the larger purse, and if started in only one race will only be held for the entrance money of the race in which he starts, the race or races in which he starts to be named by 5 o'clock P. M. the day before the first day of the meeting.

If started in both races he will be liable for the entrance fee in each race; if not started in either, he will be held for the entrance fee of the larger purse.

Otherwise than as herein specified, National Trotting Association (of which this Society is a member) rules will govern.

PAYMENTS WILL BE DUE AS FOLLOWS:

| | July 1st. | July 25th. | Aug. 20th. | Sept. 5th. |

Breeder and Sportsman

TWO GREAT SIRES.

The Bondsman

Reg. No. 37641

SIRE OF

Colorado E. (3) 2:04³/₄ champion 3-year-old of the world. Winner of the Matron, American Horse Breeder and Kentucky Stock Farm Futurities; second in Kentucky Futurity.

The Plunger (4) 2:07¹/₂, second fast-old stallion of 1910.

Grace Bond (3) 2:09¹/₄ winner both Kentucky Futurity.

Creighton 2:08¹/₄, record made in 1911.

Half brother to Jay Hawker 2:14³/₄, sire of Country Jay 2:05³/₄, Susie Jay 2:06³/₄, etc.

Half brother to The Tramp, sire of Bervaldo 2:08³/₄, Trampfast (2) 2:12³/₄.

Half brother to Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, etc.

THE BONDSMAN 37641

| | |
|---|--|
| GEORGE WILKES 2:22 Sire of 83, dams of 204. | HAMBLETONIAN 10 Sire of 40. |
| BELLE PATCHEN 2:30³/₄ In great brood mare list. | DOLLY SPANKER Dam of 1. |
| GRAND SENTINEL 2:29³/₄ Sire of 23, including Nettle 2:16 ³ / ₄ , Tosca 2:18 ³ / ₄ . | MAMBRINO PATCHEN 58 Sire of 25, dams of 162. |
| EMPRESS Dam of 2 and granddam of 9. | SALLY CHORISTER By Mamb. Chorister, dam of 2 in 2:20, etc. |
| | SENTINEL 280 Sire of 8 in list. |
| | MAID OF LEXINGTON By Mamb. Pilot 29. |
| | ABDALLAH MAMBRINO Sire of 15, dams of 42. |
| | BIG ELLEN By Clark Chief. |

BARON WILKES 2:18... Sire of 12 in 2:10, including Bumps 2:03³/₄, Rubenstein 2:05, Baron May 2:07³/₄; sired dams of 4 in 2:10.

SORRENTO... Dam of Jay Hawker 2:14³/₄, Sorrento Todd (4) 2:14³/₄, Belle Sentinel 2:15, Eola 2:19³/₄, Lazy Bird 2:26³/₄, Teddy Sentinel, 2:29³/₄, The Tramp (sire), etc.

4th dam Virgle—by Abdallah 15.
5th dam Lucy—by Highlander (Veech's).

THE BONDSMAN is the only stallion that sired three new 2:10 performers with race records in 1910. In spite of the fact that he has no record, The Bondsman was a colt trotter of great merit. He was a contending colt all through the Kentucky Futurity of 1899, getting third money. This was a six-heat race and was won by Boralma. As a four-year-old he was not raced, but trotted a public trial in 2:11. As a sire he is destined to be the leading son of the great Baron Wilkes, founder of the greatest futurity winning family. He will make the season of 1912 at

Pleasanton Training Park. **\$100**

the Season with usual return privilege 1913. Season ends June 1st.

THE PATCHEN BOY 39033

Three-Year-Old Record 2:10³/₄ In a Winning Race.

Sired by the Great WILKES BOY 3803, sire of 107 in standard time.

A Genuine Race Horse and a Sire of Early and Extreme Speed.

The Patchen Boy 39033 is sire of the following:

| | | |
|--|---|---|
| Francis J. 2:08 | Legal Patchen ... 2:15 ³ / ₄ | Dorothy C. 2:19 ³ / ₄ |
| Evelyn Patchen... 2:10 ³ / ₄ | Lucille Patchen ... 2:16 | Louise Patchen ... 2:19 ³ / ₄ |
| Scott Patchen ... 2:12 ³ / ₄ | Jerry Patchen ... 2:16 ³ / ₄ | Dr. Warren ... 2:19 ³ / ₄ |
| Dessie Patchen ... 2:13 | Knightstown Belle 2:16 ³ / ₄ | Roscoe Binning ... 2:20 |
| Frank Patchen ... 2:13 ³ / ₄ | Alec Williams ... 2:18 ³ / ₄ | Mary Patchen ... 2:20 ³ / ₄ |
| Ruby Patchen ... 2:13 ³ / ₄ | Lols Patchen ... 2:19 ³ / ₄ | Black Patchen ... 2:20 ³ / ₄ |
| J. C. Patchen ... 2:14 ³ / ₄ | Auduous the Miller 2:19 ³ / ₄ | and 11 others in 2:30. |

Dam Lady Clay, the dam of The Patchen Boy (3) 2:10³/₄, C. W. M. 2:24³/₄ (trotted to high wheels), Anglin Wilkes 2:16³/₄ over half-mile track, trial 2:09³/₄, by Metropolitan 1372, son of Hambletonian 10; second dam, Haggie Brown, by Ashland Clay; third dam, Pitty Pat, thoroughbred. The Patchen Boy was the greatest three-year-old race colt in the world, winning six straight races in the Grand Circuit the only year he was raced. His produce are good-headed and real race horses. (No tin cups.)

THE PATCHEN BOY is a beautiful black, 16.1 hands and weighs 1290 pounds. His colts are of fine size, great individuals and the kind that sell for the high dollar.

Season of 1912 at Pleasanton Training Park. Fee: **\$50** Return privilege 1913

Both of the Above Horses Will Remain in California.

Best of care and attention given mares, but no responsibility assumed for accidents. Good pasturage at reasonable rates. For further particulars and full tabulated pedigree, address

CHAS. L. DE RYDER, Pleasanton, Cal.

A Choice Collection of Kentucky Saddle Horses for Sale.

Montbaine

Reg. No. 48667

SON OF

MOKO 24457 (futurity sire) and Krem Marie (dam of 4 in 2:30) by Kremlin 2:07³/₄; second dam Maymont by Blackmont; third dam Maywood by Blackwood, etc.

Montbaine is a rich, mahogany bay stands 16 hands. A grand individual bred to sire speed and his colts at the Sacramento race track show that he does. He is a sure foal getter and will be allowed to serve a limited number of mares by making special arrangements with

P. W. HODGES,

4416 Stanford Ave., Sacramento,

CAL.

Sired by Nutwood Wilkes 2:16³/₄ Sire of Cops de Oro 1:59 Jno. A. McKerron 2:04³/₄ etc.

CHESTNUT TOM

Record 2:15 Reg. No. 43488

Dam by Director 2:17 2nd dam by Nutwood 2:18³/₄; 3rd dam by Geo. M. Patchen Jr. 2:27; 4th dam by Williamson's Belmont.

WILBUR LOU 2:19³/₄, Champion Yearling Colt Trotter of the World.

The dam of Wilbur Lou 2:19³/₄ is the only one of the get of Chestnut Tom ever raced.

Will stand at Tulare Fair Grounds, Tulare, Cal. FEE: \$25 the Season. Usual return privilege For further particulars address I. M. LIPSON, Box 464, Tulare, Cal

Santa Rosa Race Meeting

AT THE FAMOUS

Santa Rosa Mile Track

(S. H. BURNS, Proprietor.)

THREE DAYS --- JULY 18, 19, 20 --- THREE DAYS

Entries Close July 1, 1912.

PROGRAM.

FIRST DAY.

| | |
|------------------------|-------|
| 2:20 Trot | \$400 |
| 2:11 Pace | 500 |
| Running Race | 100 |

SECOND DAY.

| | |
|------------------------|-------|
| 2:16 Trot | \$400 |
| 2:15 Pace | 400 |
| Running Race | 100 |

THIRD DAY.

| | |
|------------------------|-------|
| 2:20 Pace | \$400 |
| 2:12 Trot | 500 |
| Running Race | 100 |

CONDITIONS OF HARNESS RACES:

Entries Close Monday, July 1, 1912.

Horses to be named with entry. Entrance fee 5 per cent to enter and 5 per cent deducted from money winners.

Money divided into four moneys—50, 25, 15 and 10 per cent.

The Association reserves the right to reject any and all entries and declare off or postpone any and all races on account of weather or other sufficient cause.

Nominators may enter the same horse in two races and will be held for only one entrance fee unless he starts his horse in both races.

Nominators have the right of entering two horses in one ownership in any race by the payment of one entrance fee, but only one of the two horses so entered to be started in the race, and the starters to be named by 5 o'clock p. m. the day before the first day of the meeting at which the race is to take place. When a nominator makes a double entry in two races he shall be held for one entrance fee in each race.

All races mile heats, 3 in 5, and no race longer than five heats, and money not decided before fifth heat will be divided according to rank in the summary at the termination of the fifth heat.

Member National Trotting Association.

Running races will be at catch weights; distances to be arranged to suit the horses that will be at the track. Two moneys—\$75 and \$25. Running races will be on the inside 1/2-mile track.

Address all communications to the Secretary.

HENRY NUNAN, Secretary, Santa Rosa, Cal.

S. H. BURNS, Proprietor.

The World's Record Holders

Remington-UMC .22 cal. cartridges have broken two records in two years.

The present world's 100-shot gallery record, 2484 ex 2500, held by Arthur Hubalek, was made with these hard hitting .22's.

They will help you, too, to break your best shooting records.

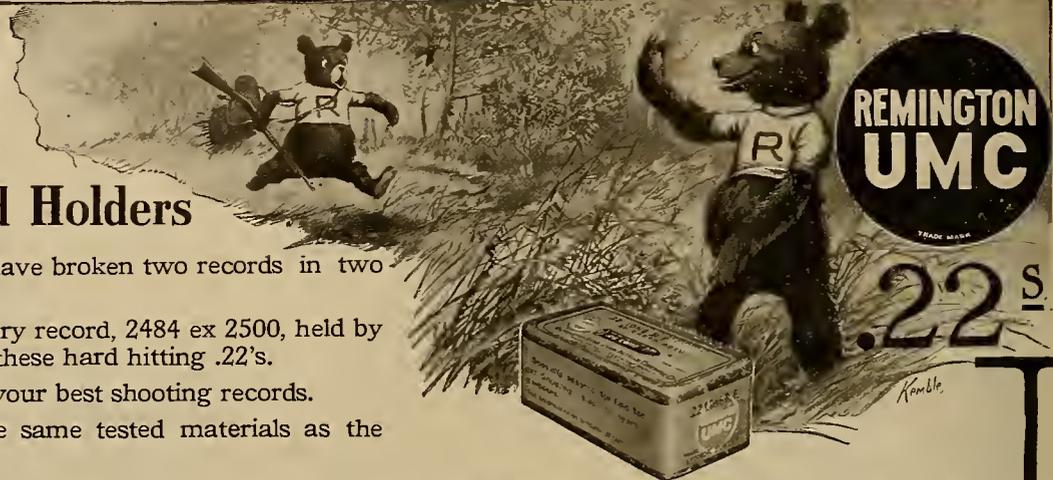

Made with the same care from the same tested materials as the heaviest big game cartridges.

Remington-UMC .22's are made, too, with hollow point bullets. This increases their shocking and killing power. Look for the red ball on every box you buy. .22 shorts, .22 longs, .22 long rifle. Black, Smokeless and Lesmok powders.
